### **Jackson County Location in Mississippi**

Jackson County is located at the southeastern tip of the state, bordering Alabama on its east side. Jackson County was founded in 1812 and named after Andrew Jackson, general in the United States Army and afterward President of the United States. Jackson County covers 1,043 miles, of which 723 square miles is land and 321 square miles is water. Jackson County's population is 139,668 per the 2010 U.S. Census.

This page is left blank intentionally.

## FINANCIAL REPORT

#### INDEPENDENT AUDITOR'S REPORT

Members of the Board of Supervisors Jackson County, Mississippi

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Jackson County, Mississippi (the County) as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Singing River Health / Mental Retardation Services, Singing River Health System, West Jackson County Utility District, Jackson County Emergency Communications District, Jackson County Port Authority and Jackson-George Regional Library System, which are discretely component units and represent 1%, 64%, 10%, 1%, 23%, and 1%, respectively, of the assets, 10%, 246%, (27)%, (5)%, (129)% and 5%, respectively, of the net position, and 3%, 89%, 2%, 0%, 5% and 1%, respectively, of the revenues of the discretely component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these entities, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's

1929 SPILLWAY ROAD, SUITE B BRANDON, MISSISSIPPI 39047 TELEPHONE 601-992-5292 FAX 601-992-2033 judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Jackson County, Mississippi, as of September 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedules, the Schedule of Funding Progress - Other Postemployment Benefits, the Schedule of the County's Proportionate Share of the Net Pension Liability, and the Schedule of the County's Contributions and corresponding notes, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Omission of Required Supplementary Information

Jackson County, Mississippi has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jackson County, Mississippi's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and Component Units - Combining Statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Schedule of Expenditures of Federal Awards and Component Units - Combining Statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the accompanying Schedule of Expenditures of Federal Awards and the Component Units - Combining Statements are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Schedule of Surety Bonds for County Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 16, 2018, on our consideration of the Jackson County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and

the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jackson County, Mississippi's internal control over financial reporting and compliance.

Total fund balances for governmental funds	\$	81,504,697
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		257,978,375
Other long-term assets are not available to pay current period expenditures and therefore are deferred in the funds		4,428,833
Deferred outflows of resources related to pension reported in governmental activities is not a financial resource and therefore is not reported in the funds.		13,260,729
Deferred amount on refunding of debt reported as deferred outflows of resources in governmental activities is not a financial resource and therefore is not reported in the funds.		156,870
Prepaid items, such as prepaid insurance, are accounted for as expenditures in the period of acquisition and, therefore, are not reported in the funds.		619,968
Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported in the funds		(114,278,655)
Other postemployment benefits are not due and payable in the current period and therefore are not reported in the funds.		(2,274,502)
Deferred inflows of resources related to pension are not due and payable in the current period and therefore are not reported in the funds.		(6,972,920)
Internal Service Funds are used by management to charge the costs of insurance to individual funds. The assets and liabilities of the Internal Service Funds are		
included in governmental activities in the statement of net position.	_	2,801,706
Net position of governmental activities	\$_	237,225,101

The accompanying notes to the financial statements are an integral part of this statement.

JACKSON COUNTY, MISSISSIPPI Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities	Exhibit 4-1
For the Year Ended September 30, 2017	
Net change in fund balances - total governmental funds	\$ 8,218,857
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays \$16,258,150 exceeded depreciation expense of \$9,074,003	7,184,147
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net income of the	
internal service funds is reported with governmental activities.	8,977
In the Statement of Activities, only gains and losses from the sale of capital assets are reported, whereas in the Governmental Funds, proceeds from the sale of capital assets increase financial resources. Thus, the change in net position differs	
from the change in fund balances by the amount of the net loss of \$1,357,314 less the proceeds from the sale of \$433,603 in the current period.	(923,711)
Fine revenue recognized on the modified accrual basis in the funds during the current year is increased because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	(83,505)
	(00,000)
Debt proceeds provide current financial resources to Governmental Funds, but issuing debt increases long term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the Governmental Funds, but the repayment reduces long term liabilities in the Statement of Net Position. Thus, the change in net	
position differs from the change in fund balances by the amount that debt repayments of \$5,283,432 exceed the debt proceeds of \$795,853.	4,487,579
Some items reported in the Statement of Activities relating to the implementation of GASB 68 are not reported in the governmental funds. These activities include:	
Recording of pension expense for the current period	(12,281,520)
Recording retirement contributions made during the fiscal year:  Before the measurement date	2 609 416
Subsequent to the measurement date	3,608,416 1,289,328
Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:	
Increase in compensated absences	(54,791)
Increase in other post employment benefits payable	(297,980)
Decrease in accrued interest payable	44,064
Decrease in prepaid insurance	(66,694)
Amortization of bond premiums	12,575
Amortization of bond discount	(8,574)
Amortization of deferred amount on refunding	 (157,259)

The notes to the financial statements are an integral part of this statement.

## Jackson County, Mississippi

Notes to the Financial Statements For the year ended September 30, 2017

Notes to the Financial Statements For the Year Ended September 30, 2017

#### Note 1 – Summary of Significant Accounting Policies

#### A. Financial Reporting Entity

Jackson County, Mississippi (the County) is a political subdivision of the State of Mississippi, governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Jackson County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the County.

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the County's legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor
- Tax Collector
- Sheriff

#### **B.** Individual Component Unit Disclosures

Discretely Presented Component Units

The component units' columns in the financial statements include the financial data of the following component units of the County. They are reported in a separate column to emphasize that they are legally separate from the County. A majority of the members of the governing bodies of these component units are appointed by the County Board of Supervisors.

- Singing River Health/Mental Retardation Services
- Singing River Health System
- West Jackson County Utility District
- Jackson County Emergency Communications District
- Jackson County Port Authority
- Jackson-George Regional Library System

Singing River Mental Health / Mental Retardation Services ("The Agency") established by Section 41-19-31, Miss. Code Ann. (1972) authorizes the Agency to establish facilities within which to operate and maintain programs to serve the mentally ill and mentally

Notes to the Financial Statements For the Year Ended September 30, 2017

retarded patients in Jackson County and George County. The Agency is governed by a two-member Board of Commissioners with each county Board of Supervisors appointing one member. Each of these Commissioners sits on the fifteen-member Board of Directors for the Agency which manages the day-to-day operations of the Agency.

Singing River Health System ("The Public Hospital") established by Section 41-13-15, Miss. Code Ann. (1972) authorizes the Public Hospital to provide for the establishment, maintenance and operation of health facilities to serve community health needs in Jackson County. Facilities operated by the Public Hospital include: 1) Singing River Hospital, 2) Ocean Springs Hospital, 3) Singing River Medical Park and Ocean Springs Medical Park, 4) the Neuroscience Center, 5) the Regional Cancer Center and 6) five primary care clinics throughout the County. The Public Hospital is governed by a nine-member Board of Trustees with Jackson County appointing seven members.

Jackson County Port Authority ("The Port Authority") was established in 1956 under Chapter 199 of the Laws of the State of Mississippi. The Port Authority was provided exclusive jurisdiction over improvements resulting from the acts (harbors, waters, vessels, etc.) for the purpose of importing and exporting under a tariff approved by the Federal Maritime Commission. The Port Authority is also charged with the operations of an industrial water supply, a water pollution control system and a water cooling lake. Jackson County appoints five members to the nine-member Port Commission with the remaining members appointed by the Governor of Mississippi.

West Jackson County Utility District ("The District") was created in 1974 by the Jackson County Board of Supervisors under the provisions of Senate Bill 2251, under the Laws of the State of Mississippi 1966. The District provides water and sewer collection services to user customers in the unincorporated areas of Western Jackson County. The District is governed by a five-member Board of Commissioners appointed by the Jackson County Board of Supervisors.

Jackson-George Regional Library System ("The Library System") was created by contract between the Jackson County Board of Supervisors and the George County Board of Supervisors under Section 39-3-9, Miss. Code Ann. (1972). Eight library facilities are maintained that provide services to the residents of both counties. The Library System is governed by a regional Board of Trustees with appointees made by each county's Board of Supervisors.

Jackson County Emergency Communications District ("The District") was established by Section 19-5-305, Miss. Code Ann. (1972) to provide E-911 services to Jackson County residents. The seven-member Board of Commissioners is appointed entirely by the Jackson County Board of Supervisors.

Notes to the Financial Statements For the Year Ended September 30, 2017

Certified public accounting firms other than the primary government auditor prepare audited financial statement information for each discretely-presented component unit listed above and provided to the County as the primary government. Financial information may be obtained from the Jackson County Chancery Clerk's office at Post Office Box 998, Pascagoula, Mississippi 39568-0998.

#### C. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, fund financial statements and accompanying note disclosures which provide a detailed level of financial information.

#### Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information concerning the County as a whole. The statements include all nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues and are reported separately from business-type activities. Business-type activities rely mainly on fees and charges for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Net Position presents the financial condition of the governmental activities and business-type activities of the County at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the County's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as program revenues, are presented as general revenues of the County, with certain limited exceptions. Internal service fund balances have been eliminated against the expenses and program revenues. The comparison of direct expenses with program revenues identifies the extent to which each business-type activity or governmental function is self-financing or draws from the general revenues of the County.

#### Fund Financial Statements:

Fund financial statements of the County are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflows, liabilities, deferred inflows, fund balances, revenues and expenditures/expenses. Funds are organized

Notes to the Financial Statements For the Year Ended September 30, 2017

into governmental, proprietary and fiduciary. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column as Other Governmental Funds.

#### D. Measurement Focus and Basis of Accounting

The Government-wide, Proprietary Funds and Fiduciary Funds (excluding agency funds) financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the County. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied. Agency funds have no measurement focus, but use the accrual basis of accounting.

The revenues and expenses of Proprietary Funds are classified as operating or nonoperating. Operating revenues and expenses generally result from providing services in connection with a Proprietary Fund's primary operations. All other revenues and expenses are reported as nonoperating.

Governmental financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The County reports the following major governmental funds:

<u>General Fund</u> – This fund is used to account and report all financial resources not accounted for and reported in another fund.

<u>Road Fund</u> – This fund is used to account for the maintenance and preservation of local roads financed with various revenue sources restricted for this purpose.

Notes to the Financial Statements For the Year Ended September 30, 2017

Additionally, the County reports the following fund types:

#### **GOVERNMENTAL FUND TYPES**

<u>Special Revenue Funds</u> - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

<u>Debt Service Funds</u> - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

<u>Capital Projects Funds</u> - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

#### PROPRIETARY FUND TYPES

<u>Enterprise Funds</u> – These funds are used to account for operations where the intent of the County is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where periodic measurement of the results of operations is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

<u>Internal Service Funds</u> – These funds are used to account for the operations of county departments that render services to other county departments on a cost-reimbursement basis. These activities include personnel services, information technology, and risk management. In the government-wide financial statements, Internal Service Funds are included in the governmental activities.

#### FIDUCIARY FUND TYPES

<u>Agency Funds</u> – These funds accounts for receipt of various taxes, deposits and other monies collected or held by the County, in a purely custodial capacity, until distributed to other governmental units or designated beneficiaries.

