June 15, 2016

To Members of the City Council and
Mayor Billy Hewes, III
Gulfport, Mississippi

The Department of Comptroller is pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Gulfport, Mississippi, prepared in accordance with accounting principles generally accepted in the United States of America for the fiscal year ended September 30, 2015. These accompanying financial statements are prepared and presented in conformity with GASB Statement #34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. The format, which includes Government-wide and Major Fund presentations, provides citizens, investors and creditors, grantor agencies, and other interested parties with reliable financial information about the City. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the report is accurate in all material respects and is designed to present fairly the financial position and results of operations of the City for fiscal year ending September 30, 2015. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The Annual Financial Report consists of three parts. **(I) The Introductory Section** includes this transmittal letter, the City's organizational chart, a list of principal City officials, and the geographic location of the City. **(II) The Financial Section** includes: Management's Discussion and Analysis, the basic financial statements (government-wide and fund statements), notes to the financial statements, other required supplementary information (RSI), and the combining and individual fund financial statements and schedules, as well as the independent auditors' report on the financial statement schedules. **(III) The Statistical Section** includes several tables of unaudited data describing the financial history of the City as well as other miscellaneous statistics, generally presented on a multi-year basis.

The City is a member of the Harrison County Utility Authority, a joint venture with other local cities to provide adequate wastewater treatment and solid waste disposal services. The city is also involved in a joint venture with the Memorial Hospital at Gulfport, an acute health care center and the Gulfport Redevelopment Commission (GRC). A synopsis of the joint ventures' financial statements for the fiscal year ended September 30, 2015, is included in the notes section of this report.

The Reporting Entity and Services Provided

Incorporated on July 28, 1898, Gulfport is located in South Mississippi in Harrison County. Gulfport is a code-charter municipality operating under a Mayor/Council form of government. The Mayor is full-time and the Council-members are part-time and elected by wards. The Mayor and Council serve concurrent four-year terms. On July 1, 1997 the City added two additional members to the council as a result of a 1994 annexation bringing the total to seven.

In December 1993 the City annexed 33 square miles north of Gulfport becoming the second largest city in Mississippi with a land area of 56 square miles and a population around 68,000. A full range of services are provided including: police and fire protection, water and sewer services, construction and maintenance of streets and infrastructure, planning and zoning, recreational and cultural services, and general administrative services.

Current Economic Conditions

Even though it has been ten years since Katrina, the City is still working towards recovering resources expended on not only Hurricanes Katrina, but also Gustav and Isaac. The national, state, and local economies are slowly recovering from one of the worst recessions recorded in many decades along with the impact felt by the worst man-made disaster recorded in history with the British Petroleum oil spill. Employment is one critical component of the economic development of an area. Per the Bureau of Labor Statistics¹, in the last ten years, using April as the benchmark, 2008 was the highest year of employment at 162.6 thousand for nonfarm workers in the Gulfport-Biloxi-Pascagoula area. In comparison, for April, 2015, 153.3 thousand were employed. This represents a 5.7% decrease in employment since 2008 and for the twelve months (April 2014 to April 2015) there was a negative 1.5% decrease in employment. The City will continue to be faced with the challenge to meet the needs of its citizens for some time.

The overall financial condition of the City can be best described as "Steady Growth." The cost of insurance and insurability issues continue to create challenges for homeowners, local businesses, and investors. Unemployment continues to remain high, but consumer confidence is slowly improving as indicated by increased sales tax revenue starting in 2012 and continuing through current times.

Future Economic Outlook

- ✦ A state of the art Aquarium is planned for construction to begin in Spring 2017 and completed by Spring 2019. The aquarium will not only attract visitors and spur economic development and jobs, city leaders believe, but also create educational awareness of the Coast's diverse marine life and enhance marine research. A hotel along with a walking bridge across US 90 is also planned to be completed to enhance the Aquarium experience. The Aquarium is expected to transform Gulfport and the entire Mississippi Coast.
- ✦ The City has issued 1,948 building permits for the period October 1, 2015 to February 20, 2016 with a total construction value of \$19.8 million. These projects consist of a mixture between commercial, residential, and quasi government construction. A significant portion of these construction projects should be recognized on the tax rolls prior to January 2017 and will result in an increase in annual ad valorem taxes.
- ✦ Island View – The Island View Casino has completed the renovation of the hotel tower south of Highway 90. The cost of the renovations is approximately \$60 million. The renovations include over 200 additional hotel rooms, several restaurants, and convention space.
- ✦ Gulfport Highlands-Gulfport Highlands has broken ground with the first building that is located on Highway 605 north of I-10. The development plans consist of 120,000 square feet of office space and 200,000 square feet of retail space. The Gulfport Highlands project has not progressed over the past year. The City remains hopeful for the completion of the Gulfport Highlands. Additionally, the Highway 605 corridor continues to develop with a new Walgreens located at the Southeast Corner of Pass Road and Cowan Road along with significant development north of Pass Road.
- ✦ Downtown Revitalization -Many new restaurants now operate within the downtown district and many more are slated to come. Gulfport is slowly becoming the headquarters for many corporations and nightlife has never been stronger. Centennial Depot has four leases for small businesses, only one of which is a relocation from within Gulfport. The others are expansions or new businesses.
- ✦ Wal-Mart Neighborhood Stores – Wal-Mart has built two neighborhood stores, better known as Wal-Mart Express in Gulfport.

- ✦ Highway 605 Corridor – The City continues to recognize significant commercial growth along the Highway 605 corridor both north and south of Interstate 10. The commercial growth consists of medical, retail, restaurants, and professional offices.

Financial Information

Accounting System

The Department of Comptroller is responsible for providing the financial services for the City including financial accounting and reporting, payroll and accounts payable disbursement functions, cash and investment management, debt management, budgeting, and purchasing.

The Department of Comptroller is also responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's current internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Controls

The City maintains specific budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Mayor and City Council. Activities of the general fund, special revenue funds, debt service fund, capital projects funds, and proprietary funds are included in the annual appropriated budget. The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by major expenditure classification and require approval by the governing body; however, equal transfers between line items within a classification may be approved by the Department Director. For management purposes, the City manages its capital projects program by establishing project length budgets. Under this method, initial project budgets are established and remaining project funds from the previous year are automatically rolled over at year end to establish revised project budgets. The benefits of this method allows the City to only address project budgets on the initial set-up and any amendments that may be necessary throughout the life of the project.

The City maintains an encumbrance accounting system as one budgetary control technique. Encumbrances reserve appropriations, which have been obligated through purchase orders or contractual documents. Encumbered amounts lapse at year end; however, they are generally re-appropriated as part of the following year's budget.

Enterprise Funds

Gulfport's enterprise operations consist of the Water and Sewer Fund and the Joseph T. Jones Memorial Park Fund. The Water and Sewer Fund accounts for traditional water and sewer revenues and expenditures to construct and maintain the water and sewer system. The Joseph T. Jones Memorial Park Fund was created to account for operations, maintenance, and leasing of boat slips and other facilities within Jones Park. Financial statements related to both of these enterprise funds are contained in this report.

Independent Auditors

The City of Gulfport is required by Section 21-35-31 of the Mississippi Code of 1972 to have an annual audit by independent certified public accountants. In compliance with these requirements, the City selected the firm of Wright, Ward, Hatten & Guel PLLC to perform the audit for fiscal year ended September 30, 2015. The auditors' report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditors rendered an unqualified opinion.

The City of Gulfport is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-128, Audits of States and Local Governments. Information related to the single audit, including internal control and compliance reports and an opinion on federal financial assistance is included in a separately issued single audit report.

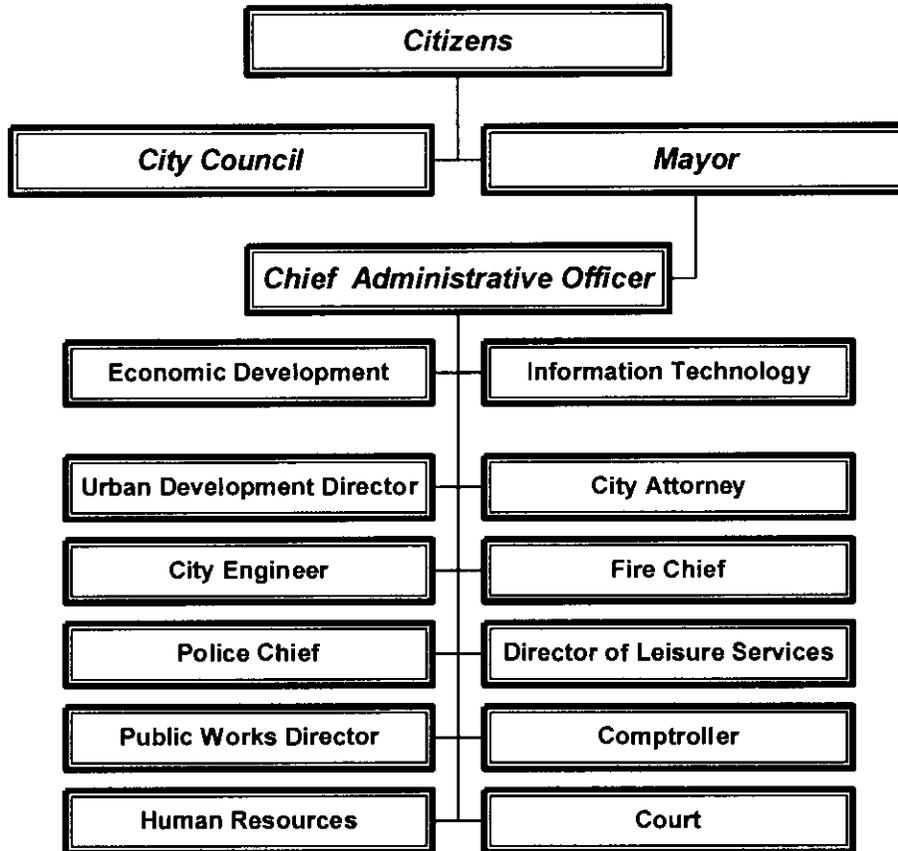

Acknowledgements

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Department of Finance. I also wish to express my appreciation for the cooperation of the other City departments in providing information for this report.

