Report on the Financial Statements

We have audited the accompanying comparative financial statements of the Mississippi State Port Authority at Gulfport, an agency of the State of Mississippi, as of and for the years ended June 30, 2014, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Mississippi State Port Authority at Gulfport, an agency of the State of Mississippi, as of June 30, 2014, 2013, and 2012, and the respective changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Mississippi State Port Authority at Gulfport's basic financial statements. The introductory list of officials is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory list of officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23, 2014, on our consideration of the Mississippi State Port Authority at Gulfport's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mississippi State Port Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Mississippi State Port Authority at Gulfport (the Authority), we offer the readers of the financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal years ended June 30, 2014, 2013, and 2012. We encourage readers to consider the information presented here in conjunction with the Authority's financial statements.

Financial Highlights

- The Authority's net position increased \$32.3 million as a result of this year's operations. Last year's operations increased net position by \$58.7 million as compared to a \$3.4 million increase in FY 2012.
- Total operating revenues for 2014 increased \$567,000 over the prior year. Fiscal Year 2014 Operating Revenues were \$14.7 million. Revenues for FY 13 & FY 12 were \$14.1 and \$14.2 million.
- Maritime revenues increased 4.6% or \$300,000 in Fiscal Year 2014. 2014 maritime revenues were \$6.8 million compared to \$6.5 million in Fiscal Year 2013. Maritime revenues were \$6.6 million in Fiscal Year 2012.
- As of June 30, 2014, the Authority's operating expenses totaled \$25 million, resulting in a net operating loss of \$10.3 million. This compares to a Fiscal Year 2013 net operating loss of \$13.6 million and \$36.1 million for Fiscal Year 2012. Fiscal Year 2014 operating expenses included \$10 million of CDBG grant reimbursable expenses. In FY 2013 reimbursable grant operating expenditures totaled \$13.4 million. In Fiscal Year 2012 reimbursable grant expenditures were \$36.2 million.
- Depreciation for Fiscal Year 2014 was \$6.4 million compared to \$6.3 million for FYs 2013 and 2012.
- The Authority spent over \$38 million as it continued implementation of its facility restoration plan during Fiscal Year 2014. The West Pier security gate complex and the 84 acre fill project were completed during the year. On-going projects included West Pier wharf upgrades, shed 50 railroad dock enhancements and pile driving for the new and expanded ilmenite facility.
- The Authority entered into a long term lease with a new Port tenant. The tenant will begin leasehold improvements in Fiscal Year 2016 and will be fully operational by the end of the year. As part of the marketing program the Port approved several confidential Memorandums of Understanding with potential new tenants.
- The Authority continued to complete and close out Project Worksheets from Hurricanes Katrina and Gustav. 30 Project Worksheets were closed during the year. 15 of 77 Project Worksheets remain to be closed from Hurricanes Katrina and Gustav. The Authority received \$10.2 million in FEMA funds during Fiscal Year 2014 compared to \$1.7 million during Fiscal Year 2013 and \$55,000 in Fiscal Year 2012. Fiscal Year 2014 ended with an additional \$1.7 million due to the Port from FEMA for work previously completed.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Authority's financial statements.

The annual report consists solely of the financial statements of the Mississippi State Port Authority at Gulfport.

These financial statements include the Comparative Balance Sheets, Statements of Revenues, Expenses, and Changes in Net Position, and the Statements of Cash Flows. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. Current year revenues are recognized when earned and current year expenses are recognized when they are incurred without regard to when the cash is received or disbursed.

Balance Sheet

The Balance Sheet presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating by reflecting the Authority's overall financial health. Restricted Assets include customer deposits and an escrow for a lease/purchase option. The Authority internally restricts additional funds for debt service and/or emergency contingencies.

