INDEPENDENT AUDITOR'S REPORT
ON
THE PRIMARY GOVERNMENT BASIC FINANCIAL STATEMENTS
AND SUPPLEMENTAL INFORMATION

Members of the Board of Supervisors
Jefferson Davis County, Mississippi

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson Davis County, Mississippi, as of and for the year ended September 30, 2006, which collectively comprise the county's primary government financial statements as listed in the table of contents. These financial statements are the responsibility of the county's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The financial statements referred to above include only the primary government of Jefferson Davis County, Mississippi, which consists of all funds, organizations, institutions, agencies, departments and offices that comprise the county's legal entity. The financial statements do not include financial data for the county's legally separate component units, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the county's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of Jefferson Davis County, Mississippi, as of September 30, 2006, and the respective changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information for the primary government of Jefferson Davis County, Mississippi, as of September 30, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2007, on our consideration of Jefferson Davis County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Jefferson Davis County, Mississippi, has not presented Management's Discussion and Analysis that is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board.

The Budgetary Comparison Schedules and corresponding notes are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the primary government financial statements that collectively comprise Jefferson Davis County, Mississippi's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The accompanying Reconciliation of Operating Costs of Solid Waste is also presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended September 30, 2006

	<u>Amount</u>
Net Changes in Fund Balances - Governmental Funds	\$ (1,523,028)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net assets differs from the change in fund balances by the amount that capital outlays of \$4,638,955 exceeded depreciation of \$607,196 in the current period.	4,031,759
In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increase financial resources. Thus, the change in net assets differs from the change in fund balances by the amount of the net loss of \$925 and the proceeds from the sale of \$75 in the current period.	(1,000)
Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	(43,772)
Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Thus, the change in net assets differs from the change in fund balances by the amount of the debt repayments.	<u>80,055</u>

JEFFERSON DAVIS COUNTY
Notes to Financial Statements
For the Year Ended September 30, 2006

(1) Summary of Significant Accounting Policies.

A. Financial Reporting Entity.

Jefferson Davis County is a political subdivision of the State of Mississippi. The county is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Jefferson Davis County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the county.

Management has chosen to omit from these financial statements the following component units which have significant operational or financial relationships with the county. Accordingly, the financial statements do not include the data of all of the county's component units necessary for reporting in conformity with accounting principles generally accepted in the United States of America.

- Jefferson Davis County Hospital
- Jefferson Davis County Economic Development District

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the county legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor-Collector
- Sheriff

B. Basis of Presentation.

The county's basic financial statements consist of government-wide statements, including a Statement of Net Assets and a Statement of Activities and fund financial statements, which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Assets and Statement of Activities display information concerning the county as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements For the Year Ended September 30, 2006

The Statement of Net Assets presents the financial condition of the governmental activities of the county at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the county's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as program revenues, are presented as general revenues of the county, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the county.

Fund Financial Statements:

Fund financial statements of the county are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into governmental and fiduciary. Major individual Governmental Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

C. Measurement Focus and Basis of Accounting.

The Government-wide and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the county. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The county reports the following major Governmental Funds:

General Fund - This fund is used to account for all activities of the general government for which a separate fund has not been established.

Hurricane Katrina Fund - This fund is used to account for monies from specific revenue sources that are restricted for disaster related projects.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements For the Year Ended September 30, 2006

Additionally, the county reports the following fund types:

GOVERNMENTAL FUND TYPES

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditures for specified purposes. Special Revenue Funds account for, among others, certain federal grant programs, taxes levied with statutorily defined distributions and other resources restricted as to purpose.

Debt Service Funds - These funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Funds - These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. Such resources are derived principally from proceeds of general obligation bond issues and federal grants.

FIDUCIARY FUND TYPE

Agency Funds - These funds account for various taxes, deposits and other monies collected or held by the county, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

D. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2005 by the Government Finance Officers Association.

E. Deposits and Investments.

State law authorizes the county to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the county may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value. However, the county did not invest in any governmental securities during the fiscal year.

