INDEPENDENT AUDITORS' REPORT

Members of the Board of Supervisors
Alcorn County, Mississippi

Reports on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Alcorn County, Mississippi, (the County) as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the basic financial statements of the County's primary government as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on the Aggregate Discretely Presented Component Units

The financial statements do not include financial data for the County's legally separate component units. Accounting principles generally accepted in the United States of America require the financial data for those component units to be reported with the financial data of the County's primary government unless the county also issues financial

statements for the financial reporting entity that include the financial data for its component units. The county has not issued such reporting entity financial statements. The amount by which this departure would affect the assets, liabilities, net position, revenues and expenses of the aggregate discretely presented component units is not reasonably determinable.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on the Aggregate Discretely Presented Component Units” paragraph, the financial statements referred to above do not present fairly, the financial position of the aggregate discretely presented component units of Alcorn County, Mississippi, as of September 30, 2013, or the changes in financial position thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinion

In addition, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Alcorn County, Mississippi, as of September 30, 2013, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule and corresponding notes, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Omission of Required Supplementary Information

Alcorn County, Mississippi, has omitted the Management’s Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Alcorn County, Mississippi’s basic financial statements. The accompanying Schedule of Surety Bonds for County Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 21, 2016, on our consideration of Alcorn County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Alcorn County, Mississippi's internal control over financial reporting and compliance.

**ALCORN COUNTY, MISSISSIPPI
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

	<u>Amount</u>
Net Changes in Fund Balances - Governmental Funds	\$ (786,498)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net position differs from the change in fund balances by the amount that depreciates of \$1,414,474 exceeded capital outlay of \$1,331,904 in the current period.	(82,570)
In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increase financial resources. Thus, the change in net position differs from the change in fund balances by the amount of the net gain of \$275,043 and proceeds from the sale of \$481,384 in the current period.	(206,341)
Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	45,975
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
TVA In Lieu of Tax	(46,371)
Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Thus, the change in net position differs from the change in fund balances by the amount that debt repayments \$1,929,598 exceeds debt proceeds \$1,191,992	737,606
Under the modified accrual basis of accounting used in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due rather than as it accrues. Thus, the change in net position differs from the change in fund balances by a combination of the following items:	
The amount of increase in claims payable-long term	(327,125)
The amount of increase in prepaid insurance.	21,907
The amount of decrease in accrued interest payable.	9,392
Amortization of bond issuance cost.	(7,523)
Change in Net Position of Governmental Activities	\$ (641,548)

**ALCORN COUNTY, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

1. Significant Accounting Policies

A. Financial Reporting Entity

Alcorn County is a political subdivision of the State of Mississippi. The county is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Alcorn County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the county.

Management has chosen to omit from these financial statements the following component units which has significant operational or financial relationships with the county. Accordingly, the financial statements do not include the data of these component units necessary for reporting in conformity with accounting principles generally accepted in the United States of America.

- Alcorn County Human Resource Agency
- Alcorn County Volunteer Fire Districts

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the county legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor
- Tax Collector
- Sheriff

B. Basis of Presentation

The county's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, fund financial statements, and accompanying note disclosures which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information concerning the county as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support.

The Statement of Net Position presents the financial condition of the governmental activities and business-type activities of the county at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the county's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as

1. Significant Accounting Policies - continued

B. Basis of Presentation – continued

Government-wide Financial Statements (continued):

program revenues are presented as general revenues of the county, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business-type activity or governmental function is self-financing or draws from the general revenues of the county.

Fund Financial Statements:

Fund financial statements of the county are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into governmental, proprietary and fiduciary. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column as Other Governmental Funds.

C. Measurement Focus and Basis of Accounting

The Government-Wide, Proprietary Funds and Fiduciary Fund (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the county. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The county's Proprietary Funds apply all applicable Governmental Accounting Standards Board (GASB) pronouncements and only the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

The revenue and expenses of Proprietary Funds are classified as operating or nonoperating. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund's primary operations. All other revenues and expenses are reported as nonoperating.

Government financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

C. Measurement Focus and Basis of Accounting – continued

The county reports the following major Governmental Funds:

General Fund – This fund is used to account for and report all financial resources not accounted for and reported in another fund.