Respectfully submitted,

Linda Elias

INDEPENDENT AUDITORS' REPORT

June 21, 2016

To Members of the City Council and
Mayor Billy Hewes, III
Gulfport, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Gulfport, Mississippi, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the basic financial statements of the City's primary government as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Gulfport Redevelopment Commission, which represent 11.6 percent, 11.4 percent, and .8 percent, respectively, of the assets, net position, and revenues of the business-type activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Gulfport Redevelopment Commission, and is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

RECEIVED

JUN 22 2015

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Gulfport, Mississippi, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principles

Management adopted the provisions of the following Governmental Accounting Standards Board Statements, which became effective during the year ended September 30, 2015, and required the restatement of net position as discussed in Note 17 to the financial statements:

Statement No. 68 – *Accounting and Financial Reporting for Pensions*

Statement No. 71 – *Pension Transition for Contributions Made Subsequent to the Measurement Date*

Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Introductory Section, Combining and Individual Fund Statements and Schedules, Other Supplementary Information and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The statements included in the Supplemental Information Section are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements included in the Supplemental Information Section are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

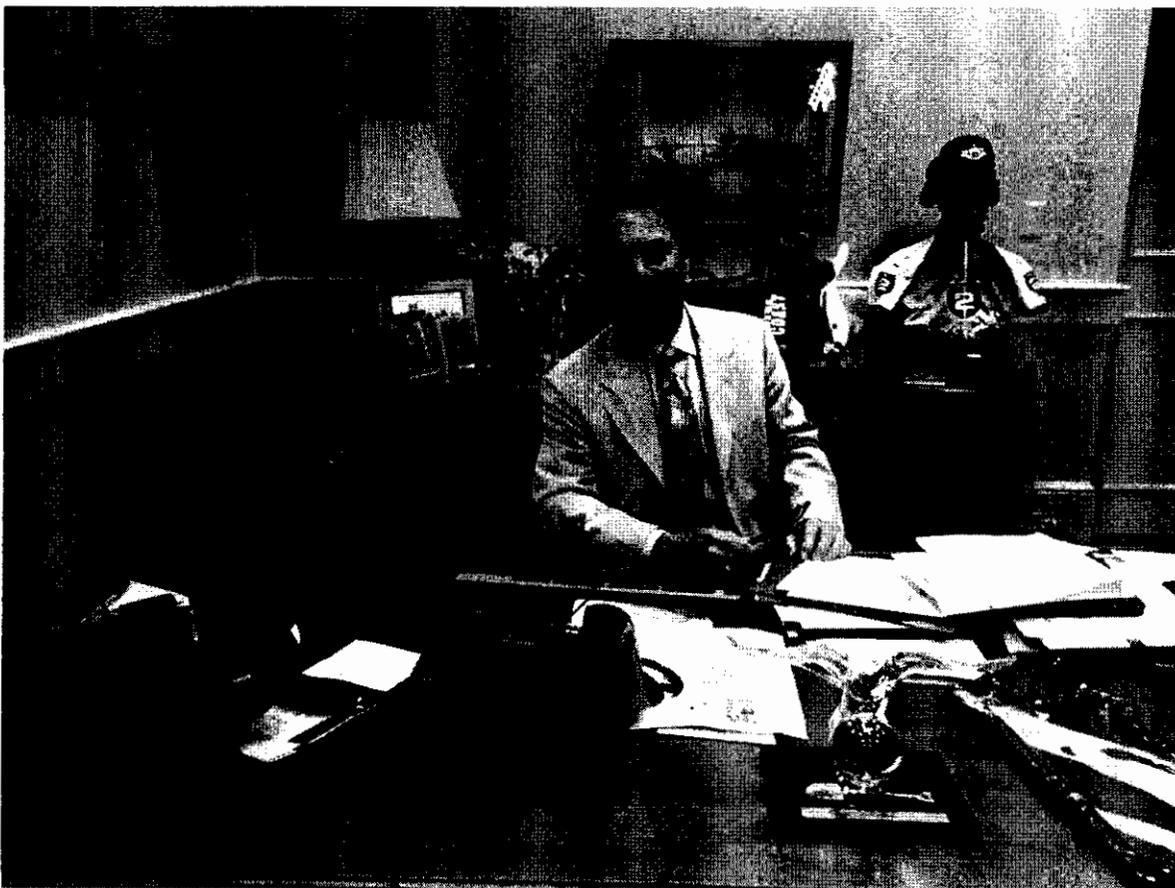

In accordance with Government Auditing Standards, we have also issued a separate report dated June 21, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Management Discussion and Analysis

City of Gulfport, Mississippi

Management Discussion and Analysis

Introduction

This section is a required component of the City's Comprehensive Annual Financial Report and should be read in conjunction with the City's transmittal letter at the front of this report and the City's financial statements which immediately follow this section. As management of the City of Gulfport, Mississippi, we offer this narrative and analysis of the financial activities for fiscal year ending September 30, 2015. This discussion and analysis is designed to: 1) present the significant financial issues in a way that will assist the reader in understanding the overall financial condition of the City; 2) provide an overview of the City's financial activity; 3) identify changes in the City's financial position; 4) identify any material deviations from the City's financial plan (i.e. budget to actual); and 5) communicate currently known facts, decisions, or conditions that are expected to have a significant "future" effect on the financial position or results of operations.

Financial Highlights

- ✓ The City's General Fund, the main operating fund, operated in the "black" with revenues exceeding operating expenditures and other sources by over \$5 million.
- ✓ The City's General Fund's fund balance, which represents the difference between assets minus liabilities, increased during the year from \$3.6 million in 2014 to \$7.9 million in 2015. This is a larger increase in fund balance than over the last few years.
- ✓ The City's total capital assets increased by \$6.5 million or .1%; going from \$555.0 million in 2014 to \$561.5 million in 2015. Capital assets consist of land, buildings, infrastructure, machinery & equipment, and vehicles.
- ✓ The City's overall debt outstanding increased by \$29.2 million, going from \$92.8 million in 2014 to \$122.0 million in 2015.
- ✓ The Employees' Group Health fund operated in the "red" by \$2.2 million with revenues of \$6.3 million and expenses of \$8.5 million. Net position for this fund was a negative (\$0.9) million at year end. The Claims Contingency fund operated in the black by \$116,000 leaving the internal service fund group with a combined of a negative (\$101,063) unrestricted net position.

Brief Description of the Financial Statements

This annual report consists of a series of financial statements which are presented in a hierarchal structure. The highest level of reporting and most summarized statements are the Statement of Net Position (i.e. balance sheet) on pages 28-29 and Statement of Activities (i.e. income statement) on page 30. These two statements provide financial information on the government as a whole similar to how private sector companies report their finances. These two statements are the only place within this report where a reader can review the operations and worth of the City of Gulfport as a whole. All of the City's annual revenues and expenses are reported in the Statement of Activities while the City's assets and liabilities are reported in the Statement of Net Position. These two statements answer the question "Is the City as a whole better off or worse off as a result of the year's activities?"

The second tier of financial reporting is the "Major" Fund Financial Statements. The fund financial statements begin on page 31 and provide detailed information about the City's most significant funds. Funds are accounting entities used to track specific funding sources and uses for particular programs. Individual funds are either established by law or set up for management purposes. Three separate statements are issued: one for activities that are of a governmental nature, a separate set of statements are contained for activities that are of a business like nature, and a separate set of statements are contained for activities that are of a fiduciary nature.

Governmental Funds – Most of the City's basic services are reported in the governmental funds. Examples include activities relating to governmental funds are public safety, public works (non water and sewer), culture and recreation, urban development, capital projects, debt service and general administration. The financial statements of Governmental Funds are reported on the modified accrual basis – which measures cash and all other financial assets that can readily be converted to cash. Governmental statements provide a more detailed short-term view. The amounts contained on these statements are adjusted for full accrual and rolled over to the government wide statements. Governmental Fund Financial Statements are contained on pages 31-35.

Proprietary Funds – Contain funds existing from fees charged to customers for services provided by the City. Activities relating to the City's Water and Sewer Operations and Joseph T. Jones yacht basin are reported in this section. The financial presentation of these activities is reported on pages 36-41 of this report. These financial statements are reported on the full accrual basis – revenues are recognized when earned and measurable. Because both the proprietary fund statements and the government wide statements are reported on the full accrual method of accounting, the total column of the proprietary funds statements are the same contained on the government wide business type activities column of the Statement of Net Position and Statement of Activities.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the City's own programs. The accrual basis of accounting is used for fiduciary funds. The city is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The City's fiduciary activities are presented in separate statements in this report beginning on page 43.

Analysis of Government Wide Statement of Net Position

Total Primary Government

From an “overall balance sheet perspective”, the net position of the City of Gulfport as compared to the previous year decreased from \$484.8 million in 2014 to \$409.6 million in 2015, while total assets increased \$52.2 million from \$593.8 million in 2014 to \$646.0 million in 2015. Much of this increase is a result of increase in receivables. Total liabilities increased by \$113.0 million, from \$108.0 million to \$221.0 million. This increase in liabilities is mostly due to the net pension liability required to be reported this year. Net Position serves as a useful indicator of a government’s financial position over time. By far, the majority of the City’s net assets are related to investment in capital assets, i.e. roads, bridges, parks, water, sewer, machinery, etc., net of related debt is \$434.5 million which represents approximately over 106% of the City’s total net position.

