## INDEPENDENT AUDITOR'S REPORT

Members of the Board of Supervisors  
Panola County  
Batesville, Mississippi

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Panola County, Mississippi (the County) as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the basic financial statements of the County's primary government as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Basis for Adverse Opinion on the Aggregate Discretely Presented Component Units**

The financial statements do not include financial data for the County's legally separate component units. Accounting principles generally accepted in the United States of America require the financial data for those component units to be reported with the financial data of the County's primary government unless the County also issues financial statements for the financial reporting entity that include the financial data for its component units. The County has not issued such reporting entity financial statements. The amount by which this departure would affect the assets, liabilities, net position, revenues and expenses of the aggregate discretely presented component units is not reasonably determinable.

**Adverse Opinion**

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on the Aggregate Discretely Presented Component Units" paragraph, the financial statements referred to above do not present fairly, the financial position of the aggregate discretely presented component units of Panola County, Mississippi as of September 30, 2014, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Unmodified Opinions**

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of Panola County, Mississippi, as of September 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Budgetary Comparison Schedules and corresponding notes be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary and Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Panola County, Mississippi's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, (Audit of States, Local Governments and Non-Profit Organizations), is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other

and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Schedule of Surety Bonds for County Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated July 20, 2015, on our consideration of Panola County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Panola County, Mississippi's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

PANOLA COUNTY, MISSISSIPPI  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
September 30, 2014

**INTRODUCTION**

The discussion and analysis of Panola County's financial performance provides an overall narrative review of the County's financial activities for the year ended September 30, 2014. The intent of this disclosure and analysis is to look at the County's performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the County's financial performance.

Panola County is located in northwest Mississippi. The population, according to the current census, is currently estimated at 34,444. The local economic base is driven by manufacturing plants.

**FINANCIAL HIGHLIGHTS**

Panola County is financially strong. The Panola County Board of Supervisors has committed itself to financial excellence by using sound financial planning, budgeting and strong internal controls.

Panola County continues to show excellent growth economically and the population remains stable. Strong growth has allowed the County to meet its financial obligations.

Total net position increased \$ 1,668,960, which represents a 2.9% increase over the prior fiscal year. The County's ending cash balance increased by \$800,652, which represents a 4.8% increase over the prior fiscal year.

The County had \$25,419,579 in total revenues, which represents an \$1,426,116 or 5.9% increase over the prior fiscal year. Property tax revenues account for \$12,797,514 or 50.3% of total revenues.

The County had \$23,417,835 in total expenses, which represents an increase of \$4,651,259 or 24.8% increase from the prior fiscal year.

Among major funds, the General Fund had \$10,841,356 in revenues and \$10,348,176 in expenditures. The ending cash balance for the General Fund increased \$351,486 or 4.2% over the prior fiscal year. The Countywide Road Fund had \$6,611,231 in revenues and \$6,692,115 in expenditures. The Countywide Road Fund's ending cash balance increased \$59,108 or 2.9% over the prior fiscal year. The Bridge Fund had \$1,586,962 in revenues and \$2,712,370 in expenditures. The Bridge and Culvert Fund's cash balance increased \$265,899 or 11.0% over the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
September 30, 2014

**Government-wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to private-sector businesses.

The **Statement of Net Position** presents information on all County assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The **Statement of Activities** presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or part of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government; public safety; public works (roads and bridges); health and welfare; culture and recreation; conservation of natural resources; economic development; and interest on long-term debt. The business-type activities of the County include solid waste collection.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a county's near-term financing requirements. Governmental funds include the general, special revenue, debt service and capital projects funds.

PANOLA COUNTY, MISSISSIPPI  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
September 30, 2014

The focus of governmental funds is narrower than that of the government-wide financial statements, to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements is useful. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds in accordance with the Mississippi County Financial Accounting Manual issued by the Mississippi Office of the State Auditor. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All other non-major funds are combined together and presented in these reports as other governmental funds.

