INDEPENDENT AUDITOR'S REPORT

To the Board of Alderman
City of Winona, MS
Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of City of Winona, MS, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of Winona, MS, as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Change in Accounting Principle

As discussed in Note 9 to the financial statements, in 2015 the City adopted new accounting guidance, *GASB Statement No. 68, Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-7 and 37-40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Winona, MS's basic financial statements. The other supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Jayles, Powell, Wilson & Hartford, P.A.

August 26, 2016

**CITY OF WINONA, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2015
UNAUDITED**

This Discussion and Analysis of The City of Winona, Mississippi's financial performance provides an overall review of the City's financial activities for the year ended September 30, 2015. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2015 were as follows:

Total net position decreased \$3,042,957, or 31.57%, from 2014. This decrease is mainly due to the implementation of Governmental Accounting Standards Board (GASB) Statement 68, which requires the City to record their proportionate share of the collective net pension liability for the cost-sharing defined benefit pension plan of which they are a member. The resulting restatement for implementation of GASB Statement 68 decreased net position previously reported at September 30, 2014 by \$3,191,502.

Total assets, including deferred outflows of resources, increased by \$238,640, or 1.97%, from 2014.

Total liabilities, including deferred inflows of resources, increased by \$3,331,597, or 66.72%, from 2014.

In total, cash and investments decreased \$86,928, or 16.06% from 2014.

Net capital assets increased \$163,748, or 1.76%, from 2014.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Winona as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

REPORTING THE CITY OF WINONA AS A WHOLE

Statement of Net Position and the Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The Statement of Net Position and the Statement of Activities answer this question.

These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net position and the changes in its position. This change in position is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of City capital assets will also need to be evaluated.

In the Statement of Net Position and the Statement of Activities, all of the City's activities are reported as Governmental Activities or Business-type Activities. Governmental Activities include all of the City's governmental type services including police, fire, streets, administration, and other similar departments. Business-type Activities include the City Water and Sewer Department and Solid Waste Department.

**CITY OF WINONA, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2015
UNAUDITED**

REPORTING THE CITY OF WINONA'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The analysis of the City's major funds begins on Page 11. Fund financial reports provide detailed information about the City's major funds. Based on restrictions on the use of monies, the City has established several funds, which account for the multitude of services provided to the City's residents. However, these fund financial statements focus on the City's most significant funds. In the case of the City of Winona, the City's major funds are the General, City Bond, and Enterprise Water and Sewer Funds. There were no non-major funds during the year ended September 30, 2015.

Governmental Funds

All of the City's governmental type activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to the City's residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

All of the City's business-type activities are reported in the proprietary funds. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. These funds are reported using an accounting method called accrual accounting which records revenues when earned and expenses when incurred. The reporting entity includes the Water and Sewer Fund. The basis of accounting is the same as used in the Statement of Net Position and the Statement of Activities, so no reconciliation of differences is necessary.

The City of Winona as a Whole

Recall that the Statement of Net Position looks at the City as a whole. The following table provides a summary of the City's net position for 2015 compared to 2014.

	September 30,

Increase, (decrease) in net position	<u>\$ 148,411</u>	<u>\$ (113,278)</u>

Governmental Activities

Several revenue sources fund our Governmental Activities. Under the accrual basis of accounting, the City property tax accounted for \$961,688, or 29.44%, of gross governmental revenue; revenues from charges for services and operating grants and contributions accounted for \$659,511, or 20.19%, of gross governmental revenue; and state sales and gas taxes accounted for \$1,198,911, or 36.70%, of gross governmental revenue. The City property tax millage rate of 42.2 mills was approved by the City Board of Aldermen. The City has increased its assessed valuation property tax base by \$3,474,327, or 15.18%, in the last five years.

The City's major expense activity is public safety which includes police and fire. These expenses totaled \$1,244,382, or 38.56%, of total governmental activity expenses.

**CITY OF WINONA, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2015
UNAUDITED**

Business-type Activities

Charges for services fund our Business-type activities. Our proprietary fund includes the Water and Sewer Fund. Total operating revenues increased \$19,098, or 1.51%, from 2014. Total operating expenses decreased \$71,308, or 5.63%, from 2014.

