Mayor and City Council
City of Biloxi, Mississippi

We are pleased to submit the Comprehensive Annual Financial Report of the City of Biloxi (municipal government and its component unit) for the fiscal year ended September 30, 2013. The Administration of the City of Biloxi is responsible for the information presented in this report. We believe that the accompanying information is accurate and complete and fairly presents the financial position of the municipal government of the City of Biloxi as of September 30, 2013 and results of operations for the fiscal year then ended.

Control Environment

The City's management is responsible for maintaining a system of internal controls sufficient to provide reasonable assurance that City assets are safeguarded from loss and that financial transactions are recorded timely and accurately. Reasonable assurance means that internal controls are selected or designed to reduce the risk of asset loss or inaccurate bookkeeping to an acceptable level, considering the constraint that the cost of the control should not exceed the expected benefit. Management is responsible for communicating the purpose and importance of internal controls to employees and for providing the resources necessary to establish and maintain the control system.

Budgetary Controls

Prior to the beginning of each fiscal year, each department director prepares a projection of expenditures for his department. The City's budget staff develops a projection of revenues for all funds and a projection of the expenditures not included in the departmental budgets. The revenue projections and proposed expenditures are presented to the Mayor. After reviewing the draft budget proposal, the Mayor will meet with department directors to discuss their budget requests. Each director must justify his department's budget request by explaining the cost of the programs they propose for the coming year. When the Mayor is satisfied that the proposed budget conforms to the objectives and goals he has set for the coming year, the entire budget proposal is presented to the City Council. During a series of budget workshops, the City Council will review, discuss, question and debate the proposed budget and make modifications to it. The Council will invite public comment on the taxing and spending plan at a special public hearing. After determining that the revenue projections in the budget are sound and that the proposed spending is necessary to provide the level of services and to accomplish the program goals and

capital improvements proposed in the budget, the City Council will publish the proposed budget. After adopting the budget for the coming year the City Council will set the property tax rate at a level that will generate the property tax revenue necessary to raise the budgeted ad valorem tax revenue.

Mississippi law prohibits spending in excess of the budget formally adopted by the City Council and spread upon the Council's minutes. The formal budget adopted by the Council sets a limit for total expenditures for each department. For management and control purposes, a budget with greater detail is utilized by City management personnel to monitor spending. For this purpose, the total budget of each department is spread to the expenditure accounts of each department's various divisions and sections. Programmatic constraints within the City's computerized purchasing system prohibit unauthorized purchases in excess of the budget at the expenditure account level.

The City utilizes an encumbrance accounting system in monitoring spending. An encumbrance system provides for charges against the budget at the time goods or services are ordered rather than waiting until the invoice is received or the payment is made.

Independent Audit

In accordance with Section 21-35-31, Miss Code of 1972 and guidelines prescribed by the State Auditor, the financial statements presented herein have been audited by Culumber Harvey & Associates, P.A., an independent firm of Certified Public Accountants. The objective of the auditor's work is to provide the auditor with a basis upon which to express an opinion on the fairness of the City's financial statements. The auditor's opinion is included in The Financial Section of this report. The auditor's work involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation.

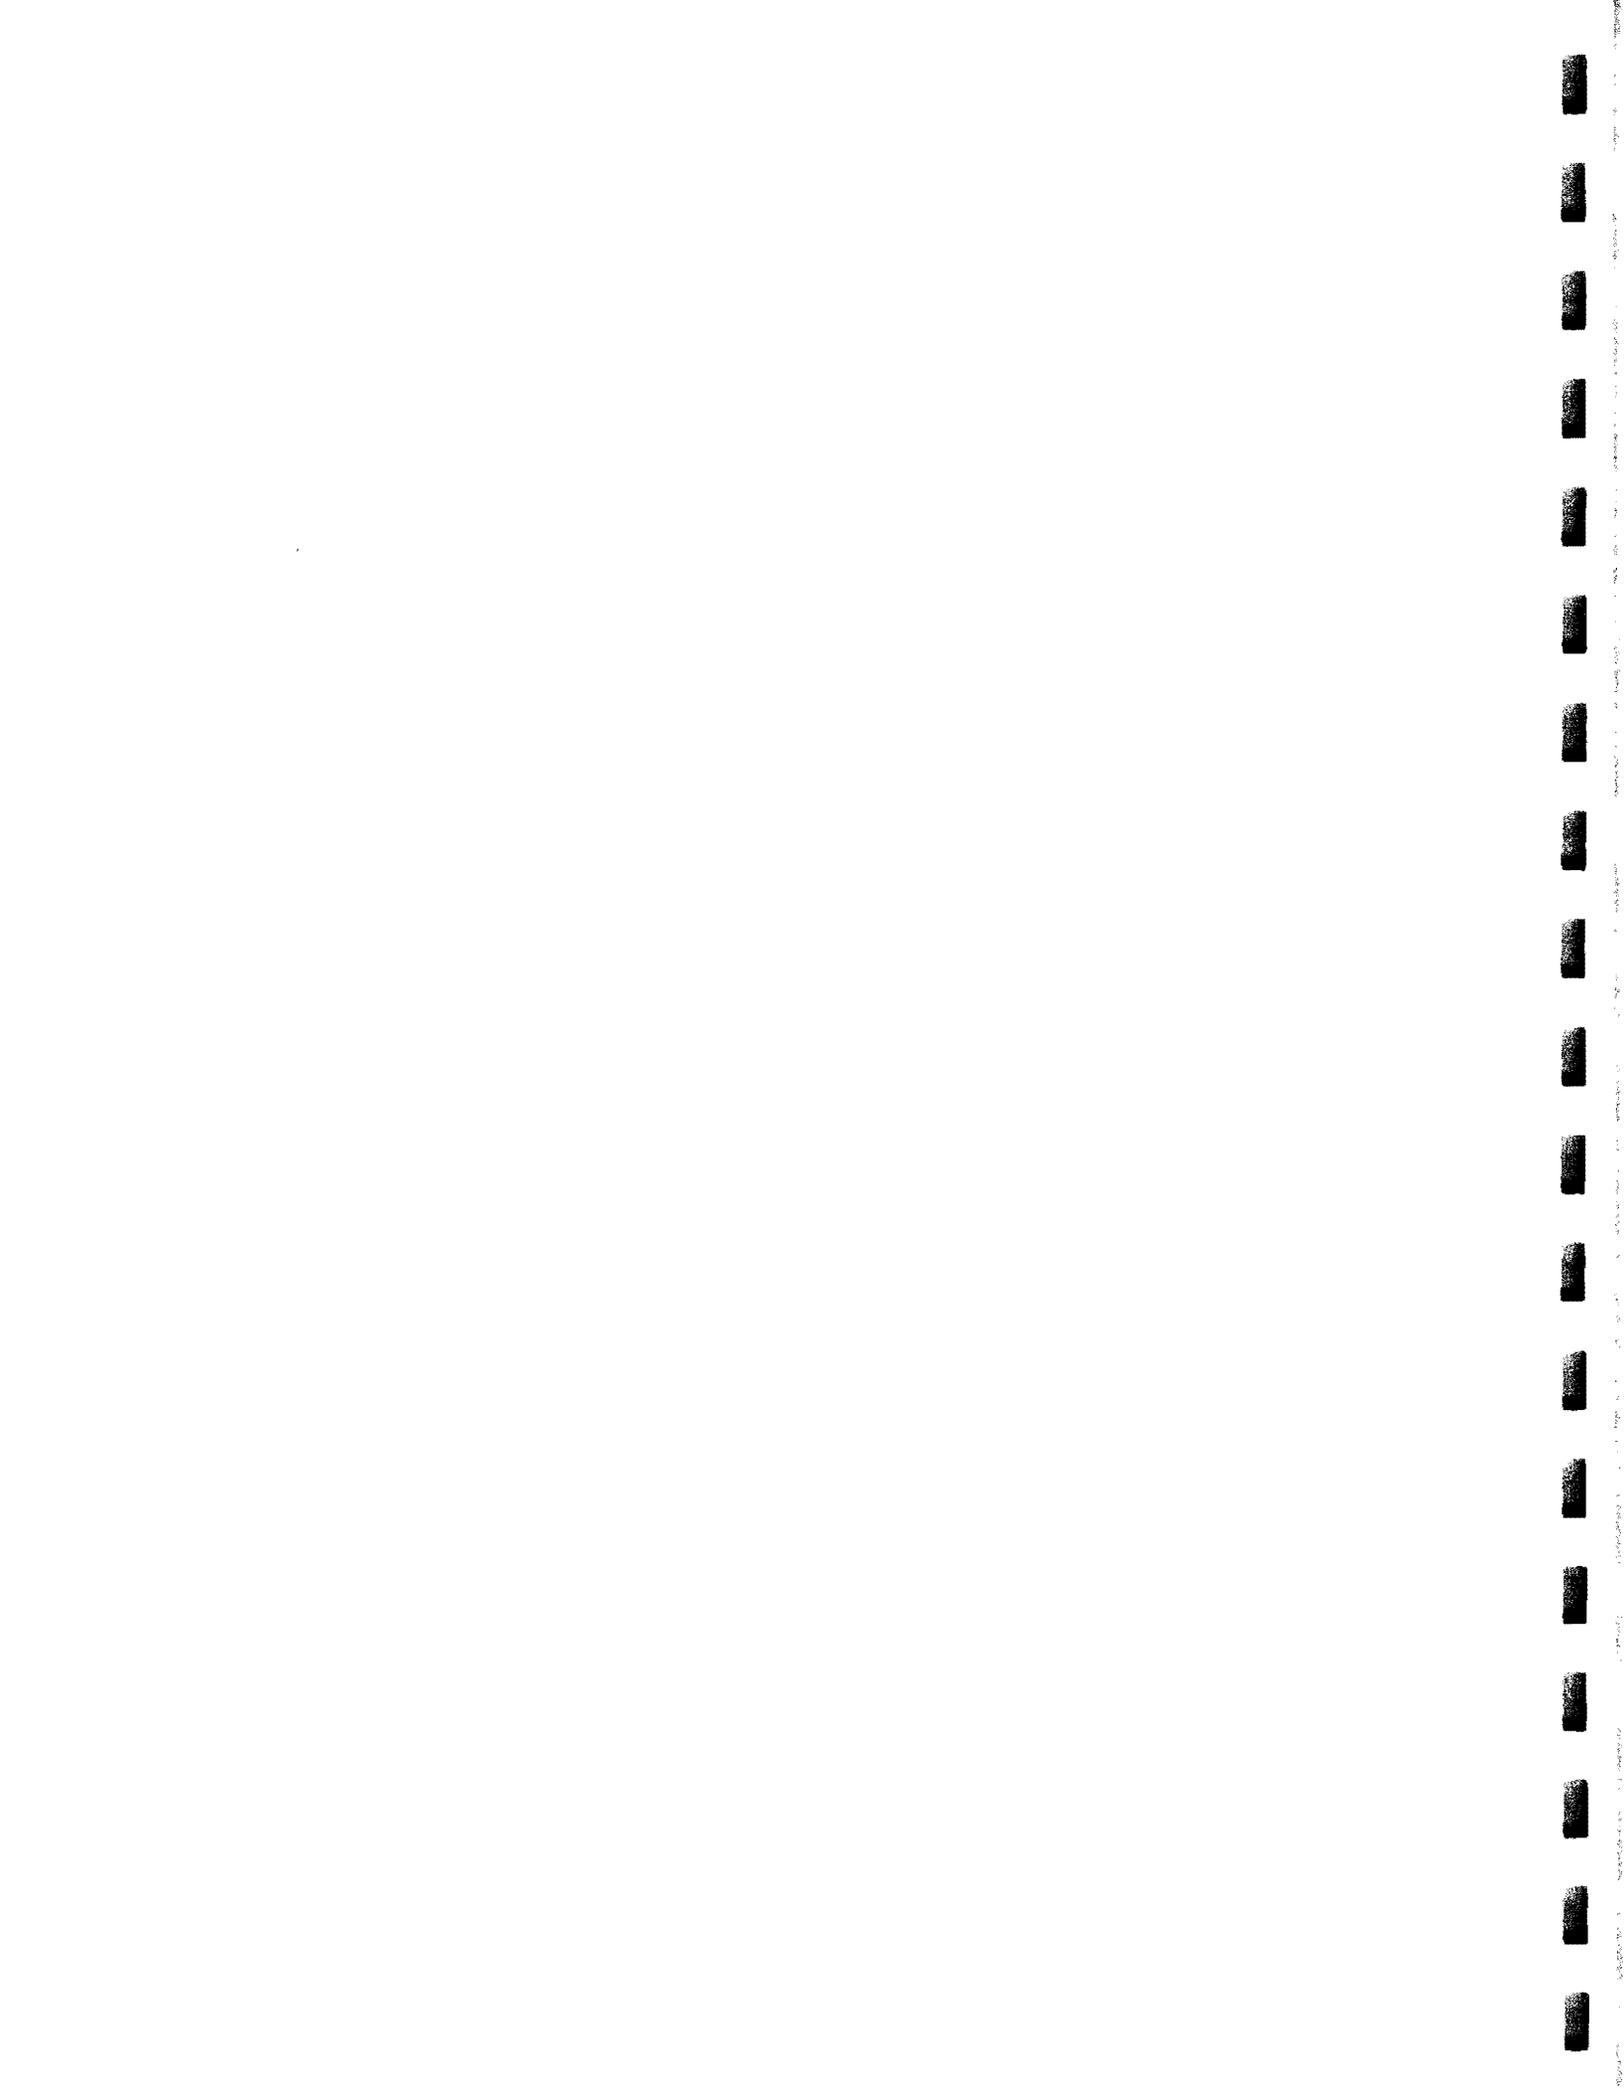

State Department of Audit regulations require the independent auditor to disclose any instance of non-compliance with certain state laws, that may come to their attention during the audit of the City's financial statements. The auditor must test for non-compliance with federal requirements applicable to each major federal program under which the City of Biloxi receives federal financial assistance.

Management's Discussion and Analysis

Management's Discussion and Analysis follows the opinion of the independent auditor and provides a narrative overview and analysis of the basic financial statements.

Profile of the City of Biloxi (The Reporting Entity)

The City of Biloxi, Mississippi was incorporated in 1838. Biloxi is located in Harrison County, and its southern corporate boundary is the Gulf of Mexico. Biloxi is part of the Biloxi, Gulfport, Pascagoula Combined Statistical Area (MSA). This area has a diverse economic base which includes tourism, casino gaming, fishing, seafood processing, shipping, shipbuilding, and petroleum and chemical processing. Keesler Air Force Base, Naval Construction Battalion Center-Gulfport and Northrop Grumman Shipbuilding's Pascagoula facility are located within

this Combined Statistical Area. The City of Biloxi's employees provide a full range of services to the City's citizens and visitors including planning and zoning, police and fire protection, culture and recreation, infrastructure maintenance, water and sanitation.

This report includes all funds of the City of Biloxi and any entity that management has determined to be a component unit of the City of Biloxi municipal government. Component units are entities for which the primary government (the City) is financially accountable and other entities whose relationship with the City is such that its exclusion would create misleading or incomplete financial information. The Point Cadet Development Corporation, a non-profit organization, is blended in the financial statements of the City of Biloxi as a proprietary fund. During the fiscal year 03/04, the City of Biloxi assumed responsibility for the assets, liabilities and operation of the Biloxi Port Commission. This activity is presented as a business-type activity in the City's Government-wide financial statements and as a proprietary fund in the City's fund financial statements.

Long-Term Financial Planning

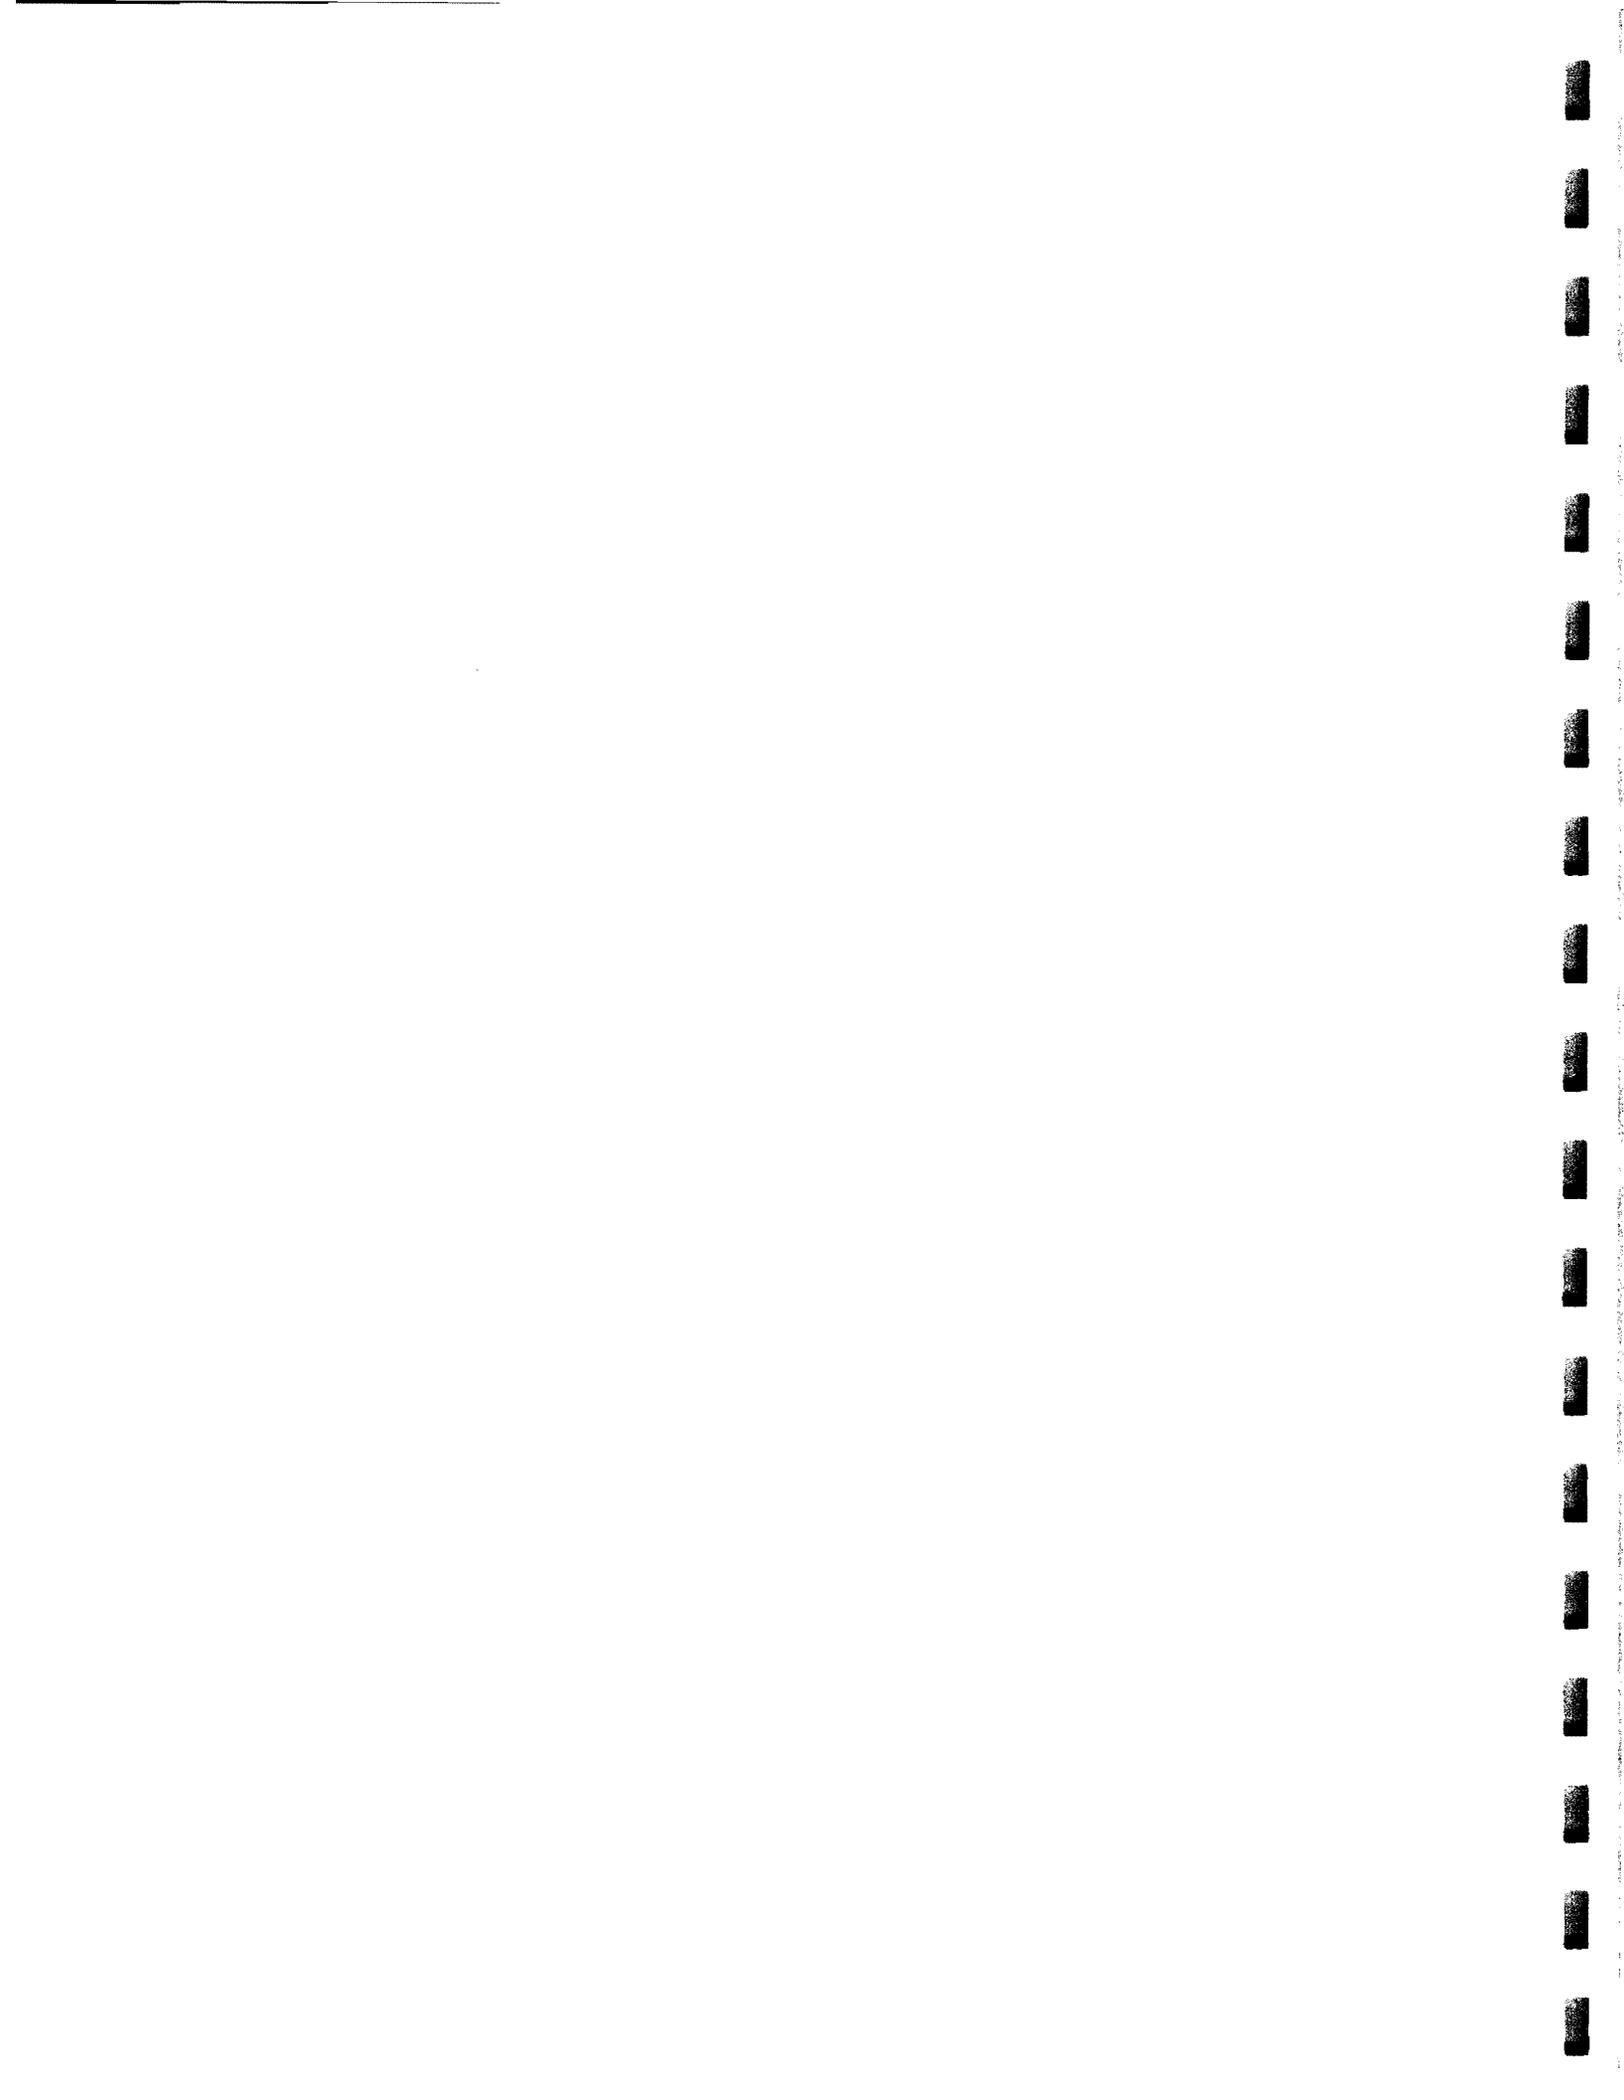

The City ended fiscal 12/13 with a General Fund balance of \$12 million which is adequate for the City. However, fund balance is not a recurring resource therefore, its use to pay recurring operating expenses cannot continue indefinitely. The City's Governing Authority initiated cost reduction measures in fiscal 08/09 and 09/10. Those steps to reduce costs, included employee attrition, hiring freezes, reductions in longevity pay, and reductions in over-time and increases in employee share of health insurance costs. Also, the City has decreased General Fund cash funding of capital projects. Because of these continued policies, the City's general fund deficiency or revenues over expenditures was \$4.2 million (page 24) on a modified accrual basis and \$2.5 million (page 27) on a budget basis for the fiscal year ended September 30, 2013. City management's goal is to equalize General Fund revenues and expenditures in fiscal 13/14.

Local Economy and Relevant Financial Policies

In response to the national economic contraction, City management initiated policies to restrict expenditures early in fiscal 08/09 including a policy of attrition and a hiring freeze. These policies were continued in fiscal 09/10, 11/12, and 12/13 and the City's management is continuing these in fiscal 13/14.

The City's governing authority increased sewer rates at the end of fiscal 08/09 and again at the end of fiscal 09/10 and the increased rates produced revenue more than adequate to cover costs in fiscal 11/12. The City governing authority has committed to annual reviews of its public utility fee structure with the goal of stabilizing its Water and Sewer Enterprise Fund.

The City has not changed its ad valorem tax rate since fiscal year 2001 when it decreased the rate by 34.8 percent. As shown in Figure 1 below, the City's ad valorem tax revenue and sales tax revenue remained about the same as in prior year while gaming tax increased slightly.

The following charts disclose financial data for the City's governmental funds including the General Fund, Special Revenue, Capital Projects Funds and Debt Service Funds.

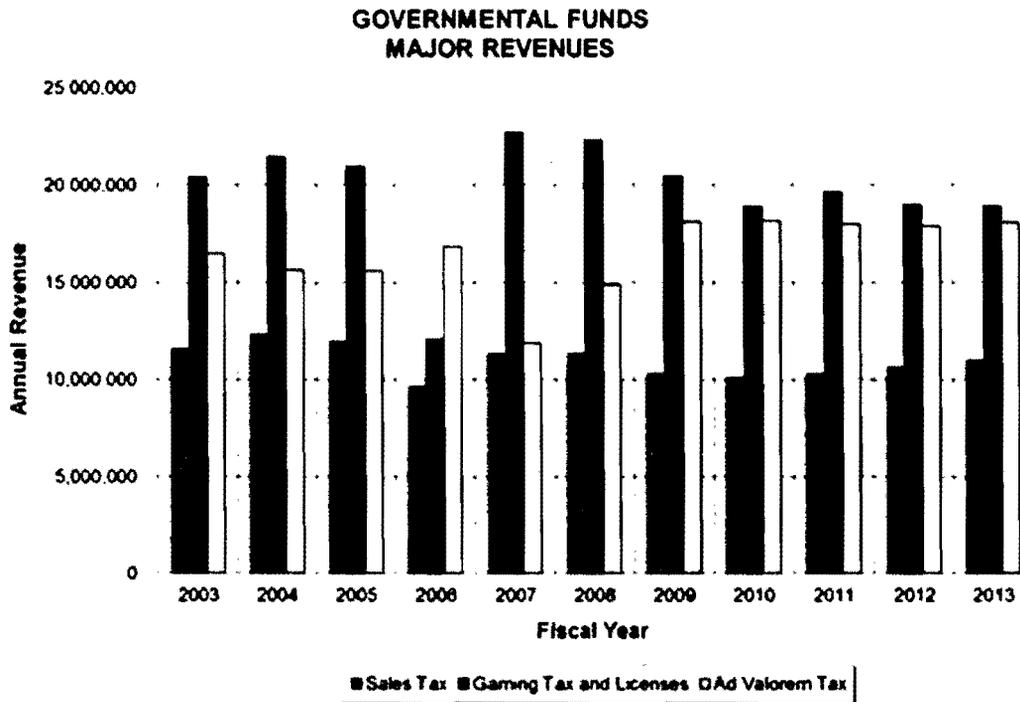

Figure 1

The amount of construction and reconstruction in fiscal 12/13 increased from fiscal 11/12 but is still below the post-Katrina peak in 06/07 as measured by the number and value of building permits issued. The City issued 3,237 building permits with a total valuation of \$146,817,657. (Fig. 2).

