INDEPENDENT AUDITOR'S REPORT ON THE BASIC FINANCIAL STATEMENTS AND SUPPLEMENTAL INFORMATION

August 9, 2013

Superintendent and School Board
Marion County School District

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Marion County School District as of and for the year ended June 30, 2012, which collectively comprise the Marion County School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Marion County School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Marion County School District, as of June 30, 2012, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 9, 2013, on our consideration of the Marion County School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other

D. Scott Nieman, CPA

601-684-4819 Phone 601-684-4818 Fax email snieman@niemanassociates.com

knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marion County School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by the Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133) and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marion County School District's basic financial statements. The other information section, which includes the Statement of Revenues, Expenditures and Changes in Fund Balances, General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances, All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Sincerely,

D. Scott Nieman, CPA
Nieman & Associates, PC
McComb, Mississippi

MANAGEMENT'S DISCUSSION AND ANALYSIS

(This page was left blank intentionally)

MARION COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For The Year Ended June 30, 2012

The following discussion and analysis of Marion County School District's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2012. The intent of this discussion and analysis is to look at the School District's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

- Total net assets for 2012 increased $1,203,535, which represents a 6% increase from fiscal year 2011. Total net assets for 2011 increased $2,594,210, which represents a 15% increase from fiscal year 2010.

- General revenues amounted to $16,694,893 and $17,448,608, or 73% and 72% of all revenues for fiscal years 2012 and 2011, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for $6,124,696, or 27% of total revenues for 2012, and $6,915,180, or 28% of total revenues for 2011.

- The District had $21,616,054 and $21,769,578 in expenses for fiscal years 2012 and 2011; only $6,124,696 for 2012 and $6,915,180 for 2011 of these expenses was offset by program specific charges for services, grants and contributions. General revenues of $16,694,893 for 2012 and $17,448,608 for 2011 were adequate to provide for these programs.

- Among major funds, the General Fund had $14,882,448 in revenues and $14,047,235 in expenditures for 2012, and $14,378,496 in revenues and $12,606,503 in expenditures in 2011. The General Fund's fund balance increased by $385,259 from 2011 to 2012, and increased by $1,798,852 from 2010 to 2011.

- Capital assets, net of accumulated depreciation, decreased by $784,939 for 2012 and decreased by $627,158 for 2011. The decrease for 2012 was due primarily to the disposal of mobile equipment and furniture and equipment coupled with the increase in accumulated depreciation.

- Long-term debt decreased by $904,504 for 2012 and decreased by $517,610 for 2011. The decrease for 2012 was due primarily to principal payments on outstanding long-term debt. The liability for compensated absences increased by $2,099 for 2012 and decreased by $78,668 for 2011.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplemental information, supplemental information, and other information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances. These statements consist of the Statement of Net Assets and the Statement of Activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets presents information on all the District's nonfiduciary assets and liabilities, with the differences between the two reported as "net assets." Over time, increases or decreases in the District's net assets may serve as a useful indicator of whether its financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section and interest on long-term liabilities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds – Most of the District's general activities are reported in its governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the District's near-term financing decisions. The governmental funds Balance Sheet is reconciled to the Statement of Net Assets, and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is reconciled to the Statement of Activities to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts.* Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All non-major funds are combined and presented in these reports as other governmental funds.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. These funds are reported using the accrual basis of accounting. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental funds financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements.

Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on government-wide financial statements, but are recorded as other financing sources on the governmental funds financial statements.

Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Required Supplemental Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules as required supplemental information. The District adopts an annual operating budget for all governmental funds. A budgetary comparison schedule has been provided for the General Fund and each additional major special revenue fund as required by the Governmental Accounting Standards Board.

Supplemental Information

Additionally, a Schedule of Expenditures of Federal Awards as required by OMB Circular A-133 and a Schedule of Instructional, Administrative and Other Expenditures for governmental funds can be found in this report.

Other Information

Although not a required part of the basic financial statements, the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets

Net assets may serve over time as a useful indicator of the District's financial position. Assets exceeded liabilities by $21,077,807 as of June 30, 2012.

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

Table 1 presents a summary of the District's net assets at June 30, 2012 and June 30, 2011.

Table 1
Condensed Statement of Net Assets

	June 30, 2012	June 30, 2011	Percentage Change
Current assets	$ 6,234,723	$ 5,557,902	12.18 %
Restricted assets	7,417,194	7,059,212	5.07 %
Capital assets, net	14,307,130	15,092,069	(5.20) %
Total assets	**27,959,047**	**27,709,183**	**0.90 %**
Current liabilities	237,648	286,815	(17.14) %
Long-term debt outstanding	6,643,592	7,548,096	(11.98) %
Total liabilities	**6,881,240**	**7,834,911**	**(12.17) %**
Net assets:			
Invested in capital assets, net of related debt	8,136,660	8,184,318	(0.58) %
Restricted	11,613,141	10,914,430	6.40 %
Unrestricted	1,328,006	775,524	71.24 %
Total net assets	**$ 21,077,807**	**$ 19,874,272**	**6.06 %**

The following are significant current year transactions that have had an impact on the Statement of Net Assets.

