CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Aldermen
City of Madison, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Madison, Mississippi (the City) as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Madison, Mississippi, as of September 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the City's proportionate share of the net pension liability, schedule of the City's contributions and the notes to the required supplementary information on pages 7-18 and 58-62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Madison, Mississippi's basic financial statements. The accompanying supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 30, 2017, on our consideration of the City of Madison, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Madison, Mississippi's internal control over financial reporting and compliance.

CITY OF MADISON, MISSISSIPPI

MANAGEMENT'S DISCUSSION AND ANALYSIS

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

As management of the City of Madison, Mississippi (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2016. The intent of this discussion and analysis is to look at the City's financial performance as a whole. We encourage readers to consider the information presented here in conjunction with the City's financial statements, which follow this section.

The City of Madison, Mississippi is located in central Mississippi just 10 miles from the state capital. The City has a population of 24,149, based on the 2010 census, which is a 64% increase since 2000. Over the past thirty years, the City has worked to set a standard for others to follow. With a good team, a plan, hard work, a vision, and a passion, the City of Madison has built a city with a look, a feel, and a sense of place like no other in the Southeast. The City is leading the state in all socio-economic categories and well exceeds national averages in per capita income, median family income, median home value, educational levels and owner occupied housing. We have redefined economic development by focusing on our number one resource, our people. We have made families our industry and focused on quality of life as one of our strong economic development tools.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at September 30, 2016 by \$21,132,433 (net position).
- The City's net position increased \$3,776,698 or 22%, during the 2016 fiscal year. The increase is primarily due to capital grants and contributions of infrastructure recorded during the year.
- At September 30, 2016, the City's governmental funds reported total fund balance of \$20,289,808. Of this amount, \$6,324,223 (general fund unassigned fund balance) may be used to meet the general government's spending requirements. The unassigned fund balance represents 32% of total General Fund expenditures for fiscal year 2016.
- In the City's proprietary funds, operating revenues increased 1% to \$4,865,556 while operating expenses increased 8% to \$5,287,295. The increase in revenues is considered to be due to the City's growth. The increase in expenses is primarily due to an anticipated increase in sewer treatment costs and various other expenses.
- The City's total debt increased a net amount of \$9,925,757 during the 2016 fiscal year. New debt totaling \$13,987,977 was issued to complete infrastructure improvements and other projects in the City and to acquire machinery and equipment. Debt payments of \$4,062,220 were made during the 2016 fiscal year.

**CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016**

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information to provide greater detail of data presented in the basic financial statements.

The major features of the City's financial statements, including the portion of the City government they cover, and the types of information presented are discussed below.

Major Features of the City of Madison's Government-wide and Fund Financial Statements			
	Government-wide Statements	Fund Statements	
		Governmental Funds	Proprietary Funds
Scope	Entire City government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary, such as general government, police, fire and parks	Activities the City operates similar to private businesses; the water and sewer system and airport
Required Financial Statements	*Statement of Net Position *Statement of Activities	*Balance Sheet *Statement of Revenues, Expenditures and Changes in Fund Balances	*Statement of Net Position *Statement of Revenues, Expenses and Changes in Net Position *Statement of Cash Flows
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter	All assets and liabilities, both financial and capital, and short-term and long-term
Type of Inflow/Outflow Information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Government-wide Financial Statements. The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred outflows of resources and deferred inflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the year ended September 30, 2016. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, culture and recreation, economic development and debt service. The business-type activities of the City include water and sewer operations and the City's airport.

The government-wide financial statements can be found on pages 20-21 of this report.

Fund Financial Statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, the 2015 G.O. Bonds Fund, the 2015 TIF Grandview Fund, the 2016 TIF Grandview Fund, and the General Obligation Debt Service Fund, which are considered to be major funds. Data from the other three governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the approved budget at page 58 and the notes to the budgetary information at page 61.

The basic governmental fund financial statements are presented at pages 22-25.

Proprietary Funds. Enterprise funds, the only type of proprietary funds maintained by the City, are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses two enterprise funds to account for its water and sewer operations and the airport.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Water and Sewer Fund and the Airport Fund.

The basic proprietary fund financial statements are presented at pages 26-28.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 30-56 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information and accompanying notes regarding budget performance and pension information on pages 58 - 62.

**CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016**

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$21,132,433 at September 30, 2016 as shown below.

