INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Board of Aldermen
City of Oxford, Mississippi
Oxford, Mississippi 38655

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oxford, Mississippi, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City of Oxford Electric Department, which represent approximately 42 percent and 72 percent, respectively of the assets and revenues of the Proprietary Fund. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the City of Oxford Electric Department, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion

Management has not adopted a methodology to accumulate the amount of liability related to customer meter deposits in the Water and Sewer fund of the City. Accounting principles generally accepted in the United States of America require presentation of all liabilities associated with each fund in the statement of net position. The liability for customer meter deposits would increase the liabilities and decrease the net position in the Water and Sewer Fund and Business Type Activities of the City. Additionally, the liability related to meter deposits of the Electric Fund is not properly presented. The liability related to meter deposits in the Electric Fund includes the amount of deposits for the Electric Fund and the amount for the Water and Sewer Fund. The correction of this issue in the Electric Fund would decrease the liabilities and increase the net position in the Electric Fund.

The amount by which the departures would affect the assets, liabilities, net position, revenues and expenses of the City's financial statements has not been determined.

Qualified Opinion

In our opinion, except for the effects of the matters described in the "Basis for Qualified Opinion" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oxford, Mississippi, as of September 30, 2016, and the respective changes in financial position, and, where applicable, cash flows and the respective budgetary comparison for the General Fund, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12, the schedule of the City's proportionate share of the net pension liability on page 52, and the schedule of the City's contributions on page 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and

comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The City of Oxford - Electric Department's financial year ends on June 30, as required by regulatory bodies, and, therefore, all statements and information relating to the Electric Department in this report are for the fiscal year beginning July 1, 2015 and ending June 30, 2016.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Oxford, Mississippi's basic financial statements. The combining and individual fund financial statements, schedules and other supplemental information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Costs Principles, and Suit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, schedules, other supplemental information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, schedules, other supplemental information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2017 on our consideration of the City of Oxford, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Oxford, Mississippi's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Required Supplementary Information for the Year ended September 30, 2016

This section of the City of Oxford's Financial Report presents our discussion and analysis of the City's financial performance during the fiscal year ending September 30, 2016. Please read it in conjunction with the City of Oxford financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$120,089,356. Of this amount, \$0 may be used to meet the City of Oxford ongoing obligations to citizens and creditors. This compares to the previous year when assets exceeded liabilities by \$115,108,489, of which \$0 was available to meet the City's ongoing obligations.
- As of the close of the current fiscal year, the City of Oxford's governmental funds reported combined ending fund balances of \$51,925,875, an increase of \$4,168,273 in comparison to the prior year. Approximately 21% of the combined fund balances, \$10,787,432 is considered unassigned and is available for spending at the City of Oxford's discretion.
- The City's total net position increased by \$5,495,063. This increase is considered reasonable considering the budgeted revenues and expenditures and the amount of grant funds received for the fiscal year.
- The City of Oxford's total debt is \$44,245,349. New debt in the amount of \$7,390,000 was issued in the current fiscal year. Debt in the amount of \$10,358,563 was repaid during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts—management's discussion and analysis (this section), the basic financial statements, required supplementary information, and an optional section that presents combining statements for non-major governmental funds. The basic financial statements include two kinds of statements that present different views of the City of Oxford.

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the City of Oxford's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the City of Oxford's operations in more detail than the government-wide statements.

The Governmental Funds statements tell how general government services such as public safety were financed in the short term as well as what remains for future spending. The City has four Governmental Fund types: the General, Special Revenue, Capital Projects and Debt Service.

Proprietary fund statements offer short- and long-term financial information about the activities the government operates in a similar manner as businesses, and include the Electric and Water & Sewer funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

In addition to these required elements, we included combining statements that provide details about non-major governmental funds, each of which are added together and presented in single columns in the financial statements.

Figure A-1 summarizes the major features of the City of Oxford's financial statements, including the portion of the City of Oxford they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Government-wide Statements

The government-wide statements report information about the City of Oxford as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The government-wide financial statements include not only the City itself (known as the primary government), but also one blended component unit (Oxford Tourism Council). Financial information for the component unit is reported with the financial information from the primary government. The financial statements for the component unit are available from the City Clerk upon request.

The two government-wide statements report the City of Oxford's net position and how they have changed. Net position—the difference between the City of Oxford's assets and liabilities—is one way to measure the City of Oxford's financial health, or position.

- Over time, increases or decreases in the City of Oxford's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City of Oxford, the reader should consider additional non-financial factors such as changes in the City of Oxford's property tax base.
- *Governmental activities* –Most of the City of Oxford's basic services are included here, such as the police, fire, public works, and parks and recreation departments, tourism promotion, transit operation and general administration. Property taxes, sales and use taxes, and state and federal grants finance most of these activities.
- *Business-type activities* – The City of Oxford charges fees to customers to help it cover the costs of certain services it provides. The City of Oxford's water and sewer systems and electric department services are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the City of Oxford's most significant funds—not the City as a whole. The "fund" level is where the basic unit of financial organization and operation within the City of Oxford exists. Funds are accounting tools that are used to keep track of specific sources of funding and spending for particular purposes. They are the basic budgetary and accounting entities.