Garbage and Solid Waste Fund – This fund is used to account for activities of cost of collecting and transporting garbage.

The county reports the following major Proprietary Fund:

Alcorn County Regional Correctional Facility Fund – This fund is used to account for the county’s activities for operating the correctional facility.

Additionally, the county reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds – These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Debt Service Funds – These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Funds – These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

PROPRIETARY FUND TYPES

Enterprise Funds – These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the county had decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

FIDUCIARY FUND TYPES

Agency Funds – These funds account for various taxes, deposits and other monies collected or held by the county, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

D. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

E. Deposits and Investments

State law authorizes the county to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the county may invest in certain repurchase agreements.

**ALCORN COUNTY, MISSISSIPPI

FOR THE YEAR ENDED SEPTEMBER 30, 2013**

I. Significant Accounting Policies – continued

E. Deposits and Investments – continued

State law authorizes the county to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the county may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value.

F. Receivables

Receivables are reported net of allowances for uncollectible accounts, where applicable.

G. Interfund Transactions and Balances

Transactions between funds that are representative of short-term lending/borrowing arrangements, and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds". Noncurrent portions of interfund receivables and payables are reported as "advances to/from other funds". Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable Governmental Funds to indicate that they are not available for appropriation and are not expendable available financial resources. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items, such as prepaid insurance, are not reported for Governmental Fund types since the costs of such items are accounted for as expenditures in the period of acquisition.

I. Restricted Assets

Proprietary Fund assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions and donor specifications have been reported as restricted assets. Certain proceeds of the county's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The "debt service reserve" account is used to report resources set aside to subsidize potential deficiencies from the county's operation that could adversely affect debt service payments. The "project fund" account is used to report those proceeds of revenue bonds issuances that are restricted for use in construction. The "revenue" fund is used to account for all revenues of the correctional facility and to provide payment for operating and maintenance expenses as well as required monthly deposits to other accounts to meet minimum requirements of trust agreements. The "depreciation and operating reserve" fund is used to pay the costs of major repairs and replacements to the correctional facility the costs of which are such that they should be spread over a number of years rather than charged as a current expense in a single year. The "insurance payment" fund is used to pay the annual insurance premium for insurance for the correctional facility. The "general" fund is used to pay the principal and interest payments due to the county's enterprise fund revenue bonds. When both restricted and nonrestricted assets are available for use, the policy is to use restricted assets first.

J. Capital Assets

Capital acquisition and construction are reflected as expenditures in Governmental Fund Statements and the related assets are reported as capital assets in the applicable governmental or business type activities column in the government-wide financial statement. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure, costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. Interest cost incurred during the construction of Proprietary Fund capital assets is capitalized as part of the cost of construction. Donated capital assets are recorded at their fair value at the time of donation.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements and proprietary fund. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

	Capitalization Thresholds	Estimated Useful Life
Land	\$ -	N/A
Infrastructure	-	20-50 years
Buildings	50,000	40 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furnitures and equipment	5,000	3-7 years
Leased property under capital leases	*	*

*Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

K. Long-term liabilities

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligations indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements and in the Proprietary Fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business type activities or Proprietary Funds Statement of Net Position. Bonds premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

L. Equity Classifications

Government-wide Financial Statements:

Equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowing attributable to the acquisition, construction or improvement of those assets.

Restricted net position – Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position – All other net position not meeting the definition of “restricted” or “net investment in capital assets.”

Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund equity is classified as nonspendable, restricted, committed, assigned or unassigned. The following are descriptions of fund classifications used by the county:

Nonspendable fund balance includes amount that cannot be spent. This includes amounts that are either not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds from the collection of those receivables or from the sale of those properties are restricted, committed or assigned) or amounts that are legally or contractually required to be maintained intact, such as a principal balance of a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the county's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the county's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

M. Property Tax Revenues

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the county. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Supervisors, each year at the meeting in September, levies property taxes for the ensuing fiscal year, which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectibility criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

N. Intergovernmental Revenues in Governmental Funds

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

O. Compensated Absences

The county has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave or unused vacation leave. For the year ended September 30, 2013, Alcorn County recognized no liability.

