INDEPENDENT AUDITOR'S REPORT

Members of the Board of Supervisors Issaquena County, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Issaquena County, Mississippi (the County), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Issaquena County, Mississippi, as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedules and corresponding notes, the Schedule of the County's Proportionate Share of the New Pension Liability, and the Schedule of the County's Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Omissions of Required Supplementary Information

Issaquena County, Mississippi has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Other Information

The Schedule of Surety Bonds for County Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

Bridgers, Goodman & Aldridge, PLLC

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2018, on our consideration of Issaquena County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Issaquena County, Mississippi's internal control over financial reporting and compliance.

Total Fund Balance- Governmental Funds	\$	2,427,744
Amounts reported for governmental services in the Statement of Net Position are different because:		
Capital assets are used in governmental activities and are not financial resources and, therefore, are not reported in the funds, net of accumulated depreciation of \$1,892,466.		973,954
Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.		52,393
Long-term liabilities are not due and payable in the current-period and, therefore, are not reported in the funds.		(51,607)
Net pension obligations are not due and payable in the current period and, therefore, are not reported in the funds.		(2,169,235)
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the governmental fund financial statements:

ISSAQUENA COUNTY Reconciliation of the Statements of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2015	Exhibit 4-1
Net Changes in Fund Balances - Governmental Funds	\$ 307,120
Amounts reported for governmental services in the Statement of Net Activities are different because:	
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net position differs from the change in fund balances by the amount that capital outlay of \$206,122 exceeded depreciation of \$58,735.	147,387
In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increases financial resources. Thus, the change in net position differs from the change in fund balances by the amount of the net gain of \$449 and the proceeds from the sale of \$12,251 in the current period.	(11,802)
Fine revenue recognized on the modified accrual basis in the funds during the current year is reduced because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	6,802
Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Thus, the change in net position differs from the change in fund balances by the amount that debt repayments of \$11,304 exceeded debt proceeds of \$0.	11,304
Under the modified accrual basis of accounting used in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. Thus the change in net position differs from the change in fund balances by the following item:	
Decrease in compensated absences payable	8,656
Items reported in the Statement of Activities related to the implementation of GASB 68 are not reported in the governmental funds. These activities include:	
Recognition of pension expense for the current year Recognition of contributions made prior and subsequent to the measurement date	(274,689) 133,426
Changes in Net Position of Governmental Activities	\$ 328,204

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.

A. Financial Reporting Entity.

Issaquena County (the County) is a political subdivision of the State of Mississippi. The county is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Issaquena County to present these financial statements on the primary government and its component units which has a significant operational or financial relationship with the county.

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the County legal entity and therefore are reported as part of the primary government financial statements.

- * Board of Supervisors
- * Chancery Clerk
- Circuit Clerk
- * Justice Court Clerk
- * Purchase Clerk
- * Tax Assessor-Collector
- * Sheriff

B. Individual Component Unit Disclosures.

Blended Component Units

Certain component units, although legally separate from the primary government, are nevertheless so intertwined with the primary government that they are, in substance, the same as the primary government. Therefore, these component units are reported as if they are part of the primary government. The following component units' balances and transactions are blended with the balances and transactions of the primary government.

The Issaquena County Public Improvement Corporation is governed by a three-member board appointed by the Issaquena County Board of Supervisors. Although it is legally separate from the county, the corporation is reported as if it were part of the primary government because its sole purpose is to finance and construct county public buildings.

The Issaquena County Regional Correctional Facility Financing Corporation is governed by a three-member board appointed by the Issaquena County Board of Supervisors. Although it is legally separate from the county, the corporation is reported as if it were part of the primary government because its sole purpose is to finance and construct a regional correctional facility.

C. Basis of Presentation.

The County's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, fund financial statements and accompanying note disclosures which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information concerning the County as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other non-exchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support.

The Statement of Net Position presents the financial condition of the governmental activities and business-type activities of the County at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the County's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues, not classified as program revenues, are presented as general revenues of the County with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business-type activity or governmental function is self-financing or draws from the general revenues of the county.

Fund Financial Statements:

Fund financial statements of the County are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into governmental, proprietary and fiduciary. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column as Other Governmental Funds.