- Some funds are required by State law and by bond covenants.
- The Board of Alderman establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

CITY OF OXFORD, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Oxford has two types of funds:

- **Governmental funds**—most of the City of Oxford's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that help determine whether there are more or fewer financial resources that can be spent in the near future to finance the City of Oxford's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them. The measurement focus of governmental funds is upon determination of financial position and changes in financial position (sources, uses, and balance of financial resources) rather than upon net income determination. These funds are maintained on a modified accrual basis of accounting (explained further in the notes to the financial statements under "Summary of Significant Accounting Policies"). The basic financial statements for governmental funds are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balance. The City of Oxford utilizes four types of governmental funds: the General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds.
- **Proprietary funds**—Services for which the City of Oxford charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. The City has only one type of proprietary funds—enterprise funds. The City of Oxford's enterprise funds are the same as its business-type activities yet provide more detail and additional information, such as cash flows. The measurement focus of proprietary funds is upon determination of net income, financial position and change in financial position. These funds are maintained on the accrual basis of accounting. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows are all required statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City of Oxford's assets exceeded liabilities by \$120,089,356 at the close of the most recent fiscal year.

A large portion, 73 %, of the City's net position reflects its investment in capital assets (such as land, buildings, machinery, equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; however, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position represents resources that are subject to external restrictions on how they may be used.

Unrestricted net position of our business-type activities was \$7,936,803 at the end of the current fiscal year. These resources cannot be used to add to the net position surplus in governmental activities. The City of Oxford generally can only use this net position to finance the continuing operations of the business type activities.

Changes in net position. Approximately 11 percent of the City of Oxford's revenue comes from property taxes and approximately 12 percent from sales tax, with 30 percent of all revenue coming from some type of tax. (See Table A-2.) Another 56 percent comes from fees charged for services, and the balance is from operating and capital grants and contributions, intergovernmental revenue, investment earnings and miscellaneous revenues.

CITY OF OXFORD, MISSISSIPPI MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Activities

Governmental activities increased the City's net position by \$1,510,107, thereby accounting for 27.48 percent of the total increase in the net position of the City. Key elements of this increase are as follows:

The largest funding sources for the City's governmental activities, as a percent of total revenues, are charges for services (23%), property taxes (20%), and sales tax (21%).

The largest expense categories for the City's governmental activities are public safety (33%) and public works (22%).

Business-type Activities

Business-type activities increased the City's net position by \$3,984,956, thereby accounting for 72.52 percent of the increase in the City's net position.

Charges for services are the major revenue categories for the enterprise funds. Total business-type revenues are comprised of \$11,021,208 for water and \$22,620,019 for electric.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds—The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

General Fund—The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$10,680,595. As a measure of the general fund's liquidity, it may be useful to compare both the fund balance, assigned and unassigned, to total fund expenditures. Total fund balance represents 37% of total fund expenditures. The fund balance of the City's general fund increased by \$2,224,738 during the current fiscal year.

Debt Service Fund—The debt service fund has a total fund balance of \$162,977, all of which is committed for the payment of debt service. The net increase in fund balance during the current year in the debt service fund was \$154,450.

Special Revenue Fund—The special revenue fund is used to account for the programs and projects primarily funded by grants from the federal and state governments. At the end of the current fiscal year, the fund balance was \$4,888,046, which will be used for future expenditures.

Capital Projects Fund—The capital projects fund accounts for the construction and reconstruction of general public improvements, excluding projects related to business-type activities, which are accounted for elsewhere. At the end of the current fiscal year, the fund balance was \$1,537,378.

CITY OF OXFORD, MISSISSIPPI

MANAGEMENT'S DISCUSSION AND ANALYSIS

Proprietary Funds—The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The net position of the proprietary funds at the end of the current fiscal year totaled \$51,004,392. Changes in net position, which totaled \$3,984,956, were as follows: the electric fund increased by \$1,032,809 and the water & sewer fund increased by \$2,952,147.

Budgetary Highlights

The City's annual budget, which is prepared on an operating basis, includes estimated revenues and annual appropriations for the proprietary funds as well as the governmental funds.

The City's 2015 -16 general fund operating budget increased by approximately \$1,370,369 during the current fiscal year. This increase was primarily related to increases in expenditures that are directly related to capital grant projects. The City's tax millage increased from 28.22 mills to 29.22 mills from 2015 to 2016.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets—In accordance with GASB 34, the City has recorded depreciation expense associated with all of its capital assets, including infrastructure. The City's investment in capital assets for its governmental and business-type activities as of September 30, 2016, amounted to \$131,829,906, net of accumulated depreciation of \$83,508,492. This investment in capital assets includes land, buildings, improvements other than buildings, machinery & equipment, infrastructure, and construction in progress.

CITY OF OXFORD, MISSISSIPPI
RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES TO THE
STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2016

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS \$ 4,168,273

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental Funds report capital outlay as expenditures. However, in the Government Wide Statement of Activities the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period. 3,274,109

Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in Governmental Funds. (3,140,628)

Proceeds from the disposition of capital assets is reported as income in the Governmental Funds. The gain or loss on the sale of the capital assets and not the gross proceeds are reported as income in the Government-Wide Statement of Activities. (78,179)

Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources. 732,464

Because some property taxes will not be collected for several months after the Government's fiscal year ends, they are not considered "available" revenues in the governmental funds. 11,327

Decrease in accrual of compensated absences. (243,298)

Revenues in the statement of activities that do not provide current financial resources and are not reported as revenues in the funds. 149,092

Pension expense reported in the statement of activities relating to implementation of GASB 68 is not reported in the governmental funds. These activities include:

Direct pension contributions	2,150,237
Pension expense	(6,690,484)

Bond issuance costs are reported as expenditures on the Governmental Funds financial statements in the year incurred. However, in the Statement of Activities, the cost of issuing bonds is amortized over the life of the related bonds, This is the amount of the current amortization of premium. 26,440

Bond proceeds provide current financial resources to Governmental Funds, but issuing debt increases long-term liabilities in the Government-Wide Statement of Net Position. Repayment of bond principal is an expenditure in Governmental Funds, but the repayment reduces long-term liabilities in the Government-Wide Statement of Net Position.