2. Prior Period Adjustment

A summary of significant fund equity adjustments is as follows:

Exhibit 2 – Statement of Activities

Explanation	Amount
Error in Construction in Progress	\$ (17,125)

**ALCORN COUNTY, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

3. Deposits and Investments

Deposits

The carrying amount of the county's total deposits with financial institutions at September 30, 2013, was \$1,657,341 and the bank balance was \$1,812,478. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the county will not be able to recover deposits or collateral securities that are in the possession of an outside party. The county does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the county. Deposits above FDIC coverage are collateralized by the pledging financial institutions' trust department or agent in the name of the Mississippi State Treasurer on behalf of the county.

Investments

As provided in Section 91-13-8, Miss. Code Ann. (1972), the following investments of the county are handled through a trust indenture between the county and the trustee related to the operations of the Alcorn County Regional Correctional Facility.

Investments balances at September 30, 2013, are as follows:

<u>Investment Type</u>	<u>Maturities</u>	<u>Fair Value</u>	<u>Rating</u>
United States Treasury Bills	5 months	\$ 1,724,714	AA

Interest rate risk. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, Section 19-9-29, Miss. Code Ann. (1972) limits the maturity period of any investment to no more than one year.

Credit Risk. State law limits investments to those authorized by Sections 19-9-29 and 91-13-8, Miss. Code Ann. (1972). The county does not have a formal investment policy that would further limit its investments choices or one that addresses credit risk.

Custodial Credit Risk – Investments. Custodial credit risk is the risk that in the event of the failure of the counterparty, the county will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The county does not have a formal policy for custodial credit risk. Of the County's investment, \$1,724,714 of underlying securities were held by the investment's counterparty on behalf of the county, not in the name of the county.

9. Other Postemployment Benefits

Plan Description

The Alcorn County Board of Supervisors administers the county's health insurance plan which is authorized by Sections 25-15-101 et seq., Miss. Code Ann. (1972). The county's health insurance plan may be amended by the Alcorn County Board of Supervisors. The county purchases health insurance coverage from a commercial insurance company and offers health insurance benefit coverage through the county's health insurance plan (the Plan). Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the county has a postemployment health care benefit reportable under GASB Statement 45 as a single employer defined benefit health care plan. However, the county has not recorded a liability for other postemployment benefits nor has the county reported the note disclosures which are required by accounting principles generally accepted in the United States of America. The county does not issue a publicly available financial report for the Plan. The county believes that any liability associated with the Plan would be immaterial to the financial statements.

11. Long-Term Debt – continued

Pledge of Future Revenues – The County has pledged future revenues for housing inmates, net of specified operating expenses, to repay \$22,700,000 in limited obligation urban renewal revenue bonds issued in October, 2009. Proceeds from the bonds provided financing for the construction of the Alcorn County Regional Correction Facility. The bonds are not a general obligation of the county and, therefore, are not secured by the full faith and credit of the county. The bonds are payable solely from income derived from an inmate housing agreement with the Mississippi Department of Corrections for housing state prisoners and income received from any other governments for housing and holding prisoners and are payable through 2031. Annual principal and interest payments on the bonds are expected to require less than 36 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$30,931,704. Principal and interest paid for the current year and total inmate housing net revenues were \$1,717,705 and \$4,858,054, respectively.

Annual debt service requirements to maturity for the following debt reported in the Statement of Net Position are as follows:

Governmental Activities:

Legal Debt Margin – The amount of debt, excluding specific exempted debt, that can be incurred by the county is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the county, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever county issues bonds to repair or replace washed out or collapsed bridges on the public roads of the county. As of September 30, 2013, the amount of outstanding debt was equal to 1.36% of the latest property assessment.

Total	\$ 22,186,234	-	919,298	21,266,936	951,019

Prior-Year Defeasance of Debt – In prior years, the county defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the county's financial statements. On September 30, 2013, \$1,955,000 of bonds outstanding were considered defeased.