D. Measurement Focus and Basis of Accounting.

The Government-wide, Proprietary Funds and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the County. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The revenues and expenses of Proprietary Funds are classified as operating or non-operating. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund's primary operations. All other revenues and expenses are reported as non-operating.

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The County reports the following major Governmental Funds:

<u>General Fund</u> - This fund is used to account for and report all financial resources not accounted for and reported in another fund.

<u>State Aid Road Fund</u> – This fund is used to account for monies from specific revenue sources that are restricted for road maintenance.

The County reports the following major Enterprise Fund:

<u>Issaquena County Regional Correctional Facility</u> – The correctional facility fund accounts for the County's activities of housing prisoners on a contract basis for the Mississippi Department of Corrections and others.

Additionally, the County reports the following fund types:

GOVERNMENTAL FUND TYPES

<u>Special Revenue Funds</u> - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

<u>Debt Service Funds</u> - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

PROPRIETARY FUND TYPE

<u>Enterprise Funds</u> - These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the County has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

FIDUCIARY FUND TYPE

<u>Agency Funds</u> - These funds account for various taxes, deposits and other monies collected or held by the County, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

E. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

F. Deposits and Investments.

State law authorizes the County to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the County may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair market value. However, the County did not invest in any governmental securities during the fiscal year.

G. Receivables.

Receivables are reported net of allowances for uncollectible accounts, where applicable.

H. Inter-fund Transactions and Balances.

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Inter-fund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

I. Restricted Assets.

Proprietary Fund assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions, and donor specifications have been reported as restricted assets. Certain resources and revenues associated with the County's enterprise fund revenue bonds are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The "revenue" fund is used to account for all revenues of the correctional facility and to provide payment for operating and maintenance expenses as well as required monthly deposits to other accounts to meet minimum requirements of trust agreement. The

"depreciation and operating reserve" fund is used to pay the costs of major repairs and replacements to the correctional facility, the costs of which are such that they should be spread over a number of years rather than charged as a current expense in a single year. The "excess revenue" fund is used to pay the cost of major repairs and replacements to the correctional facility, as well as, to pay operating and maintenance expense when other funds are insufficient to pay these expenses within established limitations. The "debt service reserve" fund is used to report resources set aside to subsidize potential deficiencies from the County's operation that could adversely affect debt service payments. The "general" fund is used to pay the principal and interest payments due on the County's enterprise fund revenue bonds. When both restricted and nonrestricted assets are available for use, the policy is to use restricted assets first.

J. Capital Assets.

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the applicable governmental or business-type activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. The extent to which capital assets costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Governmental accounting and financial reporting standards allow governments meeting certain criteria to elect not to report major general infrastructure assets retroactively. Issaquena County meets the criteria and has so elected. Therefore, the major general infrastructure assets acquired prior to October 1, 2002, are not reported in the government-wide financial statements. General infrastructure assets include all roads and bridges and other infrastructure assets acquired subsequent to October 1, 2002.

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. No interest is capitalized on self-constructed assets because non-capitalization of interest does not have a material effect on the County's financial statements. Donated capital assets are recorded at their fair value at the time of donation.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements and Proprietary Funds. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

	Capitalization	Thresholds	Estimated Service Life	
Land	\$	0	N/A	
Infrastructure		0	20 to 50 years	
Buildings		50,000	40 years	
Improvements other than buildings		25,000	20 years	
Mobile equipment		5,000	5 to 10 years	
Furniture and equipment		5,000	3 to 7 years	
Leased property under capital leases		*	*	

^{*} Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

K. Deferred Outflows/Inflows of Resources.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

<u>Deferred outflows related to pensions</u> – This amount represents the County's proportionate share of the deferred outflows of resources reported by the pension plan in which the County participates. See Note 10 for additional details.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

<u>Property tax for future reporting period/unavailable revenue – property taxes</u> – Deferred inflows of resources should be reported when resources associated with imposed non-exchange revenue transactions are received or reported as receivable before the period for which property taxes are levied.

<u>Unavailable revenues – fines</u> – When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

<u>Deferred inflows related to pensions</u> – This amount represents the County's proportionate share of the deferred inflows of resources reported by the pension plan in which the County participates. See Note 10 for additional details.

L. Pensions.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this

purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. Long-term liabilities.