This amount represents bond proceeds and premiums.	(7,390,000)
This amount represents long-term debt repayments and issuance costs.	8,600,457
This amount represents premium on issuance of bonds	<u>(59,703)</u>

**CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES

The City of Oxford, Mississippi operates under a Mayor - Alderman form of government and provides the following services: public safety (police & fire), public works (street and waste collection), culture and recreation, building and ground improvements, tourism promotion, transit operation, utilities (electric and water & sewer), community services, urban redevelopment and housing, public improvements and general administrative services.

The City has elected to apply all Governmental Accounting Standards Board (GASB) pronouncements, applicable Financial Accounting Standards Board (FASB) pronouncements, and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The accounting policies of the City of Oxford conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

FINANCIAL REPORTING ENTITY - BASIS OF PRESENTATION

Government-Wide and Fund Financial Statements

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information on all non-fiduciary activities of the primary government and its component units. The statement distinguishes between those activities of the City that are governmental, which are normally supported by taxes and intergovernmental revenues, and those that are considered business-type activities, which rely to a significant extent on fees and charges for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of net position presents the financial condition of the governmental and business-type activities for the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported in separate columns in the fund financial statements. Non-major funds, where applicable, are aggregated and presented in a single column. Fiduciary funds are reported by type.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible in the current period or soon enough thereafter to pay liabilities of the current period. For this purposes, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Significant revenues considered to be susceptible to accrual in addition to general property taxes include sales tax and various categorical grants. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Types

Governmental Funds

General Fund – The General Fund is used to account for all financial resources of the primary government except those required to be accounted for in another fund. The majority of current operations are financed by this fund. Transfers to other funds and agencies are made from this fund. Monies from other funds may be received unless prohibited by the purpose and object of such funds. This is a major fund.

Debt Service Fund – The Debt Service Fund was established to receive and account for resources restricted for the payment of interest and principal on general improvement and school bonds, and notes and capital leases. This is a non-major governmental fund.

**CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

Special Revenue Fund – The Special Revenue Fund is used to account for the proceeds of specific federal and state grants that are legally restricted to expenditures for specified purposes. These are non-major governmental funds except for the Oxford Reserve and Trust Fund.

Capital Projects Funds – Capital Projects Funds are used to account for financial resources such as proceeds from the sale of bonds, bond anticipation notes, capital notes, transfers from governmental funds, and federal and state grants, all provided for the specific purpose of constructing, reconstructing or acquiring permanent or semi-permanent capital improvements. Capital improvements intended for Enterprise Fund use are not included in the Capital Projects Funds.

Proprietary Funds

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues for the proprietary funds are as follows: sale of water for the Water Fund and sale of electricity for the Electric Fund. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

The Electric Fund – This fund is used to account for the City's electric distribution system. This fund is responsible for electric power delivery to the residents of the City of Oxford.

Combined Water and Sewer Fund – This fund is used to account for the City's water treatment and distribution system. This fund is responsible for water delivery to the residents of the City of Oxford.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Reporting Entity

In evaluating the City as a reporting entity, management has addressed all potential component units (traditionally separate reporting entities) for which the City may be financially accountable and, as such, should be included within the City's financial statements. The City (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City. Organizations for which the City is not financially accountable are also included when doing so is necessary in order to prevent the City's financial statements from being misleading.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements.

**CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

The financial statements are formatted to allow the user to clearly distinguish between the primary government and its component units. Because of the closeness of their relationship with the primary government (the City), some component units are blended as though they are part of the primary government.

Blended Component Units

Oxford Park Commission – Created by a 1950 ordinance of the City. The Commission is composed of five commissioner appointed by the City's mayor and board of aldermen. Although it is legally separate from the City, the Commission is reported as if it were part of the primary government because its primary purpose is to provide recreation activities on behalf of the City.

The Oxford Tourism Council – Established by the Legislature of the State of Mississippi in August 1998 for the promotion of tourism within the City. The Council is composed of five board members appointed by the City's mayor and board of aldermen with one of the five board members being a current alderman of the City. Although it is legally separate from the City, the Council is reported as if it were part of the primary government because its primary purpose is to provide tourism activities on behalf of the City.

Payments Between The City And Component Units

Resource flows between the primary government and blended component units are classified as interfund transactions in the financial statements.

Budgets and Budgetary Accounting

The Mayor and Board of Aldermen generally follow the following proposed budget calendar of the State Department of Audit in establishing the budgetary data reflected in the financial statements:

- (1) The Mayor and Board of Aldermen formulate the budget policy at the May board meeting.
- (2) Department budget requests are prepared by the appropriate people and submitted by the July board meeting.
- (3) A proposed budget is presented at the August meeting and a notice of public budget hearings and availability of the budget for inspection is published.

**CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

- (4) Between August 15th-30th a public hearing is held and the budget is adopted. The anticipated tax levy is reviewed to determine whether public notice is required on any levy.
- (5) Between September 1st-15th the budget must be adopted and the tax levy set.
- (6) Between September 1st-30th, in accordance with the City's population, the budget must be published in a municipal newspaper.
- (7) And, between September 15th-30th the budget as adopted should be written up, filed with the municipal clerk and public notice given of the availability of the budget for inspection.

