INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Board of Aldermen
Town of Mantachie, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Mantachie, Mississippi, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's primary government financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

The Town of Mantachie, Mississippi does not maintain complete and adequate subsidiary records documenting the existence, completeness and valuation of the fixed assets included in the governmental activities or the business-type activities. Due to the lack of adequate subsidiary records, we were unable to satisfy ourselves as to the fair presentation of the fixed assets reported in the governmental activities or the business-type activities of the Town of Mantachie, Mississippi at September 30, 2015. In our opinion, except for the fact that many fixed assets have not been reported as referred to in the preceding paragraph, the primary government financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Mantachie, Mississippi as of September 30, 2015, and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 9 to the financial statements, during 2015, the Town of Mantachie, Mississippi implemented new accounting standards prescribed by GASB Statement No. 68 for its pension plan, a multiple-employer, cost-sharing,

defined benefit pension plan that has a special funding situation. Because GASB Statement No. 68 implements new measurement criteria and reporting provisions, significant information has been added to the Government-Wide Statements. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12, the schedule of Town's proportionate share of the net pension liability on page 39 and the schedule of the Town's contributions on page 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Byhalia, Mississippi's basic financial statements. The individual fund financial statements and other supplemental information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements and other supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and other supplemental information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated August 23, 2016, on our consideration of the Town of Mantachie, Mississippi's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Mantachie, Mississippi's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Required Supplemental Information for the Year Ended September 30, 2015

This section of the Town of Mantachie's Financial Report presents our discussion and analysis of the Town's financial performance during the fiscal year ending September 30, 2015. The information contained in this Management Discussion and Analysis has been prepared by management and should be considered in conjunction with the financial statements and the notes thereto, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the Town exceeded its liabilities at September 30, 2015 and 2014 by \$1,249,682 and \$1,631,160. Of this amount, \$143,147 and \$447,793 may be used to meet the Town of Mantachie's ongoing obligations to citizens and creditors.
- As of September 30, 2015 and 2014, the Town of Mantachie's governmental funds reported combined ending fund balances of \$272,122 and \$196,065, an increase of \$76,057 and \$52,210 in comparison to the prior years. Approximately 78.5% and 65.6% of the combined fund balances, \$213,497 and \$128,627 is considered unassigned and is available for spending at the Town of Mantachie discretion.
- The Town of Mantachie's total debt as of September 30, 2015 and 2014 was \$1,666,900 and \$1,722,508. Debt in the amount of \$55,608 and \$45,618 was repaid during the years ended September 30, 2015 and 2014.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts—management's discussion and analysis (this section), the basic financial statements, required supplementary information, and an optional section that presents combining statements for non-major governmental funds. The basic financial statements include two kinds of statements that present different views of the Town of Mantachie.

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town of Mantachie's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Town of Mantachie's operations in more detail than the government-wide statements.

The Governmental Funds statements tell how general government services such as public safety were financed in the short term as well as what remains for future spending. The Town of Mantachie has two Governmental Fund types: the General and Special Revenue.

Proprietary fund statements offer short- and long-term financial information about the activities the government operates in a similar manner as businesses, and include the Water and Sewer System funds.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental funds, each of which are added together and presented in single columns in the basic financial statements.

TOWN OF MANTACHIE, MISSISSIPPI

MANAGEMENT'S DISCUSSION AND ANALYSIS

Government-wide Statements

The government-wide statements report information about the Town of Mantachie as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Town of Mantachie's net position and how they have changed. Net position—the difference between the Town of Mantachie's assets and liabilities—is one way to measure the Town of Mantachie's financial health, or position.

- Over time, increases or decreases in the Town of Mantachie's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- *Governmental activities* –Most of the Town of Mantachie's basic services are included here, such as the police, fire, public works, and parks and recreation departments, and general administration. Property taxes, sales and use taxes, and state and federal grants finance most of these activities.
- *Business-type activities* – The Town of Mantachie charges fees to customers to help it cover the costs of certain services it provides. The Town of Mantachie's water and sewer systems services are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the Town of Mantachie's most significant funds—not the Town as a whole. The "fund" level is where the basic unit of financial organization and operation within the Town of Mantachie exists. Funds are accounting tools that are used to keep track of specific sources of funding and spending for particular purposes. They are the basic budgetary and accounting entities.

