INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the
Board of Alderpersons
Poplarville, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poplarville, Mississippi, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City of Poplarville, Mississippi's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City of Poplarville, Mississippi's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the

financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poplarville, Mississippi, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 5 through 12, budgetary comparison information on pages 58 through 65, and pension plan information on pages 66 through 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Honorable Mayor and Members of the
Board of Alderpersons
Poplarville, Mississippi

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Poplarville, Mississippi's basic financial statements. The list of City Officials, Schedule Reconciling Original Ad Valorem Tax Rolls to Fund Collections (Schedule 4), and Schedule of Surety Bonds for City Officials (Schedule 5) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Schedule 4 and Schedule 5 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedule 4 and Schedule 5 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The list of City Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 13, 2020 on our consideration of the City of Poplarville, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Poplarville, Mississippi's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

Year Ended September 30, 2019

Introduction

The following Management's Discussion and Analysis of the City of Poplarville, Mississippi's (the "City") activities and financial performance provides an introduction to the financial statements of the City for the fiscal year ended September 30, 2019. The information contained in the Management's Discussion and Analysis has been prepared by management and should be considered in conjunction with the financial statements and the notes thereto, which follow this section.

The components of the annual financial report include:

- Management's Discussion and Analysis (MD&A)
- Basic Financial Statements
- Required Supplementary Information (RSI)
- Supplementary Information

The MD&A, a component of RSI, introduces the basic financial statements and provides an analytical overview of the City's financial activities.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at September 30, 2019 by \$4,618,446.
- The total net position increased by \$88,523. Of this amount, an increase of \$186,495 was associated with governmental activities and a decrease of \$97,972 was from business-type activities.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$3,686,314, an increase of \$1,574,211 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the governmental funds was \$2,490,803, which would cover approximately six months of expenditures.

Overview of the Financial Statements

The City's basic financial statements are comprised of the following elements:

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, court, public safety, highways and streets, public works and culture and recreation. The business-type activities of the City are comprised of water operations.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting not only to ensure and demonstrate compliance with finance-related legal requirements, but also to help control and manage money for particular purposes or to show it is meeting legal responsibilities for using certain taxes, grants, and other money. All of the funds of the City can be divided into two categories:

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The City maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Series 2019 Bond Projects Fund, which are both considered to be major funds.

Proprietary Funds

The City maintains one type of proprietary fund for water operations. Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Information for this fund is presented in the statement of net position; the statement of revenues, expenses and changes in net position; and the statement of cash flows.

Notes to the Financial Statements

Notes to the financial statements provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements.

Refer to Note 1 in the financial statements for more detailed information on the elements of the financial statements.

At September 30, 2019 and 2018, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$4,618,446 and \$4,529,923, respectively. By far, the largest portion of the City's net position reflects its investment in capital assets, less any related debt used to acquire or construct those assets. The City uses these capital assets to provide services to the citizens and businesses in the City; consequently, these net positions are not available for future spending. A portion of the net position is restricted to comply with debt covenants on water and sewer revenue bonds, funds set aside to cover future unemployment claims against the City, capital projects, and drug seizure funds remitted to the City to be used to purchase law enforcement equipment. The remaining portion of net position is unrestricted, which can be used to finance government operations.

Total liabilities increased by \$1,627,127 due largely to the change in bonds payable (see Note 5 for details related to the bonds payable liability).

Due to the recording of the net pension liability accrual, governmental activities reflect a deficit balance in unrestricted net position of \$347,336 at September 30, 2019. This is a \$223,021 decrease from prior year's deficit balance in unrestricted net position of \$570,357.

Business-type activities reflect an unrestricted net position of \$420,902 at September 30, 2019, a decrease of \$74,762 over prior year's unrestricted net position of \$495,664.

Table 2 on the next page presents the City's condensed statements of activities for the fiscal years ended September 30, 2019 and 2018, as derived from the government-wide statements of activities.

Governmental Activities

Governmental activities increased the City's net position by \$186,495 due to an increase in program revenues, general revenues, and transfers.

Business-type Activities

Business-type activities decreased the City's net position by \$97,972.

(This Space Intentionally Left Blank)

Financial Analysis of the City's Funds

Governmental Funds

As of the close of the fiscal year, the City's governmental funds reported a combined ending fund balance of \$3,686,314.