**Proprietary Funds** are maintained two ways. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for the Garbage Collection Fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County does not use any internal service funds.

Fund financial statements for the proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Garbage Collection Fund is considered to be a major fund of the County.

**Fiduciary Funds** are used to account for resources held for the benefit of parties outside the county government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accrual basis of accounting is used for fiduciary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The County's fiduciary assets and liabilities are presented in a separate Statement of Fiduciary Assets and Liabilities.

**Notes to Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

PANOLA COUNTY, MISSISSIPPI  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
September 30, 2014

In addition to the basic financial statements and accompanying notes, this report also presents **Required Supplementary Information** concerning the County's budget process. The County adopts an annual operating budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund and each additional major fund.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net Position** - Net Position may serve over time as a useful indicator of a government's financial position. In the case of Panola County, assets exceeded liabilities by \$59,875,563 as of September 30, 2014. This is an increase of \$1,668,960 or 2.9% when compared to the prior fiscal year.

One of the largest portions of the County's net position, \$48,037,606 or 80.7% of total net position, reflects its net investment in capital assets (e.g. roads, bridges, land, buildings, mobile equipment, furniture and equipment, leased property under capital lease and construction in progress) less related outstanding debt used to acquire such assets. The County uses these capital assets to provide services to its citizens.

**FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS**

**Government Funds** - At the close of the current fiscal year, Panola County's governmental funds reported a combined fund balance of \$16,998,568, an increase of \$917,013 or 5.7% over the prior fiscal year.

**Business-type Funds** - Operating Revenue from the County's Garbage Collection Fund increased by 8.9% to \$2,161,502 and Operating Expenses increased by 8.7% to \$2,267,543. Nonoperating Revenues (Expenses) decreased by 58.5% to \$89,266.

**BUDGETARY HIGHLIGHTS OF MAJOR FUNDS**

A schedule showing the original and final budget amounts compared to the County's actual financial activity for the General Fund and other major funds is provided in this report as required supplementary information.

PANOLA COUNTY, MISSISSIPPI  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
September 30, 2014

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets** - As of September 30, 2014, Panola County's total capital assets were \$140,149,395. This includes roads, bridges, other infrastructure, land, buildings, mobile equipment, furniture and equipment, leased property under capital lease and construction in progress. This amount represents an increase from the previous year of \$2,456,624 or 1.8%.

Total accumulated depreciation as of September 30, 2014, was \$85,012,571. The balance in total net capital assets was \$55,136,824 at year end.

**Debt Administration** - At September 30, 2014, Panola County had \$12,383,116 in long-term debt outstanding. Panola County maintains an "A" bond rating from Standard and Poors. The State of Mississippi limits the amount of debt a county can issue to generally 15% of total assessed value. The County's outstanding debt is significantly below the 15% limit at 3.39%.

**CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the funds it receives. PANOLA COUNTY, MISSISSIPPI  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
 For the Year Ended September 30, 2014

Exhibit 4-1

Net Changes in Fund Balances - Government Funds	\$ 917,013
Amounts reported for Governmental Activities in the Statement of Activities are different because:	
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net position differs from the fund balances by the amount that capital outlays of \$3,498,554 exceeded depreciation of \$1,745,011 in the current period.	
	1,753,543
In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increase financial resources. Thus, the change in net position differs from the change in fund balances by the amount of net gain of \$540,432 and the proceeds from the sale of \$1,094,081 in the current period,	
	(553,649)
Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	
	10,049
Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduced long-term liabilities in the Statement of Net Position. Thus, the change in net position differs from the change in fund balances by the amount that debt proceeds of \$2,514,373 exceeded debt payments of \$2,465,541 in the current period.	
	(48,832)

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
 For the Year Ended September 30, 2014

Exhibit 4-1

Under the modified accrual basis of accounting used in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. Thus, the change in net position differs from the change in fund balances by a combination of the following items:

Change in accrued interest payable	\$ 5,174
Change in compensated absences	(21,333)
The amortization of:	
Premium on bonds	4,725
Deferred amount on refunding bonds	<u>(48,171)</u>

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
September 30, 2014

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.**

**A. Financial Reporting Entity.**

Panola County is a political subdivision of the State of Mississippi. The County is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Panola County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the County.