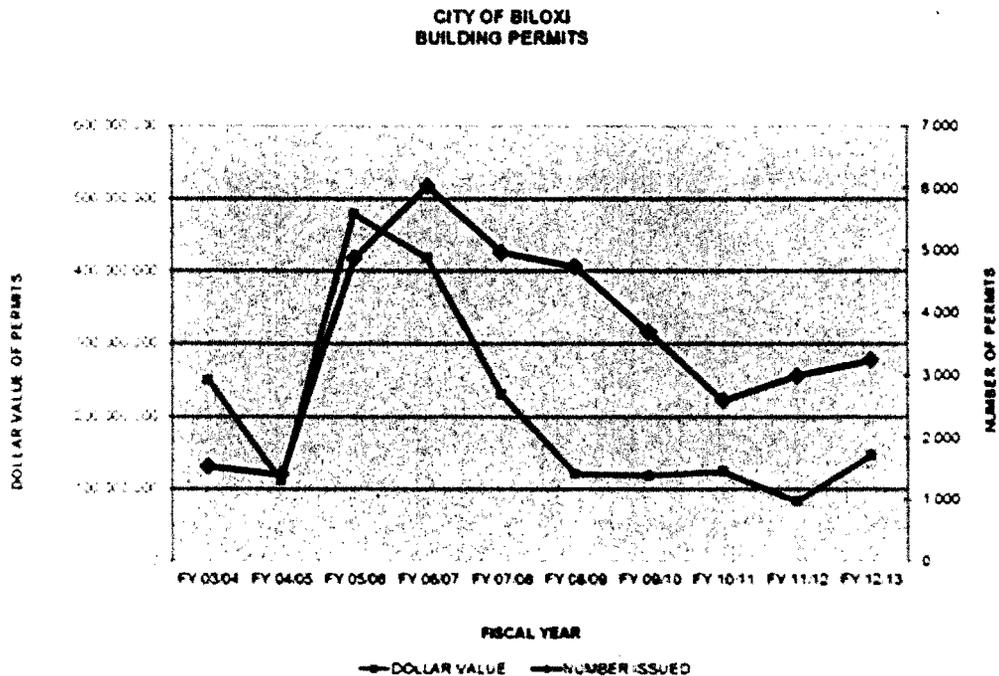

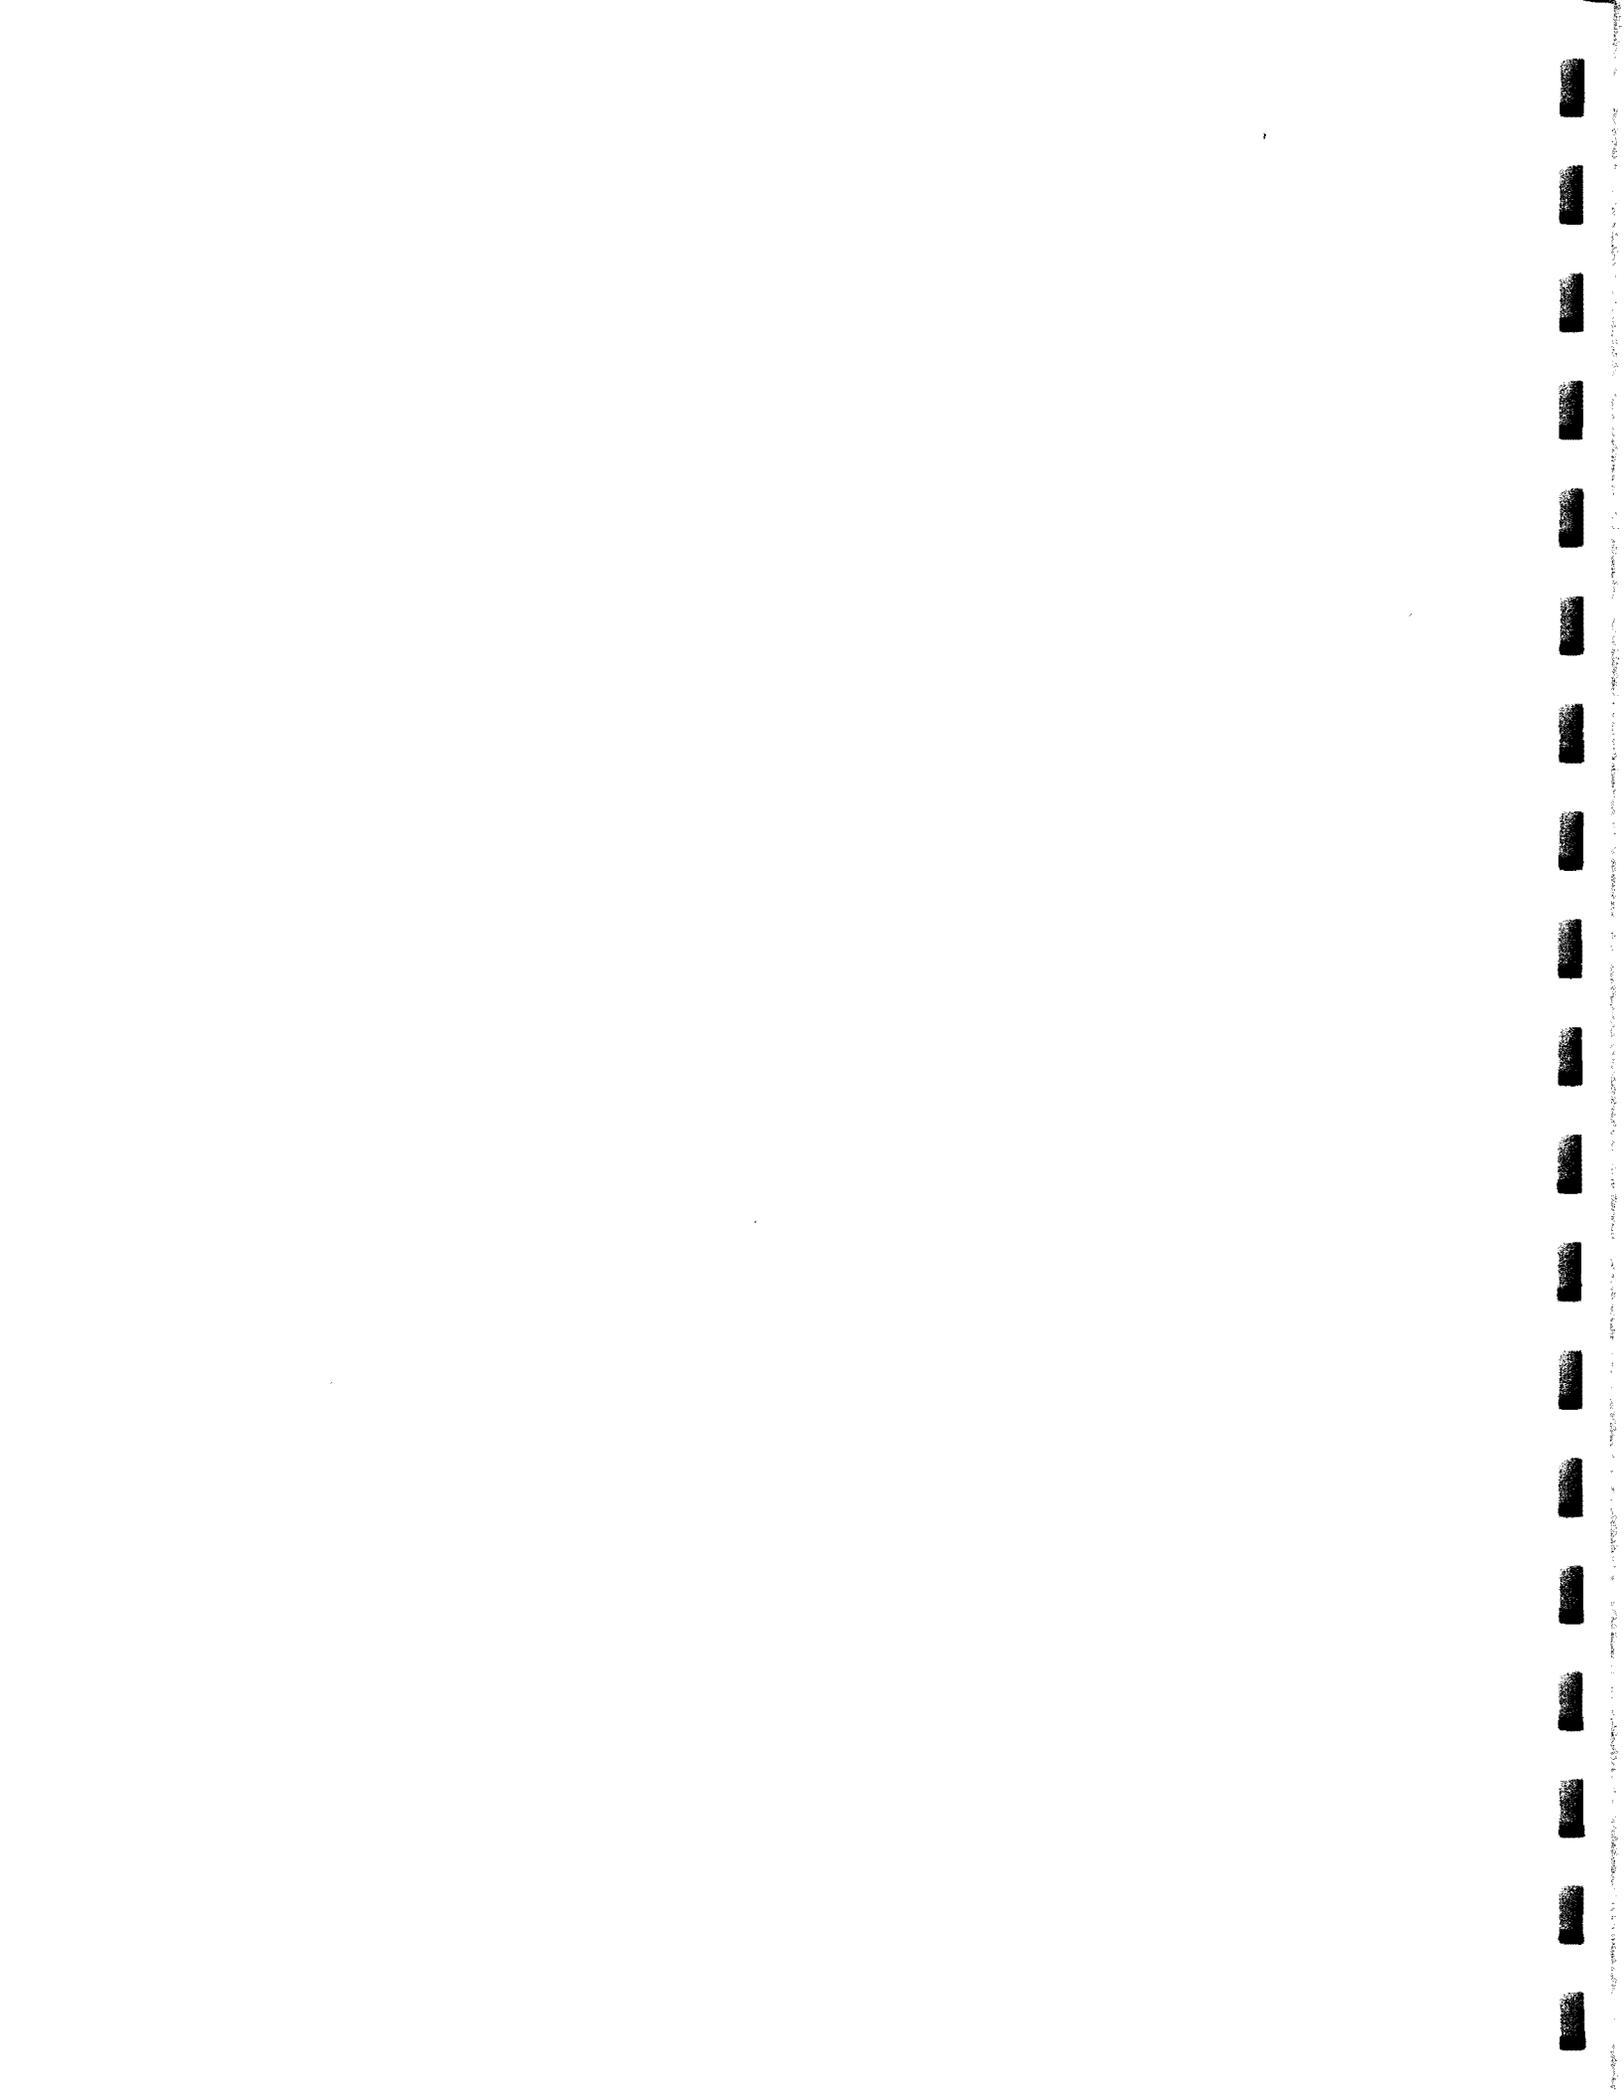

Figure 2

Governmental funds are used to account for most City functions and operations including the various City departments, the City's two closed retirement plans, Community Development Block Grants, capital projects, and the City's general obligation debt payments. Figure 3 illustrates the relative amounts of various general governmental revenues for the fiscal year. Usually, the City's three largest sources of operating revenues for general governmental activities are gaming tax, ad valorem tax and sales tax. In FY 12/13 the City's governmental funds received \$2.3 million in operating grants and \$34.9 million in capital grants for its governmental activities. The largest granting Federal departments were the Department of Homeland Security (FEMA) and the Department of Housing and Urban Development. Federal grant revenues are included in Other Intergovernmental.

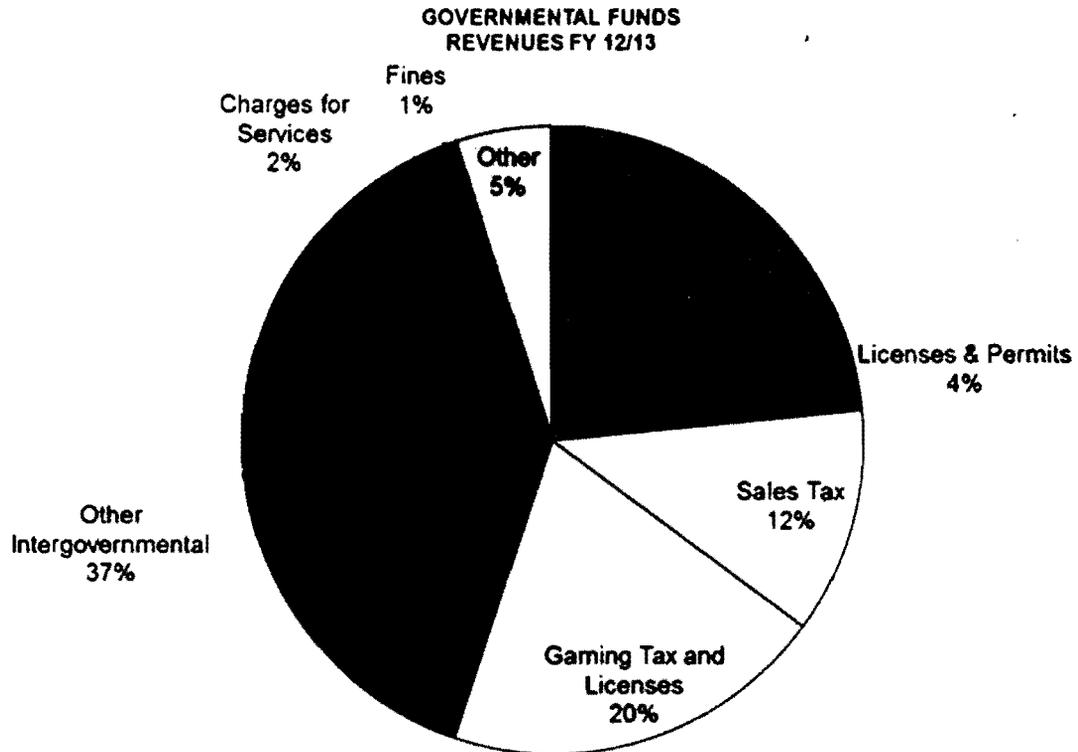

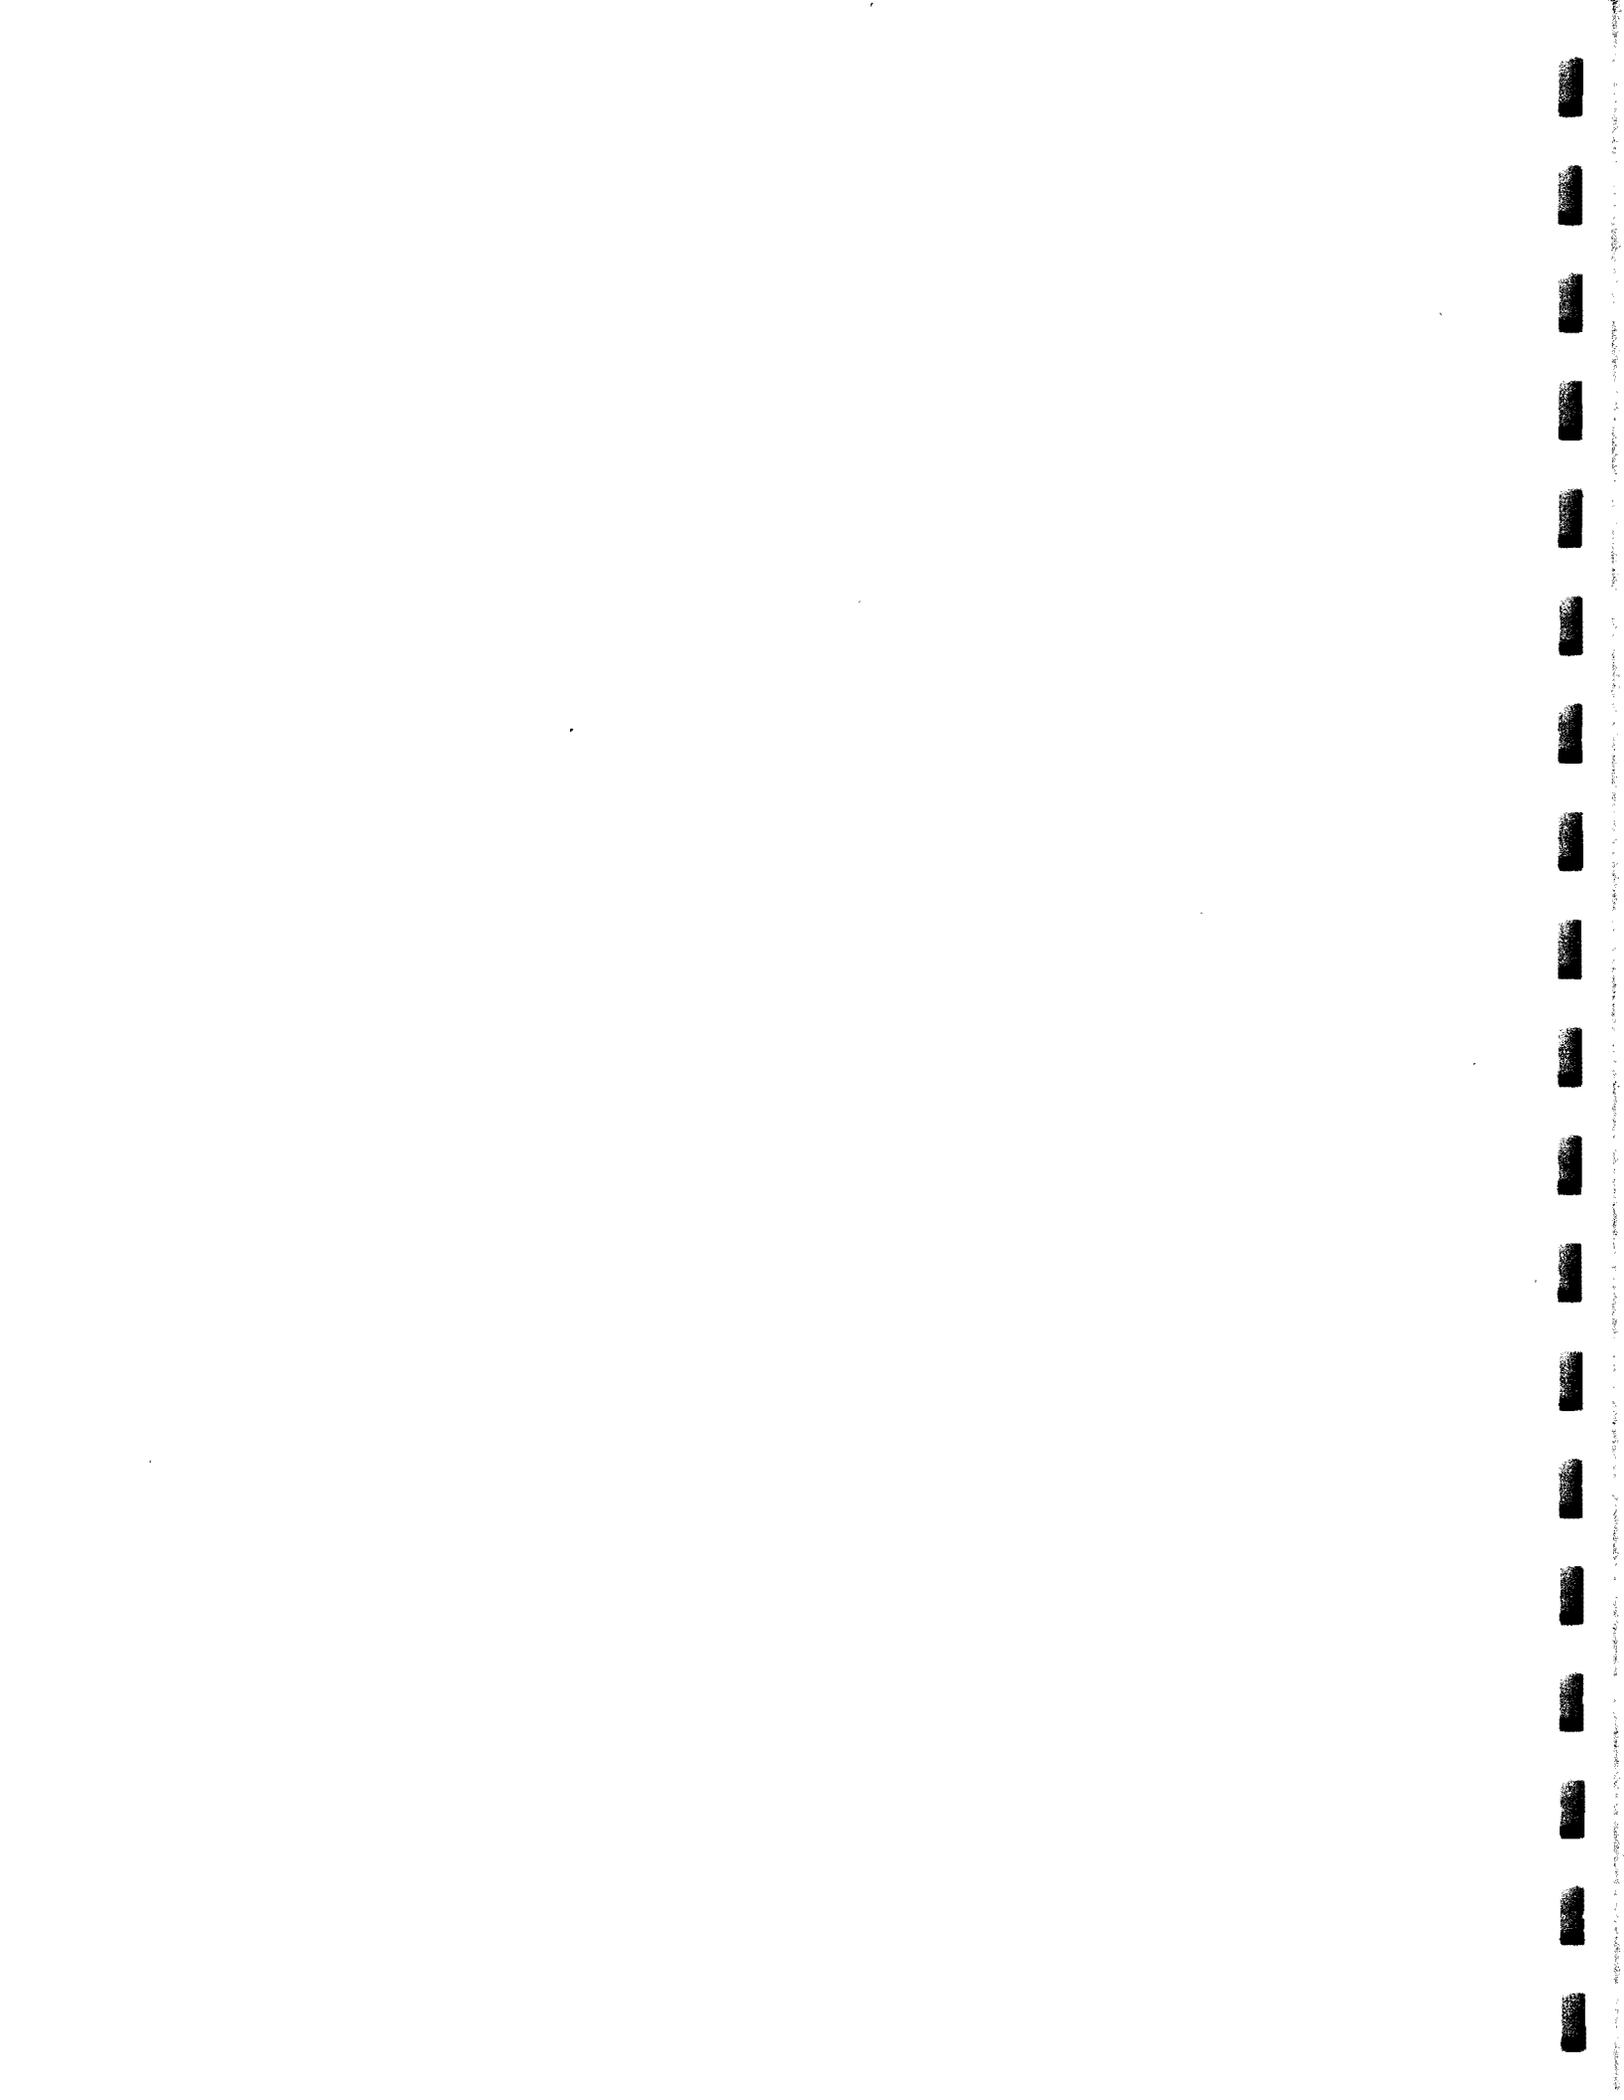

Figure 3

Gaming tax and sales tax are shown separately here but are included in the City's governmental funds financial statements on the line titled "Intergovernmental Revenues". Intergovernmental revenues are collected by other governmental entities such as state government and distributed to the City. Other Intergovernmental Revenue includes other taxes collected by Harrison County and the State of Mississippi and state and federal grants

Property Taxes - In Mississippi, property taxes are levied by municipalities and counties on the assessed value of land and buildings, mobile homes, automobiles, business inventory and equipment. Assessed value is a prescribed percentage of the true (appraised) value of each class of property. Classes of property and assessment ratios are defined in Section 112 of the Mississippi Constitution of 1890.

<u>Class of Property</u>	<u>Ratio</u>
Class I Single-family, owner-occupied, residential real	10%
Class II All other real property, except Class I or IV	15%
Class III Personal property, except motor vehicles and Class IV	15%
Class IV Public Utility property	30%
Class V Motor vehicles	30%

Ad valorem taxes are collected in arrears. The taxes for a calendar tax year are due by February 1 of the subsequent calendar year. Each year the governing authorities of the City of Biloxi determine the total assessed value of property situated within the City limits. Prior to the beginning of a new fiscal year, October 1, they set the tax rate (levy) that will generate the tax revenue needed for the upcoming fiscal year. In each fiscal year, the City collects the ad valorem taxes for the prior calendar tax year. To summarize, the formula for determining tax revenues from each class of property is "Appraised value X assessment ratio X tax levy = tax amount".

Sales Tax - State law requires sellers of goods and services to collect and remit to the state sales taxes of various rates specified in the statutes. A tax rate of 7% applies to retail sales of tangible personal property. Of the taxes collected by the state each month, 18.5% of the sales tax revenue from activities within a municipal corporation is remitted to the municipal government.

Gaming Taxes - All taxes on gross gaming revenue and gaming devices are collected by the State Tax Commission, including those taxes levied by municipalities. The Gaming control act of 1990 provided a tax of eight tenths of one percent (.8%) on casino gross gaming income. This tax revenue is divided between Harrison County and the City in the proportion of the population of each.

House Bill 1504, Regular Session of 1992 (Local and Private Legislation) provided for a tax of three and two tenths of one percent (3.2%) of gross gaming revenue. On the tenth day of each month the State Tax Commission remits the taxes collected in the previous month to the municipality to be distributed in the following ratios:

- 20% for public safety
- 20% for education purposes (Biloxi sends this 20% to the Biloxi Separate School District)
- 10% to Harrison County for public safety purposes
- 10% for educational purposes in Harrison County (This 10% is distributed to the various school districts in Harrison County in the proportion of each district student enrollment to total enrollment of all school districts in the county.)

House Bill 1504 also provided for a licensing fee of \$150, annually, for each gaming device. In addition to local taxes, the Mississippi Gaming Control Act, codified in chapter 76, in title 75 of the Mississippi Code of 1972, provides that casinos pay a fee of 8% of gross gaming revenue to the State of Mississippi.

Figure 4 illustrates the trends in annual totals of revenue sources for the City's governmental funds. Casino gaming and the resulting gaming taxes were implemented in 1992, and since that time, gaming tax revenues have become the largest, regular revenue source for the

City. Note that Other Intergovernmental Revenue increased significantly in fiscal year 05/06 due to grants for Hurricane Katrina debris removal received by the City of Biloxi from the Department of Homeland Security, Federal Emergency Management Agency.

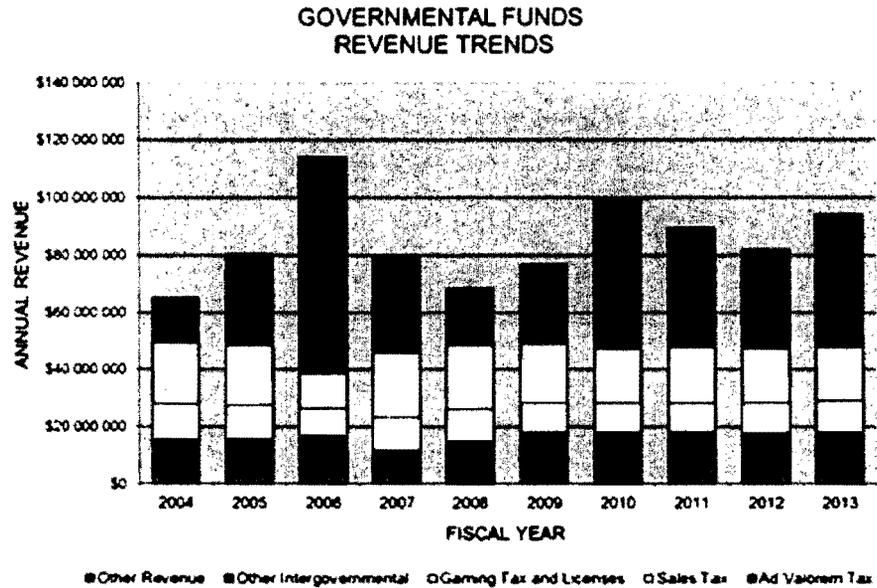

Figure 4

General Governmental Expenditures

Figure 5 illustrates the trends in spending for the various services and functions accounted for in the City’s governmental funds. Normally, public safety and capital projects are the largest expenditure categories of the City’s governmental funds. In FY 05/06 expenditures for Public Works increased due to the cost of removing debris left by Hurricane Katrina and capital project spending was curtailed. Debris removal costs were completed in FY 06/07.