General Fund - Fund balance at September 30, 2019 totaled \$2,553,112, an increase of \$478,005 during the fiscal year in comparison to a \$293,577 increase in fiscal year 2018. This fluctuation in fund balance was attributable to the issuance of long-term capital debt. Significant changes in revenues and expenses in comparison to fiscal year 2018 are as follows:

- General funds revenues grew in total by a net amount of \$186,690 (7%) primarily due to a \$208,769 (27%) increase in sales tax revenue.
- In fiscal year 2019, property tax increased by \$23,084 (2%), and sales tax revenues increased by \$208,769 (27%). The increase in sales tax revenue resulted from the construction and opening of a new shopping center.
- In total, general fund expenditures decreased by \$198,677 (8%) from \$2,556,210 in fiscal year 2018 to \$2,357,533 in fiscal year 2019. This decrease was primarily attributable to the closeout of two large projects in 2018 which was partially offset by the following expenditures incurred:
 - There were unexpected expenditures in the Police Department of \$25,896 for the purchase of a new police cruiser, \$14,394 for the purchase of in-office computer hardware and software, \$29,770 for the purchase of tasers, dash camera and body camera equipment, and \$1,627 for the purchase of a security system for the building.
 - There were unexpected expenditures in the Fire Department of \$17,424 in truck repairs.
 - There was an unexpected expenditure of \$14,725 on exterior repairs to the library building.
 - Investment earnings of \$30,960 in fiscal year 2018 increased to \$77,715 in fiscal year 2019 due to an increase in the rates paid on the City's funds held in financial institutions.
 - There was \$50,415 spent to complete the construction of a new Public Works Facility.

Capital Projects Fund -The capital projects fund had a fund balance of \$1,333,202 at September 30, 2019. This fund was established to capture the proceeds and expenses associated with the issuance of the Series 2019 Bonds.

Proprietary Fund

The City's proprietary fund, the Water Fund, reported net position of \$1,225,956 a decrease of \$97,972 during the fiscal year in comparison to a \$58,111 decrease in the prior fiscal year. Significant expenditures incurred in comparison to fiscal year 2018 are as follows:

- There were unexpected expenditures of \$22,980 for the relocation of a water main.
- There was an unexpected expenditure of \$20,945 to purchase a new pickup truck.
- There was an unexpected expenditure of \$13,095 to purchase a lawn mower.
- There was \$41,321 spent to complete the construction of a new Public Works Facility.

Budget Variances in the General Fund

Budget amendments are primarily related to various Police Department projects. All significant differences in the original budget and the final amended budget are summarized as follows:

- Police Department purchases of \$25,896 for the purchase of a new car, \$14,394 for the purchase of in-office computer hardware and software, \$29,770 for the purchase of tasers, dash camera and body camera equipment, and \$1,627 for the purchase of a security system for the building.

The City ended the year with an overall positive variance between the budget and actual by \$500,112 due to responsible budget management and an increase in revenue above the initial forecast.

Capital Asset and Long-Term Debt Activity

Capital Asset Activity

At September 30, 2019, the City reported \$4,025,218 in net capital assets for governmental activities and \$1,328,735 in capital assets for business-type activities. Major capital asset events during the year included the following:

- The City incurred expenditures of \$61,786 to complete the construction of a new Public Works Facility building (\$30,893 from General Fund and \$30,893 from Water Fund activities).
- The City used grant funds to purchase \$54,116 of fitness equipment for the City Park.

Additional information on the City's capital assets can be found in Note 4 to the financial statements.

Long-Term Debt Activity

At the end of the current fiscal year, the City had \$1,548,530 in outstanding governmental debt and \$534,289 in outstanding proprietary debt. Refer to Note 5 to the financial statements for additional information on the City's long-term debt and other liabilities.

Pursuant to the provisions of Governmental Accounting Standards Board Statements No. 68 - *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, the City of Poplarville recorded approximately \$3.5 million in pension liabilities for the defined benefit plans administered by the State of Mississippi's Public Employees' Retirement System for fiscal year ended September 30, 2019. The \$3.5 million is the City's proportionate share of the total net pension liability of the State of Mississippi's Public Employees' Retirement System. See Note 8 to the financial statements for further information.