Management has chosen to omit from these financial statements the following component units which have significant operational or financial relationships with the County. Accordingly, the financial statements do not include the data of all of the County's component units necessary for reporting in accordance with accounting principles generally accepted in the United States of America.

- Bynum Fire District
- Cole's Point Fire District
- Curtis Fire Department
- Mt. Olivett Fire Department
- Red Hill Fire District
- Sardis Lower Lake Fire District
- Pope Volunteer Fire District
- Pleasant Grove Fire District
- Union Fire District
- North Panola Utility District
- Longtown Fire District
- Long Creek Sewer District

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the County legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor-Collector
- Sheriff

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

**B. Individual Component Unit Disclosures.**

Blended Component Units

Certain component units, although legally separate from the primary government, are nevertheless so intertwined with the primary government that they are, in substance, the same as the primary government. Therefore, these component units are reported as if they are part of the primary government. The following component units' balances and transactions are blended with the balances and transactions of the primary government.

The Panola County Civic Improvement Corporation is comprised solely of the five members of the Board of Supervisors. Although legally separate from the County, the Corporation is reported as if it were part of the primary government because its sole purpose is to finance and construct the County's new jail building.

The Panola County Industrial Authority is a legally separate entity, organized by a local and private bill to provide for land acquisitions and improvements for industrial development purposes. Its five-member Board of Commissioners is appointed by the Board of Supervisors.

The Panola County Economic Development District is comprised solely of the five members of the Board of Supervisors. Although legally separate from the County, the Corporation is reported as if it were part of the primary government because its sole purpose is to finance a substation for industries in the County.

**C. Basis of Presentation.**

The County's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, fund financial statements and accompanying note disclosures which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Position and Statement of Net Activities display information concerning the County as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

The Statement of Net Position presents the financial condition of the governmental activities and business-type activities of the County at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the County's governmental activities and business-types activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as program revenues, are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business-type activity or governmental function is self-financing or draws from the general revenues of the County.

**Fund Financial Statements:**

Fund financial statements of the County are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into governmental, proprietary and fiduciary. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column as Other Governmental Funds.

**D. Measurement Focus and Basis of Accounting.**

The Government-wide, Proprietary Funds and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the County. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The revenues and expenses of Proprietary Funds are classified as operating or nonoperating. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund's primary operations. All other revenues and expenses are reported as nonoperating.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measureable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within sixty days after year end to liquidate liabilities existing at the end of the year. Measureable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The county reports the following major Governmental Funds:

General Fund - This fund is used to account for and report all financial resources not accounted for and reported in another fund.

Countywide Road Maintenance Fund - This fund is used to account for monies from specific revenue sources that are restricted for road maintenance.

Bridge Fund - This fund is used to account for monies from specific revenue sources that are restricted for bridge maintenance.

The county reports the following major Proprietary fund:

Solid Waste Fund - This fund is used to account for the County's activities of disposal of solid waste within the County.

Additionally, the County reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

PROPRIETARY FUND TYPES

Enterprise Funds - These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the County has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

FIDUCIARY FUND TYPES

Agency Funds - These funds account for various taxes, deposits and other monies collected or held by the County, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

**E. Account Classifications.**

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

**F. Deposits and Investments.**

State law authorizes the County to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the County may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value. However, the County did not invest in any governmental securities during the fiscal year.