Current assets increased by \$45.6 million during the year increasing from \$38.9 million in 2014 to \$84.5 million in 2015.

Governmental Activities

Total assets for Governmental type activities increased by \$30.3 million, from \$342.9 million in 2014 to \$373.2 million in 2015; while Current assets (cash, short term receivables, etc.) increased by \$30.7 million; from \$30.3 million to \$61.0 million. The majority of this increase is a result of due from other governments. Total governmental activities liabilities increased \$89.3 million from \$37.4 million in 2014 to \$126.7 million in 2015.

Business Type Activities

The City’s business type activities consist of the Water and Sewer, the Joseph T. Jones Memorial Park Funds, and the Gulfport Redevelopment Commission. Total assets increased by \$21.8 million; from \$250.9 million in 2014 to \$272.7 million in 2015, with current assets increasing by \$15.0 million, and capital assets increasing by \$6.8 million.

Analysis of Government Wide Statement of Activities

Where Does The Money Come From?

Where Does the Money Go?

Revenues

The City's revenues exceeded expenses by \$4.9 million for the 2015 year. With the near completion of hurricane recovery, federal grants are returning to pre-hurricane levels.

Property Tax – Property tax accounts for \$23.5 million or 21% of the City's total revenues and is considered the most stable revenue source for the City. The City's property tax revenue is expected to recognize growth in the near future as a result of commercial property investments.

Sales Tax - Another significant source of revenue for the City is sales tax accounting for \$20.5 million or 19% of the City's total revenues. The City is beginning to recognize slow to moderate growth in Sales Taxes from the previous year.

Grants – The City received a total of \$6.6 million in grants for the 2014 year as compared to \$14.3 million in 2015. The majority of these grants were related to the City's recovery from Hurricane Katrina and the largest granting agency was the Federal Emergency Management Agency (FEMA).

Expenses

The City's total government wide expenses were \$103.1 million in 2014 as compared to \$105.2 million in 2015; representing an increase of \$2.0 million or 1.9%. This increase is mainly attributed to public safety enhancements and Water & Sewer enhancements.

The table below represents the cost of each of the City's major governmental functional areas – Public Works, Public Safety, Culture and Recreation, General Government, and Economic Development. The costs are separated into total cost and net cost. The net cost shows the financial burden that was placed on the City's taxpayers after taking into account the program revenues generated by each of the major functional areas.

Fund Financial Analysis

The City maintains fund accounting to comply with budgetary and legal compliance and for specific management control. The following is a brief discussion of financial highlights from the major fund financial statements.

Governmental Funds

The focus of the governmental fund financial statements is to provide information on current financial resources of the City. Funds included in this category are as follows: General Fund, Capital Project Funds (i.e. Public Improvements 1996, 1998, 2001, and 2003), Special Revenue Funds (i.e. Forfeits and Seizures, Community Development, Police and Fire Retirement, and Police Traffic Safety), Disaster Relief and Debt Service Fund.

RECEIVED

JUN 22 2016

The General Fund is the primary “governmental operating fund” of the City. Activities that are traditional in nature to governmental entities are reported in this fund: i.e. public safety, public works (operations & maintenance), culture and recreation, economic development, and general government. The General Fund accounts for nearly 70.1% of the City’s total revenues and 55.4% of the City’s total expenditures. Overall, the General Fund’s financial condition improved as compared to the previous year.

General Fund – Financial Summary

	2015	2014
Total Revenues	\$ 57,163,591	\$ 53,953,879
Total Expenditures	58,659,219	54,619,914
Excess (Deficit) of Revenues over Expenses	(1,495,628)	(666,035)
Other Financing Sources (Uses)	6,770,322	799,534
Fund Balance – Beginning Year	3,627,812	3,494,313
Prior Period Adjustment	(987,639)	
Fund Balance – Ending Year	\$ 7,914,867	\$ 3,627,812

- ✓ The General Fund operated in the “red” by \$1,495,628 for the 2015 year with revenues of \$57.2 million and expenditures of \$58.7 million. New initiatives must take place in upcoming annual budgets to balance ongoing expenditures to recurring revenues.
- ✓ General Fund assets increased by \$23.0 million; from \$9.6 million in 2014 to \$32.6 million in 2015.
- ✓ The General Fund’s unassigned fund balance increased from \$3.6 million to \$7.9 million. Unrestricted fund balance is extremely important in that it represents that portion of the City’s assets (mainly cash and receivables) that are not designated for expenditures. The purpose of these funds are to 1) stabilize tax rates in an economic downturn, 2) provide the city with resources in the event of a natural disaster, and 3) provide the city with resources for other unforeseen events and or circumstances. The City’s unreserved portion of fund balance as a percentage of general fund expenditures was 13.2% for year ending 2015 and 6.4% for year ending 2014. Based upon industry standards, it is recommended that governmental entities maintain approximately 15% in fund reserves.
- ✓ Total General Fund revenues increased by 5.9% in 2015; from \$54.0 million in 2014 to \$57.2 million in 2015.
- ✓ Total General Fund expenditures increased by 7.4% in 2015; from \$54.6 million in 2014 to \$58.7 million in 2015.

Community Development Program Fund – Financial Summary

- ✓ The Debt Service Fund operated in the “black” by \$513,638 for the 2015 year with revenues of \$4.5 million and expenditures of \$3.9 million.
- ✓ Debt Service Fund assets decreased by \$3.6 million; from \$5.4 million in 2014 to \$1.8 million in 2015.

Business-Type Activities

Water and Sewer Fund

The purpose of the City’s Water and Sewer Fund is to account for activities of its water and sewer operations. The financial reporting of this fund is contained on the government wide financial statements under the column entitled “business-type activities. Below is a condensed operating statement of the City’s Water and Sewer Fund.

Condensed Statement of Revenues and Expenses Water and Sewer Fund Fiscal years Ending September 30, 2015 and 2014

	2015	2014
Operating Revenues	\$ 32,224,892	\$ 30,558,713
Operating Expenses	28,451,890	28,868,007
Operating income	3,773,002	1,690,706
Non Operating Items:		
Interest Expense	(2,701,173)	(2,718,209)
Other	235,858	3,817,186
Change in Net Position	\$ 1,307,687	\$ 2,789,683

- ✓ The City’s water and sewer fund’s operating income was \$1.7 million in 2014 as compared to \$3.8 million in 2015. Important to remember is that income from operations does not include interest expense as this is reported in the non-operating items nor does this amount include repayment of principal on borrowed funds. Revenues increased by \$1.7 million while expenses decreased by \$416,117 during 2015.
- ✓ The amount identified above as “Other” includes capital contributions from FEMA for replacement of the City’s sanitary sewer and water systems along the coastline and contributions from developers who turned over assets

to the City for perpetual maintenance. This amount is expected to begin a downward trend as the City's rebuilding efforts from Hurricane Katrina damages come to an end.

- ✓ The City issued bonds for the Water and Sewer Fund in the amount of \$32.5 million in FYE 2015 with \$14 million allocated to pay for Water and Sewer related upgrades and \$18.5 million refunding bond.

General Fund Budgetary Highlights

The City's General Fund Budget has been prepared in accordance with the laws of the State of Mississippi. The City maintains specific budgetary controls to ensure compliance with legal provisions embodied in the annual budget approved by the Mayor and Council. The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by department and major expenditure classification (i.e. personnel services, supplies, other services, and capital outlay) and require approval by the governing body.

Excess (Deficit) of Revenues over expenditures	\$ 73,714	\$ 4,900,178	\$ 4,900,178

The City amended its General Fund's Revenue and Expenditure budget many times over the year. At year end, the budget was adjusted to actual and approved by Council. Below is a brief description of major budget amendments.

- ✓ The revenue budget (original versus revised) was amended upward by \$5.0 million or 9.2%; original budget of \$54.5 million as compared to the revised budget of \$59.5 million.
- ✓ The Expenditure Budget was increased by \$0.2 million or less than 1%.

Overall, the City's General Fund actual revenues for 2015 (budget basis) of \$59.5 million, \$5.0 million change from the original budget detail are described below.

- ✓ A significant amount of this difference is attributed to budget increases in Other Revenue which is related to receiving BP monies of \$4.4 million.
- ✓ Property tax revenues are \$0.3 million above original budget.
- ✓ Sales tax revenues are \$0.4 million above original budget.
- ✓ Court fines and forfeitures are \$0.4 million below original budget.
- ✓ Grant revenues are \$0.7 million above original budget.
- ✓ Charges for services are \$0.3 below original budget
- ✓ Gaming revenues are \$0.4 above original budget

The City's General Fund actual expenditures exceeded its original budgeted expenditures by a mere \$0.2 million, less than 1% change. While some departments exceeded their original budgets, others decreased expenditures from the original budget resulting in the less than 1% overall budget change from original to final budget.

The above table represents the values (net of depreciation) of the City's various classes of assets. The ending 2015 asset values were estimated at \$487.1 million and included a wide range of assets: land, buildings, parks, roads, bridges, drainage systems, machinery, vehicles, and water and sewer systems. Asset values increased by \$5.5 million or 1.2% (after depreciation) as compared to the prior year. See Note 7 in the financial section of this report for more detail information on capital assets.

Depreciation expense for the 2015 year totaled \$13.0 million and was allocated to the following classes of assets:

Allocation of Depreciation by Major Asset Class

Buildings	\$ 1,858,543
Improvements other than Buildings	816,614
Machinery and Equipment	735,923
Vehicles	633,802
Infrastructure (roads, bridges, drainage, water & sewer system, etc.)	8,954,254
Total Depreciation	\$ 12,999,136

Depreciation is both an extremely useful tool and is often underutilized in the financial planning process. In order to adequately maintain the City's assets, the amounts contained in the above depreciation allocation table should become a recurring expense item in future City budgets.