(This Space Intentionally Left Blank)

Economic Conditions and Outlook

Assessed values of properties slightly increased in 2019 and, therefore, the City expects a slight increase in property tax revenue.

In 2020, the City is expected to issue Tax Increment Financing (TIF) Bonds related to the new College Square Park shopping center development.

The City has issued \$1,300,000 in General Obligation Bonds to be used for street repairs and paving to be completed by FYE 2020.

The City is actively pursuing grant funding and other funding sources which will be used to fund City projects as allowable by the grant agreements.

PAGE 1 OF 2

CITY OF POPLARVILLE, MISSISSIPPI

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
Year Ended September 30, 2019**

Net change in fund balances - total governmental funds (Exhibit D) \$ 1,574,211

Amounts reported for governmental activities in the Statement of Activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net position differs from the change in fund balances by the amount by which depreciation of \$239,088 in the current period did not exceed capital outlays (which exceed the capitalization thresholds) of \$281,089. 42,001

Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the loss on the sale of net assets. Thus, the change in net position differs from the change in fund balance by the cost of the asset sold. (8,051)

Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. (54,316)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Thus, the change in net position differs from the change in fund balances by the amount of debt repayments. This is the amount by which proceeds (\$1,330,893) exceeded repayments (\$36,628). (1,294,265)

Pension expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Also, governmental funds report current pension contribution expenses, whereas these amounts are deferred and amortized in the Statement of Activities as follows:

Recognition of pension expense for the current period	(223,110)
Recognition of contributions made during the year	148,081

CITY OF POPLARVILLE, MISSISSIPPI

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
Year Ended September 30, 2019**

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. Thus, the change in net position differs from the change in fund balances by the following:

Change in compensated absences	\$ 1,944
Change in <i>net position</i> of governmental activities (Exhibit B)	\$ 186,495

NOTES TO FINANCIAL STATEMENTS

CITY OF POPLARVILLE, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED SEPTEMBER 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Introduction

The City of Poplarville, Mississippi (City), incorporated in 1876 under the laws of the State of Mississippi and situated in Pearl River County, operates under the Mayor-Board form of government and provides the following services as authorized by its charter: Public Safety (Police, Fire, and Inspection), Street Maintenance, Garbage Collection, Water Services, Culture and Recreational, Public Improvements, Planning and Zoning, and General Administrative Services.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the notes are organized to provide explanations, including required disclosures, of the City's financial activities for the fiscal year ended September 30, 2019.

B. Financial Reporting Entity

The City's basic financial statements include the accounts of all City operations. The criteria for including organizations as component units of the City consist of oversight responsibility, special financing relationships and scope of public services. Oversight responsibility is determined by the extent of financial interdependency, control over the selection of the governing authority and management, ability to significantly influence operations, and accountability for fiscal matters. Based on these criteria, the City has no component units. However, see Note 7 for information describing related organizations not included in the City's reporting entity.

C. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

NOTES TO THE FINANCIAL STATEMENTS

PAGE TWO

YEAR ENDED SEPTEMBER 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; (2) operating grants and contributions which finance annual operating activities including restricted investment income, and (3) capital grants and contributions, which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. Taxes and items not properly included as program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and the major individual enterprise fund are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of Accounting

The City complies with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities, and as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles.

The government-wide financial statements report using the economic resources measurement focus and the accrual basis of accounting generally, including the reclassification or elimination of internal activity (between or within funds). Proprietary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property tax revenues are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

CITY OF POPLARVILLE, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS

PAGE THREE

YEAR ENDED SEPTEMBER 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The City considers revenues to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Major revenue sources susceptible to accrual include: property taxes, franchise taxes, sales taxes, and intergovernmental revenues. In general, other revenues are recognized when cash is received by the City.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include personnel costs, administrative expenses, and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, as appropriate, and then unrestricted resources as needed.

Governmental Funds

General Fund - The general fund is the primary operating fund of the City. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Series 2019 Bond Projects Fund - The Series 2019 Bond Projects Fund represents the City's major capital projects fund. It accounts for all infrastructure projects associated with the Series 2019 Bond Issuance.