- Some funds are required by State law and by bond covenants.
- The Board of Alderman establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

TOWN OF MANTACHIE, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS

The Town of Mantachie has two kinds of funds:

- **Governmental funds**—most of the Town of Mantachie's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that help determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town of Mantachie's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them. The measurement focus of governmental funds is upon determination of financial position and changes in financial position (sources, uses, and balance of financial resources) rather than upon net income determination. These funds are maintained on a modified accrual basis of accounting (explained further in the notes to the financial statements under "Summary of Significant Accounting Policies"). The basic financial statements for governmental funds are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances. The Town of Mantachie utilizes two types of governmental funds: the General Fund and Special Revenue Funds.
- **Proprietary funds**—Services for which the Town of Mantachie charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. The Town has only one type of proprietary funds—enterprise funds. The Town of Mantachie's enterprise funds are the same as its business-type activities yet provide more detail and additional information, such as cash flows. The measurement focus of proprietary funds is upon determination of net income, financial position and change in financial position. These funds are maintained on the accrual basis of accounting. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows are all required statements.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. The Town of Mantachie's assets exceeded liabilities by \$1,249,682 at the close of the most recent fiscal year.

A large portion, 84% and 68%, of the Town's net position reflects its net investment in capital assets (such as land, buildings, machinery, equipment, and infrastructure) for the years ended September 30, 2015 and 2014, respectively. The Town uses these capital assets to provide services to citizens; however, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position represents resources that are subject to external restrictions on how they may be used. The \$143,147 of unrestricted net position provides excess funds to meet the government's ongoing obligations to citizens and creditors.

Unrestricted net position of our business-type activities was \$105,792 at the end of the current fiscal year. These resources cannot be used to add to the net position surplus in governmental activities. The Town of Mantachie generally can only use this net position to finance the continuing operations of the business type activities.

TOWN OF MANTACHIE, MISSISSIPPI

MANAGEMENT'S DISCUSSION AND ANALYSIS

Changes in net position: Approximately 30.70% of the Town of Mantachie's revenue comes from sales tax allocation. (See Table A-2.) This compares to 25.65% for the fiscal year ended September 30, 2014. Another 61.87% comes from fees charged for services and the balance is from investment earnings and other miscellaneous receipts. This compares to 62.92% for the fiscal year ended September 30, 2014.

Table A-2 and the narrative that follows consider the operations of governmental and business-type activities separately.

TOWN OF MANTACHIE, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Activities

Governmental activities increased the Town's net position by \$41,920. Key elements of this increase are as follows:

The largest funding sources for the Town's governmental activities, as a percent of total revenues, are sales tax allocation (60% and 52% for 2015 and 2014 respectively) and charges for services (25% and 25% for 2015 and 2014 respectively).

The largest expense category for the Town's governmental activities is public safety (45% and 44% for 2015 and 2014 respectively).

Business-type Activities

Business-type activities decreased the Town's net position by \$59,076.

Charges for services are the major revenue categories for the enterprise funds. The business-type revenues are comprised of \$398,396 for water and sewer system.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds—The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

General Fund—The general fund is the chief operating fund of the Town. At the end of the current fiscal year, unreserved fund balance of the general fund was \$213,497 which comprised the total fund balance. As a measure of the general fund's liquidity, it may be useful to compare both the fund balance, reserved and unreserved, to total fund expenditures. Total fund balance represents 65% of total fund expenditures. The fund balance increased by \$84,870 during the current fiscal year.

Special Revenue Fund—The special revenue fund is used to account for the programs and projects primarily funded by grants from the federal and state governments. At the end of the current fiscal year, the fund balance was \$58,625, which will be used for future expenditures.

Proprietary Funds—The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The net position of the proprietary funds at the end of the current fiscal year totaled \$735,898.

Budgetary Highlights

The Town's annual budget, which is prepared on an operating basis, includes estimated revenues and annual appropriations for the proprietary funds as well as the governmental funds.

The Town's 2014-2015 general fund operating budget increased by approximately \$8,240 during the current fiscal year. This increase was primarily related to increases in other services and changes in general government and personal services for public safety.

TOWN OF MANTACHIE, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS

The Town has no tax millage for the 2015 fiscal year. The Town has never assessed any form of property tax on the citizens of the Town.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets—In accordance with GASB 34, the Town has recorded depreciation expense associated with all of its capital assets, including infrastructure. The Town's investment in capital assets for its governmental and business-type activities as of September 30, 2015, amounted to \$2,714,810, net of accumulated depreciation of \$3,398,827. This investment in capital assets includes land, buildings, improvements other than buildings, machinery & equipment, infrastructure, and construction in progress.