A summary of the Authority's Balance Sheets as of June 30, 2014 with comparative amounts for June 30, 2013, 2012 and June 30, 2011 is as follows:

Statement of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents information showing how the Authority's net position have changed in the most recent fiscal year and the years presented for comparison. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Statement of Revenues, Expenses, and Changes in Net Position (Continued)

In the statement of revenues, expenses, and changes in net position, management divides the Authority's activities into two types as follows:

Charges for services - Most of the Authority's maritime services provided are reported here, including wharfage, dockage, usage, harbor fees, line-handling, and security.

Revenue from leases - All revenue received from maritime and non-maritime lease activities is reported here.

A summary of the Authority's Statement of Revenues, Expenses, and Changes in Net Position for the fiscal years ended June 30, 2014 with comparative amounts for June 30, 2013, 2012 and 2011 is as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Statement of Cash Flows

The statement of cash flows details the cash received and expended by the Authority during the fiscal year. The cash flow statement is divided into cash flows from operating activities, non-capital financing activities, capital financing activities, and investing activities.

Overall Analysis of Financial Position

One of the most important questions to be answered about the Authority's finances is, "Is the Authority as a whole better off or worse off as a result of the year's activities?" The Balance Sheet and the Statement of Revenues, Expenses, and Changes in Net Position are tools that management uses as indicators of the Authority's overall financial health. Over a period of time, increases or decreases in the Authority's net position are an indicator of whether its financial health is improving or deteriorating. Additionally, Management considers other non-financial indicators such as legislative mandates and the economic market conditions to assess the overall well-being of the port.

Expenditures on capital assets in Fiscal Year 2014 were \$39 million. Projects completed during the year were a West Pier security gate complex and the third and final phase of the 84 acre fill project. The first phase of the wharf upgrades and the shoreline protection project were 95 percent complete at year end. 50 percent of the work was completed on the shed 50 railroad dock project during Fiscal Year 2014. The design was completed and the pile driving contract was awarded for the new and expanded ilmenite facility.

Analysis of the Authority's current year cash flows shows a net increase of \$8.1 million in cash from the previous year. This compares to a \$14.7 million decrease in cash flows from Fiscal Year 2013. The primary utilization of cash during Fiscal Year 2014 was for the acquisition and construction of capital assets.

MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

The Authority continues to maintain and expand its capital assets. Over \$370 million is budgeted for capital outlay during the next two fiscal years. Financial assistance from a variety of sources (e.g., Federal and State government) is available to assist the Authority with this program.

Note 16 to the Financial Statements provides detail of the Authority’s outstanding construction commitments as of June 30, 2014.

Debt service payments continue with final payment of the current bond issue scheduled for September 2018.

Economic Factors and Fiscal Year Ending June 30, 2015’s Budget

The Authority’s management considered a variety of factors when setting the Fiscal Year 2015 budget. One of these factors was that the Authority’s function is to provide marine terminal services to its customers in order to enhance the economic growth of the State of Mississippi. In reviewing the existing tenant agreements and considering the projected capital improvements, revenue projections, with a projected one percent increase, remain relatively flat. As our existing maritime tenants continue to face tough competition, we expect to see only a marginal increase in tonnage or revenues from them. The Authority is currently negotiating long term leases with our existing maritime tenants and aggressively pursuing new business opportunities, with special interest focused on break-bulk and project cargoes.

NOTES TO FINANCIAL STATEMENTS

**MISSISSIPPI STATE PORT AUTHORITY AT GULFPORT
(AN AGENCY OF THE STATE OF MISSISSIPPI)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014, 2013, AND 2012**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Port of Gulfport was conveyed by the City of Gulfport to the State of Mississippi on September 26, 1960. On February 9, 1961, the Port of Gulfport was officially renamed and the Mississippi State Port Authority at Gulfport (Authority) was created. The Mississippi Development Authority (MDA) is authorized by state law, Mississippi Code Ann. 1972 Section 59-5-11, to oversee operations of the Authority. Furthermore, Mississippi Code Ann. 1972 Section 59-5-21 provides MDA with the authority to operate a port through a State Port Authority.