F. Receivables.

Receivables are reported net of allowances for uncollectible accounts, where applicable.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements
For the Year Ended September 30, 2006

G. Interfund Transactions and Balances.

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets.

H. Capital Assets.

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure, costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Governmental accounting and financial reporting standards allow governments meeting certain criteria to elect not to report major general infrastructure assets retroactively. Jefferson Davis County elected to report major general infrastructure assets acquired after September 30, 1980, on the government-wide financial statements. General infrastructure assets include all roads and bridges and other infrastructure assets.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives.

	<u>Capitalization Thresholds</u>	<u>Estimated Useful Life</u>
Land	\$ 0	N/A
Infrastructure	0	20-50 years
Buildings	50,000	40 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

* Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements
For the Year Ended September 30, 2006

I. Long-term Liabilities.

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities, Statement of Net Assets.

J. Equity Classifications.

Government-wide Financial Statements:

Equity is classified as net assets and displayed in three components:

Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, constructions or improvements of those assets.

Restricted net assets - Consists of net assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net assets - All other net assets not meeting the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is classified as reserved or unreserved with unreserved classified as designated and undesignated.

Unreserved fund balance represents the amount available for budgeting future operations. Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose.

K. Property Tax Revenues.

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the county. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements
For the Year Ended September 30, 2006

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectibility criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

L. Intergovernmental Revenues in Governmental Funds.

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

(2) Deposits.

The carrying amount of the county's total deposits with financial institutions at September 30, 2006, was \$9,362,734, and the bank balance was \$9,567,431. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the county will not be able to recover deposits or collateral securities that are in the possession of an outside party. The county does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the county. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the county.

(3) Interfund Transactions and Balances.

The following is a summary of interfund balances at September 30, 2006:

A. Due From/To Other Funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Other Governmental Funds	General	\$ 47,210
Agency Funds	General	<u>4,038</u>
Total		<u>\$ 51,248</u>

The receivables represent the tax revenue collected but not settled until October, 2006. All interfund balances are expected to be repaid within one year from the date of the financial statements.

(6) Claims and Judgments.

Risk Financing.

The county finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The county pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$750,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2006, to January 1, 2007. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

(7) Operating Leases.

As Lessor:

The county receives income from property it leases under noncancellable operating leases. Total income from such leases was \$24,000 for the year ended September 30, 2006. The lease is automatically renewed from year to year unless notice of termination is given in writing by either party at least 30 days prior to the last day of the lease term.

(8) Capital Leases.

As Lessee:

The county is obligated for the following capital assets acquired through capital leases as of September 30, 2006:

Classes of Property	Governmental Activities
Mobile equipment	\$ 79,799
Less: Accumulated depreciation	<u>23,940</u>
Leased Property Under Capital Leases	<u>\$ 55,859</u>

The following is a schedule by years of the total payments due as of September 30, 2006:

Year Ending September 30	Governmental Activities

(9) Long-term Debt.

Debt outstanding as of September 30, 2006, consisted of the following:

Description and Purpose	Amount Outstanding	Interest Rate	Final Maturity Date
A. General Obligation Bonds: Hospital bond	\$ <u>1,524,736</u>	4.25%	07-25
B. Capital Leases: Leeboy 685B motor grader	\$ <u>27,425</u>	3.09%	09-07

Annual debt service requirements to maturity for the following debt reported in the Statement of Net Assets are as follows:

Year Ending September 30	General Obligation Bonds	
	Principal	Interest
2007	\$ 55,731	64,615
2008	58,088	62,246
2009	60,576	59,777
2010	63,150	57,203
2011	65,832	54,519
2012 - 2016	373,578	228,170
2017 - 2021	460,068	141,742
2022 - 2026	<u>387,713</u>	<u>37,876</u>
Total	\$ <u>1,524,736</u>	<u>706,148</u>

Legal Debt Margin - The amount of debt, excluding specific exempted debt, that can be incurred by the county is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the county, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a county issues bonds to repair or replace washed out or collapsed bridges on the public roads of the county. As of September 30, 2006, the amount of outstanding debt was equal to less than 1% of the latest property assessments.