- Decrease in net capital assets in the amount of $784,939.
- The principal retirement of $906,603 of long-term debt.

Changes in net assets

The District's total revenues for the fiscal years ended June 30, 2012 and June 30, 2011 were $22,819,589 and $24,363,788, respectively. The total cost of all programs and services was $21,616,054 for 2012 and $21,769,578 for 2011.

Table 2 presents a summary of the changes in net assets for the fiscal years ended June 30, 2012 and June 30, 2011.

Table 2
Changes in Net Assets

	Year Ended June 30, 2012	Year Ended June 30, 2011	Percentage Change
Revenues:			
Program revenues:			
Charges for services	$ 780,214	$ 794,665	(1.82) %
Operating grants and contributions	5,344,482	6,120,515	(12.68) %
General revenues:			
Property taxes	3,534,640	3,468,217	1.92 %
Grants and contributions not restricted	12,013,765	12,563,620	(4.38) %
Investment earnings	145,211	128,318	13.16 %
Sixteenth section sources	660,540	955,425	(30.86) %
Other	340,737	333,028	2.31 %
Total revenues	**22,819,589**	**24,363,788**	**(6.34) %**
Expenses:			
Instruction	11,805,620	11,696,025	0.94 %
Support services	7,697,896	7,819,124	(1.55) %
Non-instructional	1,547,690	1,466,907	5.51 %
Sixteenth section	221,484	402,819	(45.02) %
Interest on long-term liabilities	343,364	384,703	(10.75) %
Total expenses	**21,616,054**	**21,769,578**	**(0.71) %**
Increase (Decrease) in net assets	**1,203,535**	**2,594,210**	**(53.61) %**
Net Assets, July 1	**19,874,272**	**17,280,062**	**15.01 %**
Net Assets, June 30	**$ 21,077,807**	**$ 19,874,272**	**6.06 %**

Governmental activities

The following table presents the cost of five major District functional activities: instruction, support services, non-instructional, sixteenth section, and interest on long-term liabilities. The table also shows each functional activity's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost presents the financial burden that was placed on the State and District's taxpayers by each of these functions.

Table 3
Net Cost of Governmental Activities

	Total Expenses		Percentage
	2012	2011	Change
Instruction	$ 11,805,620	$ 11,696,025	0.94 %
Support services	7,697,896	7,819,124	(1.55) %
Non-instructional	1,547,690	1,466,907	5.51 %
Sixteenth section	221,484	402,819	(45.02) %
Interest on long-term liabilities	343,364	384,703	(10.75) %
Total expenses	**$ 21,616,054**	**$ 21,769,578**	**(0.71) %**

	Net (Expense) Revenue		Percentage
	2012	2011	Change
Instruction	$ (8,971,890)	$ (8,333,621)	7.66 %
Support services	(6,082,494)	(5,956,207)	2.12 %
Non-instructional	81,664	147,587	(44.67) %
Sixteenth section	(175,274)	(327,454)	(46.47) %
Interest on long-term liabilities	(343,364)	(384,703)	(10.75) %
Total net (expense) revenue	**$ (15,491,358)**	**$ (14,854,398)**	**4.29 %**

- Net cost of governmental activities ($15,491,358 for 2012 and $14,854,398 for 2011) was financed by general revenue, which is primarily made up of property taxes ($3,534,640 for 2012 and $3,468,217 for 2011) and state and federal revenues ($12,013,765 for 2012 and $12,563,620 for 2011). In addition, there was $660,540 and $955,425 in Sixteenth Section sources for 2012 and 2011, respectively.

- Investment earnings amounted to $145,211 for 2012 and $128,318 for 2011.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of $13,568,915, an increase of $1,062,870, which includes a decrease in inventory of $167. $1,675,871, or 12%, of the fund balance is unassigned, which represents the residual classification for the general fund's fund balance that has not been assigned to other funds and that has not been restricted or assigned to specific purposes within the general fund. The remaining fund balance of $11,893,044, or 88%, is either nonspendable, restricted or assigned to indicate that it is not available for spending except only for the purposes to which it is restricted or assigned.