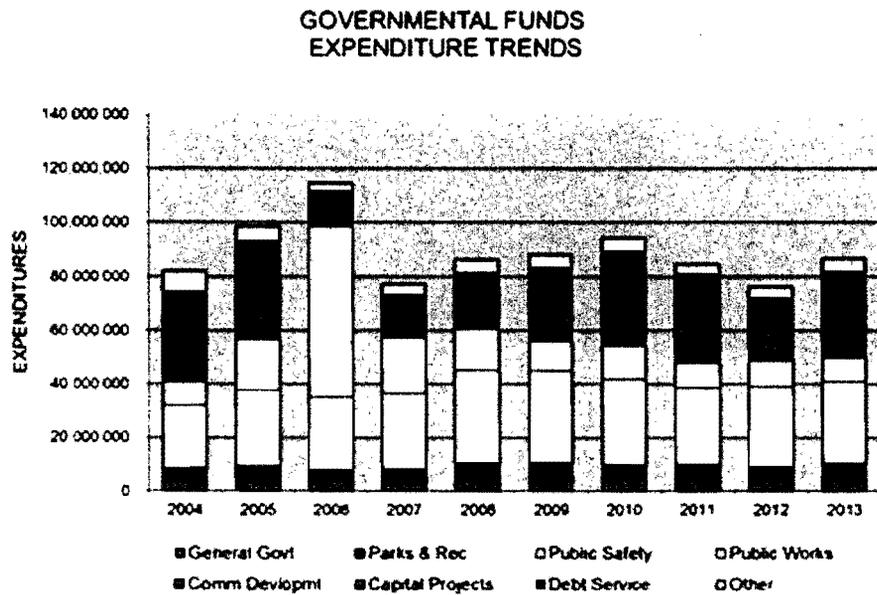

Figure 5

Water and Sewer Fund

The City of Biloxi provides water production and distribution and sewer collection and treatment services. The City accounts for the cost of these services and related revenues in an enterprise fund. The City's goal is to pay the cost of the services with the revenue generated by billing customers for their use of the service. In 2005 the City lost approximately twelve percent of its customer base to the destruction of Hurricane Katrina.

A large portion of the cost of water/sewer service is the City's share of the debt service of the Harrison County Utility Authority, which provides sewer treatment service. Because the debt service is a "fixed" cost (does not vary due to the number of customers served) the City's rates, applied to the consumption of the reduced number of customers, did not generate revenue sufficient to cover the cost of services. The City increased water and sewer rates at the end of fiscal year 08/09 and again at the end of 09/10. The City decreased rates slightly in 11/12. The City's governing authority has committed to annual cost and rate adjustments in order to reach and maintain 100 percent cost recovery.

Independent Auditors' Report

To the City Council
City of Biloxi
Biloxi, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Biloxi, Mississippi, as of and for the year ended September 30, 2013, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents.

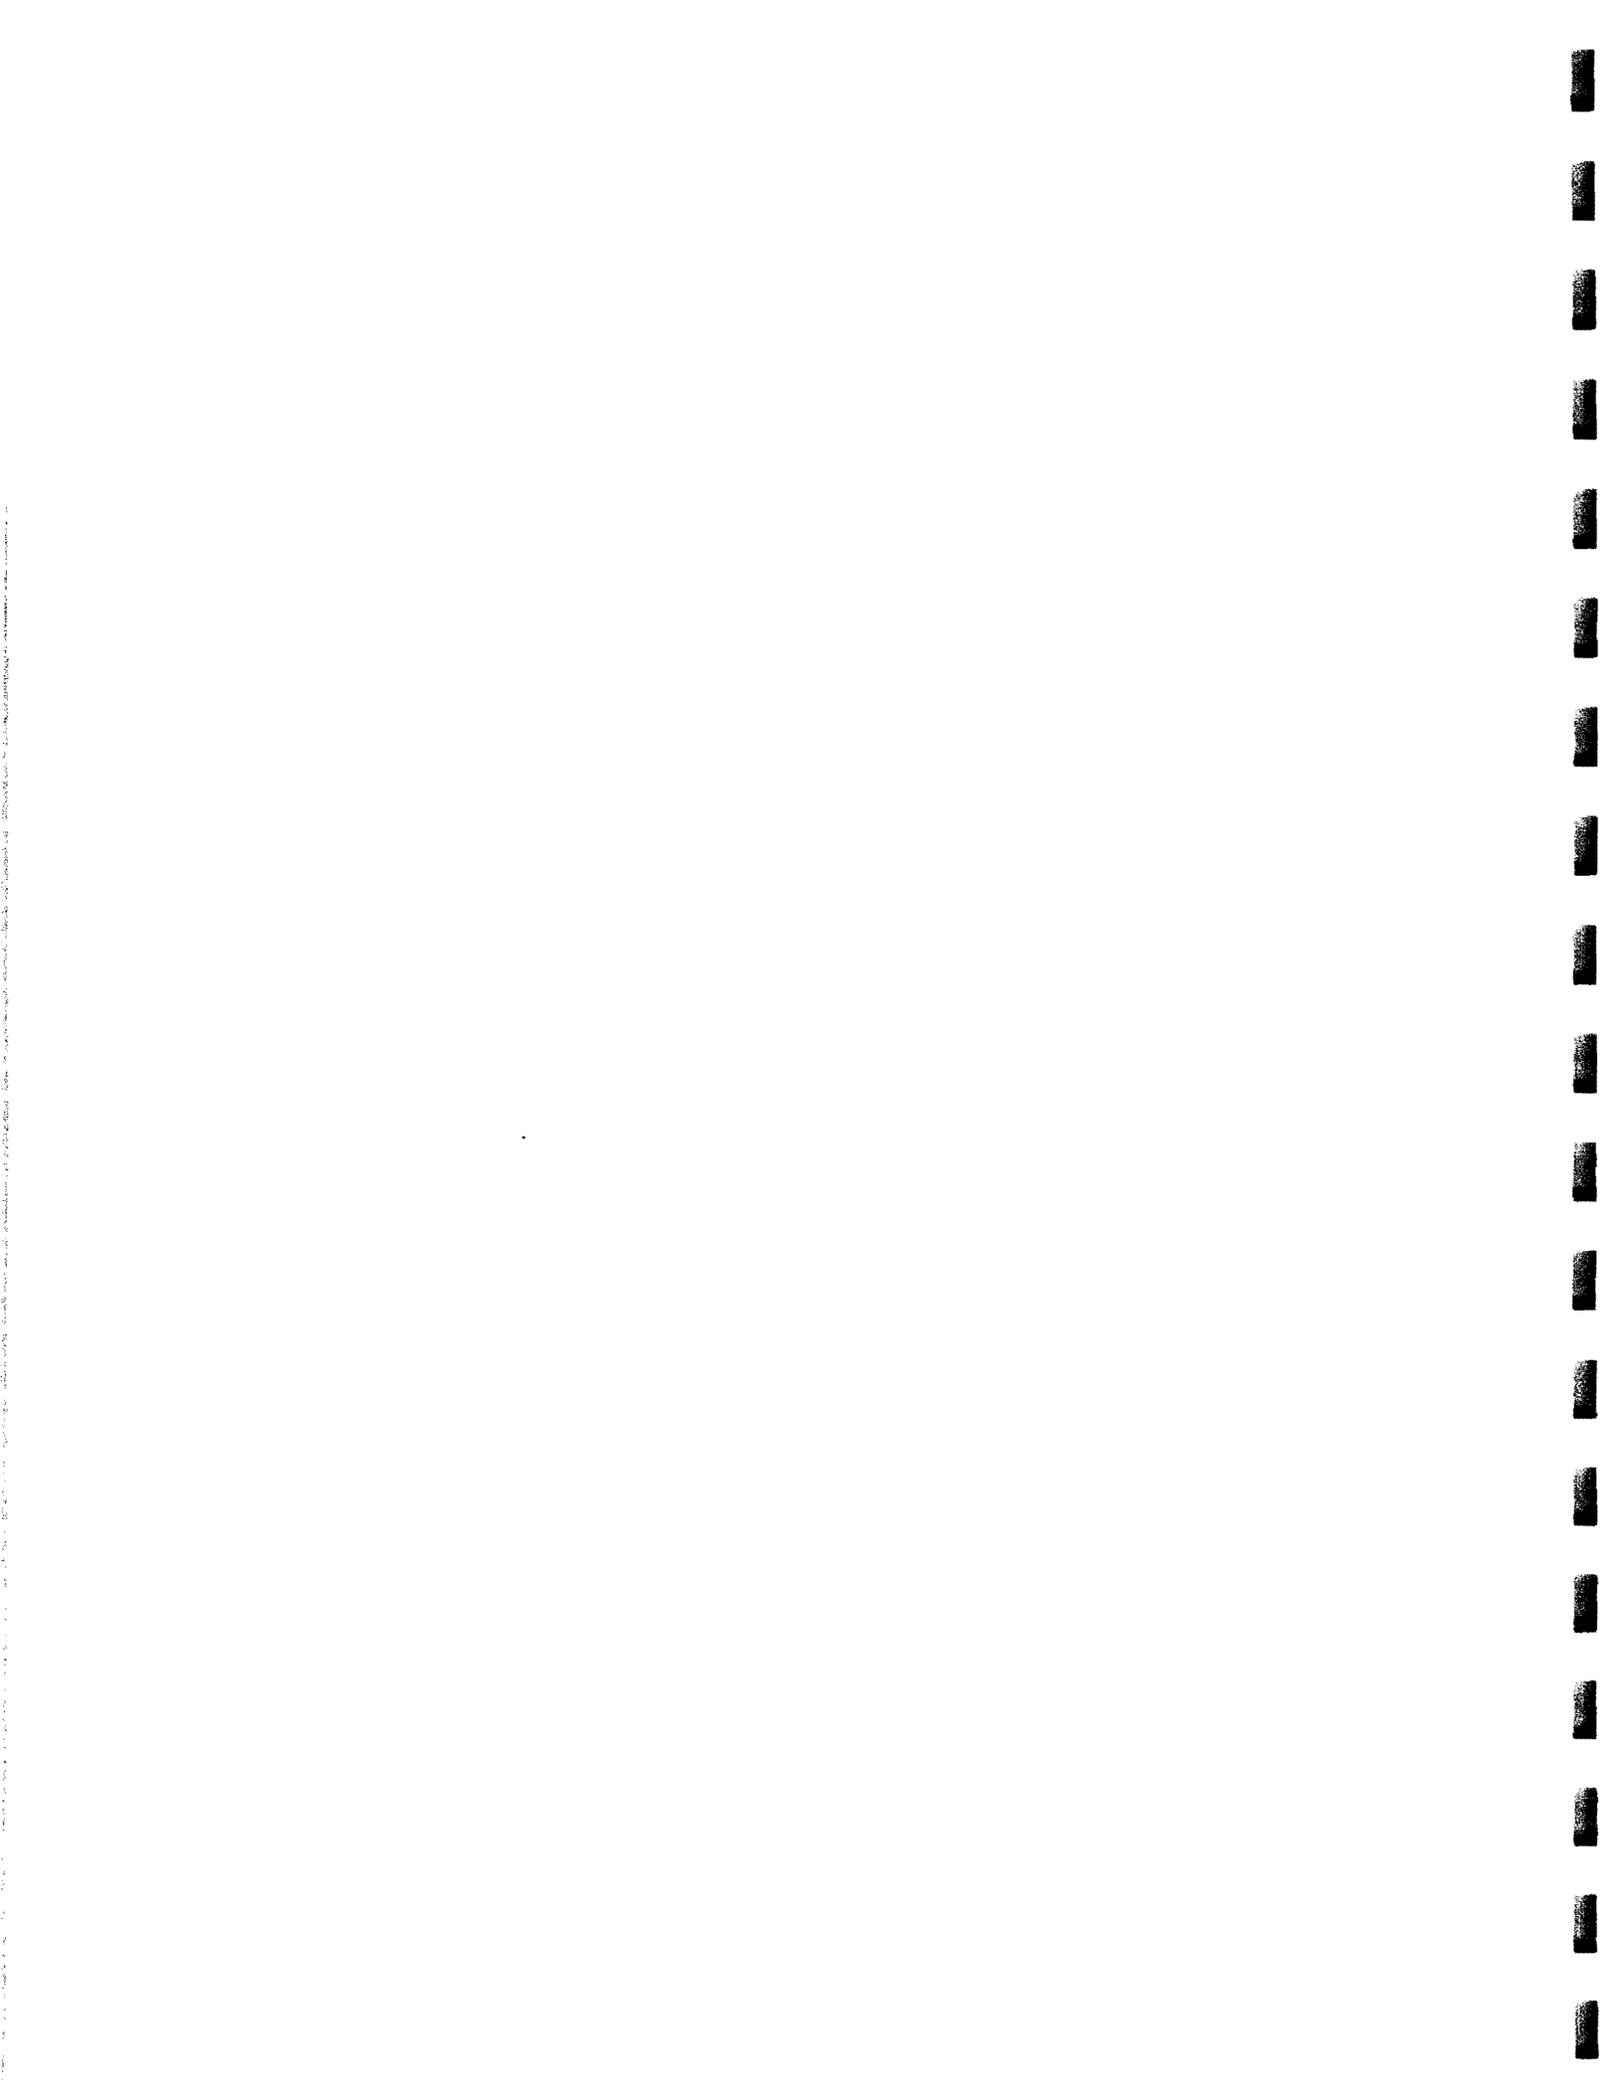

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Biloxi, Mississippi, as of September 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 15-19 and 72-80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Biloxi, Mississippi's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit

of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 2, 2014, on our consideration of the City of Biloxi, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Biloxi, Mississippi's internal control over financial reporting and compliance.

Management's Discussion and Analysis

City of Biloxi, Mississippi Management's Discussion and Analysis

Brief Discussion of the Basic Financial Statements

The City's management has prepared this discussion and analysis to provide an objective analysis of the City's financial activities and financial condition as presented in the basic financial statements which form a part of the City's Comprehensive Annual Financial Report (CAFR). The basic financial statements are presented in three parts: government-wide financial statements, fund financial statements and the notes to financial statements.

Government-wide financial statements focus on the overall financial position and activities of the City, in total, rather than the City's individual funds. In these statements, all governmental activities are consolidated into a column and all business-type activities are consolidated into a column. The two columns are added to present a total for the City as a whole. These statements include the Statement of Net Position which discloses all of the City's assets and liabilities and the difference which is titled "net position". Also included is the Statement of Activities which focuses on the cost of services provided and activities performed by the City and the source of money used to pay for the services and activities. The Statement of Activities also explains how the City's net position increased or decreased during the fiscal year. Both of the government-wide financial statements segregate functions of the City that are supported by taxes and intergovernmental revenues (governmental activities) from those functions that are mainly supported through charges to the consumer (business-type activities). The City's water and sewer utilities and the City's port operations are business-type activities. The government-wide financial statements present information for both governmental funds and proprietary funds on the accrual basis of accounting.

Fund financial statements follow the government-wide statements. These statements present the balance sheets and the statement of revenues, expenditures and changes in fund balance of the City's funds. The fund financial statements present governmental funds on the modified accrual basis of accounting. Some examples of the differences between the government-wide financial statements and the governmental fund financial statements, inherent in the differences in the basis of accounting are:

Under the modified accrual basis of accounting, capital outlays are expenditures of resources with no offsetting capital asset increase because capital assets are not shown on the balance sheet.

Principal payments on long-term debt are reported as expenditures with no offsetting reduction of liabilities because long-term liabilities are not show on the balance sheet.

The proceeds of debt borrowing is reported as an increase (inflow) of expendable resources with no offsetting increase in liabilities.

A fund is a fiscal and accounting entity with a balanced set of accounts for recording and disclosing the reporting entity's stewardship of resources received and segregated for specific activities including the amount of resources received, the amount expended, liabilities owed and the residual balance (equity) of the funds. The City uses

funds to segregate resources and resource use according to the purpose for which the resources were segregated. The objective of fund accounting is to demonstrate compliance with budgetary and legal requirements that apply to the resources segregated in each fund.

In the fund financial statements, each of the City's major funds is presented in a separate column. The City's non-major funds are combined and the totals presented in one column. The distinction between governmental type activities and proprietary type activities is maintained through the presentation of separate statements for these two types of funds.

Governmental funds are used to account for governmental functions of the City of Biloxi including administration, executive, legislative, legal (general governmental activities), public safety, public works, parks and recreation, public health and welfare, capital projects and debt service. These are the functions that are presented as "Governmental Activities" in the government-wide financial statements. Presentation of financial information for the City's governmental funds differs from the information presented in the government-wide financial statements because the focus of fund accounting is on near-term inflows and outflows of spendable resources and the balances of spendable resources available at year-end.

Proprietary funds include enterprise funds and internal service funds. Enterprise funds are used for those activities which are financed, primarily, by charges to users and customers. Internal service funds are used for city activities that provide goods or services for the City's various funds and departments such as the City's Self Insurance Fund. In the government-wide financial statements these activities are called "business-type activities".

Notes to the Financial Statements provide additional information to explain the data presented in the basic financial statements.

Overall Financial Position and Results of Operations

The net position of governmental activities increased by \$14.7 million while the fund balances of governmental funds decreased by \$16.9 million. The positive change in net position is reconciled to the decline in fund balances of governmental funds in the schedule titled Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities. One major reconciling item is capital expenditures which decrease fund balance in the governmental fund financial statements. These capital expenditures are reported as increases in capital assets in the Statement of Net Position rather than as an expense on the statement of Changes in Net Position.

The net position of business-type activities (Water and Sewer Fund and Port Fund) increased by \$25.5 million during FY 12/13. The increase was due to transfers from the City's General Fund and Capital Projects Fund. City management expects water and sewer rates to be adequate to pay the costs of water and sewer utility services for FY 13/14

RECEIVED

Analysis of Significant Balances and Operation of Individual Funds

SEP 02 2014

Fund Balances

General Fund - The General Fund is the City's primary operating fund. The City began fiscal year 12/13 with a General Fund balance of \$16 million and ended the year with a fund balance of \$11.7 million. The decrease is attributable to an increase in expenditures. In the three fiscal years, 07/08, 08/09 and 09/10, the governing authority budgeted spending that exceeded projected revenues. In those three fiscal years, the City had drawn down the General Fund balance by \$39 million. Approximately \$24.8 million of that three year draw down is attributable to deficit spending in the City's General Fund. In fiscal year 11/12, the governing body had revenues that exceeded the spending but in fiscal year 12/13 had expenditures had

exceeded revenues.

Debt Service Fund - The Special Community Disaster Loans are operating loans the City received from the Federal Emergency Management Agency (FEMA), Department of Homeland Security. The loans totaled \$13.7 million. The City's General Fund borrowed \$11 million and the City's Water and Sewer Enterprise Fund borrowed \$2,787,113. The money was borrowed in fiscal years ending in 2006 and 2007 to pay operating costs following Hurricane Katrina. The Special Community Disaster Loans were for a period of 5 years and with possible extension for another five years. The City requested and received a five year extension of the \$11 million loan to the General Fund. The City requested and received cancellation of the \$2,787,113 loan to the Water and Sewer Enterprise Fund. The City received cancellation of the \$11 million loan in fiscal year 2013. The City has accumulated \$8.6 million in its Debt Service Fund to re-pay the General Fund loan. The remaining fund balance in the City's debt service funds is required to pay principal and interest maturities due at the beginning of each fiscal year before ad valorem tax revenues collections for the year are sufficient to cover debt service for the year. Ad valorem tax revenue is the primary resource of the Debt Service Fund for payment of interest and principal.

Water and Sewer Fund - In prior years, revenues and other Water and Sewer Fund resources were not been adequate to pay the cost of operations. The Water and Sewer Fund incurred an operating loss of \$393,159 which includes depreciation expense of \$1.7 million. This City incurred a positive net operating net income before depreciation of \$1.3 million for FY 12/13. The City's water and sewer rates were relatively low compared to other service providers in Mississippi. The loss of a significant number of utility customers due to destruction of residences and businesses by Hurricane Katrina further exacerbated this problem. At the end of fiscal 08/09 the Governing Authority increased water and sewer rates by approximately 150 percent and again increased rates at the end of FY 09/10. The Governing Authority slightly lowered rates in FY 10/11. The City's governing authority states that current and future rate adjustments will provide sufficient revenue to stabilize the Water and Sewer Fund in future fiscal years.

General Capital Projects Fund - The General Capital Projects Fund holds bond proceeds and insurance claim proceeds which will be expended as projects progress. The decline in fund balance of the General Capital Projects Fund resulted from expenditure of these resources.

Budget Variance in the General Fund

The Basic Financial Statements include a budget to actual comparison for the City's General Fund revenues and expenditures. The comparison is made on the cash basis which differs from modified accrual because receivables and payables are not recognized. An explanation of the budget basis is provided in Note II.A. For FY 12/13 the City's governing authority originally budgeted a reduction in the City's General Fund, budget basis fund balance of \$1.98 million. At year-end, the actual reduction was \$2.5 million. The City's General Fund, budget basis fund balance fell from \$7.4 million to \$4.9 million. Revenues of the City's General Fund were below expectations by \$1 million. City management was able to keep actual expenditures below the budgeted expenditures by \$3.8 million. The net transfers out were below budget by \$51 thousand. During the year the City Council amended the budget, primarily, for grant awards and related expenditures.

Capital Assets Activity

During FY 12/13 the City increased its investment in capital assets for governmental activities by \$10.8 million, net of dispositions and depreciation. For business type activities

(Water/Sewer and Port) the City increased its investment in capital assets by \$25.6 million after dispositions and depreciation. Most of the additions were for construction of facilities and infrastructure. Much of the City's capital outlay was financed by FEMA grants. See Detail Note III. F, for additional information concerning capital asset activity for the fiscal year ended September 30, 2013.

Long-term Debt

At the beginning of the fiscal year the City of Biloxi had outstanding debt consisting of general obligation bonds, notes, limited obligation bonds and notes, and pollution control loans. These outstanding debts totaled \$79,999,854 at the beginning of the fiscal year 12/13. During the fiscal year 12/13, the City paid \$19,798,824 of principal and paid \$2,595,321 of interest on all debt. The City borrowed \$1,717,338 from the Mississippi Pollution Control Loans to fund capital project spending. In the Supplemental Information section of the financial report is a schedule titled Schedule of Long-Term Debt which discloses the beginning balances of each debt, new debt incurred and the principal amount paid during the year.

State laws limit the amount of debt a municipality may incur. General obligation bonded debt, excluding debt issued for utility purposes, is limited to 15% of assessed valuation. All debt, excluding utility revenue debt and tax increment financing bonds, is subject to a limit of 20% of assessed value. Note III. H discloses the City's compliance with statutory debt limitations.

Credit Rating

When a governmental entity issues bonds, it may obtain a rating from one or more of the bond rating agencies. The rating is a measure of the issuer's ability to repay the debt and provides a means whereby investors may measure the risk of their investment in the bonds.

On May 21, 2012, Standard & Poor's Rating Services raised its standard long-term rating from BBB+ to AA- with a stable outlook. On March 30, 2013, Standard & Poor's Rating Service affirmed that AA- for the City's long-term rating. Standard & Poor's Rating Services' rationale was based on:

- Historically very strong financial reserves that allowed it to absorb the loss of revenues associated with the impact of Hurricane Katrina;
- Stable tax base; and
- Moderate overall debt burden.

On August 11, 2006 Moody's Investors Service announced that they "affirmed the City of Biloxi's general obligation rating of "Baa1" with a stable outlook." Prior to Hurricane Katrina, Moody's Investors Service rated the City's debt "A2". See Detail Note III. H and the Supplementary Information section of the CAFR for additional information concerning the City's debt. The City's credit ratings have not been reviewed or changed since the above ratings by Standard and Poor's Ratings Services and Moody's Investors Service.

Contact Information

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Controller, Scott McElroy, City of Biloxi, P.O. Box 429, Biloxi, MS 39533.

City of Biloxi, Mississippi
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended September 30, 2013

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances of governmental funds, page 24 \$ (16,980,295)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for capital assets	16,906,829	
Less: current year depreciation	<u>(6,060,747)</u>	10,846,082

The issuance of long-term debt (bonds payable) provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of borrowed principal is an expenditure in the governmental funds, but the repayment reduced long-term liabilities in the statement of net position. This is the amount by which proceeds exceeds repayments.

Community Disaster Loan forgiveness	11,000,000	
Principal payments	8,306,677	
Lease payments	<u>183,584</u>	19,490,261

Some revenues reported in the statement of activities do not provide current financial resources and there are not reported as revenues in governmental funds.

Seized assets	20,500	
Basis of assets sold	<u>(44,805)</u>	(24,305)

Some expenses reported in the statement of activities do not require the use of current financial resources and there are not reported as expenditures in governmental funds.

Change in net pension obligation	(151,430)	
Change in long-term compensated absences	<u>1,761,577</u>	1,610,147

Accrued interest expense on long-term debt is reported in the government-wide statement of activities and changes in net position, but does not require the use of current financial resources; therefore, accrued interest expense is not reported as expenditures in governmental funds.

Community Disaster Loan interest forgiveness	2,053,391	
Interest accrued on Community Disaster Loan	<u>(268,336)</u>	1,785,055

Internal service funds are used by management to allocate the cost of self insuring to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities .

(1,998,974)

Change in net position of governmental activities, page 21

\$ 14,727,971

City of Biloxi, Mississippi
Notes to the Financial Statements
For the Year Ended September 30, 2013

I. Summary of Significant Accounting Policies

The financial statements of the City of Biloxi, Mississippi (the City) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) applicable to governmental units. The following is a summary of the more significant accounting policies of the City:

(A) Reporting Entity

The City of Biloxi, Mississippi was incorporated on February 8, 1838 under the laws of the State of Mississippi. The City operates under a Mayor-Council form of government and provides the following services: public safety, (police, fire and civil defense), public works (highways, streets, and sanitation), health and social services, culture-recreation, community development, planning and zoning, and general administrative services.