12. No Commitment Debt (Not Included in Financial Statements)

No commitment debt is repaid only by the entities for whom the debt was issued and includes debt that either bears the county's name or for which a moral responsibility may exist that is not an enforceable promise to pay. No commitment debt explicitly states the absence of obligation by the county other than possibly an agreement to assist creditors in exercising their rights in the event of default. Alcorn County and the City of Corinth issued this debt on a basis of 55% county and 45% city. Because a default may adversely affect the county's own ability to borrow, the principal amount of such debt outstanding at year end is disclosed as follows:

	Balance at Sept. 30, 2013	Alcorn County Share
Hospital revenue refunding bonds 2011A	\$ 81,590,000	\$ 44,874,500
Hospital revenue refunding bonds 2006B	515,000	283,250
Total	\$ 82,105,000	\$ 45,157,750

13. Contingencies

Federal Grants – The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the county. No provision for any liability that may result has been recognized in the county's statements.

**ALCORN COUNTY, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

13. Contingencies—continued

Litigation – The County is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate outcome or liability, if any, of the county with respect to the various proceedings. However, the county’s legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the county.

14. Deficit Fund Balance

The following funds had a deficit balance at September 30, 2013:

Garbage and Solid Waste Fund	\$ 1,242,549
Kimberly Clark ROW Fund	109,785
Sheriff's Dare Grant	1,492
Youth Court Grant	1,565

17. Defined Benefit Pension Plan

Plan Description - Alcorn County, Mississippi, contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Funding Policy - At September 30, 2013, PERS members are required to contribute 9% of their annual covered salary and the county is required to contribute at an actuarially determined rate. The rate at September 30, 2013 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The county's contributions (employer share only) to PERS for the years ending September 30, 2013, 2012, and 2011, were \$763,397, \$681,295, and \$560,049, respectively, equal to the required contributions for each year.

18. Subsequent Events:

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of Alcorn County evaluated the activity of the county through, March 21, 2016, (the date the financial statements were available to be issued), and determined that the following subsequent events have occurred requiring disclosure in the notes to the financial statements. The Office of the State Auditor has an ongoing investigation in Alcorn County. The outcome of the investigation is unknown.

Five individuals that were under investigation have agreed to plea agreements with the Office of the State Auditor resulting in over \$475,000 of restitution to Alcorn County.

The Mississippi Department of Corrections has removed all state inmates from the Alcorn County Regional Correctional Facility, and temporarily suspended the contract with the Alcorn County Regional Correctional Facility.

Subsequent to September 30, 2013, Alcorn County issued the following debt obligations:

Risk Financing

The county finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The county pays premiums to the pool for its workers' compensation insurance coverage, and the participating agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2013, to January 1, 2014. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

**ALCORN COUNTY, MISSISSIPPI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

Notes to the Required Supplementary Information

A. Budgetary Information

Statutory requirements dictate how and when the county's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the county, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor-Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investments balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The county's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation

The Budgetary Comparison Schedule – Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP) basis and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major special revenue fund. The Budgetary Comparison Schedule—Budget and Actual (Non-GAAP Basis) is required supplemental information.

C. Budget/GAAP Reconciliation

The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and each major special revenue fund:

	Governmental Fund Types	
	General Fund	Garbage and Solid Waste Fund
Budget (Cash Basis)	\$ (132,971)	(119,074)
Increase (Decrease)		
Net adjustments for revenue accruals	(21,795)	(59,599)
Net adjustments for expenditures accruals	25,669	(948)
GAAP Basis	\$ (129,097)	(179,621)

D. Excess of actual expenditures over budget in individual funds.

The following funds had an excess of actual expenditures over budget for the year ended September 30, 2013:

Fund	Excess
Garbage and Solid Waste Fund	\$ 463,074

The fund listed above is in violation of Section 19-11-17, Miss. Code Ann. (1972). However, the county has no liability associated with this violation.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF THE
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Members of the Board of Supervisors
Alcorn County, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Alcorn County, Mississippi, as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated March 21, 2016 .

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alcorn County, Mississippi's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as 2013-001, 2013-002, 2013-003, 2013-004, 2013-005, and 2013-006 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alcorn County, Mississippi's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain matters that we reported to the management of Alcorn County, Mississippi, in the Independent Accountant's Report on Central Purchasing System, Inventory Control System and Purchase Clerk Schedules and the Limited Internal Control and Compliance Review Management Report dated March 21, 2016, included within this document.