The following is a summary of changes in long-term liabilities and obligations for the year ended September 30, 2006:

	Balance Oct. 1, 2005	Additions	Reductions	Adjustments	Balance Sept. 30, 2006	Amount due within one year

(10) Contingencies.

Federal Grants - The county has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the county. No provision for any liability that may result has been recognized in the county's financial statements.

Litigation - The county is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the county with respect to the various proceedings. However, the county's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the county.

(11) Related Organization.

The Jefferson Davis County Board of Supervisors is responsible for appointing a voting majority of the members of the board of the Prentiss/Jefferson Davis County Airport, but the county's accountability for this organization does not extend beyond making the appointment. The county appropriated \$5,000 for the airport's support in fiscal year 2006.

(12) Joint Venture.

The county participates in the following joint venture:

Jefferson Davis County is a participant with Marion County in a joint venture, authorized by Section 39-3-9, Miss. Code Ann. (1972), to operate the South Mississippi Regional Library. The joint venture was created to provide library service for the Counties of Jefferson Davis and Marion, and is governed by a five-member board. The two counties rotate board appointments so each county has a majority of board members in alternate years. Complete financial statements for the South Mississippi Regional Library can be obtained from the Marion County branch located at 900 Broad Street, Columbia, Mississippi.

(13) Jointly Governed Organizations.

The county participates in the following jointly governed organizations:

Pearl River Valley Opportunity, Inc., operates in a district composed of the Counties of Covington, Forrest, Jefferson Davis, Jones, Lamar, Marion, Pearl River and Perry. The entity was created to administer programs conducted by community action agencies, limited purpose agencies and related programs authorized by federal law. The Jefferson Davis County Board of Supervisors appoints one of the 24 members of the board of directors. The primary source of funding for the entity is derived from federal funds. Each county provides a modest amount of financial support when matching funds are required for federal grants.

Southeast Mississippi Air Ambulance District operates in a district composed of the Counties of Covington, Forrest, Greene, Jefferson Davis, Lamar, Marion, Pearl River, Perry, Stone and Walthall. The Jefferson Davis County Board of Supervisors appoints one of the ten members of the board of directors. The county appropriated \$30,000 for support of the district in fiscal year 2006.

JEFFERSON DAVIS COUNTY

Notes to Financial Statements For the Year Ended September 30, 2006

Pearl River Community College operates in a district composed of the Counties of Forrest, Hancock, Jefferson Davis, Lamar, Marion and Pearl River. The Jefferson Davis County Board of Supervisors appoints two of the 16 members of the college board of trustees. The county appropriated \$130,837 for maintenance and support of the college in fiscal year 2006.

Southern Mississippi Planning and Development District operates in a district composed of the Counties of Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jefferson Davis, Jones, Lamar, Marion, Pearl River, Perry, Stone and Wayne. The Jefferson Davis County Board of Supervisors appoints one of the 27 members of the board of directors. The county appropriated \$20,162 for support of the district in fiscal year 2006.

Pine Belt Mental Health Care Resources operates in a district composed of the Counties of Covington, Forrest, Greene, Jefferson Davis, Jones, Lamar, Marion, Perry and Wayne. The Jefferson Davis County Board of Supervisors appoints one of the nine members of the board of commissioners. The county appropriated \$31,000 for support of the entity in fiscal year 2006.

Pearl and Leaf River Rails-to-Trails Recreational District operates in a district composed of the Counties of Forrest, Jefferson Davis and Lamar, and the Cities of Bassfield, Hattiesburg, Prentiss and Sumrall. The Jefferson Davis County Board of Supervisors appoints one of the seven members of the board of directors. The county appropriated \$15,550 for support of the district in fiscal year 2006.

(14) Defined Benefit Pension Plan.