Expenditures may not legally exceed budgeted appropriations at the activity level. During the year, several supplementary appropriations were necessary.

- (8) Further, budgets are used as management control devices in the General Debt Service and Proprietary Funds. These budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except the Proprietary Fund recognizes all expenditures for debt as expense and no depreciation expense is recognized.

Budgetary data for the Capital Projects Fund has not been presented in the accompanying combined financial statements as such funds are budgeted over the life of the respective project and not on an annual basis.

Unused appropriations for all of the above annually budgeted funds lapse at the end of the year. The budget amounts shown in the financial statements are the final authorized amounts after appropriate revisions during the year.

Expenditures may not legally exceed budgeted appropriations at the activity level except for capital outlays, election expenses and emergency expenditures.

Revenue Recognition - Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent February 1 of the following year.

Encumbrances

State law does not require that funds be available when goods or services are ordered, only when paid for. Due to this circumstance, the City does not employ an encumbrance system.

Cash and Cash Equivalents

For purposes of the statement of cash flows, all highly liquid debt instruments purchased with an original maturity of three months or less when acquired are considered to be cash equivalents.

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

Receivables

Receivables at September 30, 2016, consisted primarily of property and other taxes, accounts (billings for user charged services including unbilled utility services), intergovernmental receivables arising from entitlements and shared revenues, and accrued interest on investments.

The accrual amount of court fine receivables on the Statement of Net Position – Government-Wide has been reduced by \$548,511 to reflect the provision for uncollectible fines as determined by management's estimate.

Business Information

The City of Oxford, Mississippi provides electric, water and sewer services to customers located within the city limits of Oxford, Mississippi as well as a limited number of customers outside the city limits. Credit is extended to all of these customers for services.

Inventories

Inventories for proprietary fund types are valued at cost. The City does not maintain inventory records for any other fund types.

Prepaid Items

Prepaid items, such as prepaid insurance, are not reported for governmental fund types. This is permitted by generally accepted accounting principles.

Compensated Absences

The City's policy allows employees to accumulate unused vacation leave with no maximum. Upon termination, any accumulated vacation leave of up to 30 days will be paid to the employee. Sick leave will be paid only upon illness while an employee of the City.

Cash and Investments

The City deposits funds in the financial institutions selected by the Board of Alderman in accordance with state statutes.

The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the entities are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC.

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

Investments - State statutes, city bond ordinances and city resolutions authorize the City's investments. The City is authorized, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county, municipality or school district of this state, when such county, municipal or school district bonds have been properly approved; or in interest-bearing time certificates of deposit with any financial institution approved for the deposit of funds.

For reporting purposes, certificates of deposit are classified as investments. Investments are valued at cost or amortized cost except for investments in the Oxford Reserve and Trust Fund that are reported at market value.

Fund Balance Classification

The City has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions. In accordance with GASB Statement No. 54, the governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The City has an obligation to maintain unemployment comp funds intact in lieu of periodic contributions to the state unemployment insurance program. The City has classified all funds associated with the unemployment comp fund as nonspendable. The City has \$55,633 of nonspendable fund balance as of September 30, 2016.
- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City has classified the Forestry Grant and IDF Interlock Device funds in the General Fund as restricted. The City has classified all special revenue grant funds as restricted to the appropriate expenditure category. The City has also classified the 2 % Food and Beverage Tax, Hotel/Motel Tax, and MDJ Unit Fund as restricted. The City has classified the \$5.5 M Bond Issue-2012 Fund and all other capital projects funds as restricted for capital projects. The City also considers the balance in the Oxford Municipal Reserve & Trust Fund as restricted due to a state senate bill.
- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the City's Board of Aldermen. These amounts cannot be used for any other purpose unless the Board of Aldermen removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The City has classified the Crime Prevention/OPD Mounted Unit fund and the Tennis Sponsorships fund in the General Fund, as being committed because they were set aside for specific purposes by the Board of Aldermen. The City considers the balance in the debt service fund as committed based on Board authorization. The City also considers the Conference Center and Oxford Tourism Council funds as committed to tourism.

**CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016**

NOTE 1 - SUMMARY OF SIGNIFICANT POLICIES (continued)

- Assigned: This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Aldermen or through the Board of Aldermen delegating this responsibility to the City's management through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The City has classified the Cemetery Fund, London Bus Fund and Historic Homes Fund balances as assigned. The City has \$528,070 of assigned fund balance as of September 30, 2016.
- Unassigned: This classification includes the residual fund balance for the General Fund and all other amounts not included in other spendable classifications.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates. Significant estimates used in preparing these financial statements include those assumed in computing the provision for uncollectible court fines. It is at least reasonably possible that the significant estimate used will change within the next year.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Oxford's participation in the Public Employees' Retirement System of Mississippi (PERS), and additions to/deductions from the City of Oxford's fiduciary net position have been determined on the same basis as they are reported by the Public Employees' Retirement System of Mississippi (PERS). For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employees' Retirement System of Mississippi (PERS).

NOTE 2 - PROPERTY TAXES

Property taxes, except motor vehicles, attach as an enforceable lien on property as of January 1st. The City bills and collects its own property taxes, except motor vehicle taxes, and also collects taxes for the Separate School District. Motor vehicle taxes are collected by the County Tax Collector and remitted to the City. Taxes are levied on October 1st and are due and payable at that time. All unpaid taxes levied October 1st become delinquent February 1st of the following year. Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within thirty days after year end.

