INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Gautier, Mississippi, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Basis for Qualified Opinions on Government-Wide Financial Statements and Proprietary Funds Financial Statements and Capital Assets Note to the Financial Statements

Because of the inadequacy of accounting records for the fiscal year ended September 30, 2015, that relate to the fixed assets, accumulated depreciation and depreciation expense, I was unable to form an opinion regarding those amounts and net assets invested in capital assets, net of related debt, for the Government-Wide Financial Statements, which includes amounts at which property and equipment and accumulated depreciation, and the amount of depreciation expense for the year then ended, as outlined in the Capital Assets Note to the Financial Statements, are recorded in the accompanying balance sheet at September 30, 2015, and the Proprietary Funds Financial Statements which includes amounts at which property and equipment and accumulated depreciation, and the amount of depreciation expense for the year then ended, as also outlined in the Capital Assets Note to the Financial Statements, are recorded in the accompanying balance sheet at September 30, 2015. As a result, I was unable to form an opinion on the respective net assets to which these balances are related.

Qualified Opinions

In My opinion, except for the effects of the matter described in the “*Basis for Qualified Opinions on Government-Wide Financial Statements and Proprietary Funds Financial Statements and Capital Assets Note to the Financial Statements*” paragraphs, the financial statements referred to above present fairly, in all material respects, the respective financial position of the City of Gautier, Mississippi, as of September 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the General Fund, the Capital Projects Fund, the Water & Sewer Fund, the Solid Waste Fund, and the aggregate remaining fund information of the City of Gautier, Mississippi, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

I have audited the financial statements of City of Gautier as of and for the year ended September 30, 2015, and have issued my report thereon dated May 30, 2016, which contained an unmodified opinion on those financial statements. My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In My opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

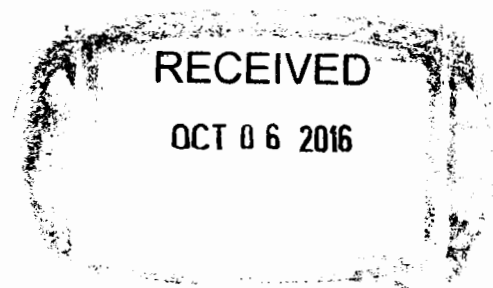

In accordance with Government Auditing Standards, I have also issued my report dated May 30, 2016 on my consideration of the City of Gautier's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Gautier's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CITY OF GAUTIER, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2015

The discussion and analysis of the City of Gautier, Mississippi's (the City's) financial performance provides an overall narrative review of the City's financial activities for the year ended September 30, 2015. The intent of this discussion and analysis is to look at the City's performance as a whole; readers should also review the basic financial statements and the notes to the financial statements to enhance their understanding of the City's financial performance. Information contained in this section is qualified by the more detailed information contained elsewhere in the City's financial statements, notes to financial statements and any accompanying materials. To the extent this discussion contains any forward-looking statements of the City's plans, objectives, expectations and prospects, the actual results could differ materially from those discussed herein.

The City implemented Governmental Accounting Standards Board's (GASB) Statement No. 34 - Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued June 1999, for the first time during fiscal year 2004. As discussed in Footnote 1, Statement No. 34 allows for certain transition treatments in regards to infrastructure. As of fiscal year-end September 30, 2015, the City has not completed implementation for previously constructed infrastructure assets, but is well on the way to implementation.

FINANCIAL HIGHLIGHTS

- In 2015 and 2014, the City's net position amounted to \$26,570,881 and \$35,515,995, respectively. The net position for governmental activities totaled \$ 6,139,479 in 2015 and \$14,061,308 in 2014, contributing 23.11% and 39.59%, respectively, of the total net position; business-type activities contributed 76.89% and 60.41%, totaling \$20,431,402 in 2015 and \$21,454,686 in 2014.
- General revenues for 2015 and 2014 were \$8,385,676 and \$9,007,974, equaling 44.85% and 46.77% of all revenues, respectively. Program specific revenues in the form of charges for services and grants and contributions were \$10,310,562 and \$10,248,279, equaling 55.15% and 53.23% of total revenues.
- In 2015 and 2014, the City had \$18,619,610 and \$16,114,924 in expenses, respectively; only \$10,310,562 and \$10,248,279 of these expenses were offset by program specific charges for services, grants and contributions.
- Capital assets, net of accumulated depreciation, totaled \$51,157,678 in 2015 and \$50,350,019 in 2014.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of the following three components: 1) government- wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

CITY OF GAUTIER, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2015

Government-wide financial statements - The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline both functions of the City and business-type activities.

The governmental activities of the City include police and fire protection, parks, recreation, public works, urban and economic development, and general administrative services. The business-type activities include the water and sewer system and its related projects.

The government-wide financial statements can be found on pages 18 and 19 of this report.

Fund financial statements - Fund financial statements tell how these services were financed in the short term, as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide financial statements by providing information about the City's most significant funds. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements are comprised of the following funds: governmental and proprietary (enterprise) funds.

Notes to the financial statements - The notes provide additional information that is essential to a user's understanding of the basic financial statements. The notes to the financial statements can be found on pages 32-52 of this report.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget process.

The City adopts an annual operating budget for all governmental funds. A Budgetary Comparison Statement has been provided for the General Fund. This required supplementary information can be found on pages 54-60 of this report.

Reporting the City's Most Significant Funds

Fund financial statements begin on page 22 and provide detailed information about the most significant funds. Some funds are required to be established by State law. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City's two major types of funds are discussed below:

CITY OF GAUTIER, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2015

Governmental funds - Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds in the reconciliation's found on pages 23 and 25.