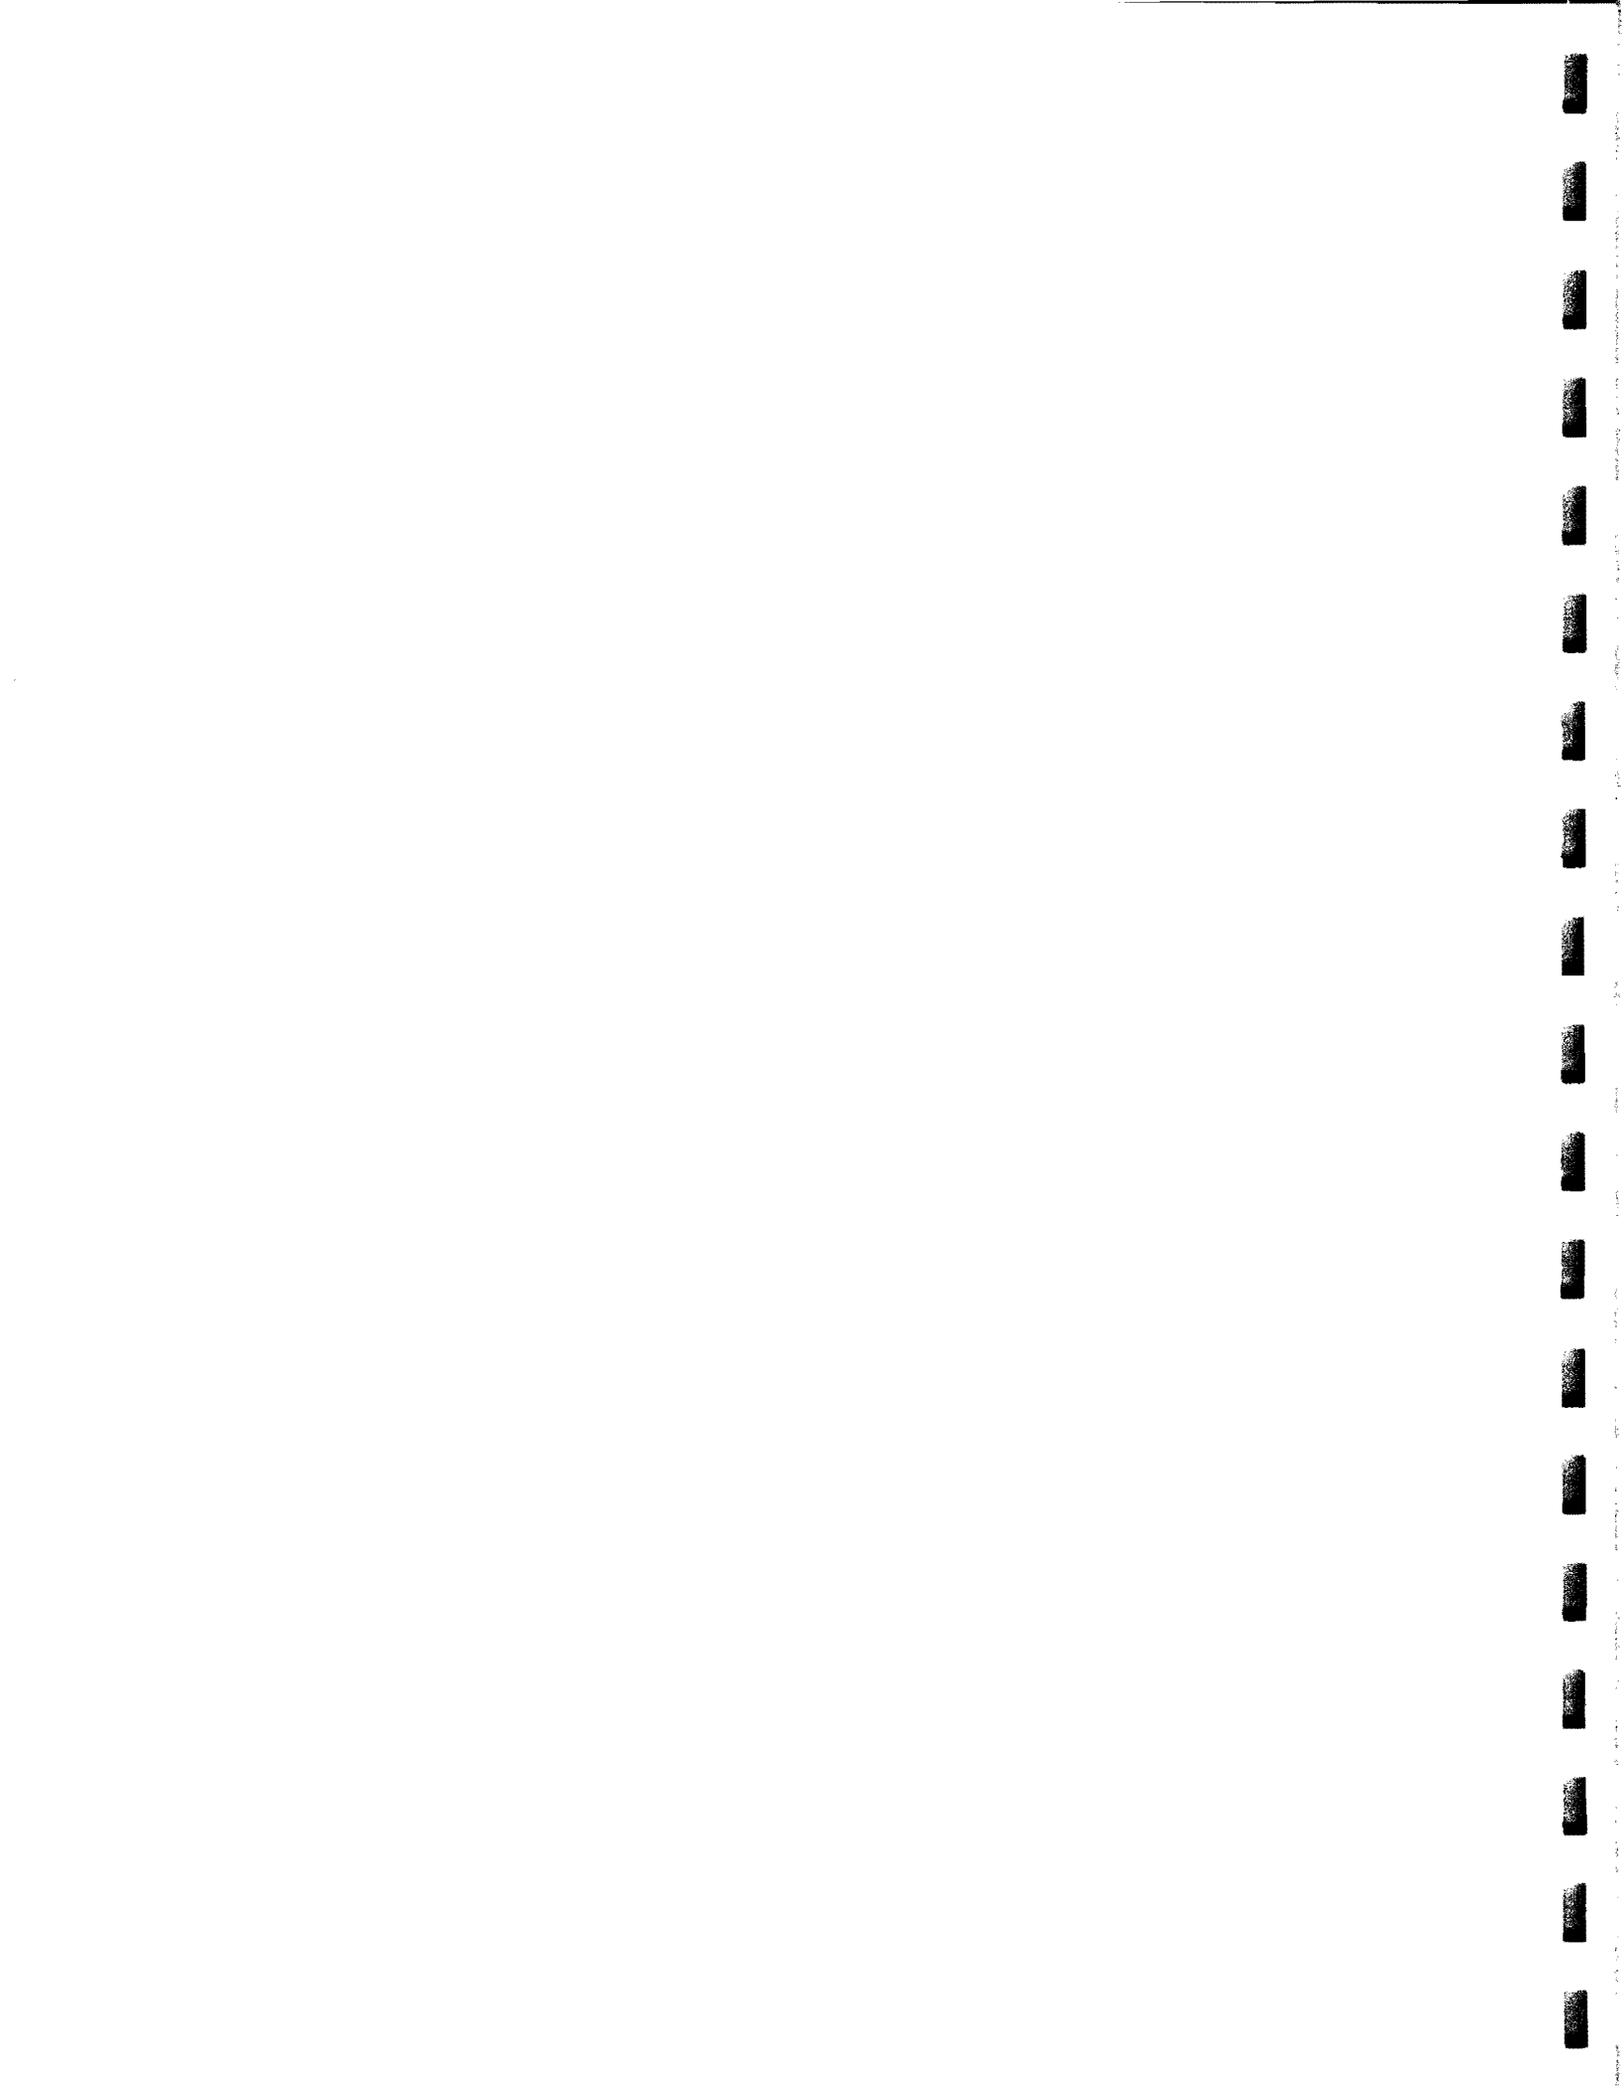

The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. As required by GAAP, these financial statements present the City of Biloxi (the primary government) and its components. The component unit discussed in Note I (B) below is included in the City's reporting entity because of the significance of its operation and financial relationships with the City.

(B) Component Unit Disclosure

The criteria for including component units consist of identification of legally separate organizations for which the elected officials of the City are financially accountable. This criteria also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the governments-wide financial statements to emphasize that they are legally separate from the government. The City presents its component unit using the blending method.

(1) Blended Component Unit: Point Cadet Development Corporation

The Point Cadet Development Corporation (PCDC), a non-profit corporation, is governed by a three member board whose president is always the current Mayor of the City of Biloxi. Although it is legally separate from the City, PCDC is reported as part of the primary government because its sole purpose is to finance, develop and manage City owned property. PCDC provides services solely to the City of Biloxi and is reported as an enterprise fund using the blending method. PCDC does not issue separate financial statements.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

(2) Biloxi Port Commission / Biloxi Port Fund

The Biloxi Port Commission (Commission) provides various services, including rental of pleasure and commercial berths, industrial building rentals, maintenance and operation of various harbors, wharves, piers, and channels, etc. The Commission had going concern issues and on July 24, 2003, the City assumed all of its management responsibilities. The Commissions' assets and liabilities were completely absorbed by the City during the fiscal year ending September 2004. Separate financial statements are no longer available.

(C) Related Organizations

The Biloxi Municipal Separate School District has been excluded from the reporting entity, because it is an "other stand-alone government". The school district is a related organization of, but not a component unit of the City of Biloxi. The governing authorities of the City do select a majority of the school district's board, but do not have ongoing financial accountability for the school district.

(D) Joint Ventures and Jointly Governed Organizations

Additionally, during its evaluation of potential component units, management identified one joint venture (Harrison County Utility Authority), and two jointly governed organizations (the Harrison County Library System and the Gulfport-Biloxi Regional Airport Authority).

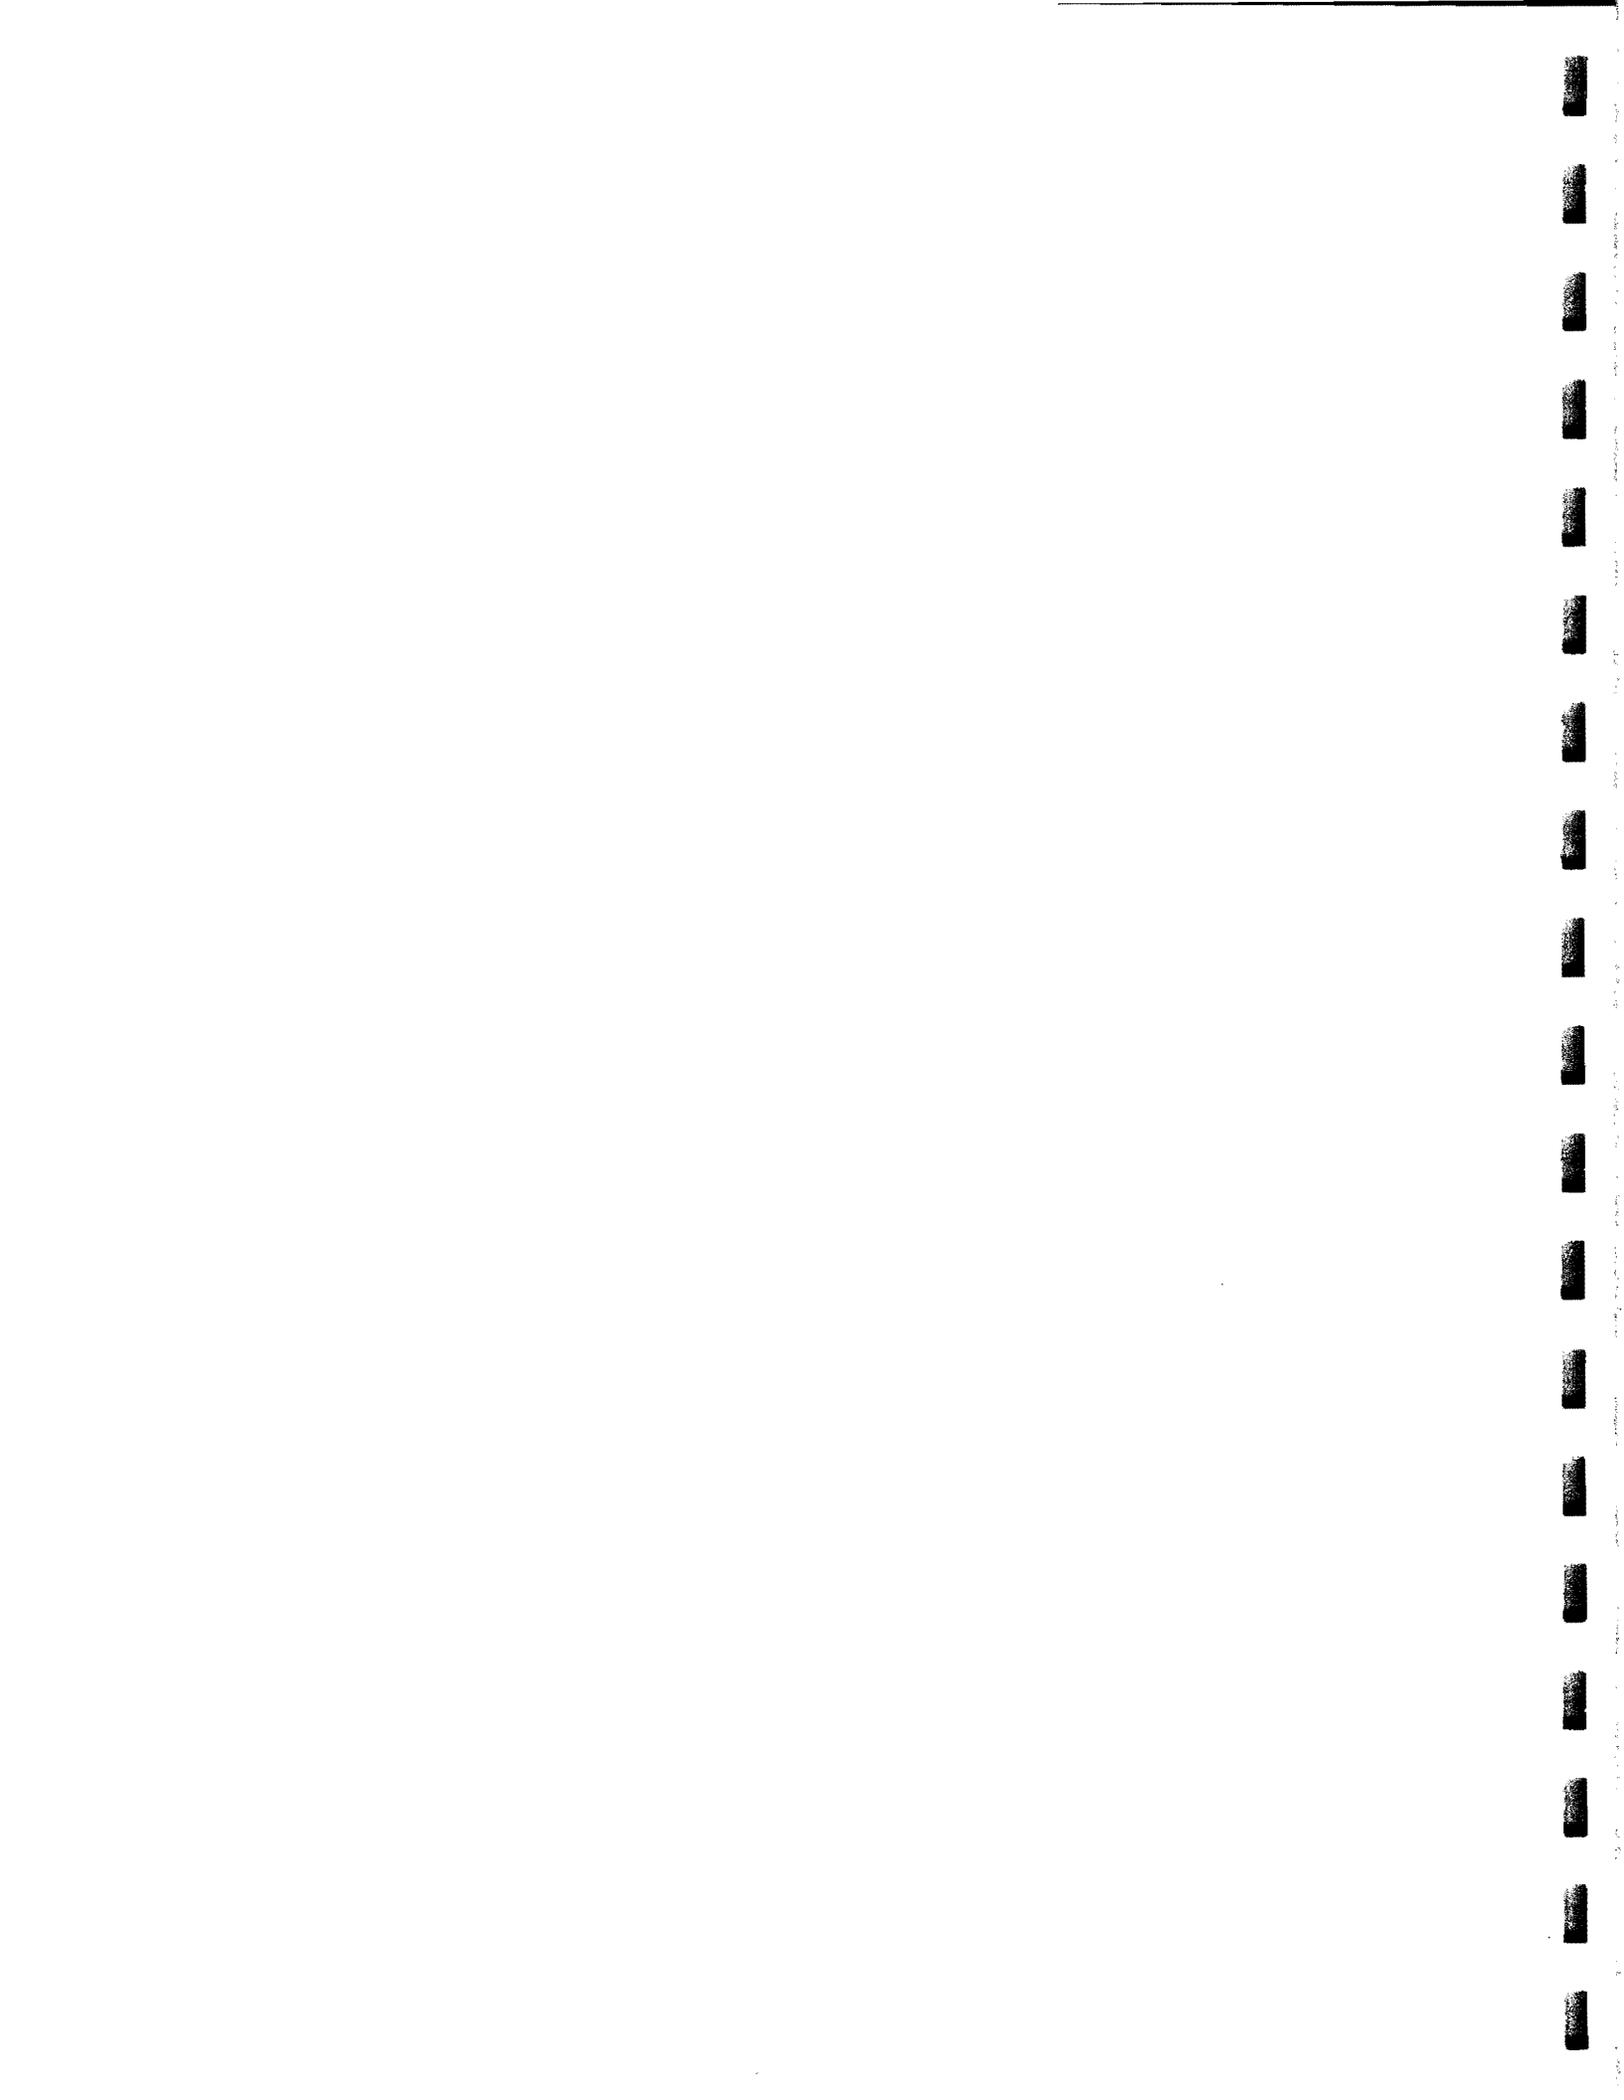

A joint venture is a legal entity or other organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. Generally, the purpose of a joint venture is to pool resources and share the costs, risks and rewards of providing goods or services to the venture participants directly, or for the benefit of the general public or specific service recipients.

A jointly governed organization is similar in nature to a joint venture in that they provide goods and services to the citizenry of two or more governments. However, they do not meet the definition of a joint venture because there is no ongoing significant financial interest or responsibility by the participating governments

(E) Basic Financial Statements

Government-Wide and Fund Financial Statements

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

The government-wide financial statements, including the *statement of net position* and the *statement of activities*, report information on all of the non-fiduciary activities of the City. For the most part, the effect of interfund activity has been removed from the statements. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely extensively on fees and charges for support. In the government-wide statement of net assets, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported as separate columns in the fund financial statements.

(F) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual, i.e., measurable and available to pay liabilities of the current period. *Available* means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recognized when the related fund liability is incurred, if measurable, except for interest on long-term debt and the long-term portion of accumulated compensated absences, which are recognized when due.

Year-end accruals of ad valorem taxes, sales taxes, gaming taxes and franchise fees are based upon actual collections of amounts remitted to the City within 60 days of year end. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Other licenses and permits, charges for services, fines and penalties, and miscellaneous revenues are recorded as revenues when they are received as they are generally not measurable until actually received; however, charges for services which are measurable are recorded as revenue in the period earned.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement No. 33 the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and deferred revenue by the recipient.

The financial transactions of the City are recorded in the individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets liabilities, reserves, fund equity, revenues and expenditures / expenses. The various funds are reported by generic classification within the financial statements.

GASB Statement No. 34 sets forth minimum criteria for the determination of major funds. The City has electively added the General Bond and Interest Fund as a major fund. The non-major funds are combined in a column in the fund financial statements and detailed in the combining section.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal operations. The principal operating revenues of the Water and Sewer fund and PCDC are charges to customers for sales and services. The City insurance funds bill the other funds to cover insurance premiums and claims. Operating expenses for the enterprise and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The preparation of the basic financial statements in conformity with GAAP requires management to make use of estimates that affect reported amounts in the basic financial statements. Actual results could differ from estimates.

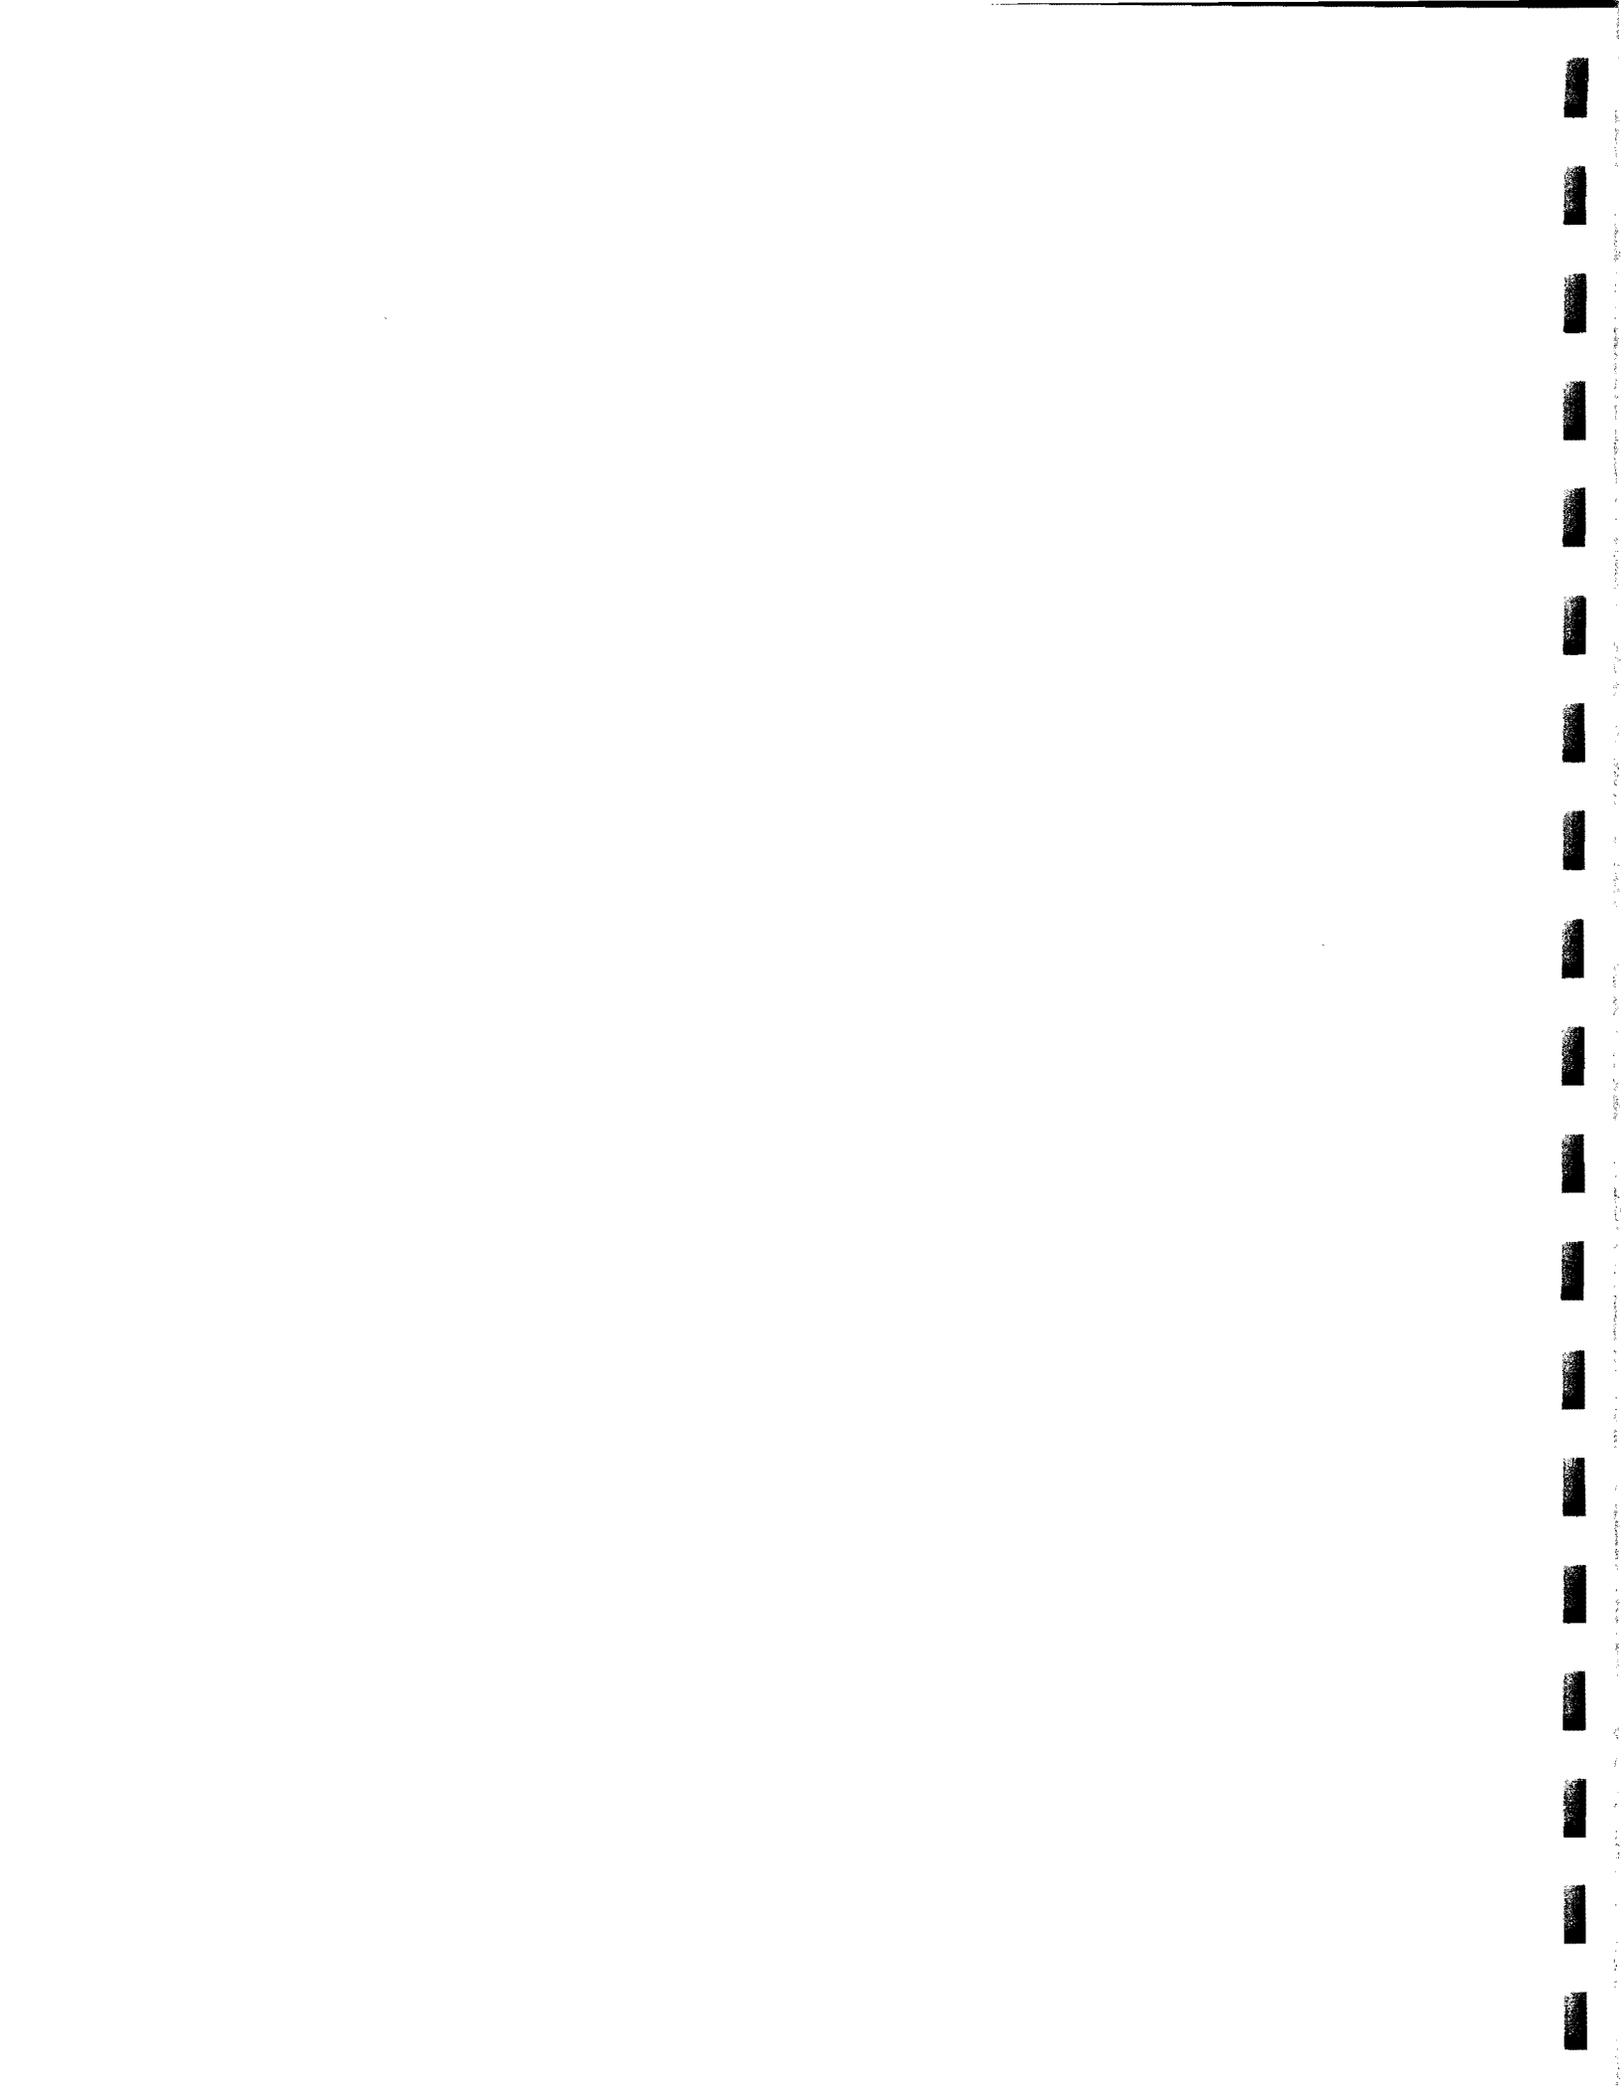

(G) Fund Types and Major Funds

Governmental Funds

Governmental funds are those funds through which the City finances most of its municipal services and are accounted for on the basis of a spending measurement focus. The focus on governmental funds is on the determination of changes in financial position rather than upon net income determination. The City's governmental funds are as follows:

RECEIVED

SEP 02 2014

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

General Fund is the City's primary operating fund. It is used to account for all financial resources of the general government except those required to be accounted for in a separate fund.