Long-term liabilities are the un-matured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements and in the Proprietary Fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or Proprietary Funds Statement of Net Position.

N. Equity Classifications.

Government-wide Financial Statements:

Equity is classified as net position and displayed in three components:

Net Investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position not meeting the definition of "restricted" or "net investment in capital assets".

Net Position Flow Assumption:

When an expense is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenses are incurred for purposes which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Government fund balance is classified as non-spendable, restricted, committed, assigned or unassigned. The following are descriptions of fund classifications used by the County:

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Fund Balance Flow Assumption:

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned or unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

O. Property Tax Revenues.

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the County. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount which resulted from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicle and mobile homes become a lien and are due in the month that coincides with the month of the original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of the original purchase occurs.

P. Intergovernmental Revenues in Governmental Funds.

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for

certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

Q. Compensated Absences.

The County has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements and Proprietary Funds financial statements. In fund financial statements, Government Funds report the compensated absence liability payable only if the payable has matured, for example an employee resigns or retires.

R. Changes in Accounting Standards.

The County implemented the following standards issued by the Governmental Accounting Standards Board (GASB) in the current fiscal year as required: GASB Statement 68, Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27; GASB Statement No. 69, Governmental Combinations and Disposal of Government Operations; and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. The provisions of these standards have been incorporated into the financial statements and notes.

NOTE 2 - PRIOR PERIOD ADJUSTMENTS.

A summary of significant equity adjustments is as follows:

Exhibit 2 - Statement of Activities:

Governmental Activities		
Explanation	_	Amount
Implementation of GASB 68 and GASB 71	_	
Net position liability (measurement date)	\$	(1,629,447)
Deferred outflows of resources- contributions	_	31,779
Total prior period adjustments	\$	(1,597,668)
	=	
Business - Type Activities		
Explanation		Amount
Implementation of GASB 68 and GASB 71	_	
Net position liability (measurement date)	\$	(2,050,118)
Deferred outflows of resources- contributions	_	39,983
Total prior period adjustments	\$	(2,010,135)

Exhibit 6 – Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Fund:

Explanation		Amount
Implementation of GASB 68 and GASB 71	_	
Net position liability (measurement date)	\$	(2,050,118)
Deferred outflows of resources- contributions	_	39,983
Total prior period adjustments	\$_	(2,010,135)

NOTE 3 - DEPOSITS AND INVESTMENTS.

Deposits:

The carrying amount of the County's total deposits with financial institutions at September 30, 2015, was \$2,570,700 and the bank balance was \$2,618,728. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the County. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

Investments:

As provided in Section 91-13-8, Miss. Code Ann. (1972), the following investments of the County are handled through a trust indenture between the County and the trustee related to the operations of the Issaquena County Regional Correctional Facility.

Investment balances at September 30, 2015, are as follows:

Investment Type	Maturities	Fair Value	Rating
Hancock Horizon Treasury Securities	Less than one year	\$1,448,374	AAAm
Money Market Mutual Fund			

Interest Rate Risk. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, Section 19-9-29, Miss. Code Ann. (1972), limits the maturity period of any investment to no more than one year.

Credit Risk. State law limits investments to those authorized by Sections 19-9-29 and 91-13-8, Miss. Code Ann. (1972). The County does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk – Investments. Custodial credit risk is the risk that in the event of failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. The Hancock Horizon Treasury Securities Money Market Mutual Fund investment is uninsured, unregistered, and were held by the counterparty in trust accounts on behalf of the County

NOTE 4 - INTER-FUND TRANSACTIONS AND BALANCES.

The following is a summary of inter-fund balances at September 30, 2015:

A. <u>Due From/To Other Funds</u>:

Receivable Fund	Payable Fund	 Amount
Other Governmental	General	\$ 4,198
General Fund	Issaquena County Correctional Facility	8,980
Total		\$ 13,178

The receivable from the General Fund to the Other Governmental Fund represents tax revenue collected but not settled until October 2015. The receivable from Issaquena Correctional Facility to General Fund is the amount due for indirect cost. All interfund balances are expected to be repaid within one year from the date of the financial statements.

NOTE 5 - INTERGOVERNMENTAL RECEIVABLES.