Proprietary funds - When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same manner that all activities are reported in the Statement of Net Assets and the Statement of Activities. Proprietary funds include the Water and Sewer and Solid Waste funds. The nonmajor proprietary fund is the Solid Waste Fund which is combined in a single column on the proprietary fund financial statements. These funds are the same as the business-type activities reported in the government- wide financial statements but provide more detail and additional information, such as cash flows. The accrual basis of accounting is used for proprietary funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position - Net position may serve over time as a useful indicator of a government's financial position. The following table presents a summary of the City's net position for the fiscal years ended September 30, 2015 and 2014.

CITY OF GAUTIER, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2015

The City's restricted net position accounted for 14.76 % of total net position in 2015, and 20.32 % in 2014. Investment in capital assets (e.g. land, construction in progress, buildings, equipment, and infrastructure) accounted for 97.20 % of total net position in 2015 and 66.01 % in 2014, respectively. The remaining balance consisted of unrestricted net position, is the part of net position used to finance everyday operations without constraints of legal requirements.

The following are significant transactions that have had an impact on the Statement of Net Position.

- In 2004, the City implemented the new standards of GASB 34 which requires it to report and depreciate new and old infrastructure assets [e.g. roads, bridges, underground pipes (other than utilities), traffic signals, etc.]. The retroactive reporting of infrastructure was subject to an extended implementation period and was first effective for fiscal years ended in 2006. As of September 30, 2015, the City had not implemented retroactive reporting of infrastructure.

Changes in net position - The City's total revenues for the fiscal years ended September 30, 2015 and 2014 were \$18,696,238 and \$19,256,253, respectively. The total cost of all programs and services was \$18,619,610 and \$16,114,924. The following table presents a summary of the changes in net position for the fiscal years ended September 30, 2015 and 2014.

Governmental activities

The following table presents the cost of major City functional activities: general government, public safety, public works, culture and recreation, urban and economic development, capital outlay, and debt service-interest. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and City's taxpayers by each of these functions.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2015

Business-type activities

The City's business-type activities generated a reduction in net position of \$ 1,023,520 during the fiscal year ending September 30, 2015. This represents a decrease of approximately \$ 2,509,267 from the change during the previous year. The factors contributing to this decrease included:

- The Water and Sewer Fund had a decrease in service charges of approximately \$ 205,000.
- The Water and Sewer Fund had a decrease in grant revenues of approximately \$ 1,131,000.
- The Water & Sewer Fund had a decrease in other revenues of approximately \$ 330,000, and the Business Type Activities had an increase of expenses of approximately \$ 900,000.

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Activities:

As the City completed the year, its governmental funds reported a combined fund balance of \$6,266,950, compared to \$4,719,058 in the prior year. Activities within the general fund contributed to approximately 62.93% in 2015 and 48.79% in 2014 of the fund balances, respectively. Other items that influenced the fund balances are as follows:

- The City received a settlement from British Petroleum (BP) of approximately \$ 1.3 million during the fiscal year.

General Fund Budgetary Highlights

Over the course of the year, adjustments made in the budget were minor. The changes were due to the following: 1) amendments were made shortly after the beginning of the year, 2) the Council made changes in the middle of the year to prevent shortages from the addition or extension of service contracts, or 3) the Council approved several increases in appropriations to prevent budget overruns and to recognize receipt of funds not expected.

With these adjustments, the actual expenditures were \$ 8,870,964 compared to \$ 11,093,365 in the budget. A schedule showing the original and final budget amounts compared to the City's actual financial activity for the General Fund is provided on pages 54-58 of this report as required supplementary information.

More detailed information about the City's long-term liabilities is presented in Note 3 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

On August 29, 2005, the City was severely impacted by Hurricane Katrina. The City is in the continuing process of rebuilding, which will be the case for some years. The City has used federal grants, insurance reimbursements and loans to help with these rebuilding costs.

The City's elected and appointed officials considered many factors when setting the fiscal-year 2015 budget, tax rates, and fees to be charged for business-type activities. The local economy continues its slow recovery from the loss of several major industries and revenues lost due to Hurricane Katrina, but the prospects for new industries are improving. This is evidenced by the Council utilizing the City's financial leverage in issuing seven million dollars of General Obligation Bonds previously for a New Police Station and other improvements, to provide for a platform for continuing economic development, and the issuance in a previous Fiscal Year of a Refunding Bond saving the City anticipated interest charges. Also in September of 2012, the City adopted its first ever five year strategic plan.

PENSION LIABILITY AND PENSION DISCLOSURES UNDER GASB 68

While GASB 68 requires the recording of the amount indicated under Net Pension Liability in accordance with a prescribed formula, MCA section 25-11-101 *et seq.*, provides that a member agency's liability is limited to the extent of the required match of 15.75% by the member agency which is forwarded to the Public Employees Retirement System on a monthly basis. Therefore, it is the legal position of the City of Gautier that in accordance with the laws of the State of Mississippi, any amounts due and owing by it to the Public Employees Retirement System have been paid in full and are paid in a timely manner. It is the City's legal position that it has no legal liability for the Public Employees Retirement System or any amounts due and owing to the individual members thereof.

NOTES TO BASIC FINANCIAL STATEMENTS

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Gautier, Mississippi was incorporated on June 17, 1986. The City operates under a Council-Manager form of government described under Title 21, Chapter 9, of the Mississippi Code of 1972. The City provides the following services, as authorized by its charter: public safety, public works, public health and welfare, culture, recreation and water, sewer and gas system.

The City's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. For enterprise funds, GASB Statement Nos. 20 and 34 provide the City with the option of electing to apply FASB pronouncements issued after that date. The City has chosen not to apply those pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note. The City implemented the general provisions of GASB Statement Nos. 33 and 34 during fiscal year ended September 30, 2005.