**Condensed Statement of Net Position
As of September 30, 2016 and 2015**

	Governmental Activities		Business-type Activities		Totals	
	2016	2015	2016	2015	2016	2015
Current assets	\$ 22,894,976	\$ 12,050,089	\$ 3,193,944	\$ 2,554,915	\$ 26,088,920	\$ 14,605,004
Capital assets, net of accumulated depreciation	62,065,671	57,258,808	18,859,649	17,821,210	80,925,320	75,080,018
Other non-current assets	-	-	200,000	175,000	200,000	175,000
Total assets	84,960,647	69,308,897	22,253,593	20,551,125	107,214,240	89,860,022
Deferred outflows of resources	4,116,906	2,947,117	354,654	245,656	4,471,560	3,192,773
Total assets and deferred outflows of resources	89,077,553	72,256,014	22,608,247	20,796,781	111,685,800	93,052,795
Current liabilities	6,317,632	4,860,405	1,383,254	1,096,125	7,700,886	5,956,530
Non-current liabilities	70,517,933	58,289,743	12,263,349	10,828,020	82,781,282	69,117,763
Total liabilities	76,835,565	63,150,148	13,646,603	11,924,145	90,482,168	75,074,293
Deferred inflows of resources	63,493	569,832	7,706	52,935	71,199	622,767
Total liabilities and deferred inflows of resources	76,899,058	63,719,980	13,654,309	11,977,080	90,553,367	75,697,060
Net position:						
Invested in capital assets, net of related debt	24,574,616	23,259,327	8,277,712	6,922,460	32,852,328	30,181,787
Restricted	1,236,713	38,384	-	-	1,236,713	38,384
Unrestricted	(13,632,834)	(14,761,677)	676,226	1,897,241	(12,956,608)	(12,864,436)
Total net position	\$ 12,178,495	\$ 8,536,034	\$ 8,953,938	\$ 8,819,701	\$ 21,132,433	\$ 17,355,735

Capital assets (e.g., land, construction in progress, buildings, furniture, equipment, infrastructure and improvements) account for 75% of total assets. The City uses these capital assets to provide services to citizens, and consequently, these assets are not available for future spending.

Net position includes resources that are subject to external restrictions on how they may be used. These restricted net positions of \$1,236,713 represent 6% of total net position. The unrestricted net position decreased \$92,172 to \$(12,956,608). The decrease is primarily related to the City recording their proportionate share of the collective net pension liability for the cost-sharing defined benefit pension plan of which they are a member.

**CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016**

The City's total net position increased \$3,776,698 during fiscal year 2016 as summarized below.

Net position, beginning of year, as restated	8,536,034	6,780,216	8,819,701	8,968,513	17,355,735	15,748,729
Net position, end of year	\$ 12,178,495	\$ 8,536,034	\$ 8,953,938	\$ 8,819,701	\$ 21,132,433	\$ 17,355,735

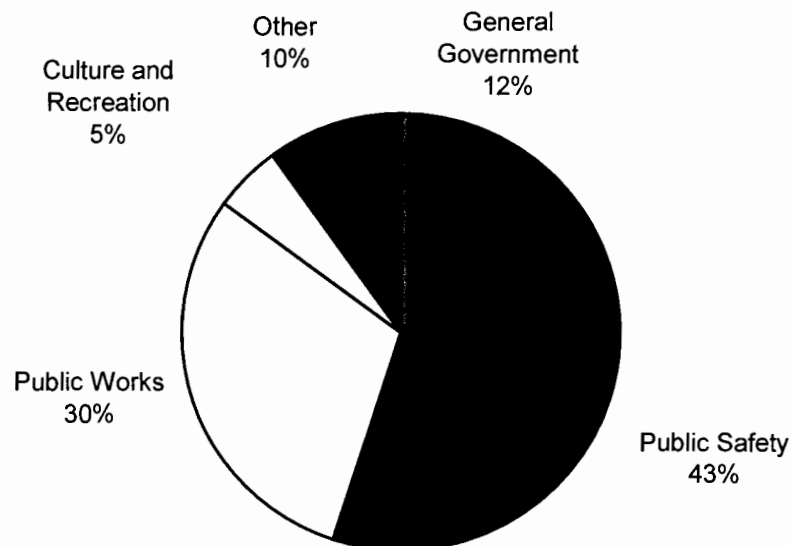

Governmental activities. Governmental activities net position increased by \$3,642,461 during fiscal year 2016, a 43% increase over prior year net position. Program revenues from grants and contributions totaled \$2,238,499 during fiscal year 2016 as compared to \$1,095,842 in 2015. Property tax revenues increased to \$10,724,788, which represents a 3% increase as compared to fiscal year 2015. The tax rate was 28.8 mills in 2016 and 2015. The increase in property tax revenues is due to the continued growth in the City's residential and commercial tax rolls.