Proprietary Fund

Water Fund - The water fund accounts for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing water services to the general public on a continuing basis be financed or recovered primarily through user charges.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

E. Assets, Liabilities, and Net Position or Equity

Cash and Cash Equivalents

The City's cash and cash equivalents are primarily considered to be cash on hand and amounts held in demand deposits. For purposes of the statement of cash flows, short-term investments held in the proprietary fund with a maturity date within three months of the date acquired by the City, if any, are considered to be cash equivalents.

State statutes authorize the City to invest in (1) direct obligations of the United States government to the payment of which the full faith and credit of the United States government is pledged, (2) certificates of deposit when insured or secured by acceptable collateral, and (3) obligations of the State of Mississippi, or any county, municipality or school district of the State of Mississippi which have been approved by a reputable bond attorney and have been validated by decree of the chancery court. Investments are recorded at cost, which approximates fair value.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Receivables and Payables

Generally, outstanding balances between funds, if any, are reported as “due to/from other funds” and include outstanding charges by one fund to another for services or goods and other miscellaneous receivables/payables between funds. Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

Any advances between funds, if reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

An allowance has been provided in the water enterprise fund and general fund for estimated uncollectible charges. The allowance is based on historical collection experience and other relevant circumstances.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond September 30, 2019, are recorded as prepaid items. In governmental funds, reported prepaid items are equally offset by nonspendable fund balance amounts, which indicate they do not constitute “available spendable resources” even though they are a component of net current assets. The net change in nonspendable fund balances is not presented because the combined statements of revenues, expenditures, and changes in fund balances reflects the changes in total fund balances rather than just the spendable and nonspendable fund balances.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are externally imposed by creditors, grantors, or laws. Restricted assets in the enterprise fund represent utility customer deposits subject to refund and amounts restricted per bond covenants. When both restricted and nonrestricted assets are available for use, the policy is to use restricted assets first.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Capital Assets

Capital assets, which include property, plant, equipment, and current infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), net of depreciation, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. However, infrastructure assets acquired or constructed prior to October 1, 2003 are not reported in the basic financial statements, as allowed by the Governmental Accounting Standards Board. The City generally capitalizes assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest cost was capitalized during the current fiscal year.

Estimated useful lives of capital assets are used to report capital assets in the government-wide statements. Depreciation is calculated on the straight-line basis for all depreciable assets. Amortization of leased equipment under capital assets is included with depreciation. The following schedule details those estimated useful lives:

Buildings and improvements	7 - 50 years
Machinery and equipment	5 - 25 years
Vehicles	5 - 20 years
Vehicles under lease	5 - 7 years
Equipment under lease	3 - 10 years

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure/expense) until then.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Deferred outflows related to pensions - This amount represents the City's proportionate share of the deferred outflows of resources reported by the pension plan in which the City participates. See Note 8 for additional details.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows related to pensions - This amount represents the City's proportionate share of the deferred inflows of resources reported by the pension plan in which the City participates. See Note 8 for additional details.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities and proprietary fund statement of net position. Bond premiums and discounts are capitalized and amortized over the terms of the respective bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when issued.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources in the current period. Issuance costs are reported as expenditures when incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Compensated Absences

The City's policy on vacation leave allows employees to accrue an unlimited amount of vacation time once that employee has had one year of continuous service for the City. There are no restrictions on when the employees are allowed to take their vacation time. However, only two weeks may be taken at a time. Retiring and terminated employees are paid for unused vacation up to 20 days. It is the City's policy that all unused sick leave is forfeited upon termination, retirement, or layoff. There is no liability for unpaid accumulated sick leave since sick pay is not paid upon termination of employment. Employees can only accrue up to 40 hours of compensatory time per year; however, all compensatory time accrued may be rolled over to the next year. Retiring and terminated employees are paid for unused compensatory time up to 40 hours. All vacation and compensatory pay is accrued when incurred in the government-wide and proprietary fund financial statements. In the fund financial statements, a liability for these amounts is reported only if they have matured, for example, as a result of employee resignations and retirements or use of vacation time.

The compensated absences liability was computed using the specific identification method whereby the actual number of vacation and compensatory hours is multiplied by the employee's hourly rate at September 30, 2019. The resulting liability is then increased to include social security and retirement contributions that the City is required to pay upon liquidation of the liability.