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental Funds report capital outlay as expenditures. However, in the Government Wide Statement of Activities and Changes in Net Position, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period.		4,733

TOWN OF MANTACHIE, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Mantachie, Mississippi operates under the Home-Rule authority granted by the 1985 Mississippi Legislature. A mayor-board of aldermen form of government is used and the Town provides the following services: public safety (police and fire), street maintenance, sanitation, water and sewer services and general administrative services.

Government-Wide and Fund Financial Statements

The Town's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information on all nonfiduciary activities of the primary government and its component units. The statements distinguish between those activities of the Town that are governmental, which are normally supported by taxes and intergovernmental revenues, and those that are considered business-type activities, which rely to a significant extent on fees and charges for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of net position presents the financial condition of the governmental and business-type activities for the Town at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Town's governmental activities and for the business-type activities of the Town. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Town, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Town.

Fund Financial Statements

During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. The focus of governmental and enterprise fund financial statements are on major funds. Each major fund is presented in a separate column. Non major funds, where applicable, are aggregated and presented in a single column. Fiduciary funds are reported by type.

**TOWN OF MANTACHIE, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible in the current period or soon enough thereafter to pay liabilities of the current period. For this purposes, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Significant revenues considered to be susceptible to accrual include sales tax and various categorical grants.

The Town reports the following governmental funds:

General Fund – The General Fund is used to account for all financial resources of the primary government except those required to be accounted for in another fund. The majority of current operations are financed by this fund. Transfers to other funds and agencies are made from this fund. Monies from other funds may be received unless prohibited by the purpose and object of such funds. This is a major fund.

Special Revenue Fund – The Special Revenue Fund is used to account for the proceeds of specific federal and state grants that are legally restricted to expenditures for specified purposes. This is a non major governmental fund used to report Home Grant Repayment Funds and Fire Rebate Funds.

The Town reports the following major proprietary funds:

The Water and Sewer Fund – This fund is used to account for the Town's water and sewer treatment and distribution system. This fund is responsible for water delivery to the residents of the Town of Mantachie.

The Town has elected to apply all Governmental Accounting Standards Board (GASB) pronouncements, applicable Financial Accounting Standards Board (FASB) pronouncements, and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

TOWN OF MANTACHIE, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Amounts reported as program revenues include: 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues are those which cannot be associated directly with program activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues for the proprietary funds are as follows: sale of water, charges for sewer treatment and sale of gas. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

Financial Reporting Entity

The Town's combined financial statements include the accounts of all Town operations. The criteria for including organizations as component units within the Town's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the Town holds the corporate powers of the organization
- the Town appoints a voting majority of the organization's board
- the Town is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Town
- there is a fiscal dependency by the organization on the Town

Included within the reporting entity:

Town of Mantachie water and sewer system. The rates for user charges and bond issuance authorizations also are approved by the government's governing body and the legal liability for the general obligation portion of the water and sewer debt remains with the government.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Budgets and Budgetary Accounting

The mayor and board of aldermen generally follow the following proposed budget calendar of the State Department of Audit in establishing the budgetary data reflected in the financial statements:

- (1) The mayor and board of aldermen formulate the budget policy at the May board meeting.
- (2) Department budget requests are prepared by the appropriate people and submitted by the July board meeting.
- (3) A proposed budget is presented at the August meeting and a notice of public budget hearings and availability of the budget for inspection is published.
- (4) Between August 15th-30th a public hearing is held and the budget is adopted.
- (5) Between September 1st-15th the budget must be adopted.
- (6) Between September 1st-30th, in accordance with the Town's population, the budget must be posted in three public places.
- (7) And, between September 15th-30th the budget as adopted should be written up, filed with the municipal clerk and public notice given of the availability of the budget for inspection.

Further, budgets are used as management control devices in the General, Special Revenue and Proprietary Funds. These budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except the governmental fund types budget revenues on the cash basis in accordance with Mississippi law and the Proprietary Fund recognizes all expenditures for debt as expense and no depreciation expense is recognized.

Unused appropriations for all of the above annually budgeted funds lapse at the end of the year. The budget amounts shown in the financial statements are the final authorized amounts after appropriate revisions during the year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Expenditures may not legally exceed budgeted appropriations at the activity level except for capital outlays, election expenses and emergency expenditures.

Cash and Investments

The Town deposits funds in the financial institutions selected by the Board of Alderman in accordance with state statutes.