The City's Funds

Information about the City's major governmental funds begins on Page 11. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$3,266,756, including bond and loan proceeds. This was an increase of \$82,909 over the prior year. Total revenues for the General Fund increased \$77,978 from 2014. Total expenditures for the General Fund increased \$27,981, or .84%, from 2014. The fund balance of the General Fund showed a decrease of \$133,176 during the year, from \$221,491 at September 30, 2014, to \$88,315 at September 30, 2015.

Information about the City's proprietary fund begins on Page 15. This fund is accounted for using the accrual basis of accounting. The basis of accounting for this fund is the same as for the city as a whole and the results of operations are discussed above under "Business-type Activities."

CITY OF WINONA, MISSISSIPPI
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES - GOVERNMENTAL FUNDS
FOR THE YEAR ENDED SEPTEMBER 30, 2015

Net change in fund balances - total governmental funds	\$	\$	(129,966)
--	----	----	-----------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.

Expenditures for capital assets	290,360		
Less current year depreciation	(226,134)		64,226

Bond and loan proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond and note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which repayments exceeded proceeds, if any

106,992

Some expenses reported in the statement of activities do not require the use of current available resources and therefore are not reported as expenditures in the governmental funds.

Decrease in accrual for compensated absences			3,485
--	--	--	-------

Governmental funds do not report a liability for accrued interest until it is due and payable. Accrued interest is reported as a liability in the statement of activities.

Decrease in accrued interest liability			3,245
--	--	--	-------

The statement of activities reports an expense equal to the City's proportionate share of the collective net pension expense for the cost-sharing pension plan. However, in the governmental funds, the cost-sharing expenses are measured by the amount of current contributions made to the plan.

This is the amount by which expenditures exceeded current contributions.		(8,429)	
--	--	---------	--

Change in net position - governmental activities	\$	39,553	
--	----	--------	--

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Winona, Mississippi (the "City") have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the City are described below.

1.A. FINANCIAL REPORTING ENTITY

The City's financial reporting entity comprises the following:

Primary Government: City of Winona

In determining the financial reporting entity, the City complies with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, and includes all component units of which the City appointed a voting majority of the units' board; the City is either able to impose its will on the unit or a financial benefit or burden relationship exists.

Blended Component Units

Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the City Board of Aldermen or the component unit provides services entirely to the City. These component units' funds are blended into those of the City's by appropriate activity type to compose the primary government presentation. Currently, the City has no blended presented component units.

Discretely Presented Component Units

Discretely presented component units are separate legal entities that meet the component unit criteria described above but do not meet the criteria for blending. Currently, the City has no discretely presented component units.

1.B. BASIS OF PRESENTATION

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

**CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.B. BASIS OF PRESENTATION (Cont'd)

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Funds

The General Fund is the primary operating fund of the City and always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes.

Capital Project Funds

Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Debt Service Funds

Debt Service Funds account for the accumulation of financial resources for the payment of interest and principle on the general long-term debt of the city other than debt service payments made by enterprise funds. Ad valorem taxes are levied for the payment of principle and interest on the City's general long-term debt.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.B. BASIS OF PRESENTATION (Cont'd)

Proprietary Fund

Enterprise Fund

Enterprise Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the Winona Water and Sewer Fund.

Fiduciary Funds (Not included in governmental-wide statements)

Agency Funds

Agency funds account for assets held by the City in a purely custodial capacity. The reporting entity includes three agency funds. Since agency funds are custodial in nature (i.e., assets equal liabilities) they do not involve the measurement of results of operations. The agency funds are as follows:

Fund	Brief Description
Accounts Payable Clearing	Accounts for funds transferred in to pay claims of the City. Funds are transferred in monthly from Governmental and Proprietary type funds and disbursements are made to the City's vendors.
Payroll Fund	Accounts for disbursement of payroll checks for City. Funds are transferred in monthly from Governmental and Proprietary type funds and payroll checks are disbursed to employees.
Tax Collector's Fund	All property taxes collected are deposited to this fund. Settlements are made monthly from this fund to the various governmental funds which the taxes were levied and the Winona Separate School District.

Major and Nonmajor Funds

The funds further classified as major or nonmajor are as follows:

Fund	Brief Description
Major:	
General	See above for description.
Enterprise Funds:	
Water and Sewer	See above for description

Major and Nonmajor Funds (Cont'd)

Fund	Brief Description
<i>Nonmajor:</i>	
Debt Service Fund:	
City Bond Fund	See above for description.