Fund Equity

In the government-wide and proprietary fund financial statements, equity is classified as net position and displayed in three components:

Net Investment in capital assets - Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any notes or other borrowings attributable to those assets.

Restricted net position - Consists of net assets with constraints placed on the use either by external groups, such as grantors or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other assets that do not meet the definition of "restricted" or "net investment in capital assets".

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

Nonspendable - Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.

Restricted - Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Unassigned - Includes the residual balance of the General Fund that has not been assigned to other funds and that has not been restricted or assigned to specific purposes.

As discussed previously in this note, restricted funds are used first as appropriate. Decreases to fund balance first reduces restricted fund balance; in the event that restricted fund balance becomes zero, then unassigned fund balances are used.

Change in Accounting Principle - The City implemented the following standards issued by the Governmental Accounting Standards Board (GASB) in the current fiscal year as required:

- GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. The provisions of this standard have been incorporated into the financial statements and notes.

The City early adopted the following standards issued by the Financial Accounting Standards Board (FASB) in the current fiscal year as required:

- ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*, which requires that restricted cash be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Company adopted the new standard using the retrospective transition methods, as required by the new standard. The adoption of this ASU did not have a material impact on the statements of cash flows.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC). Deposits above FDIC coverage are collateralized by pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the City.

Property Taxes - The City levies a tax on real and personal property based on the assessed value of property as compiled by the Pearl River County tax assessor from information extracted from the County assessment tax rolls. The taxes on real property become due and payable on January 1st becoming delinquent on February 1st at which time an enforceable lien is attached to the property. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase. Taxes on real and personal property are levied by the Board at the first regular meeting in September. The City's tax assessment roll is then approved by the Board after a series of public hearings to receive citizens' objections. Pearl River County bills and collects real, personal property, auto ad valorem and mobile home taxes for the City. These taxes are remitted by the County monthly to the City. In addition, the County also remits to the City a prorata share of road and bridge taxes they collect.

NOTE 3 - RECEIVABLES (Cont.)

In accordance with Mississippi Code of 1972, as amended for code section 27-39-321, the Board may levy taxes in any amount for general revenue purposes and general improvements. However, taxes collected for the current year are limited to an increase of not more than 10.00% over receipts for any one of the preceding three years. For purposes of the computation, taxes collected in the current year resulting from property added to the tax assessment roll are excluded from the computation.

The rates are expressed in terms of mills (i.e., ten mills equal one cent). The combined tax rate to finance general governmental services, including the payment of principal and interest on long-term debt and other purposes for the year ended September 30, 2019, was 54.5 mills or \$54.50 per \$1,000 of assessed valuation. A summary of the assessed valuations and tax levies of the City for the year ended September 30, 2019, have been provided below.

The assessed valuations of the City for the year ended September 30, 2019, were as follows:

Real property	\$ 11,152,442
Personal property	2,512,691
Public utilities	1,908,107

NOTE 6 - RESTRICTED NET POSITIONS

Governmental Activities

Unemployment Compensation Fund - The City is required by Mississippi Code Section 71-5-359 to set aside funds in excess of 2.00% of the prior year's covered wages (i.e., the first \$14,000 of wages paid to an employee) to pay future unemployment compensation claims. As of September 30, 2019 the City had \$13,597 in its unemployment compensation fund.

Forfeiture Fund - The City receives cash from court judgments where the defendant is ordered to forfeit cash seized in the arrest. The use of these funds by the City is restricted to enhancing public safety efforts. At September 30, 2019, the City had \$8,748 net of restricted accounts payable in its forfeiture fund.

Cemetery Perpetual Care - The City maintains a portion of the proceeds of the sale of cemetery lots for perpetual cemetery care and maintenance pursuant to the terms of cemetery lot purchases. As of September 30, 2019, the City had \$11,975 restricted for cemetery perpetual care.

Capital Projects - The City is required to expend bond proceeds on projects allowed in the Series 2019 Bond Agreement. As of September 30, 2019, the City had \$1,133,202 restricted for capital projects.

Therefore, restricted net position totaled \$1,167,522 at September 30, 2019.

Business-type Activities

The City's bond covenants, as more fully explained in Note 5, require certain restricted deposits to be maintained. Such restricted assets exceeding recorded liabilities against such restricted assets represent restrictions of the water fund's net position.