Intergovernmental receivables at September 30, 2015, consisted of the following:

Description		Amount
Governmental Activities:		
Legislative tax credit	\$	11,518
Reimbursement for food stamps/welfare		1,912
Motor vehicle license		1,001
Motor vehicle fuel tax		26,105
Reimbursement for housing prisoners		11,273
Total Governmental Activities	\$_	51,809
Description		Amount
Business-type Activities:		
Reimbursement for housing prisoners	\$	286,709

Total Business-type Activities \$ 286,709

NOTE 6 - RESTRICTED ASSETS.

The balances of restricted asset accounts in the enterprise fund are as follows:

Description	 Amount
Revenue fund	\$ 689,593
General fund	50,704
Debt Service Reserve	286,792
Depreciation and Operating Reserve	254,250
Excess Revenue fund	167,035
Total Restricted Asset	\$ 1,448,374

NOTE 7 - CAPITAL ASSETS.

The following is a summary of capital assets for the year ended September 30, 2015:

Governmental Activities:

	Balance				Balance
Non-depreciable capital assets:	Oct. 1, 2014	Additions	Deletions	Adjustments	Sept. 30, 2015
Land \$	86,272	-		-	86,272
Construction in progress		172,782			172,782
Total non-depreciable capital assets	86,272	172,782			259,054
Depreciable capital assets:					
Buildings	616,343				616,343
Improvements other than buildings	382,361				382,361
Mobile equipment	1,488,538	28,215	38,624		1,478,129
Furniture and equipment	81,836	5,125			86,961
Leased property under capital lease	43,572				43,572
Total depreciable capital assets	2,612,650	33,340	38,624		2,607,366
Less accumulated depreciation for:					
Buildings	316,775	9,313			326,088
Improvements other than buildings	250,302	13,379			263,681
Mobile equipment	1,206,776	29,221	26,822		1,209,175
Furniture and equipment	74,376	659			75,035
Leased property under capital lease	12,324	6,163			18,487
Total accumulated depreciation	1,860,553	58,735	26,822		1,892,466
Total depreciable capital assets, net	752,097	(25,395)	11,802		714,900
Governmental activities capital assets, net \$	838,369	147,387	11,802		973,954

Business-Type Activities:

	Balance				Balance
Non-depreciable capital assets:	Oct. 1, 2014	Additions	Deletions	Adjustments	Sept. 30, 2015
Land	\$ 17,500				17,500
Total non-depreciable capital assets	17,500				17,500
Depreciable capital assets:					
Buildings	3,851,891				3,851,891
Mobile equipment	94,261				94,261
Furniture and equipment	32,261				32,261
Total depreciable capital assets	3,978,413				3,978,413
Less accumulated depreciation for:					
Buildings	1,396,067	77,038			1,473,105
Mobile equipment	79,605	1,046			80,651
Furniture and equipment	18,162	3,385			21,547
Total accumulated depreciation	1,493,834	81,469	-	-	1,575,303
Total depreciable capital assets-net	2,484,579	(81,469)		-	2,403,110
Business-type activities assets, net	\$ 2,502,079	(81,469)			2,420,610

Depreciation expense was charged to the following functions:

Governmental Activities:

General government	\$	16,819
Public safety		14,358
Public works	_	27,558
Total Governmental activities depreciation expense	\$	58,735
Business-type Activities:	٠	01.460
Issaquena County Correctional Facility	۶.	81,469
Total Business-type activities depreciation expense	\$	81,469

Commitments with respect to unfinished capital projects consisted of the following as of September 30, 2015:

		Remaining	Expected
		Financial	Date of
Description of commitment	_	Commitment	Completion
Bridge - MS 117 028 1 B	\$	22,496	Feb. 2016

NOTE 8 - CLAIMS AND JUDGMENTS.

Risk Financing:

The County finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The County pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2015, to

January 1, 2016. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

NOTE 9 - CAPITAL LEASES.