#### E. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

#### F. Deposits and Investments

State law authorizes the County to invest in interest bearing time certificates of deposit for

Notes to the Financial Statements For the Year Ended September 30, 2017

periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the County may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value.

#### G. Receivables

Receivables are reported net of allowances for uncollectible accounts where applicable.

#### H. Interfund Transactions and Balances

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Noncurrent portions of interfund receivables and payables are reported as "advances to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in the General Fund, if applicable, to indicate that they are not available for appropriation and are not expendable available financial resources. However, this is not applicable to advances reported in other governmental funds, which are reported, by definition, as restricted, committed, or assigned. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. Any outstanding balances between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### I. Inventories and Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items, such as prepaid insurance, are not reported in the governmental fund financial statements since the payments for such items are accounted for as expenditures in the period of payment.

#### J. Restricted Assets

Proprietary Fund and component unit assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions and donor specifications have been reported as restricted assets. When both restricted and nonrestricted assets are available for use, the policy is to use restricted assets first.

#### K. Capital Assets

Capital acquisition and construction are reflected as expenditures in Governmental Fund

Notes to the Financial Statements For the Year Ended September 30, 2017

statements and the related assets are reported as capital assets in the applicable governmental or business-type activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets, other than infrastructure costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Capital assets acquired or constructed for Proprietary Fund operations are capitalized at cost in the respective funds in which they are utilized. No interest is capitalized on self-constructed assets because noncapitalization of interest does not have a material effect on the County's financial statements. Donated capital assets are recorded at their fair value at the time of donation.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements and Proprietary Funds. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

	G	pitalization	Estimated
		Thresholds	Service Life
Land	\$	0	NA
Buildings		<i>5</i> 0,000	40 years
Improvements other than buildings		25,000	20 years
Mobile equipment		5,000	5 to 10 years
Furniture and equipment		5,000	3 to 10 years
Leased property under capital leases		*	*
Infrastructure		O	20 to 50 years

<sup>\*</sup>Leased property is capitalized and depreciated in accordance with the policy applicable to each asset.

#### L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a

Notes to the Financial Statements For the Year Ended September 30, 2017

future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

<u>Deferred amount on refunding</u> – For current refunding's and advance refunding's resulting in defeasance of debt reported by governmental activities, business type activities, and proprietary funds, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter.

<u>Deferred outflows related to pensions</u> – This amount represents the County's proportionate share of the deferred outflows of resources reported by the pension plan in which the County participates. See Note 9 for additional details.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

<u>Property tax for future reporting period/unavailable revenue – property taxes</u> – Deferred inflows of resources should be reported when resources associated with imposed nonexchange revenue transactions are received or reported as a receivable before the period for which property taxes are levied.

<u>Unavailable revenue – fines</u> – When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

<u>Deferred inflows related to pensions</u> – This amount represents the County's proportionate share of the deferred inflows of resources reported by the pension plan in which the County participates. See Note 9 for additional details.

#### M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### N. Long-term Liabilities

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of

Notes to the Financial Statements For the Year Ended September 30, 2017

noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements and in the Proprietary Fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or Proprietary Funds Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

#### O. Equity Classifications

Government-wide Financial Statements:

Equity is classified as Net Position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position not meeting the definition of "restricted" or "net investment in capital assets."

#### Net Position Flow Assumption:

When an expense is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

#### Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Notes to the Financial Statements For the Year Ended September 30, 2017

Government fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. The following are descriptions of fund classifications used by the County:

Nonspendable fund balance includes amounts that cannot be spent. This includes amounts that are either not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds from the collection of those receivables or from the sale of those properties are restricted, committed or assigned) or amounts that are legally or contractually required to be maintained intact, such as a principal balance of a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for specific purposes pursuant to constraints imposed by a formal action of the Board of Supervisors, the County's highest level of decision-making authority. This formal action is an order of the Board of Supervisors as approved in the board minutes.

Assigned fund balance includes amounts that are constrained by the County's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the General Fund, this is the residual amount within the fund that is not classified as nonspendable and is neither restricted nor committed. Assignments of fund balance are created by the Board of Supervisors pursuant to authorization established by Section 19-3-59, Miss. Code Ann. (1972). Currently, there is no assigned fund balance.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

#### Fund Balance Flow Assumption:

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

Notes to the Financial Statements For the Year Ended September 30, 2017

#### P. Property Tax Revenues

Numerous statutes exist under which the Board of Supervisors may levy property taxes, the selection of which is dependent on the objectives and responsibilities of the County. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these certain tax levies shall produce no more than 110% of the amount collected from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

#### Q. Intergovernmental Revenues in Governmental Funds

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

#### R. Compensated Absences

The County has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements and Proprietary Funds financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured, for example an employee resigns or retires.

#### S. Changes in Accounting Standards

The County implemented the following standards issued by the Governmental Accounting Standards Board (GASB) in the current fiscal year as required: GASB Statement No. 77,

Notes to the Financial Statements For the Year Ended September 30, 2017

Tax Abatement Disclosures and GASB Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68 and No. 73. The provisions of these standards have been incorporated into the financial statements and notes.

#### **Note 2 – Prior Period Adjustments**

A summary of the significant Net position/Fund Balance adjustments is as follows:

#### **Exhibit 2 - Statement of Activities:**

G	overnmental	В	usiness-type
	<b>Activities</b>		Activities
\$	(24,609)	\$	18,561
	(593,497)		
	15,807,290		3,440,534
\$	15,189,184	\$	3,459,095
	\$ \$	\$ (24,609) (593,497) 15,807,290	** (24,609) \$ (593,497) 15,807,290

# **Exhibit 6 - Statement of Revenues, Expenses and Changes in Net Position – Proprietary Funds:**

		Amount
Net effect of prior year errors in recording revenues and expenses	\$	18,561
To correct balances in capital assets		3,440,534
	_	2 450 005
Total Adjustments	\$	3,459,095

#### Note 3 – Deposits and Investments

#### **Deposits**

The carrying amount of the County's total deposits with financial institutions at September 30, 2017, was \$94,190,548 and the bank balance was \$100,038,121. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

**Custodial Credit Risk** – Custodial credit risk is the risk that in the event of the failure of a financial institution, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial

Notes to the Financial Statements For the Year Ended September 30, 2017

credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC). Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

#### **Investments**

As provided in Section 91-13-8, Miss. Code Ann. (1972), the following investments of the County are handled through a trust indenture between the County and the trustee related to the operations of the Jackson County, Mississippi Tort Claims Trust.

As of September 30, 2017, investment balances and maturities for the Jackson County Tort Claims Trust are as follows:

Investment Type	<1 year		1-5 years		<b>6-10 years</b>		>10 years		Fair Value		Rating
GNMA Pools	\$	233	\$	928	\$	51,601	\$	56,261	\$	109,023	AAA
U.S. Treasury Notes		84,782		740,026		74,489				899,297	AAA
	\$	85,015	\$	740,954	\$	126,090	\$	56,261	\$	1,008,320	

Interest Rate Risk. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, Section 19-9-29, Miss. Code Ann. (1972) limits the maturity period of any investment to no more than one year.

Credit Risk. State law limits investments to those authorized by Sections 19-9-29 and 91-13-8, Miss. Code Ann. (1972). The County does not have a formal investment policy that would further limit its investments choices or one that addresses credit risk.

Custodial Credit Risk -Investments. Custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. The investments in the U.S. Treasury Notes were held by the investment's counter party (trustee) not in the name of the County.

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Note 4 – Interfund Transactions and Balances**

At September 30, 2017, interfund receivables and interfund payables consisted of:

Receivable Fund	Payable Fund		Amount
General Fund	Other Governmental Funds	\$	1,865,727
Road Fund	General Fund		272,057
Other Covernmental Funds	General Fund		102,862
Agency Funds	General Fund		149,433
Total		\$	2,390,079

The receivables represent the tax revenue collected, but not settled until October 2017 and capital projects. All interfund balances are expected to be repaid within one year from the date of the financial statements.

At September 30, 2017, interfund advances receivable and interfund advances payable consisted of:

Receivable Fund	Payable Fund	Amount
General Fund	Other Governmental Funds	\$ 5,469,545
Total		\$ 5,469,545

Advances from the other governmental funds represent loans made to funds in the anticipation of grant receipts.

At September 30, 2017, Transfers In/Out consisted of:

Transfers In	Transfers Out	Amunt
General Fund	Other Governmental Funds	\$ 505,857
Road Fund	Ceneral Fund	304,545
Road Fund	Other Governmental Funds	1,900,000
Other Governmental Funds	General Fund	2,944,833
Other Governmental Funds	Other Governmental Funds	1,016,764
Proprietary Funds	Ceneral Fund	150,000
Proprietary Funds	Other Governmental Funds	1,283,000
Total		\$ 8,104,999

Notes to the Financial Statements For the Year Ended September 30, 2017

### Note 5 – Intergovernmental Receivables

At September 30, 2017, Intergovernmental receivables consisted of:

Description	<i>P</i>	Amount
Governmental Activities:		
Legislative Tag Gedit	_\$_	777,128
Total	\$	777,128

#### Note 6 – Loans Receivable

At September 30, 2017, loans receivable consisted of:

	Date of	Interest	Maturity	
Description	Inception	Rate	Date	 Amount
Sandco Industries*	10/01/1991	4.00%	11/04/2004	\$ 50,000

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Note 9 – Defined Benefit Pension Plan**

General Information about the Pension Plan

<u>Plan Description</u>. Jackson County, Mississippi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

<u>Contributions</u>. At September 30, 2017, PERS members were required to contribute 9% of their annual covered salary, and the County is required to contribute at an actuarially determined rate. The employer's rate at September 30, 2017 was 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended

Notes to the Financial Statements For the Year Ended September 30, 2017

only by the State of Mississippi Legislature. The County's contributions (employer share only) to PERS for the years ending September 30, 2017, 2016, and 2015 were \$4,969,910, \$4,986,616 and \$4,672,783, respectively, equal to the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the County reported a liability of \$80,247,612 in the Governmental Activities and \$1,182,416 in the Business Type Activities for its proportionate share of the net pension liabilities. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The County's proportionate share used to calculate the September 30, 2017 net pension liability was 0.489852 percent, which was based on a measurement date of June 30, 2017. This was an increase of 0.016211 percent from its proportionate share used to calculate the September 30, 2016 net pension liability, which was based on a measurement date of June 30, 2016.