1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus refers to the type of resources being measured such as current financial resources or economic resources. The basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.
- c. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

**CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Cont'd)

Basis of Accounting (Cont'd)

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

1.D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND EQUITY

Cash and Investments

For the purpose of the Statement of Net Position, "cash" includes all demand, savings accounts, and certificates of deposits of the City. For the purpose of the proprietary fund Statement of Cash Flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less.

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds". Short-term interfund loans are reported as "interfund receivables and payables". Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds". Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. See Note 13 for details of interfund transactions, including receivables and payables at year-end.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include sales and use taxes, franchise taxes, grants, and police fines. Business-type activities report utilities and interest earnings as their major receivables.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND EQUITY

Receivables (Cont'd)

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise tax, and grants and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the governmental-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Utility accounts receivable and interest earnings compose the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Unbilled Revenues

An estimated amount has been recorded for utility services provided but not billed as of the end of the year.

Inventory

Inventory is valued at cost. The inventory in the Water and Sewer Enterprise Fund of \$34,902 consists of expendable supplies held for consumption.

Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position

Deferred Outflows of Resources

Deferred outflows of resources is a consumption of net assets by the government that is applicable to a future reporting period. It has a positive effect on net position, similar to assets.

Deferred Inflows of Resources

Deferred inflows of resources is an acquisition of net assets by the government that is applicable to a future reporting period. It has a negative effect on net position, similar to liabilities.

Deferred outflows should be reported in a separate section following assets, and deferred inflows should be reported in a separate section following liabilities. The statement then arrives at net position which includes the net effects of assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND EQUITY (Cont'd)

Capital Assets (Cont'd)

Government-wide Statements

In the government-wide financial statements, general capital assets including major general infrastructure assets acquired during the current year are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Assets capitalized, not including infrastructure assets, have an estimated useful life of over three years. All infrastructure asset additions are capitalized.

Prior to October 1, 2003, and the implementation of GASB 34, governmental fund's major general infrastructure assets were not capitalized. In accordance with the provisions of GASB 34, the City has elected not to report major general infrastructure assets acquired before the adoption of GASB 34, or October 1, 2003. Accordingly, those assets and depreciation thereon have not been reported in these financial statements.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	25-50 years
Improvements	10-50 years
Machinery and Equipment	3-20 years
Utility System	25-50 years
Infrastructure	25-50 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Restricted Assets

Restricted assets include cash that is legally restricted as to their use. The primary restricted assets are related to revenue bond reserve accounts.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND EQUITY (Cont'd)

Long-term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of general obligation bonds, revenue bonds, notes payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

The City's policies regarding vacation time permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

Equity Classifications

Government-wide Statements

Equity is classified as net position and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND EQUITY (Cont'd)

Equity Classifications (Cont'd)

Fund Statements

Governmental fund equity is classified as fund balance. In the Balance Sheet of governmental funds, fund balance is reported in five possible classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent. The classifications are as follows:

Nonspendable

The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash (e.g. inventories and prepaid assets).

Restricted

Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Committed

The committed fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision making authority.

Assigned Fund Balance

The assigned fund balance includes amounts constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned Fund Balance

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned. Expenditures may be incurred for purposes for which both restricted, if any, and unrestricted (committed, assigned, or unassigned) amounts are available. Composition of the ending fund balance will be determined by applying the following: In those instances where both restricted and unrestricted amounts are available, restricted amounts will be considered to have been spent first, followed by committed amounts, followed by assigned amounts, and then unassigned amounts.

Proprietary fund equity is classified the same as in the government-wide statements.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

1.E. REVENUES, EXPENDITURES AND EXPENSES

Property Tax

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied by the following October 1 and are payable by the following February 1. The City bills and collects its own property taxes except for automobile taxes, which are collected by the county and remitted to the city.

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenses are classified as follows:

Governmental Funds – By Character:	Current (further classified by function)
	Debt Service
	Capital Outlay

Proprietary Fund – By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

NOTE 2 – PROPERTY TAXES COLLECTED FOR SEPARATE SCHOOL DISTRICT

State law requires the municipality to exercise its taxing authority for the benefit of other governing authorities, which are not part of the reporting entity. As provided the municipality must levy specified ad valorem taxes as directed by the other governing authority and turn all proceeds over to it.