As Lessee:

The County is obligated for the following capital assets acquired through capital leases as of September 30, 2015:

Classes of Property	_	Governmental Activities
Furniture and equipment Less: Depreciation	\$	43,572 (18,487)
Leased property under capital lease	\$ \$	25,085

The following is a schedule by years of the total payments due as of September 30, 2015:

		Governmental Activities			
Year Ending September 30,		Leased property under capital lease			
	_	Principal	Interest		
	2016	\$ 11,553	397		
	2017	11,810	145		
	Total	\$ 23,363	542		

NOTE 10 - DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

<u>Plan Description.</u> Issaquena County, Mississippi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

<u>Benefit Provided.</u> Membership in PERS is a condition of employment granted upon hiring for qualified employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility granted to those who qualify upon hiring.

Participating members who are vested and retire at or after age of 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before January 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of the average compensation for each year of creditable service up to and including 30 years (25 years for those became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service for 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

<u>Contributions.</u> At September 30, 2015, PERS members are required to contribute 9% of their annual covered salary, and the County is required to contribute an actuarially determined rate. The employer's rate at September 30, 2015 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The County's contributions (employer share only) to PERS for the years ending September 30, 2015, 2014 and 2013 were \$313,058, \$303,981, and \$257,899 respectively, equal to the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2015, the County reported a liability of \$4,817,649 for its proportionate share of the net pension liability. The net pension liability was measured at June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2015, the County's proportion was 0.031166 percent, which was 0.000852 percent higher than its proportion measured as of June 30, 2014 of 0.030314 percent.

For the year ended September 30, 2015, the County recognized pension expense of \$600,933. At September 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

		Deferred Outflows	
		of Resources	
Differences between expected and actual experience	\$	74,141	
Net difference between projected and actual earnings			
on pension plan investments		281,884	
Changes of assumptions		415,024	
Changes in the proportion and differences between County's			
contributions and proportionate share contributions		72,769	
County Contributions subsequent to the measurement date	_	78,153	
Total	\$ _	921,971	

\$78,153 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Deferred Outflows/Deferred Inflows Aging:

Year ending September 30:	Amount		
2016	\$	277,064	
2017		277,064	
2018		219,218	
2019		70,472	
Total	\$	843,818	

<u>Actuarial Assumptions.</u> The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions. Applied to all periods in the measurement:

Inflation percentage	3.00%
Salary increases, including inflation	3.75% - 19.00%
Investment rate of return	
net of pension plan investment expense, including inflation	7.75%

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2016, with male rates set forward one year.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return

by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rate of return for each major asset class as of June 30, 2015, are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. Broad	34.00 %	5.20 %
International Equity	19.00	5.00
Emerging Markets Equity	8.00	5.45
Fixed Income	20.00	0.25
Real Assets	10.00	4.00
Private Equity	8.00	6.15
Cash	1.00	(0.50)
	100.00 %	

<u>Discount Rate.</u> The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate of (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate.

The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	19	1% Decrease 6.75%		Discount Rate 7.75%		1% Increase		
						8.75%		
		_		_	<u></u>			
Net Pension Liability	\$	6,350,103	\$	4,817,649	\$	3,545,999		

<u>Pension Plan Fiduciary Net Position.</u> Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

NOTE 11 - LONG TERM DEBT.

Debt outstanding as of September 30, 2015 consisted of the following:

Description and Purpose		Amount Outstanding	Interest Rate	Final Maturity Date
Governmental Activities: A. Capital Leases: Computer system	\$_	23,363	2.19%	09/2017
Total Capital Leases	\$	23,363		
Business-type Activities: A. Limited Obligation Bonds: Series 2008 correctional facility refunding bonds	\$ __	195,000	4.00/4.37%	06/2016
Total Limited Obligation Bonds	\$	195,000		

<u>Pledge of Future Revenues</u> – The county has pledged future revenues for housing inmates, net of specified operating expenses, to repay, \$2,120,000 in limited obligation urban renewal revenue bonds issued in August, 2008. Proceeds from the bonds were used to refund the urban renewal revenue bonds issued to provide financing for the construction of the Issaquena County Regional Correctional Facility. The bonds are not a general obligation of the County and, therefore, are not secured by the full faith and credit of the County. The bonds are payable solely from income derived from an inmate housing agreement with the Mississippi Department of Corrections for housing state prisoners and income received from any other governments for housing and holding prisoners and are payable through June, 2016. The total principal and interest remaining to be paid on the bonds is \$202,800. Principal and interest paid for the current year and total inmate housing net revenues were \$434,200 and \$2,783,496 respectively.