The Authority is governed by a board of five commissioners appointed to serve five year staggered terms. Three commissioners are appointed by the governor of Mississippi, one is appointed by the Harrison County Board of Supervisors and one is appointed by the City of Gulfport City Council.

Financial Reporting Entity

For financial reporting purposes, the Authority includes all funds that relate to Authority operations, debt service and construction projects. It is not intended to reflect information pertaining to the MDA or the State of Mississippi. As an agency of the State of Mississippi, its financial information is included in the State of Mississippi's Comprehensive Annual Financial Report.

Basis of Accounting

These financial statements have been presented in conformity with accounting principles generally accepted in the United States of America (GAAP) relative to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The Authority has been identified as an "enterprise fund" as described by GAAP for governmental entities. The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. With this measurement focus, all assets and liabilities associated with the operation of the Authority are included on the balance sheets.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Restricted Assets

When both restricted and non-restricted assets are available for use, the policy is to use restricted assets first, then unrestricted assets as needed.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014, 2013, AND 2012**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Authority. For purposes of the statements of cash flows, the Authority considers all highly liquid investments (including restricted assets) with a maturity of three months or less, when purchased, to be cash equivalents.

Equity in Internal Investment Pool

Equity in internal investment pool is cash deposited with the State Treasurer's Office and consists of pooled demand deposits that are considered cash and cash equivalents. The State Treasurer is responsible for maintaining the cash balances in accordance with State laws, and excess cash is invested in the State's cash and short-term investment pool. As of June 30, 2014, 2013, and 2012 the Authority's share in the pooled investment as a state agency consists of cash and totals \$737,750, \$737,750, and \$738,458, respectively.

Investments

The Authority reports investments at fair value which are readily available market quotations. Unrealized gains and losses are reported in interest and other investment income in the statements of revenues, expenses, and changes in net position.

Accounts Receivable

The Authority reports receivables at net realizable value. Management determines the allowance for doubtful accounts based on historical losses and current economic conditions. On a continuing basis, management analyzes delinquent receivables and estimates an allowance for doubtful accounts.

Due from Other State Agencies

Due from other State agencies represents subrecipient grant funds earned but not received as of June 30.

Due from Other Governments

Due from other governments represents grant funds and ad valorem taxes earned but not received as of June 30.

Capital Assets

Capital assets exceeding the State of Mississippi's mandated capitalization thresholds are stated at historical cost. Maintenance and repairs are expensed as incurred. Replacements that improve or extend the lives of property and exceed the mandated thresholds are capitalized. Depreciation of capital assets is computed on the straight-line method over the estimated useful lives of the related assets. The estimated useful lives and capitalization thresholds are as follows on the next page:

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

	<u>Useful Life</u>	<u>Capitalization Threshold</u>
Furniture and equipment	3-15 Years	\$5,000
Land improvements	13-40 Years	\$25,000
Buildings	40 Years	\$50,000
Infrastructure improvements	20-50 Years	\$100,000

Capitalized Interest

Interest costs on outstanding debt are capitalized when incurred during the construction period.

Unearned Revenue

The Authority defers revenue recognition in connection with resources that have been received, but not yet earned.

Compensated Absences

It is the Authority's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Employees earn an amount of vacation pay monthly based on years of service and vacation pay is accrued as earned. There is no liability for unpaid accumulated sick leave since the Authority does not have a policy to pay any amounts when employees separate from service.

Net Position

The Authority's net position is categorized as follows:

Invested in capital assets - represents total capital assets net of related debt.

Restricted - represents amount restricted for purposes related to a deposit on a capital lease purchase option.

Unrestricted - represents resources not limited or restricted in use.

Revenues

The Authority distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and leasing facilities in connection with the Authority's ongoing operations.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Credit Risk

The Authority provides services on credit to many of its customers in the ordinary course of business. The Authority's customers are in the gaming, shipping and marine terminal businesses. The Authority performs on-going credit evaluations of its customers and, generally, requires no collateral.