Ad valorem taxes collected and settled in accordance with this legal requirement are not recognized as revenues and expenditures of the municipality. The accompanying supplemental information schedule "Reconciliation of Original Ad Valorem Tax Rolls to Fund Collections" provides specific assessment and settlement information. For the reported fiscal year the following ad valorem tax levies were made in accordance with this legal requirement.

Other Governing Authority: Winona Separate School District

<u>PURPOSE OF LEVY</u>	<u>MILLS LEVIED</u>

NOTE 3: CASH AND CASH EQUIVALENTS

A summary of cash balances including bank account deposits and cash on hand at September 30, 2015, follows:

	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Water and Sewer Fund</u>	<u>Total</u>
Petty cash on hand	\$ 1,025	\$	\$ 842	\$ 1,867
Bank deposits – unrestricted	71,120	3,831	94,884	169,835
Bank deposits – restricted				
Total bank deposits	<u>71,120</u>	<u>3,831</u>	<u>94,884</u>	<u>169,835</u>
Total cash	<u>\$ 72,145</u>	<u>\$ 3,831</u>	<u>\$ 95,726</u>	<u>\$ 171,702</u>

In accordance with state statutes, the City maintains deposits within approved limits at those depositories authorized by the Board of Aldermen. State statutes require that all of the City's deposits be protected by collateral or insurance equal to 105% of the total deposits not covered by insurance. The City's deposits are collateralized through the Statewide Collateral Pool Program sponsored by the State of Mississippi Treasury Department.

At September 30, 2015 all of the City's funds on deposit in financial institutions were insured or collateralized per the schedule below:

	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Total</u>
Carrying amount per books	\$ 169,835	\$	\$ 0	\$ 169,835
Balance per bank	\$ 187,931	\$	\$ 0	\$ 187,931

The categories of risk are described as follows:

Category 1 - Insured by Federal Deposit Insurance Corporation

Category 2 - Collateralized with securities held by the pledging financial institution's agent in the City's name

Category 3 - Uncollateralized

Cash and cash equivalents at September 30, 2015 is shown on the Statement of Cash Flows – Proprietary Fund as \$95,726. This amount is shown on the Statement of Net Position – Proprietary Fund as current asset cash balance of \$95,726 and restricted asset cash balance of \$0.

NOTE 4 – INVESTMENTS:

State statutes, City bond ordinances and city resolutions authorize the City's investments. Generally, the City is authorized to invest in bonds or other direct obligations of the U.S. Government or the State of Mississippi, or of any county, municipality, or school district of this state meeting certain qualifications or in obligations issued or guaranteed in full as to principal and interest by the U.S. Government.

Water and Sewer Enterprise Fund investments consist of the following at September 30, 2015:

	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>
282,565 units Federated US Treasury Cash Reserve Fund	\$ 11,615	\$ 270,950	\$ 282,565

All of the above investments at September 30, 2015, were held by a bank trust department in the City's name (Category 2).

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 8-PRIOR PERIOD ADJUSTMENT

The City of Winona, MS implemented GASB 68 during the year ended September 30, 2015. The new accounting standard establishes accounting and financial reporting standards that require employers that participate in cost-sharing defined benefit pension plans to record a liability and expense equal to their proportionate share of the collective net pension liability and expense for the cost-sharing plan. The resulting restatement of net position at September 30, 2014 is computed as follows:

Net pension liability (measurement date)	\$	2,879,295
Deferred inflows		417,375
Deferred outflows		<u>(105,168)</u>
Total change in net position	\$	<u>3,191,502</u>

NOTE 9 - DEFINED BENEFIT PENSION PLAN:

Plan Description: The City of Winona, MS contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy: PERS members are required to contribute 9% of their annual covered salary and the City of Winona, MS is required to contribute at an actuarially determined rate. The current rate of employer contribution is 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The City of Winona, MS's contributions to PERS for the years ending September 30, 2015 and 2014 were \$223,235 and \$229,190, respectively, and these amounts equal the required contributions for each year.

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years of creditable service for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost of Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired plan member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

At September 30, 2015, the City of Winona, MS reported a liability of \$3,553,491 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015

NOTE 9- DEFINED BENEFIT PENSION PLAN: (Cont'd)

The City of Winona, MS's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2015, the City of Winona, MS's proportion was .022988 percent.