Annual debt service requirements to maturity for the following debt reported in the Statement of Net Position are as follows:

Governmental Activities:

Year Ending September 30,		Capital Leases		
		Principal	Interest	
2016	\$	11,553	397	
2017	_	11,810	145	
		_		
Total	\$_	23,363	542	

Business-type Activities:

Year Ending September 30,	'ear Ending September 30, Limited Ob		
		Principal	Interest
2016	\$	195,000	7,800
	_		
Total	\$_	195,000	7,800

<u>Legal Debt Margin</u> - The amount of debt, excluding specific exempted debt that can be incurred by the County, is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the County, according to the last completed assessment for taxation. However, the limitation is increased to 20% whenever a county issues bonds to repair or replace washed out or collapsed bridges on the public roads of the County. As of September 30, 2015, there was no outstanding debt subject to the limitation statues.

• Limited obligation urban renewal refunding bonds were issued with a face value of \$2,825,000 for the purpose of the refunding and redemption of the outstanding principal of the County's Urban Renewal Revenue Bonds (Issaquena County, MS Regional Correctional Facility Project), Series 1996, dated February 1, 1996, at par plus accrued interest. The bonds are not a general obligation of the County; therefore, are not secured by the full faith and credit of the County. The sole source of payment for the revenue bonds is income derived from an inmate housing agreement with the Mississippi Department of Corrections for housing state prisoners and income received from any other governments for housing and holding prisoners.

The following is a summary of changes in long-term liabilities and obligations for the year ended September 30, 2015:

Governmental Activities:	-	Balance Oct. 1, 2014	Additions	Deletions	Adjustments	Balance Sept. 30, 2015	Amounts due within one year
Capital lease	\$	34,667		11,304		23,363	11,553
Compensated absences	_	36,900		8,656		28,244	
Total	_	71,567	-	19,960		51,607	11,553
Business-type Activities							
Compensated absences		80,855		2,974		77,881	
Limited obligation bonds	_	605,000		410,000		195,000	195,000
Total	\$	685,855	-	412,974		272,881	195,000

Compensated absences will be paid by the funds from which the employees' salaries were paid which are generally the General Fund, Road Maintenance Fund and Enterprise Fund.

NOTE 12 - CONTINGENCIES.

<u>Federal Grants</u> - The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the County. No provision for any liability that may result has been recognized in the County's financial statement.

<u>Litigation</u> - The County is part to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the County with respect to the various proceedings. However, the County's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the County.

NOTE 13 - JOINTLY GOVERNED ORGANIZATIONS.

The County participates in the following jointly governed organizations:

<u>Delta Community Mental Health Service</u> operates in a district composed of the counties of Bolivar, Issaquena, Sharkey and Washington. The Issaquena County Board of Supervisors appoints one of the four members of the Board of Commissioners. The County appropriated \$20,357 for support in fiscal year 2015.

Mississippi Delta Community College operates in a district composed of the counties of Bolivar, Coahoma, Issaquena, Humphreys, Leflore, Sharkey, Sunflower and Washington. The Issaquena County Board of Supervisors appoints one of the 20 members of the college board of trustees. The County appropriated \$56,696 for maintenance and support of the college in fiscal year 2015.

<u>South Delta Planning and Development District</u> operates in a district composed of the counties of Bolivar, Issaquena, Humphreys, Sharkey, Sunflower and Washington. The Issaquena County Board of Supervisors appoints three of the 22 members of the board of directors. The County appropriated \$1,265 for support in fiscal year 2015.

<u>The Yazoo-Mississippi Water Management District</u> operates in a district composed of the counties of Bolivar, Carroll, Coahoma, Desoto, Holmes, Humphreys, Issaquena, Leflore, Panola, Quitman, Sharkey, Sunflower, Tallahatchie, Tate, Tunica, Washington and Yazoo. The Issaquena County Board of Supervisors appoints one of the 21 members of the board of commissioners. The County levied a .71 mil tax for support in fiscal year 2015.

NOTE 14 - EFFECT OF DEFERRED AMOUNTS ON NET POSITION.

The unrestricted net position amount of (\$1,663,123) includes the effect of deferring the recognition of expense resulting from a deferred outflow from pensions. The \$921,971 balance of the deferred outflow of resources at September 30, 2015 will be recognized as expense and decrease unrestricted net position over the next 4 years.