NOTE 3 - CONTINGENT LIABILITIES

Litigation

From time to time, the City is a defendant in various litigations arising out of normal business activities. Although the City carries commercial insurance to protect itself against damage claims, it is possible that the ultimate resolution of cases may exceed the City's insured limits. Management, with the advice of legal counsel, is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the financial statements.

Federally Assisted Programs – Compliance Audits

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Defeased Debt

Certain outstanding revenue bonds of the City have been defeased by placing the proceeds of refunding bonds in irrevocable escrow accounts held and managed by bank trustees, and invested in U.S. Treasury obligations, the principal and interest on which would provide amounts sufficient to pay the principal and interest on the defeased bonds in accordance with the schedule of remaining payments due. Accordingly, the escrow account and the defeased bonds are not included in the City's financial statements. The defeased bonds outstanding at September 30, 2016 considered extinguished are as follows:

2004 General Obligation Bond	\$ 660,000
2007 General Obligation Bond	\$ 5,495,000

Advance Refunding

On December 9, 2015, the City issued a \$6,590,000 Mississippi General Obligation Refunding Bond, Series 2015, with interest rates from 1.05% to 5.00%. The bond bears an interest rate from 2.0% to 2.5% with annual maturities from March 2016 through March 2027.

The net proceeds of \$6,590,000 (after issuance costs of \$205,959) were used to advance refund \$6,155,000 of the outstanding General Obligation Bonds, Series 2004 and 2007, with interest rates from 3.5% to 4.125%.

The net proceeds were used to partially redeem the Series 2004 and 2007 General Obligation Bonds in the current fiscal year. As a result, the related redeemed liability associated with these bonds has been removed from the City's liabilities in the statement of net position.

The advanced refunding reduced total debt payments over the next twelve years by \$353,897. This results in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$319,678.

NOTE 6 - DEFINED BENEFIT PENSION PLAN

Plan Description- Employees of the City of Oxford are provided a defined benefit pension plan through the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing agent multiple-employer pension plan. The Public Employees' Retirement System of Mississippi (PERS) was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in the System, and elected members of the State Legislature and the President of the Senate. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits Provided- For the cost-sharing plan participating members who are vested and retire at or after age 60 or those retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.50% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service.

A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary. Retirees and beneficiaries who have been receiving benefit payments for at least one full fiscal year are eligible to receive an annual Cost-of-Living Adjustment (COLA). Designed to help offset the effects of inflation, the COLA is equal to 3% of your annual base benefit for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3 % compounded for each fiscal year thereafter.

Employee membership data related to the Plan, as of June 30, 2016 was as follows:

Retirees and Survivors	99,483
Terminated Vested Employees	19,400
Inactive Nonvested Members	123,235
Active Members	<u>154,104</u>
Total	<u>396,222</u>

Employee membership data related to the Plan, as of June 30, 2015 was as follows

NOTE 6 - DEFINED BENEFIT PENSION PLAN (continued)

Contributions- The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. PERS members are required to contribute 9.00% of their annual covered salary and the City of Oxford is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. The contributions are deducted from the employees' wages or salary and remitted by the City to PERS on a monthly basis. By law, employer contributions are required to be paid. The employer's actuarially determined contribution and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

For the year ended September 30, 2016, the City of Oxford's total payroll for all employees was \$17,400,531. Total covered payroll was \$17,235,669. Covered payroll refers to all compensation paid by the City (including Oxford Tourism Council and Oxford-Electric Department) to active employees covered by the Plan.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions- At September 30, 2016, the City of Oxford (including the Oxford Tourism Council) reported a liability of \$41,350,609 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. At June 30, 2016, the City of Oxford-Electric Department reported a liability of \$3,841,475 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City of Oxford's proportion of the net pension liability was based on a projection of the City of Oxford's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2016, the City of Oxford (including Oxford Tourism Council)'s proportion was 0.231494%. At June 30, 2015, The City of Oxford-Electric's proportion was 0.025%.

For the year ended September 30, 2016, the City of Oxford (including Oxford Tourism Council) recognized pension expense of \$7,623,358. At September 30, 2016, the City of Oxford (including Oxford Tourism Council) reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Results - Pensions	\$ 1,153,379	\$ 0

NOTE 6 - DEFINED BENEFIT PENSION PLAN (continued)

For the year ended June 30, 2016, the City of Oxford-Electric Department recognized pension expense of \$365,450. At June 30, 2016, the City of Oxford-Electric Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Results - Pensions	\$ 89,248	\$ 0
City Pension Contributions Subsequent to the Measurement Date	254,675	0
Changes in Assumptions	330,930	
Net Difference Between Projected and Actual Earnings on Pension Plan Assets	0	103,176
Total	\$ <u>674,852</u>	\$ <u>103,176</u>

The \$254,675 of deferred outflows of resources resulting from the City of Oxford-Electric Department's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension.

The \$641,698 of deferred outflows of resources resulting from the City of Oxford (including Oxford Tourism Council)'s contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Fiscal Year Ending September 30,	Amount
2017	\$ 2,725,553
2018	2,228,539
2019	1,793,796
2020	816,891
Total	\$ <u>7,564,779</u>

Actuarial Assumptions-The City of Oxford-Electric pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary increases	3.75-19.00%, average, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

NOTE 6 - DEFINED BENEFIT PENSION PLAN (continued)

Actuarial Assumptions-The City of Oxford pension liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75-19.00%, average, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table Projected with Scale AA to 2025, set forward two years for males for the City of Oxford-Electric Department.