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was $385,259. The fund balance of Other Governmental Funds showed an increase in the amount of $67,524, which includes a decrease in inventory of $167. The increase (decrease) in the fund balances for the other major funds were as follows:

Major Fund		Increase (Decrease)
Title I Fund		no increase or decrease
Sixteenth Section Interest Fund	$	446,072
Sixteenth Section Principal Fund	$	164,015

BUDGETARY HIGHLIGHTS

During the year, the District revised the annual operating budget. Budget revisions were made to address and correct the original budgets to reflect more accurately the sources and uses of funding for the School District. Budget revisions during the fiscal year were routine in nature and were insignificant when compared to total revenues and expenditures of the District.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and major special revenue funds is provided in this report as required supplemental information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2012, the District's total capital assets were $25,118,798, including land, school buildings, building improvements and other improvements, buses, other school vehicles, furniture and equipment, and leased property under capital leases. This amount represents a gross decrease of $158,972 from 2011, due primarily to the disposal of five school buses and various items of furniture and equipment during the fiscal year. Total accumulated depreciation as of June 30, 2012, was $10,811,668, and total depreciation expense for the year was $843,856, resulting in total net capital assets of $14,307,130.

Table 4
Capital Assets, Net of Accumulated Depreciation

	June 30, 2012	June 30, 2011	Percentage Change
Land	$ 179,394	$ 179,394	0.00 %
Construction in Progress	-	50,655	(100.00) %
Buildings	8,877,815	9,225,775	(3.77) %
Building improvements	849,026	701,425	21.04 %
Improvements other than buildings	361,134	372,266	(2.99) %
Mobile equipment	1,000,657	1,258,403	(20.48) %
Furniture and equipment	455,483	568,552	(19.89) %
Leased property under capital leases	2,583,621	2,735,599	(5.56) %
Total	**$ 14,307,130**	**$ 15,092,069**	**(5.20) %**

Additional information on the District's capital assets can be found in Note 5 included in this report.

Debt Administration. At June 30, 2012, the District had $6,643,592 in outstanding long-term debt, of which $956,218 is due within one year. During the fiscal year, the District made principal payments in the amount of $906,603 on outstanding long-term debt. The liability for compensated absences increased $2,099 from the prior year.

Table 5
Outstanding Long-Term Debt

	June 30, 2012	June 30, 2011	Percentage Change
Limited obligation refunding bonds payable	$ 2,614,000	$ 2,940,000	(11.09) %
Certificates of participation payable	465,000	530,000	(12.26) %
Three mill notes payable	760,000	855,000	(11.11) %
Shortfall notes payable	284,833	454,155	(37.28) %
Obligations under energy efficiency leases	2,331,470	2,582,751	(9.73) %
Compensated absences payable	188,289	186,190	1.13 %
Total	**$ 6,643,592**	**$ 7,548,096**	**(11.98) %**

Additional information on the District's long-term debt can be found in Note 6 included in this report.

CURRENT ISSUES

The Marion County School District is financially stable. The District is proud of its community support of the public schools.

The District has committed itself to financial excellence for many years. The District's system of financial planning, budgeting and internal financial controls is well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

The District actively pursues grant funding to supplement the local, state and federal revenues.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

If you have any questions about this report or need additional financial information, contact the Superintendent's Office of the Marion County School District, 1010 Highway 13 North, Suite 2, Columbia, MS 39429.

Exhibit C-1

Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Assets
June 30, 2012

		Amount
Total fund balance - governmental funds		$ 13,568,915
Amounts reported for governmental activities in the Statement of Net Assets are different because:		
1. Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds:		
Land	$ 179,394	
Buildings	14,252,125	
Building improvements	1,036,280	
Improvements other than buildings	873,290	
Mobile equipment	3,265,654	
Furniture and equipment	1,712,611	
Leased property under capital leases	3,799,444	
Accumulated depreciation	(10,811,668)	14,307,130
2. Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported in the funds:		
Limited obligation refunding bonds	(2,614,000)	
Notes payable	(1,044,833)	
Certificates of participation	(465,000)	
Energy efficiency lease obligations	(2,331,470)	
Compensated absences	(188,289)	
Accrued interest payable	(154,646)	(6,798,238)
Total Net Assets - Governmental Activities		$ 21,077,807

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

MARION COUNTY SCHOOL DISTRICT

Exhibit D-1

Reconciliation of Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2012

		Amount
Net Change in fund balances - governmental funds		$ 1,063,037
Amounts reported for governmental activities in the Statement of Activities are different because:		
1. Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay	80,890	
Depreciation expense	(843,856)	(762,966)
2. In the statement of activities, only the gain/loss on the sale of assets is reported, while in the governmental funds, the proceeds from the sale increases financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the assets sold.		(21,973)
3. The isssuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities:		
Payments of debt principal	906,603	
Accrued interest payable	21,100	927,703
4. Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:		
Change in compensated absences	(2,099)	
Change in inventory reserve	(167)	(2,266)
Change in Net Assets of Governmental Activities		$ 1,203,535

The notes to the financial statements are an integral part of this statement.