NOTE 2: DEPOSITS AND INVESTMENTS

Deposits

The MDA deposits funds, on behalf of the Authority, in financial institutions selected by the MDA or the State of Mississippi Treasury Department in accordance with state statutes.

All deposits, including short-term certificates of deposit, with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) must be collateralized in an amount equal to 105% of the uninsured deposit. The collateral must be held by the State of Mississippi Treasury Department or held in trust by a third-party financial institution in the State's name and evidenced by a safekeeping receipt issued to the State.

Qualifying collateral includes:

- a. Obligations of the U.S. Treasury and obligations guaranteed by the U.S. Government.
- b. Obligations of the Federal Home Loan Bank, Federal National Mortgage Association (Fannie Mae), Federal Farm Credit Bank and similar agencies approved by the State Treasurer.
- c. Tennessee Valley Authority obligations.
- d. Obligations of the State of Mississippi, its agencies, political subdivisions, and municipalities or any body corporate and politic created by the State of Mississippi.
- e. Legal obligations of any state, county, parish or municipality that are rated "A" or better.
- f. Surety bonds of any surety company authorized to do business in the State of Mississippi.
- g. All bonds authorized as security for state funds under items c, d, and e, inclusive, must be investment quality and any bonds under said items c, d, e and f, inclusive, which are rated substandard by any of the appropriate supervisory authorities having jurisdiction over said depository or by any recognized national rating agency engaged in the business of rating bonds, are not eligible for pledging as security.

The responsibility for ensuring the proper collateralization of deposits rests with the State of Mississippi Treasury Department. At June 30, 2014, the carrying amount of the Authority's deposits (including restricted deposits) was \$17,395,387 and the bank balances totaled \$17,847,050. The total of the bank balance was covered by federal depository insurance or by collateral held by the State of Mississippi Treasury Department or its agent in the State's name.

NOTE 2: DEPOSITS AND INVESTMENTS (Continued)

Deposits (continued)

As of June 30, 2014, 2013, and 2012, restricted cash and cash equivalents consist of the following:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Current:			
Restricted for customer deposits	<u>\$ 150,900</u>	<u>\$ 900</u>	<u>\$ 900</u>

As of June 30, the fair value of the Authority's investments by type are as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
U.S. Government securities and agencies	<u>\$ 80,954,469</u>	<u>\$ 82,380,255</u>	<u>\$ 65,442,651</u>

Investments are reported on the balance sheets as of June 30, as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Current Assets:			
Investments in U.S. Government securities and agencies	\$ 23,812,339	\$ 57,442,555	\$ 8,001,102
Non-Current Assets

Total investments	<u>\$ 80,954,469</u>	<u>\$ 82,380,255</u>	<u>\$ 65,442,651</u>

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the financial institution with which the Authority invests, the Authority will not be able to recover the value of its investments, which are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority, and are held by either the counter party or the counter party's trust department or agent but not in the Authority's name. The money market funds of \$2,636,170, included in cash and cash equivalents, are held by the trust department at one financial investment institution and consist of investment in a government fund mutual fund that is uninsured and uncollateralized at June 30, 2014. Those securities are not registered in the Authority's name. However, the money market funds are held in the Authority's name and are controlled solely by the Authority.

**MISSISSIPPI STATE PORT AUTHORITY AT GULFPORT
(AN AGENCY OF THE STATE OF MISSISSIPPI)
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014, 2013, AND 2012**

NOTE 2: DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk (continued)

All investments made by the Authority are authorized by the Executive Director in accordance with all applicable state laws. As outlined by the Mississippi Code Section 27-105-33, the Authority invests in United States Government Instrumentalities. Mississippi Code Section 25-11-121 requires that all investments be clearly marked as to ownership and, to the extent possible, be registered in the name of the Authority.