**G. Receivables.**

Receivables are reported net of allowances for uncollectible accounts, where applicable.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

**H. Interfund Transactions and Balances.**

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Noncurrent portions of interfund receivables and payables are reported as "advances to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance account in the General Fund, if applicable, to indicate that they are not available for appropriation and are not expendable available financial resources. However, this is not applicable to advances reported in other governmental funds, which are reported by definition, as restricted, committed, or assigned. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

**I. Restricted Assets.**

Assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions and donor specifications have been reported as restricted assets. Restricted assets reflect proceeds received from the Panola County Jail Project Certificates of Participation less amounts paid on construction commitments and proceeds from the General Obligation GE Project Bonds less bond issue costs. When both restricted and nonrestricted assets are available for use, the policy is to use restricted assets first.

**J. Capital Assets.**

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the applicable governmental or business-type activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure, costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

PANOLA COUNTY, MISSISSIPPI  
 NOTES TO FINANCIAL STATEMENTS  
 For the Year Ended September 30, 2014

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. No interest is capitalized on self-constructed assets because noncapitalization of interest does not have a material effect on the County's financial statements. Donated capital assets are recorded at their fair value at the time of donation.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements and Proprietary Funds. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

	<u>ESTIMATED USEFUL LIFE</u>	<u>CAPITALIZATION THRESHOLD</u>
Land	N/A	\$ -0-
Infrastructure	20-50 years	-0-
Buildings	40 years	50,000
Improvements other than Buildings	20 years	25,000
Mobile Equipment	5-10 years	5,000
Furniture and Equipment	3-7 years	5,000
Leased Property under Capital Leases	*	*

\* Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

**K. Deferred Outflows/Inflows of Resources.**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditure) until then.

Deferred amount on refunding - For current refunding's and advance refunding's resulting in defeasance of debt reported by governmental activities, the difference between the reacquisition price and net carrying amount of the old debt is reported as deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or life of the new debt, whichever is shorter.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Property tax for future reporting period/unavailable revenue-property taxes - Deferred inflows of resources should be reported when resources associated with imposed nonexchange revenue transactions are received or reported as a receivable before the period for which property taxes are levied.

Unavailable revenues-fines - When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

Unavailable revenue-capital lease - When a capital lease receivable is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

**L. Long-Term Liabilities.**

Long-term liabilities are the unmatured principal of bonds, loans, notes, or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements or other commitments.

In the government-wide financial statements and the Proprietary Fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or Proprietary Funds Statement of Net Position. Bond premiums as well as issuance costs are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, Governmental Fund Types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

**M. Equity Classifications.**

Government-wide Financial Statements:

Equity is classified as Net Position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position not meeting the definition of "restricted" or "net investment in capital assets."

Net Position Flow Assumption:

When an expense is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, the County's general policy is to use restricted resources first. When expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, the County's general policy is to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Government fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. The following are descriptions of fund classifications used by the County:

PANOLA COUNTY, MISSISSIPPI  
NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

*Nonspendable fund balance* includes amounts that cannot be spent. This includes amounts that are either not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds from the collection of those receivables or from the sale of those properties are restricted, committed or assigned) or amounts that are legally or contractually required to be maintained intact, such as a principal balance of a permanent fund.

*Restricted fund balance* includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

*Assigned fund balance* includes amounts that are constrained by the County's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the General Fund, this is the residual amount within the fund that is not classified as nonspendable and is neither restricted nor committed. Assignments of fund balance are created by the County Administrator.

*Unassigned fund balance* is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes. It may be necessary to report a negative unassigned fund balance.

Fund Balance Flow Assumption:

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, the County's general policy is to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, the County's general policy is to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

**N. Property Tax Revenues.**

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the County. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of the original purchase occurs.

**O. Intergovernmental Revenues in Governmental Funds.**

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is prime factor determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

PANOLA COUNTY, MISSISSIPPI  
 NOTES TO FINANCIAL STATEMENTS  
 For the Year Ended September 30, 2014

**P. Compensated Absences.**

The County has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements and Proprietary Funds financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured, for example an employee resigns or retires.