Alcorn County's Responses to Findings

Alcorn County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. Alcorn County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion of them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT ACCOUNTANT'S REPORT ON CENTRAL PURCHASING
SYSTEM, INVENTORY CONTROL SYSTEM, AND PURCHASE CLERK SCHEDULES
(REQUIRED BY SECTION 31-7-115, MISS. CODE ANN. (1972))**

Members of the Board of Supervisors
Alcorn County, Mississippi

We have examined Alcorn County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with Sections 31-7-101 through 31-7-127, Miss. Code Ann. (1972) and compliance with the purchasing requirements in accordance with the bid requirements of Section 31-7-13, Miss. Code Ann. (1972) during the year ended September 30, 2013. The Board of Supervisors of Alcorn County, Mississippi is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Alcorn County, Mississippi, has established centralized purchasing for all funds of the county and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

The results of our audit procedures disclosed certain instances of noncompliance with the aforementioned code sections. These instances of noncompliance were considered in forming our opinion on compliance. Our findings and recommendations and your responses are disclosed below:

Inventory Control Clerk.

1. Finding -- During the physical inspection of Capital Assets of Alcorn County, several pieces of equipment were not marked as being the property of Alcorn County.

Recommendation -- We recommend that all equipment that is owned by Alcorn County be properly marked.

Response -- This will be corrected by each district.

In our opinion, except for the noncompliance referred to in the preceding paragraph, Alcorn County, Mississippi, complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2013.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with Section 31-7-115, Miss. Code Ann. (1972). The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned examination of the purchasing system and, in our opinion, is fairly presented when considered in relation to that examination.

Alcorn County's responses to the findings included in this report were not audited, and accordingly, we express no opinion on them.

This report is intended for use in evaluating the central purchasing system and inventory control system of Alcorn County, Mississippi, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

Members of the Board of Supervisors
Alcorn County, Mississippi

In planning and performing our audit of the financial statements of Alcorn County, Mississippi for the year ended September 30, 2013, we considered Alcorn County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Alcorn County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the county's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated March 21, 2016 on the financial statements of Alcorn County, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain immaterial instances of noncompliance with state laws and regulations and other matters that are opportunities for strengthening internal controls and operating efficiency. Our findings and recommendations and your responses are disclosed below:

Board of Supervisors.

1. Finding – Thirteen funds had deficit fund balances at year end (see Note 14).

Recommendation – All funds should be examined on a regular basis to see sufficient funds are available before incurring costs. Transfers should be made to funds to keep from having deficit fund balances.

Response:

We will monitor the funds more closely to insure when budgets are required to be amended, that amendments are made in the correct amount and avoid deficit fund balances.

Tax Collector

2. Finding – Section 27-41-9, Miss. Code Ann. (1972) requires that property taxes paid after February 1, shall have interest collected at the rate of 1% per month unpaid. When testing tax receipts, 2 property tax receipts collected after February 1st were found that did not have penalties and interest collected of \$180.03.

Recommendation – We recommend that the tax collector implement controls to insure the interest and penalties are properly collected on all taxes paid after the due date. The tax collector should also remit to the County the \$180.03 of uncollected interest.

Response:

This will be corrected and there will be no penalties waived. I will make sure that the law is followed as it pertains to penalties on late payments.

Alcorn County's responses to the findings included in this report were not audited, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity and is not intended to be and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

Section 2: Financial Statements Findings

Chancery Clerk

Significant Deficiency – Material Weakness

2013-001 Finding – Controls should be strengthened in the payroll function.

Condition:

As reported in the prior years' audit reports, inadequate controls exist in the payroll functions.

Criteria:

Adequate internal controls over the payroll function should include properly completed I-9 forms and documentation approving the pay rate in the personnel files.

Cause:

Procedures have not been put in place to insure that all required forms and current pay rates are in personnel files.

Effect:

The lack of adequate controls could result in a loss of funds to the county due to incorrect payroll amounts.

Recommendation:

The Chancery Clerk should implement an adequate system of internal control over the payroll function to insure that all required forms are properly prepared and there is adequate documentation of all approved pay rates.

Chancery Clerk's Response

This will be corrected.

Board of Supervisors

Significant Deficiency – Material Weakness

2013-002 Finding – The County should implement controls to ensure preparation of its financial statements.