Credit Risk

Credit risk is the risk that an issuer or other counterparty will not fulfill its obligation. Mississippi State law requires a minimum quality rating of A-3 by Standard and Poor for corporate short-term obligations. This law also requires corporate and taxable municipal bonds to be of investment grade as rated by Standard and Poor, with bonds rated BAA/BBB not to exceed 5% of total fixed income investments. The highest credit rating that can be obtained from Standard and Poor is AAA.

As of June 30, the Authority's investments had the following credit ratings as published by Standard and Poor:

<u>Investment</u>	<u>Credit Rating</u>	<u>Fair Value</u>		
		<u>2014</u>	<u>2013</u>	<u>2012</u>
Mutual funds	AAA	\$ 2,636,170	\$ 898,860	\$ 14,626,638
U.S. Government securities and agencies	AA+	80,954,469	82,380,255	65,442,651
Total		\$ 83,590,639	\$ 83,279,115	\$ 80,069,289

Interest Rate Risk

Interest rate risk represents the Authority's exposure to fair value changes arising from changing interest rates over the term of the investments. The longer the period for which an interest rate is fixed, the greater the potential for variability in fair value resulting from changes in interest rates.

The future maturities of the Authority's investments as of June 30, 2014 are as follows:

<u>Investment Type:</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>	
		<u>Less than 1</u>	<u>1-5</u>
Mutual funds	\$ 2,636,170	\$ 2,636,170	\$ -
U.S. Government securities and agencies	80,954,469	23,812,339	57,142,130
	\$ 83,590,639	\$ 26,448,509	\$ 57,142,130

The Authority has developed a formal written investment policy which governs the investment process and establishes parameters to be followed in order to mitigate investment risk to include credit and interest rate risk.

NOTE 7: UNEARNED REVENUE (Continued)

Chiquita – Lease Incentive

On October 1, 2008, the Authority entered into a lease agreement with a lessee. Under the agreement, the Authority extended vessel credits to the lessee until construction of the berth used by lessee could be completed. Upon completion of the berth, the lessee will utilize the credits earned over the subsequent twelve month period and the total lease incentive is to be amortized over the remaining life of the lease. Completion of the berth occurred at the end of August 2009 and amortization of the lease incentive and recognition of vessel credits began on September 1, 2009.

Beginning with fiscal year 2013, the Authority implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Under these Statements, the unamortized lease incentive would be presented as a deferred outflow of resources. Due to the immaterial remaining balance, management elected to expense the remaining unamortized lease incentive, \$27,447, in the fiscal year ended June 30, 2013. As of June 30, 2013, \$124,568 has been amortized with no remaining balance. For the fiscal year ended June 30, 2012, \$52,783 had been recognized as deferred assets on the balance sheets.

NOTE 8: DUE TO OTHER GOVERNMENTS

Due to other governments at June 30, 2012 consists of amounts received from the Federal Emergency Management Agency (FEMA) for Hurricane Katrina expenditures that were deobligated by the federal agency in 2012.

NOTE 9: CAPITALIZED LEASE

In May 2009, the Authority entered into a land lease on approximately 33 acres in Gulfport, Mississippi. The original amount of the lease is \$699,751 and it has a bargain purchase option. Payments are \$60,500 for 12 months and then continue with annual payments of \$1 for nine years. The lease matures on June 1, 2018. The leased asset is valued at \$699,751 and is included in land on the balance sheets.

See additional information with regard to environmental contingency associated with the lease in Note 16.

NOTE 10: BONDS PAYABLE

The Authority is responsible for the repayment of specific General Obligation Bonds of the State of Mississippi relative to Authority capital projects. The bonds are backed by the full faith and credit of the State of Mississippi but are being retired from the resources of the Authority and are presented as debt of the Authority.