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Revenues and Transfers by Source – Governmental Activities for Fiscal Year 2016

Expenses by Functions/Programs – Governmental Activities for Fiscal Year 2016

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Business-type activities. Business-type activities increased the City's net position by \$134,237 during fiscal year 2016 as compared to prior year. The business-type activities include the Water and Sewer Fund and the Airport Fund. Charges for services totaled \$4,865,556 for 2016, which represents a 1% increase from the previous year. Grants and contributions totaled \$1,107,300 for fiscal year 2016 as compared to \$548,605 in 2015, representing a 102% increase. Total expenses increased 6% to \$5,590,245 as compared to prior year. The increase in expenses is due primarily to an anticipated increase in sewer treatment costs and various other expenses.

Component Unit

Madison Square Redevelopment Authority (the Authority) is the sole component unit of the City for accounting purposes. The Authority was established as the urban renewal agency of the City to exercise the urban renewal project powers as defined in Section 43-35-1, Mississippi Code of 1972, as amended. The Authority is governed by a five member board of commissioners appointed by the City. The initial project undertaken by the Authority is the acquisition and redevelopment of the Madison Station School property.

The Authority had total assets of \$5,007,889, total liabilities of \$4,257,969 and net position of \$749,920 at September 30, 2016. There were no revenues for 2016 and operating expenses totaled \$82,000 which produced a decrease in net position of \$82,000.

This component unit operates as a special-purpose entity that engages in only business-type activities and is presented as a discretely-presented component unit in the government-wide statements. Additional information on this entity is provided in the separately issued financial statements of the component unit, which can be obtained through the contact information at the end of this discussion and analysis.

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Financial Analysis of the Government's Funds

The City's governmental funds reported combined ending fund balances of \$20,289,808 as of September 30, 2016 as set forth below.

**Condensed Balance Sheet – Governmental Funds
As of September 30, 2016**

	General	2015 G.O. Bonds	2015 TIF Grandview	2016 TIF Grandview	General Obligation Debt Service	Other Governmental Funds	Total Governmental Funds
Assets	\$ 7,283,895	\$ 3,935,954	\$ 2,549,159	\$ 7,284,075	\$ 1,737,740	\$ 418,154	\$ 23,208,977
Liabilities	959,672	1,326,234	-	-	263,557	369,706	2,919,169
Fund Balances	<u>\$ 6,324,223</u>	<u>\$ 2,609,720</u>	<u>\$ 2,549,159</u>	<u>\$ 7,284,075</u>	<u>\$ 1,474,183</u>	<u>\$ 48,448</u>	<u>\$ 20,289,808</u>

The combined ending fund balance for the governmental funds of \$20,289,808 represents an increase of \$9,901,072 from the prior year. This increase is primarily due to an increase in the general fund of \$1,227,202 and the issuance of \$12,000,000 in limited obligation bonds less capital expenditures made during the year.

The General Fund is the chief operating fund of the City. At September 30, 2016, the total fund balance of the General Fund was \$6,324,223. The General Fund revenues totaled \$21,672,512 for 2016, which represents an increase of \$1,499,479 or 7% over the prior year. This increase is due primarily to additional property tax and sales tax collections resulting from the continued growth in the City's residential and commercial tax rolls. The General Fund expenditures decreased 1% to \$19,883,368. Other financing uses totaled \$561,942 for 2016 compared to other financing sources of \$928,802 for 2015. These changes produced a net increase in fund balance of \$1,227,202 for 2016 compared to a net increase in fund balance of \$941,745 for 2015. Management expects an increase in fund balance from operations to continue in the upcoming years, further strengthening the City's operating reserve.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The proprietary funds had unrestricted net assets of \$676,226 as of September 30, 2016. These funds are primarily supported by annual user fees.

**CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016**

General Fund Budgetary Highlights

The General Fund original budget was amended during fiscal year 2016 to adjust revenues to final estimated amounts. Resources were also allocated to other expenditure categories as determined by management during the budget revision process.

General Fund revenues and other financing sources for 2016 were under the budgeted amount by (\$38,137) representing less than 1% unfavorable variance, and expenditures and other financing uses were under the budgeted amount by \$1,252,572, representing a 6% favorable variance. This resulted in an overall favorable variance for the year of \$1,214,435.

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of September 30, 2016 amounts to \$80,925,320, net of accumulated depreciation of \$50,682,510. This investment in capital assets includes land, buildings, improvements other than buildings, infrastructure, machinery, equipment, and construction in progress.

Total outstanding debt	\$ 49,700,149	\$ 40,420,905	\$ 10,254,869	\$ 9,036,553	\$ 59,955,018	\$ 49,457,458

The City had total bonded debt outstanding of \$55,046,000 at September 30, 2016. Of this amount, \$36,336,000 comprises debt backed by the full faith and credit of the government and \$18,710,000 represents bonds secured by specified revenue sources.

The City has entered into lease agreements as lessee for financing the acquisition of various equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Capital lease obligations totaling \$988,013 are recorded as other liabilities at September 30, 2016.

The City's total debt increased a net amount of \$10,497,560 during the 2016 fiscal year. New debt issuances totaled \$13,987,977 and an additional compensated absences liability of \$571,803 was recorded for fiscal year 2016. Debt payments of \$4,062,220 were made during the 2016 fiscal year.

The City has received several loans to finance various water and sewer improvement projects. Loans outstanding totaled \$2,423,799 at September 30, 2016.

Additional information on the City's long-term debt can be found in Notes 3E and 3F of this report.

CITY OF MADISON, MISSISSIPPI
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2016

Economic Factors and 2017 Budget Information

The 2017 General Fund budget anticipates that revenues will total \$22,631,063, a 5% increase from the 2016 revised budget. Total 2017 expenditures are budgeted at \$22,862,591, a 9% increase from the prior year revised budget. In addition, other net financing sources have been budgeted at \$235,000. The budgeted amounts for the year result in an anticipated surplus of \$3,472 for the year.

Management anticipates that property tax revenues and sales tax revenues will continue to increase in 2017 from residential and commercial growth within the City. The City's property tax rate for fiscal year 2017 has been set at 28.8 mills per thousand dollars of assessed value (\$.0288 per assessed dollar) the same as 2016.

Request for Information

CITY OF MADISON, MISSISSIPPI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended September 30, 2016

Net change in fund balances - total governmental funds	\$ 9,901,072
Amounts reported for governmental activities in the statement of activities are different because:	
Contributions of infrastructure and/or machinery and equipment in the statement of activities do not provide current financial resources and are not reported as revenues in the funds.	2,656,400
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Thus, the change in net position differs from the change in fund balances by the amount that capital outlays (\$5,706,870) exceeded depreciation (\$3,556,364) and disposals (\$43) in the current period.	2,150,463
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Thus, the change in net position differs from the change in fund balances by the amount that debt proceeds (\$12,103,058) exceeded debt repayments (\$3,376,318).	(8,726,740)
Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the statement of activities, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues.	
Increase in accrued interest on debt	(182,881)
Increase in compensated absences payable	(552,504)
Increase in prepaid insurance	31,476
The statement of activities reports an expense equal to the City's proportionate share of the collective net pension expense for the cost-sharing pension plan. However, in the governmental funds, the cost-sharing expenses are measured by the amount of current contributions made to the plan.	(1,584,375)
Governmental funds report payments to an escrow agent for refunding bonds as other financing uses. However, the difference between the reacquisition price and the carrying value of the old debt is recognized as a deferred outflow of resources in the statement of net position and amortized as a component of interest expense over the remaining life of the old debt or life of the new debt, whichever is shorter.	(50,450)
Change in net position of governmental activities	<u>\$ 3,642,461</u>

The notes to the financial statements are an integral part of this statement.