**Q. Changes in Accounting Standards.**

The County implemented the following standard issued by the Governmental Accounting Standards Board (GASB) in the current fiscal year as required, GASB Statement 65, *Items Previously Reported as Assets and Liabilities*. The provisions of this standard has been incorporated into the financial statements and notes.

NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

**NOTE 3 - DEPOSITS AND INVESTMENTS.**

Deposits:

The carrying amount of the County's total deposits with financial institutions at September 30, 2014, was \$17,680,963 and the bank balance was \$17,883,331. The County has petty cash of \$2,100. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the County. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

Investments:

Investment balances at September 30, 2014 are as follows:

<u>Investment Type</u>	<u>Maturity</u>	<u>Fair Value</u>	<u>Rating</u>
Certificate of Deposit	11 months	<u>\$ 70,259</u>	None
Total		<u>\$ 70,259</u>	

Interest rate risk. The County does not have formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, Section 19-9-29, Miss. Code Ann. (1972) limits the maturity period of any investment to no more than one year.

PANOLA COUNTY, MISSISSIPPI  
 NOTES TO FINANCIAL STATEMENTS  
 For the Year Ended September 30, 2014

Credit risk. State law limits investments to those authorized by Sections 19-9-29 and 91-13-8, Miss. Code Ann. (1972). The County does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the County. Bank certificates of deposit above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

**NOTE 4 - INTERFUND TRANSACTIONS AND BALANCES.**

The following is a summary of interfund balance at September 30, 2014:

A. Due From/To Other Funds:

**NOTE 8 - CLAIMS AND JUDGMENTS.**

Risk Financing

The County finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The County pays premiums to the pool for its worker's compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention of the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2014 to January 1, 2015. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

**NOTE 9 - CAPITAL LEASES.**

Legal Debt Margin - The amount of debt, excluding specific exempted debt, that can be incurred by the County is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the County, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a County issues bonds to repair or replace washed out or collapsed bridges on the public roads of the County. As of September 30, 2014, the amount of outstanding debt was equal to 3.39% of the latest property assessments.

Prior Year Defeasance of Debt - In prior years, the County defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. On September 30, 2014, \$3,780,000 of the bonds were considered defeased.

NOTES TO FINANCIAL STATEMENTS  
For the Year Ended September 30, 2014

**NOTE 12 - CONTINGENCIES.**

Federal Grants - The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the County. No provision for any liability that may result has been recognized in the County's financial statements.

Litigation - The County is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the County with respect to the various proceedings. However, the County's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the County.

**NOTE 13 - JOINT VENTURE.**

The County participates in the following joint venture:

Panola County is a participant with the counties of DeSoto, Lafayette, Tate and Tunica in a joint venture authorized by Section 39-3-9, Miss. Code Ann. (1972), to operate the First Regional Library. This joint venture was created to provide library services and is governed by a five-member board, with each county appointing one member. The County appropriated \$314,310 for support of the library in fiscal year 2014. Complete financial statements for the First Regional Library can be obtained from P. O. Box 386, Hernando, Mississippi 38632.

**NOTE 14 - JOINTLY GOVERNED ORGANIZATIONS.**

The County participates in the following jointly governed organizations:

North Delta Planning and Development District is composed of the counties of Coahoma, DeSoto, Panola, Quitman, Tallahatchie, Tate and Tunica. The Panola County Board of Supervisors appoints 4 of the 30 members of the board of directors. The County appropriated and made a payment of \$77,000 for support of the district in fiscal year 2014.

PANOLA COUNTY, MISSISSIPPI  
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
For the Year Ended September 30, 2014  
UNAUDITED

A. Budgetary Information.

Statutory requirements dictate how and when the County's budget is to be prepared. Generally, in the month of August, prior to ensuing fiscal year beginning each October 1, the Board of Supervisors of the County, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor-Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The County's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major special revenue fund. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

INDEPENDENT AUDITOR'S REPORT ON INTERNAL  
CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS

Board of Supervisors and Management  
Panola County, Mississippi  
Batesville, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Panola County, Mississippi as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated July 20, 2015. Our report includes an adverse opinion on the aggregate discretely presented component units due to the omission of the discretely presented component units which are required by accounting principles generally accepted in the United States of America to be reported with the financial data of the County's primary government unless the County also issues financial statements for the financial reporting entity that include the financial data for its component units.

