TOWN OF KILMICHAEL, MISSISSIPPI
Notes to Financial Statement

Note 1: Summary of Significant Accounting Policies

Reporting Entity

The financial statement of the Town consists of all the funds of the Town.

The Citizens of Kilmichael have elected to operate under a Code Charter as permitted by Mississippi Statute 21-3-3, which prescribes a Mayor and Board of Aldermen form of government.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in accounting principles generally accepted in the United States of America. The basic - but not only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financial relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no includable or excludable potential component units.

Fund Accounting

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statement in this report, into three generic fund types and two broad fund categories as follows:

Governmental Funds:

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

TOWN OF KILMICHAEL, MISSISSIPPI
Notes to Financial Statement

Note 1: Summary of Significant Accounting Policies (Continued):

Governmental Funds (Continued):

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of general long-term debt principal, interest, and related costs. The Street Bond Debt Fund comprises the Debt Service Fund.

Capital Project Fund - The Capital Project Fund is used to account for financial resources to be used for the acquisition or construction of major capital projects and facilities.

Proprietary Funds:

Enterprise Funds - Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through use charges; or (b) where the governing body had decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The Enterprise Funds are the Water and Sewer Fund and the Natural Gas Fund.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The Town uses the cash basis of accounting as prescribed by the Mississippi Office of the State Auditor.

In the fund financial statements, governmental, and business-like activities are presented using a cash basis of accounting. This basis recognizes assets, liabilities, net-assets/fund equity, revenues and expenditures/expenses when they result from cash transactions with a provision for depreciation in the proprietary fund statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

If the town utilized accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

TOWN OF KILMICHAEL, MISSISSIPPI
Notes to Financial Statement

Note 1: Summary of Significant Accounting Policies (Continued):

Basis of Accounting (Continued):

Under the modified accrual basis revenues are recognized when measurable and available. Measurable means, being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

Under the accrual basis revenues are recognized when earned. Expenses (including depreciation and amortization) are recorded when the liability is incurred or the economic asset is used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Note 2: Report Classifications

Receipts and disbursements were classified according to requirements for small towns in the State of Mississippi as prescribed by the Office of the State Auditor.

**Report on Compliance with
State Laws and Regulations**

Honorable Mayor and Board of Aldermen
Town of Kilmichael
Kilmichael, Mississippi

We have compiled the accompanying Statement of Cash Receipts and Disbursements (All Funds), Schedule of Investments (All Funds), Schedule of Long-Term Debt (All Funds) and Schedule of Surety Bonds for Town Officials of the Town of Kilmichael, Mississippi, for the year ended September 30, 2015, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The financial statement has been prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America.

We have performed procedures to test compliance with certain state laws and regulations as described in the Municipal Compliance Questionnaire that is prescribed by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the town's compliance with these requirements. Accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures and our compilation of the accompanying Statement of Cash Receipts and Disbursements (All Funds), Schedule of Investments (All Funds), Schedule of Long-Term Debt (All Funds) and Schedule of Surety Bonds for Town Officials of the Town of Kilmichael, Mississippi, for the year ended September 30, 2015, disclosed no instances of noncompliance with state laws and regulations.

This report is intended solely for the information and use of management and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