General Capital Projects Fund is used to account for the City's capital projects. Revenues are received primarily from the General Fund.

Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Other Non-Major Governmental Funds is a summarization of all of the non-major governmental funds including:

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Proprietary Funds

The focus of Proprietary Fund measurement is upon determination of operating income, changes in fund net assets, financial position, and cash flows, which is similar to businesses. The following is a description of the Proprietary Funds of the City:

Water and Sewer Fund accounts for the activities of the City's water and sewer system.

Biloxi Port Fund accounts for the activities of the City's harbors, wharves, piers and channels.

Non-Major Proprietary Fund – Point Cadet Development Corporation (a blended component unit) accounts for the activities of PCDC.

Internal Service Funds

Like commercial enterprises, a governmental unit may decide to accept certain risk rather than insure against those risks. As part of the City's self-insurance program, Internal Service Self-Insurance Reserve Funds have been established to account for the actual cost of claims, reinsurance, and reserves. The City's Internal Service Funds administer the risk for workman's compensation, liability, automobile, casualty, health insurance and revenue interruption due to catastrophic damage to the gaming industry. The Internal Service Funds in turn charge the other City funds for their allocable share of these net costs.

Non-Current Governmental Assets / Liabilities

GASB Statement No. 34 eliminates the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Activities column in the government-wide Statement of Net Position.

(H) Assets, Liabilities and Net Position or Equity

Cash and Cash Equivalents

The City considers cash on hand, cash with fiscal agents, demand deposit, certificates of deposit and bank repurchase agreements as cash and cash equivalents. In addition, each fund's equity in the City's investment pool has been treated as a cash equivalent since cash may be deposited or withdrawn from the pool at any time without prior notice or penalty.

Investments

Investments are stated at fair value.

Accounts Receivable

Accounts receivable are recorded in the Governmental, Business-type, and Component Unit Funds. Where appropriate, an associated allowance for doubtful accounts has been established in the related fund.

Inventories and Prepaids

Governmental and Proprietary Fund inventories are valued at the lower of cost (first-in, first-out) or market. Inventories consist of expendable supplies held for consumption. The cost is recorded as expenditure at the time individual inventory items are consumed. Prepaids consist of premiums paid on insurance policies extending beyond year end.

Capital Assets

Capital assets, including land, buildings, improvements other than buildings, infrastructure (i.e., roads, bridges, street lighting and other similar items) and equipment are reported in the applicable governmental and business-type activities columns in the government-wide financial statements. The City's capitalization levels are as follows: purchased assets costing more than \$500 are capitalized; building renovations are capitalized when their cost exceeds 25% of the building's previously capitalized cost and if the repair extends the building's estimated useful life; contributed capital assets are capitalized and recorded at the estimated market value at the time of the contribution. Assets acquired using capital lease obligations are treated in the same manner as purchased capital assets.

Depreciation of capital assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	40-50 years
Improvements	40-50 years
Infrastructure	20-60 years
Equipment	3-15 years

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Compensated Absences

The City accrues accumulated unpaid vacation and sick leave and associated employee-related costs when earned (or estimated to be earned) by the employee. For proprietary funds and the government-wide statements, the current portion is the amount estimated to be used in the following year.

Post Employment Health Care Benefits

The City does not have costs associated with post-employment benefits for retired employees.

Interfund Transactions

Numerous interfund transactions occur during the normal course of operations of the City. Disbursements made by one fund which are properly chargeable to another fund result in the creation of interfund receivables and payables. This type of transaction is normally settled by a cash payment between the funds. All other interfund transactions are accounted for as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government wide columnar presentation.

Advances to Other Funds

Various funds have made short-term advances to other funds. These advances, shown as "Due From Other Funds", are temporary in nature, bear no interest, and are considered "available spendable resources". Long-term advances, if any, are those for which the timing of repayment is uncertain: thus, an allocable portion of fund balance would be reserved in governmental funds.

Estimated Insurance Claims Payable

The City is self insured for general liability, property, automobile, workers' compensation and employee health claims. The operating funds are charged premiums by the City's insurance internal service funds. The accrued liabilities for estimated claims represent an estimate of the eventual loss on claims arising prior to year-end including claims incurred and not yet reported.

Bond Discounts, Bond Premiums, and Issuance Costs

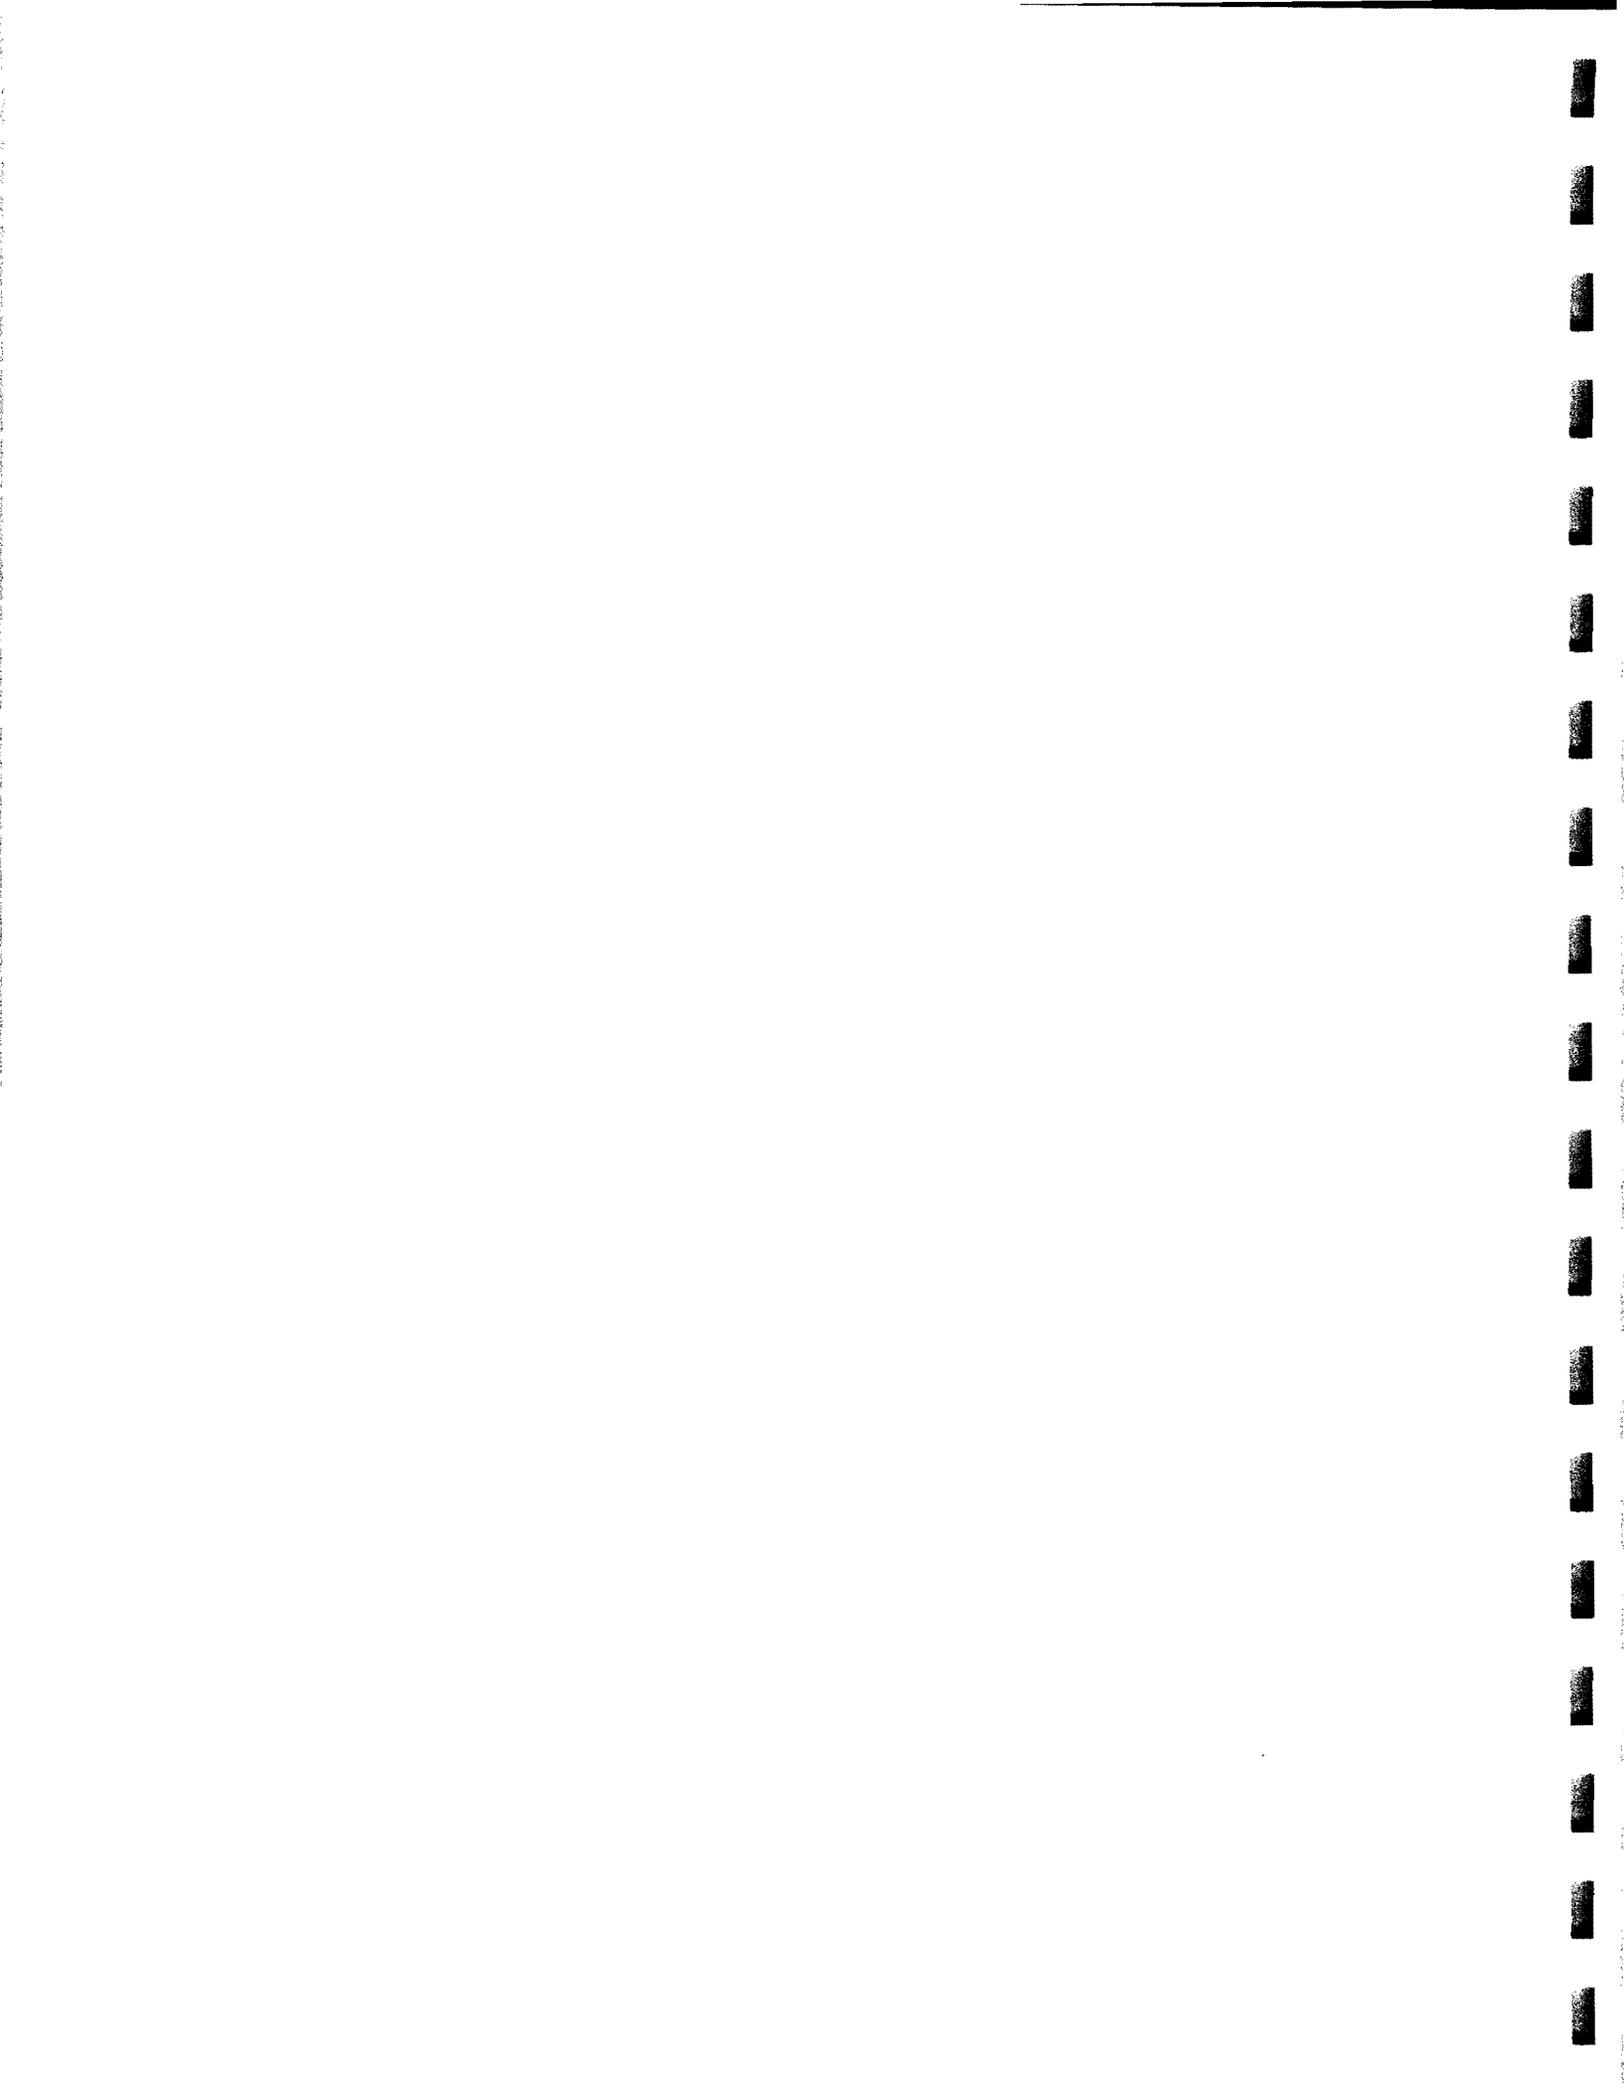

In governmental funds, bond discounts, bond premiums and issuance costs are treated as period costs in the year of issue and are shown as "Other Financing Sources (Uses)".

In proprietary funds (and for governmental activities, in government-wide statements) bond discounts, bond premiums and issuance costs are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond discounts and premiums are presented as a reduction and increase, respectively, of the face amount of the revenue bonds payable, whereas issuance costs are recorded as other assets.

Historically, the City's bond discount/premiums and issuance cost have not been material.

RECEIVED

SEP 02 2014

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Deferred Revenue

In the governmental funds, certain revenue transactions have been reported as deferred revenue. Revenue cannot be recognized until it has been earned and it becomes available to finance expenditures of the current fiscal period.

In proprietary funds (and for governmental activities in the Government-wide statements) deferred revenue is reported for unearned revenue, regardless of its availability.

Fund Equity

Beginning with fiscal year 2011, the City implemented, the Governmental Accounting Standards Board (GASB) approved Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (Statement). This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the related strength of spending constraints:

Nonspendable fund balance—amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance—amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority (i.e. City Council). To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint.

Assigned fund balance—amounts the City intends to use for a specific purpose. Intent can be expressed by the City Council or by an official or body to which the City Council delegates authority.

Unassigned fund balance—amounts that are available for any purpose. Positive amounts are reported only in the general fund.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment of actions.

II. Stewardship, Compliance, and Accountability

A. Budgetary Data

The procedures used by the City in establishing the budgetary data reflected in the combined financial statements are as follows:

1. Prior to October 1, the Mayor submits to the City Council a proposed operating budget for the fiscal year beginning October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. Not later than September 15, the budget is legally enacted through passage of a resolution.
4. The budgetary comparisons present budget figures at the legal level of control. The City legally adopts annual budgets for all funds. The City Council formally adopts the annual budget for the general fund with revenues segregated by source (ad valorem tax, licenses and permits, intergovernmental, etc.). The general fund expenditure budget is set at the character level (current, capital outlay, debt service) for each department (function) with current expenditures further detailed at the object class level (personal services, supplies, other services and charges, and contractual services).

For special revenue and debt service funds, the budgets for revenues are set up at the source level and expenditures budgets are set at the total expenditure level by fund type.

The budget for capital project funds is adopted at total fund type level with the revenue budget set at the source level and expenditures set at the total expenditure level. Proprietary fund budgets are adopted for the Water and Sewer Fund and for the Port Fund with revenues delineated at the source level (total intergovernmental revenue and total charges for services) and expenditure budgets delineated by character (current, capital outlay debt service).

State statutes authorize the State Auditor to regulate the municipal budget process. Expenditures must be defined to the minimum level prescribed by the State Auditor. The State Auditor has set this level at the purpose level. Municipalities are prohibited from spending in excess of the lowest level adopted in the budget except for the capital outlay, election expense and emergency warrants.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Formal budgetary integration at the “account level” is employed by management for expenditure control purposes. Management may transfer budget between expenditure accounts within each character grouping of the expenditure accounts for each department.

The City’s budgets are adopted in accordance with state statutes and regulations of the State Auditor and not on a basis consistent with Generally Accepted Governmental Accounting Principles. The budgets for revenues are on a cash basis – revenue is recognized if actually received within the year. Budgeted expenditures are on the cash basis with allowance for encumbrances for goods and services actually received prior to year-end and liquidated (paid) within thirty days after year-end. Accounting principles applied in preparation of the budget comparison statements differ from the generally accepted accounting principles used in preparation of the fund financial statements. These differences in the principles used results in timing differences in the recognition of revenues and expenditures. Below is a reconciliation of the General Fund Statement of Revenues, Expenditures and Changes in Fund Balance, Budget and Actual – Budget Basis to the General Fund column of the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds:

	General Fund
Excess (deficiency) of revenues and other sources over expenditures and other uses, budgetary basis	\$(2,504,124)
Adjustments	
To convert receivables	531,551
To convert prepaids	(279,011)
To convert liabilities	(1,964,102)
Totals, GAAP basis	<u>\$(4,215,686)</u>

B. Excess Expenditures Over Appropriations in Individual Funds

For the year ended September 30, 2013, expenditures exceeded appropriations in the judicial department (the legal level of budgetary control) of the general fund by \$275 and in the Employees’ Disability and Relief Fund by \$11,362. These over expenditures were funded by greater than anticipated revenues of the general and Employees’ Disability and Relief Fund, respectively. Expenditures also exceeded appropriations in the Debt Service Fund by \$3,772,998. This over expenditure was funded by loan proceeds of the 2011 GO Refunding Bonds.

C. Deficit Fund Equity

There were no funds with net equity in a deficit position.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

III. Detail Notes - All Funds

A. Property and Gaming Tax Revenues

Property Tax

The City levies a tax on real and personal property based on the assessed value of property as compiled by the Harrison County Tax Assessor. The taxes on real and personal property attach as an enforceable lien on the property as of January 1 of each year. Taxes on real and personal property are levied by the City Council at the first regular meeting in September. Through an inter-local agreement, all of the property taxes of the City of Biloxi are collected by the Harrison County Tax Collector and remitted as tax settlements (less an appropriate collection fee) to the City on a monthly basis. Taxes for the Biloxi Municipal Separate School District are also billed and collected by the county and remitted to the schools through the City.

In accordance with the Mississippi Code of 1972, as amended, the City Council may levy taxes in any amount for general revenue purposes and general improvements. However, taxes collected for any one year may not exceed one hundred and ten percent (110%) of the taxes collected for the prior assessment year. For purposes of the computation, taxes collected in the current year resulting from property added to the tax assessment roll are excluded from the computation. In addition, the City Council may levy additional taxes for specific purposes, such as culture and recreation, as authorized by law.

The tax levies for the calendar years 2013, 2012 and 2011 (taxes collected in the fiscal years ending 9/30/14, 9/30/13, and 9/30/12 are as follows:

	<u>9/30/14</u>	<u>9/30/13</u>	<u>9/30/12</u>

Gaming Revenue

In 1992, the citizens of Harrison County voted to allow dockside casino gaming as defined by the Mississippi Gaming Control Act of 1990. In August of 1992, the first casino opened at Biloxi's Point Cadet development. As of September 30, 2013, there were eight casinos operating within the City of Biloxi. Gaming activities are taxed in a variety of ways. The State of Mississippi levies a sliding scale tax on gross gaming revenue, of which Harrison County and the City of Biloxi receive .4 to .8 percent. This tax is divided 73.4% to the County, and 26.6% to the City of Biloxi. The allocation is based upon the population demographics of the last official census. In addition to the State tax, the City of Biloxi, through local ordinance in accordance with state law, levies an additional 3.2% tax on gross gaming revenues. This tax is distributed as follows: 60% to the General Fund, (20% of which is designated for public safety); 20% to the Biloxi Public Schools; 10% to Harrison County for public safety; and 10% to Harrison County Schools. In addition to the taxes on gross gaming revenue, the State, City and County annually receive licensing fees and permits from each casino for each gaming device. The following is an analysis of the gaming revenues reported in the General Fund:

Local option 3.2% tax	\$ 15,705,575
Local share of state tax	1,531,751
Gaming licenses and permits	<u>1,640,878</u>
Total gaming revenues	<u>\$ 18,878,204</u>

B. Deposits and Investments

The City deposits funds in financial institutions selected by the City Council in accordance with state statutes. Furthermore, the City invests excess funds in various investment instruments that are allowed by statutes. Various restrictions on deposits and investments are imposed by statutes. Deposits and investments are summarized below.

Deposits –

Deposits consist of cash amounts in demand accounts and certificates of deposit. The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation. By using this multiple financial institution collateral pool, all of the City's deposits at September 30, 2013 fall into the credit risk category of "*Insured or collateralized with securities held by the entity or by its agent in the entity's name*". Deposits are summarized as follows:

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

	<u>Reported Amount</u>	<u>Bank Balance</u>
Cash	\$ 32,360,690	\$ 36,713,220
Certificates of deposit	<u>1,281,077</u>	<u>1,281,077</u>
Total deposits	<u>\$ 33,641,767</u>	<u>\$ 37,994,297</u>

Cash and cash equivalents for cash flows of Proprietary Funds include all cash accounts and certificates of deposit.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a depository failure, the City’s deposits may not be returned to it. The City does not have a formal policy for custodial credit risk. However, state law permits the Mississippi State Treasurer’s office to manage that risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions’ trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. By signed agreement the Mississippi State Treasurer’s office is acting on behalf of the City.

Investments

The City is allowed, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county or municipality of this state, when such county or municipal bonds have been properly approved. At September 30, 2013, investments consisted of the following:

	<u>Reported Amount</u>	<u>Fair Value</u>
Investments held by the City or the City’s safekeeping agent, and registered in the name of the City:		
Investments not categorized:		
Money Market Mutual Funds	\$ <u>2,757,895</u>	\$ <u>2,757,895</u>

Interest Rate Risk. This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Most of the City’s investments are in Money Market Mutual funds which have an investment maturity of less than one year.

RECEIVED

SEP 02 2014

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

Concentration of Credit Risk. The City places no limit on the amount the City may invest in any one issuer. More than 5 percent of the City's investments are in Money Market Mutual Funds. These are 100%, of the City's total investments.

Credit Risk. Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. All of the City's investments have been given the AAA rating.

C. Receivables

The Statement of Net Position of the City of Biloxi includes the following receivables at September 30, 2013:

Taxes receivable:	
Utility franchise taxes	\$ 872,291

Internal Service Self-Insurance							
Gaming Revenue Interruption	2,000,000	-	-	-	-	2,000,000	
Total internal service self-insurance funds	2,000,000	-	-	-	-	2,000,000	
Totals	\$2,000,000	\$5,217,044	\$ 64	\$21,210,438	\$1,309,296	\$29,736,842	

Transfers are used to 1) move revenues from the fund with the collection authorization to the debt service fund as debt service principal and interest payments become due, 2) move restricted amounts from borrowings to the debt service fund to establish mandatory reserve accounts, 3) move unrestricted general fund revenues to finance various programs that the City must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

During the year ended September 30, 2013, all transfers to the General Capital Projects Fund were to provide funding for current or future capital projects. Transfers from the General Capital Projects Fund to the proprietary funds were for completed capital projects to be utilized by each individual proprietary fund. Transfers from the Internal Service Fund to the General Fund were made to support the fund balance for the General Fund.

G. Leases

Capital Leases

During the fiscal year ended September 30, 2008 the City entered into a capital lease with Hancock Bank to finance a lighting project. The amount financed was \$438,782 at the fixed, simple interest rate of 4.15% for seven years. Title to the equipment is held in the name of the City and Hancock Bank as lien holder. The lease terms include a non-appropriation clause; however, the possibility of non-appropriation is remote. The lease does not include any contingent or purchase option payments or penalties. There are no restrictions on the City's use of the lighting equipment and the City insures the equipment. The City has accounted for the lease as a financing arrangement.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

During the fiscal year ended September 30, 2012 the City entered into three capital leases with Hancock Bank to finance the purchase of various equipment. The total purchase amount financed was \$603,200 at the fixed, simple interest rate of 1.99% for five years. Title to the equipment is held in the name of the City and Hancock Bank as lien holder. The lease terms include a non-appropriation clause; however, the possibility of non-appropriation is remote. The lease does not include any contingent or purchase option payments or penalties. There are no restrictions on the City's use of the equipment and the City insures the equipment. The City has accounted for the lease as a financing arrangement.

The City will make the following payments of principal and interest:

Fiscal Year Ended September 30	Principal	Interest	Total
2014	\$ 188,747	\$ 9,303	\$ 198,050
2015	132,850	4,920	137,770

Debt Refunding

The City of Biloxi issued General Obligation Refunding Bonds, Series 2011, in the amount of \$9,350,000. The net proceeds of \$9,673,738 include a premium of \$323,738. The refunding bonds were issued to raise money for the purpose of refunding the callable maturities of the City's outstanding General Obligation Bonds, Series 2002, dated December 1, 2002, issued in the original principal amount of \$6,000,000 which is callable on December 1, 2012, and General Obligation Bonds, Series 2003, dated December 1, 2003, issued in the original amount of \$9,800,000, in order to reduce debt service requirements. The new bonds bear interest from 2.0% to 2.625% and are due in annual installments ranging from \$380,000 to \$1,240,000 through December 1, 2022. The refunding decreased the City's total debt service payments by approximately \$710,326 and resulted in an approximate economic gain of \$600,000.

The annual requirements to pay principal and interest on the bonds, notes and loans outstanding at September 30, 2013 follow and include interest on the variable rate debt.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

The City Council annually adopts a resolution providing for the amount of property tax millage necessary to be levied and collected by the City in the next fiscal year for the payment during such year of principal and interest on all outstanding general obligation bonds of the City. The millage rate for the year ended September 30, 2013, was 9.20 mills or \$9.20 per \$1,000 of assessed value.

Other general long-term debt of the Enterprise Funds is \$4,650,584 of pollution control/state revolving loans and drinking water improvement loans from the State of Mississippi. The State Tax Commission, in accordance with a signed agreement with the City of Biloxi is currently deducting \$30,310 each month from the sales tax remittances to the City to apply as payments on these loans.

The City has authorized the issuance of limited tax port bonds for the purpose of making improvements to property belonging to the Biloxi Port Fund (previously the Biloxi Port Commission). The bonds are secured by an irrevocable pledge of the avails of a direct and continuing one (1) mill ad valorem tax to be levied by Harrison County, Mississippi. The bonds are payable solely from the avails of the Harrison County tax levy. At September 30, 2013, the aggregate, outstanding principal amount of the issues was \$1,240,000.

I. Retirement Plans

The City of Biloxi participates in two retirement system administered by the Public Employees' Retirement System of Mississippi (PERS). Both systems are defined benefit plans and include a multiemployer, cost-sharing pension plan and an agent multi-employer pension plan as described below:

1. Firemen's and Policemen's Disability and Relief Plan and Employee's Disability and Relief Plan

All firemen and policemen hired prior to March 1, 1976, are covered by the Firemen's and Policemen's Disability and Relief Plan. All other City employees employed prior to February 5, 1975, are covered by the Employees' Disability and Relief Plan. Both the Firemen's and the Policemen's Disability and Relief Plan and the Employee's Disability and Relief Plan are agent multiple-employer defined benefit pension plan administered by the Public Employees Retirement System of Mississippi.

Under the provisions of Chapter No. 511 of the General Laws of the State of Mississippi, 1987, effective October 1, 1987, the administrative responsibility for these retirement systems was assigned to the Mississippi Municipal Retirement System, a program of the Public Employees' Retirement System of Mississippi. The City is authorized by law to require membership contributions from 1% to a maximum of 10% of the total compensation of each participating employee. City employee contributions are 9%. PERS issues a publicly available financial report that includes financial statements and required supplementary information for the Municipal Retirement Systems' Disability and Relief Plans. That information may be obtained by writing to Public Employees Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601)359-3589 or 800-444-PERS. Based upon annual actuarial data provided by PERS, the City levies a tax millage sufficient to fund the current obligations for retirement

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

payments and also provide the recommended amount to reduce the balance of the unfunded employer liability. For the year ended September 30, 2013 the combined millage was 2.5 mills. The City has no control over the administration of the plans.