For the year ended September 30, 2017, the Governmental Activities and the Business Type Activities recognized pension expense of \$12,281,520 and \$180,963 respectively. At September 30, 2017, the Governmental Activities and the Business Type Activities reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources reported in the Governmental Activities, in the amount of \$1,289,328, and Business Type Activities, in the amount of \$18,997, are related to pensions resulting from County contributions subsequent to the measurement date. These will be recognized as a reduction of the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30:	
2018	\$ 4,207,892
2019	2,025,287
2020	412,078
2021	(1,573,125)

Notes to the Financial Statements For the Year Ended September 30, 2017

**Actuarial Assumptions** – The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Inflation 3.00 percent

Salary increases 3.75-18.50 percent, including inflation

Investment rate of return 7.75 percent, net of pension plan investment expense,

including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, with male rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2017, are summarized in the following table:

	Target	Long-TermExpected
Asset Class	Allocation_	Real Rate of Return
U.S. Broad	27.00%	4.60%
International Equity	1800	4.50
Energing Markets Equity	4.00	4.75
Gobal	12.00	4.75
Fixed Income	1800	.75
Real Assets	10.00	3.50
Private Equity	800	5.10
Emergency Debt	200	2.25
Cash	1.00	$\alpha$
Total	10000%	

<u>Discount rate</u>. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all

Notes to the Financial Statements For the Year Ended September 30, 2017

projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's proportionate share of the net pension liability to changes in the discount rate. The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% :				_	1% Increase (8.75%)
County's proportionate share of						
the net pension liability	\$	106,800,918	\$	81,430,028	\$	60,366,676

<u>Pension plan fiduciary net position</u>. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

#### **Note 10 – Other Postemployment Benefits (OPEB)**

#### **Plan Description**

The Jackson County Board of Supervisors (the Board) administers the County's health insurance plan which is authorized by Sections 25-15-101 et seq., Mississippi Code Ann. (1972) and may be amended only by the Board. The County purchases health insurance coverage from a commercial insurance company and offers the benefit of health insurance coverage through the County's health insurance plan (the Plan). Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the County has a postemployment healthcare benefit reportable under GASB Statement 45 as a single-employer defined benefit healthcare plan. Effective October 1, 2009, the County implemented GASB Statement 45 prospectively, which requires reporting on an accrual basis the liability associated with other postemployment benefits. The County does not issue a publicly available financial report for the Plan.

#### **Funding Policy**

Employees' premiums are funded by the County with additional funding provided by retired employees and by active employees for spouse and dependent medical coverage. The Plan is financed on a pay-as-you-go basis. The Board of Supervisors, acting in conjunction with the commercial insurance company, has the sole authority for setting health insurance premiums for the County's health insurance plan.

Notes to the Financial Statements For the Year Ended September 30, 2017

Per Section 25-15-103, Mississippi Code Ann. (1972), any retired employee electing to purchase retiree health insurance must pay the full cost of the insurance premium monthly to the County. For the year ended September 30, 2017, retiree monthly premiums range from \$799 to \$1,049 depending on dependent coverage and Medicare eligibility.

#### **Actuarial Valuation**

The County's Health Insurance Plan's Report of the Actuary on the Other Postemployment Benefits Valuation was prepared as of October 1, 2015. The plan presently has an actuarial valuation performed biannually in order to be in compliance with GASB Statement 45.

#### **Annual OPEB Cost and Net OPEB Obligation**

The County's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC was determined assuming the plan would fund the OPEB liability on a pay-as-you-go basis. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The current ARC of \$352,799 is 1.38 percent of annual covered payroll.

The following table presents the OPEB cost for the year, the amount contributed and changes in the OPEB plan for fiscal year 2017:

Annual required contribution	\$ 352,799
Interest on net OPEBobligation	88,943
Adjustment to annual required contribution	(108,877)
Annual OPEB cost (expense)	332,865
Contributions made	(34,885)
Increase (Decrease) in net OPEB obligation	297,980
Net OPEB obligation - beginning of year	1,976,522
Net OPEB obligation - end of year	\$ 2,274,502

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 and the two preceding years were as follows:

		Percentage of						
Fiscal Year Finded	Annual	Annual OPEB		Net OPEB				
	<b>OPEB</b> Cost	Cost Contributed	Odigation					
9/30/17	\$ 332,865	10.50%	\$	2,274,502				
9/30/16	309,994	10.40%		1,976,522				
9/30/15	292,019	10.10%		1,698,680				

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Funding Status and Funding Progress**

The following table provides funding information for the most recent actuarial valuation date:

Actuarial valuation date	10/1/2015
Actuarial value of assets	\$ -
Actuarial accrued liability (AAL) entry age normal	\$ 2,381,656
Unfunded AAL (UAAL)	\$ 2,381,656
Funded ratio	0.00%
Annual covered payroll	\$ 25,517,230
UAAL as a percentage of annual covered payroll	9.30%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, is designed to present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation follows:

Actuarial valuation date	10/1/2015
Actuarial cost method	Entry age normal
Anortization method	Level percentage, closed basis
Remaining amortization period	30 years
Asset valuation method	NA
Actuarial assumptions:	
Investment rate of return*	4.50%
Projected salary increases**	200%
Healthcare cost trend rate*	10.00%
Ultimate trend rate	9.00%
Year of ultimate trend rate	2025
*Includes price inflation at	0.00%
**Includes wage inflation at	200%

Notes to the Financial Statements For the Year Ended September 30, 2017

#### Note 11 – Risk Management

#### **Workers' Compensation Benefits**

The County finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The County pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident with a one-time \$750,000 deductible, which completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2017 to January 1, 2018. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

#### **Health and Accident Benefits**

The County is exposed to risk of loss relating to employee health, accident and dental coverage. Beginning in 1990 and pursuant to Section 25-15-101, Miss. Code Ann. (1972), the County established a risk management fund (included as an Internal Service Fund) to account for and finance its uninsured risk of loss. Each participating public entity, including Jackson County, pays the premium on a single coverage policy for its respective employees. Employees desiring additional and/or dependent coverage pay the additional premium through a payroll deduction. Premium payments to the risk management fund are determined on an actuarial basis. The County has minimum uninsured risk retention to the extent that actual claims submitted exceed the predetermined premium. The County has implemented the following plans to minimize this potential loss:

The County has purchased coinsurance which functions on specific stop loss coverage. This coverage is purchased from an outside commercial carrier. For the current fiscal year, the specific coverage begins when an individual participant's claim exceeds \$125,000.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (lBNRs). At September 30, 2017, the amount of these liabilities was \$435,592. An analysis of claims activities is presented below:

			$\mathbf{G}$	urrent-Year					
		Liabilityat		Claims and		Balance			
	Be	eginning of		Changes in	<b>Clai</b> m	<b>Endof</b>	<b>Fiscal</b>		
	1	Fiscal Year		Estimates	<b>Payments</b>		Year		
2015-2016	\$	206,531	\$	9,085,339	\$ 8,948,218	\$	343,652		
2016-2017	\$	343.652	\$	9.461.320	\$ 9.369.380	\$	435.592		

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Tort Liability**

The County has chosen to manage tort claims through the retention of liability exposure up to \$250,000 per occurrence in accordance with Section 11-46-17, Miss. Code Ann. (1972). Jackson County has submitted its annual plan of coverage against exposure to the risk of tort claims to the Mississippi Tort Claims Board and has received approval for its plan of coverage from the Tort Claims Board. Jackson County also purchases commercial insurance protection for coverage in excess of the retention amount noted above.

#### **Note 12 – Operating Leases**

#### As Lessee:

The County has entered into certain operating leases for equipment and real property which do not give rise to property rights. Maturity dates range from June 2015 through May 2019. Real property leased for the sheriff's substation is renewed in five year intervals; real property leased for the harbor is renewed in ten year intervals.

Historically equipment leased by the County is returned after the initial lease term. Total costs for such leases were \$27,475 for the fiscal year ended September 30, 2017. The future minimum lease payments for these leases are as follows:

Year ending September 30,	Amount
2018	\$ 24,295
2019	 21,895
	\$ 46,190

#### Note 13 – Long-term Debt

#### Long-term Debt Outstanding at Year End

The County had the following types of long-term debt outstanding as of September 30, 2017:

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Governmental Activities:**

		Interest	
Description	 Amunt	Rate(s)	<b>Maturity Date</b>
General Obligation Bonds	_		
Taxable Port, Series 2015	\$ 147,600	1.99%	12/2017
2011Brefunding	485,000	2.00-3.50%	05/2018
2013 refunding	3,890,000	.50-280%	06/2020
Total General Obligation Bonds	\$ 4,522,600		
Limited Obligation Bonds			
Correctional Facility Series 2013	\$ 24,180,000	3.50%	07/2032
Other Loans			
Rail Loan	\$ 561,108	0-1.00%	03/2026
G O. Notes, Series 2016	 2,090,950	1.58%	05/2021
Total Other Loans	\$ 2,652,058		

#### **Legal Debt Margin**

Except for specifically exempted debt, the amount of debt that can be incurred by the County is limited by state statute to 15 percent of the assessed value of the taxable property within the County, as determined by the most recently completed assessment. However, the limitation is increased to 20 percent if the County issues bonds to repair or replace washed out or collapsed bridges on the public roads of the County. As of September 30, 2017, the amount of outstanding debt subject to the limit was equal to .30% percent of the latest property assessment.

<u>Certificates of Participation</u> - In accordance with Section 31-8-1 et seq. Mississippi Code Ann., (1972), the County issued Certificates of Participation and transferred the proceeds to the Jackson County Governmental Facilities Corporation. The funds are to be used to construct a County Jail Complex. At completion, the Corporation will enter into a twenty year lease with the County. The County is obligated to pay the principal and interest on the debt. At the completion of the lease, the County will assume ownership of the facility. This obligation is not a general obligation and does not constitute a pledge of full faith and credit of the County.

Notes to the Financial Statements For the Year Ended September 30, 2017

#### **Changes in Long-term Liabilities**

Changes in the County's long-term liabilities for the year ended September 30, 2017 are summarized below:

#### Governmental Activities:

	Beginning						Ending	]	Due Within
	 Balance	 Additions	Reductions	Adjustments Balan		Balance		One Year	
Compensated absences	\$ 1,776,971	\$ 54,791		\$	593,497	\$	2,425,259	\$	-
General obligation bonds	7,402,600		2,880,000				4,522,600		1,902,600
Premium	12,575		12,575				-		
Discount	(17,146)		(8,574)				(8,572)		
Limited obligation bonds	25,345,000		1,165,000				24,180,000		1,210,000
Other loans	 3,094,637	 795,853	 1,238,432				2,652,058		577,177
	_		 				_		
	\$ 37,614,637	\$ 850,644	\$ 5,287,433	\$	593,497	\$	33,771,345	\$	3,689,777

#### **Business-type Activities:**

	I	Beginning						<b>Ending</b>	]	Due Within
		Balance	Additions	R	eductions	Adj	ustments	Balance		One Year
Compensated absences	\$	40,854		\$	7,712	\$	_	\$ 33,142	\$	_

For governmental funds, compensated absences are paid from the fund in which the employees' salaries are recorded, generally the General Fund, Road Fund, Solid Waste Fund, and the Jackson County Fire District Fund.