The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the entity's are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Investments - State statutes authorize the Town's investments. The Town is authorized, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county, municipality or school district of this state, when such county, municipal or school district bonds have been properly approved; or in interest-bearing time certificates of deposit with any financial institution approved for the deposit of funds. For reporting purposes, certificates of deposit are classified as investments.

Fund Balance Classification

The Town has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions. In accordance with GASB Statement No. 54, the governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

**TOWN OF MANTACHIE, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Town's Board of Aldermen. These amounts cannot be used for any other purpose unless the Board of Aldermen removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual
- **Assigned:** This classification includes amounts that are constrained by the Town's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Aldermen or through the Board of Aldermen delegating this responsibility to the Town's management through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- **Unassigned:** This classification includes the residual fund balance for the General Fund and all other amounts not included in other spendable classifications.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town of Byhalia's participation in the Public Employees' Retirement System of Mississippi (PERS), and additions to/deductions from the Town of Mantachie's fiduciary net position have been determined on the same basis as they are reported by the Public Employees' Retirement System of Mississippi (PERS). For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employees' Retirement System of Mississippi (PERS). Investments are reported at fair value.

Comparative Data

Comparative data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Town's financial position and operations. However, complete comparative data (i.e., presentation of prior year totals by funds type in each of the statements) have not been presented since their inclusion would make the statements unduly complex and difficult to read.

Encumbrances

State law does not require that funds be available when goods or services are ordered, only when paid for. Due to this circumstance, the Town does not employ an encumbrance system.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, the proprietary fund types consider all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents.

Business Information

The Town of Mantachie, Mississippi provides water and sewer services for customers inside the Town limits of Mantachie as well as a limited number of customers outside the Town limits. Credit is extended to all water and sewer customers.

NOTE 5 - DEFINED BENEFIT PENSION PLAN

Plan Description - Employees of the Town of Mantachie are provided a defined benefit pension plan through the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing agent multiple-employer pension plan. The Public Employees' Retirement System of Mississippi (PERS) was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in the System, and elected members of the State Legislature and the President of the Senate. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits Provided - For the cost-sharing plan participating members who are vested and retire at or after age 60 or those retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.50% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service.

A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

NOTE 5 - DEFINED BENEFIT PENSION PLAN - continued

Retirees and beneficiaries who have been receiving benefit payments for at least one full fiscal year are eligible to receive an annual Cost-of-Living Adjustment (COLA). Designed to help offset the effects of inflation, the COLA is equal to 3% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3% compounded for each fiscal year thereafter.

Employee membership data related to the Plan, as of June 30, 2015 was as follows:

Retirees and Survivors	96,338
Terminated Vested Employees	19,005
Inactive Nonvested Members	118,021
Active Members	<u>157,215</u>
Total	<u><u>390,579</u></u>

Contributions - The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. PERS members are required to contribute 9.00% of their annual covered salary and the Town of Mantachie is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. The contributions are deducted from the employees' wages or salary and remitted by the Town to PERS on a monthly basis. By law, employer contributions are required to be paid. The employer's actuarially determined contribution and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

For the year ended September 30, 2015 the Town of Mantachie's total payroll for all employees was \$211,740. Total covered payroll was \$195,890. Covered payroll refers to all compensation paid by the Town to active employees covered by the Plan.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions - At September 30, 2015, the Town of Mantachie reported a liability of \$483,836 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town of Mantachie's proportion of the net pension liability was based on a projection of the Town of Mantachie's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2015, the Town of Mantachie's proportion was 0.00313%.

NOTE 5 - DEFINED BENEFIT PENSION PLAN - continued

For the year ended September 30, 2015, the Town of Mantachie recognized pension expense of \$75,965. At September 30, 2015, the Town of Mantachie reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Results - Pensions	\$ 7,446	\$ 0
Town Pension Contributions Subsequent to the Measurement Date	8,362	0
Changes of Assumptions	41,681	0
Net Difference Between Projected and Actual Investment Earnings on Investments	28,310	0
Changes in Proportion and Differences Between ER Contributions and Proportionate Share Of ER Contributions	0	11,397
Total	\$ <u>85,799</u>	\$ <u>11,397</u>

The \$8,362 of deferred outflows of resources resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2016.

Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Fiscal Year Ending September 30,	<u>Amount</u>
2016	\$ 20,949
2017	20,949
2018	17,065
2019	7,077
Total	\$ <u>66,040</u>

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75-19.00%, average, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016, with male rates set forward one year.