NOTE 7 - JOINT VENTURES

Poplarville - Pearl River County Airport - The Poplarville - Pearl River County Airport (Airport) is a joint venture, authorized by Section 61-3-5, Mississippi Code Ann. (1972), between the City and Pearl River County. The joint venture was created to provide airport service to the area. The airport is governed by a five-member board of commissioners appointed as follows: Poplarville, two; Pearl River County, two; jointly, one. The City and Pearl River County jointly lease the land and own the buildings of the Poplarville - Pearl River County Airport. The City provides liability insurance and utilities in support of the Airport, which totaled \$3,552 for the year ended September 30, 2019, and is included in miscellaneous expenses on the statement of activities. Any potential future financial benefit or burden to the City resulting from the Airport is not determinable at this time. Complete financial statements on the Poplarville - Pearl River County Airport can be obtained from Highway 53 South, Poplarville, Mississippi 39470.

Poplarville Public Library - The Pearl River County Library System is a joint venture, authorized by Section 39-3-8, Mississippi Code Ann. (1972), among the Cities of Picayune and Poplarville and Pearl River County. The library system was created to provide free library services to all the people of the County and is governed by a board of trustees consisting of ten members. Poplarville appoints one member, Pearl River County appoints five, and Picayune appoints four. The City owns the Poplarville Public Library land and building which are recorded in the City's governmental capital assets as follows: Land, \$40,000; Building and improvements, \$250,530, with accumulated depreciation of \$159,720. The City also provided \$24,000 in support and \$7,684 for the liability insurance policy during the year ended September 30, 2019, which is all included in culture and recreation expenses on the statement of activities. The Pearl River County Library System's financial information is reported independently. Complete financial statements can be obtained from the Margaret Reed Crosby Memorial Library located at 900 Goodyear Boulevard, Picayune, Mississippi 39466.

NOTE 8 - RETIREMENT PLANS

Plan Description and Provisions - The City contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Benefits Provided - Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.00% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.00% compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

NOTE 8 - RETIREMENT PLANS (Cont.)

Contributions - At September 30, 2019, PERS members were required to contribute 9% of their annual covered salary and the City is required to contribute at an actuarially determined rate. The employer's rate at September 30, 2019 was 17.40% of annual covered payroll. This rate increased as of July 1, 2019 from 15.75%. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The City's contributions (employer share only) to PERS for the years ended September 30, 2019, 2018, and 2017 were \$181,770, \$176,369, and \$169,588, respectively, equal to the required contributions for each year.

Pensions, Liabilities, Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources - At September 30, 2019, the City reported a liability of \$3,518,395 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. The City's proportionate share used to calculate the September 30, 2019 net pension liability was 0.017211%, which was based on a measurement date of June 30, 2019. This was a decrease of 0.000332% from its proportionate share used to calculate the September 30, 2018 net pension liability, which was based on a measurement date of June 30, 2018.

For the year ended September 30, 2019, the City recognized pension expense of \$273,855. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,528	\$ 2,780
Net difference between projected and actual earnings on pension plan investments	-	30,794
Changes of assumptions	25,321	-
Changes in the proportion and differences between the City's contributions and proportionate share of contributions	140,097	-
City contributions subsequent to the measurement date	44,421	-
Totals	\$ 211,367	\$ 33,574

\$44,421 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2020.

NOTE 8 - RETIREMENT PLANS (Cont.)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended September 30,</u>	<u>Amount</u>
2020	\$ 38,281
2021	38,281
2022	36,190
2023	20,620
Total	<u><u>\$ 133,372</u></u>

Actuarial Assumptions - The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Inflation	2.75%
Salary increases	3.00% - 18.25% including inflation
Investment rate of return	7.75% net of pension plan investment expense, including inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119. For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO THE FINANCIAL STATEMENTS

PAGE TWENTY-EIGHT

YEAR ENDED SEPTEMBER 30, 2019

NOTE 8 - RETIREMENT PLANS (Cont.)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation %</u>	<u>Long-Term Expected Real Rate of Return %</u>
Domestic equity	27.00%	4.90%
International equity	22.00	4.75
Global equity	12.00	5.00
Fixed income	20.00	1.50
Real estate	10.00	4.00
Private equity	8.00	6.25
Cash	1.00	0.25
Total	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current contribution rate (17.40%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
City's proportionate share of the net pension liability	\$ 4,625,052	\$ 3,518,395	\$ 2,604,949

NOTE 8 - RETIREMENT PLANS (Cont.)