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016, with male rates set forward one year for the City of Oxford.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2012. The experience report is dated June 12, 2013.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2016 and 2015, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Broad	34.00%	5.20%
International Equity	19.00%	5.00%
Emerging Markets Equity	8.00%	5.45%
Fixed Income	20.00%	0.25%
Real Assets	10.00%	4.00%
Private Equity	8.00%	6.15%
Cash	1.00%	(0.50)%
Total	<u>100.00%</u>

NOTE 6 - DEFINED BENEFIT PENSION PLAN (continued)

Discount Rate-The discount rate used to measure the total pension liability was 7.75% for the City of Oxford-Electric Department and 7.75% for the City of Oxford (including Oxford Tourism Council). The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City of Oxford's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate-The following presents the City of Oxford-Electric Department's proportionate share of the net pension liability using the discount rate of 7.75%, as well as what the City of Oxford-Electric Department's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	Discount Rate	City's Proportionate Share of Net Pension Liability
1% decrease	6.75%	\$5,063,415
Current discount rate	7.75%	\$3,841,475
1% increase	8.75%	\$2,827,492

The following presents the City of Oxford (including Oxford Tourism Council)'s proportionate share of the net pension liability using the discount rate of 7.75%, as well as what the City of Oxford (including Oxford Tourism Council)'s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	Discount Rate	City's Proportionate Share of Net Pension Liability
1% decrease	6.75%	\$53,020,751
Current discount rate	7.75%	\$41,350,609
1% increase	8.75%	\$31,668,173

NOTE 7 - RISK MANAGEMENT

The City of Oxford is exposed to various risks of losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs of the City except for certain employment practices liabilities, certain environmental liabilities, worker's compensation liabilities funded through a public entity risk pool, and catastrophic natural disasters that may exceed insurance coverage for which the City retains the risk of loss.

CITY OF OXFORD, MS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 7 - RISK MANAGEMENT (continued)

Risk of loss related to workers compensation for injuries to City employees is covered through the Mississippi Municipal Workers' Compensation Group, a public entity risk pool. The pool was formed on March 28, 1989, by the Mississippi Nonprofit Corporation Act, pursuant to Section 71-3-75, Mississippi Code Annotated (1972), to provide public entities within the State of Mississippi workers compensation and employer's liability coverage. The City pays premiums to the pool for its workers' compensation insurance coverage based on total payroll. The participation agreement provides that the pool will be self-sustaining through member premiums. The risk of loss is remote for claims exceeding the pool's retention liability. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

For insured programs there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years. The City Attorney estimates that the amount of actual or potential claims against the City as of September 30, 2016, will not materially affect the financial condition of the City. Therefore, no provisions have been made for estimated claims. There have been no material claims paid by the City during the current or prior year.

NOTE 8 - TRANSFERS IN AND OUT

Transfers between the primary government and blended component units do not balance on the Statement of Activities because the Electric Department and Oxford Tourism Council report differently from the City. The following is a reconciliation of the difference:

NOTE 9 - COMMITMENTS

The electric systems has a power contract with the Tennessee Valley Authority (TVA) whereby the electric system purchases all its electric power from TVA and is subject to certain restrictions and conditions as provided for in the power contract. Such restrictions include, but are not limited to, prohibitions against furnishing, advancing, lending, pledging or otherwise diverting electric system funds, revenues or property to other operations of the city and the purchase or payment of, or providing security for indebtedness on other obligations applicable to such other operations.

NOTE 10 - THE CITY OF OXFORD MUNICIPAL RESERVE AND TRUST FUND

This fund was established by Senate Bill Number 3128 for a period of twenty years. All proceeds received by the City from the sale of the Oxford-Lafayette Medical Center shall be deposited into this fund. The fund is to be administered, managed, invested and governed by a board of trustees. The board is to consist of nine members: the mayor; the mayor pro tem; an alderman; and six non aldermen with terms of one year, two years, three years, four years, five years, and six years. The alderman will serve for two years. The trustees shall establish a comprehensive investment plan for the purpose of this act. The comprehensive investment plan shall specify the policies to be utilized by the board of trustees in its administration of the fund. The board of trustees shall invest the fund in any of the investments authorized for the Mississippi Prepaid Affordable College Tuition Program under Section 37-155-9, Mississippi Code of 1972, and those investments shall be subject to the limitations prescribed in Section 37-155-9, except the fund shall be restricted from investment in the covered call and put options allowed in Section 37-155-9(v) (xi) or in the pooled or commingled real estate funds or real estate securities as outlined in Section 37-155-9(v) (xiii).

The fund shall be divided into two components, the corpus component and the earnings component. The corpus component shall consist of the initial deposit of \$30,000,000 and subsequent deposits from the annual income earned. Except, as otherwise provided in the trust agreement, the corpus shall be inviolate and maintained and used to generate income and shall not be invaded or used by the Board of Trustees or the Governing Authorities.

The earnings component shall be considered an amount equal to three percent (3%) of the amount of the full fund balance whether or not the corpus component has generated any income in that fiscal year. All remaining portions of the accrued income earned shall remain in the fund as part of the corpus component. Funds comprising the earnings component shall be transferred from the fund to the general fund of the City at the direction of the Clerk and shall be available for appropriation and spending by the Governing Authorities.