Plan Description. Jefferson Davis County, Mississippi, contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary, and the county is required to contribute at an actuarially determined rate. The rate at September 30, 2006 was 11.30% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The county's contributions (employer share only) to PERS for the years ending September 30, 2006, 2005 and 2004 were \$231,528, \$213,668 and \$190,996, respectively, equal to the required contributions for each year.

JEFFERSON DAVIS COUNTY

Notes to the Required Supplementary Information
For the Year Ended September 30, 2006

A. Budgetary Information.

Statutory requirements dictate how and when the county's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the county, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor-Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The county's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and the major Special Revenue Fund:

	Governmental Fund Types	
	General Fund	Hurricane Katrina Fund
Budget (Cash Basis)	\$ (916,152)	7,803
Increase (Decrease)		
Net adjustments for revenue accruals	(786,056)	
Net adjustments for expenditure accruals	698,824	
GAAP Basis	\$ (1,003,384)	7,803

D. Excess of Actual Expenditures Over Budget in Individual Funds.

The following fund had an excess of actual expenditures over budget for the year ended September 30, 2006:

<u>Fund</u>	<u>Excess</u>
General Fund	\$ <u>6,340</u>

The General Fund is in violation of Section 19-11-17, Miss. Code Ann. (1972). However, the county has no liability associated with these violations.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE
PRIMARY GOVERNMENT FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board of Supervisors
Jefferson Davis County, Mississippi

We have audited the primary government financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson Davis County, Mississippi, as of and for the year ended September 30, 2006, which collectively comprise the county's basic primary government financial statements and have issued our report thereon dated January 10, 2007. The auditor's report on the primary government financial statements is modified to reflect that the primary government financial statements do not include the financial data of the county's component units. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Jefferson Davis County, Mississippi's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the primary government financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Jefferson Davis County, Mississippi's ability to initiate, record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as items 06-1 and 06-2.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the primary government financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we consider item 06-1 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jefferson Davis County, Mississippi's primary government financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted a certain immaterial instance of noncompliance which we have reported to the management of Jefferson Davis County, Mississippi, in the Limited Internal Control and Compliance Review Management Report dated January 10, 2007, included within this document.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Members of the Board of Supervisors
Jefferson Davis County, Mississippi

Compliance

We have audited the compliance of Jefferson Davis County, Mississippi, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2006. Jefferson Davis County, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Jefferson Davis County, Mississippi's management. Our responsibility is to express an opinion on Jefferson Davis County, Mississippi's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jefferson Davis County, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Jefferson Davis County, Mississippi's compliance with those requirements.

In our opinion, Jefferson Davis County, Mississippi, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2006.

Internal Control Over Compliance

The management of Jefferson Davis County, Mississippi, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Jefferson Davis County, Mississippi's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Jefferson Davis County, Mississippi's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts and grants. The reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as item 06-3.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is not a material weakness.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON CENTRAL PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND PURCHASE CLERK SCHEDULES (REQUIRED BY SECTION 31-7-115, MISS. CODE ANN. (1972))

Members of the Board of Supervisors
Jefferson Davis County, Mississippi

We have made a study and evaluation of the central purchasing system and inventory control system of Jefferson Davis County, Mississippi, as of and for the year ended September 30, 2006. Our study and evaluation included tests of compliance of the Purchase Clerk and Inventory Control Clerk records and such other auditing procedures as we considered necessary in the circumstances.

The Board of Supervisors of Jefferson Davis County, Mississippi, is responsible for establishing and maintaining a central purchasing system and inventory control system in accordance with Sections 31-7-101 through 31-7-127, Miss. Code Ann. (1972). In addition, the Board of Supervisors is responsible for purchasing in accordance with the bid requirements of Section 31-7-13, Miss. Code Ann. (1972). The Board of Supervisors of Jefferson Davis County, Mississippi, has established centralized purchasing for all funds of the county and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

In our opinion, Jefferson Davis County, Mississippi, complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements.