The City is required by statute to set a tax levy sufficient to fund the annual required contribution. The plan administrator, the Mississippi Public Employees Retirement System, provides actuarial data for the two plans combined. The City accounts for these closed plans as a single, agent multiple-employer defined benefit plan.

Current membership in the City's Mississippi Municipal Retirement System is composed of the following:

Active members	-
Retirees and beneficiaries	<u>122</u>
Total	<u><u>122</u></u>

Participating employees who retire, regardless of age, with at least 20 years of credited service are entitled to an annual retirement allowance, payable monthly in an amount equal to 50% of their average monthly compensation plus an additional 1.7% for each year of credited service in excess of 20 years with a maximum of 66 2/3% of average monthly compensation. Average monthly compensation is the average for the last 6 months of service. Certain death and disability benefits are also provided by these plans which are governed by State statute and City ordinances.

The Annual Required Contribution (ARC)

2. Public Employees' Retirement System Defined Benefit Pension Plan

All full-time City employees hired after June 30, 1987, participate in the Public Employees' Retirement System of Mississippi (PERS). Other City employees hired prior to July 1, 1987 may elect to participate in the retirement system under an option offered by PERS.

Plan Description: The City of Biloxi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444 PERS.

Funding Policy: PERS' members are required to contribute 9.00% of their annual covered salary and City of Biloxi is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The City of Biloxi's contributions to PERS for the years ending September 30, 2013, 2012, and 2011 were \$3,912,605, \$3,605,496, and \$3,221,683, respectively. These amounts were 100% of the required contributions.

Deferred Compensation Plan

The City also offers to its employees voluntary participation in a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, Group Flexible Fund Retirement Contracts, administered by Nationwide Retirement Solutions, Inc., permits employees to defer a portion of their salary until future years. All plan assets are held in trust by Nationwide for the exclusive benefit of the participants and their beneficiaries and not subject to the claims of the City's general creditors. Accordingly, the assets and liabilities for the compensation deferred by plan participants is not reflected in the City's financial statements. During the year ended September 30, 2013, contributions by participants employed by the City totaled \$457,573.

J. Community Development Block Grant Program

Status of Grants

The City of Biloxi is awarded an entitlement grant every year by the Department of Housing and Urban Development Community Block Grant Program. The following represents the status of the award of grant funds as of September 30, 2013:

	<u>Award</u>	<u>Drawn Prior to FYE 9/30/13</u>	<u>Drawn During FYE 9/30/13</u>	<u>Balance</u>
CDBG B-10-MC-28-0001	\$ 609,136	\$ 265,433	\$ 343,703	\$ -
CDBG B-11-MC-28-0001	511,204	-	511,204	-
CDBG B-12-MC-28-0001	391,232	-	168,246	222,986
CDBG B-13-MC-28-0001	<u>377,951</u>	<u>-</u>	<u>-</u>	<u>377,951</u>
Totals	<u>\$ 1,889,523</u>	<u>\$ 265,433</u>	<u>\$ 1,023,153</u>	<u>\$ 600,937</u>

Waterfront Development

Through the use of certain Department of Housing & Urban Development (HUD) grants and loans, the City has acquired and developed property commonly known as the Point Cadet Waterfront Development Project. These federal grants and loans contain restrictions which require that 6% of the income (such as rents), generated by these properties, be restricted as to use for CDBG eligible activities only.

The City of Biloxi has negotiated three leases with Landry's Inc. who operates the "Golden Nugget Casino" at the Point Cadet Waterfront Development. A portion of the lease revenues are considered program income under the CDBG and HUD Section 108 loan programs, and are restricted to use for such eligible purposes. The initial lease (casino lease), dated August 1, 1992, calls for an initial term of seven (7) years with seven additional five (5) year renewal options. Minimum annual rentals are \$500,000. Minimum annual rentals for each renewal option period are adjusted by the Consumer Price Index. In addition to the minimum annual rentals, the lease calls for an additional annual amount equal to three percent (3%) of the tenant's gross annual revenues in excess of \$25,000,000.

Another lease (hotel lease), dated April 13, 1994, calls for an initial term of twenty-five (25) years with six additional ten (10) year renewal options and a final option period with a termination date of December 31, 2085. Minimum annual rentals began at \$404,000 and are adjusted every five years by reference to the Consumer Price Index. In addition to the minimum annual rentals, the lease calls for an additional amount equal to four percent (4%) of the tenant's gross revenues.

A third lease (podium lease), dated August 15, 2002, calls for an initial term of forty (40) years (although the tenant has the right to terminate on July 31, 2009, and on every fifth anniversary of that date), with one additional twenty-five (25) year renewal option. The final period would terminate on August 14, 2067. Minimum rent is computed as a function of the total annual minimum and percentage rent from the casino lease and hotel lease. When coupled with four percent (4%) of the tenant's gross revenues from the property

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

covered by the podium lease, the annual guaranteed rent is \$2,733,000 plus one-third (1/3) of all scheduled contingent increases. The guaranteed rent is to be adjusted every five years by reference to the Consumer Price Index.

Mortgage Loans Receivable

Under the CDBG Program, the City of Biloxi makes installment mortgage loans to eligible parties. These loans are secured by a deed of trust and have varying interest rates and terms.

Mortgage loans receivable at September 30, 2013, consisted of the following:

Nixon Street home acquisition mortgages	\$ 2,446
Revolving Loan Program	<u>68,645</u>
Total deferred mortgage loans receivable	<u><u>71,091</u></u>

K. Self-Insured Risk, Claims and Other Contingencies

As described in Note 1 to the financial statements, the City has established a self-insurance risk retention program administered through an internal service fund. The following is a summary of the City's insurance coverage and self-insured risk retention (SIR):

Property damage

Per occurrence deductible (SIR)	\$ 100,000
Specific excess coverage in force	30,000,000

Workers' compensation

Per occurrence deductible (SIR)	500,000
Specific excess coverage in force	Statutory

General and other liability coverage

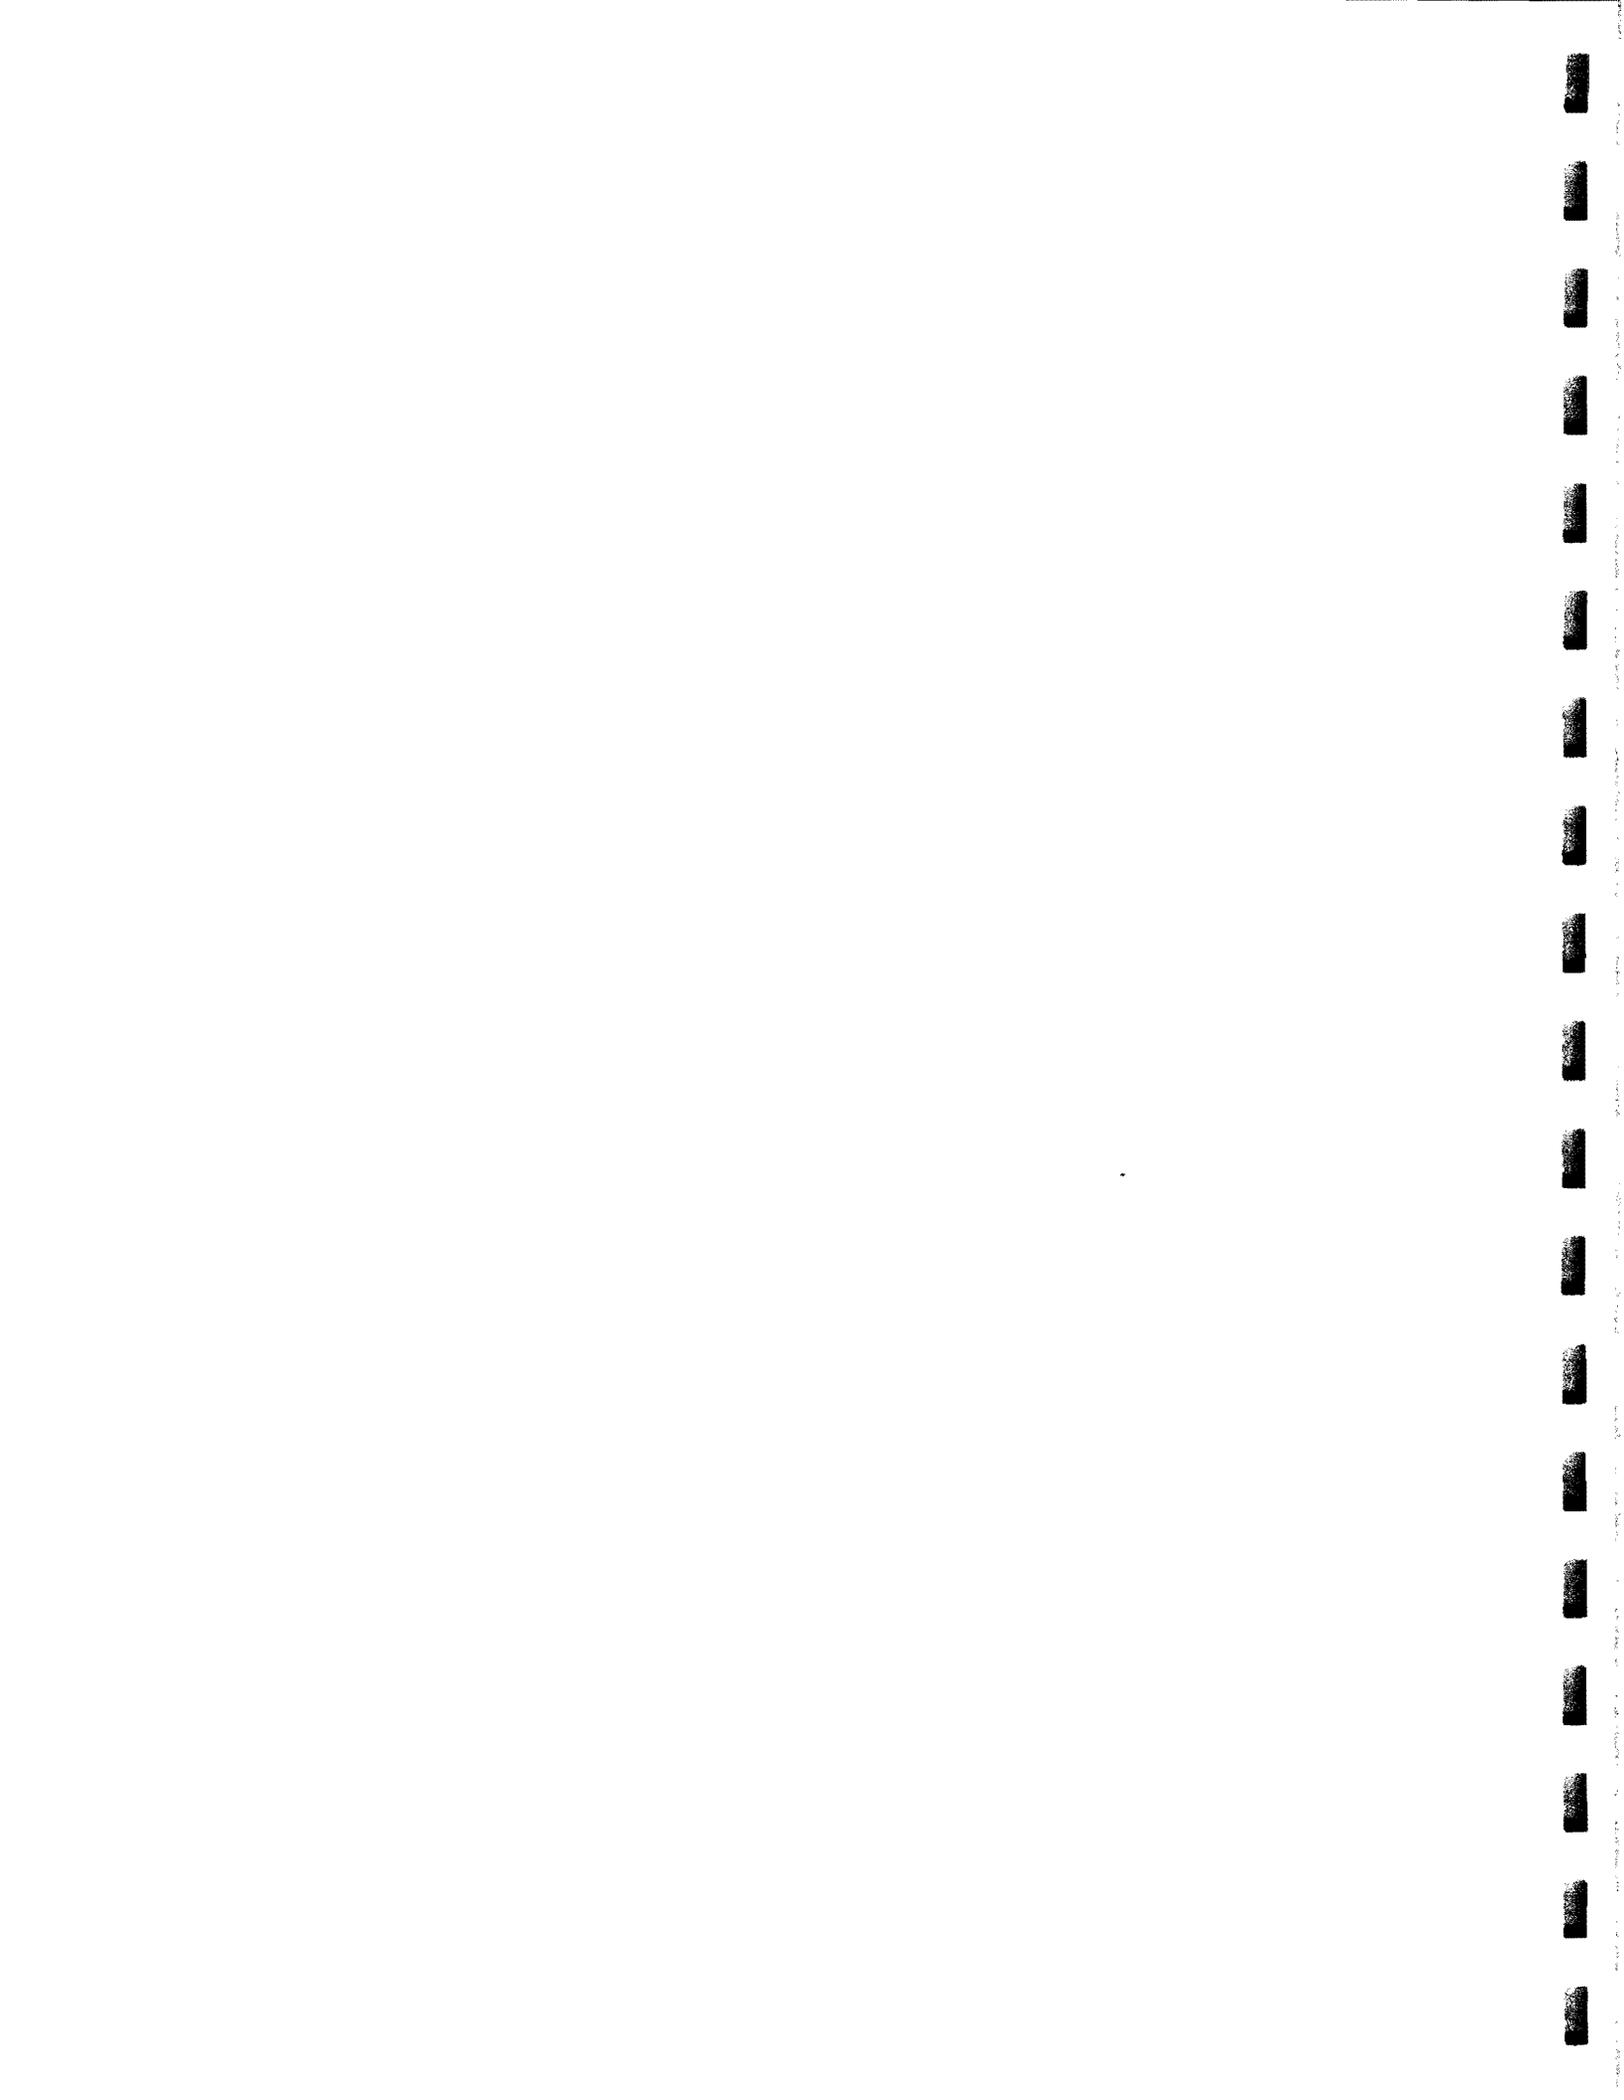

Per occurrence deductible (SIR)	\$ 50,000
Specific excess coverage in force	1,000,000

Annual aggregate coverage to:

General liability	900,000
Law enforcement liability	900,000
Automobile liability	900,000

Health

Per individual deductible (SIR)	125,000
Annual aggregate risk of loss through deductibles	7,595,433
Specific excess coverage in force	1,000,000

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

The following is a summary of the City's self-insurance reserves at September 30, 2013:

	<u>Employee Medical Claims</u>	<u>Property, Liability & Workers' Compensation</u>	<u>Total</u>
Total estimated liability and reserves – October 1, 2012	\$ 2,744,520	\$ 3,483,732	\$ 6,228,252
Claims incurred and changes in estimates	5,475,657	112,823	5,588,480
Claims paid	(5,834,158)	(542,306)	(6,376,464)
Total estimated liability and reserves – September 30, 2013	\$ 2,386,019	\$ 3,054,249	\$ 5,440,268
Claims incurred and changes in estimates	5,224,479	918,937	6,143,416
Claims paid	(6,040,171)	(613,186)	(6,653,357)
Total estimated liability and reserves – September 30, 2014	<u>\$ 1,570,327</u>	<u>\$ 3,360,000</u>	<u>\$ 4,930,327</u>

The City's reserves, including estimates for claims incurred but not reported, are developed by the City's third-party claims administrator. Administrative officials have reviewed the reserve estimates and consider them fairly stated. Additionally, the liability has been actuarially evaluated and found to be reasonable.

The City is involved in various other legal matters arising during the normal course of business activities. Management, after consulting legal counsel, is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the financial condition of the City.

L. Related Party Commitments

Joint Venture

The City of Biloxi is a member of the Harrison County Utility Authority (Authority) which was established by an act of the Mississippi Legislature to provide for adequate wastewater treatment and solid waste disposal services to the citizens of Harrison County, Mississippi. The governing board is comprised of one member from each of the cities and two members from each of the counties who are members of the Authority. Through a fifty-year contract, the City of Biloxi is obligated to pay monthly, its pro-rata share of all operating, administrative, and capital costs of the Authority. Additionally, the City is jointly and severally liable for all of the liabilities of the Authority. The Authority is classified as a joint venture between the City of Biloxi and the other members. The following is a synopsis of the Authority's financial statements as of and for the year ended September 30, 2013, a complete copy of which is on file at the administrative offices of the Authority.

Jointly Governed Organizations

Harrison County Library System – On May 18, 1976, the City entered into an agreement with the Board of Trustees of the Biloxi Public Library, the City of Gulfport, the Board of Supervisors of Harrison County, the Board of Trustees of the Gulfport-Harrison County Library, the City of Pass Christian, and the Board of Trustees of the Pass Christian Public Library to mutually cooperate in securing a more economical public library system through combined resources, interests, materials and facilities to be known as the Harrison County Library System. There are no specific monetary terms in the agreement and the City of Biloxi has no equity interest in the organization. However, a budget is approved every year by the County Library Board, which stipulates the amount of funds needed from the participating municipalities and various other funding sources. The City of Biloxi contributed \$695,000 for the year ended September 30, 2013. The amount budgeted for the City of Biloxi for the fiscal year ended September 30, 2014 is \$695,000. This agreement is cancelable upon 60 days written notice prior to the end of the fiscal year and therefore, the City of Biloxi does not have an ongoing financial responsibility.

Gulfport-Biloxi Regional Airport Authority – The Gulfport-Biloxi Regional Airport Authority was chartered on August 25, 1977, and assumed control of the Airport on October 1, 1977. The Authority is comprised of one appointee each from the local governmental units of the City of Gulfport, the City of Biloxi, and Harrison County. These governmental units have agreed to subsidize the Airport annually. During the past fiscal year, the City of Biloxi provided no subsidy to the Gulfport-Biloxi Regional Airport. The City has budgeted \$0 for the 2013-2014 fiscal year. The City of Biloxi has no equity interest in the organization.

City of Biloxi, Mississippi
Notes to the Financial Statements

M. Other Commitments

Property Leases

On August 15, 2002, the City of Biloxi entered into the Point Cadet Compromise and Settlement Agreement with the State Institutions of Higher Learning (IHL) and the Secretary of State on behalf of the State of Mississippi, and the Golden Nugget Casino. The purpose of the agreement was to resolve public trust tidelands issues affecting the Point Cadet Waterfront Development property. In lieu of the December 2, 1985, lease with the Board of Trustees of State Institutions of Higher Learning, this agreement provides that the City has an undivided one third interest in the entire Point Cadet Development site. The first \$2,733,000 of revenue from this property each year is received by the City of Biloxi. All additional annual revenue which exceeds \$2,733,000 is allocated by thirds to the City of Biloxi, IHL, and the State Tidelands Trust Fund.

The two tidelands lease agreements with the State of Mississippi dated July 15, 1988, continue in effect until June 30, 2018. Lease payments under those leases are now established at \$500,000 per year, but the Isle of Capri is obligated to make those payments.

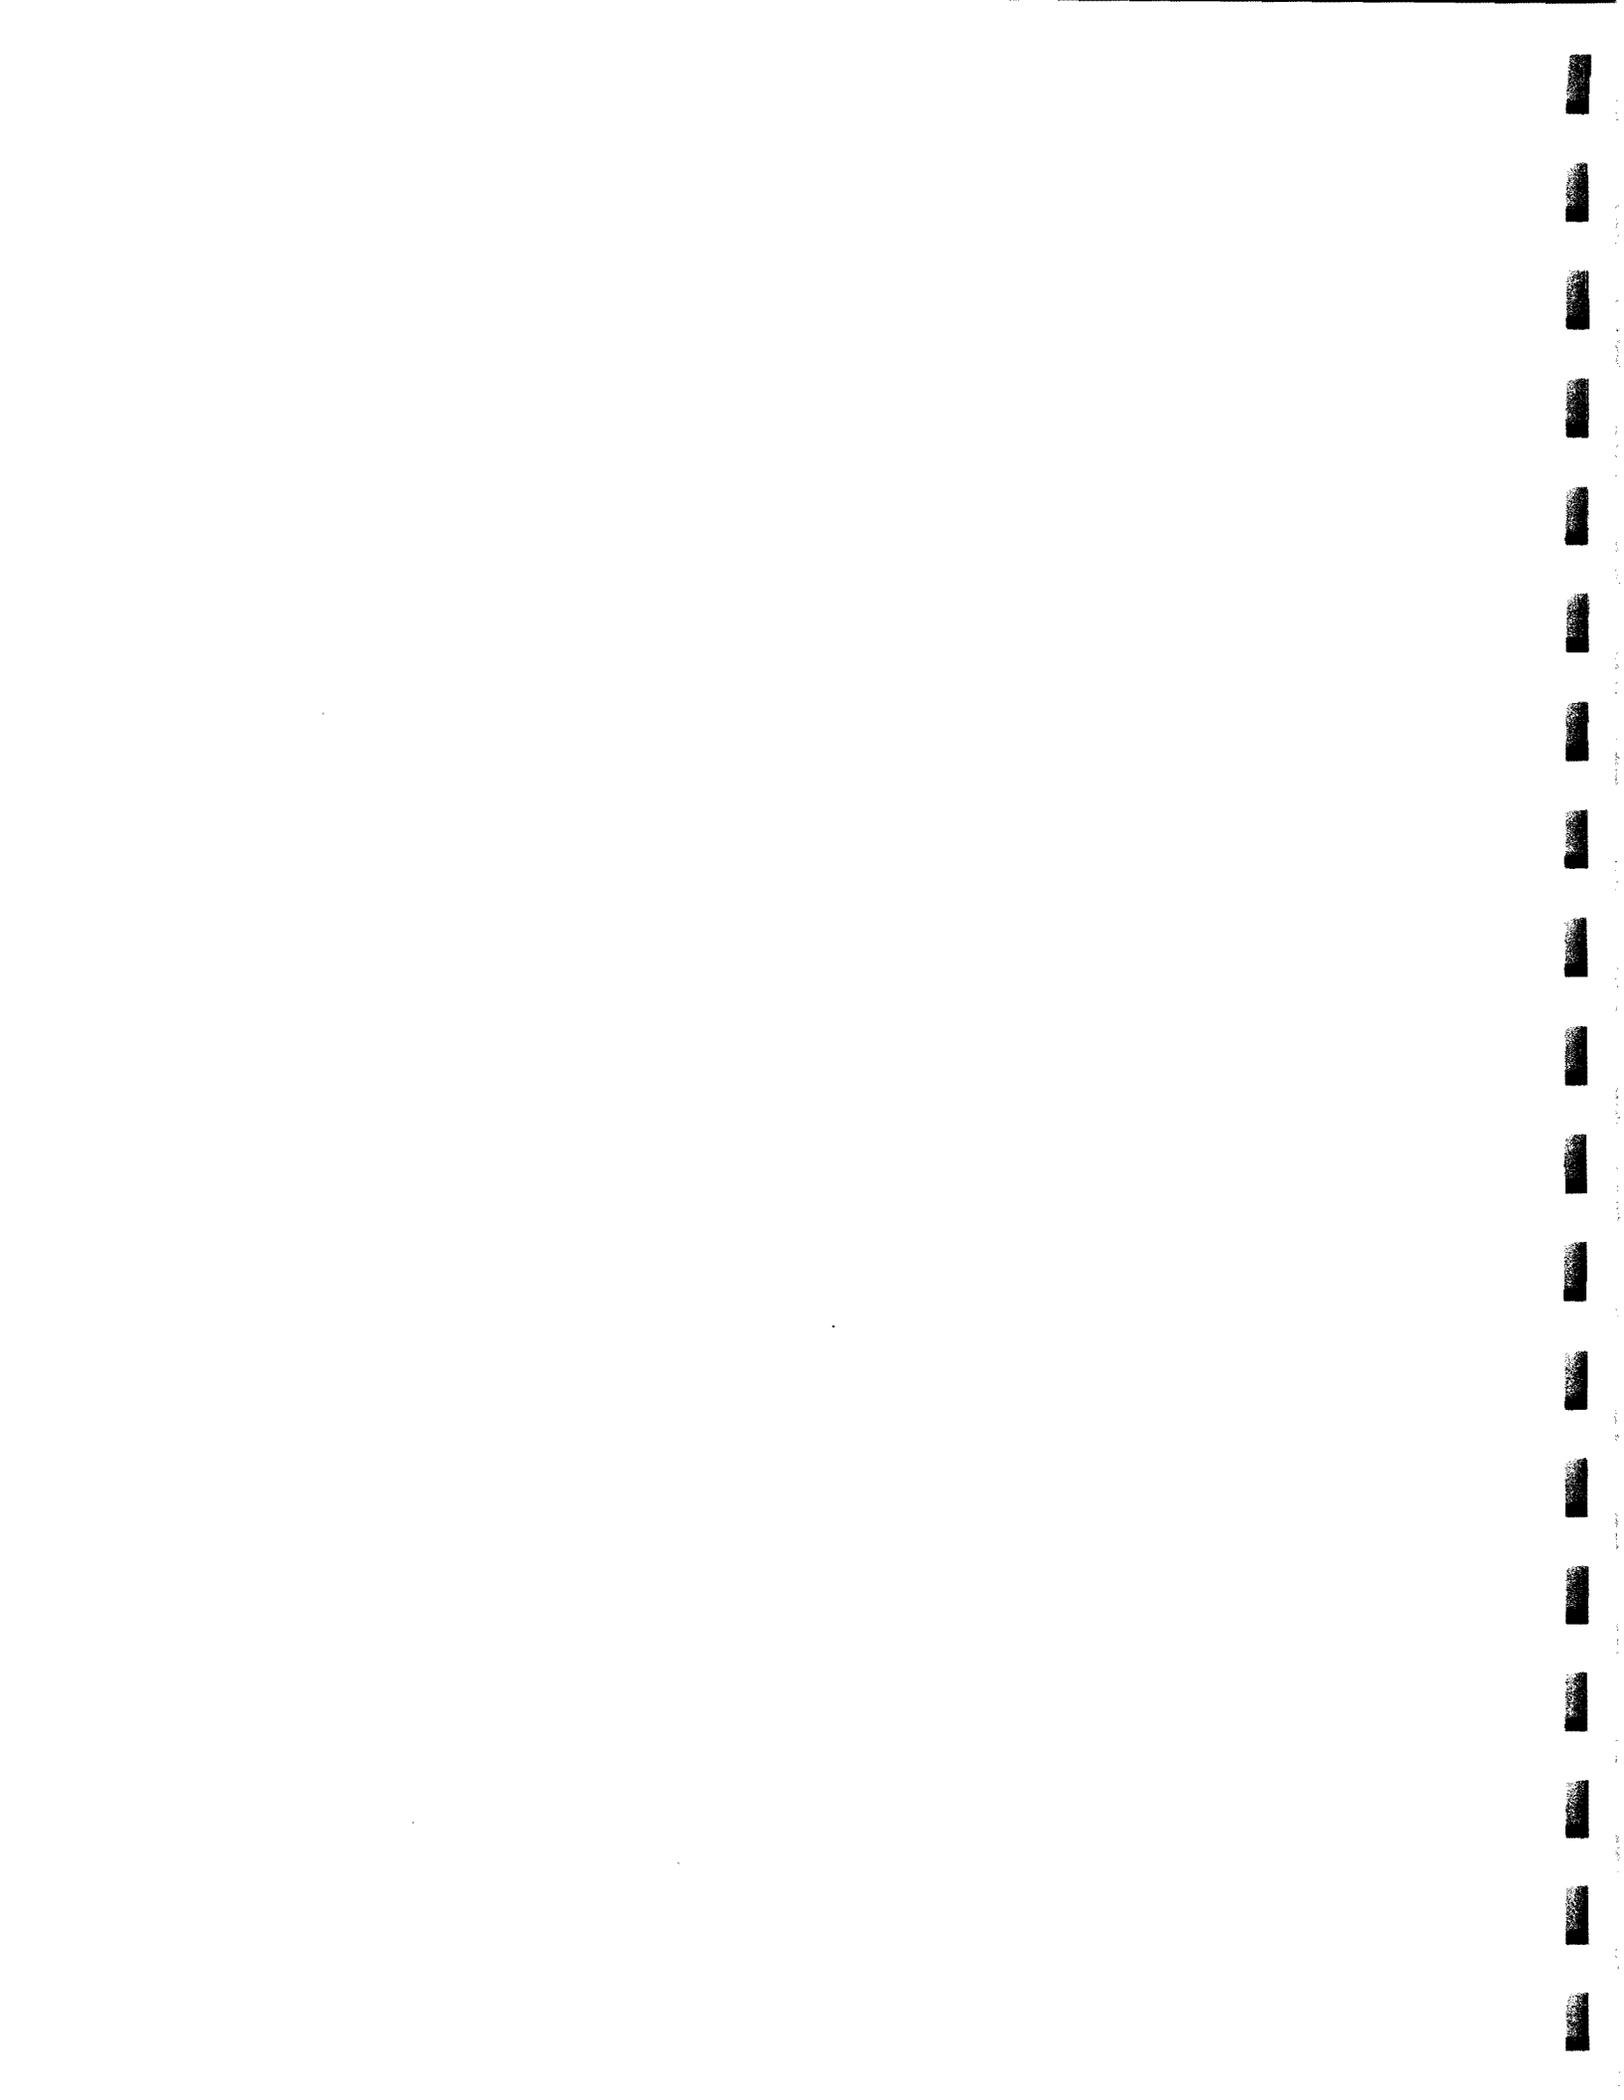

Capital Projects

In connection with the Capital Projects Funds, the City has budgeted certain commitments for engineering services, construction and other capital project costs. The projects are to be funded, in part, with State and Federal grants. The remainder of the required funds will be generated by local sources and insurance claim proceeds. The following is a summary of the budgeted commitment for capital projects at September 30, 2013:

Total commitment for general Capital Projects	<u>\$399,359,156</u>
Funding sources:	
Federal and State Grants	\$ 382,022,780
Bond Funds	7,208,684
Enterprise Funds	3,202,790
Insurance claim proceeds received	5,629,687
General Fund surplus and other future sources of funds to be provided	<u>1,295,215</u>
Total fund sources	<u>\$ 399,359,156</u>

Matching Funds – USM Advanced Education Center

In 1997, the City pledged its support and agreed to participate with the county and other cities in funding the local matching contribution for the construction of the Advanced Education Center at the USM Gulf Park campus. The City’s 20.5% portion of the annual debt service for the \$2,000,000 in bonds issued by Harrison County will be approximately \$40,000 annually through September 2016.