Significant increases in capital acquisitions and improvements include:

- ✓ Buildings - \$9 million.

Note: The above amounts do not include debt relating to Memorial Hospital or Harrison County Utility Authority which are joint ventures of the City.

Current Known Facts Effecting Future Financial Issues

1. Unfunded Hurricane Katrina Projects

It has been determined that many Hurricane Katrina related recovery projects which were originally thought to be wholly funded by FEMA may not meet FEMA's eligibility requirements. The total amount unfunded projects is unknown to date. Any shortfall recognized within the Disaster Recovery Fund is ultimately to be funded by the General Fund. The funding source for the potential unfunded projects has not been identified.

2. Asset / Infrastructure deterioration

- ✓ The City's book value of its capital assets exceeds \$558 million with infrastructure comprising 80% of this amount. Capital assets include the following: Land, Buildings, Machinery, Equipment, Vehicles, and infrastructure, (i.e. roads, drainage systems, and water & sewer systems), etc. Relating to this, the City's annual depreciation expense exceeds \$12 million. This amount is significant as the City currently has no policy or financial plan in place regarding a perpetual asset lifecycle replacement program. Depreciation is an important but often underutilized tool in the financial planning process and should become a recurring budgeted expense item in future budgets to ensure that assets are replaced as their useful lives become expired. Unaddressed, this only places a larger burden on future generations.
- ✓ Machinery and Equipment Replacements - Both the City's Public Works Director and Leisure Services Director have expressed their needs for much needed equipment replacements. Most of the equipment in these departments has exceeded their useful lives and the maintenance cost of keeping this equipment operational is significant. The Leisure Services Department has requested \$850,000 in funding for equipment replacements while the Public Works Department has requested \$2,600,000. The City issued bonds in the amount of \$30 million in FYE 2015. \$1.5 million of the bond issue was allocated for equipment with \$1 million for Public Works and \$500,000 for Leisure Services.
- ✓ Perhaps the single most important challenge facing this City will be addressing "serious" water and sewer infrastructure needs. The City Engineer has identified approximately \$117 million in needed water improvements and \$49.2 in needed sewer improvements. These improvements will begin to satisfy EPA standards set forth for which the City must adhere to. The City Engineer has developed a 12 year Water and Sewer Capital Master Plan that details the methods of funding the Water and Sewer improvement and to meet the EPA standards. The City issued bonds in the amount of \$30 million in FYE 2015. \$14 million of the bond issue was allocated for Water and Sewer infrastructure upgrades and improvements. In addition, future water and sewer rate increases recommended in the 12 year Water and Sewer Capital Master Plan were approved in 2015.

3. General Fund – Low Cash Reserves “Rainy Day Fund”

The General Fund's "rainy day" cash increased from \$2.0 million in 2014 to \$4.9 million in 2015. This is a relatively low amount as compared to industry standards. The Government Finance Officers' Association recommends that a Governmental entity maintain at least 15% of its General Fund operating budget as cash reserves. For a City the size of Gulfport in terms of General Fund Budget, Gulfport's cash reserves should be about \$8.8 million. Cash reserves are used to: 1) cover unforeseen emergencies such as hurricanes, tropical storms, and other natural disasters, 2) bridge short term funding gaps in the way of economic downturns, 3) and cover any other unforeseen circumstances the City may encounter throughout its normal course of providing services to its citizens. Without a doubt, re-establishing Gulfport's rainy day fund to pre- Hurricane Katrina levels should be a top priority when formulating future annual budgets.

4. General Fund – Balancing Future Budgets

Another concern relating to the overall financial condition of the General Fund rests with being able to formulate "balanced" budgets for upcoming years. For the 2015 year, the City's General Fund operated in the "black" by \$5.3 million and the ending fund balance was \$7.9 million. Most of this increase was due to a British Petroleum settlement of \$4.4 million. Through conservative cost cutting measures the City made good strides in improving its fund balance.

CITY OF GULFPORT, MISSISSIPPI
Governmental Funds
Reconciliation of Statement of Revenues, Expenditures and Changes
in Fund Balances to the Statement of Activities
For the Year Ended September 30, 2015

Net change in fund balances - total governmental funds **\$ 18,049,294**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	\$ 13,988,721	
Depreciation	<u>(6,816,624)</u>	7,172,097

Proceeds from the sale of capital assets are recorded as other sources of income in the Statement of Revenues, Expenditures and Changes in Fund Balances, however, these proceeds are offset by disposal of assets to show gains or losses from the sale of capital assets in the Statement of Activities.

(584,629)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities. This amount is the net effect of those differences in the treatment of long-term debt and related items.

Debt retirement	3,268,236	
Debt issuance	(17,910,117)	
Death claims paid	1,000	
Bond premiums amortization	158,718	
Deferred amounts on bond refunding amortization	<u>(30,724)</u>	(14,512,887)

Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities under the full accrual basis of accounting.

51,272

Pension expense and other related activity do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.

Additional pension liability		(4,258,194)
Contributions after the measurement date		1,181,623

Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.

Accrued interest payable		(342,550)
Compensated absences		(21,884)

Internal service funds are used by management to charge the cost of certain activities such as insurance costs, to individual funds.

Notes to the Financial Statements

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The City of Gulfport, Mississippi, (the "City") was incorporated on July 28, 1898, under the laws of the State of Mississippi. The City operates under a Mayor-Council form of government. The following services are provided by the City: Public Safety (Police, Fire and Protection/Inspection), Street Maintenance, Garbage Collection, Water and Sewer, Social and Recreational, Public Improvements, Planning and Zoning, and General Administrative Services.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainders of the notes are organized to provide explanations, including required disclosures, of the City's financial activities.

B. Financial Reporting Entity

The City is a charter city in which citizens elect the mayor at large and seven council members by wards. The accompanying financial statements present the City's primary government and component units over which the City exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships).

Component Unit Disclosure

The criteria for including component unit information with the primary government consist of identification of legally separate organizations for which the elected officials of the City are financially accountable. This criterion also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with the data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government. The City presents its component unit using the blended method.

The Gulfport Redevelopment Commission is an Urban Renewal Agency of the City of Gulfport, formed and existing under the "Urban Renewal Laws" of the State of Mississippi, Title 43, Chapter 35, Article I, Mississippi Code of 1972, and its five-member board of commissioners is appointed by the mayor and confirmed by the council of the City of Gulfport. Its sole purpose is to promote and facilitate the urban renewal and development of certain parcels of real property, improvements or other assets or projects as they may be designated from time to time by the City. The Gulfport Redevelopment Commission provides services solely to the City and is reported as an enterprise fund using the blended method.

Related Organizations

The Gulfport Municipal Separate School District has been excluded from the reporting entity, because it is an "other stand-alone government". The school district is a related organization of, but not a component unit of the City of Gulfport. The governing authorities of the City do select a majority of the school district's board, but do not have ongoing financial accountability for the school district.

Joint Ventures and Jointly Governed Organizations

Management of the City has identified two joint ventures with the City (Harrison County Utility Authority and Memorial Hospital at Gulfport) and two jointly governed organizations with the City (Harrison County Library System and Gulfport-Biloxi Regional Airport Authority).

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A joint venture is a legal entity or other organization that results from contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or on ongoing financial responsibility. Generally, the purpose of a joint venture is to pool resources and share the costs, risks and rewards of providing goods or services to the venture participants directly, or for the benefit of the general public or specific service recipients.

A jointly governed organization is similar in nature to a joint venture in that they provide goods and services to the citizenry of two or more governments. However, they do not meet the definition of a joint venture because there is no ongoing significant financial interest or responsibility by the participating governments.

See Note 14 for more information regarding related organizations not included in the City's reporting entity.

C. Basis of Presentation

Governmental-wide Financial Statements

The City presents two basic government-wide financial statements: the Statement of Net Position and the Statement of Activities. . These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the City. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment.

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

The fund financial statements provide information about the City's funds, including its fiduciary funds and blended component units Separate statements for each fund category—*governmental*, *proprietary*, and *fiduciary*—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The City has presented the following major governmental funds:

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

General Fund

General Fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds.

All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

Capital Projects Fund

This is a capital project fund (deemed to be a major fund by the requirements set forth in GASB 34 issued by the Governmental Accounting Standards) that is used to account for all capital projects that are not associated with a specific debt issuance.

Proprietary Funds – Business-type activities

Proprietary Funds are accounted for using the economic resources measurement focus; and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position, and cash flow. All assets and liabilities are included on the Statement of Net Position. The City has presented the following major proprietary fund:

Water and Sewer Fund –

Water and Sewer Fund is used to account for the provision of water and sewer services to the residents of the City. Activities of the fund include administration, operations and maintenance of the water and sewer system and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for water and sewer debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the funds.

Proprietary Funds – Governmental-type activities

The City reports the Internal Service Funds which are used to account for the self-funded property and casualty self-insurance, workman's compensation, and self-funded health and disability insurance provided to departments of the city.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary Funds –

The City reports the Fiduciary Funds accounts for resources held by the City in a custodial capacity for other governments, private organizations, or individuals.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected but unsettled at year-end. A two-month availability period is used for recognition of most other Governmental Fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The revenues susceptible to accrual are franchise taxes, sales taxes and gaming revenues collected and held by the State at year-end on behalf of the City. Licenses and permits, certain charges for services, fines and forfeits and miscellaneous other revenues are recorded as revenues when received in cash because they are generally not measurable or available until actually received.

The financial transactions of the City are recorded in the individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

GASB Statement No. 34 sets forth the minimum criteria for the determination of major funds. The City has electively added the Debt Service Fund as a major fund. The non-major funds are combined in one column in the fund financial statements and detailing in the combining section.

The proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal operations. The principal operating revenues of the Water and Sewer fund and the Joseph T. Jones Park fund are charges to customers for sales and services. The City insurance funds bill the other funds to cover insurance premiums and claims. Operating expenses for the enterprise and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets.

All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Cash and Investments

The City's cash and cash equivalents are primarily considered to be cash on hand, amounts in demand deposits and certain money market mutual funds. For purposes of the statement of cash flows, short-term investments held in proprietary funds with a maturity date within three months of the date acquired by the City, if any, are considered cash equivalents.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The City maintains and controls a major cash pool in which the majority of the City's funds share. Each fund's portion of the pool is on their respective balance sheet as cash and cash equivalents, some of which are restricted assets.

Cash with fiscal agents, along with various investments, are components of an investment account maintained by a fiscal agent. Cash with fiscal agents is that minor portion of the account which is not invested or any particular moment in time. This amount represents the residual cash that the fiscal agent does not have tied up in investment at September 30.

State statutes authorize the City to invest in (1) direct obligations of the United States government to the payment of which the full faith and credit of the United States government is pledged, (2) certificates of deposit when insured or secured by acceptable collateral and (3) obligations of the State of Mississippi; or any county, municipality or school district of the State of Mississippi which have been approved by a reputable bond attorney or have been validated by the decree of the chancery court.

Investments are recorded at fair value in accordance with GASB Statement No. 31 with all investment income, including changes in the fair value of investments, reported as revenue in the financial statements. Income from short-term interest bearing securities is recognized as earned.

Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Short-term investments are reported at fair value when published prices are available, or at cost plus accrued interest, which approximates fair value.

F. Receivables

All trade receivables are shown net of an allowance for uncollectible. Miss. Code Ann. (1972) does not allow for write-off of debt owed to municipalities. The amount represented on the financial statements is conclusive of all bad debts owed by customers of the water and sewer department, the harbor fund and the Gulfport Redevelopment Commission since the City started providing these services to citizens. The allowances deemed uncollectible in the water and sewer fund are based on trade receivables in excess of 90 days outstanding.

G. Inter-fund Receivables and Payables

Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

H. Transactions between Funds

Legally authorized transfers are treated as inter-fund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

I. Prepaid Items

Prepaid balances are for payments made by the City in the current year to provide services occurring in the subsequent fiscal year; and the reserve for prepaid items has been recorded to signify that a portion of fund balance is not available for other subsequent expenditures.

J. Restricted Assets

Each customer deposits funds with the City when a water and sewer account is opened. These funds are restricted due to the deposits and are held by the City until the customer account is closed, at which time the amounts are refundable to the customer. Also certain debt issues require contingency deposits be maintained separately for future debt payments.

Notes to the Basic Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets

Capital assets, which include property, plant, and equipment and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are recorded at estimated fair market value at the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant, and equipment.

Assets capitalized have an original cost of \$5,000 or more and over three years of useful life. Depreciation has been provided over the estimated useful lives using the straight-line method. The following estimated useful lives for proprietary fund assets are used to compute depreciation:

Buildings	40 years
Water and Sewer system	50 years
Infrastructure	60 years
Improvements	10-25 years
Machinery and equipment	5-10 years
Vehicles	5 years

L. Deferred Outflows/In flows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, deferred outflows of resources, represents consumption of net position that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. As of September 30, 2015, the City had deferred outflows of resources associated with bond refunding in the amount of \$1,989,850 and deferred amounts on pensions in the amount of \$8,321,759 which are reflected in the Statement of Net Position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. As of September 30, 2015 the City had deferred inflows of resources for property taxes in the amount of \$23,330,702; deferred amounts associated with bond refunding in the amount of \$77,581, and deferred amounts on pensions in the amount of \$2,209,678 which are reflected in the Statement of Net Position.

M. Net Position

Net position represents the difference between deferred inflows and outflows assets and liabilities. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

Net position is reported as restricted when there are limitations imposed its use either through enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Nature and Purpose of Designations of Fund Balance

The fund balance designations for donor-imposed restrictions, debt service, and encumbrances are discussed in Note 10. The fund equity designation for subsequent year's expenditures primarily represents amount of cash used in the next year's budget to offset amounts in which expenditures are budgeted in excess of budgeted revenues.

O. Compensated Absences

City policy allows employees hired prior to January 8, 2013, to accumulate all unused vacation, compensatory (comp time) and sick leave. Those hired after January 8, 2013, may not carry annual leave over from year to year without approval. Retiring and terminating employees covered under the Disability and Relief-Municipal Retirement System are paid for all unused vacation, sick leave, and unused comp time. All other employees are paid for up to 30 days of unused vacation and all unused comp time upon retirement or termination, while excess vacation and all accumulated sick leave remaining are counted as creditable service toward retirement.

Generally, vacation, sick leave and compensatory absences vest and are recorded as the obligation is incurred. In the proprietary funds and the government-wide statements, the current portion is the amount estimated to be used in the following year.

The compensated absences liability was computed using the specific identification method whereby the applicable number of vacation and sick hours and all compensatory hours are multiplied by the employee's hourly rate at September 30, 2015. The resulting liability is then increased to include social security and retirement contributions that the City is required to pay upon liquidation of the liability.

P. Post-Employment Health Care Benefits

The City does not have costs associated with post-employment benefits for retired employees. The City does allow employees to continue in the group plan after retirement; however, the retired employees pay all premiums.

Q. Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

R. New Accounting Pronouncements

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment to GASB Statement No. 68*. The objective of this statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

The requirements of this statement will eliminate the source of potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement No. 68 in the accrual basis financial statements of employers and non-employer contributing entities. This statement is effective for fiscal years beginning after June 15, 2014 and should be implemented in conjunction with Statement No. 68. The impact of this statement is discussed in detail in Note 15.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In February 2015, GASB issued Statement No. 72, *Fair Value Measurement and Application*. The requirements of this statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement will also enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. This Statement is effective for financial statements for periods beginning after June 15, 2015. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

In June 2015, GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this statement improve financial reporting by allowing governments to apply financial reporting guidance with less variation, which will improve the usefulness of financial statement information for making decisions and assessing accountability and enhance the comparability of financial statement information among governments. This Statement is effective for financial statements for periods beginning after June 15, 2015. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

The procedures used by the City in establishing the budgetary data recorded in the general purpose financial statements are as follows:

1. The Finance Division of the Department of Administration prepares estimates of available revenue.
2. Department directors submit proposed expenditure budgets to the Finance Division by June 1 each year.
3. The Finance Division reviews expenditure budgets and necessary revisions are made.
4. Budgeted revenues and expenditures are balanced, and a summary budget is prepared and presented to the Mayor.
5. The Mayor submits the proposed budget to the City Council by August 1.
6. Public hearings are conducted to obtain taxpayer comments.
7. The final budget is approved by September 15 and must be published in a local newspaper on or before September 30.
8. The budget is formally amended in July each year, if necessary. However, budget revisions are made throughout the year (prior to July), as reallocations of funds are necessary, a budget deficit is indicated, or circumstances change which dictate the need for a budget amendment.
9. Formal budgetary integration is employed as a management control device for all governmental and proprietary fund types.

The legal level of control for all budgets adopted is at the fund level with the exception of the General Fund, which is appropriated at the department level. Administrative control for all budgets is maintained through the establishment of more detailed line-item budgets.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

The Finance Division of the Department of Administration exercises budgetary monitoring throughout the fiscal year. An adopted budget may not exceed its appropriated level without City Council approval. However, department heads may make transfers of appropriations within a department. Budgetary controls are incorporated into the City's purchasing system. Purchase requisitions entered into the computer system that will cause a line item to exceed its budget will automatically be disallowed. The department head will then be required to make an inter-department budget transfer or request a budget amendment.

10. Encumbrance accounting, under which executed but unperformed purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Funds and Capital Projects Funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and are re-appropriated in the next year's budget.
11. Unexpended appropriations lapse at year-end in all funds.

NOTE 3: PROPERTY, GAMING, SALES TAX AND LEASE REVENUES

(A) Property Tax

Harrison County bills and collects the real, personal, and auto ad valorem taxes for the City. Taxes on real and personal property are levied by the City Council at the first regular meeting in September for the ensuing fiscal year, which begins on October 1. Restrictions associated with property tax levies vary with the statutory authority. State law limits the amount of increase in certain property taxes. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount that resulted from the assessments of the previous year plus new construction.

Real property taxes become a lien on January 1 and personal property taxes become a lien on March 1 of the current calendar year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase. All taxes are remitted monthly to the City. In addition, Harrison County also remits to the City a pro-rata share of road and bridge taxes collected by the County. Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue when received. Real property taxes are recognized as revenue when received because most delinquent real property taxes are collected by selling real property for taxes, together with all fees, penalties and damages accruing until date of sale, before the close of the fiscal year.

The remaining amount of real property not sold for taxes at the tax sale is considered immaterial; therefore, no end of year delinquent taxes receivable is recorded. The amount of delinquent personal property taxes unpaid at year-end is also considered immaterial.

The rates are expressed in terms of mills (i.e. ten mills equal one cent). The combined tax rate to finance general governmental services, including the payment of principal and interest on long-term debt and other purposes for the year ended September 30, 2015 was 34.00 mills or \$34.00 per \$1,000 of assessed valuation.

State law requires the municipality to exercise its taxing authority for the benefit of other governing authorities, which are not a part of the reporting entity. As provided, the municipality must levy specified ad valorem taxes as directed by the other governing authority and turn all proceeds over to it. Accordingly, taxes for the Gulfport School District are also billed and collected by the County and remitted to the City for disbursement to the School District.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements

NOTE 3: PROPERTY, GAMING, SALES AND LEASE REVENUES (Continued)

Ad valorem taxes collected and settled in accordance with this legal requirement are not recognized as revenues and expenditures of the municipality. The tax levies noted below with respect to the school funds were made in accordance with this legal requirement.