Condition:

During the audit, material adjustments to the financial statements were discovered and reported by the external auditors. The County also relies on its external auditors in assisting in the preparation of external financial statements and related disclosures, including the cash to accrual conversion. Under auditing standards generally accepted in the United States of America, outside auditors cannot be considered part of the entity's internal control structure. The County does not have documented procedures in place that provide for the preparation and review of cash basis to accrual conversion amounts or to prevent or detect material misstatements in the external financial statements. However, County personnel reviewed and approved all cash to accrual conversion entries.

Criteria:

The County is responsible for establishing and maintaining effective internal control over financial reporting.

Cause:

The County has not developed procedures to prepare cash to accrual conversion entries or external financial statements.

Effect:

Due to this oversight, the external auditors were required to make material adjusting journal entries to the financial statements. The lack of accrual basis financial statements could result in the misstatement of accounts on the County's financial statements.

Recommendation:

The County should develop internal control procedures to insure that all material adjustments are reflected in the financial statements. The County should evaluate the costs and benefits of providing for preparation of external financial statements and related disclosures by its personnel.

Response

The Board of Supervisors will establish adequate controls and procedures to ensure that financial transactions are recorded, presented and disclosed in accordance with generally accepted accounting principles.

Significant Deficiency – Material Weakness

2013-003 Finding – Financial data for component units not included in the financial statements.

Condition:

The financial statements of the County do not include the financial data of the County's legally separate component units.

Criteria:

Accounting principles generally accepted in the United States of America require the financial data for the County's component units to be included in the financial data of the County unless the County also issues financial statements for the financial reporting entity that includes the financial data for its component units. The County has not issued such reporting entity financial statements.

Cause:

The County chose not to include the financial statements of its component units.

Effect:

The failure to include the financial statements of the component units could result in the financial statements of the County to be misleading.

Recommendation:

In order for the County to comply with accounting principles generally accepted in the United States of America, the County should include the County's component units.

Response:

Alcorn County Human Resources Agency issues a separate audited financial statement. The County did not choose to include the component units in the County financial statements. The Board does not believe the financial statements are misleading without the component units included.

Significant Deficiency – Material Weakness

2013-004 Finding – The County should implement controls to ensure equipment is properly marked.

Condition:

During the physical inspection of capital assets of Alcorn County, several pieces of equipment were not marked as being the property of Alcorn County.

Criteria:

Section 25-1-87, Miss. Code Ann. (1972) requires that the property of the County being properly marked.

Cause:

Unknown

Effect:

Failure to properly mark the equipment as required by law could allow for the misuse of County property.

Recommendation:

We recommend that all equipment of Alcorn County be properly marked as required by Section 25-1-87, Miss. Code Ann. (1972).

Response:

This will be corrected by each department.

Significant Deficiency – Material Weakness

2013-005 Finding – The County failed to pay the Alcorn County Regional Jail for housing the County inmates.

Condition:

Alcorn County did not pay to the Alcorn County Regional Jail the amount billed for housing the County inmates in the amount of \$497,315.

Criteria:

Alcorn County is required to pay the Alcorn County Regional Jail monthly for the housing of county inmates.

Cause:

Unknown

Effect:

Failure to properly pay for the housing of inmates could result in a lack of funds to cover the cost of operations.

Recommendation:

We recommend that Alcorn County make the monthly payments for the housing of inmates and pay the past due amounts as soon as possible.

Response:

After the board approved the millage increase for the General Fund, the revenues should be sufficient for the county to meet this obligation.

Tax Collector

Significant Deficiency – Material Weakness

2013-006 Finding – The Tax Collector should implement controls to ensure all penalties are collected.

Condition:

During the testing of auto and property tax receipts collected by the tax collector's office, of the 40 receipts tested, 2 property tax collected after February 1st were found that did not have penalties and interest collected of \$180.03.

Criteria:

Section 27-41-9, Miss. Code Ann. (1972) requires that property taxes paid after February 1, shall have interest collected at the rate of 1% per month unpaid.

Cause:

Unknown

Effect:

Failure to collect interest on delinquent taxes results in a loss of revenue for the County.

Recommendation:

We recommend that the tax collector implement controls to ensure that interest and penalties are properly collected on all taxes paid after the due date. The tax collector should also remit to the County the \$180.03 of uncollected interest.

Response:

This will be corrected and there will be no penalties waived. I will make sure that the law is followed as it pertains to penalties on late payments.
