#### INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Board of Commissioners City of Clarksdale Clarksdale, Mississippi

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Clarksdale, Mississippi, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the

REC

financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Clarksdale, Mississippi, as of September 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information schedule of City's proportionate share of net pension liability, and schedule of the City's contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

			•

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Clarksdale, Mississippi's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 31, 2017, on our consideration of the City of Clarksdale, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Clarksdale, Mississippi's internal control over financial reporting and compliance.

	S		

#### CITY OF CLARKSDALE, MISSISSIPPI NOTES TO FINANCIAL STATEMENTS

#### Note 1: Summary of Significant Accounting Policies

The accompanying financial statements of the City of Clarksdale (City) have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

#### A. Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The following is a brief review of each potential component unit addressed in defining the government's reporting entity.

The following represent entities to which the City has a combined interest in conjunction with another government and therefore, are excluded from the reporting entity:

<u>Carnegie Public Library</u> – The City has a joint interest with Coahoma County, which is the oversight agency of the library. Annually, the City levies a 3-mill tax in support of the total library system. This levy is remitted to the library as received on a monthly basis.

<u>Clarksdale-Coahoma County Airport</u> is a joint venture of both the City of Clarksdale and Coahoma County. Each entity shares an equal interest in the funding of the airport.

Excluded from the reporting entity:

<u>Clarksdale Municipal Separate School District</u>. This potential component unit has a separate elected board and provides services to residents, generally within the boundaries of the City. This unit is excluded because the City does not have the ability to exercise influence or control over daily operations or approve budgets.

		•

# Note 1: Summary of Significant Accounting Policies (Continued)

### A. Reporting Entity (Continued)

Discretely presented component unit:

<u>Clarksdale Public Utilities</u> is a legally separate entity for which the City is financially accountable. The members of Clarksdale Public Utilities (CPU) governing board are appointed by the City. Clarksdale Public Utilities', which has a September 30 year-end, is presented as if it were a proprietary fund (discrete presentation) on a separate column in the City's government-wide financial statements in order to emphasize that it is legally separate from the city. Complete financial statements for CPU may be obtained from the entity's administrative offices.

### **B.** Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government and its component unit. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities.

The statement of activities presents a comparison between direct expenses and program revenues for the different functions of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

AUG 1 4 2017

		•	•

# Note 1: Summary of Significant Accounting Policies (Continued)

### B. Basis of Presentation (Continued)

Fund Financial Statements: The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues, and expenditures or expenses. City resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into generic fund types and broad fund categories as follows:

#### **GOVERNMENTAL FUNDS**

<u>General Fund</u> – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Special Revenue Funds</u> – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted for specific purposes.

<u>Capital Projects Funds</u> – Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

<u>Debt Service Funds</u> – Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service.

#### FIDUCIARY FUNDS

Employee Benefit Fund and Agency Fund – The Employee Benefit Fund and Agency Fund are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and/or other funds. The Employee Benefit Fund is accounted for in essentially the same manner as governmental funds. The Agency Fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations.

	•
	-

# Note 1: Summary of Significant Accounting Policies (Continued)

### C. Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are five thousand dollars and over. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Buildings	40
Machinery and equipment	3-5
Furniture and fixtures	7
Vehicles	5
Improvements	20

Depreciation of buildings, equipment and vehicles in the proprietary fund is computed using the straight-line method. Depreciation rates from 5% to 33% are used for various asset classifications.

### D. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

	• ,

# Note 1: Summary of Significant Accounting Policies (Continued)

### E. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The modified accrual or accrual basis of accounting, as appropriate, is used in measuring financial position and operating results:

Governmental fund revenues and expenditures are recognized on the modified accrual basis. Revenues are recognized in the accounting period in which they become available and measurable. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for interest on general long-term debt, which is recognized when due.

Proprietary fund revenues and expenses are recognized on the accrual basis. Revenues are recognized in the accounting period in which they are earned and become measurable; expenses are recognized in the period incurred, if measurable.

Fiduciary fund revenues and expenses or expenditures (as appropriate) are recognized on the basis consistent with the fund's accounting measurement objective. Expendable Trust Funds are accounted for on the modified accrual basis. Agency Fund assets and liabilities are accounted for on the modified accrual basis.

### F. Budgets

Budgets are adopted on a basis consistent with state statutes which require the cash basis of accounting for revenues and the modified accrual basis of accounting for expenditures. Annual appropriated budgets are adopted for all funds. Project-length financial plans are adopted for all capital projects funds. The budget of the City has been amended in accordance with procedures adopted by the State of Mississippi.

The Miss. Code Ann. (1972) prescribes cash basis reporting of revenue for budgets and budgeting of expenditures to be disbursed within thirty days after year end (with an exception for construction in progress).