#### **Debt Service Requirements**

At September 30, 2017, the annual debt service requirements for the County's long-term debt are as follows:

#### Governmental Activities:

	 General Odi;	gation I	Bonds	 LimitedObli	gation	Bonds
Year Ending September 30	Principal		Interest	Principal		Interest
2018	\$ 1,902,600		114,180	1,210,000		885,012

#### Note 14 – Deferred Outflows of Resources and Deferred Inflows of Resources

The County reports the following deferred outflows of resources:

#### **Government-wide Statement of Net Position:**

- **Deferred amount on refunding**. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life debt refunded or refunding debt.
- **Deferred outflows related to pensions**. This amount represents the County's proportionate share of the deferred outflows of resources reported by the pension plan in which the County participates.

The County reports the following deferred inflows of resources:

#### **Government-wide Statement of Net Position:**

- **Deferred revenue property taxes**. Deferred revenue property taxes results from recording a receivable for property tax revenue when the revenue will not be available until a future reporting period.
- **Deferred inflows related to pensions**. This amount represents the County's proportionate share of the deferred inflows of resources reported by the pension plan in which the County participates.

#### **Governmental Funds Balance Sheet:**

- **Deferred revenue property taxes**. This item results from recording a receivable for property tax revenue that will not be available until a future reporting period.
- **Deferred revenue fines.** This amount represents the portion of fines receivable

Notes to the Financial Statements For the Year Ended September 30, 2017

that does not meet the *current financial resources* criteria, and accordingly, will not be available until a future reporting period.

#### **Proprietary Funds Statement of Net Position:**

- **Deferred outflows related to pensions**. This amount represents the County's proportionate share of the deferred outflows of resources reported by the pension plan in which the County participates.
- **Deferred inflows related to pensions**. This amount represents the County's proportionate share of the deferred inflows of resources reported by the pension plan in which the County participates.

Occor

#### **Note 15 – Segment Information for Enterprise Funds**

The county maintains three enterprise funds, which provide recreation and community services, rental services and food services. Summary financial information for each enterprise fund is presented for the year ended September 30, 2017.

#### **Note 16 – Jointly Governed Organizations**

The County participates in the following jointly governed organizations:

Southern Mississippi Planning and Development District operates in a district composed of the counties of Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jefferson Davis, Jones, Lamar, Marion, Pearl River, Perry, Stone and Wayne. The governing body is a 27-member board of directors, one appointed by the Board of Supervisors of each member county, one from each of the six participating cities and six appointed at large by minority members. The County appropriated \$34,917 for support of Southern Mississippi Planning and Development District in fiscal year 2017.

Jackson County Civic Action is jointly governed by various public entities, as well as by certain corporations and civic groups. The Jackson County Board of Supervisors appoints two of the 15 members of the board of directors. The County appropriated \$157,920 for support of the Jackson County Civic Action in fiscal year 2017.

Jackson County Economic Development Foundation is jointly governed by various public entities, as well as by certain corporations. The Jackson County Board of Supervisors appoints two of the 16 members of the board of directors. The County appropriated \$350,000 for support of the Jackson County Economic Development Foundation in fiscal year 2017.

Gulf Regional Planning and Development District operates in a district composed of the counties of Hancock, Harrison and Jackson. The governing body is a nine-member board of directors; three appointed by the Board of Supervisors of each member county. The County

Notes to the Financial Statements For the Year Ended September 30, 2017

appropriated \$30,835 for support of Gulf Regional Planning and Development District in fiscal year 2017.

Harrison-Jackson County Emergency Medical Service District operates in a district composed of the counties of Harrison and Jackson and the Cities of Biloxi, Gulfport and Ocean Springs. The district's board is composed of five members, one appointed by each government. The County provided no financial support to Harrison Jackson County Emergency Medical Service District in fiscal year 2017.

LaPointe-Krebs Foundation is jointly governed by Jackson County, the City of Pascagoula and Jackson County Historical and Genealogical Society. The Jackson County Board of Supervisors appoints two of the 5 members of the board of directors. The County appropriated \$50,000 for financial support to the LaPointe-Krebs Foundation in fiscal year 2017.

Mississippi Gulf Coast Community College operates in a district composed of the counties of George, Harrison, Jackson and Stone. The college's board of trustees is composed of 23 members; three each appointed by George and Stone counties, eight each appointed by Harrison and Jackson counties, and one appointed at large. The County appropriated \$8,493,580 for maintenance and support of the college in the fiscal year 2017.

Mississippi Regional Housing Authority IV operates in a district composed of the counties of Covington, Forrest, George, Greene, Hancock, Harrison, Jackson, Jones, Lamar, Marion, Pearl River, Perry, Stone and Wayne. The governing body is a 15-member board of commissioners; one appointed by the Board of Supervisors of each of the member counties and one appointed at large. The counties generally provide no financial support to the organization.

#### **Note 17 – Contingencies**

**Federal Grants** – The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from an agency audit may become a liability of the County. No provision for any liability that may result has been recognized in the County's financial statements.

**Litigation** - The County is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the County with respect to the various proceedings. However, the County's legal counsel believes that ultimately liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the County.

The County has been named as a defendant in various lawsuits seeking unspecified damages for incidents involving the Sheriff's Department. The County has excess liability insurance coverage

Notes to the Financial Statements For the Year Ended September 30, 2017

that it believes would cover any judgment against the County up to a limit of \$1,000,000. The policy has a \$250,000 self-insured retention. No provision has been made in the accompanying financial statements for this contingent liability since the amount of the potential loss, if any, cannot be reasonably estimated.

Hospital Revenue Bond -The County issues revenue bonds and notes with maturities ranging from July 1, 2023 through July 1, 2036, to provide funds for constructing and improving capital facilities of the Singing River Hospital. Revenue bonds and notes are reported as a liability of the hospital because such debt is payable primarily from the hospital's pledged revenues. However, the County remains contingently liable for the retirement of these bonds and notes because the full faith, credit and taxing power of the County is secondarily pledged in case of default by the hospital. The principal amount of hospital revenue bonds and notes outstanding at September 30, 2017, is \$81,080,000.

#### **Debt Contingencies**

**No Commitment Debt** – From time to time, the County has issued Industrial Revenue Bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. These bonds either bear the County's name or constitute a moral responsibility of the County that is not an enforceable promise to pay. However, because the debt includes an explicit statement as to the absence of obligation of the County, other than possibly an agreement to assist creditors in exercising their rights in the event of default, these bonds are classified as no commitment debt and are not reported as liabilities in the accompanying financial statements. Default on these bonds may adversely affect the County's ability to borrow; accordingly, outstanding issuances of such debt are disclosed as follows:

		Amount
Description		Outstanding
Industrial revenue bonds and notes	<u> </u>	36,840,000

#### Note 18 – Tax Abatement

For the year beginning October 1, 2016, the Governmental Accounting Standards Board (GASB) implemented Statement 77, *Tax Abatement Disclosures*. This statement requires governmental entities to disclose the reduction in tax revenues resulting from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

The Jackson County Board of Supervisors negotiates property tax abatements on an individual basis. All abatements are for ten years and are for economic development purposes. The County had tax abatement agreements with twenty-two entities as of September 30, 2017.

Notes to the Financial Statements For the Year Ended September 30, 2017

The County had three types of abatements. The payments in lieu of taxes is the only type of abatement that provides for the abatement of school tax levies. None of the types of tax abatements provide for the abatement of state taxes:

Sections 27-31-101 and 17-21-7, Miss. Code (Ann.) 1972

All allowable property tax levies

All allowable property tax levies except for countywide road fund tax levy

There are twenty-one companies that have tax abatements under these statutes.

Section 27-31-104, Miss. Code (Ann.) 1972

Payments in lieu of taxes

There is one company that has tax abatements under this statute.

	% of Taxes Abated	A	amount of Taxes
	During the Fiscal	Al	oated During the
Category	Year		Fiscal Year
Economic development			
projects	77.46%	\$	20,502,995

The companies were not required to comply with any special provisions in order to receive the abatements and the County made no commitments as part of the agreements other than to reduce taxes.

#### Note 19 – Effect of Deferred Amounts on Net Position

The governmental activities' unrestricted net position amount of (\$29,682,731) includes the effect of deferring the recognition of expenses resulting from a deferred outflow from pensions. A portion of the deferred outflow of resources related to pension in the amount of \$1,289,328 resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2017. The \$11,971,401 balance of the deferred outflow of resources related to pensions at September 30, 2017, will be recognized in pension expense over the next 3 years.

The governmental activities' unrestricted net position amount of (\$29,682,731) includes the effect of deferring the recognition of revenue from a deferred amount on refunding. The \$156,870 balance of deferred inflows of resources at September 30, 2017, will be recognized as revenue and will increase the unrestricted net position over the next few years.

The business-type activities' unrestricted net position amount of (\$668,234) includes the effect of deferred outflows of resources related to pensions. A portion of the deferred outflow of

Notes to the Financial Statements For the Year Ended September 30, 2017

resources related to pension in the amount of \$18,997 resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2017. The \$176,394 balance of the deferred outflow of resources related to pensions at September 30, 2017, will be recognized in pension expense over the next 3 years.

The governmental activities' unrestricted net position amount of (\$29,682,731) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from pensions. The \$6,972,920 balance of the deferred inflow of resources related to pensions at September 30, 2017, will be recognized as revenue and will increase the unrestricted net position over the next few years.

The governmental activities' unrestricted net position amount of (\$29,682,731) includes the effect of deferring the recognition of revenue from deferred inflow from property taxes. The \$79,356,882 balance of deferred inflows of resources at September 30, 2017, will be recognized as a revenue and will increase the unrestricted net position over the next few years.

The business-type activities' unrestricted net position amount of (\$668,234) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from pensions. The \$102,743 balance of the deferred inflow of resources related to pensions at September 30, 2017, will be recognized as revenue and will increase the unrestricted net position over the next few years.

#### **Note 20 – Subsequent Events**

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of Jackson County evaluated the activity of the County through May 16, 2018, and determined that the following subsequent events have occurred requiring disclosure in the notes to the financial statements.

Subsequent to September 30, 2017, the County issued the following debt obligations:

Issue Date	Interest Rate	_ <u>I</u> s	ssue Amount	Type of Financing	Source of Financing
12/06/2017	0.75%	\$	1,750,000	MDA	Taxrevenue Taxrevenue
12/27/2017	2.30%	\$	6,065,000	General Obligation Bond	

### Component Unit Singing River Health/Mental Retardation Services

Notes to the Financial Statements For the year ended June 30, 2017

For the Year Ended June 30, 2017

#### NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

Singing River Mental Health/Mental Retardation Services (the "Agency") is a special purpose governmental unit of the State of Mississippi. Legal authority is granted the Agency by Section 6909-57 et. seq. of the Mississippi Code of 1972. Section 41-19-31 et. seq. of the Mississippi Code of 1972 sets forth the purpose and duties of the Agency, which are to establish facilities within which to operate and maintain programs to serve the mentally ill and mentally retarded in Jackson and George counties in Mississippi.

The Agency is a component unit of Jackson County, Mississippi and is governed by a Board of Commissioners, composed of two members, appointed in accordance with State Law, one by the Jackson County Board of Supervisors, and one by the George County Board of Supervisors. These Commissioners are the governing authority of the Agency. The commissioners sit on the Board of Directors of Singing River Mental Health/Mental Retardation Services, which is an advisory board composed of fifteen members representing Jackson and George Counties. The Board employs a full-time executive to manage the day-to-day operations of the Agency.