MARION COUNTY SCHOOL DISTRICT
Statement of Fiduciary Assets and Liabilities
June 30, 2012

Exhibit E

	Agency Funds
Assets	
Cash and cash equivalents	$ 953,870
Total Assets	$ 953,870
Liabilities	
Accounts payable and accrued liabilities	$ 878,598
Due to student clubs	75,272
Total Liabilities	$ 953,870

The notes to the financial statements are an integral part of this statement.

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Basis of Presentation

In February 2009, the GASB issued GASB Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The fund balance amounts for governmental funds have been reclassified in accordance with GASB Statement No. 54. As a result, amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned, or unassigned.

B. Financial Reporting Entity

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the school district's governing board.

As defined by accounting principles generally accepted in the United States of America, the school district is considered a "primary government." The school district is governed by a five-member board, to which each member was elected by the citizens of each defined county district.

For financial reporting purposes, Marion County School District has included all funds and organizations. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

Blended component unit.

The Marion County School District Leasing Authority ("the Authority") as explained in the following paragraph is considered to be blended component unit as determined by Section 2100 of the *Codification of Governmental Accounting and Financial Reporting Standards* and is included in the district's reporting entity.

The Authority is governed by a five-member board which was appointed by the school district's governing board. Although it is legally separate from the school district, it is reported as if it is part of the primary government because its sole purpose is to provide financing for the renovation, improvement, construction, and equipping of certain school facilities. Therefore, all of the Authority's assets, liabilities, fund balances, revenues, expenditures and other financing sources and uses have been included in the government-wide financial statements of the school district (see Note 12).

C. Government-wide and Fund Financial Statements

Government-wide Financial Statements:

The Statement of Net Assets and Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

1. Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

2. *Restricted net assets* result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

3. *Unrestricted net assets* consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements:

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other governmental funds.

The school district reports the following major governmental funds:

General Fund – This is the school district's primary operating fund. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support, and other costs.

Title I Fund – This fund accounts for the federal revenue received under the Title I grants to local educational agencies program and the expenditures incurred as approved by this program

16th Section Principal Fund – This is a permanent fund used to account for resources from sixteenth section lands that are legally restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

16th Section Interest Fund – This is a Special Revenue Fund that accounts for expendable revenues derived from the use of sixteenth section lands held in trust by the school district and from investment of sixteenth section funds.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds – Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds – Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Funds – Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Permanent Funds – Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's program.

FIDUCIARY FUNDS

Agency Funds – Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Fiduciary Fund financial statements. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Ad valorem property taxes are levied by the governing authority of the county on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

The effect of inter-fund activity has been eliminated from the government-wide statements.

Revenues from the Mississippi Adequate Education Program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting* issued in 2005 by the Government Financial Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 2003* issued by the U.S. Department of Education.

E. Encumbrances

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

F. Assets, liabilities, and net assets or equity

1. Cash and Cash equivalents and Investments.

   Cash and cash equivalents.

   The district's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Investments.

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the state of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

Investments for the district, as well as its component units, are reported at fair market value.

2. Receivables and Payables.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of inter-fund loans) or "advances to/from other funds" (i.e. the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Due from Other Governments.

Due from other governments represents amounts due from the State of Mississippi, and various grants and reimbursements from other governments.

4. Inventories and Prepaid Items.

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis). The costs of governmental fund type inventories are reported as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements.

5. Restricted Assets.

Certain resources set aside for repayment of debt are classified as restricted assets on the statement of net assets because their use is limited by applicable debt statutes. Also, the nonexpendable portion of the Permanent Fund, if applicable, is classified as restricted assets because the 16th Section Principal fund is not available for use by the district except as provided for under state statute for loans from this account.

6. Capital Assets.

Capital assets include land, improvements to land, easements, water rights, timber rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Capital assets are reported in the applicable governmental or business type activities

columns in the governmental-wide Statement of Net Assets. Capital assets are recorded at historical cost or estimated historical cost based on appraisals or deflated current replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the thresholds in the table below.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Depreciation is calculated on the straight-line basis for all assets, except land.

The following schedule details the capitalization thresholds:

	Capitalization Policy	Estimated Useful Life
Land	$ –	–
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed. See Note 5 for details.

7. Compensated Absences.

Employees of the school district accumulate sick leave at a minimum amount as required by state law. A greater amount may be provided by school district policy provided that it does not exceed the provisions for leave as provided in Sections 25-3-93 and 25-3-95. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the compensated absence liability payable from expendable available financial resources only if the payable has matured, for example, an employee retires.

8. Long-term liabilities.

In the government-wide financial statements, outstanding debt is reported as liabilities.

The government fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures. See Note 6 for details.

9. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Assigned fund balance includes amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the Superintendent and the Business Manager pursuant to authorization established by the policy adopted by the school district.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the District's general policy to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

(2) Cash and Cash Equivalents and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Investments. Section 29-3-113 and 35-59-43, Miss. Code Ann. (1972), authorizes the school board to invest excess funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificated of deposits and interest bearing accounts with qualified state depositories; (b) direct "United States Treasury obligations; (c) United State Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, not to exceed fifty percent of all monies invested with maturities of thirty days or longer; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or interest in, the open-end or closed-end any management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration, not to exceed twenty percent of invested excess funds. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of $100 or more of any fund must be credited to that fund. Amounts less than $100 can be credited to the General Fund.

Cash and Cash Equivalents.

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was $11,987,809 and $953,870, respectively. The carrying amount of deposits reported in the government-wide statements was: Cash and cash equivalents $4,745,143, and restricted assets $7,417,194. The restricted assets represent the cash balance and investment balance of the Sixteenth Section Principal Fund (Permanent Fund), and the investment balance of the MAEP Retirement Fund, respectively. The bank balance was $13,905,047.

Custodial Credit Risk – Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the district. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the district.

Investments.

As of June 30, 2012, the district had the following investments.

Investment Type	Maturities (in years)	Fair Value	Rating
Hancock Horizon Treasury Securities			
Money Market Mutual Funds	Less than 1 year	$ 172,998	AAAm
Governmental National Mortgage Association	More than 10 years	1,530	Not Rated
Total Investments		$ 174,528	

Interest Rate Risk. The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Section 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk -- Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk. The investments in the Hancock Horizon Treasury Securities Money Market Mutual Funds are uninsured and unregistered and are not backed by the full faith and credit of the federal government.

(3) Inter-fund Receivables, Payables and Transfers

The following is a summary of inter-fund transactions and balances:

A. Due To/From:

Receivable Fund	Payable Fund	Amount
General Fund	Title I	$ 299,692
General Fund	Other governmental funds	431,660
Total		$ 731,352

During the course of the school year, expenditures are paid in certain funds on a reimbursement basis causing the district to have to borrow from other funds in order to not create a deficit in any particular fund. The above inter-fund loans were made to cover year end expenditures.

B. Advances To/From Other Funds.

Receivable Fund	Payable Fund	Amount
16th Section Principal Fund	General Fund	$ 1,422,921
Total		$ 1,422,921

Sixteenth section principal loans payable.

[Note: The sixteenth section principal loans payable is not reflected on the Statement of Net Assets because these funds were borrowed by the General Fund from the Sixteenth Section Trust Fund (Permanent Trust) in accordance with Section 29-3-113, Miss. Code Ann. (1972).] The revenues and expenditures associated with these transactions were reflected on Exhibit D.

The following is a schedule by years of the total payments due on this debt:

Year Ending June 30	Principal	Interest	Total
2013	$ 196,935	$ 56,917	$ 253,852
2014	157,715	49,039	206,754
2015	164,024	42,731	206,755
2016	170,584	36,170	206,754
2017	117,872	29,347	147,219
2018-2022	504,765	79,257	584,022
2023-2024	111,026	6,705	117,731
Total	$ 1,422,921	$ 300,166	$ 1,723,087

C. Inter-fund Transfers.

Transfer Out	Transfer In	Amount
General fund	Other governmental funds	$ 517,426
Title I	General fund	18,832
Other governmental funds	General fund	48,640
Other governmental funds	Other governmental funds	96,415
Other governmental funds	Sixteenth section interest fund	396
Sixteenth section interest fund	Sixteenth section interest fund	272,888
Sixteenth section principal fund	Sixteenth section interest fund	103,811
Sixteenth section principal fund	Sixteenth section principal fund	65,837
Total Funds		$ 1,124,245

The above transfers were for distribution of MAEP monies to various funds, and the transfer of sixteenth section principal and interest funds.

(4) Restricted Assets

The restricted assets represent the cash balance and investment balance, totaling $7,242,666 and $1,530, respectively, of the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs.

In addition, the restricted assets include the investment balance, totaling $172,998, of the MAEP Retirement Fund.

(5) Capital Assets

The following is a summary of changes in capital assets for governmental activities:

	Balance 07/01/11	Additions	Retirements	Completed Construction	Adjustments	Balance 06/30/12
Non-depreciable capital assets:						
Land	$ 179,394	$ -	$ -	$ -	$ -	$ 179,394
Construction in progress	50,655	37,598	-	(88,253)	-	-
Total non-depreciable capital assets	230,049	37,598	-	(88,253)	-	179,394
Depreciable capital assets:						
Buildings	14,356,782	-	-	88,253	(192,910)	14,252,125
Building improvement	843,370	-	-	-	192,910	1,036,280
Improvements other than buildings	873,290	-	-	-	-	873,290
Mobile equipment	3,459,154	-	(193,500)	-	-	3,265,654
Furniture and equipment	1,715,681	43,292	(46,362)	-	-	1,712,611
Leased property under capital leases	3,799,444	-	-	-	-	3,799,444
Total depreciable capital assets	25,047,721	43,292	(239,862)	88,253	-	24,939,404
Less accumulated depreciation for:						
Buildings	(5,131,007)	(247,162)	-	-	3,858	(5,374,311)
Building improvement	(141,945)	(41,451)	-	-	(3,858)	(187,254)
Improvements other than buildings	(501,024)	(11,131)	-	-	-	(512,155)
Mobile equipment	(2,200,751)	(238,396)	174,150	-	-	(2,264,997)
Furniture and equipment	(1,147,129)	(153,738)	43,739	-	-	(1,257,128)
Leased property under capital leases	(1,063,845)	(151,978)	-	-	-	(1,215,823)
Total accumulated depreciation	(10,185,701)	(843,856)	217,889	-	-	(10,811,668)
Total depreciable capital assets, net	14,862,020	(800,564)	(21,973)	88,253	-	14,127,736
Governmental activities capital assets, net	$ 15,092,069	$ (762,966)	$ (21,973)	$ -	$ -	$ 14,307,130

Depreciation expense was charged to the following governmental functions:

	Amount
Instruction	$ 370,271
Support Services	453,341
Non-instructional	20,244
Total depreciation expense	$ 843,856

Commitments under construction contracts at June 30, 2012, are summarized as follows:

	Spent to June 30, 2012	Remaining Commitment
Dressing room WMH Baseball & Softball	$ 88,253	$ -
Total	$ 88,253	$ -

Construction projects included in governmental activities are funded with proceeds from the three mill note.

(6) Long-term liabilities

The following is a summary of changes in long-term liabilities and other obligations for governmental activities:

	Balance 07/01/11	Additions	Reductions	Balance 06/30/12	Amounts due within one year
A. Limited obligation bonds payable, refunded Series 2008	$ 2,940,000	$ -	$ 326,000	$ 2,614,000	$ 337,000
B. Certificates of participation payable	530,000	-	65,000	465,000	70,000
C. Three mill notes payable	855,000	-	95,000	760,000	99,000
D. Shortfall notes payable, Series 2009	128,989	-	63,072	65,917	65,917
E. Shortfall notes payable, Series 2010	325,166	-	106,250	218,916	108,250
F. Obligations under energy efficiency lease	2,582,751	-	251,281	2,331,470	266,637
G. Compensated absences payable	186,190	2,099	-	188,289	9,414
Total	$ 7,548,096	$ 2,099	$ 906,603	$ 6,643,592	$ 956,218

A. Limited obligation bonds payable.

Limited obligation bonds are direct obligations and pledge the full faith and credit of the school district. Limited obligation bonds currently outstanding are as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
State aid capital improvement bonds, Series 1998	4.4%-4.6%	03/01/98	02/01/18	$ 5,320,000	$ 2,614,000
		Total		$ 5,320,000	$ 2,614,000

Details of the district's June 30, 2012 limited obligation bonded indebtedness are as follows:

Year Ending June 30	Principal	Interest	Total
2013	$ 337,000	$ 93,030	$ 430,030
2014	348,000	81,924	429,924
2015	359,000	70,450	429,450
2016	372,000	58,608	430,608
2017	384,000	46,364	430,364
2018-2019	814,000	54,320	868,320
Total	$ 2,614,000	$ 404,696	$ 3,018,696

This debt will be retired from the MAEP Retirement Fund.

The state aid capital improvement bonds are secured by an irrevocable pledge of certain revenues the district received from the State of Mississippi pursuant to the Mississippi Accountability and Adequate Education Program Act, Sections 37-151-1 through 37-151-7, Miss. Code Ann. (1972). The state aid capital improvement bonds are not included in the computation of the debt limit percentage.

Prior Year Defeasance of Debt – In prior years, the school district defeased certain State Aid capital improvement bond by placing the proceeds of a new bond in an irrevocable trust to provide for all future debt payment requirements on the state aid capital improvement refunding bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the school district's financial statements. On June 30, 2012, $2,470,000 of bonds outstanding was considered defeased.

B. Certificates of participation payable.

As more fully explained in Note 12, certificates of participation have been issued by the school district. Certificates of participation currently outstanding are as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
Trust certificates	4.93%	06/01/98	06/01/18	$ 2,620,000	$ 465,000
		Total		$ 2,620,000	$ 465,000

Details of the district's June 30, 2012 certificates of participation are as follows:

Year Ending June 30	Principal	Interest	Total
2013	$ 70,000	$ 22,924	$ 92,924
2014	70,000	19,474	89,474
2015	75,000	16,023	91,023
2016	80,000	12,325	92,325
2017	85,000	8,381	93,381
2018	85,000	4,190	89,190
Total	$ 465,000	$ 83,317	$ 548,317

The debt will be retired from the Lease Debt Service Fund.