An analysis of bond activity is as follows:

NOTE 12: LEASING ARRANGEMENTS

Substantially all of the Authority's capital assets are leased to various businesses for periods up to 40 years. All of the leases are accounted for as operating leases. Revenue from leases was \$9,326,980, \$8,944,567, and \$8,926,761 for 2014, 2013, and 2012, respectively. The leases to gaming operations include contingent rentals of \$6,518,781, \$5,996,030, and \$6,002,919 for 2014, 2013, and 2012, respectively. These contingent rentals are based on gross revenues of the gaming operations. Many of the leases with other operations include provisions for minimum thruput charges in order to fund debt service requirements relating to the specific facility leased. These thruput charges are included in operating revenues.

The following is a schedule of future minimum rentals through the end of the lease agreements in effect as of June 30, 2014, not including contingent rentals, consumer price index adjustments, or thruput charges:

Year	Amount
2015	\$ 2,451,508
2016	2,325,989
2017	2,325,989
2018	1,974,953
2019	1,623,916
2020 - 2043	14,689,824
Total	\$ 25,392,179

New Tenant

A lease revenue agreement was entered into in May 2014 with a commencement date of August 1, 2014. The start of receipt of lease payments is contingent upon the occupancy date. The occupancy date should be no later than January 1, 2016 with annual lease revenue totaling \$3,612,000. The lease termination date is July, 31, 2025. Over the term of the lease, lease revenue is expected to be \$34,314,000.

Gaming Lease

Effective October 18, 2013, the Authority entered into an amended and restated lease agreement with its gaming lessee. The terms of the lease agreement include a ten year primary term, expiring on June 30, 2023, with two five year renewal options. Also included in the lease terms is an additional percentage rental abatement that reduces the 3% non-gaming additional percentage rental by 35% of the total capitalized costs expended by the lessee in connection with its hotel renovation and restoration (hotel development assistance cap amount). The abatement expires when the hotel development assistance cap amount is met or at the end of the second five year renewal term, July 1, 2033, whichever occurs first. An aggregate hotel renovation cost calculation is due to the Authority ninety days after the hotel opens.

NOTE 13: DEFINED BENEFIT PENSION PLAN

Plan Description

The Authority contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information.

NOTE 13: DEFINED BENEFIT PENSION PLAN (Continued)

Plan Description (continued)

That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS, 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy

PERS members are required to contribute 9% of their annual covered salary and the Authority is required to contribute at an actuarially determined rate. For the periods ending June 30, 2014, 2013, and 2012, the Authority's contribution rates were 15.75%, 14.26%, and 12.93% of annual covered payroll, respectively. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The Authority's contributions to PERS for the years ended June 30, 2014, 2013, and 2012 were \$357,420, \$300,888, and \$255,127, respectively, equal to the required contributions for each year.

Other Post Employment Benefits

Retirees and beneficiaries have the option of maintaining health and other coverage at their own expense; the State incurs no expense for postretirement health benefits. However, since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the State has a postemployment healthcare benefit reportable under GAAP for governmental entities as a single employer defined benefit healthcare plan. The State reports the liability associated with other postemployment benefits on an accrual basis. The State does not issue a publicly available financial report on the Plan. However, the required reporting is included in the State's financial statements disclosures available on the State of Mississippi's website at www.dfa.state.ms.us.

New Standard

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*, that revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. The statement requires employers to recognize a liability in their financial statements as employees earn their pension benefits (that is, as they provide services to the government) effective for fiscal years beginning after June 15, 2014. As an agency of the State, the Authority's pension liability amounts for benefits provided through the plan will be reported in the State's financial statements ending June 30, 2015.

NOTE 14: LEASES

Office Space

In May 2007, the Authority entered into a lease agreement for office space at One Hancock Plaza in Gulfport, Mississippi. The office space lease is classified as an operating lease. Effective September 9, 2014 the lease was renewed for a period of two years expiring on September 9, 2016. Annual rent under this lease agreement is \$173,187. Rent expense for the years ended June 30, 2014, 2013 and 2012 total \$173,187, \$172,110, and \$170,508 respectively. Rent expenses are included in the statements of revenues, expenses, and changes in net position as contractual services.