The financial statements of the Agency have been prepared in conformity with generally accepted accounting principles (GAAP), as applied to government units. The Agency's status as a special government unit requires that it follow GAAP for state and local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles and is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

Governments are also required to follow the pronouncements of the Financial Accounting Standard Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The Agency has the option to apply FASB pronouncements issued after the date to its business-type activities and enterprise funds (see discussion of enterprise funds under Note B below), the Agency has chosen to make this election. The more significant accounting policies established in GAAP and used by the Agency is discussed below.

#### B. Basic Financial Statements - Fund Financial Statements

Under GASB 34 definition of business type activities, all of the Agency's activities are classified as business type activities. Additionally, the Agency may be classified as a special purpose government engaged in only business type activities. As such, only fund financial statements are required to be presented. The focus of proprietary fund measurement is upon determining of operating income, changes in the net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to business in the private sector.

For the Year Ended June 30, 2017

#### NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital cost, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy which is designed to recover its cost of service delivery. The Agency is also required to serve the entire population in its service area regardless of the population's ability to pay fees assessed. In support of this requirement, some costs are covered in part by operating grants and Medicaid.

#### C. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. These financial statements are presented using the economic resources measurement focus.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as they are needed.

#### D. Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market. Disbursements for inventoried items are classified as expenditures at the time of purchase, with annual adjustments made to the inventory account. Annual inventory counts are made at Singing River Industries and the pharmacy and these amounts are reflected in the balance sheet as an asset.

#### E. Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 or a useful life of more than one year are reported at historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the asset's estimated useful life. Various items, which may be less than \$1,000 or have useful lives of less than one year, must be recorded as capital assets under the purchasing laws of the State of Mississippi.

For the Year Ended June 30, 2017

#### NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### F. Compensated Absences

The Agency allows employees to accumulate unused sick leave up to sixty (60) days. Any sick leave earned, but unused at the time the employee ceases to be employed by the Agency, is forfeited employees earn one (1) day of sick leave for each full month of employment, depending on date of hire and classification. The Agency does not accrue sick leave as it's earned, but instead funds sick leave as it is taken.

Employees earn vacation time during employment at various rates depending on the length of service and hire date. An employee may accumulate vacation time up to forty-five (45) days. Upon termination, up to thirty (30) days of accumulated vacation time may be paid to the terminated employee. The Agency accrues vacation as the employee earns it. As of June 30, 2017, the liability for accrued vacation leave is \$196,244.

#### G. Use of Estimates

The Agency uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expense.

#### H. Concentrations

The Agency receives approximately 82.01% of its total revenue from two main sources. One source is the Mississippi Department of Mental Health, which provides 19.93% of the Agency's revenue in the form of cost reimbursement and purchase of service grants, and the other is the Mississippi Division of Medicaid, which provides 62.08% of the total revenue for the period. Medicaid funding is based exclusively on services provided to Medicaid eligible clients.

#### NOTE B. CASH AND CASH EQUIVALENTS AND INVESTMENTS

For purposes of the accompanying statements of cash flows, the Agency considers all certificates of deposit purchased with maturity of three months or less to be cash equivalents.

The Agency maintains cash at local financial institutions consisting entirely of demand deposit. The Agency participates in a sweep account system with The First bank, which invests the entire balance of the funds on deposit in overnight securities, which return interest income on a daily basis. The sweep account funds the daily transactions of the operating and payroll accounts. The demand account balances are insured by the Federal Deposit Insurance Corporation up to \$250,000 per account type, per institution.

For the Year Ended June 30, 2017

#### NOTE B. CASH AND CASH EQUIVALENTS AND INVESTMENTS (continued)

	Ί	The First Bank	Charter Bank
DEMAND DEPOSITS:			
Total Deposits	\$	876,057 \$	1,143,547
Covered by:			
FDIC Insured Amount		250,000	250,000
Collateral, MS collateral pool		626,057	893,547
Amount of demand deposits not covered by			
insurance or collateral	S	- S	

The Agency has funds invested in short term certificates of deposit with Charter Bank. As of June 30, 2017, the account had a fair market value of \$1,143,547.

A summary of the total unrestricted cash as of June 30, 2017 is as follows:

Operating Cash and Reserve	\$	187,422
Certificates of Deposit		1,143,547
Cash in Petty Cash Accounts		1,185
Total unrestricted cash	\$	1,332,154
A summary of the total restricted cash as of June 30, 2017 is as follows:	c	E04.420
Cash- Restricted by SRRFF	Ş	504,430
Cash- Restricted for SRRFF Dissolution Costs		50,000
Total restricted cash*	\$	554,430
*See Note C regarding restrictions		

### Interest Rate Risk

The Agency does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rates.

#### Credit Risk

The Agency does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

# SINGING RIVER MENTAL HEALTH / MENTAL RETARDATION SERVICES NOTES TO FINANCIAL STATEMENTS For the Year Ended June 30, 2017

#### NOTE B. CASH AND CASH EQUIVALENTS AND INVESTMENTS (continued)

#### <u>Custodial Credit Risk – Investments</u>

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its investments or collateral securities that are the possession of an outside party. The Agency does not have a formal investment policy that addresses custodial credit risk.

#### Concentration of Credit Risk

Disclosure of investments by amount and issuer for any issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments. As of June 30, 2017, the Agency had the following investments:

		% of Total
Issuer	Fair Value	Investments
Certificate of Deposit- Charter	\$ 250,000	21.86%
Certificate of Deposit- Charter	250,000	21.86%
Certificate of Deposit- Charter	250,000	21.86%
Certificate of Deposit- Charter	250,000	21.86%
Certificate of Deposit- Charter	143,547	12.55%
Total	\$1,143,547	100.00%

# NOTE C. DISSOLUTION OF SINGING RIVER REGIONAL FACILITIES FOUNDATION

Singing River Regional Facilities Foundation (the Foundation) voted to dissolve and contribute all assets over to Singing River Mental Health/Mental Retardation Services. As of June 30, 2017, all real estate properties were deeded and titled to the Agency and recorded on the books at a fair market value of \$1,577,000. The monies the Agency owed the Foundation for software was forgiven. The Foundation's remaining cash was deposited in two bank accounts for a total \$554,430. \$504,430 was deposited into a bank account to be used by the Agency for the purposes laid out by the Singing River Regional Facilities Foundation. \$50,000 was deposited in to a bank account to pay any costs related to the dissolution of the Singing River Regional Facilities Foundation. Once the dissolution is complete, those funds will be released to be used by the Agency.

For the Year Ended June 30, 2017

#### NOTE D. ACCOUNTS RECEIVABLE

Net accounts receivable as of June 30, 2017 is composed of:

	Patient Fees
Accounts receivable, clients	\$ 38,291
Accounts receivable, Medicaid	498,324
Accounts receivable, third party insurance	77,459
Allowance for doubtful accounts	(102,233)
Total patient fees	\$ 511,841
	SRI Sales
Accounts receivable, clients	\$ 2,241
Allowance for doubtful accounts	ψ 2,2 <b>-</b> 1
Total SRI sales	\$ 2,241
Accounts receivable, other	7,458

#### NOTE E. FUNDING

#### Explanation of funding:

As stated in Note A, the Agency is a special purpose governmental entity created by an act of the Mississippi Legislature. Although the Agency is an independent governmental unit, it does not have the power to levy taxes in support of its operations, but is supported by providing certain mandated mental health and mental retardation services to the general public and charging fees for those services.

The fees in which the Agency charges, are set, in some cases, in relation to the cost of providing the service. The certification standards of the Mississippi Department of Mental Health, the Agency's certification and oversight agency, state that the Agency must provide services to anyone who requires them regardless of ability to pay. In order to accommodate this requirement, the Agency must charge rates on a sliding fee scale, which adjust fees based on the recipient's ability to pay. Such determinations are made at the time an individual request service. To enable the Agency to provide services on a sliding fee scale, Mississippi Department of Mental Health makes certain grants available to the Agency. The grants are in the form of cost reimbursement grants and purchase

For the Year Ended June 30, 2017

#### NOTE E. FUNDING (continued)

of service grants. Many of the grants are subsidized by the Federal government through Department of Health and Human Services and by special tax revenues assessed by the State of Mississippi. The Agency also provides services to individuals who are Medicaid eligible.

For purchase of service grants and Medicaid eligible services, the fee rates that the agency receives for certain services are determined by the Mississippi Department of Mental Health and the Mississippi Division of Medicaid. For cost reimbursement grants, the Agency receives funding to offset the cost of providing services based on the amount allowable costs incurred in the program.

The Mississippi Code also encourages support for regional mental centers from the Counties in which they operate. The Board of Supervisors in the mental health region are permitted to contribute to the support of mental health and retardation programs from their general funds, and at their option, assess up to two mils in their jurisdiction specifically for this purpose. At present, Jackson County and George County both contribute to the Agency, but do not assess millage in their counties for this purpose.

Funding received from various sources is detailed below:

			Percent of
Program Funding		Total	Program Funding
Medicaid	\$	4,962,338	48.8%
Grants		4,037,456	39.7%
Self Pay and third party reimbursement		240,020	2.4%
County funds		453,000	4.5%
Pharmacy		406,146	4.0%
Client fees and work activity fees		64,012	0.6%
Total Program Funding	S	10,162,972	100%

#### Excess Revenue

Regional mental health centers are allowed to accumulate excess revenues up to 50% of their current operating budget without justification to the Department. An accumulation in excess of this amount is required to be reported to Mississippi Department of Mental Health along with a plan for expending the funds on programs or capital expenditures. Surpluses are encouraged for payment of Medicaid matching funds, unplanned interruptions in funding and other emergencies, which limit the centers ability to provide services. As of June 30, 2017, the Agency has accumulated reserves of approximately 22.32% of its annual operation budget.

As of June 30, 2017, the amount receivable from the Mississippi Department of Mental Health for services provided under grants was \$156,543, all of which was deemed collectable.

For the Year Ended June 30, 2017

#### NOTE F. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017, was as follows:

	]	llance Sheet Beginning ne 30, 2016		et Additions d Deletions		lance Sheet Ending ne 30, 2017
Land	\$	10,000	\$	-	\$	10,000
Buildings		1,765,550		1,451,019		3,216,569
Building improvement		602,573		(26,319)		576,254
Equipment		1,448,671		3,720		1,452,391
Software		340,501		74,166		414,667
		<b>LL.</b>				-
Totals		4,167,295		1,502,586		5,669,881
Accumulated depreciation		(2,192,738)		95,446		(2,097,292)
Totals	S	1,974,557	S	1,598,032	S	3,572,589

Depreciation expenses for the year ending June 30, 2017 were \$19,518.

Singing River Regional Facilities Foundation transferred to the Agency, the titles to the buildings they owned that were being used by the Agency. This amounted in an additional \$1,577,000 in building assets at year end.