	-		
		•	•

# Note 1: Summary of Significant Accounting Policies (Continued)

#### G. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

#### H. Encumbrances

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

# I. Cash, Other Deposits and Investments

Cash and other deposits

The City's cash and other deposits are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The City deposits excess funds in the financial institutions selected by the city commissioners.

#### Investments

The City is allowed, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county or municipality of this state, when such county or municipal bonds have been properly approved; or in interest-bearing time certificates of deposit or interest-bearing accounts with any financial institution approved for the deposit of state funds; or in any type of investment permitted by Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972).

For accounting purposes, certificates of deposit and interest-bearing accounts are classified as cash and other deposits.

	•	•

# Note 1: Summary of Significant Accounting Policies (Continued)

### J. Interfund Receivables and Payables

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds."

#### K. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed. Inventory maintained in the enterprise funds are valued at lower of cost or market for diesel and fuel oil utilizing the first-in/first-out method. All other materials and supplies are valued at average cost.

### L. Compensated Absences

The City has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements and Proprietary Funds financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured, for example an employee resigns or retires.

# Note 1: Summary of Significant Accounting Policies (Continued)

#### M. Net Position

GASB 63 requires the classification of net position into three components – net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- a. Net Investment in Capital Assets This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount should not be included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources should be included in the same net position component (restricted or unrestricted) as the unspent amount.
- b. Restricted This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- c. Unrestricted This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

### N. Fund Balance

GASB 54 requires the classification of fund balance into five components – nonspendable, restricted, committed, assigned and unassigned. These classifications are defined as follows:

a. Nonspendable fund balance - amounts that cannot be spent due to form such as inventories, prepaid amounts, etc...

### Note 1: Summary of Significant Accounting Policies (Continued)

The City does not have any nonspendable fund balances.

b. Restricted fund balance - amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation.

The City has the following restricted fund balances: restricted for debt service and restricted for capital projects.

c. Committed fund balance - amounts constrained for a specific purpose by an entity using its highest level of decision-making authority. It would require the same group to remove or change the constraints placed on the resources.

The City does not have any committed fund balances.

d. Assigned fund balance - for all funds other than the general fund, any remaining positive amounts not classified as nonspendable, restricted or committed.

The City has the following assigned fund balances: assigned for fire department, assigned for garbage, assigned for landfill, and assigned for special revenues.

e. Unassigned fund balance - for the general fund, any remaining amounts not classified as nonspendable, restricted or committed.

When both restricted and unassigned resources are available for use, it is the City's policy to use restricted resources first, and then unassigned resources as they are needed.

### O. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

	• •

# Note 1: Summary of Significant Accounting Policies (Continued)

#### P. Grant Revenues

Revenues from Federal, State and Other grants, the purpose for which is to fund specific City expenditures, are recognized at the time the specific grant is received or when the City has expended funds for which it is entitled to reimbursement for under any such grants.

#### Q. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Note 2: Property Tax

The Mayor and Board of Commissioners, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes attach an enforceable lien on the property as of January 1<sup>st</sup> and personal property taxes become a lien on March 1<sup>st</sup>. Taxes on both real and personal property, however, are due on or before February 1<sup>st</sup> of the next succeeding year. The city taxes are collected and remitted to the city by the Coahoma CountyTax Collector.

The distributions of taxes to funds were made in accordance with prescribed tax levies, and uncollected taxes were properly handled.

Delinquent taxes are not recorded as assets.

#### Note 3: Legal Compliance – Budgets

As provided for in the City Charter, prior to August 1<sup>st</sup>, the City Council submits a proposed operating budget for the fiscal year commencing the following October 1<sup>st</sup>. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted at City Hall to obtain taxpayer comments. Prior to September 15<sup>th</sup>, the budget is legally enacted through adoption by the City Council. Amendments to the budget during the year are made by the council in accordance with applicable state statutes including publication requirements.

		* 3

### Note 4: Cash, Other Deposits and Investments

The carrying amount of deposits with financial institutions was \$4,291,226 and the bank balance was \$4,434,756 as of September 30, 2016. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the City's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the City.