The corpus component can be used upon a three-fourths majority vote of the board of aldermen and with approval by the mayor, the governing authorities are authorized to withdraw monies from the corpus component and have the monies disbursed to the City for appropriation and spending, in the event of the following:

- (a) A state of emergency or local emergency has been declared under federal, state, or local law; or
- (b) Overall budgeted collections of the city are more than five percent (5%) below that fiscal year's budgeted estimates for at least three (3) consecutive calendar months. In this instance, corpus monies may be withdrawn by the City to meet up to ninety-eight percent (98%) of projected budget shortfalls.

In the event of withdrawal of any portion of the corpus component by the City, annual disbursements by the trustees of the earnings components shall cease and all income shall be retained by the trustees and repaid to the corpus until such time as the corpus component equals its full pre withdrawal amount, at which time, disbursement of earning components may continue.

In addition, upon a unanimous vote of the board of aldermen and with approval by the mayor, the governing authorities are authorized to withdraw monies from the corpus component and have them disbursed to the City for appropriation and spending.

NOTE 10 - THE CITY OF OXFORD MUNICIPAL RESERVE AND TRUST FUND (continued)

The withdrawal by the governing authorities shall be limited in the following manner:

- (a) No such vote or withdrawal may occur without the governing authorities first conducting a full public, open municipal hearing on consideration of the matter for which such appropriation and spending would be made;
- (b) Withdrawal pursuant to this subsection may occur only one time during each four-year term of the then board of aldermen and mayor;
- (c) Withdrawal shall not exceed ten percent (10%) of the corpus component of the fund, as determined by the trustees; and
- (d) The withdrawal must be repaid to the fund before a withdrawal under this subsection could be authorized within a subsequent four-year term.

Custodial Credit Risk:

The investments are held by the Glenmede Trust Company. The Company has presented a certificate of Liability Insurance for Errors and Omissions of \$50,000,000 and a Fidelity Bond of \$30,000,000. The balance of the City of Oxford Municipal Reserve and Trust Fund at September 30, 2016, was \$33,988,036.

NOTE 15 - FUND BALANCE RECONCILIATION – GENERAL FUND BUDGET BASIS

Mississippi state law requires, for budget purposes, that the general fund record revenues on the cash basis. Generally accepted accounting principles (GAAP) would require that the revenues be accounted for on the modified accrual basis; therefore, the required budgetary basis would not be considered to be GAAP. Any accruals of revenues included on the "Combined Statement of Revenues, Expenditures and Changes - All Governmental Fund Types" are eliminated for budget purposes. In the current fiscal year, accrued revenues were \$319,149 more than cash revenues.

NOTE 16 - EXPENDITURES OVER APPROPRIATIONS FOR INDIVIDUAL FUNDS

Any expenditures over appropriations at the legal level of budgetary control for the respective funds are disclosed in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual for the respective fund. Expenditures over appropriations at the legal level of budgetary control are as follows:

	<u>Budget</u>	<u>Actual</u>	<u>Overage</u>
General Fund:			
Waste Disposal			
Other Services and Charges	\$ 551,450	\$ 552,691	\$ 1,241
Culture & Recreation			
Other Services and Charges	150,199	694,665	544,466

NOTE 17 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through March 20, 2017, the date on which the financial statements were available to be issued.

The notes to the required supplementary information are an integral part of this schedule.

This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB 68 was implemented in FYE 9/30/2015, and until a full 10-year trend is compiled, the City has only presented information for the years in which information was available.

CITY OF OXFORD, MISSISSIPPI
Notes to the Required Supplementary Information
For the Year Ended September 30, 2016

Pension Schedules

(1) Changes in benefit provisions

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

(2) Changes of assumptions

In 2015 and later, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally, the price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively. In 2016, the assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

(3) The comparative information presented on the Schedule of the Department's Contributions does not include information for years prior to 2014 because GASB 68 was implemented in the 2015 fiscal year. Information for the 2014 year was included because it was necessary to record the prior period adjustment in the implementation of GASB 68.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and Board of Aldermen
City of Oxford, Mississippi
Oxford, Mississippi 38655

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oxford, Mississippi as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Oxford, Mississippi's basic financial statements and have issued our report thereon dated March 20, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Oxford, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Oxford, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Oxford, Mississippi's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as 2, 3, 4 and 5 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompany schedule of findings and questioned costs as 6 and 7 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Oxford, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as 1, 2, 4, 6 and 7. We noted certain other matters that we reported to management of the City of Oxford, Mississippi in a separate letter dated March 20, 2017.

City of Oxford, Mississippi's Response to Findings

The City of Oxford, Mississippi's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Oxford, Mississippi's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mayor and Board of Aldermen
Oxford, Mississippi

Report on Compliance for Each Major Federal Program

We have audited the City of Oxford, Mississippi's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Oxford, Mississippi's major federal programs for the year ended September 30, 2016. City of Oxford, Mississippi's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Oxford, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Oxford, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Oxford, Mississippi's compliance

Opinion on Each Major Federal Program

In our opinion, the City of Oxford, Mississippi, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2016.

Report on Internal Control over Compliance

Management of the City of Oxford, Mississippi, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Oxford, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Oxford, Mississippi's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

To the Honorable Mayor and Board of Aldermen
City of Oxford, Mississippi
Oxford, Mississippi 38655

We have audited the financial statements of the City of Oxford, Mississippi, as of and for the year ended September 30, 2016 and have issued our report dated March 20, 2017. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed the following material instances of noncompliance with state laws and regulations. Our findings and recommendations and your responses are included in the Schedule of Findings and Questioned Costs as findings 1, 2, 4, 6 and 7.