A. Financial Reporting Entity

These financial statements present the City (the primary government) only. The criteria for including organizations as component units within the City's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City of Gautier has no component units.

B. Basic Financial Statements - Government-wide statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's police and fire protection, parks, recreation, public works, and general administrative services are classified as governmental activities. The City's water and sewer system and solid waste management services are classified as business-type activities.

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In the Government-Wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts: invested in capital assets, net of related debt; restricted and unrestricted net position. The City first utilizes restricted resources to finance qualifying activities.

The Government-Wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities (public safety, public works, culture and recreation, etc.). The functions are also supported by general governmental revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Government-Wide Statement of Activities reduces gross expenses (including depreciation) by related program revenues and by operating and capital grants. Program revenues must be directly associated with the function (police, public works, community and youth services, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales or gas taxes, intergovernmental revenues, interest income, etc.).

The City does not allocate indirect costs. An administrative service fee is charged by the General Fund to the Water and Sewer Fund to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net assets resulting from the current year's activities.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by genetic classification within the financial statements.

Governmental Funds:

The focus of governmental fund measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

1. The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
2. Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds include: Fire Protection Fund, Recreation Fund, Tideland Grant Fund, etc.
3. Debt service funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.
4. Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The City had capital projects funds during the year ended September 30, 2015.

Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the City.

1. Enterprise funds are used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. These funds include: Water and Sewer System Fund, Solid Waste Fund and related projects.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual:

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting.

Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

E. Financial Statement Amounts

Cash and Cash Equivalents:

The City has defined cash and cash equivalents to include cash on hand, demand deposits, and cash with fiscal agents. Additionally, each fund's equity in the City's investment pool is treated as a cash equivalent because the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

Capital Assets:

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized.

Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings 20-50 years Water and sewer system 30-35 years Machinery and equipment 7-10 years
Improvements 30-35 years Other infrastructures 10-60 years Vehicles 5 years. GASB Statement No. 34 required the City to report and depreciate new infrastructure assets beginning in 2004. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are the largest asset class of the City. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The retroactive reporting of infrastructure was subject to an extended implementation period and was first effective for fiscal years ended in 2006. As of the year ending September 30, 2015, the City has not implemented retroactive infrastructure reporting. The City implemented the general provisions of GASB No. 34 during 2004.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues:

Substantially all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue based on GASB Statement No. 33. In applying GASB Statement No. 33 to grant revenues, the provider recognizes liabilities and expenses, and the recipient recognizes receivables and revenues when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

Expenditures:

Expenditures are recognized when the related fund liability is incurred.

Compensated Absences:

The City's policy allows employees to accumulate unused sick leave on an unlimited basis and vacation leave up to two years generally. Upon termination, pursuant to State Law, the City may pay up to 30 days of accumulated vacation ; the balance is credited to the employee's public retirement (PERS) account.

Sick leave is not paid upon termination. The City accrues accumulated unpaid vacation leave at the end of the fiscal year. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations.

Interfund Activity:

Interfund activity consists of loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental and proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

By its nature as a local government unit, the City is subject to various federal, state, and local laws and contractual regulations. An analysis of the City's compliance with significant laws and regulations and demonstration of its stewardship over City resources follows.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Fund Accounting Requirements

The City complies with all state and local laws and regulations requiring the use of separate funds. The legally-required funds used by the City include the following:

<u>Fund:</u>	<u>Required By:</u>
CDBG Fund	Grant Agreement
Water & Sewer Fund	Trust Indenture
Solid Waste Fund	State Law

B. Deposits and Investments - Laws and Regulations

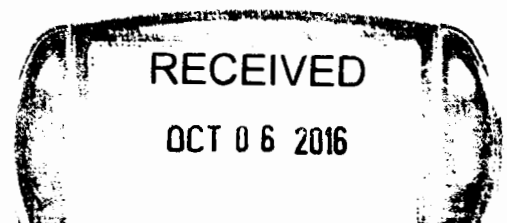

State law requires that all deposits in excess of Federal Depository Insurance Corporation (FDIC) insurance limits be 105% collateralized by U.S. Government obligations or by state municipal obligations that have a fair value of not less than the principal amount of the deposits. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC. The City's deposits were fully insured or collateralized as required by statute at September 30, 2015. At year-end, the respective bank balances totaled \$ 9,602,900. There were no certificates of deposit outstanding at September 30, 2015.

C. Revenue Restrictions

The City has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source:</u>	<u>Legal Restrictions in Use:</u>
Sales Tax	Sewer Rehabilitation Notes
Gasoline Excise & Commercial Vehicle Tax	Street and Road Purposes
Water and Sewer Revenue	Debt Service and Utility Operations
Grant Program Expenditures	Grant Agreements
Ad Valorem Tax	Debt Service

For the year ended September 30, 2015 the City complied, in all material respects, with these revenue restrictions.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

D. Debt Restrictions and Covenants

General obligation debt represents direct obligations issued on a pledge of the general taxing power of the City for the payment of its debt obligations.

NOTE 3. DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS

A. Cash and Investments

The City deposits funds in financial institutions selected by the City's Councilmen in accordance with Mississippi statutes. Allocation of the resulting balance is accomplished with inter-bank transfers. Approved city depositories for the calendar years 2013-2014 were as follows:

	<u>Allocation Percentage</u>
Hancock Bank	52%
Merchant and Marine Bank	38%
Peoples Bank	<u>10%</u>
	<u>100%</u>

By using this multiple financial institution collateral pool, all of the City's deposits at September 30, 2015, fall into the credit risk category of "Insured or collateralized with securities held by the entity or its agent in the entity's name."