#### NOTE G. COMMITMENTS AND CONTINGENCIES

#### A. Lease Commitment

The Agency operates from a leased facility in George County under a lease agreement classified as an operating lease for accounting purposes. Leases are renewed on a yearly basis. Total rent expense for the fiscal year ending June 30, 2017, was \$55,400. Required estimated future minimum lease payments are as follows:

For the year ending June 30, 2018

\$2,400

#### B. Equipment Lease Commitment

The Agency leases copiers and related accessories for use in Jackson and George Counties under lease agreements classified as operating leases for accounting purposes. Leases are on a 48 month terms with a fair market value purchase option at the end of the lease. Total copier rent expense for the fiscal year ending June 30, 2017, was \$34,197. Required estimated future minimum lease payments are as follows:

For the Year Ended June 30, 2017

#### NOTE G. COMMITMENTS AND CONTINGENCIES (continued)

For the year ending June 30, 2018	\$15,058
For the year ending June 30, 2019	0
For the year ending June 30, 2020	0
For the year ending June 30, 2021	0
	\$15,058

#### NOTE H. PENSION PLAN

#### A. <u>Description</u>

Singing River Mental Health/Mental Retardation Services contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature.

PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee

Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

#### NOTE I. DEFINED BENEFIT PENSION PLAN

Plan Description. The Public Employees' Retirement System of Mississippi (PERS or the System) was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in the System, and elected members of the State Legislature and the President of the Senate. The System administers a cost-sharing, multiple-employer defined benefit pension plan as defined by Governmental Accounting Standards Board (GASB) Statement No. 67, Financial Reporting for Pension Plans.

#### Benefits provided.

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest

For the Year Ended June 30, 2017

#### NOTE I. DEFINED BENEFIT PENSION PLAN (continued)

compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the Agency is required to contribute at an actuarially determined rate.

The employer's rate as of June 30, 2017 was 15.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The Agency's contributions to PERS for the fiscal years ending June 30, 2017, 2016 and 2015 were \$1,009,277, \$933,416, and \$884,391, respectively, which equaled the required contributions for each year.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the Agency reported a liability of \$10,595,918 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Agency's proportion of the net pension liability was based on a projection of the Agency's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2017, the Agency's proportion was 0.063741 percent.

For the year ended June 30, 2017, the Agency recognized pension expense of \$644,924. At June 30, 2017 the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

For the Year Ended June 30, 2017

#### NOTE I. DEFINED BENEFIT PENSION PLAN (continued)

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual expreience	\$	152,230	\$	77,315
Net difference between projected and actual earnings on pension plan investments		-		136,044
Changes in assumptions		235,507		18,055
Changes in proportion and differences between Agency contributions and proportionate share of contributions		-		-
Agency contributions subsequent to the measurement		<u></u>		
Totals	\$	387,737	\$	231,414

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the year ending June 30, 2018	184,302
For the year ending June 30, 2019	166,822
For the year ending June 30, 2020	9,872
For the year ending June 30, 2021	(204,674)
	\$ 156,322

<u>Actuarial assumptions</u>. The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.75 – 18.50 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

# SINGING RIVER MENTAL HEALTH / MENTAL RETARDATION SERVICES NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2017

## NOTE I. DEFINED BENEFIT PENSION PLAN (continued)

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2022, with male rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class of June 30, 2017, are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S Broad	27.00%	4.60%
International Equity	18.00%	4.50%
Emerging Markets Equity	4.00%	4.75%
Global	12.00%	4.75%
Fixed Income	18.00%	0.75%
Real Assets	10.00%	3.50%
Private Equity	8.00%	5.10%
Emerging Debt	2.00%	2.25%
Cash	1.00%	0.00%
Totals	100.00%	****

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that Employer contributions (15.75%) will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# SINGING RIVER MENTAL HEALTH / MENTAL RETARDATION SERVICES NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2016

# NOTE I. DEFINED BENEFIT PENSION PLAN (continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the Agency's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	19	6 Decrease	Currer	it Discount Rate	10	% Decrease	
	(6.75%)			(7.75%)	(8.75%)		
e share of the net pension liability	\$	13,897,253	\$	10,595,918	\$	7,855,092	

<u>Pension plan fiduciary net position</u>. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

## NOTE J. SUBSEQUENT EVENTS

The Agency has evaluated for consideration of recognition or disclosure, subsequent events that have occurred through the date of issuance of its financial statements, January 8, 2018. Singing River Services decided to close the pharmacy, effective August 31, 2017, due to low prescription volume.

# Component Unit Singing River Health System

Notes to the Financial Statements For the year ended September 30, 2017

## **Notes to Financial Statements**

# 1. Nature of Operations, Reporting Entity and Summary of Significant Accounting Policies

#### Nature of operations and reporting entity

Singing River Health System (the "Health System") is a multidimensional healthcare system consisting of:

- Singing River Hospital, a 435-bed hospital and related outpatient care and other facilities principally in Pascagoula, Mississippi.
- Ocean Springs Hospital, a 136-bed hospital and related outpatient care and other facilities principally located in Ocean Springs, Mississippi.
- Singing River Medical Park and Ocean Springs Medical Park, state-of-the-art outpatient services
  facilities designed to meet the specific needs of patients outside of the hospital setting. These
  buildings house radiology and imaging services, cardiac rehabilitation, physical therapy,
  neurosciences, a branch of The Regional Cancer Center, and the Health System's Healthplex.
- The Heart Center, which offers the most comprehensive cardiology program in the region.
- The Regional Cancer Center, which offers a comprehensive and integrated approach to cancer care comprised of expert medical and radiation oncologists, surgeons, radiologists, pharmacists, nurses and dietitians.
- Five primary care clinics located along the Mississippi Gulf Coast in Hurley, Pascagoula (two), Vancleave, Ocean Springs.

The Health System is a component unit of Jackson County, Mississippi, as defined by the Governmental Accounting Standards Board ("GASB"). The Health System's component unit relationship to the County is principally due to financial accountability as defined by the GASB. The Health System is operated by a nine-member Board of Trustees, seven of whom are appointed by the Board of Supervisors of Jackson County, Mississippi. Additionally, the chief-of-staff of the Health System serves on the Board.

#### **Blended component units**

SRHS Ambulatory Services, Inc. ("SRHSAS") is a component unit of the Health System and is presented as a blended component unit as of September 30, 2017 and 2016 in the Health System's financial statements. As the sole member of this not-for-profit organization, the Health System exerts control and has a financial benefit relationship. SRHSAS is operated by a Board of Directors, all of whom are appointed by the Health System's Board. As of September 30, 2017 and 2016, SRHSAS holds a non-controlling 24.5% ownership interest in two ambulatory surgery centers, Mississippi Coast Endoscopy and Ambulatory Surgery Center, LLC ("MCEASC") and Ocean Springs Surgical and Endoscopy Center, LLC ("OSSEC"). Prior to a sale of controlling interest in the year ended September 30, 2016, SRHSAS was the 51% owner of MCEASC and OSSEC, both of which were consolidated subsidiaries of SRHSAS. See further discussion of the sale of controlling interest and deconsolidation of MCEASC and OSSEC at Note 15. All significant intercompany transactions have been eliminated.

Anesthesia Services, LLC, is a component unit of the Health System and is presented as a blended component unit as of September 30, 2017 in the Health System's financial statements. Anesthesia Services, LLC is a wholly owned subsidiary of the Health System, which provides management, scheduling and billing and collection services to certified registered nurse anesthetists. All significant intercompany transactions have been eliminated.

#### **Budgetary information**

The Health System is required by statute of the State of Mississippi to prepare a non-appropriated annual budget. The budget is not subject to appropriation and is therefore not required to be presented as supplementary information.

#### Basis of accounting

The Health System prepares its financial statements as a business-type activity in conformity with the applicable pronouncements of the GASB. The accompanying financial statements of the Health System have been prepared on the accrual basis of accounting using the economic resources measurement focus.

#### Use of estimates

The accounting estimates used in the preparation of the financial statements will change as new events occur, as more experience is acquired and as additional information is obtained. Future events and their effects cannot be predicted with certainty; accordingly, our accounting estimates require the exercise of judgment. In particular, laws and regulations governing Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates related to these programs will change by a material amount in the near term.

#### Cash and cash equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less when purchased.

#### Investments and investment income

Investments are carried at fair value, principally based on quoted market prices. Investment income from investments is reported as nonoperating revenue.

#### Patient accounts receivable

Patient accounts receivable are reported at net realizable value, after deduction of allowances for estimated uncollectible accounts and third-party contractual discounts. The allowance for uncollectible accounts is based on historical allowances and an analysis of currently outstanding amounts. This account is generally increased by charges to a provision for uncollectible accounts, and decreased by write-offs of accounts determined by management to be uncollectible. The allowances for third-party discounts are based on the estimated differences between the Health System's established rates and the actual amounts to be received under each contract. Changes in estimates by material amounts are reasonably possible in the near term.

#### Inventories

Inventories of drugs and other supplies are recorded at cost, using the first-in, first-out method, which is not in excess of market.

#### Funds held by trustees

Funds held by trustees include funds held for debt service, self-insurance funding, and pension funding.

Funds held by trustees for debt service under debt agreements that are required for obligations classified as current liabilities are reported as current assets.

#### Capital assets, net

Capital assets are recorded at cost or, if donated, at fair value at the date of receipt. Depreciation is provided over the useful life of each class of depreciable asset using the straight-line method. Capital assets under capital lease obligations are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Major renewals and renovations are capitalized. Costs for repairs and maintenance are expensed when incurred. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and the gain or loss, if any, is included in nonoperating revenues (expenses) in the statements of revenues, expenses and changes in net position.

All capital assets other than land are depreciated or amortized (in the case of capital leases) using these asset lives:

Land improvements	5 - 25 years
Buildings and improvements	10 - 40 years
Fixed equipment	5 - 25 years
Movable equipment	3 - 20 years

Capital assets are reviewed for impairment when service utility has declined significantly and unexpectedly. If such assets are no longer used, they are reported at the lower of carrying value or fair value. If such assets will continue to be used, the impairment loss is measured using a historical cost approach method that best reflects the diminished service utility of the capital asset. An impairment loss of \$1,957,979 was recognized during the year ended September 30, 2016.

#### Cost of borrowing

Bond issuance costs are expensed as incurred. Deferred loss on refunding, and bond discounts and premiums are being amortized over the terms of the related indebtedness using the interest method.

Interest cost is capitalized on qualified construction expenditures as a component of the cost of the related projects. No interest cost was capitalized in 2017 and 2016.

### Compensated absences

The Health System's employees accumulate paid time off, such as vacation, holiday and sick leave, at varying rates depending upon their years of continuous service and their payroll classification, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation and holiday time at their regular rate of pay up to a designated maximum number of days. Since the employees' vacation and holiday time both accumulate and vest, an accrual for this liability is included in accrued payroll and employee benefits.

#### Deferred outflows and inflows of resources

Deferred outflows and inflows of resources represent the consumption and acquisition, respectively, of net position that applies to future periods.