TOWN OF MANTACHIE, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2015

NOTE 5 - DEFINED BENEFIT PENSION PLAN - continued

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2015, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Broad	34.00%	5.20%
International Equity	19.00%	5.00%
Emerging Markets Equity	8.00%	5.45%
Fixed Income	20.00%	0.25%
Real Assets	10.00%	4.00%
Private Equity	8.00%	6.15%
Cash	1.00%	(0.50)%
Total	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town of Mantachie's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the Town of Mantachie's proportionate share of the net pension liability using the discount rate of 7.75%, as well as what the Town of Mantachie's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	Discount Rate	Town's Proportionate Share of Net Pension Liability
1% decrease	6.75%	\$637,741
Current discount rate	7.75%	\$483,836
1% increase	8.75%	\$356,125

Plan Fiduciary Net Position - Detailed information about the Plan's fiduciary net position is available in the separately issued Public Employees' Retirement System of Mississippi (PERS) financial report.

NOTE 6 - LITIGATION

Certain claims, suits, and complaints arising in the ordinary course of business have been filed or are pending against the Town. In the opinion of the elected officials, all such matters are adequately covered by insurance, or if not so covered, are without merit or are of such kind, or involve such amounts, as would not have a significant effect on the financial position or results of operations of the Town if disposed of unfavorably.

NOTE 7 - RISK MANAGEMENT

The Town of Mantachie, Mississippi is exposed to various risks of losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs of the Town except for certain employment practices liabilities, certain environmental liabilities, worker's compensation liabilities funded through a public entity risk pool, and catastrophic natural disasters that may exceed insurance coverage for which the Town retains the risk of loss.

Risk of loss related to workers compensation for injuries to Town employees is covered through the Mississippi Municipal Workers' Compensation Group, a public entity risk pool. The pool was formed on March 28, 1989, by the Mississippi Nonprofit Corporation Act, pursuant to Section 71-3-75, Mississippi Code Annotated (1972), to provide public entities within the State of Mississippi workers compensation and employer's liability coverage. The Town pays premiums to the pool for its workers' compensation insurance coverage based on total payroll. The participation agreement provides that the pool will be self-sustaining through member premiums. The risk of loss is remote for claims exceeding the pool's retention liability. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. For insured programs there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

NOTE 7 - RISK MANAGEMENT - continued

The Town Attorney estimates that the amount of actual or potential claims against the Town as of September 30, 2015, will not materially affect the financial condition of the Town. Therefore, no provisions have been made for estimated claims. There have been no material claims paid by the Town during the current or prior year.

NOTE 8 - FUND BALANCE RECONCILIATION - GENERAL FUND BUDGET BASIS

Mississippi state law requires, for budget purposes, that the general fund record revenues on the cash basis. Generally accepted accounting principles (GAAP) would require that the revenues be accounted for on the modified accrual basis; therefore, the required budgetary basis would not be considered GAAP. Any accruals of revenues included on the "Combined Statement of Revenues, Expenditures and Changes – All Governmental Fund Types" are eliminated for budget purposes. In the current fiscal year accrued revenues were \$4,371 more than cash revenues.

NOTE 9 - NEW ACCOUNTING STANDARD AND PRIOR PERIOD ADJUSTMENT

During the year ended September 30, 2015, the Town implemented GASB Statement 68 *Accounting and Financial Reporting for Pensions*. The primary objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. Implementation resulted in a direct decrease of \$364,322.

NOTE 10 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 23, 2016 the date which the financial statements were available to be issued.

(2) Changes of assumptions

In 2015 and later, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally, the price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Board of Aldermen
Town of Mantachie, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Mantachie, Mississippi, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise Town of Mantachie, Mississippi's basic financial statements and have issued our report thereon dated July 15, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Mantachie, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Mantachie, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Mantachie, Mississippi's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be material weaknesses as findings 15-1, 15-2, 15-3, 15-4 and 15-5.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Mantachie, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and responses as items 15-1 and 15-4.

Town of Mantachie, Mississippi's Response to Findings

Town of Mantachie, Mississippi's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Town of Mantachie, Mississippi's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Honorable Mayor and Board of Aldermen
Town of Mantachie, Mississippi

We have audited the financial statements of Town of Mantachie, Mississippi as of and for the year ended September 30, 2015 and have issued our report dated August 23, 2016. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed the following material instances of noncompliance with state laws and regulations. Our findings and recommendations and your responses can be found in the accompanying schedule of findings and responses as items 15-1 and 15-4.