Deposits at September 30, 2015, (including restricted deposits) were as follows:

	<u>Bank Balances</u>
Pooled deposits:	
Cash and cash equivalents	\$ 5,678,594
Non-pooled deposits:

Revenue Refunding Bond

Utility System Revenue Refunding Bonds, Series 2012, were issued for the purpose of providing for the refunding of all maturities of the outstanding Combined Utility System Revenue Bonds, Series 2001, issued originally in the principal amount of \$15,680,000 (balance of \$9,185,000 as of the Series 2012 Refunding issue date), and an additional \$ 300,000 to provide for payment of Series 2012 issue costs, all in order to accomplish debt service savings for the City. The bond is payable solely from net revenues from water and sewer system operation.

NOTE 3. DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS (continued)

The original Series 2001 bonds were collateralized by the revenues of the water and sewer system and the various special funds established by the bond ordinances. The ordinances provide that the revenue of the system is to be used first to pay operating and maintenance expenses of the system and second to establish and maintain the Revenue Bond Funds. As long as the bonds were outstanding, the City agreed to fix and maintain rates and collect charges for the use and services of the System, which were to be at all times be sufficient to meet specified requirements. The balance outstanding of the Series 2012 issue date as of September 30, 2015 was \$ 5,385,000.

State Revolving Revenue Bonds are collateralized by the revenues of the water and sewer funds. The City executed several long-term debt agreements with the State of Mississippi Environmental Quality for the purpose of improving the water distribution and sewer collection systems. The City entered into an agreement with the Mississippi State Tax Commission, allowing the Tax Commission to withhold \$43,424 from monthly sales tax revenues as payment for principal and interest on bonds beginning in fiscal year 2006. The balance outstanding on these bonds, as of September 30, 2015, was \$5,177,141.

NOTE 4. OTHER NOTES

A. Property Tax

Property tax is levied on the assessed (appraised) value as compiled by the Jackson County Tax Assessor for all real and business personal property located in the City. The assessment roll is approved and the levy is set before September 30, following a series of public hearings to receive citizen objections.

Resulting taxes are due on or before February 1. Installment payments are accepted on or before February 1, May 1, and August 1. An inter-local government agreement, effective October 1, 1989, provided for billing and collection of City and Pascagoula School District taxes by Jackson County, Mississippi.

Included in revenues are taxes for automobile tags, which are assessed and collected by Jackson County.

Such taxes, less a collection fee, are remitted to the City monthly.

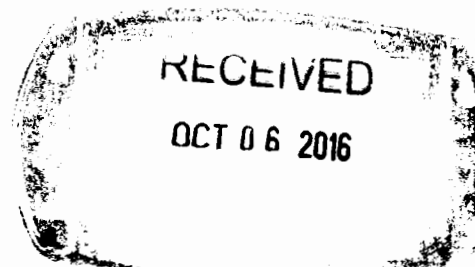

Property tax revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with generally accepted accounting principles have been recognized as revenue.

Increases in taxes are generally limited by State law to 10% of the taxes collected for the prior assessment year, excluding taxes from property added to the tax assessment rolls in the current year.

The City is required by law to assess and collect taxes necessary for operation of the Jackson-George Regional Library System and for service of certain related debt. Jackson-George Regional Library System provides services to residents of inside and outside the geographic boundaries of the City and has a separate appointed and/or elected board. Jackson-George Regional Library System is not included as a component unit of the City's financial reporting entity because the City does not have the ability to exercise control over library operations or approve budgets.

For the year ended September 30, 2015, the City's 2015 tax rate was as follows:

	<u>MILLS</u>
General Fund	26.790
Public Safety	1.800
Library Fund	1.000
Debt Service	<u>8.110</u>
Total	<u>37.700</u>

B. Pension Plan

Defined Benefit Pension Plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description. The City of Gautier contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005, or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, local school districts, counties, and municipalities. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years creditable service for employees who became members of PERS before July, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July, 2011), plus 2.50% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years of the number of years in age the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership of service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

Contributions. PERS' members are required to contribute 9.00%, of their annual covered salary and the Jackson County Utility Authority is required to contribute at an actuarially determined rate. The current rate of 15.75% of annual covered payroll is contributed by the City. These were the rates and the end of FY 2014. The contribution requirements of PERS' members are established and may be amended only by the State of Mississippi Legislature.

The City of Gautier's contributions to PERS for the years ended September 30, 2015 and 2014 were \$658,899 and \$658,605, respectively, representing 100% of the required contributions for the year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2015, the City of Gautier had a liability of \$ 10,389,650 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the City's proportion was .067212 percent, which was a decrease of .001472 from its proportion measured as of June 30, 2014.

For the year ended September 30, 2015, the City of Gautier recognized the pension expense of \$1,238,072.

At September 30, 2015, the City of Gautier, if reported as components of pension expense, deferred outflows of resources and deferred inflows of resources from the following sources:

	<u>General Government</u>
<u>Year ended Jun/September 30</u>	
2016	\$ 249,677
2017	249,677
2018	164,141
2019	<u>(55,810)</u>
Total	<u><u>607,685</u></u>

\$ 174,035 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2016.

Actuarial Assumptions. The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Inflation	3.0 percent
Salary Increases	3.75 – 19.00 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment Expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2016, set forward one year for males.