### Note 5: Inventory

Inventory at the City of Clarksdale consists primarily of supplies and parts for repairs and maintenance of city owned property. Inventory at September 30, 2016, consisted of the following:

Clarksdale Public Utilities – Discretely presented component unit:

Fuel \$ 1,851
Materials and supplies \$ 319,312

Total \$321.163

### **Primary Government Activities:**

<u>General Obligation Bonds</u> – The City issues general obligation bonds to provide funds for the acquisition or construction of major capital facilities or improvements. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as 10-year serial bonds, except for refunding issues, with equal amounts of principal

<b>.</b>

### Note 7: Long-term Debt (Continued)

maturing each year. Additionally, the City issues general obligation industrial bonds to provide funds for the construction and improvement of City owned industrial buildings. Annual installments of principal and interest are serviced from the rental revenues provided by the industries occupying the buildings. General obligation bonds currently outstanding are as follows:

	Average	
<u>Purpose</u>	Interest Rates	<u>Amount</u>
General Government	2.0 to 4.0 %	\$3,160,000

The annual requirements to amortize all General Obligation Debt Outstanding at September 30, 2016, are as follows:

Fiscal	Year
End	ing

September 30	F	Principal	Interest	Total
2017	\$	220,000	94,565	314,565
2018		230,000	80,765	310,765
2019		240,000	71,565	311,565
2020		250,000	66,765	316,765
2021		260,000	63,115	323,115
Thereafter		1,500,000	86,125	1,586,125
Total	_\$_	2,700,000	462,900	3,162,900

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

<u>Capital Improvement Notes Payable</u> – The State of Mississippi has made available to the City loans for the purposes of renovations and aerial fire truck purchase. The following is the annual requirements to amortize these notes at September 30, 2016:

4

### Note 7: Long-term Debt (Continued)

# Note 7: Long-term Debt (Continued)

# Discretely Presented Component Unit - Clarksdale Public Utilities:

<u>Crossroads Project Revenue Bonds</u> – \$124,000,000, 2002 Series initially dated July 11, 2002, issued for the purpose of financing the cost of acquisition and construction of a 320 MW nominally rated natural gas fueled generation station and a transmission line extending approximately 23 miles to connect with transmission facilities of Entergy Mississippi, Inc.

The 2002 Series Bonds bear interest from the respective dates of issuance payable semiannually on June 1 and December 1 of each year commencing on June 1, 2003 at the rate of 7.125 percent per annum and shall mature on June 1, 2031. During the year ended September 30, 2004 the Commission made a payment of \$7,315,090. These funds were obtained from unused construction monies and money received from the sale of a transmission station. The sole bondholder is Kansas City Power & Light.

\$436,922 Mississippi Department of Environmental Quality State Revolving Fund Loan Commitment due in monthly installments of \$2,793 from October 24, 1994 through March 24, 2016; rate of interest is 4.5%.

\$1,132,514 Mississippi Department of Environmental Quality State Revolving Fund Loan Commitment due in monthly installments of \$7,221 from February 7, 1997 through October 7, 2016; rate of interest is 4.5%.

\$2,104,720 Mississippi Department of Environmental Quality State Revolving Fund Loan Commitment due in monthly installments of \$10,547 from July 10, 2006 through February 10, 2026; rate of interest is 4.5%.

\$3,116,502 Mississippi Department of Environmental Quality State Revolving Loan Commitment due in monthly installments of \$15,673 from September 1, 2014 through March 1, 2034; rate of interest is 1.75%.

<u>Covenant Bank Tax-Exempt Note</u> - \$1,350,000, proceeds from this note were used to finance improvements to the electric utility system. The note bears an interest rate of 2.95% with interest payments due semi-annually beginning on June 15, 2012 and the principal amount due on December 15, 2014.

MECEIVEL AUG 1 4 2017

# Note 8: Obligations Under Capital Lease

The City has entered into lease contracts as lessee for financing the acquisition of various machinery and equipment. These leases qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

	•
	•

### Note 9: Contingencies

<u>Federal Grants</u> - The City has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the City. No provision for any liability that may result has been recognized in the City's financial statements.

<u>Litigation</u> - The City is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the City with respect to the various proceedings. However, the City's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the City.

### Note 10: Defined Benefit Pension Plan

#### General Information about the Pension Plan

Plan Description. The City contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age

# Note 10: Defined Benefit Pension Plan (Continued)

with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service.

Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the City is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2016 was 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The City's contributions to PERS for the fiscal years ending September 30, 2016, 2015 and 2014 were \$1,327,945, \$1,260,161 and \$1,182,858, respectively, which equaled the required contributions for each year.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the City reported a liability of \$12,273,932 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2016, the City's proportion was 0.080817 percent.