CITY OF MADISON, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS

RECEIVED

JUN 12 2017

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

1. Summary of Significant Accounting Policies.

A. Reporting Entity.

The City of Madison, Mississippi (the "City"), was incorporated November 30, 1944, under the provisions of Title 16, Mississippi State Code of 1942. The City operates under a Mayor – Aldermen form of government and provides services as authorized by its charter: public safety (police and fire), streets, culture and recreation, public improvements, planning and zoning and general administrative services. The City's fiscal year runs annually from October 1st to the following September 30th.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in accounting principles generally accepted in the United States of America. Based upon the application of these criteria, the financial statements present the primary government and the discretely presented component unit described in the following paragraph for which the primary government is considered to be financially accountable.

The Madison Square Redevelopment Authority ("MSRA") was established as the urban renewal agency of the City to exercise the urban renewal project powers as defined in Section 43-35-1, Mississippi Code of 1972, as amended. The Authority is governed by a five-member board of commissioners appointed by the City. The initial project undertaken by the Authority is the acquisition and redevelopment of the Madison Station School property.

There are no other potential component units.

B. Government-wide and Fund Financial Statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The 2015 G.O. Bonds Fund is a capital projects fund that accounts for infrastructure improvements being paid from the proceeds of general obligation bonds issued in 2015, consisting primarily of street improvements.

The 2015 TIF Grandview is a capital projects fund that accounts for payment of the costs of constructing certain infrastructure improvements needed for commercial development from the proceeds of limited obligation bonds issued in 2015.

The 2016 TIF Grandview is a capital projects fund that accounts for payment of the costs of constructing certain infrastructure improvements needed for commercial development from proceeds of limited obligation bonds issued in 2016.

The General Obligation Debt Service fund accounts for a substantial portion of the funds generated and used to pay for the long-term debt of the City.

The City reports the following major proprietary funds:

The Water and Sewer Fund accounts for the activities of the water and sewer system. The proceeds of several bond issuances and loans have been used specifically for the construction of water and sewer systems and facilities. Since it is the intention of the City to repay these bonds and loans through the operations of this fund, these obligations are classified as debt of this fund.

The Airport Fund accounts for activities related to the operation of the City's airport facility located at Bruce Campbell Field.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position or Fund Equity.

1. *Deposits and Investments.*

Cash and cash equivalents include demand deposit accounts, petty cash and certificates of deposit with maturities of 12 months or less. As further discussed in Note 3, collateral is pledged by the various financial institutions to secure City funds.

2. *Receivables and Payables.*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

3. *Restricted Assets.*

A portion of the cash related to customer deposits being held by the Water and Sewer Fund (approximately 41%) is reported as restricted assets on the statement of net position and the balance sheet. Unspent debt proceeds are also recorded as restricted assets because their use is limited by debt covenants and other agreements.

4. *Capital Assets.*

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Improvements other than buildings	20
Infrastructure	20-50
Machinery and equipment	5-10

5. *Compensated Absences.*

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

6. Long-term Obligations.

In the government-wide financial statements and for the proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. A deferred outflow of resources or deferred inflow of resources is recognized for the difference between the reacquisition price of refunded bonds and the net carrying amount of the refunded bonds and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payments to an escrow agent for refunding bonds is reported as other financing uses.

7. Fund Balance.

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components: nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This component includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted – This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge or otherwise mandate payment of resources and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Committed – This component consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision making authority which includes the city charter, ordinances and resolutions. Those committed amounts cannot be used for any other purpose unless the City removes or changes the specified use by taking the same type of action (city charter, ordinance and resolution) it employed previously to commit those amounts.

Assigned – This component consists of amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by the Mayor and Board of Aldermen or their designee as established by City policy.

Unassigned – This classification represents amounts that have not been restricted, committed or assigned to a specific purpose within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) as they are needed. When unrestricted resources (committed, assigned and unassigned) are available for use it is the City's policy to use committed resources first, then assigned, and then unassigned as they are needed.

RECEIVED

JUN 12 2017

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

The City can invest its excess funds in accordance with state statutes in certificates of deposit with municipal depositories and obligations of the United States of America, the State of Mississippi, or any county, municipality or school district of Mississippi.

State statute allows the investment of funds received from the sale of bonds, notes, or certificates of indebtedness which are not immediately required for disbursement for the purpose issued, in direct obligations issued by or guaranteed in full by the United States of America, or in certificates of deposit with approved municipal depositories.

Primary Government:

Custodial credit risk is the risk that in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the insurance corporations. As of September 30, 2016, the carrying amount of the City's deposits with financial institutions was \$22,382,755 and the bank balance was \$22,728,500. None of the City's bank balance was exposed to custodial credit risk.