The actuarial assumption used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the pension July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BASIC FINANCIAL STATEMENTS
September 30, 2015

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Bond	34.00 %	5.20 %
International Equity	19.00	5.00
Emerging Markets Equity	8.00	5.45
Fixed Income	20.00	0.25
Real Assets	10.00	4.00
Private Equity	8.00	6.15
Cash	<u>1.00</u>	(0.50)
Total	<u>100.00</u>	

Discount Rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the entity's proportionate share of the net pension liability to changes in the discount rate. The following table presents the City's proportionate share of the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.75%, as well as what the entity's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	1% Decrease <u>(6.75%)</u>	Current Discount <u>Rate (7.75%)</u>	1% Increase <u>(8.75%)</u>
City's proportionate share of the net pension liability	\$ 10,286,782	\$ 10,389,650	\$ 10,493,546

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

C. Commitments and Contingencies

Related Party Transactions

No known transactions requiring disclosure occurred between the City and its employees or elected officials.

Grants and Awards - the City participates in certain federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any liability for reimbursement which may arise as the result of these audits is not believed by management to be material.

Litigation - various claims and lawsuits are pending against the City. In the opinion of City management, after consultation with legal counsel, the potential loss on all claims and lawsuits will not materially affect the City's financial position.

Contract Commitments Service Contracts:

On May 17, 1988, the City entered into an agreement with Jackson County, under which the County provides animal shelter services for a current fee of \$10,560 per year.

On January 1, 1988, the City entered into an agreement with Mississippi Regional Housing Authority No. VIII (the Housing Authority) for the development of low-income housing units operated by the Housing Authority within the municipality. Under the agreement, all projects are exempt from all real and personal property taxes and special assessments levied by any taxing body. The Housing Authority makes annual payments in lieu of such taxes for the public services and facilities furnished by the City. Annual payments would be the lesser of 10% of shelter rent collected or the amount permitted to be paid by state law in effect on the date payment is made.

The City's existing contract for trash collection services was initiated on September 1, 2012 and later renewed through September 1, 2016. The City has the option to renew the contract for four additional one year terms. The contractor is paid on a per unit basis.

NOTE 4. OTHER NOTES (continued)

Construction Contracts:

The City entered into various construction contracts in the prior Fiscal Year for infrastructure improvements with some estimated remaining commitments at September 30, 2015. The majority of these projects were funded by various state and federal grants. See Note 3. C for more detailed information on these projects.

D. Joint Venture

The City is a member of the joint venture Jackson County Utility Authority (the Authority), which was established by an act of the Mississippi Legislature to design and implement a water pollution abatement plan. The Authority is responsible for the operations and maintenance of the wastewater treatment plants for the cities of Gautier, Moss Point, Ocean Springs and Pascagoula. The Authority enters into subscription agreements with each of the governing bodies and districts to fund its operations.

A synopsis of the Authority's financial statements as of and for the year ended September 30, 2015, a complete copy of which should be on file soon at the administrative offices of the Authority, located at 1225 Jackson Avenue, Pascagoula, Mississippi 39567, are not currently available, and therefore, have not been presented.

CITY OF GAUTIER, MISSISSIPPI
SCHEDULE OF BUDGET-TO-ACTUAL RECONCILIATION
GENERAL FUND
For the Year Ended September 30, 2015

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles is as follows:

Sources/inflows of resources:

Actual amounts (budgetary basis) "available for appropriation" from the budgetary comparison schedule	\$ 10,457,094
---	---------------

Differences - budget to GAAP:

Transfers from other funds and loan proceeds are inflows for budgetary purposes but are not revenues for financial reporting purposes	(518,506)
---	-----------

Accrual basis revenues are not revenues for budget purposes	29,033
---	--------

Special Revenue Fund revenues are included as General Fund revenues for financial reporting purposes	<u>32,044</u>
--	---------------

Total revenues as reported on the Statement of Revenue, Expenditures, and Changes in Fund Balances - Governmental Funds, General Fund	<u>\$ 9,999,665</u>
---	---------------------

Uses/outflows of resources:

Actual amounts (budgetary basis) "total charges to appropriations" from the Budgetary comparison schedule	\$ 8,870,964
---	--------------

Differences - budget to GAAP:

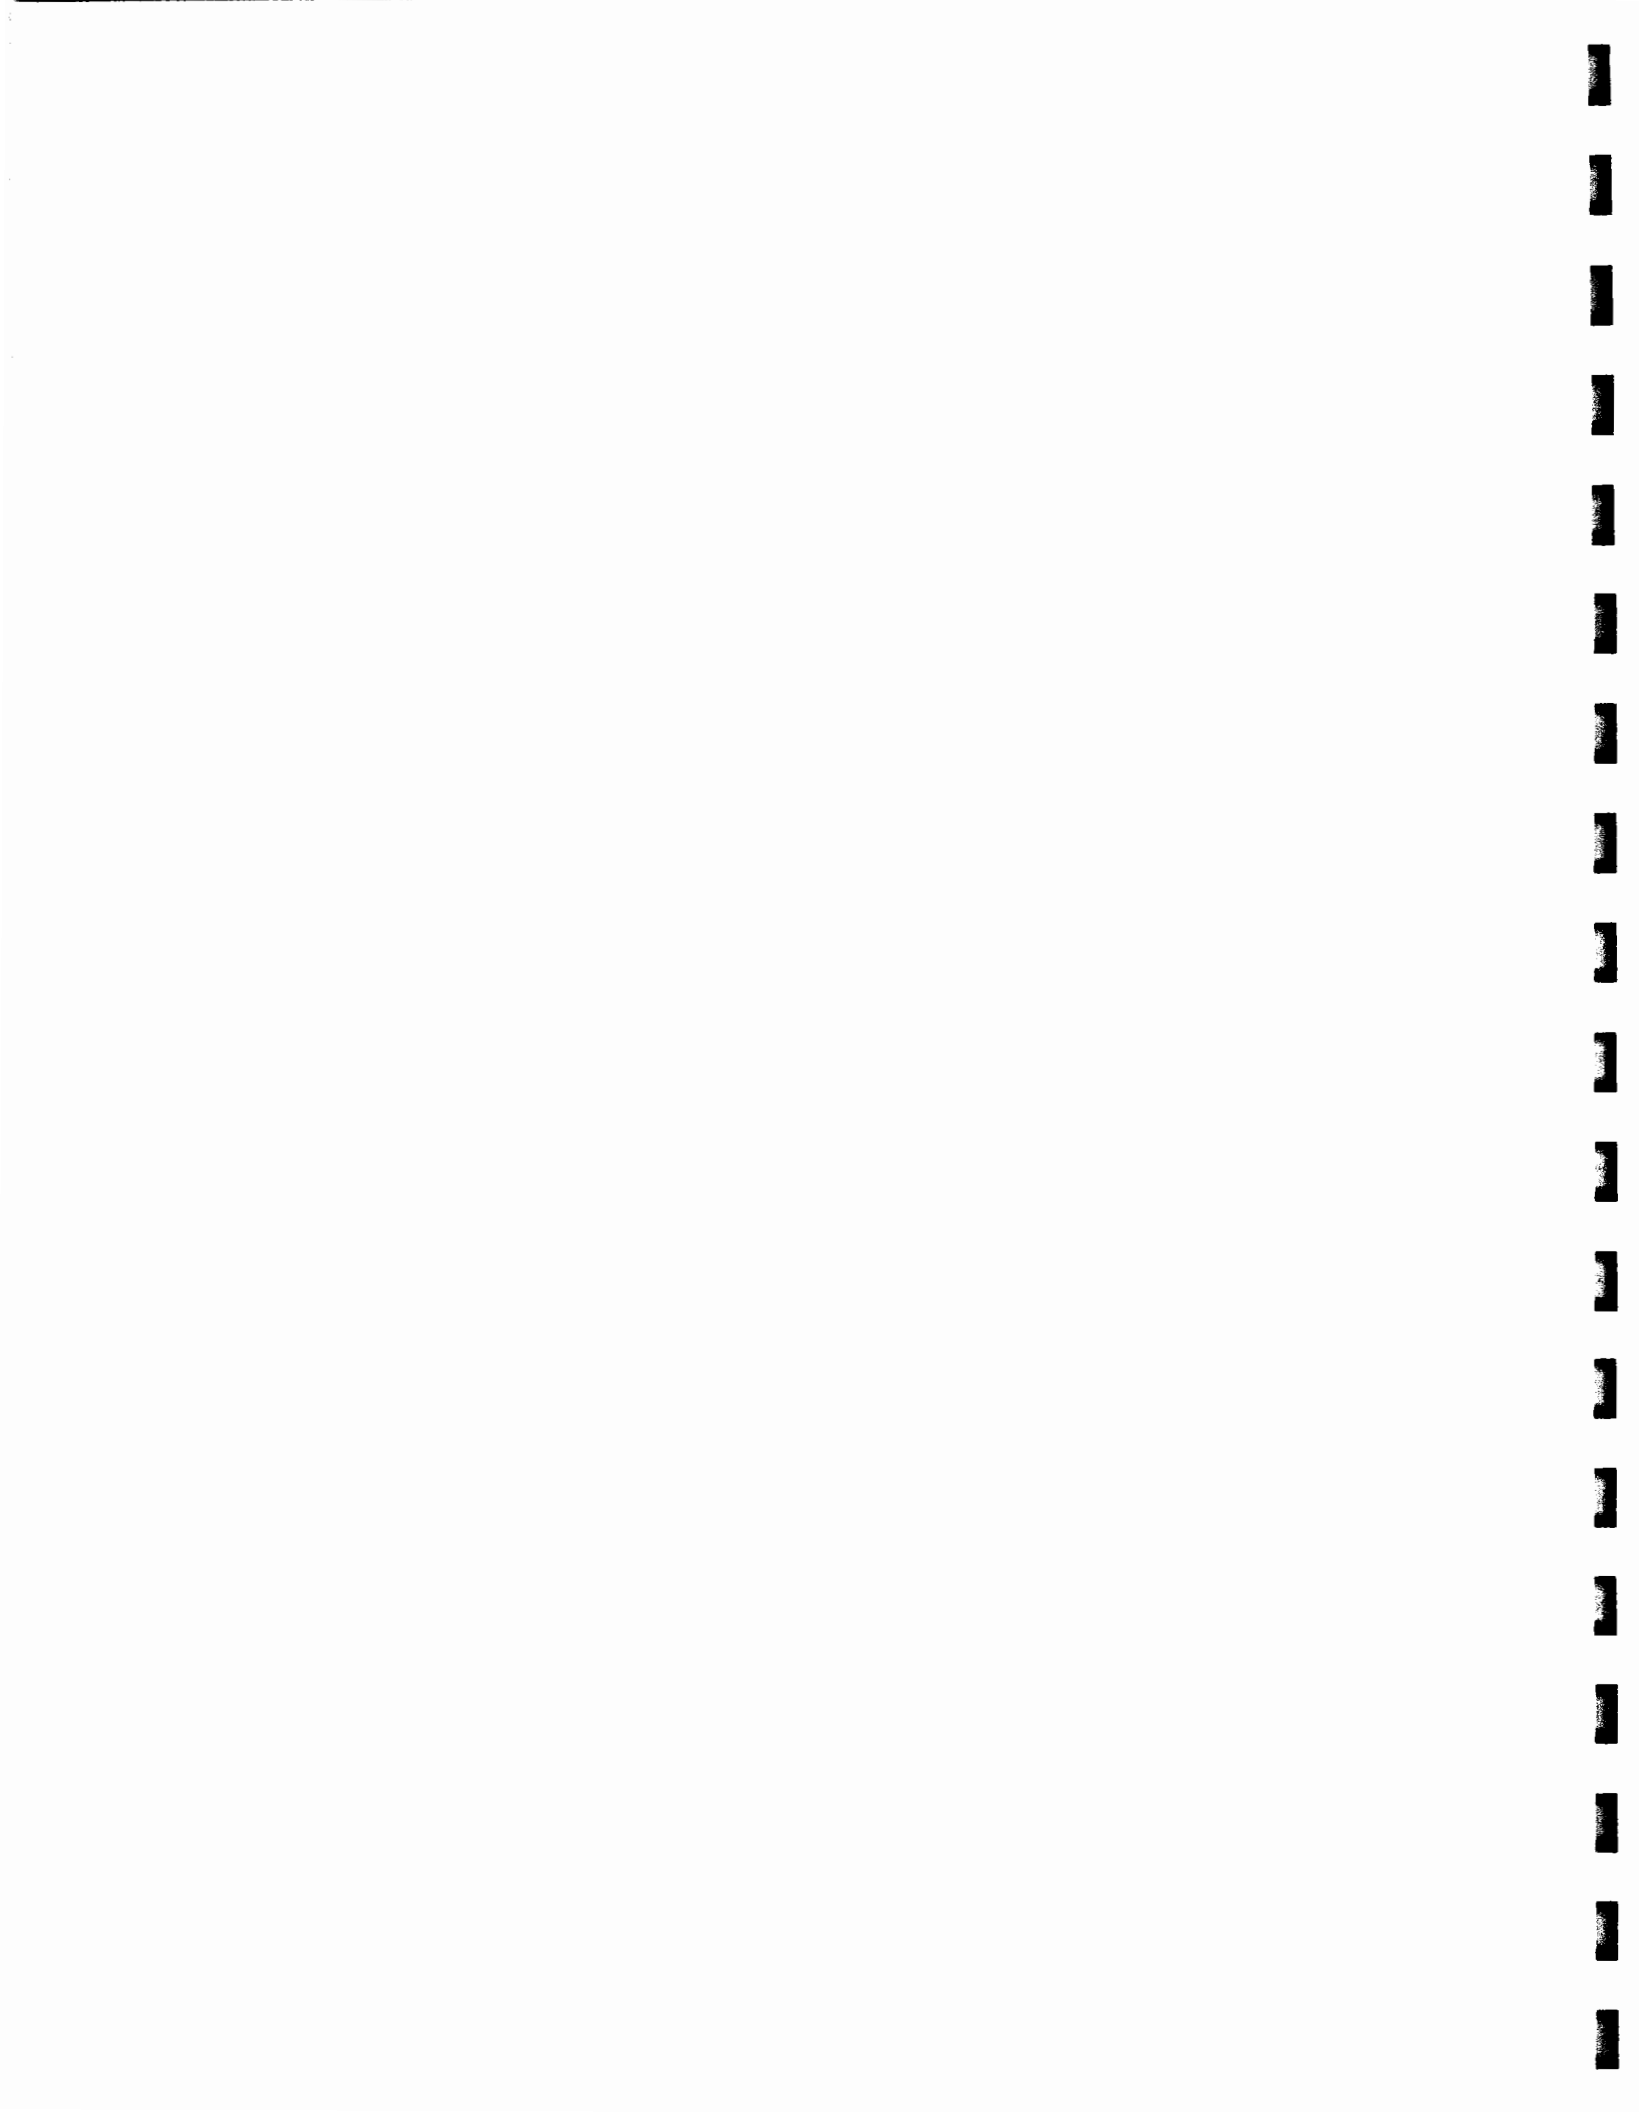

Special Revenue Fund expenditures included in the General Fund for reporting, but not for budget purposes.	569
--	-----

The budget is prepared on the cash basis whereas the fund statements are on the modified accrual basis. This is the effect of expenditure accrual transactions.	5,213

CITY OF GAUTIER, MISSISSIPPI
NOTES TO BUDGETARY COMPARISON SCHEDULE - GENERAL FUND
For the Year Ended September 30, 2015

NOTE 1: BUDGETARY DATA

The procedures used by the City in establishing the budgetary data are as follows:

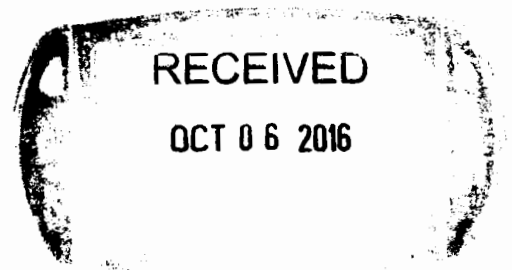

1. The Finance office prepares estimates of available revenue.
2. Department directors submit proposed expenditure budgets to the City Manager by June 1, each year.
3. The City Manager and the department directors review expenditure budgets, and necessary revisions are made.
4. Budgeted revenues and expenditures are balanced, and a summary budget is prepared and presented to the City Council.
5. The City Manager submits the proposed budget to the Board by August 1.
6. A public hearing is conducted to obtain taxpayer comments.
7. The final budget is approved by September 15, and must be published in a local newspaper on or before September 30.
8. Budget revisions are made throughout the year (prior to September), as reallocations of funds are necessary or circumstances change, which dictate the need for a budget amendment.
9. Formal budgetary integration is employed as a management control device during the year for all budgetary funds.
10. The general fund budget is adopted on a cash basis as required by State statute. The appropriated budget is prepared by fund, function and department. The legal level of budgetary controls is the department level. The Finance office exercises budgetary monitoring throughout the fiscal year. An adopted budget may not exceed its appropriated level without Board approval. However, department heads may make transfers of appropriations within a department. Budgetary controls are implemented through the Finance office through the use of budget-to-actual reports. Any purchase requisition that will cause a line item to exceed its budget will be disallowed by the City Manager. The department head will then be required to make an inter-departmental budget transfer or request a budget amendment.