#### Net position

Net position of the Health System is classified into the following components:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of any borrowings used to finance the purchase or construction of those assets. To the extent debt has been incurred but not yet expended for capital assets, such debt is excluded from the calculation of net investment in capital assets.

Net position restricted for debt service is amounts deposited with trustees as required by bond indentures or debt agreements.

Unrestricted net position is remaining net position that does not meet the definition of invested in capital assets, net of related debt or restricted.

#### Patient service revenues

The Health System has agreements with third-party payors that provide for payments to the Health System at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per-diem payments. Patient service revenue is reported at estimated net realizable amounts from patients, third-party payors and others for services rendered, and includes estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are considered in the recognition and accrual of revenue on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

#### Charity care

The Health System provides medical care without charge or at a reduced charge to patients who meet certain criteria under its charity care policy. Because the Health System does not pursue collection of amounts determined to qualify as charity care, these charges are not reported as net patient service revenue and are written off as charity care.

#### Electronic health record incentive payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments beginning in 2011 for eligible hospitals and professionals that adopt and meaningfully use certified electronic health record ("EHR") technology. The Health System must also attest to certain criteria in order to qualify to receive the incentive payments. The amount of the incentive payments are calculated using predetermined formulas based on available information, primarily related to discharges and patient days. The Health System recognizes revenues related to Medicare incentive payments ratably over each EHR reporting period (October 1 to September 30) when it has demonstrated meaningful use requirements of certified EHR technology for the EHR reporting period. The Health System recognizes Medicaid incentive payments in the period that it qualifies for the funds based on the provisions of the Division of Medicaid ("DOM").

The Health System recognized approximately \$1,118,000 of revenues related to the Medicare incentive program for the year ended September 30, 2016. This revenue is reflected in other revenues on the accompanying statement of revenues, expenses and changes in net position.

The Health System's attestation of demonstrating meaningful use is also subject to review by the appropriate government authorities. The amount of revenue recognized is based on management's best estimate, which is subject to change. Such changes would be reflected in the period in which changes occur.

#### Statements of revenues, expenses and changes in net position

For purposes of presentation, transactions deemed by management to be ongoing, major or central to the provision of healthcare services, other than financing costs, are reported as operating revenues and operating expenses. Peripheral or incidental transactions, such as net investment income, interest expense, minority interests, grants from others and gain (loss) on disposal of capital assets, are reported as nonoperating revenues and expenses.

#### Income taxes

The Health System is a not-for-profit entity as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") and is exempt from federal and state income taxes on related income pursuant to Section 501(a) of the Code. The Health System is also a political subdivision of Jackson County, Mississippi and is operated as a community hospital under related statutes of the State of Mississippi.

#### Reclassifications

Certain reclassifications have been made to the 2016 financial statements included herein to conform to the 2017 presentation.

## Subsequent Events

The Health System evaluated all events and transactions that occurred after September 30, 2017 through November 29, 2017, the date that the financial statements were available to be issued. During this period, the Health System did not have any material recognizable subsequent events.

#### 2. Patient Service Revenue

The Health System has agreements with governmental and other third-party payors that provide for reimbursement to the Health System at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Health System's billings at established rates for services and amounts reimbursed by third-party payors. A summary of the basis of reimbursement with major third-party payors follows:

- Medicare Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to the patient classification system that is based on clinical, diagnostic and other factors. Inpatient services are paid under the traditional Part A plan or managed care (Medicare Advantage) negotiated rates under Part C. Outpatient services related to Medicare beneficiaries are reimbursed through a prospective payment system commonly known as Ambulatory Payment Classification ("APC"). Under the APC system, certain medical devices and drugs are reimbursed at cost or average wholesale price. Long-term care services are reimbursed under a prospective payment system that considers the Medicare beneficiaries' severity of illness among other clinical factors. Inpatient non-acute services are paid based on a prospective payment system. The Health System is reimbursed for cost-reimbursable items at a tentative rate, with final settlement determined after submission and review by the fiscal intermediary of annual cost reports. Revenue from the Medicare program accounted for approximately 50 and 49 percent of the Health System's net patient service revenue for the years ended September 30, 2017 and 2016, respectively.
- Medicaid Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based upon a prospective reimbursement methodology. The Health System is reimbursed at a prospective rate, which is adjusted annually based on published market basket update. Revenue from the Medicaid program accounted for approximately 12 percent of the Health System's net patient service revenue for years ended September 30, 2017 and 2016, respectively.

The Health System participates in the Mississippi Intergovernmental Transfer Program as a Medicaid Disproportionate Share Hospital ("DSH") and in the Mississippi Hospital Access Payment Program ("MHAP"). DSH funds are distributed in December, March and June. Under MHAP, taxes are assessed and funds are distributed on a monthly basis.

Under these programs, the Health System receives enhanced reimbursement through a matching mechanism. For the years ended September 30, 2017 and 2016, the Health System received approximately \$18,111,000 and \$17,090,000, respectively, in enhanced reimbursement through the DSH program. DSH amounts are recorded as a reduction of contractual adjustments. The net benefit to the Health System associated with participation in the MHAP program was approximately \$4,800,000 and \$4,459,000 for the years ended September 30, 2017 and 2016, respectively. MHAP amounts, net of related tax assessments of approximately \$11,912,000 and \$12,253,000 for the years ended September 30, 2017 and 2016, respectively, are also shown as a reduction of contractual adjustments. There can be no assurance that the Health System will continue to qualify for future participation in these programs or that the programs will not ultimately be discontinued or materially modified.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Health System recorded an increase of approximately \$14,000 and a decrease of approximately \$(988,000) to net patient service revenue for the fiscal years ended September 30, 2017 and 2016, respectively, as a result of changes of prior fiscal year estimates of cost report settlements. The Health System has also entered into payment agreements with certain commercial insurance carriers and preferred provider organizations. The basis for payment to the Health System under these agreements includes prospectively determined rates and discounts from established charges and prospectively determined per diem rates.

The composition of net patient service revenue are as follows for the years ended September 30:

	<u>2017</u>	2016
Gross patient service revenue	\$1,893,070,188	\$1,800,796,641
Less provision for contractual and other adjustments Less provision for bad debts	(1,443,588,536) <u>(108,238,003</u> )	(1,376,853,948) (89,514,901)
Net patient service revenue	<u>\$ 341,243,649</u>	\$ 334,427,792

### 3. Charity Care

The Health System maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy, the estimated costs of these services and supplies, and equivalent service statistics. Charges foregone, based on established rates, were approximately \$29,222,000 and \$50,094,000 for the years ended September 30, 2017 and 2016, respectively. The estimated costs and expenses incurred to provide charity care were approximately \$11,664,000 and \$19,882,000 for the years ended September 30, 2017 and 2016, respectively.

# 4. Capital Assets

Capital assets and related activity consisted of the following for the year ended September 30, 2017:

	Balance September 30, 2016	Additions	Retirements/ Transfers and <u>Impairment</u>	Balance September 30, 2017
Capital assets not being depreciated:				
Land	\$ 5,597,289	\$ -	\$ -	\$ 5,597,289
Construction in progress	12,622,249	11,230,629	<u>(5,904,356</u> )	17,948,522
Total capital assets not being				
depreciated	<u> 18,219,538</u>	11,230,629	<u>(5,904,356</u> )	23,545,811
Capital assets being depreciated:				
Land improvements	6,363,671	26,417	-	6,390,088
Buildings and improvements	204,561,448	929,960	(250,000)	205,241,408
Fixed equipment	13,946,381	, <u>-</u>	-	13,946,381
Movable equipment	233,676,991	11,464,966	<u>(1,915,136</u> )	243,226,821
Total capital assets being				
depreciated	458,548,491	12,421,343	(2,165,136)	468,804,698
Less accumulated depreciation for:				
Land improvements	4,354,894	249,188	-	4,604,082

Construction in progress as of September 30, 2017 consisted primarily of expenditures associated with the Singing River Hospital ("SRH") and Ocean Springs Hospital ("OSH") window and roof replacements that are part of the Mississippi Emergency Management Agency ("MEMA") grant, renovations to patient care areas, and replacement of the SRH cooling tower system and related infrastructure. The Health System has associated purchase commitments totaling approximately \$2,005,000 at September 30, 2017, which will be funded through grant proceeds and designated funds. All projects are expected to be completed in the year ended September 30, 2018.

### 5. Leases

The Health System was obligated under several capital leases at September 30, 2017. Scheduled future payments on capital lease obligations are as follows:

2018	<u></u> F	<u>Principal</u>					
	\$	119,997	9,697				
2019		136,276	4,099				
2020		23,275	122				
Total	\$	279,548	\$ 13,918				

A schedule of changes in the Health System's capital lease obligation balances for the year ended September 30, 2017 follows:

Description	Rate	Date of Issuance	Balance ctober 1, 2016	Additions	 Retired	Se	Balance otember 30, 2017	_	Due Within One Year

Capital assets totaling approximately \$663,300 and \$1,353,900 are related to the above capital lease obligations at September 30, 2017 and 2016, respectively. Related accumulated amortization was approximately \$383,800 and \$830,600 at September 30, 2017 and 2016, respectively.

Rental expense for all operating leases was approximately \$6,061,000 and \$5,836,000 for the years ended September 30, 2017 and 2016, respectively. There are no significant noncancelable operating leases at September 30, 2017. Management expects that most lease agreements will be replaced, as they expire, with similar agreements.

#### 6. Cash, Cash Equivalents and Investments

The Health System's bank balances are as follows at September 30:

Deposits insured by the FDIC	\$ 2017 \$ 500,000	<b>2016</b> \$ 783,090
Deposits uninsured, uncollateralized, or collateralized by securities held by the pledging institution or by its trust department or agent in other than the Health System's name	<u>77,621,832</u>	<u>77,981,515</u>
Total	<u>\$ 78,121,832</u>	<u>\$ 78,764,605</u>
Carrying amount (cash and cash equivalents)	<u>\$ 73,134,657</u>	<u>\$ 76,464,052</u>

The Health System owns certain investments recorded in investments, trusteed bond funds, held by trustee for self-insurance funding and held by trustee for pension funding on the statement of net position. A summary of these investments follows for September 30:

	2017	 2016
Money market investments	\$ 3,610,184	\$ 3,603,539
Money market funds	15,019,762	15,812,945
U.S. Government obligations	11,858,902	6,963,647
Municipal obligations	2,039,183	823,247
Collateralized mortgage obligations	11,299,172	-
Mortgage backed securities	3,420,400	1,687,501
Guaranteed contracts	3,145,160	 3,145,160
	<u>\$ 50,392,763</u>	\$ 32,036,039

Investment securities are exposed to various risks such as interest rate, market, and credit risks. The Health System has implemented a formal investment policy to limit exposure to these risks. The goals of the investment policy are (1) safety of principal, (2) liquidity, and (3) yield. The investment policy calls sets the following guidelines:

- 1. Maturity the maximum effective average maturity of the overall portfolio shall be 3 years and no single security shall have an effective maturity greater than 5 years.
- 2. Quality securities shall at time of purchase be rated "A" or better by either S&P or Moody's rating service.
- 3. Diversification investments in non-Treasury or Agency issuers shall be limited to a maximum of 5 percent.