For the year ended September 30, 2015, the City of Winona, MS recognized pension expense of \$233,575. At September 30, 2015 the City's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 82,557	\$
Changes of assumptions	306,121	
Net difference between projected and actual earnings on pension plan investments		95,441
City of Winona contributions subsequent to the measurement date	<u>58,413</u>	<u></u>
Totals	<u>\$ 447,091</u>	<u>\$ 95,441</u>

\$58,413 reported as deferred outflows of resources related to pensions resulting from the City of Winona, MS's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:

2016	\$ 99,167
2017	95,723
2018	46,367
2019	<u>51,979</u>
	<u>\$ 293,236</u>

Actuarial Assumptions. The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increase	3.75-19.00 percent, including inflation
Investment rate of return	7.75 percent, net of pension investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016 with males set forward one year.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015 AND 2014

NOTE 9 - DEFINED BENEFIT PENSION PLAN: (Cont'd)

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Broad	34%	5.20%
International Equity	19	5.00
Emerging Markets Equity	8	5.45
Fixed Income	20	0.25
Real Assets	10	4.00
Private Equity	8	6.15
Cash	<u>1</u>	<u>(.50)</u>
Total	<u>100%</u>	

Discount Rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City of Winona, MS's proportionate share of the net pension liability to changes in the discount rate. The following presents the City of Winona, MS's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City of Winona, MS's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
City of Winona's proportionate share of the net pension liability	\$ 4,683,827	\$ 3,553,491	\$ 2,615,524

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

NOTE 10: BOND PREMIUMS

The unamortized bond premiums at September 30, 2015 were \$6,622.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015 AND 2014

NOTE 11: RISK MANAGEMENT

The City of Winona has entered into a joint and several relationships with other public entities in the Mississippi Municipal Worker's Compensation Group and the Mississippi Municipal Liability Group. Each member shares responsibility for premium contribution based on payroll and their own loss experiences as well as assessments needed for fund inadequacies. They also share the benefit of fund surplus in the form of dividends when applicable.

The City of Winona is a member of the Mississippi Municipal Association Unemployment Compensation Group Account with Unemployment Compensation Control Systems, Inc., of Mississippi as its agent.

NOTE 12: COMMITMENTS AND CONTINGENCIES

The City participates in federally assisted grant programs, principal of which are Community Development Block Grants and HOME grants. These programs are subject to program compliance audits by grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or applicable fund. The City expects amounts disallowed, if any, to be immaterial.

The City is occasionally involved in various other legal actions arising in the normal course of business. Any such cases would be turned over to the City's insurer's attorneys, who would handle the defense of these claims. In the opinion of management, there were currently no such matters outstanding that would have a material effect upon the financial position of the City.

NOTE 13: INTERFUND RECEIVABLES AND PAYABLES

The following schedule as of September 30, 2015 represents interfund receivables and payables:

	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Governmental Funds:		
Due to proprietary funds	\$	\$ 12,380
Proprietary Funds:		
Due from governmental funds	<u>12,380</u>	<u> </u>
Total	<u>\$ 12,380</u>	<u>\$ 12,380</u>

NOTE 14: FUND EQUITY

Fund Balance:	<u>Amount</u>
General Fund assigned for:	
Fire protection	<u>\$ 10,093</u>
Clock project	<u>\$ 2,071</u>

The amount assigned for fire protection is to be used only by the fire department and generally is used for fire department and maintenance.

The clock project assignment funds are donations received for the City's clock restoration purposes.

CITY OF WINONA, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015 AND 2014

NOTE 15 - RESTRICTED ASSETS:

Certain cash and investments in the City can be restricted as to use by donors or bond ordinances. The Enterprise Fund 2011 Revenue Refunding Bond ordinance requires that the City provide and maintain a Bond Fund, Depreciation Fund and a Contingent Fund. The Bond Fund requires a Debt Service Account and a Debt Service Reserve Account. The Debt Service Account is established for the City to set aside on a monthly basis an amount which will provide a sum for the payment of the semi-annual interest and annual principal payments on the refunding bonds when they become due. The Debt Service Reserve Account was required by the 2011 Revenue Refunding Bond ordinance to be funded with a portion of the sale proceeds of the 2011 bonds. Moneys in the Debt Service Reserve Account can only be used for the purpose of paying maturing principal or interest on the Bonds when the moneys in the Debt Service Account are insufficient and for no other purpose. In the event that amounts credited to the Debt Service Reserve Account are used to pay maturing principal or interest on the Bonds when moneys on hand in the Debt Service Account are insufficient, the City shall restore the amounts credited to the Debt Service Reserve Account to the amount of the Reserve Account requirement. The Debt Service Reserve Account requirement is equal to the lesser of (1) 10% of the principal amount of all bonds, (2) the maximum annual debt service requirement on a bond year basis or (3) 125% of the average annual debt service on a bond year basis. The Depreciation Fund is to be maintained with a balance of \$5,000 and shall be used for the purpose of paying the cost of repairing the system when needed. The Contingent Fund is to be maintained with a balance of \$5,000 and shall be used for the purpose of paying the cost of unforeseen contingencies arising in the operation and maintenance of the system, including the construction of reasonable and proper improvements.