City of Biloxi, Mississippi
Notes to the Financial Statements
(Continued)

N. Forgiveness of Debt

The Federal Community Disaster Loan Act of 2005 authorized the Federal Emergency Management Agency to provide direct loans, Special Community Disaster Loans (SCDL), to local governments. The purpose of the loans was to provide operational funding to those governments that incurred a significant loss in revenue due to a presidentially declared disaster that has or will adversely affect their ability to provide essential services.

In December of 2005, in response to Hurricane Katrina, the City applied for and subsequently received in scheduled payments during 2006 and 2007 two of these type loans. The City's general Fund borrowed \$11,000,000 and the City's Water and Sewer Enterprise Fund borrowed \$2,787,113.

The Federal Accountability Appropriations Act of 2007, provided for the cancellation of the SCDL to local governments meeting the criteria in Section 417(c)(1) of the Safford Act (42 U.S.C. 5184). The City met such criteria, applied for and received cancellation of the loan taken out by the Water and Sewer Enterprise fund in the amount of \$2,787,113 plus any accrued interest. Therefore, \$3,085,487 was recognized as forgiveness of debt income in the Statement of Revenues, Expenses and Changes in Net Position, Proprietary Funds during 2010.

The Consolidated and Further Continuing Appropriations Act, 2013, provided for the cancellation of the SCDLs to local governments meeting using the following criteria:

- Exclude revenues for special districts and any other revenues that are required by law to be disbursed to other units of local government or used for specific purposes more limited than the scope allowed by the General Fund;
- Include disaster-related capital expenses for which the community has not been reimbursed by Federal or insurance proceeds, debt service expenses, and accrued but unpaid uncompensated absences (vacation and sick pay); and
- Consider all interfund transfers. For calculation purposes, use a period of 3, 5, or 7 full fiscal years after the disaster.

The City experienced a \$19,782,750 cumulative operating deficit, which exceeded the \$11,000,000 loan amount drawn, during the three year period following the disaster and was attributed to disaster related revenue losses and/or unreimbursed disaster related expenses. Since the City met the criteria, the City applied for and received cancellation of the loan taken out by the General Fund in the amount of \$11,000,000 plus accrued interest totaling \$2,053,391. Therefore, \$12,053,391 was recognized as forgiveness of debt income in the Statement of Activities during 2013.

City of Biloxi, Mississippi
Notes to the Financial Statements

O. Subsequent Events

On October 8, 2013, the City Council approved the resolution authorizing and directing the issuance of Taxable General Obligation Bonds, Series 2013, of the City of Biloxi, Mississippi, in the principal amount not to exceed \$21,000,000, to provide funds for the purpose of erecting athletic stadiums, repairing and equipping athletic fields and purchasing buildings or land therefore, and for repairing, improving, adorning and equipping the same; constructing, improving or paving streets, sidewalks, driveways, parkways, walkways or parking facilities and purchasing land therefore; and related purposes.

In December 2013 the City issued General Obligation Bonds, Series 2014, of the City of Biloxi, Mississippi, dated January 1, 2014, in the principal amount of \$14,000,000, to provide funds for the purpose of constructing, improving or paving streets, sidewalks, driveways, parkways, walkways or public parking facilities, and purchasing land therefore; establishing sanitary, storm, drainage or sewerage systems, and repairing, improving and extending same; and for related purposes.

Management has evaluated subsequent events through June 2, 2014, the date on which the financial statements were available to be issued.

Section III
Statistical Section

This part of the City of Biloxi's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Schedules of:	Page
Financial Trends These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	85
Revenue Capacity These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	90
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	93
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	98
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	100

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) For fiscal year ended June 30, 2006, the State changed its methodology for applying GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions to individual income taxes. The State now reports an estimate of underpayments of individual income taxes. The State also changed its method to estimate overpayments of individual income taxes (i.e., income tax refunds payable and applied refunds). For the purpose of reporting underpayments, the availability period for the General Fund individual income taxes was extended from thirty-one days to twelve months after year-end. Where the underpayments exceed overpayments, individual income tax revenues are recognized to the extent of estimated overpayments (i.e., income tax refunds payable and applied refunds).

(2) For the fiscal year ended June 30, 2011, GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions, was implemented. Fiscal years prior to 2011 have not been restated.

Ad valorem taxes on real property are collected in arrears for each calendar year. The tax is levied in September of the tax year on all property on the tax roll as of January 1 of the same year. Consequently, ad valorem tax is collected in the fiscal year ending in the calendar year subsequent to the calendar year for which the tax is assessed.

City of Biloxi
Notes to Schedule of Expenditures of Federal Awards
Year Ended September 30, 2013

Note A – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the city of Biloxi, Mississippi under programs of the federal government for the year ended September 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of The City of Biloxi, Mississippi, it is not intended to and does not present the financial position, results of operations and cash flows of The City of Biloxi, Mississippi.

Note B – Summary of Significant Accounting Policies

1. General

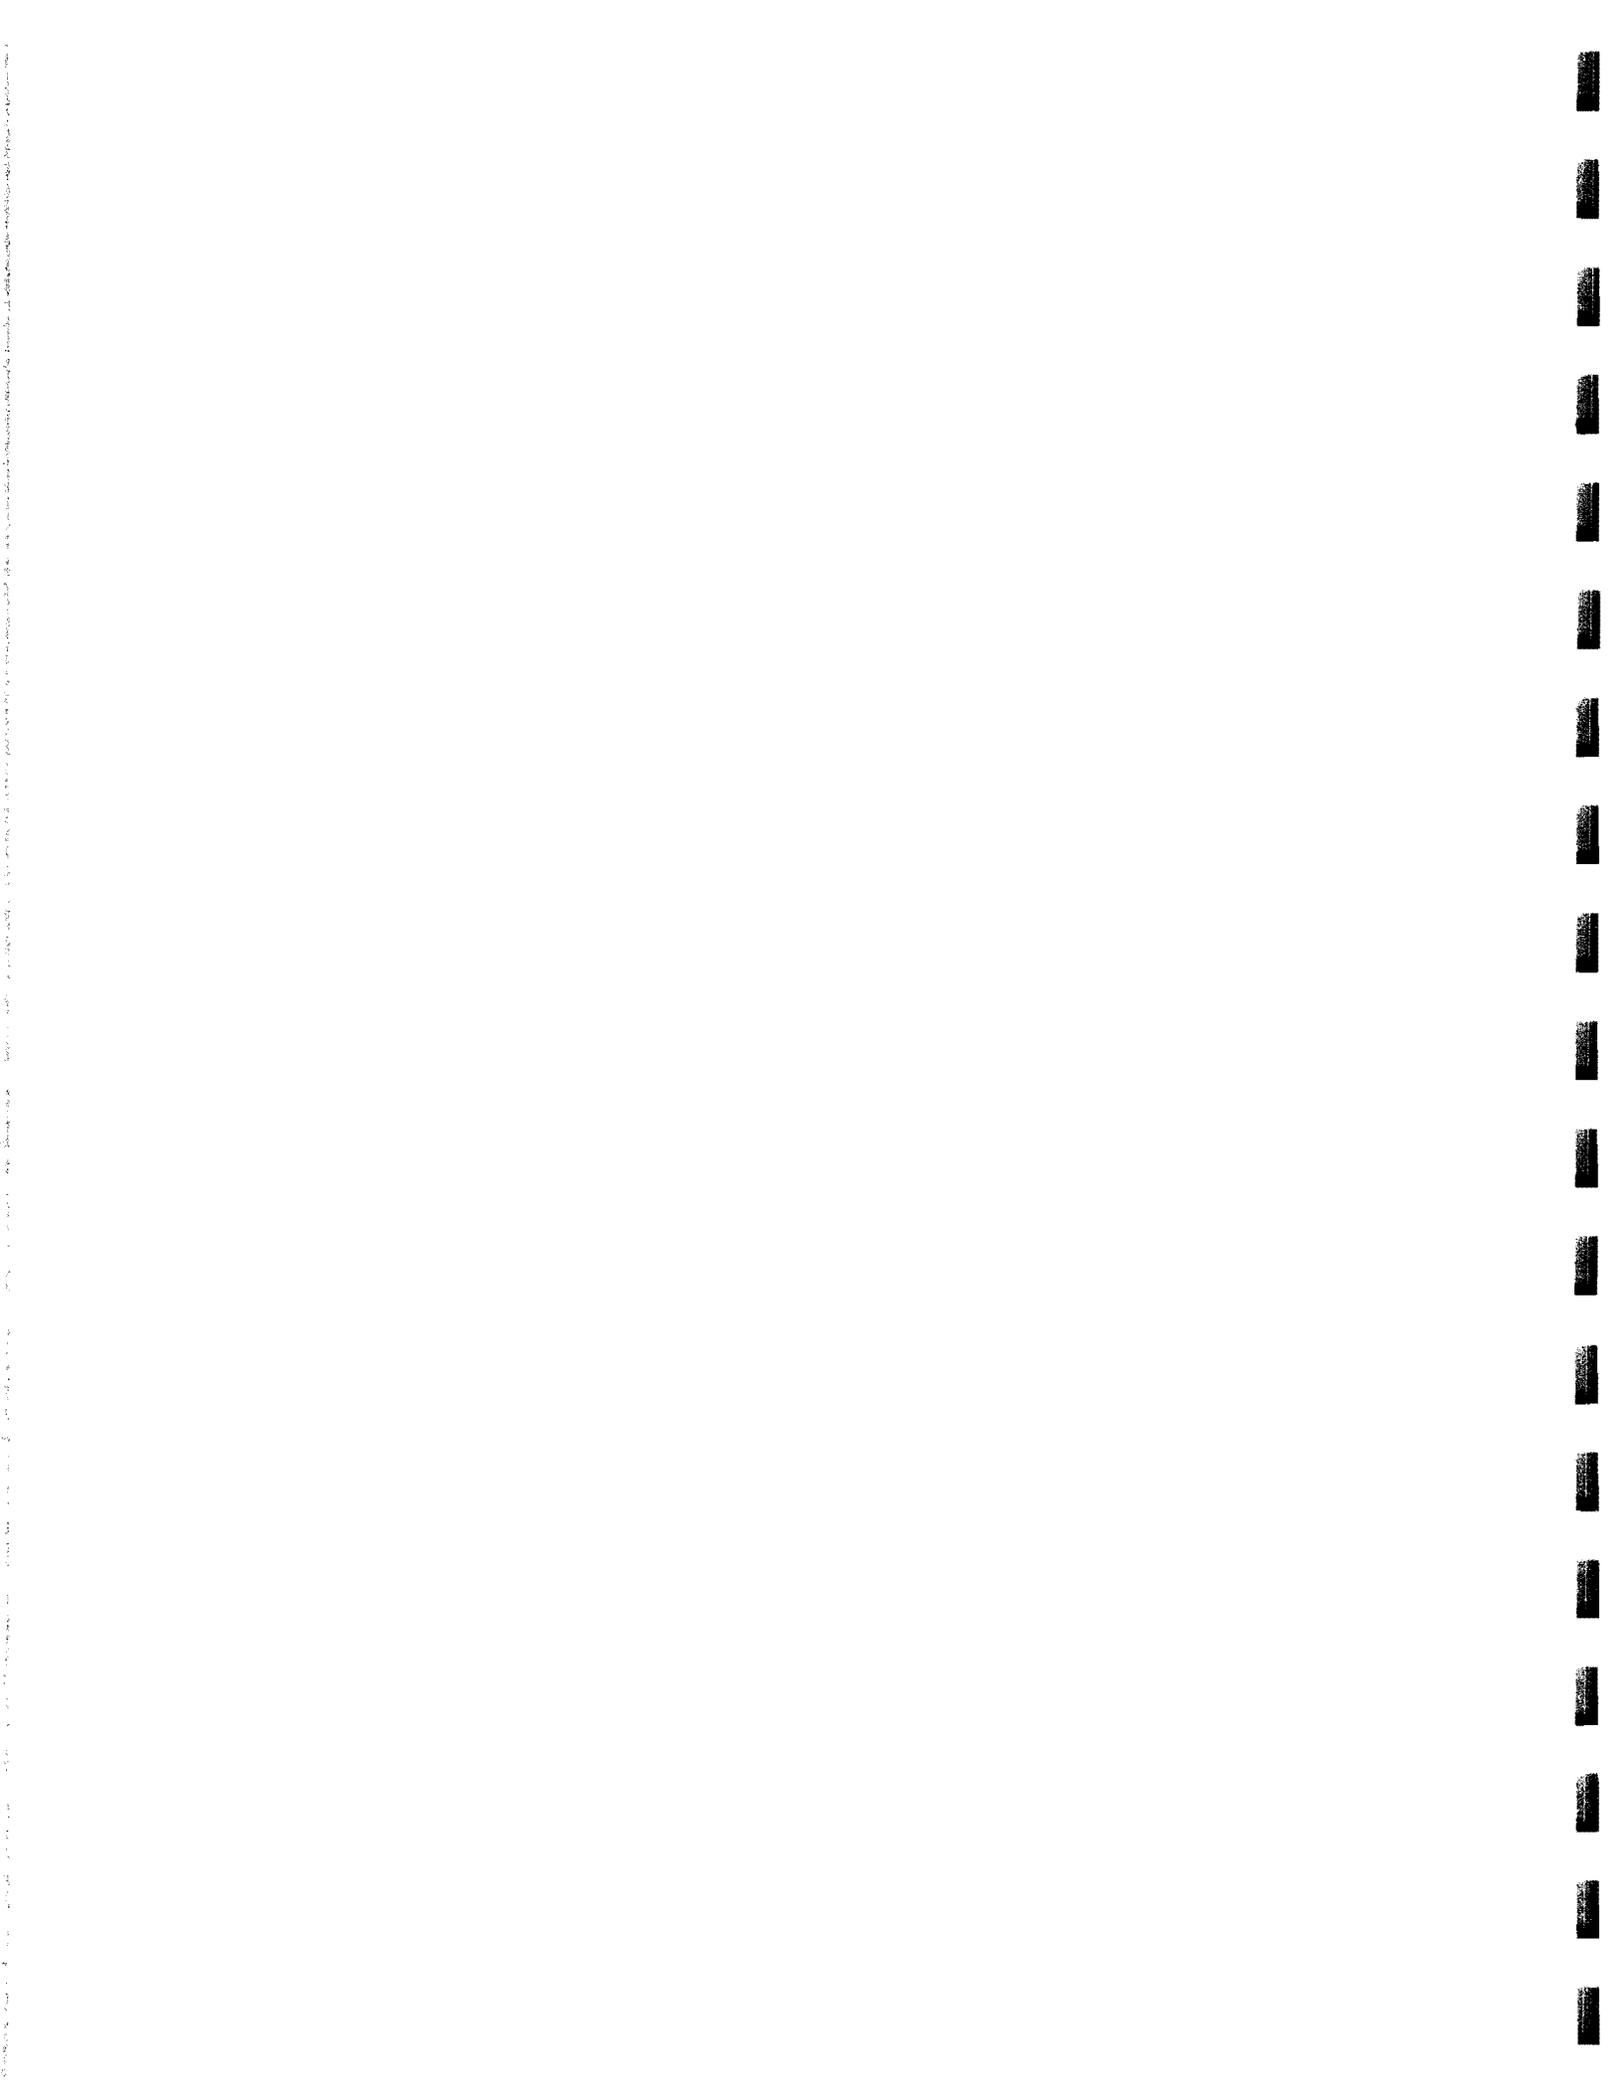

The Schedule of Expenditures of Federal Awards has been prepared using the accrual basis of accounting. The accrual basis of accounting recognizes revenues when they are earned and expenditures when they are incurred. The expenditures are recognized following the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local and Indian Tribal Governments*.

2. Contingency

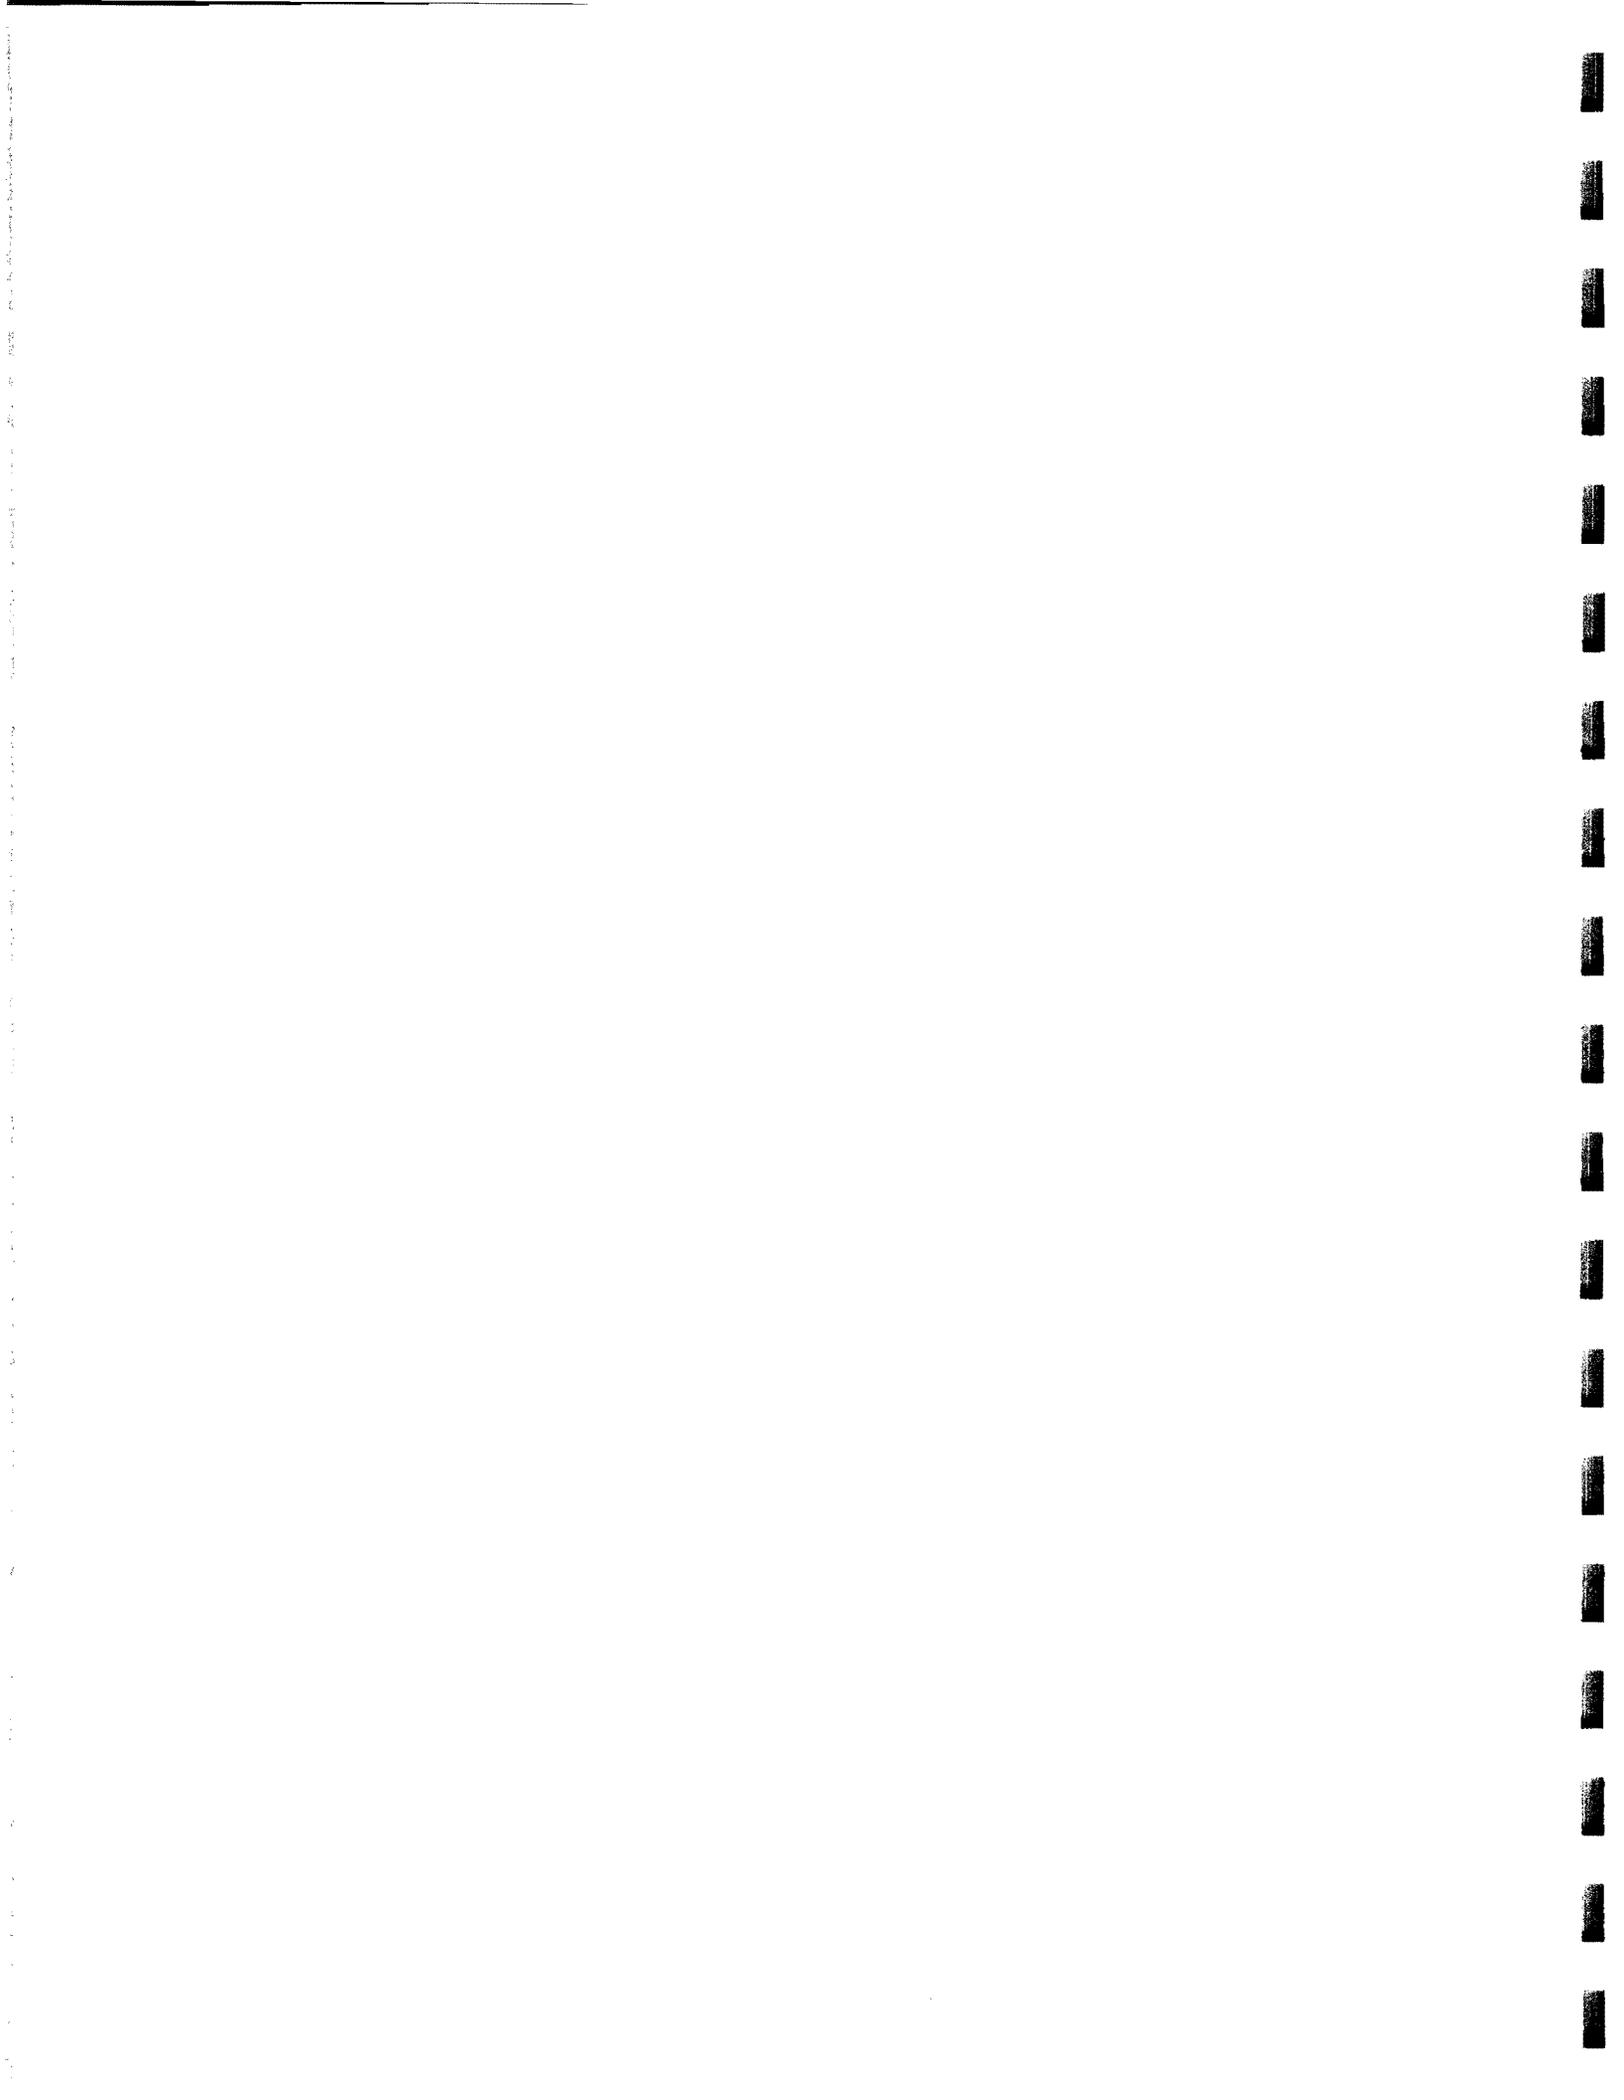

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by the grantor agency as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability to the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal laws and regulations.

3. Loan and Loan Guarantees

In accordance with OMB Circular A-133, loans and loan guarantees include new loans made during the year, plus prior year loans for which the federal government imposes continuing compliance requirements.

**Independent Auditors' Report on Internal Control over
Financial Reporting on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

To the City Council
City of Biloxi, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Biloxi, Mississippi, as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise City of Biloxi, Mississippi's basic financial statements, and have issued our report thereon dated June 2, 2014.