NOTE 15 - SUBSEQUENT EVENTS.

Events that occur after the statement of net position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes. Management of Issaquena County evaluated the activity of the County through January 23, 2018 (the date the financial statements were available to be issued), and determined that the following subsequent event has occurred that requires disclosure in the notes to the financial statements.

	Interest	Issue	Type of	
Issue Date	Rate	Amount	Financing	Purpose
6/30/2017	5.95%	\$28,032	Capital Lease	Purchase of 2016 Ford Police
				Interceptor Sedan

ISSAQUENA COUNTY, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION September 30, 2015

A. Budgetary Information.

Statutory requirements dictate how and when the County's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the County, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff, Tax Assessor - Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund, every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The County's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budget Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

- 1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and the major Special Revenue Fund:

	_	General Fund	State Aid Road Fund
Budget (cash basis)	\$	186,110	-
Increase (Decrease) Net adjustments for revenue accruals		(197,758)	1,403,234
Net adjustments for expenditure accruals		157,585	(1,403,234)
GAAP Basis	\$	145,937	-

ISSAQUENA COUNTY, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION September 30, 2015

Pension Schedules

1. Changes in benefit terms.

No changes were noted.

2. Changes of assumptions.

In 2015 and later, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally, the price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75% respectively.

ISSAQUENA COUNTY

SPECIAL REPORTS

DAVID I. BRIDGERS, JR., CPA MICKEY R. ALDRIDGE, CPA L. KARL GOODMAN, CPA, MBA AMY D. BYARS, CPA MEMBERS OF
MISSISSIPPI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S
GOVERNMENT AUDIT QUALITY CENTER

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Supervisors Issaquena County, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Issaquena County, Mississippi (the County), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the county's basic financial statements and have issued our report thereon dated January 23, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Issaquena County, Mississippi's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Issaquena County, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies

in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as 2015-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Issaquena County, Mississippi's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of Issaquena County, Mississippi, in the Limited Internal Control and Compliance Review Management Report dated January 23, 2018, included within this document.

Issaquena County's Response to Findings

Issaquena County's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Responses. Issaquena County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT ACCOUNTANT'S REPORT ON CENTRAL PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND PURCHASE CLERK SCHEDULES (REQUIRED BY SECTION 31-7-115, MISS. CODE ANN. (1972))

Members of the Board of Supervisors Issaquena County, Mississippi

We have examined Issaquena County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with Section 31-7-101 through 31-7-127, Miss. Code Ann. (1972) and compliance with the purchasing requirements in accordance with the bid requirements of Section 31-7-13, Miss. Code Ann. (1972) during the year ended September 30, 2015. The Board of Supervisors of Issaquena County, Mississippi is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Issaquena County, Mississippi, has established centralized purchasing for all funds of the county and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

The results of our audit procedures disclosed certain instances of noncompliance with the aforementioned code sections. These instances of noncompliance were considered in forming our opinion on compliance. Our finding and recommendation and your response are disclosed on the following page.

<u>Finding</u>: The County is responsible for complying with the requirements of the State of Mississippi Policies and Procedures with reference to Public Purchasing Laws: Titles 31 and 37. A well designed purchasing system would comply with the provisions of Titles 31 and 37 and would include the use of purchase requisitions, purchase orders, and receiving reports. During our test work we selected 16 items and noted several instances where the receiving reports were missing dates or dated prior to purchase orders and requisition orders.

<u>Recommendation:</u> The County should establish and maintain an adequate internal control system which would ensure that the County is in compliance with the State of Mississippi Policies and Procedures with reference to the Public Purchasing Laws: Titles 31 and 37.

<u>Response</u>: We will establish and maintain an adequate internal control system which would ensure that the County is in compliance with the state of Mississippi Policies and Procedures with reference to the Public Purchasing Laws: Titles 31 and 37.

In our opinion, except for the noncompliance referred to in the preceding paragraph, Issaquena County, Mississippi, complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2015.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with Section 31-7-115, Miss. Code Ann. (1972). The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned examination of the purchasing system and inventory control system, and in our opinion, is fairly presented when considered in relation to that examination.