	<u>Cash</u>	<u>Investments</u>	<u>Total</u>
Enterprise Fund:			
Revenue Refunding Bond Reserves:			
Bond Fund:			
Debt Service Accounts	\$ 260,950		\$ 260,950

CITY OF WINONA, MISSISSIPPI
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED SEPTEMBER 30, 2015

NOTE 1 - SCHEDULE OF THE CITY OF WINONA, MS'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the fiscal year presented.

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASS 68 was implemented in the fiscal year ended September 30, 2015, and, until a full 10-year trend is compiled, the Commission has only presented information for the years in which information is available.

NOTE 2 - SCHEDULE OF THE CITY OF WINONA, MS'S CONTRIBUTIONS

The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the fiscal year presented.

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB 68 was implemented in the fiscal year ended September 30, 2015, and, until a full 10-year trend is compiled, the Commission has only presented information for the years in which information is available.

NOTE 3 - BUDGETS AND BUDGETARY ACCOUNTING

Budgets are adopted on the cash basis of accounting.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 15, the City Manager submits to the Mayor and Board of Aldermen a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. As required by State law, the City conducts public hearings on the budget.
3. The budget as submitted is reviewed by the Mayor and Board of Aldermen and necessary revisions are made to the budget. Then the budget is approved prior to September 15.
4. The budget is formally revised no later than July of each year or any time a deficit is indicated.
5. Budgetary comparisons are employed by management as a management control device during the year for all governmental funds and Water and Sewer Enterprise Fund. The budget and actual comparisons are formally presented in the financial statements to the Mayor and Board of Aldermen. Budgetary control over other funds is achieved through applicable state law, bond ordinances, or other restrictions imposed when the fund is created.

Budgeted amounts are as originally adopted or as amended by the Board of Aldermen as of September 30, 2015.

The City's budget is adopted on the cash basis of accounting modified to include recognition of expenditures paid within 30 days after year-end as required by the State of Mississippi. This method is not consistent with U.S. generally accepted accounting principles ("GAAP").

The Budgetary Comparison Schedule – Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (non-GAAP) basis and variances between the final budget and the actual amounts. The schedule is presented for the general fund and city bond and interest fund only.

The City is showing deficits in four departmental purpose items of the General Fund. An amendment was made to cover the deficits; however, the amendment was insufficient to adequately cover the deficits. GAAP basis General Fund balance at year-end was not a deficit.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

To the Honorable Mayor and
Board of Aldermen
City of Winona, Mississippi

We have audited the basic financial statements of the City of Winona, MS as of and for the year ended September 30, 2015 and have issued our report dated August 26, 2016. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed the following material instances of noncompliance with state Laws and regulations. Our findings and recommendations and your responses are as follows:

Finding: The City is required by Section 21-35-25, Miss. Code Ann. (1972) to amend the budget if it appears that a deficit is indicated due to excess expenditures of a budget item. The City is showing over-expenditures in four departmental purpose items of the General Fund. An amendment was made to revise the budget to correct the deficits; however, the amendment was insufficient to cover the deficits. This finding also occurred in the prior year.

Recommendation: The City should comply with Section 21-35-25, Miss. Code Ann. (1972), by making necessary amendments to the budget no later than the regular July meeting of the board of governing authorities.

City's Response: City management believed the amendment made would be sufficient to cover any over-expenditures. Management will strive to be in compliance in the future.

The instances of noncompliance of the prior year have been corrected by management unless it is specifically stated otherwise in the findings and recommendations noted above.

The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

This report is intended for the information of the City's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Taylor, Powell, Wilson & Hartford, P.A.