(B) Gaming Tax Revenues

In the early part of 1992, the citizens of Harrison County voted to allow dockside casino gaming as defined by the Mississippi Gaming Control Act of 1990. In May of 1993, the first casino opened in Gulfport. As of September 30, 2015 one casino was operating within the City. Gaming activities are taxed in a variety of ways. The State of Mississippi levies a sliding scale tax on gross gaming revenue, of which Harrison County and the City receive .4 to .8 percent. This tax is divided: 63% to the County and 37% to the City. The allocation is based upon the population demographics of the last official census. In addition to the State tax, the City, through local ordinance in accordance with State law, levies an additional 3.2% tax on gross gaming revenues. This tax is distributed as follows: 60% to the City (20% of which is designated for public safety); 20% to the Gulfport Public Schools; 10% to Harrison County for public safety; and 10% to Harrison County schools. In addition to the taxes on gross gaming revenue, the State, City and County annually receive licensing fees and permits from each casino for each gaming device. Total gaming revenue of \$3,656,859 was reported in the General Fund which consists of \$3,450,659 in gaming revenues and \$206,200 of gaming license fees for the year ended September 30, 2015.

(C) Sales Tax Revenues

The State levies a 7% sales tax on retail sales and remits 18.5% of the amount collected (within the corporate boundaries of the City of Gulfport) back to the City monthly. Sales tax revenue reported in the General Fund as of September 30, 2015, was \$20,523,996.

(D) Lease Revenue (Operating Leases)

The Gulfport Redevelopment Commission leases property and certain facilities to various tenants within its development sites. The majority of these leases are non-cancelable operating leases. Property leased by the Commission recorded in capital assets is as follows at September 30, 2015:

	Cost	Accumulated Depreciation	Net Value
Land	\$ 18,759,786	-	18,759,786
Buildings and Improvements	5,105,150	762,367	4,342,783
	\$ 23,864,936	762,367	23,102,569

Future minimum rentals for the more significant non-cancelable leases, not including contingent rentals, are as follows at September 30, 2015:

Year Ended September 30,	Amount
2016	\$ 130,300
2017	130,300
2018	132,669
2019	135,899
2020	139,435

(D) Lease Revenue (Operating Leases)- Continued

The minimum future rentals for these leases were determined using the rates in effect at September 30, 2015, and do not consider renewal options which may be available for certain lease contracts. Income under this portion of the leases is not included in future minimum rental amounts. Rental income for the year ended September 30, 2015 received through all leases was \$253,475.

Subsequent to year end, Gulfport Redevelopment Commission terminated a lease with a tenant included in future minimum rentals noted above. See Note 18 for additional details.

NOTE 4: CASH AND OTHER DEPOSITS AND INVESTMENTS

(A) Cash and Other Deposits

The City maintains a cash and investment pool for use by all funds except the Proprietary funds – governmental-type activities and Fiduciary Funds which either maintain a separate account or have investments held separately by a trustee.

At September 30, 2015, the carrying amount of the City’s deposits was \$41,872,993 and the bank balance was \$42,475,803. The difference represents outstanding checks and other reconciling items.

A summary of Cash and Cash Equivalents at September 30, 2015 is as follows:

NOTE 4: CASH AND OTHER DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a deposit policy for custodial credit risk.

The Mississippi State Treasurer manages that risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. The collateral for public entities' deposits in financial institutions are now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of a failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace public deposits not covered by the Federal Depository Insurance Corporation. As of September 30, 2015, none of the City's bank balance of \$42,475,803 was exposed to custodial credit risk.

(B) Investments

At September 30, 2015, the City's surplus funds that were not invested in overnight sweep repurchase agreements (considered short term and reported above as cash) were invested in Hancock Horizon Government Money Market Mutual Funds. A summary of the City's investments at September 30, 2015, is as follows:

	<u>Rate of Interest</u>	<u>Amount</u>
Business-type activities:		
Hancock Horizon Government		
Money Market Mutual	N/A	\$ 950,611

Custodial Credit Risk – Investments - The custodial credit for investments is the risk that, in the event of the failures of the counterparty (e.g. broker-dealer) to a transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The City's investment policy limits its exposure to custodial credit risk by requiring that all security transactions entered into by the City be conducted on a delivery-versus-payment basis.

Securities are to be held by a third party custodian. The investment in the Hancock Horizon Government Money Market Mutual fund is uninsured and unregistered and is not backed by the full faith and credit of the federal government, however are made up exclusively of short-term U. S. Government Securities.

Credit Risk – Investments - Generally, credit risk is the risk that issuers of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by nationally recognized statistical rating organizations (NRSROs). A disclosure of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments.

NOTE 6: INTER-FUND TRANSACTIONS AND BALANCES

Government-wide Financial Statements

Internal Balances

At September 30, 2015, the City had the following internal balances:

Receivable	Payable	Amount
Governmental Activities	Business-type Activities	\$ 649,701

These amounts are shown as a netted amount of short-term loans between governmental and business-type activities. These loans are temporary in nature, bear no interest, and are considered "available spendable resources."

Fund Financial Statements

The following is a summary of inter-fund balances at September 30, 2015:

(1) General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the City.

In December 2014, the City issued \$30,000,000 of general obligation bonds with interest rates varying between 1.5-3.4% to fund various capital projects throughout the City. \$16,000,000 of this general obligation bond project was used for governmental related projects and \$14,000,000 was used to fund water and sewer related projects.

General obligation bonds generally are issued as serial bonds with certain amounts of principal maturing each year. General obligation bonds currently outstanding are as follows:

Prior year defeasance of debt

The City has at various times entered into advance refunding transactions related to certain issues of its bonded debt. A portion of the proceeds of the refunding bond issues were placed in trust and used to purchase securities to meet all debt service requirements of the refunded debt. The liability for the refunded bonds and the related securities and escrow accounts were not included in the accompanying financial statements as the City defeased its obligations for payment of the refunded debt upon completion of the refunding transactions.

At September 30, 2015, refunded bond issues and the related principal payable from escrow is as follows:

Bond Issue	Principal Balance
2000 MDB Promissory Note	\$ 2,590,000
2001 MDB Promissory Note	1,085,000
1998 Refunded Bonds	1,760,000

2005 Refunded Water and Sewer Bonds	3,160,000
2007 Refunded Bonds	7,485,000
Total	<u>\$ 18,875,000</u>

(2) Limited Obligation Bond

The City issued tax increment financing bonds to encourage economic development of certain areas of the City. The original amount of tax increment financing bonds issued in the prior year was \$455,000. This bond has an interest rate of 4.0% with principal maturing September 2034.

The principal and interest on tax increment financing bonds are paid from the increase in sales tax revenue that is generated from the developed area. These bonds are generally issued as 10 or 20 year serial bonds with varying amounts of principal maturing each year. Tax increment financing bonds outstanding as of September 30, 2015 are as follows:

(4) Notes Payable

State Revolving Loans

The City is currently participating in the State Revolving Loan Program to provide funds for water and sewer system upgrades and improvements. These loans are granted with a 20 year maturity with equal amounts of principal maturing each year. The interest rates on these loans are 1.75%.

Gulfport Redevelopment Commission – Line of Credit

On December 17, 2014, Gulfport Redevelopment Commission (GRC) entered into a line of credit arrangement with BancorpSouth Bank, which carries a maximum possible balance of \$14,000,000. This loan has an interest rate of 3.25%. As September 30, 2015, GRC has drawn down \$10,838,246 of the loan balance. Amounts drawn down from this line of credit were used to pay off two outstanding loans of \$200,000 each taken out on November 6, 2014 and December 1, 2014, respectively. Collateral used to secure the loan is the assignment of ground lease agreements between the City of Gulfport and Southern All Metals Recycling, Inc. and Centennial Plaza, LLC and is guaranteed by the City of Gulfport.

Annual debt service requirements for the notes are as follows:

Year ended September 30,	Principal	Interest	Total

(5) Compensated Absences

The City's policies relative to compensated absences, method of computing accrued liabilities and reporting are discussed at Note 1. The General Fund and the Water & Sewer Fund has been primarily used in prior years to liquidate the liability for compensated absences.

(6) Claims and Judgments

The City has a commitment to pay life insurance benefits of \$1,000 upon the death of each retiree included in the Firemen's and Policemen's Disability and Relief Plan. The City elected to cancel its insurance policy covering such claims and self-insure these benefits. As a result, a total of \$85,000 was recorded for the 85 remaining retirees receiving benefits effective October 1, 1992. As of September 30, 2015, a total of 29 retirees and employees remain covered under the system. Accordingly, a liability in the amount of \$29,000 has been included in the General Long-Term Debt at September 30, 2015. None of the liability for these benefits is estimated to be paid within one year.

NOTE 9: LONG-TERM DEBT (Continued)

(7) Legal Debt Margin

Legal Debt Margin - The amount of general obligation bonded debt that can be incurred by the City is limited by state statute. Total outstanding general obligation bonded debt during a year can be no greater than 15% of assessed value of the taxable property within the City, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a city issues bonds to repair or replace washed out or collapsed bridges on the public roads of the city. As of September 30, 2015, the amount of outstanding general obligation bonded debt was equal to 4.25% of the latest property assessments.

Mississippi law limits the amount of general obligation debt a municipality may issue to 15% of total assessed valuation. Gulfport's total assessed valuation is \$723,801,964; therefore, the 15% limitation equals: \$108,570,295; less GO Bonds outstanding of \$30,757,200, leaving a margin for further debt issuance of \$77,813,095.