Modular Office Building - Operations

In October 2012, the Authority entered into a lease agreement for a modular office building. The lease is classified as an operating lease. The lease term is five years but is cancelable after thirty-six months. Monthly rent under this lease agreement is \$1,983. Rent expense for the year ended June 30, 2014 totals \$17,847. Rent expenses are included in the statements of revenues, expenses, and changes in net position as contractual services.

Modular Office Building - Crowley

In July 2012, the Authority entered into a lease agreement for a modular office building. The lease is classified as an operating lease. The lease term is five years but is cancelable after thirty-six months. Monthly rent under this lease agreement is \$1,048. Rent expense for the year ended June 30, 2014 totals \$12,576. Rent expenses are included in the statements of revenues, expenses, and changes in net position as contractual services.

Copier lease

In February 2013, the Authority entered into a lease agreement for copiers. The lease is classified as an operating lease. The lease term is four years. Monthly rent under this lease agreement is \$1,100. Rent expense for the year ended June 30, 2014 totals \$13,200. Rent expenses are included in the statements of revenues, expenses, and changes in net position as contractual services.

Minimum Future Lease Payments

The minimum future lease payments on the above leases at June 30, 2014 are as follows:

<u>Year</u>	<u>Amount</u>
2015	\$ 222,759
2016	193,384
2017	50,997
Total	<u>\$ 467,140</u>

NOTE 15: ECONOMIC DEPENDENCY

NOTE 16: COMMITMENTS AND CONTINGENCIES

Commitments

Construction in Progress

Construction in progress at June 30, 2014 is primarily composed of construction costs for shore protection, the shed 50 railroad dock, ilmenite facility, and wharf upgrades. The total amount of the construction contracts in progress as of June 30, 2014 is \$81,210,885, of which \$36,087,382 in construction costs has been incurred through June 30, 2014. Of the construction costs incurred as of June 30, 2014 the Authority remains obligated to pay \$3,980,228 from unrestricted cash. The Authority is further obligated to pay the remaining amount of \$45,123,504 as work progresses on these construction contracts from federal grants and Authority revenues.

Contingencies

Regulatory Environment

The Authority's future restoration plans, accounted for in construction in progress, are subject to various regulatory approvals by federal and state agencies which could affect the scope and timing of project completion.

Environmental

The Authority has entered into a capital lease purchase of a parcel of land, approximately 33 acres, located in Gulfport, Mississippi, known as the former Gulfport Fertilizer Site, hereafter referred to as the "Site." The Site is contaminated with low levels of arsenic and lead in excess of the unrestricted Target Remediation Goals (TRGs) as established by the Mississippi Department of Environmental Quality (MDEQ), and, therefore, remediation of the Site is necessary. The MDEQ has mandated certain action be taken with respect to the adverse environmental conditions and the Seller, has proposed to MDEQ an interim corrective action plan. The Authority is aware of the plan. The Seller will remain responsible for implementing the Corrective Action Plan.

\$450,000 stays in escrow until the "No Further Action" letter from MDEQ is received. The Authority has deposited this amount into a separate account with the Seller, for the sole purpose of fulfilling this obligation. The contingency is included in restricted assets - deposit on the balance sheets and has a balance of \$450,000 at June 30, 2014, 2013, and 2012. See additional information in Note 9.

Litigation

In April 2012, a construction company filed suit against the Mississippi Department of Finance and Administration and the Authority. The suit is disputing a contract award related to the fill project. Legal counsel's estimated potential liability is \$3,000,000 should the construction company succeed. However, the Authority and its attorneys believe the Authority will ultimately prevail in this matter. No accrual for losses as a result of the litigation has been made in the financial statements and, as such, losses, if any, are not probable.