NOTE 2: SURPLUS OF APPROPRIATIONS OVER EXPENDITURES (BUDGET)

Budgeted revenues projected were less than actual for the fiscal year ending September 30, 2015, as shown on Page 54, and through the prudence of the City Council expenditures were less than anticipated. Therefore the overall actual ending fund balance was a surplus that was much greater than was anticipated.

CITY OF GAUTIER, MISSISSIPPI
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
For the Year Ended September 30, 2015

2015-001 The City was still unable to provide sufficient documentary evidence to support the carrying amounts of fixed assets on its books. This finding continues, with the exception of taking a physical inventory, and is noted for the fourth year in Finding 2015-001.

REPORTS ON COMPLIANCE AND INTERNAL CONTROL

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

The Honorable Mayor and Members of the City Council City of Gautier, Mississippi

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Gautier as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise City of Gautier's basic financial statements, and have issued my report thereon dated May 30, 2016.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered City of Gautier's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Gautier's internal control. Accordingly, I do not express an opinion on the effectiveness of City of Gautier's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that are not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified. I did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that I consider to be significant deficiencies. It is listed as item 2015-001.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Governmental Auditing Standards

Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Gautier's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests no disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

City of Gautier's Response to Findings

City of Gautier's response to the findings identified in my audit are described in the accompanying schedule of findings and questioned costs. City of Gautier's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Mayor and Members of the City Council
City of Gautier, Mississippi

Report on Compliance for Each Major Federal Program

I have audited City of Gautier's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of City of Gautier's major federal programs for the year ended September 30, 2015. City of Gautier's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of City of Gautier's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Gautier's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of City of Gautier's compliance.

Opinion on Each Major Federal Program

In my opinion, City of Gautier complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2015.

Report on Internal Control Over Compliance

Management of City of Gautier is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered City of Gautier's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of City of Gautier's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH MISSISSIPPI STATE LAWS AND REGULATIONS**

The Honorable Mayor and Members of the City Council
City of Gautier, Mississippi

I have audited the accompanying financial statements of the City of Gautier, Mississippi (the City) as of and for the year ended September 30, 2015 and have issued my report dated May 30, 2016. I have conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

Compliance

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, I have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of my audit and, accordingly, I do not express such an opinion.

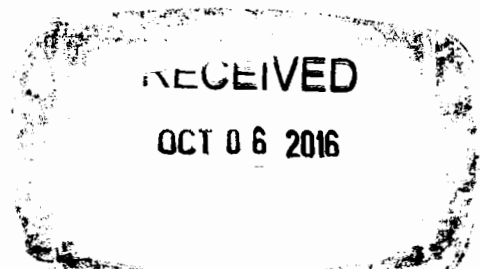

The results of those procedures and my audit of the basic financial statements disclosed the following material instances of noncompliance with state laws and regulations. My findings and recommendations and your responses are as follows:

Finding

The City was not able to generate a ledger providing detailed information of the City's fixed assets. The City should be responsible for custody of its assets and accurately report them in the financial statements. Further, the City has not been reconciling the annual inventory of fixed assets to ledger balances; however, a comprehensive fiscal inventory of fixed assets taken for the Fiscal Year ending September 30, 2015 which is an improvement in the process.

Recommendation

I recommend the City maintain a detailed ledger of fixed assets, along with a listing of additions and deletions during the year. This ledger should be reconciled to the annual inventory. The Office of the State Auditor has prepared forms and checklists to assist municipalities in performing this required inventory; they are available for download on the State Auditor's website.

Auditee's Response

Management recognizes the issue regarding fixed assets. The City Clerk has been and is in the process of making great strides in resolving the problem, having taken a complete asset inventory for Fiscal 2015. Additionally, an individual with comprehensive experience in this area was retained to oversee the fixed asset inventory.

City of Gautier's Response to Findings

City of Gautier's response to the findings identified in my audit is described above. City of Gautier's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This report is intended for the information of the City's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. Accordingly, this report is not suitable for any other purpose.

B. FINDINGS - FINANCIAL STATEMENT AUDIT

Reportable instances of noncompliance and reportable conditions and material weaknesses

2015-001

Finding

Criteria: Generally Accepted Accounting Principles (GAAP) for Governments indicate that they should have adequate records regarding the fixed assets, accumulated depreciation and depreciation expense that detail each class of asset, the description, date purchased or built, the cost (or estimated cost), the depreciation method (if applicable), the depreciation for the year and accumulated depreciation.

CITY OF GAUTIER, MISSISSIPPI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended September 30, 2015

B. FINDINGS - FINANCIAL STATEMENT AUDIT (continued)

Condition: The City was unable to provide sufficient documentary evidence to support the carrying amounts of fixed assets on its books, and they were unable to satisfy GAAP as to the existence and valuation of the City's fixed assets.

Cause: The City has not reconciled the carrying amount of fixed assets on their books to their inventory.

Effect: This weakness in internal control regarding fixed assets leaves the City susceptible to misappropriation and unverifiable values on their books for the related items

Recommendation: I recommend the City implement a fixed assets control system. At the end of the fiscal year, the accounting department should reconcile the general ledger to the inventory control records.

Auditee's Response & Corrective Action Plan: Management recognizes the problem with the fixed assets. The City Clerk and her staff have been and are making great strides in resolving the problem. Staff has been encouraged to secure additional personnel if necessary, who are specifically dedicated to this effort.

Follow-up on prior audit findings: The previous year had the same finding listed as 2014-001.

**C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS
AUDIT**

There were no findings related to the major federal program.