The accompanying schedules of (1) purchases not made from the lowest bidder, (2) emergency purchases and (3) purchases made noncompetitively from a sole source are presented in accordance with Section 31-7-115, Miss. Code Ann. (1972). The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned study and evaluation of the purchasing system and, in our opinion, is fairly presented when considered in relation to that study and evaluation.

This report is intended for use in evaluating the central purchasing system and inventory control system of Jefferson Davis County, Mississippi, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

Members of the Board of Supervisors
Jefferson Davis County, Mississippi

In planning and performing our audit of the financial statements of Jefferson Davis County, Mississippi for the year ended September 30, 2006, we considered Jefferson Davis County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Jefferson Davis County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the county's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated January 10, 2007, on the financial statements of Jefferson Davis County, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain immaterial instances of noncompliance with state laws and regulations and other matters that are opportunities for strengthening internal controls and operating efficiency. Our finding and recommendation and your response are disclosed below:

Board of Supervisors.

Finding

Section 19-11-17, Miss. Code Ann. (1972), prohibits the incurring of expenditures in excess of the final budget as approved by the Board of Supervisors. Actual expenditures exceeded budgeted amounts by \$6,340 in the General Fund.

Recommendation

The Board of Supervisors should not make expenditures in excess of budgeted amounts, as required by law.

Board of Supervisors' Response

The said amount of \$6,340 was budgeted, but not in the General Fund. Said amounts were payments for a tax refund to persons that have paid taxes in error. A new code in the General Fund will be set up for posting to the General Fund so, in the future, it will be included in the General Fund budgeted amounts.

This report is intended solely for the information and use of management and is not intended to be and should not be used by anyone other than this party. However, this report is a matter of public record and its distribution is not limited.

JEFFERSON DAVIS COUNTY

Schedule of Findings and Questioned Costs
For the Year Ended September 30, 2006

Section 2: Financial Statement Findings

Tax Assessor-Collector.

Reportable Condition - Material Weakness

06-1. Finding

An effective system of internal control should include an adequate separation of duties. As reported in prior years' audit reports, cash collection and disbursement functions are not adequately separated for effective internal control. The bookkeeper prepares all deposits, calculates the monthly settlements, posts the cash journal, reconciles the bank statements and disburses all funds. The failure to have an adequate separation of duties increases the possibility of the loss or misappropriation of public funds.

Recommendation

The Tax Assessor-Collector should assign cash collections and disbursement functions to other personnel in the office.

Reportable Condition

06-2. Finding

An effective system of internal control over the collection, recording and disbursement of cash should include maintaining a cash journal. As reported in the prior year audit report, the cash journal was not properly maintained. The failure to properly maintain a cash journal could result in inaccurate reporting, incomplete settlements and increases the possibility of the loss or misappropriation of public funds.

Recommendation

The Tax Assessor-Collector should properly maintain a cash journal.

Section 3: Federal Award Findings and Questioned Costs

06-3. Finding

97.036 Disaster grants - public assistance
Grant number 1604-DR-MS
U. S. Department of Homeland Security/
Passed-through the Mississippi Emergency Management Agency

Reportable Condition

Compliance Requirement: Procurement and Suspension and Debarment

The OMB Circular A-133 Compliance Supplement, Part 3(I), specifies that a non-federal entity entering into a covered transaction with another entity must verify that the entity is not suspended or debarred or otherwise excluded. The county entered into a contract for services, which qualified as a covered transaction. During our audit testing procedures, we noted no evidence that control activities were in place to ensure that verification was obtained to determine if the entity was suspended or debarred.

JEFFERSON DAVIS COUNTY

Schedule of Findings and Questioned Costs
For the Year Ended September 30, 2006

Recommendation

The Board of Supervisors should implement controls to ensure verification is obtained that an entity is not suspended or debarred or otherwise excluded. The verification may be accomplished by checking the *Excluded Parties List System* maintained by the General Services Administration, collecting a certification from the entity or adding a clause or condition to the covered transaction with the entity.