Settlement Negotiation

The Authority was previously in settlement negotiations with a lessee who sustained damages when a sprinkler system malfunctioned. The expected net loss was approximately \$35,000 to \$45,000. The claim was settled during the year for \$42,678. As a member and participant in the Mississippi Tort Claims Fund, the Authority incurred no expense related to this loss. See additional information in Note 18.

Contingencies (Continued)

Federal Grants

In the normal course of operations and as a result of the destruction from Hurricane Katrina, the Commission has received grant funds from various Federal agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds.

NOTE 17: MISSISSIPPI COAST FOREIGN TRADE ZONE, INC.

In January 1999, the U. S. Department of Commerce Foreign Trade Zone Board approved the expansion of the Greater Gulfport/Biloxi Foreign Trade Zone, Inc. to include Harrison County. Such designation allows foreign or domestic merchandise coming into the Mississippi State Port Authority at Gulfport to generally be considered as part of international commerce and not officially entered in United States Commerce. Therefore, the usual duties charged on goods may be deferred, reduced, avoided or eliminated.

NOTE 18: RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and the destruction of assets; errors and omission; injuries to employees; and natural disasters. Significant losses are generally covered by commercial insurance with the exception of the self-insured risks discussed below. There have been no reductions in insurance coverage.

Self-Insurance

Tort Claims

The Authority is a member and participant in the Mississippi Tort Claims Fund under the administration of the Mississippi Tort Claims Board. This entity is a self-insurance tort (civil suit) claims fund organized under Mississippi Code Ann. 1972 Section 11-46-17. Membership for state agencies is mandatory. The plan provides liability and tort claims insurance for its members according to limits established by the Mississippi Tort Claims Act. The members of the group are jointly and severally liable for the obligations of the group. The possibility of additional liability exists, but that amount, if any, cannot be determined.

Unemployment Insurance

The Authority is a member and participant in the Unemployment Insurance Fund under the administration of the Mississippi Department of Finance and Administration, Office of Insurance. The entity is a self-insurance unemployment insurance fund organized under Mississippi Code Ann. 1972 Section 71-5-355. Membership for state agencies is mandatory. The group is self-insured for all unemployment claims filed with the Mississippi Department of Employment Security by former State employees. The members of the group are jointly and severally liable for the obligations of the group. The possibility of additional liability exists, but that amount, if any, cannot be determined.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

September 23, 2014

To the Board of Commissioners
Mississippi State Port Authority at Gulfport
Gulfport, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Mississippi State Port Authority at Gulfport, an agency of the State of Mississippi, as of and for the year ended June 30, 2014, and the related notes to the financial statements and have issued our report thereon dated September 23, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Mississippi State Port Authority at Gulfport's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Mississippi State Port Authority at Gulfport's internal control. Accordingly, we do not express an opinion on the effectiveness of the Mississippi State Port Authority at Gulfport's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Commissioners
Mississippi State Port Authority at Gulfport
September 23, 2014

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mississippi State Port Authority at Gulfport's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Mississippi State Port Authority at Gulfport's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Mississippi State Port Authority at Gulfport's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

September 23, 2014

To the Board of Commissioners
Mississippi State Port Authority at Gulfport
Gulfport, Mississippi

Report on Compliance for Each Major Federal Program

We have audited Mississippi State Port Authority at Gulfport's, an agency of the State of Mississippi, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Mississippi State Port Authority at Gulfport's major federal programs for the year ended June 30, 2014. The Mississippi State Port Authority at Gulfport's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Mississippi State Port Authority at Gulfport's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Mississippi State Port Authority at Gulfport's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Mississippi State Port Authority at Gulfport's compliance.

Opinion on Each Major Federal Program

In our opinion, the Mississippi State Port Authority at Gulfport complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

To the Board of Commissioners
Mississippi State Port Authority at Gulfport
September 23, 2014

Report on Internal Control Over Compliance

Management of the Mississippi State Port Authority at Gulfport is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the Mississippi State Port Authority at Gulfport's internal control over compliance with the types of compliance requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Mississippi State Port Authority at Gulfport's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