Plan Fiduciary Net Position - Detailed information about the Plan's fiduciary net position is available in the separately issued PERS financial report.

Deferred Compensation Plan - The City, through PERS, offers its employees a voluntary deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The assets of the plan are held in trust for the exclusive benefit of participants and their beneficiaries. The requirements of Internal Revenue Code Section 457(g) prescribes that the City does not own the amounts deferred by employees, including the related income on those amounts. Additionally, the City does not have fiduciary accountability for the plan. Accordingly, the assets and the liability for compensation deferred by plan participants, including earnings on plan assets, are not included in the City's financial statements.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

Litigation - The City is party to various legal proceedings which normally occur in governmental operations. Although the outcome of these proceedings is not presently determinable, in the opinion of the City's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Grants and Awards - Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally federal and state governments. Any disallowed expenses, including amounts already collected, might constitute a liability of the applicable funds. The City does not believe any contingent liabilities are material.

Water Tank Maintenance Contract - The City entered into a ten year contract with Tank Pro, Inc. on March 5, 2013 for the annual inspection, maintenance, and repair of the City's water tank. The City paid Tank Pro, Inc. \$12,156 during the year ended September 30, 2019, which is included in the water expenses on the statement of activities. Annual payments are required by the City in the amount of \$13,432 for fiscal years 2020 through 2022; and a final payment of \$14,842 in fiscal year 2023. The City has the option to cancel the agreement only if intent to cancel is received by Tank Pro, Inc. ninety days prior to the anniversary date.

Garbage Collection Contract - The City contracted with Waste Management of Mississippi, Inc. on June 6, 2017. The term of the contract runs from June 1, 2017 through May 31, 2020. Waste Management collects and disposes of garbage from residential and light commercial businesses at a monthly cost of \$13.82 per location effective June 1, 2017, which was the same rate as the prior year. Pursuant to the contract, the cost per location is adjusted annually to reflect changes in the Consumer Price Index. For the year ended September 30, 2019, the City paid Waste Management \$178,214 for garbage collection which is included in public works expenses on the statement of activities.

NOTE 10 - RISK MANAGEMENT

The City is covered for significant losses through commercial insurance carriers except for the following, which are covered through self-insurance risk pools.

Self-Insurance - Workers Compensation Fund - The City is a member in the Mississippi Municipal Workers' Compensation Group, Inc. This non-profit corporation is a self-insurance worker's compensation fund organized under the non-profit laws of the State of Mississippi. The group is self-insured under statutory workers compensation protection up to \$1,000,000. Members are jointly and severally liable for the obligations of the group. The possibility of additional liability exists, but that amount, if any, cannot be determined.

Self-Insurance - Liability Fund - The City is a member in the Mississippi Municipal Liability Plan. The plan is a private non-profit corporation organized under the laws of the State of Mississippi. The plan provides liability and tort claims insurance for its members up to \$1,000,000 per occurrence, respectively. The plan is totally self-insured with claims and expenses paid out of the premiums and the members are jointly and severally liable for any claims and expenditures beyond the premium base. The possibility of additional liability exists, but that amount, if any, cannot be determined.

NOTE 11 - SUBSEQUENT EVENTS

In preparing the financial statements, management has evaluated and disclosed all material subsequent events through August 13, 2020, which is the date the financial statements were available to be issued.

The spread of a novel strain of coronavirus (COVID-19) in the United States of America has caused economic uncertainties which are likely to negatively impact the City's operational and financial performance. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Therefore, while the City expects this matter to negatively impact its operating results, the related financial impact and duration cannot be reasonably estimated at this time.

The City anticipates issuing a Tax Increment Financing Bond in the amount of \$595,000 at a rate of 5.50% over a ten-year term.