The following amounts of cash and other deposits were classified as restricted assets at September 30, 2016.

	<u>Governmental Funds</u>	<u>Enterprise Funds</u>
Amounts restricted for public improvements	\$ 12,189,540	\$ -
Water department customer deposits	<u>-</u>	<u>200,000</u>
	<u>\$ 12,189,540</u>	<u>\$ 200,000</u>

CITY OF MADISON, MISSISSIPPI

E. Leases.

Operating Leases

The City has no significant operating leases.

Capital Leases

The City has entered into lease agreements as lessee for financing the acquisition of various equipment in both the governmental and business-type activities. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets recorded under capital leases as of September 30, 2016 were as follows:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Machinery and equipment	\$ 2,126,849	\$ 164,298
Less: accumulated depreciation	<u>(1,307,528)</u>	<u>(149,310)</u>
Total	<u>\$ 819,321</u>	<u>\$ 14,988</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2016, were as follows:

<u>Year Ending September 30:</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>
2017	\$ 354,331	\$ 6,853
2018	214,883	5,271
2019	173,480	5,271
2020	131,925	3,514
2021	48,069	-
Thereafter	<u>104,195</u>	<u>-</u>
Total minimum lease payments	1,026,883	20,909
Less: amount representing interest	<u>(59,018)</u>	<u>(761)</u>
Present value of minimum lease payments	<u>\$ 967,865</u>	<u>\$ 20,148</u>

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Madison Square Redevelopment Authority (Urban Renewal Notes)

On March 1, 2011, MSRA issued \$4,250,000 of urban renewal notes that matured on March 1, 2014, and retired the existing notes of \$4,150,000. The new notes provided for interest-only payments at a rate of 2.25% per annum. On March 1, 2014, MSRA and the holder of its \$4,250,000 urban renewal notes series 2011-A entered into an agreement extending maturity of the notes until March 1, 2017. The interest rate was not changed.

Annual debt service requirements to maturity for the urban renewal notes are as follows:

<u>Year Ending September 30:</u>	<u>Component Unit Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2017	\$ 4,250,000	\$ 47,813
	<u>\$ 4,250,000</u>	<u>\$ 47,813</u>

MSRA has entered into a Contribution Agreement with the City. Under the agreement, the City is obligated to contribute sums sufficient to pay the interest on MSRA's urban renewal notes as they mature and become due and payable and, in addition, any related administrative fees related to those notes. However, these payments are the obligation of MSRA to the extent that MSRA has funds sufficient to meet the obligation.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

4. Other Information.

A. Contingent Liabilities.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is party to various litigation and unasserted possible claims incidental to conducting City business. The ultimate outcome of these matters cannot presently be determined. Accordingly, no provision for any liability that may result has been made in the accompanying financial statements.

B. Defined Benefit Pension Plan

Plan Description. The City contributes to the Public Employees' Retirement System of Mississippi ("PERS"), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, Mississippi 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years of creditable service for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost of Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired plan member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Funding Policy. PERS members are required to contribute 9.00% of their annual covered salary and the City is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The City's contributions to PERS for the fiscal years ending September 30, 2016, 2015 and 2014 were approximately \$1,530,000, \$1,490,000, and \$1,410,000, respectively, and equaled the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the City reported a liability of \$26,793,746 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2016, the City's proportion was 0.15 percent.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

For the year ended September 30, 2016, the City recognized pension expense of \$3,297,599. At September 30, 2016 the City deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 747,350	\$ -
Changes of assumptions	1,263,114	71,199
Net difference between projected and actual earnings on pension plan investments	1,815,144	-
City contributions subsequent to the measurement date	393,705	-
	<u>\$ 4,219,313</u>	<u>\$ 71,199</u>

\$393,705 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30:	
2017	\$ 1,303,441
2018	981,393
2019	940,259
2020	529,316
	<u>\$ 3,754,409</u>

Actuarial Assumptions. The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary Increase	3.75-19.00 percent, including inflation
Investment rate of return	7.75 percent, net of pension investment expense, including inflation

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016 with males set forward one year.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Broad	34 %	5.20 %
International Equity	19	5.00
Emerging Markets Equity	8	5.45
Fixed Income	20	0.25
Real Assets	10	4.00
Private Equity	8	6.15
Cash	1	(0.50)
Total	<u>100 %</u>	