The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

This report is intended for the information of the City's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

SECTION 2 – FINANCIAL STATEMENT FINDINGS:

FINDING NO. 1

Criteria: The City is to maintain adequate subsidiary records substantiating the existence, completeness, and valuation of fixed assets.

Cause of Condition: The City did not conduct an annual inventory observation of fixed assets pursuant to guidelines set forth by the Mississippi Office of the State Auditor. The City does not have an accurate listing of fixed assets. The City has not ensured that all fixed assets are properly tagged.

Recommendation: The City should conduct a year-end inventory of its fixed assets and ensure that all assets owned by the City are properly tagged and accounted for in accordance with state requirements.

Response: The City will establish an inventory policy that will require a complete annual inventory of all fixed assets. All assets will be properly tagged and numbered, and relevant information will be gathered on all assets and included on the master fixed asset listing. The City is currently working with all departments to conduct an annual inventory and accurately tag and account for all fixed assets.

FINDING NO. 2

Criteria: The City is to maintain adequate internal controls to ensure accurate processing of transactions for the fair presentation of its financial records.

Cause of Condition: The City's depreciation schedule has several assets without a description of the assets. The City disposed of several assets by approval in the minutes, however, the assets could not be removed from the depreciation schedule due to lack of adequate descriptions.

Recommendation: The City should develop a process to ensure fixed asset depreciation schedules are maintained with adequate descriptions and relevant information. The City should ensure that all assets declared surplus are identified on the depreciation schedule and properly removed.

Response: The City will establish a fixed asset policy to address the issues raised with fixed assets. The City will continue working on the deprecation schedule to ensure it is maintained and updated each year.

FINDING NO. 3

Criteria: The City is to maintain adequate internal controls to ensure accurate processing of transactions for the fair presentation of its financial records.

Cause of Condition: The City did not ensure all liabilities of the City were properly recorded on the general ledger of the City in the appropriate funds. The City accounts for all meter deposits of the City on the general ledger of the Electric Department. The meter deposits for the Water and Sewer fund cannot be identified and segregated from the deposits of the Electric Fund. Therefore, the general ledger and financial statements of the Water and Sewer Fund do not accurately report the liabilities associated with this fund.

Recommendation: The City should implement adequate internal controls to ensure proper presentation of liabilities of each fund of the City. The meter deposit listing should be segregated between amounts held for deposit by Electric Fund and Water and Sewer Fund.

Response: The City will take steps to develop a system to adequately segregate the meter deposits between the two funds and ensure the liability is recorded in the proper fund of the City.

FINDING NO. 4

Criteria: The City is to maintain adequate internal controls to ensure accurate processing of transactions for the fair presentation of its financial records. The City is to comply with state purchasing laws for all applicable purchases over certain dollar thresholds.

Cause of Condition: The City did not obtain competitive quotes for two purchases during the year, as required by state statutes.

Recommendation: The City should implement adequate internal controls over all state purchase laws to ensure that the City strictly adheres to the purchase laws in all departments of the City.

Response: The City will take steps necessary to ensure that controls over purchasing are revised to ensure future compliance.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
September 30, 2016**

FINDING NO. 5

Criteria: The City is to maintain adequate internal controls to ensure accurate processing of transactions for the fair presentation of its financial records.

Cause of Condition: The City does not have a computerized inventory system for tracking or valuing inventory for the Water and Sewer fund. Inventory counts were performed on all items on hand at year end. We noted several inventory items in which inventory pricing or valuation was not adequately documented.

Recommendation: The City should continue to develop an inventory system for the Water and Sewer fund. Inventory count procedures have improved but the City should continue to stress the importance of an accurate inventory count. The City should develop a system to adequately price and value all inventory items.

Response: The City has made significant improvements in accounting for the inventory of the Water and Sewer fund. The City will continue to improve and develop a system to adequately track and value all inventory of the water and sewer fund.

FINDING NO. 6

Criteria: The City is required, by state statutes, to prepare a budget for all required governmental funds of the City and to monitor and modify the budget as necessary to ensure all expenses are within the budgeted amounts.

Cause of Condition: The City had budget overages in some expense categories for the year ended September 30, 2016.

Recommendation: The City should ensure that all expenses are within the final amended budget amounts. The City Clerk should generate monthly budget to actual revenue and expense reports that should be used to ensure budgets are amended before expenses are disbursed in excess of budgeted amounts.

Response: The City will take steps necessary to provide the Board with accurate revenue and expense budget to actual comparisons on a monthly basis for all required accounts. The City will take steps necessary to ensure that budgets are amended prior to budget overages occurring.

FINDING NO. 7

- Criteria:** The City is to participate in the centralized pledging program (State Collateral Pool) to satisfy pledging requirements for deposits at financial institutions where the City maintains public funds.
- Cause of Condition:** The City did not ensure that all bank accounts were covered under the State Treasurer pool for the year ended September 30, 2016. Therefore, the City was not adequately covered by pledged securities under the State Collateral Pool.
- Recommendation:** The City should implement adequate controls to ensure that all relevant reports regarding the State Collateral Pool are maintained and should reconcile the reports with the financial records of the City.
- Response:** The City will ensure that it has all current State Collateral Pool reports from the State Treasurer so as to ensure that all City deposits are properly collateralized. The City will file the annual report with the State Treasurer and ensure all accounts are included in the future.

Findings 1, 2, 4, 6 and 7 are noncompliance findings.
Findings 2, 3, 4 and 5 are material weaknesses.
Findings 6 and 7 are significant deficiencies.