The City entered into a lease purchase agreement for equipment in the amount of \$167,880 at a rate of 3.47% over a five year term. Payments of rent are to be made monthly with the first payment being due February 22, 2020.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE (NON-GAAP BASIS) GENERAL FUND YEAR ENDED SEPTEMBER 30, 2019

NOTE 1 - BUDGETARY DATA

The procedures used by the City in establishing the budgetary data are as follows:

1. The City Clerk's office prepares estimates of available revenue.
2. Department directors submit proposed expenditure budgets to the City Clerk by June 1st each year.
3. The Mayor and the department directors review expenditure budgets and necessary revisions are made.
4. Budgeted revenues and expenditures are balanced, and a summary budget is prepared and presented to the Mayor.
5. The City Clerk submits the proposed budget to the Board by August 1st.
6. Public hearings are conducted to obtain taxpayer comments.
7. The final budget is approved by September 15th and must be published in a local newspaper on or before September 30th.
8. The budget is formally amended at the first meeting in July each year, if necessary. However, budget revisions are made throughout the year (prior to July) as reallocations of funds are necessary, a budget deficit is indicated, or circumstances change which dictate the need for a budget amendment.
9. Formal budgetary integration is employed as a management control device for all governmental and proprietary fund types. Budgets for the Governmental Funds are adopted in accordance with provisions of the State Auditor's Office and not on a basis consistent with accounting principles generally accepted in the United States of America. For budgetary purposes, certain revenues from property taxes, interest on investments, and certain other sources are recognized when received in cash and unexpended appropriations lapse thirty days after the end of the fiscal year.

The legal level of control for all budgets adopted is at the fund level with the exception of the General Fund, which is appropriated at the department level. Administrative control for all budgets is maintained through the establishment of more detailed line-item budgets.

The City Clerk's office exercises budgetary monitoring throughout the fiscal year. An adopted budget may not exceed its appropriated level without Board approval. Budgetary controls are implemented through the City Clerk's office through the use of budget to actual reports. Any purchase requisition that will cause a line item to exceed its budget will be disallowed by the City Clerk. The department head will then be required to make an inter-department budget transfer or request a budget amendment.

NOTE 1 - BUDGETARY DATA (Cont.)

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual amounts on the budgetary cash basis, and variances between the final budget and the actual amounts. The Schedule is presented in the Mississippi State Department of Audit's prescribed form.

NOTE 2 - BUDGET/GAAP RECONCILIATION

The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The budget to GAAP reconciliation is shown at the bottom of Schedule 1.

REPORTS ON INTERNAL CONTROL AND COMPLIANCE

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and Members of the
Board of Alderpersons
Poplarville, Mississippi

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Poplarville, Mississippi as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City of Poplarville, Mississippi's basic financial statements, and have issued our report thereon dated August 13, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Poplarville, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Poplarville, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Poplarville, Mississippi's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

To the Honorable Mayor and Members of the
Board of Alderpersons
Poplarville, Mississippi

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Poplarville, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying *Independent Auditors' Report on Compliance with State of Mississippi Laws and Regulations* as Finding 1.

City of Poplarville's Response to Findings

The City of Poplarville's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The City of Poplarville's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON STATE COMPLIANCE

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH MISSISSIPPI STATE LAWS AND REGULATIONS**

To the Honorable Mayor and Members of the
Board of Alderpersons
Poplarville, Mississippi

We have audited the basic financial statements of the City of Poplarville, Mississippi as of and for the year ended September 30, 2019, and have issued our report dated August 13, 2020. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed the following material instances of noncompliance with state laws and regulations. Our finding and recommendation and your response is as follows:

Municipal Clerk:

1. Finding: The City did not maintain an accurate inventory of assets in accordance with guidelines established by the Office of the State Auditor.

The City's inventory records were not accurately maintained in accordance with the municipal inventory guidelines established by the Office of the State Auditor.

Recommendation:

The City should update existing inventory records by having each department update listings of assets, and any discrepancies should be resolved on a timely basis.

Municipal Clerk's Response:

A Deputy Clerk has been assigned the duties of entering all asset transactions into the City's software system in a timely manner, and will conduct a physical annual inventory for all City departments. The City will update existing asset inventory records and maintain an accurate inventory of assets in accordance with the guidelines of the Office of the State Auditor.

The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the finding in this report to ensure corrective action has been taken.

This report is intended for the information of the City of Poplarville, Mississippi's management, Honorable Mayor, Board of Alderpersons, and the Mississippi Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