**INTERNAL CONTROL OVER FINANCIAL REPORTING**

In planning and performing our audit of the financial statements, we considered Panola County, Mississippi's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Panola County, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as 2014-001 to be a material weakness.

#### **COMPLIANCE AND OTHER MATTERS**

As part of obtaining reasonable assurance about whether Panola County, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Panola County's Response to Finding**

Panola County's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. Panola County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Supervisors and Management  
Panola County, Mississippi  
Batesville, Mississippi

**Report on Compliance for Each Major Federal Program**

We have audited Panola County, Mississippi's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014. Panola County, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

**Management's Responsibility**

Management is responsible for compliance with requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Panola County, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Panola County, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a

reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Panola County, Mississippi's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Panola County, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.

#### **Report on Internal Control Over Compliance**

Management of Panola County, Mississippi is responsible for establishing and maintaining effective internal control over compliance with the types of requirements referred to above. In planning and performing our audit of compliance, we considered Panola County, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON CENTRAL  
PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND  
PURCHASE CLERK SCHEDULES (REQUIRED BY  
SECTION 31-7-115, MISS. CODE ANN. (1972))

Board of Supervisors and Management  
Panola County, Mississippi  
Batesville, Mississippi

We have examined Panola County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with Sections 31-7-101 through 31-7-127, Miss. Code Ann. (1972) and compliance with the purchasing requirements in accordance with bid requirements of Section 31-7-13, Miss. Code Ann. (1972) during the year ended September 30, 2014. The Board of Supervisors of Panola County, Mississippi is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Panola County, Mississippi has established centralized purchasing for all funds of the County and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

In our opinion, Panola County, Mississippi complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2014.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with Section 31-7-115, Miss Code Ann. (1972). The information contained on these schedules have been subjected to procedures performed in connection with our aforementioned examination of the purchasing system and, in our opinion, is fairly presented when considered in relation to that examination.

This report is intended for use in evaluating the central purchasing system and inventory control system of Panola County, Mississippi, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW  
MANAGEMENT REPORT

Members of the Board of Supervisors  
Panola County, Mississippi  
Batesville, Mississippi

In planning and performing our audit of the financial statements of Panola County, Mississippi for the year ended September 30, 2014, we considered Panola County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Panola County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the County's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated July 20, 2015, on the financial statements of Panola County, Mississippi.

Although no findings came to our attention as a result of these review procedures and compliance tests, these procedures and tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of the internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity and is not intended to be and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

PANOLA COUNTY, MISSISSIPPI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
For the Year Ended September 30, 2014

Section 2: Financial Statements Findings

Board of Supervisors.

Material Weakness (Prior Year Finding)

2014-001     Criteria: Generally accepted accounting principles require the financial data of the County's component units to be reported with the financial data of the County's primary government unless the County also issued financial statements for the financial reporting unit that include the financial data for its component units.

Condition: As reported in prior years' audit reports, the financial statements do not include the financial data of the County's component units.

Cause: The component units of the County do not have audited financial statements.

Effect: The failure to properly follow generally accepted accounting principles resulted in an adverse opinion on the discretely presented component units.

Recommendation: The Board of Supervisors should provide the audited financial data for its discretely presented component units for inclusion in the County's financial statements.

Response: The Board of Supervisors feels this is not a material weakness because the amount is immaterial to the financial statements. It would be cost prohibitive to require the 10 volunteer fire departments to have audited financial statements prepared.

Section 3: Federal Award Findings and Questioned Costs

The results of our tests did not disclose any findings and questioned costs related to federal awards.