(8) No-Commitment Debt

The City authorized the issuance of \$13,900,000 of Hospital Revenue Bonds in 1988, \$17,725,000 of Hospital Revenue Refunding Bonds in 1989 and \$60,000,000 of Hospital Revenue Bonds in 2001. The Series 1994A and 1994B Hospital Revenue Refunding and Improvement Bonds were issued in 1994 to refund the 1988 and 1989 bonds and provide financing for expansion. The 2001 bonds were issued to provide financing for construction. As of September 30, 2008, the aggregate outstanding balance for the Hospital Revenue Refunding Bonds net of unamortized discount was \$70,497,128. These bonds do not constitute a liability of the City, are not a charge against its general credit or taxing powers and, accordingly, are not included in the City's General Long-Term Debt. However, as more fully discussed at Note 14, Memorial Hospital at Gulfport is a joint venture of the City and Harrison County.

NOTE 10: FUND BALANCE DESIGNATIONS

In accordance with Government Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies governmental fund balance as follows:

Non-spendable – amounts that cannot be spent either because it is not in spendable form or because legal or contractual constraints. The City has no non-spendable fund balances as of September 30, 2015.

Restricted – amounts that are constrained for specific purposes which are externally imposed by providers, such as grantors, bondholders, and higher levels of government, through constitutional provisions or enabling legislation.

Committed – amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end. The City has no committed fund balances as of September 30, 2015.

Assigned – amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the City Council or by an official or body to which the City Council delegates authority. The City has no assigned fund balances as of September 30, 2015.

Unassigned – amounts which include positive fund balances of the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

NOTE 10: FUND BALANCE DESIGNATIONS (Continued)

City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

The City uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents or contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

NOTE 11: UNEMPLOYMENT COMPENSATION FUND

In accordance with Mississippi Code Section 71-5-359(f), the City has obtained a surety bond and posted this bond with the Mississippi Employment Security Commission in lieu of maintaining a cash reserve.

NOTE 12: RISK MANAGEMENT

(A) Description

The City's risk management activities are recorded in the Claims Contingency Fund and the Group Life and Health Fund. The purpose of these funds is to administer general liability, police professional liability, automobile and property liability, workers' compensation, employee life, and employee health insurance programs of the City on a cost-reimbursement basis. These funds account for the risk financing activities of the City but do not constitute a transfer of risk from the City.

In compliance with the Tort Claims Act, Chapter 46 of Title 11 and as amended by the 1993 Legislature, Section 11-46-17(3) requires all municipalities from and after October 1, 1993, to obtain such policies of insurance, establish self-insurance reserves, or provide a combination of insurance and reserves necessary to cover all risks of claims and suits for which a municipality may be liable under the Tort Claims Act. In order to assure compliance with the Tort Claims Act, House Bill 417 established the Mississippi Tort Claims Board. Municipalities are required to submit plans of insurance, self-insurance and or reserves to the Tort Claims Board for approval.

The City is in compliance with the above by providing a combination of insurance and reserves for its tort liabilities, as well as for all of its other risk management activities. A description of these programs is included below.

Significant losses are covered by commercial insurance. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years. The following summary reflects the City's insurance coverage and self-insured risk retention (SIR):

<u>Workers' Compensation</u>

(B) Claims Liability

The City records an estimated liability for employee health care, workers' compensation, torts, and other claims against the City. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred but not reported based on historical experience.

(C) Unpaid Claims Liabilities

The funds establish a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the City from October 1, 2013 to September 30, 2015:

	<u>Claims Contingency</u>	<u>Group Health and Life</u>
Liability balance, October 1, 2013	\$ 2,410,000	\$ 233,123
Claims and changes in estimates	1,296,892	5,519,994
Claims payments	<u>(1,166,892)</u>	<u>(5,682,563)</u>
Liability balance, September 30, 2014	2,540,000	70,554
Claims and changes in estimates	1,381,174	8,577,843
Claims payments	<u>(1,181,066)</u>	<u>(7,411,144)</u>
Liability balance, September 30, 2015	<u>\$ 2,740,108</u>	<u>\$ 1,237,253</u>
Assets available to pay claims		
at September 30, 2015	<u>\$ 2,615,116</u>	<u>\$ 301,206</u>

The City's third-party claims administrator develops the City's reserves, including estimates for claims incurred but not reported. Administrative officials have reviewed the reserve estimates and consider them fairly stated. Additionally, the liability has been actuarially evaluated and found to be reasonable.

NOTE 13: OTHER COMMITMENTS AND CONTINGENCIES

(A) Federal Grants

In the normal course of operations, the City receives grant funds from various Federal agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds.

Management has determined that any liability for reimbursement, which may arise as the result of these audits, is not believed to be material to the financial statements.

(B) Litigation

The City is party to various legal proceedings, which normally occur in governmental operations. These legal proceedings are not likely to have a material adverse impact on the affected funds of the City. In addition, the City currently has approximately \$2,740,108 accrued in the Claims Contingency Fund for pending or threatened litigation for which unfavorable outcome is considered probable. See Note 12 for treatment of claims incurred but not reported and other tort liability information.

(C) Contract Commitments

See Note 9 (8) for additional information pertaining to conduit debt issued for Memorial Hospital at Gulfport.

(B) Harrison County Wastewater and Solid Waste Management District

The City is a member of the Harrison County Wastewater and Solid Waste Management District (District), which was established by an act of the Mississippi Legislature to provide for adequate wastewater treatment and solid waste disposal services to the citizens of Harrison County, Mississippi. The governing board is comprised of one member from each of the cities and county who are members of the District. Through a fifty-year contract, the City is obligated to pay monthly, its pro-rata share of all operating, administrative, and capital costs of the District. Additionally, the City is jointly and severally liable for all of the liabilities of the District. The District is classified as a joint venture between the City and the other members.

The following is a synopsis of the District's financial statements as of and for the year ended September 30, 2015, a complete copy of which is on file at the administrative offices of the District which are located at 14108 Airport Road, Gulfport, Mississippi 39503, or may be obtained by calling (228) 868-8752.

II. JOINTLY GOVERNED ORGANIZATIONS

(A) Gulfport-Biloxi Regional Airport Authority

The Gulfport-Biloxi Regional Airport Authority was chartered on August 25, 1977, and assumed control of the Airport on October 1, 1977. The authority is comprised of one appointee each from the local governmental units of the City of Gulfport, the City of Biloxi, and Harrison County. These governmental units have agreed to subsidize the Airport annually, if necessary. During the past fiscal year, the City did not provide any funding to the Gulfport-Biloxi Regional Airport.

(B) Harrison County Library System

On May 18, 1976, the City entered into an agreement with the Board of Trustees of the Biloxi Public Library, the City of Gulfport, the Board of Supervisors of Harrison County, the Board of Trustees of the Gulfport-Harrison County Library, the City of Pass Christian, and the Board of Trustees of the Pass Christian Public Library to mutually cooperate in securing a more economical public library system through combined resources, interests, materials and facilities to be known as the Harrison County Library System. There are no specific monetary terms in the agreement and the City has no equity interest in the organization. However, a budget is approved every year by the County Library Board, which stipulates the amount of funds needed from the participating municipalities and various other funding sources. The City contributed \$325,000 for the year ended September 30, 2015. The amount budgeted for the City for the fiscal year ended September 30, 2016 is \$350,000. This agreement is cancelable upon 60 days written notice prior to the end of the fiscal year and therefore, the City does not have an ongoing financial responsibility.

NOTE 15: RETIREMENT PLANS

I. Defined Benefit Pension Plans

The City participates in two retirement systems administered by the Public Employees' Retirement System of Mississippi (PERS). Both systems are defined benefit plans and include a multi-employer; cost-sharing pension plan and an agent multi-employer pension plan as described below:

General Information about the Pension Plans

(A) Public Employees' Retirement System

Plan Description. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public Cities. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 15: RETIREMENT PLANS (Continued)

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007).

PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the City is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2015, was 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature.

(B) Municipal Retirement Systems

The City contributes to the Municipal Retirement Systems' Fire and Police Disability and Relief Funds (MRS), an agent multiple-employer defined benefit pension plan administered by the Public Employees' Retirement System of Mississippi. MRS provides retirement and disability benefits and death benefits to plan members and beneficiaries. At June 30, 2015, the date of the most recent actuarial verification available, the MRS are composed of 19 separate municipal retirement and fire and police disability and relief systems. Benefit provisions are established by Section 21-29, Articles 1,3,5,7, Mississippi Code Annotated (1972), and annual local and private legislation and may be amended only by the State of Mississippi Legislature.

Membership in the Fire and Police Disability and Relief Systems was granted to all City uniformed police officers and fire fighters who were not already members of PERS and who were hired prior to July 1, 1976. Employees hired after July 1, 1976 automatically become members of PERS. MRS was fully closed to new members July 1, 1976. Members who terminate employment from all covered employers and are not eligible to receive monthly retirement benefits may request a refund of employee contributions.

Participating employees who retire regardless of age with at least 20 years of credited service are entitled to an annual retirement allowance payable monthly for life, in an amount equal to 50 percent of their average monthly compensation and an additional 1.7 percent for each year of credited service over 20 years not to exceed 66-2/3 percent of average monthly compensation.

Average monthly compensation is the monthly average for the last six months of service. The City provides a minimum monthly retirement allowance of \$500 under the MRS. Benefits vest upon reaching 20 years of credited service. MRS also provide certain death and disability benefits. Benefit provisions are established by Sections 21-29, Articles 1, 3, 5 and 7, Mississippi Code Annotated (1972) and annual local and private legislation. Statutes may be amended only by the state legislature.

NOTE 15: RETIREMENT PLANS (Continued)

Contributions to the plan are based on the value of taxable property adjusted to reflect all property-related contributions, and the millage rates applied to the assessed property. A new funding policy was implemented in February 2011 which extends contributions past 2020. The certified millage rate from the June 30, 2015 valuation is 1.29 mills, therefore, the millage rate effective October 1, 2016, is 1.29 mills.