The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

This report is intended for the information of the Town's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**TOWN OF MANTACHIE, MISSISSIPPI
SCHEDULE OF FINDINGS AND RESPONSES
September 30, 2015**

FINDING AND SIGNIFICANT DEFICIENCY NO. 15-1:

Criteria: State law requires municipalities of the State to maintain a complete fixed asset inventory listing, to properly tag all fixed assets, and to perform an annual fixed asset inventory.

Cause of Condition: The Town of Mantachie's internal control procedures over fixed assets have not been properly developed and implemented. During our audit testing, we noted that the Town does not maintain a fixed asset inventory system as prescribed by the Mississippi Code. The Town does not maintain a complete fixed asset listing containing items description, location, condition, and inventory tag number. Fixed asset inventory tags are not being properly used by the Town. The Town does not perform an annual fiscal inventory of fixed assets as prescribed by the Mississippi Code.

Recommendation: The Town should begin to develop and implement internal control policies and procedures related to fixed asset management. The Town should perform a fixed asset inventory and prepare a current fixed asset inventory listing as prescribed by state law. The Town should place inventory tags on all existing fixed assets and all fixed assets acquired by the Town in the future.

Response: The Town will attempt to develop and implement better internal controls over its fixed assets.

FINDING AND SIGNIFICANT DEFICIENCY NO. 15-2:

Criteria: A valuable element of the internal control structure is proper segregation of duties of accounting personnel.

Cause of Condition: The Town of Mantachie's internal control structure does not provide for adequate segregation of duties due to the Town's small size and small number of employees.

Recommendation: The Town's mayor and board should continue to be actively involved in a supervisory position in the Town's operations.

Response: The Town will attempt to maximize segregation of duties whenever possible. The mayor and board will remain actively involved in a supervisory position over the Town's operations.

TOWN OF MANTACHIE, MISSISSIPPI
SCHEDULE OF FINDINGS AND RESPONSES
September 30, 2015

FINDING AND SIGNIFICANT DEFICIENCY NO. 15-3:

Criteria: The Town is to maintain adequate internal controls to ensure accurate processing and accounting of transactions for the fair presentation of its financial records.

Cause of Condition: The Town's system for accounting for the transactions of the Town related to court fines and assessments should continue to be improved. During our audit testing, we noted the court fine receivable listing provided by the Town was manually compiled by the Town Clerk and some court fine receivables could be omitted. Additionally, the Town does not currently have an adequate system to document complete accountability for outstanding tickets or ticket books. The current court system is a manual system with limited controls and the Town cannot ensure accountability of issued tickets.

Recommendation: The Town should take necessary steps to continue to improve the system for accounting for court fines, assessments and ticket books. The Town should ensure that one complete system is maintained with all fines and collections posted. The Town should ensure all efforts are made to collect the large amount of outstanding court fines.

Response: The Town will implement adequate internal controls over the processing of court fines and assessments of the Town.

FINDING AND SIGNIFICANT DEFICIENCY NO. 15-4:

Criteria: The Town is to maintain adequate internal controls to ensure accurate processing of transactions for the fair presentation of its financial records. The Town is to comply with state purchasing laws for all applicable purchases over certain dollar thresholds.

Cause of Condition: The Town did not obtain comparative quotes for one purchase during the year, as required by state statutes.

Recommendation: The Town should implement adequate internal controls over all state purchase laws to ensure that the Town strictly adheres to the purchase laws in all departments of the Town.

Response: The Town will take steps necessary to ensure that controls over purchasing are revised to ensure future compliance.

SCHEDULE OF FINDINGS AND RESPONSES
September 30, 2015**

FINDING AND SIGNIFICANT DEFICIENCY NO. 15-5:

Criteria: The Town is to maintain adequate internal controls to ensure accurate processing and accounting for payroll transactions.

Cause of Condition: The Town's system for accounting for payroll processing related compensated time off and holiday pay should continue to improve. During our testing, we noted time sheets were completed by the supervisor and not the employee. We also noted the Town does not currently have the controls in place to ensure accumulated compensated time off and holiday pay is properly accounted for.

Recommendation: The Town should ensure that accumulated compensated time off and holiday pay is properly documented and recorded. The Town should also implement a time sheet system where the employee completes the time card and the supervisor approves it.

Response: The Town will implement adequate internal controls over the processing and record keeping of its payroll related transactions.

- * - Findings No. 15-1, 15-2, 15-3, 15-4 and 15-5 are considered material weaknesses in internal control.
- * - Findings No. 15-1 and 15-4 are considered noncompliance findings.
- * - Findings No. 15-1, 15-2 and 15-3 were also prior year findings.