Issaquena County's response to the finding included in this report was not audited, and accordingly, we express no opinion on it.

This report is intended for use in evaluating Issaquena County, Mississippi's compliance with the aforementioned requirements, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

Members of the Board of Supervisors Issaquena County, Mississippi

In planning and performing our audit of the financial statements of Issaquena County, Mississippi for the year ended September 30, 2015, we considered Issaquena County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Issaquena County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the county's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated January 23, 2018, on the financial statements of Issaquena County, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain immaterial instances of noncompliance with state laws and regulations that are opportunities for strengthening internal controls and operating efficiency. Our findings, recommendations, and your responses are disclosed below:

Chancery Clerk

1. Finding

Section 27-45-1, MS Code Ann. (1972), requires the Chancery Clerk to make land redemption settlements within 20 days after the end of each month and to make a complete report thereof

to the Board of Supervisors. As reported in the last sixteen years' audit reports, the Chancery Clerk did not make timely settlements and did not file a complete report to the Board of Supervisors. Failure to perform timely settlements of funds collected and reporting those settlements to the Board of Supervisors increase the possibility of loss or misappropriation of public funds.

Recommendation

The Chancery Clerk should make timely settlements and file a computer report with the Board of Supervisors.

Chancery Clerk's Response

I will comply.

Tax Assessor-Collector

2. Finding

Section 27-49-1 and 27-49-9, Miss. Code Ann. (1972), specify the actions to be taken for the sale of property, real or personal, of business taxpayers who are either insolvent or delinquent. As reported in the last thirteen years' audit reports, we found no evidence that the Tax Assessor-Collector seized and sold property in order to collect delinquent business taxes. Failure to enforce statutory procedures for collection of delinquent business taxes could result in the loss of public funds.

Recommendation

The Tax Assessor-Collector should make an effort to collect delinquent business taxes by following statutory procedures pertaining to the seizure and sale of property.

Tax Assessor-Collector's Response

I will comply.

3. Finding

Section 27-53-17, MS Code Ann. (1972), describes the seizure, sale, notice required, period of redemption, interest, penalties and other costs of collection assessed for nonpayment of delinquent mobile home taxes. As reported in the last fifteen years' audit reports, the Tax Assessor-Collector did not sell mobile homes of individuals deemed to be delinquent for payment of taxes. Failure to enforce statutory procedures for collecting mobile home taxes could result in the loss of public funds.

Recommendation

The Tax Assessor-Collector should enforce statutory procedures for collecting mobile home taxes.

Tax Assessor-Collector's Response

I will comply.

Sheriff

4. Finding

Section 19-25-13, MS Code Ann. (1972), requires the Sheriff to settle all collections of fees and charges to the County on a monthly basis. As reported in the past six years' audit reports, settlements of collections were not made monthly. Failure to settle collections properly could result in the loss of public funds.

Recommendation

The Sheriff should settle collections monthly.

Bridgers, Goodman & Aldridge, PLLC

Sheriff's Response

I will comply.

Issaquena County's responses to the findings included in this report were not audited and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity and is not intended to be and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

ISSAQUENA COUNTY

SCHEDULE OF FINDINGS AND RESPONSES

ISSAQUENA COUNTY Schedule of Findings and Responses For the Year Ended September 30, 2015

Section 1: Summary of Auditor's Results

Financial Statements:

1.	Type of auditor's report issued on the financial statements:	Unmodified
2.	Internal control over financial reporting: a. Material weaknesses identified?	No
	b. Significant deficiency identified?	Yes
3.	Noncompliance material to the financial statements noted?	No

Section 2: Financial Statement Findings

Significant Deficiency

Tax Assessor-Collector.

2015-001. <u>Criteria</u>: An effective system of internal control should include an adequate segregation of duties in the collection, deposit preparation and recording functions.

<u>Condition:</u> As reported in the last seventeen years' audit reports, there is not an adequate segregation of duties in the collection, deposit preparation and recording functions.

<u>Effect</u>: Failure to properly segregate accounting duties increases the chances that funds could be mishandled.

<u>Recommendation:</u> The Tax Assessor-Collector should ensure that there is an adequate segregation of duties in the collection, deposit preparation and recording functions.

<u>Tax Assessor-Collector's Response:</u> I will comply.