Discount Rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at the current employer contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
City's proportionate share of the net pension liability	\$ 34,355,589	\$ 26,793,746	\$ 20,519,867

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

C. Risk Management.

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the City carries commercial insurance for these risks. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

The City is a participant in the Mississippi Municipal Workers' Compensation Group, a group self-insurer. The City has jointly and severally agreed to assume, pay and discharge any liabilities incurred under the provisions of the Mississippi Workers' Compensation Act by each and every member of the group during the respective periods of the City's membership in the group. No assessments in excess of the City's premium have been necessary to settle claims in any of the past three fiscal years.

CITY OF MADISON, MISSISSIPPI
NOTES TO FINANCIAL STATEMENTS
September 30, 2016

D. Subsequent Events.

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the balance sheet date require disclosure in the accompanying notes to the financial statements. Management evaluated the activity of the City through March 30, 2017, (the date the financial statements were available to be issued) and concluded that no subsequent events have occurred that would require recognition in the financial statements.

CITY OF MADISON, MISSISSIPPI
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
Year Ended September 30, 2016

A. Budgetary Information

Statutory requirements dictate how and when the City's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Mayor and Board of Aldermen, using historical and anticipated fiscal data and proposed budgets submitted by the various department managers for their respective department, prepare an original budget for each of the governmental funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Aldermen that budgetary estimates will not be met, it may make revisions to the budget.

The City's budget is adopted on the cash basis of accounting modified to include recognition of expenditures paid within 30 days after year end as required by the State of Mississippi. This method is not consistent with U.S. generally accepted accounting principles ("GAAP").

B. Basis of Presentation.

The Budgetary Comparison Schedule – Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (non-GAAP) basis and variances between the final budget and the actual amounts. The schedule is presented for the general fund only.

C. Budget/GAAP Reconciliation.

A reconciliation of the financial reporting U.S. generally accepted accounting principles basis to the budgetary cash basis is presented below.

	<u>General Fund</u>
Net change in fund balance - GAAP basis	\$ 1,227,202
Reconciling items:	
Receivables	<u>1,367</u>
Net change in fund balance - budgetary cash basis	<u><u>\$ 1,228,569</u></u>

CITY OF MADISON, MISSISSIPPI
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
Year Ended September 30, 2016

D. Schedule of the City's Proportionate Share of the Net Pension Liability.

The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the fiscal year presented.

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB 68 was implemented in the fiscal year ended September 30, 2015, and, until a full 10-year trend is compiled, the City has only presented information for the years in which information is available.

E. Schedule of the City's Contributions.

The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the fiscal year presented.

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB 68 was implemented in the fiscal year ended September 30, 2015, and, until a full 10-year trend is compiled, the City has only presented information for the years in which information is available.

Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the City of Madison under programs of the federal government for the year ended September 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Madison, it is not intended and does not present the financial position, changes in net position or cash flows of the City of Madison.

Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The City of Madison has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3: Loans Outstanding

Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding at September 30, 2016 consists of the following:

Program Name	CFDA Number	Outstanding Amount
Capitalization Grants for Drinking Water State Revolving Funds	66.468	\$ 1,923,002

* A portion of the expenditures of federal awards for this loan program are from reporting periods prior to the year ended September 30, 2016.

CITY OF MADISON, MISSISSIPPI

REPORTS ON COMPLIANCE AND INTERNAL CONTROL

COLLINS, BARR & HEMBREE, LTD.

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Board of Aldermen
City of Madison, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Madison, Mississippi (the City), as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 30, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mayor and Board of Aldermen
City of Madison, Mississippi

Report on Compliance for Each Major Federal Program

We have audited City of Madison Mississippi's (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2016.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
STATE LAWS AND REGULATIONS

Honorable Mayor and Board of Aldermen
City of Madison, Mississippi

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Madison, Mississippi (the City) as of and for the year ended September 30, 2016, and have issued our report thereon dated March 30, 2017. We conducted our audit in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the requirements of the Mississippi Office of the State Auditor and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

With respect to the items tested, the results of those procedures and our audit of the financial statements disclosed no instances of noncompliance with state laws and regulations.

This report is intended solely for the information and use of the Mayor, Board of Aldermen, management and the State of Mississippi and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