Pension liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2015, the City reported a liability of \$62,650,933 in the governmental activities and \$2,272,785 in the business-type activities for a total of \$64,923,718 for its proportionate share of the PERS net pension liability. A net pension liability in the amount of \$10,373,951 was reported in the governmental activities for its share of the MRS net pension liability. The net pension liabilities were measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the PERS net pension liability was based on a projection of the City's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2015, the City's proportion was .42 percent. For the year ended September 30, 2015, the City recognized PERS pension expense for governmental activities of \$5,938,010 and \$215,413 for business-type activities. An additional pension expense of \$1,429,624 was reported for the MRS pension in the governmental activities.

Under the MRS pension plan, unfunded liabilities are amortized over a closed 30 year period from with 19 years remaining as of June 30, 2015, as a level percent of the municipality's assessed valuation.

At September 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 15: RETIREMENT PLANS (Continued)

Within the deferred outflows and inflows, a net amount of \$1,220,454 of deferred outflows of resources is related to pensions resulting from the City's contributions subsequent to the measurement date and will be recognized as a reduction to the net pension liability in the year ended September 30, 2016. Of this amount, \$1,181,623 was contributed for governmental activities and \$38,831 for business-type activities.

Other amounts reported as deferred outflow of resource and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30	PERS	MRS	Total
2016	\$ 1,788,883	\$ (102,818)	\$ 1,686,065
2017	1,727,765	(102,818)	1,624,947
2018	836,568	(102,818)	733,750
2019	949,683	(102,818)	846,865
	<u>\$ 5,302,899</u>	<u>\$ (411,272)</u>	<u>\$ 4,891,627</u>

Actuarial assumptions

The total pension liabilities in the June 30, 2015 actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurement:

	PERS	MRS
Inflation	3.5 percent	3.0 percent, compounded annually
Salary increases	4.25-19.50 percent, including inflation	3.75-5.50 percent, including inflation
Investment rate of return	8.00 percent, net of pension plan investment expense, including inflation	7.75 percent, net of pension plan investment expense, including inflation
Assessed property value rate of increase	N/A	2.0% compound annually, used in determining the millage rate under the funding policy

The table for post-retirement mortality rates used in evaluating allowances to be paid was the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016 with male rates set forward one year. The RP-Disabled Retiree Table set forward five years for males and four years for females, was used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the four year period ending June 30, 2014. The experience report is dated May 4, 2015.

For the PERS pension plan, the long-term expected rate of return on the investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of the plans' investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Basic Financial Statements
For the Year Ended September 30, 2015

NOTE 15: RETIREMENT PLANS (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
US Broad	34%	5.20%
International Equity	19%	5.00%
Emerging Markets Equity	8%	5.45%
Fixed Income	20%	0.25%
Real Assets	10%	4.00%
Private Equity	8%	6.15%
Cash	1%	-0.50%
Total	<u>100%</u>	

For the MRS pension plan, the actuarial value of assets recognizes a portion of the difference between the market value of assets and the expected actuarial value of assets, based on the assumed valuation rate of return. The amount recognized each year is 20% of the difference between market value and expected actuarial value. Actuarial value of assets was set equal to the market value on September 30, 2006, and smoothing commenced in 2007. Actuarial assets were allocated to individual cities in the same proportion that their market value of assets was to the total market value of assets for all cities.

Discount rate

The discount rate used to measure the total pension liability for PERS and MRS was 7.75 percent, which was based on the future long-term expected rate of return of 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions for PERS will be made at rates set in the Board's Funding Policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return investments was applied to all periods of projected benefit payments to determine each plan's total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following table presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.75 percent) or one percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's proportionate share PERS	\$ 49,465,690	\$ 64,923,718	\$ 80,381,746
City's proportionate share MRS	\$ 12,192,744	\$ 10,373,951	\$ 8,813,936

Pension plan fiduciary net position. Detailed information about the pension plans' fiduciary net position is available in the separately issued PERS financial reports for PERS and MRS plans which can be obtained at www.pers.ms.gov.

II. Deferred Compensation Plan

The Mississippi Public Employees' Retirement System (PERS) offers the City's employees voluntary participation in a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Effective January 1, 1997, the Plan was amended by the State in accordance with the provisions of IRC Section 457(g). On that date, assets of the Plan were placed in trust by the State for the exclusive benefit of participants and their beneficiaries. The requirements of that IRC Section prescribe that the assets are no longer subject to the claims of the City's general creditors. Accordingly, the assets and the liabilities for the compensation deferred by plan participants were removed from the City's financial statements during the year ended September 30, 1997. As of September 30, 2015 and 2014, assets held by PERS for participants employed by the City of Gulfport, Mississippi approximated \$5,350,020 and \$5,739,034 respectively.

Plan Description

The City of Gulfport Insurance Committee administers the City's self-insured medical and dental plan. City retirees may obtain health and dental insurance by participating in a group with active employees. The retirees now pay 100% of their health insurance premiums, therefore the City no longer has a post-employment healthcare benefit reportable under GASB 45 as a single employer defined benefit health care plan.

NOTE 18: SUBSEQUENT EVENTS

Events that occur after the statement of net position date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes.

Management of the City of Gulfport, Mississippi evaluated the activity of the City through June 21, 2016, (the date the financial statements were available to be issued), and determined that the following subsequent events required disclosure in the notes to the financial statements.

On February 18, 2016, the Gulfport Redevelopment Commission closed on the purchase of a parcel of land that was under contract at year end in the total amount of \$641,078. This parcel relates to the aquarium project. Funding for the acquisition was from an advance on the line of credit with BancorpSouth Bank.

During the 2015 legislative session, the State of Mississippi appropriated funds from the proceeds of the issuance of bonds, in an amount not to exceed \$12,000,000 for the aquarium project.

On February 5, 2016, the State of Mississippi Department of Finance and Administration (DFA) entered into a Memorandum of Understanding for the purpose of establishing the conditions under which the DFA may disburse an amount not to exceed \$12,500,000 for the funding of the aquarium project.

On April 19, 2016, the Gulfport Redevelopment Commission entered into a contract for architectural and engineering services for the construction of the aquarium project in the amount of \$5,832,000.

On May 16, 2016, the Gulfport Redevelopment Commission terminated a long term lease on the grounds of non-performance. The terminated lease was for the use of the Former Struthers Site. The future minimum lease payments associated with the terminated lease disclosed in Note 3 are \$2,254,145.

NOTE 18: SUBSEQUENT EVENTS – Continued

On June 7, 2016, the Gulfport Redevelopment Commission entered into a sixty year lease with Mississippi Coast Entertainment, LP for their use of the Small Craft Harbor Site for the purpose of developing a casino site. Minimum monthly lease payments of \$32,400 will be made to the Gulfport Redevelopment Commission until gaming operations commence. Once gaming operations commence, minimum annual rent will be the greater of \$1,215,000 or 2.43% of gross gaming revenues. The lease includes three renewal options of ten years each.

CITY OF GULFPORT, MISSISSIPPI
Notes to the Required Supplemental Information – Budgetary Schedule
For the Year Ended September 30, 2015

Budgetary Presentation

State statutes authorize the State Auditor to regulate the municipal budget process. Expenditures must be defined to the minimum level prescribed by the State Auditor. The State Auditor has set this level at the purpose level. Municipalities are prohibited from spending in excess of the lowest level adopted in the budget except for capital outlay, election expense and emergency warrants.

The budgetary comparisons present budget figures at the legal level of control. The City Council formally adopts the annual budget for the General Fund with revenues segregated by source (ad valorem tax, licenses and permits, intergovernmental, etc.). The General Fund expenditure budget is set at the character level (current, capital outlay, debt service) for each department (function) with current expenditures further detailed at the object level (personal services, supplies, and other services).

The budgets for revenues are on a cash basis – revenue is recognized if actually received within the year. Budgeted expenditures are on the cash basis with allowance for encumbrances for goods and services actually received prior to year-end and liquidated (paid) within thirty days after year-end.

Accounting principles applied in preparation of the budget comparison statements differ from the generally accepted accounting principles used in preparation of the fund statements. These differences in the principles used results in timing differences in the recognition of revenue and expenditures. At the bottom of the schedule is a reconciliation of the General Fund Statement of Revenues, Expenditures and Changes in Fund Balance, Budget and Actual – Budget Basis to the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds.

Analysis of the dollar amounts of actuarial value of assets, actuarial accrued liability, or unfunded actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the City of Gulfport's funded status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan. The unfunded actuarial accrued liability and the annual covered payroll are both affected by inflation. Usually expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the progress being made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the plan. However, for closed plans such as this one, this figure is highly misleading and should be ignored.

SUPPLEMENTAL INFORMATION

Supplementary information is presented to provide greater detailed information than reported in the preceding financial statements. This information, in many cases, has been spread throughout the report and is brought together here for greater clarity. Proprietary Funds

Combining and Individual Fund Financial Statements and Budgetary Comparison Schedules

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the services to the general public on a continuing basis are financed or recovered primarily through user charges.

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the government and to other government units on a cost reimbursement basis.

Enterprise Funds

Ad valorem on real property are collected in arrears for each calendar year. The tax is levied in September of the tax year on all property on the tax roll as of January 1 of the same year. Consequently, ad valorem tax is collected in the fiscal year ending in the calendar year subsequent to the calendar year for which the tax is assessed.

Overlapping debt			<u>94,005</u>
 Total direct and overlapping debt			 <u><u>\$ 125,217</u></u>

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

The percentage of overlapping debt applicable is estimated using assessed property values, by determining the portion of the county's taxable assessed value that is within the government's boundaries and dividing it by the county's total assessed value.