Internal Control over Financial Reporting

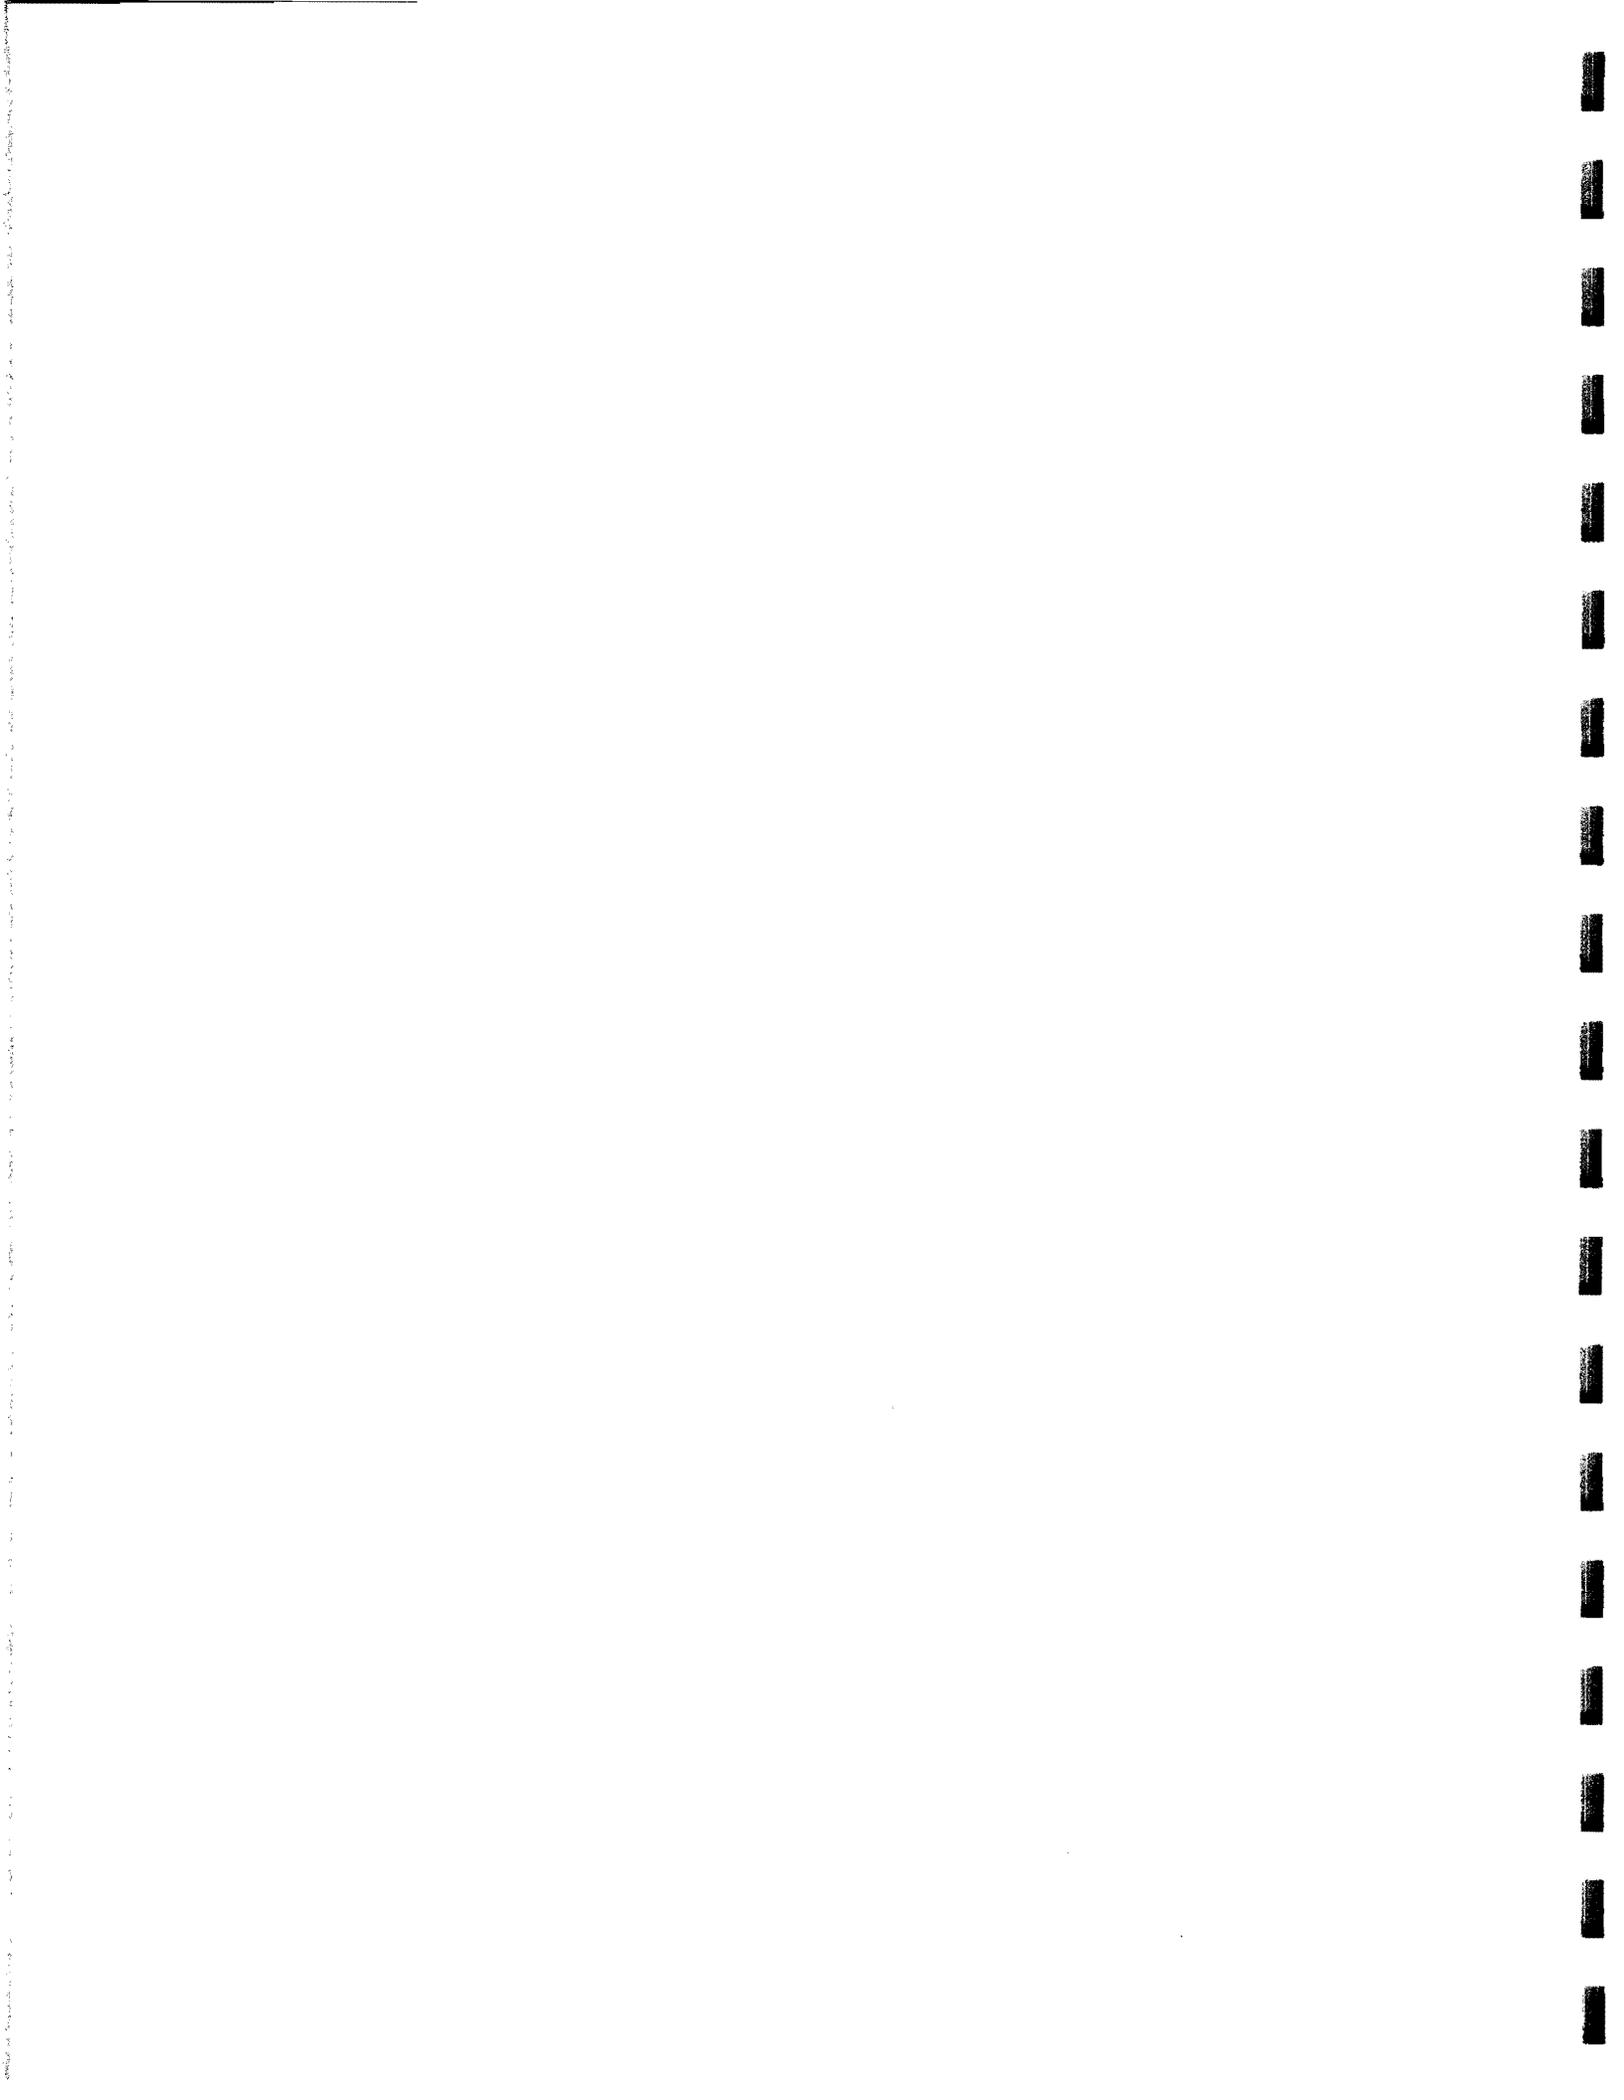

In planning and performing our audit of the financial statements, we considered City of Biloxi, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Biloxi, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Biloxi, Mississippi's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

RECEIVED

SEP 02 2014

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Biloxi, Mississippi's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

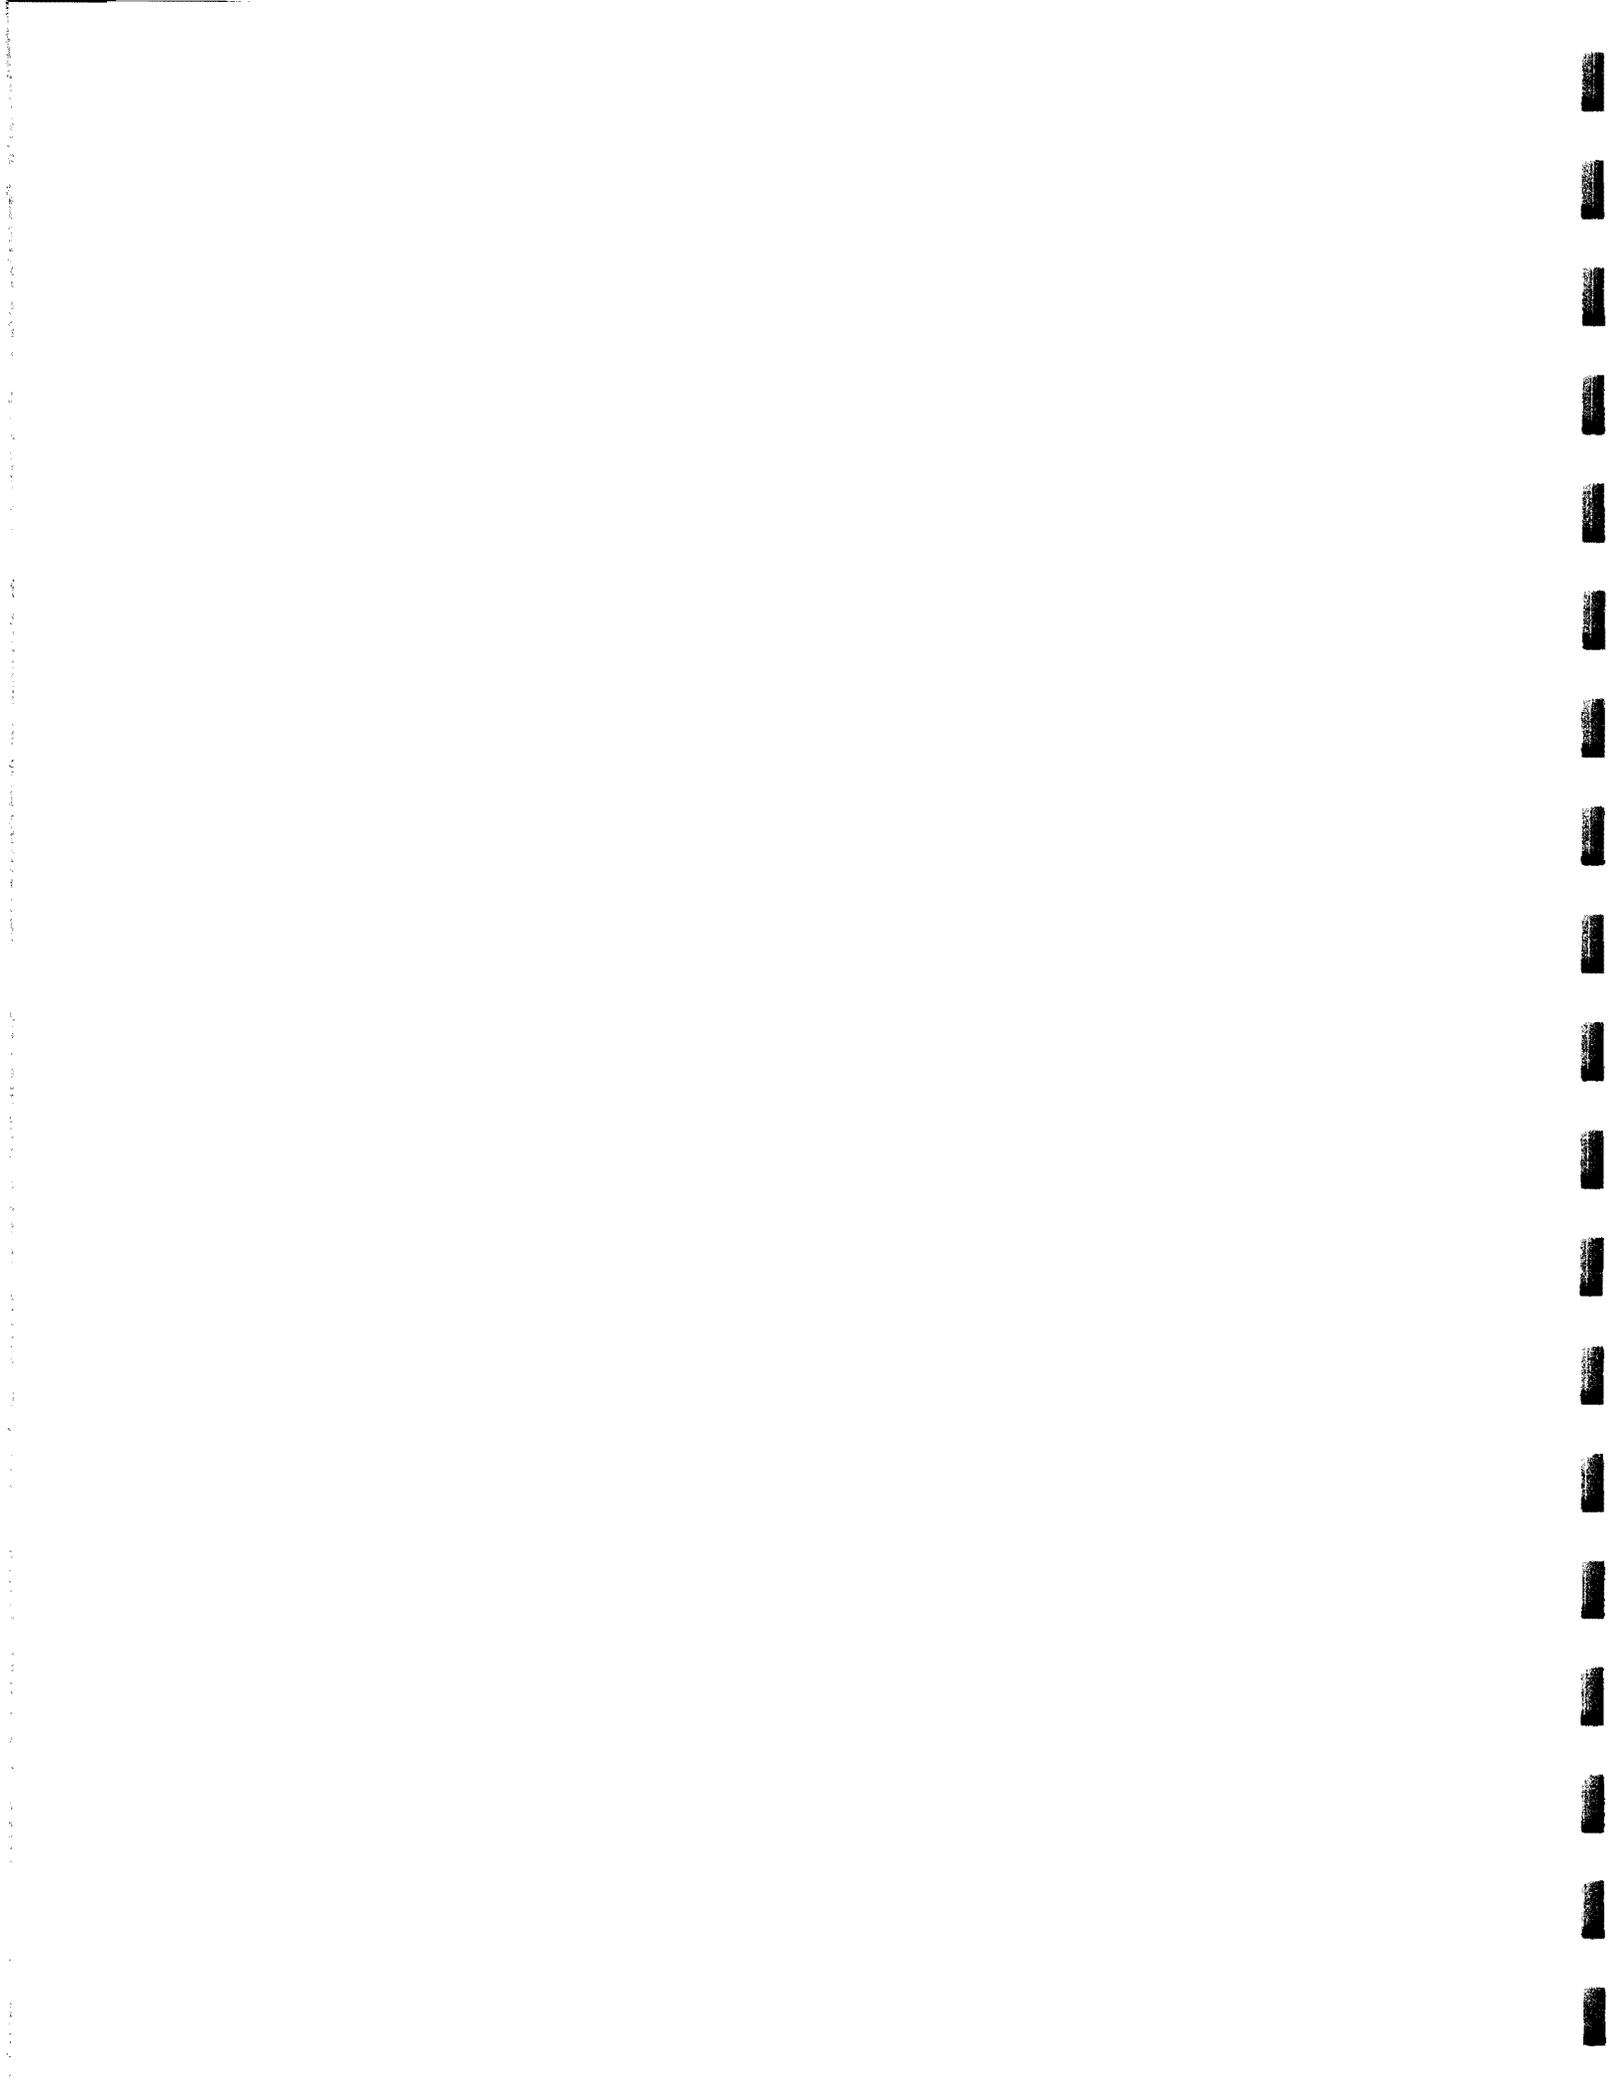

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RECEIVED

SEP 02 2014

**Independent Auditors' Report on Compliance for Each
Major Program and on Internal Control over
Compliance Required by OMB Circular A-133**

To the City Council
City of Biloxi, Mississippi

Report on Compliance for Each Major Federal Program

We have audited City of Biloxi, Mississippi's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Biloxi, Mississippi's major federal programs for the year ended September 30, 2013. City of Biloxi, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

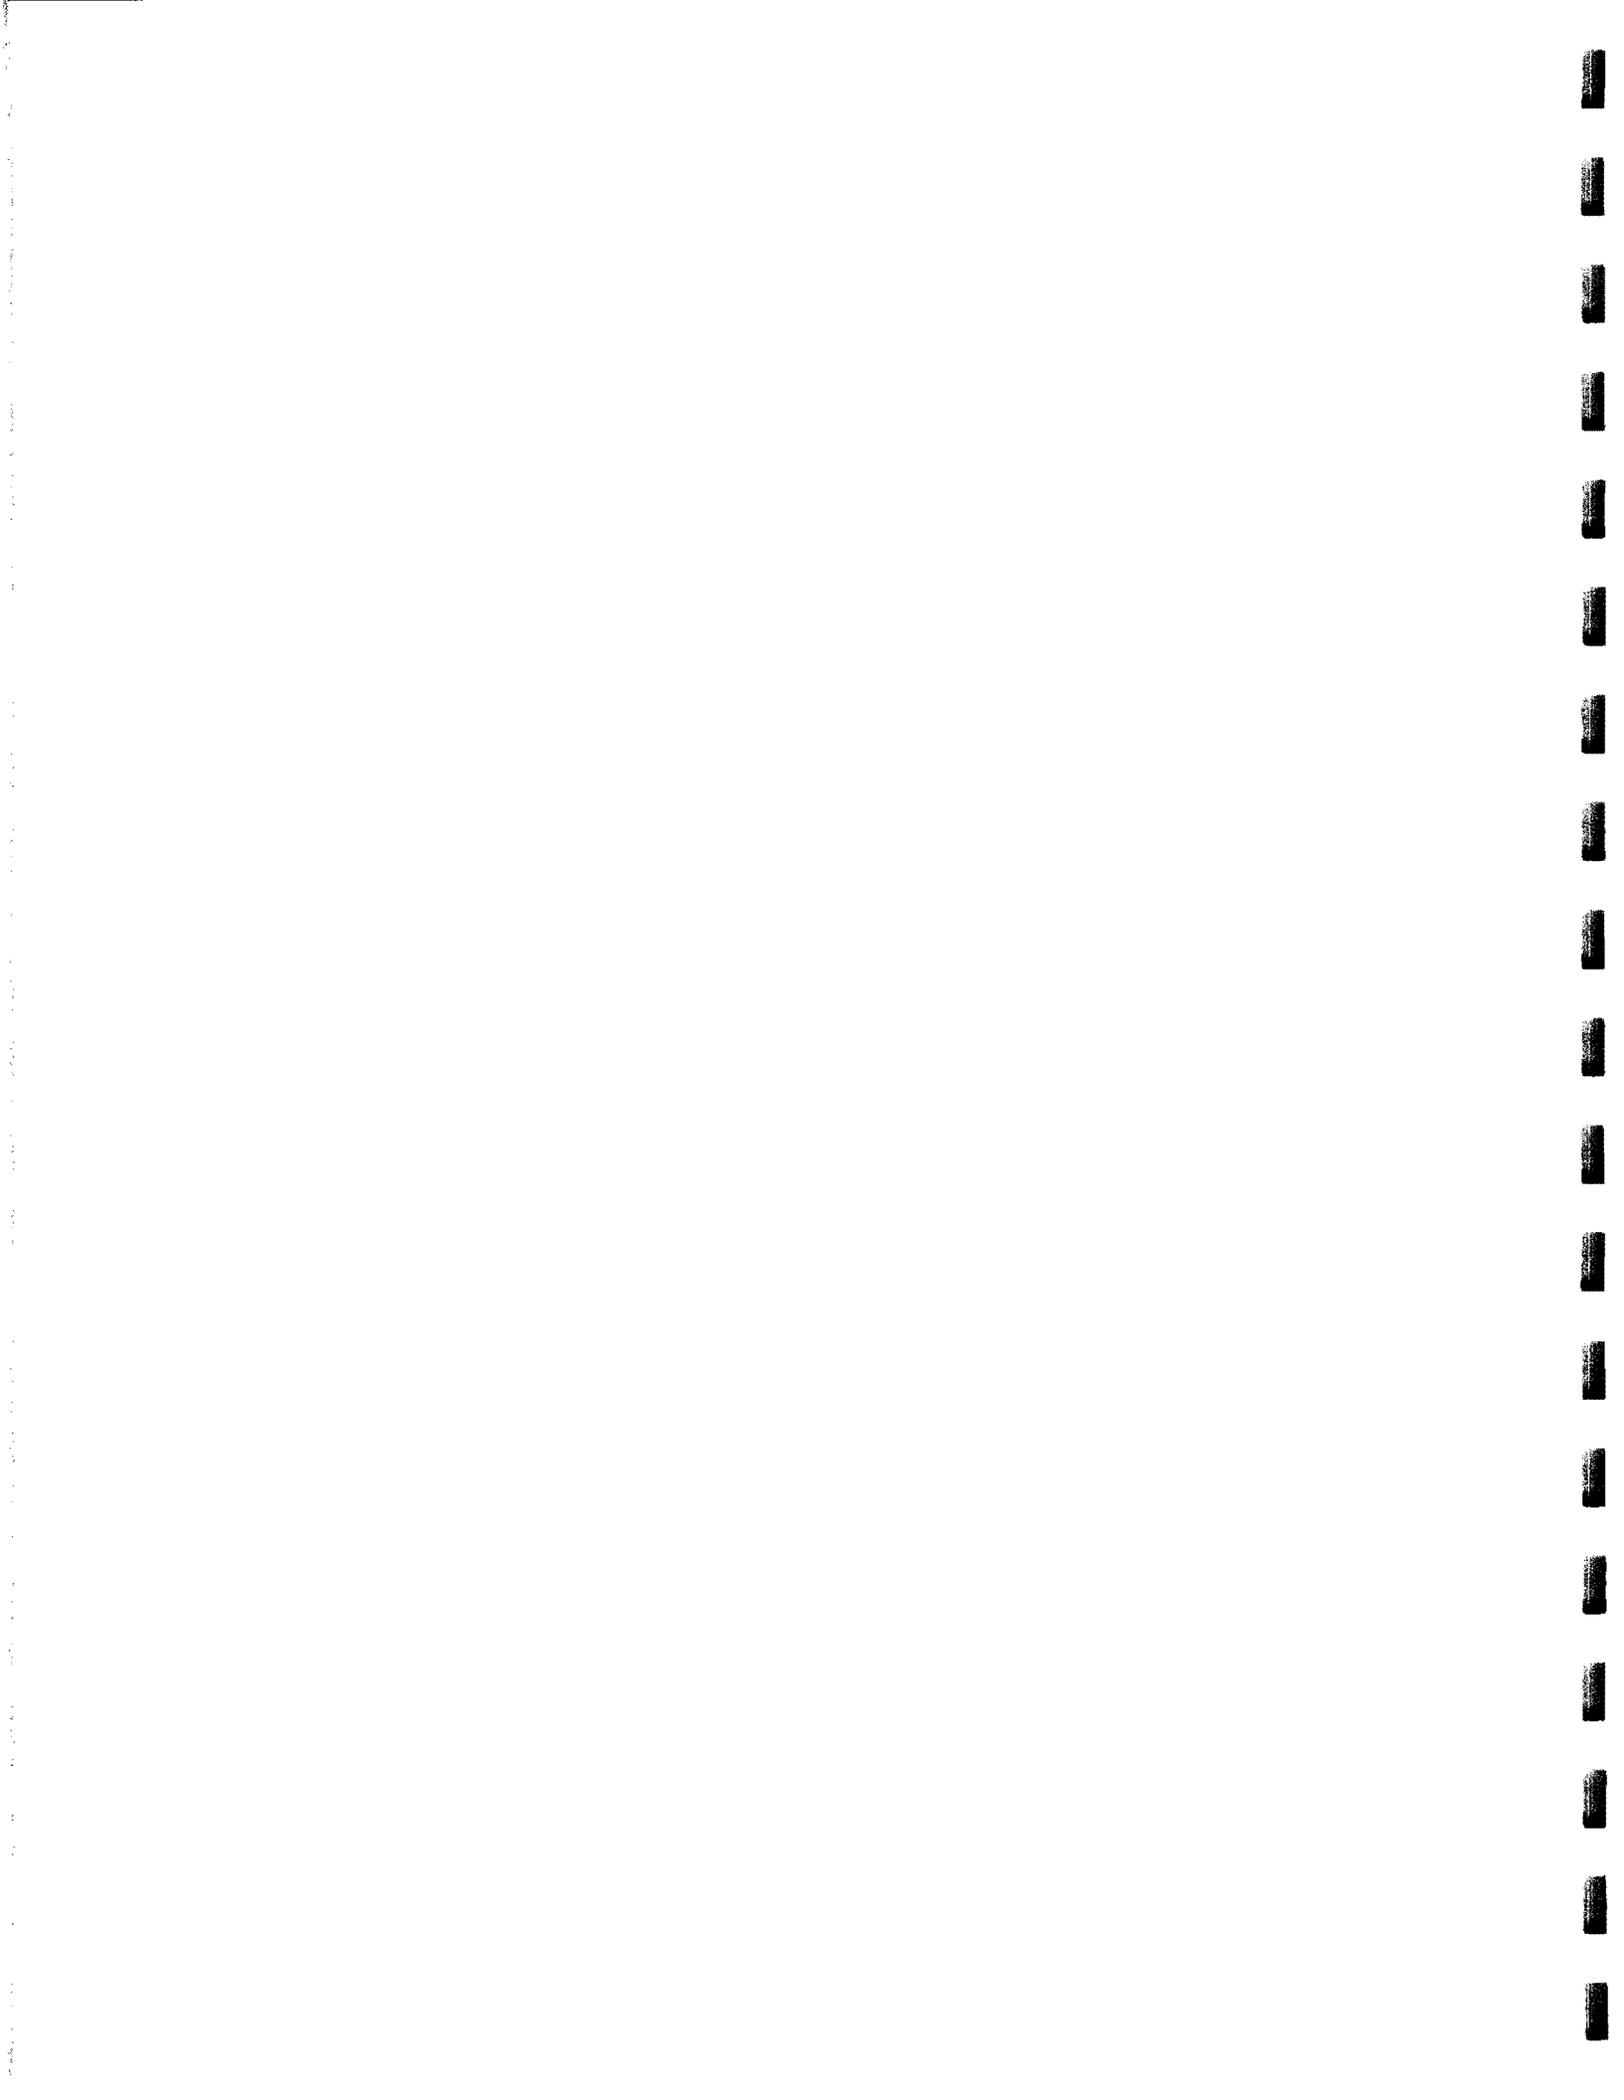

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Biloxi, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Biloxi, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Biloxi, Mississippi's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Biloxi, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2013.

Report on Internal Control Over Compliance

Management of City of Biloxi, Mississippi, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Biloxi, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Biloxi, Mississippi's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