For the year ended September 30, 2016, the City recognized pension expense of \$335,535. At September 30, 2016 the City reported deferred outflows of

•	
•	

### Note 10: Defined Benefit Pension Plan (Continued)

resources and deferred inflows of resources related to pensions from the following sources:

	~	red Outflows Resources	Deferred Inflows of Resources		
Differences between expected and					
actual experience	\$	312,305			
Net difference between projected and actual					
earnings on pension plan investments		837,689	360,590		
Changes of assumptions		372,506	(28,902)		
Change in proportion percentage		38,731	3,847		
City contributions subsequent to the					
measurement date		191,679			
	\$	1,752,910	335,535		

\$191,679 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30,	
2017	\$ 354,344
2018	354,344
2019	354,344
2020	 354,344
	\$ 1,417,376

		, ·	•

### Note 10: Defined Benefit Pension Plan (Continued)

Actuarial assumptions. The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent			
Salary increases	3.75 - 19.00 percent, including inflation			
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation			

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016, with males rates set forward one year.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	<u>Target</u>		Long-Term Expected	
Asset Class	<u>Allocation</u>		Real Rate of Return	
U.S. Broad	34	%	5.20	%
International Equity	19		5.00	
<b>Emerging Markets Equity</b>	8		5.45	
Fixed Income	20		0.25	
Real Assets	10		4.00	
Private Equity	8		6.15	
Cash	1		(0.50)	
Total	100	%		

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate

	-

### Note 10: Defined Benefit Pension Plan (Continued)

assumed that plan member contributions will be made at the current contribution rate (9.00%) and that Employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	(6.75%)	(7.75%)	(8.75%)
City's proportionate share of the net pension liability	\$ 13,946,766	\$ 10,877,010	\$ 8,330,108

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

### Note 11: Solid Waste Disposal

The "State of Mississippi Solid Waste Full Cost Accounting Manual for Mississippi Local Governments" issued by the Office of the State Auditor prescribes procedures for meeting the requirements of Section 17-17-347, Miss. Code Ann. (1972) concerning reporting of costs of solid waste management. Included in these requirements are provisions for landfill closure and post-closure costs.

The manual and law referred to above further require accounting for and disclosure of the costs for solid waste collection, handling, and disposal. These costs are recorded in the City's general fund in the Streets and Sanitation Department and have not been reported separately.

The City adopted the Solid Waste Management Plan for Coahoma County on October 25, 1995.

	• •

### Note 12: Related Party Transactions

Clarksdale Public Utilities is the agent for the Mississippi Delta Energy Agency (MDEA) in acquiring and constructing a transmission line to carry the generated power to the transmission facilities of Entergy Mississippi, Inc.- the Project Transmission. Clarksdale Public Utilities is a member of the Mississippi Delta Energy Agency, a joint action agency under the provisions of Miss. Code Ann. Sections 77-5-701 et seq. (1972), as amended. Clarksdale Public Utilities has an equity investment in the Project Transmission which is a fiduciary concern of the Utility and accounts for its investment in MDEA under the purchase method.

### Note 13: Risk Management

The City of Clarksdale is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Under GASB Statement No. 10, Accounting and Financial Reporting for Risks Financing and Related Insurance Issues, a liability for claims must be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and that the amount of the loss can be reasonably estimated. As of the date of this audit report, there were no known claims above the amount of coverage purchased for risks of loss related to torts, theft of, damage to, and the destruction of assets, errors and omissions, injuries to employees, natural disasters at September 30, 2016, therefore no liability has been accrued at this time.

### **Note 14: Subsequent Events**

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of the City of Clarksdale evaluated the activity of the City through July 31, 2017, the date which the financial statements were available to be issued, and determined that there were no subsequent events that should be noted in the financial statements.

## City of Clarksdale Notes to Required Supplemental Information

## **Budgetary Comparison Schedule**

(1) Basis of Presentation

The Budgetary Comparison Schedule presents the final legally adopted budget, the actual data on the CAAP basis, and variances between the final budget and and the actual data.

(2) Budget Amendments and Revisions

The budget is adopted by the City Council. Amendments can be made on the approval of the council. A budgetary comparison is presented and is consistent with accounting principles generally accepted in the United States of America.

## Pension Schedules

(1) Changes of Benefit Terms

There were no changes of benefit terms for the FYE 9/30/16.

(2) Changes of Assumptions

In 2015 and later, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally the price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75% respectively.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Board of Commissioners The City of Clarksdale, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Clarksdale, Mississippi, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Clarksdale, Mississippi's basic financial statements, and have issued our report thereon dated July 31, 2017.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Clarksdale, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Clarksdale, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Clarksdale, Mississippi's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

			٠.
1			
	•		

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Clarksdale, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

The Honorable Mayor and Board of Commissioners The City of Clarksdale

We have audited the financial statements of the City of Clarksdale, Mississippi, as of and for the year ended September 30, 2016, and have issued our report thereon dated July 31, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests indicate that, with respect to the items tested, the City of Clarksdale complied with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the City of Clarksdale had not complied with those provisions.

This report is intended solely for the information and use of management, City Council, federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.