C. Three mill notes payable.

Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
Three mill note payable	3.67%	7/22/2008	6/15/2020	$ 1,120,000	$ 760,000
		Total		$ 1,120,000	$ 760,000

Details of the district's June 30, 2012 three mill notes payable are as follows:

Three mill notes payable issued on 07/22/2008.

Year Ending June 30	Principal	Interest	Total
2013	$ 99,000	$ 27,892	$ 126,892
2014	68,000	24,259	92,259
2015	70,000	21,763	91,763
2016	73,000	19,194	92,194
2017	75,000	16,515	91,515
2018-2020	375,000	30,351	405,351
Total	$ 760,000	$ 139,974	$ 899,974

This debt will be retired from the Three Mill Note Retirement Fund.

D & E. Shortfall notes payable:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
D. Shortfall note payable, Series 2009	4.51%	8/4/2009	8/4/2012	$ 189,339	$ 65,917
E. Shortfall note payable, Series 2010	2.07%	8/23/2010	8/23/2013	325,166	218,916
		Total		$ 514,505	$ 284,833

D. Details of the district's June 30, 2012 Shortfall Note Payable, Series 2009:

Year Ending June 30	Principal	Interest	Total
2013	$ 65,917	$ 2,973	$ 68,890
Total	$ 65,917	$ 2,973	$ 68,890

E. Details of the district's June 30, 2012 Shortfall Notes Payable, Series 2010:

Year Ending June 30	Principal	Interest	Total
2013	$ 108,250	$ 4,532	$ 112,782
2014	110,666	2,291	112,957
Total	$ 218,916	$ 6,823	$ 225,739

F. Obligations under energy efficiency lease.

Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
Energy Efficiency Lease	5.26%	7/20/2004	7/20/2019	$ 3,799,444	2,331,470
		Total		$ 3,799,444	2,331,470

Details of the district's June 30, 2012 energy efficiency lease payable are as follows:

Year Ending June 30	Principal	Interest	Total
2013	$ 266,637	$ 122,635	$ 389,272
2014	282,870	108,610	391,480
2015	300,028	93,731	393,759
2016	318,160	77,950	396,110
2017	337,322	61,215	398,537
2018-2020	826,453	72,654	899,107
Total	$ 2,331,470	$ 536,795	$ 2,868,265

An energy efficiency lease agreement dated July 20, 2004, was executed by and between the district, the lessee, and First Security Bank, the lessor.

The agreement authorized the borrowing of $3,799,444 for the purchase of energy efficiency equipment, machinery, supplies, building modifications and other energy saving items. Payments shall be made from the District Maintenance Fund and not to exceed fifteen (15) years.

The district entered in this energy efficiency lease agreement under the authority of Section 31-7-14, Miss. Code Ann. (1972).

Upon written notice to the lessor, the lessee has the option of repaying the total amount due as set forth by the agreement.

G. Compensated absences payable.

As more fully explained in Note 1(F)(7), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

(7) Other Commitments

Commitments under construction contracts are described in Note 5.

Operating leases:

The school district has several operating leases for the following:

1. Pitney Bowes
2. 12 copiers

Lease expenditures for the year ended June 30, 2012, amounted to $51,696.

Future lease payments for these leases are as follows:

Year Ending June 30	Amount
2013	$ 51,696
2014	32,414
2015	3,476
2016	488
Total	$ 88,074

(8) Defined Benefit Pension Plan

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 9.00% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The rate increased one time for the year ended June 30, 2012, from July 1, 2011 thru December 31, 2011, the rate was 12%; from January 1, 2012 thru June 30, 2012, the rate was 12.93% of annual covered payroll. The contribution requirements of PERS members and employers are established, and may be amended only by the State of Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2012, 2011 and 2010 were $1,456,862, $1,392,356 and $1,517,653, respectively, which equaled the required contributions for each year.

(9) Sixteenth Section Lands

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising there from as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future rental payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

Year Ending June 30	Amount
2013	$ 135,455
2014	118,091
2015	106,829
2016	97,945
2017	68,091
2018-2022	232,411
2023-2027	209,780
2028-2032	192,327
2033-2037	90,559
2038-2042	5,400
2043-2047	3,520
2048-2052	3,520
Total	$ 1,263,928

(10) Contingencies

Federal Grants. – The school district has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from the grantor audit may become a liability of the school district.

Litigation. - The school district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to various proceedings. However, the school district's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the school district.

(11) Risk Management

The school district is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(12) Trust Certificates

A trust agreement dated June 1, 1998, was executed by and between the school district and Trustmark National Bank of Jackson, Mississippi as trustees.

The trust agreement authorized the issuance of trust certificates in the principal amount of $2,620,000 to provide financing for the construction and renovation of school buildings and related facilities and equipment (the "project").

The project is leased to the school district in accordance with the provisions of the Emergency School Leasing Authority Act as described in Section 37-7-351, et. Seq., Miss. Code Ann. (1972). The lease represents a capital lease under which ownership of the project will transfer to the school

district upon complete retirement of the trust certificates. The school district is obligated to make lease payments to the trustee in an amount equal to the debt service requirements for the trust certificates. The lease rental payments by the school district are used by the trustee to pay the principal and interest payments due on the trust certificates.

It is not anticipated the project will have sufficient value to satisfy the certificates in the event the school district defaults under the lease; therefore, the source of payment of the certificates is the responsibility of the school district. See Note 6 for details regarding the debt service requirement on the trust certificates.

Using the guidance provided in Section 2100 of the *Codification of Governmental Accounting and Financial Reporting Standards* dealing with defining the reporting entity, the trust accounts created by this trust agreement were deemed to constitute an inseparable part of the school district. Therefore, the assets, liabilities, equity, revenues, expenditures and other financing sources/uses of the trust accounts created by this trust agreement are part of the school district's financial statements, thereby eliminating the effects of the lease agreement for financial reporting purposes.

(13) Subsequent Events

Events that occur after the statement of net assets date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net assets date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net assets date require disclosure in the accompanying notes. Management of the Marion County School District evaluated the activity of the district through August 9, 2013, and determined that the following subsequent event has (have) occurred requiring disclosure in the notes to the financial statements:

On August 13, 2012, the Board approved the purchase of school intercom systems from Rebel Sound Systems, Inc. for $49,150, which is to be paid from 16th Section funds.

On September 10, 2012, the Board approved the purchase of new cameras for the school buses for $419,979.

On February 11, 2013, the Board voted to approve the purchase of eight (8) sixty-five passenger buses and one (1) handicapped equipped bus which will be paid for by a loan from the 16th Section Principal Fund.

On May 13, 2013, the Board voted to approve a Note Resolution for the Qualified School Construction Bond in the amount of $2.5 Million.

On May 13, 2013, the Board voted to accept the bid of Jay Van Corporation in the amount of $1,033,000 for construction and renovation of school facilities.

On August 12, 2013, the Board voted to re-finance two (2) MAEP Bond issues in the approximate aggregate principal amounts of $675,000 and $1,957,000.

MARION COUNTY SCHOOL DISTRICT

Notes to the Required Supplemental Information
For the Year Ended June 30, 2012

(1) Basis of Presentation.

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

(2) Budget Amendments and Revisions.

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15th of each year. A budgetary comparison is presented for the general fund and each major special revenue fund consistent with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

August 9, 2013

Superintendent and School Board
Marion County School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Marion County School District as of and for the year ended June 30, 2012, which collectively comprise Marion County School District's basic financial statements and have issued our report thereon dated August 9, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Marion County School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the school district's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the school district's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the school district's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

D. Scott Nieman, CPA

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the school district's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

However, we noted a certain immaterial instance of noncompliance or other matter that we have reported to management of the school district in a separate letter dated August 9, 2013, which is included in this report.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

D. Scott Nieman, CPA

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

August 9, 2013

Superintendent and School Board
Marion County School District

Compliance

We have audited the compliance of the Marion County School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Marion County School District's major federal programs for the year ended June 30, 2012. The school district's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the school district's management. Our responsibility is to express an opinion on the school district's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the school district's compliance with those requirements.

In our opinion, Marion County School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of the Marion County School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the school district's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the school district's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the school board and management, others within the entity, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

D. Scott Nieman, CPA

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
STATE LAWS AND REGULATIONS

August 9, 2013

Superintendent and School Board
Marion County School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Marion County School District as of and for the year ended June 30, 2012, which collectively comprise Marion County School District's basic financial statements and have issued our report thereon dated August 9, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds." As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss Code Ann. (1972), disclosed no instances of noncompliance. The district reported $4,949 of classroom supply funds carried over from previous years.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of our procedures performed to test compliance with the requirement of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the following immaterial instance of noncompliance with other state laws and regulations. Our finding and recommendation and your response are as follows:

1 Finding

As prescribed by section 25-11-127(4)(b), Miss. Code Ann. (1972), when re-hiring a retiree notice shall be given in writing (Retirement Form 4b) to the executive director of PERS, setting forth the facts upon which the employment is being made, and the notice shall be given within five (5) days from the date of employment and also from the date of termination of the employment.

During our examination of all Forms 4b, there were seven forms that were not filed within the 5-day statutory limitation.

Recommendation

We recommend that the school district comply with section 25-11-127(4)(b), Miss. Code Ann. (1972), and file all forms 4b timely.

Response

We will comply with section 25-11-127(4)(b), Miss. Code Ann. (1972) to file these forms in a timely manner.

The Office of the State Auditor or a public accounting firm will review, on the subsequent year's audit engagement, the findings in this report to insure that corrective action has been taken.

The Marion County School District's response to the finding included in this report was not audited and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Sincerely,

D. Scott Nieman, CPA