#### Interest rate risk

In accordance with its investment policy, the Health System manages its exposure to declines in fair value by limiting the maximum effective maturity of its investment portfolio to less than 3 years. As of September 30, 2017, the Health System's investments had the following maturities:

Investment Type (		Fair or entract Value	<1		1 – 5		 6 – 10	 > 10
Money market investments	\$	3,610,184	\$	3,610,184	\$	-	\$ -	\$ -
Money market funds		15,019,762		15,019,762		-	-	-
U.S. Government obligations		11,858,902		4,925,652		6,933,250	-	-
Municipal obligations		2,039,183		765,141		1,274,042	-	-
Collateralized mortgage obligation	าร	11,299,172		204,536		-	3,001,601	8,093,035
Mortgage-backed securities		3,420,400		1,266,696		-	368,609	1,785,095
Guaranteed contracts	_	3,145,160	_	<u>-</u>		3,145,160	 <u>-</u>	 
	\$	50,392,763	\$	25,791,971	\$	11,352,452	\$ 3,370,210	\$ 9,878,130

#### Custodial credit risk

Custodial credit risk is the risk that, in the event of a bank failure, an organization's deposits may not be returned. The Health System has a deposit policy for custodial credit risk that requires deposits to be collateralized by securities held by the pledging institution or its trust department or agent in other than the Health System's name.

#### Credit risk

The Health System's investment policy limits investments to those rated "A" or better by either S&P or Moody's at the time of purchase. Credit quality distributions for investments, with credit exposure as a percentage of total investments are as follows at year end:

<u>Rating</u>	<u>Percentage</u>
Not rated	7%
Not rated	30%
*	24%
Aa3	4%
Aaa	22%
Aaa	7%
Not rated	6%
	Not rated Not rated  * Aa3 Aaa Aaa

<sup>\*</sup>Guaranteed by the full faith and credit of the United States Government

Various funds were established in accordance with the requirements of the indentures related to the Series 2009A, Series 2009B and Series 2011 Bonds discussed in Note 7. A summary of the funds are as follows for September 30:

		2017	 2016
Reserve funds – long-term Principal and interest funds – current Capital improvement funds – long-term	\$	7,171,171 2,900,832 2,784,263	\$ 7,153,988 3,297,257 2,788,938
	<u>\$</u>	12,856,266	\$ 13,240,183

The reserve funds are generally equal to the maximum annual principal and interest requirements (as defined) for the revenue bonds. The principal and interest funds are for the annual debt service of the revenue bonds. The capital improvement funds represent proceeds of the revenue bonds to be used to fund costs of construction and installation of equipment and facilities. Deposits classified as current assets represent funds to be used to pay debt service and cost of issuance amounts classified as current liabilities at September 30, 2017 and 2016.

Investment income is comprised of the following at September 30:

		2017	 2016
Dividend and interest income Net increase in the fair value of investments	\$	177,870 388,078	\$ 152,284 201,219
	<u>\$</u>	565,948	\$ 353,503

### 7. Long-Term Debt

A summary of long-term debt based on contractual requirements is as follows at September 30:

	 2017		2016
Mississippi Development Bank Special Obligation Bonds – Series 2011	\$ 26,640,000	\$	29,230,000
Plus unamortized bond premium	 759,068 27,399,068		876,638 30,106,638
Mississippi Development Bank Special Obligation Bonds – Series 2009A Unamortized bond discount	 30,120,000 (687,511) 29,432,489	\$	30,865,000 (737,856) 30,127,144
Mississippi Development Bank Special Obligation Refunding Bonds  – Series 2009B  Unamortized bond discount	 24,320,000 (66,259) 24,253,741	\$	27,820,000 (86,785) 27,733,215
Current installments, based on contractual terms	 81,085,298 (7,135,000)	_	87,966,997 (6,835,000)
Long-term debt, excluding current contractual installments	\$ 73,950,298	\$	81,131,997

On April 2, 2009, the Health System issued \$35,000,000 of Special Obligation Bonds (the Series 2009A Bonds) through Mississippi Development Bank ("MDB"). The purpose of the bonds was to provide funding for constructing, remodeling, adding to, equipping and furnishing an addition to and expansion of the Health System, funding a debt service reserve fund for the Series 2009A bonds and paying cost of issuance on the Series 2009A bonds. The bonds consist of \$6,455,000 of serial bonds and \$28,545,000 term bonds bearing fixed rates ranging from 3.0 percent to 5.625 percent secured by a bond insurance policy provided by Assured Guaranty.

On October 27, 2009 the Health System refunded the Series 2008A bonds, outstanding in the amount of \$44,000,000, with the Series 2009 B-I and 2009 B-2 bonds. The Series 2009 B-I and 2009 B-2 bonds bearing fixed rates ranging from 2.0 percent to 5.0 percent secured by a bond insurance policy provided by Assured Guaranty and a five mill pledge of the assessed real and personal property by Jackson County.

The Series 2009 B-I and B-2 Bonds were issued by the MDB as fixed interest rate securities and pay interest semiannually (January 1 and July 1) and principal annually (July 1 with the exception of the 2023 payment which is March 1). The Series 2009 B-I Bonds of \$48,340,000 mature on March 1, 2023 and the Series 2009 B-2 Bonds of \$2,395,000 matured on July 1, 2012.

On July 27, 2011, the Health System issued \$36,610,000 of Special Obligation Bonds (the Series 2011 Bonds). The purpose of the 2011 Bonds was to provide funding for an electronic medical record system, constructing, remodeling, adding to, equipping and furnishing an addition to and expansion of the Health System, funding a debt service reserve fund, paying capitalized interest and paying costs of issuance on the Series 2011 Bonds. The bonds are fixed rate bonds secured by a bond insurance policy provided by Assured Guaranty and a five mill pledge of the assessed real and personal property by Jackson County. The Series 2011 Bonds were issued by the MDB and pay interest semiannually (January 1 and July 1) and principal annually (July 1). The bonds consist of \$28,255,000 Serial Bonds maturing on July 1, 2023, \$4,490,000 of Term Bonds maturing on July 1, 2031 and \$3,865,000 of Term Bonds maturing on July 1, 2036 and are at fixed rates ranging from 3.0 percent to 5.375 percent.

With respect to the 2011 Bond projects, one of the projects, a "Chiller/Electrical Plant" at Singing River Hospital in Pascagoula, for which the financing was obtained, was not completed. Some of the proceeds were used for other capital projects that management at the time apparently deemed more critical, including electrical upgrades, switchgear, and other improvements. The Chiller/Electrical Plant at the Pascagoula hospital is currently under construction with estimated full completion in 2018. Some components of the project have been completed as of this date, including architectural and engineering, bulk oxygen facility, emergency power switchgear, life safety generators, automatic transfer switches, some normal power electrical switch and control work, and piping for the chilled and condenser water. The full bid has been released for the completion of normal power switchgear. The cooling tower was completed in 2017. The chiller plant will be completed in 2018.

As the Health System is a political subdivision of the State of Mississippi and is owned by Jackson County, Mississippi (the "County"), legally available mills have been pledged by the County as additional security for the 2009 and 2011 Revenue Bonds. To date, no such mills have been levied to support these or any other borrowings of the Health System.

Under the terms of the respective loan agreements in connection with the Series 2009 Bonds and Series 2011 Bonds, the Health System is obligated to meet certain financial covenants on March 31<sup>st</sup> and September 30<sup>th</sup> of each year, including availability of cash, debt service coverage and limitations on additional debt. On July 15, 2014, the loan agreements were amended to state that a failure to comply with the financial covenants set forth in the bond agreements are not events of default. Rather, the amendments provide that the Bond Insurer may determine, at their sole discretion, whether a financial covenant violation constitutes an event of default. The Health System was in compliance with required days cash on hand and minimum debt service coverage financial covenants at September 30, 2017.

Debt service requirements associated with the Health System's long-term debt are as follows at September 30, 2017:

	_ Principal	<u>Interest</u>	Total
2018	\$ 7,135,000	4,033,894	11,168,894
2019	7,420,000	3,823,131	11,243,131
2020	7,745,000	3,576,619	11,321,619
2021	8,105,000	3,315,819	11,420,819
2022	8,450,000	3,071,519	11,521,519
2023 – 2027	15,380,000	9,122,993	24,502,993
2028 – 2032	10,130,000	6,350,238	16,480,238
2033 – 2037	12,305,000	3,274,788	15,579,788
2038 – 2042	4,410,000	375,469	4,785,469
	<u>\$ 81,080,000</u>	\$ 36,944,470	<u>\$118,024,470</u>

At September 30, 2017, long-term debt, including additions and reductions, consisted of the following:

Description	Date of <u>Issuance</u>	Balance October 1, 2016	Additions	Retired	Balance September 30, 2017	Due Within One Year
Series 2009B	10/27/2009	27,820,000	-	(3,500,000)	24,320,000	3,640,000

### 8. Pension Plan

#### General information about the pension plan

Plan description. The Health System's defined benefit pension plan, Singing River Health System Employees' Retirement Plan and Trust (the "Pension Plan"), provides pensions for certain full-time employees of the Health System that were employed prior to October 1, 2011. The Pension Plan is a single-employer defined benefit pension plan administered by the Health System.

Benefits provided. The Pension Plan provides retirement, disability, and death benefits. Retirement benefits are calculated as a percentage of the employee's highest average monthly salary during any nineteen consecutive quarters of compensation during the forty consecutive quarters of employment immediately preceding the date of termination, plus the last quarter of employment compensation ("Average Monthly Compensation"). Normal retirement benefits are calculated as the sum of a) 1.625 percent of Average Monthly Compensation multiplied by

years of credited service, up to twenty years, b) 1.75 percent of Average Monthly Compensation multiplied by years of credited service in excess of twenty years, up to thirty years, c) 2 percent of Average Monthly Compensation multiplied by years of credited service in excess of thirty years. Average Monthly Compensation is reduced by 50 percent in calculating benefits for participants with less than twenty years of service. In no case is the amount of normal retirement benefit to be less than years of credited service multiplied by five dollars.

Employees with ten years of credited service are eligible for normal retirement at age 65, or early retirement at age 60. The amount of early retirement benefit is equal to normal retirement benefit, reduced by 3 percent for each year that commencement precedes the normal retirement date. A participant with thirty years or more of credited service may commence early retirement without any reductions. Employees are eligible for disability benefits after 10 years of service if they are eligible for Social Security Disability. Disability retirement benefits are determined using final average earnings at the date of disability and the amount of service that would have been accrued if the participants worked to the later of the age of sixty or the date of disability, reduced 3 percent for each year that commencement precedes the normal retirement date, up to 15 percent. Death benefits equal the amount that would have been paid had the participant separated from service on the date of death and retired with a 100 percent qualified joint and survivor annuity, reduced 3 percent for each year the date of death precedes the normal retirement date. An employee who terminates service may withdraw his or her contributions, plus any accumulated interest.

Benefit terms provide for annual cost-of-living adjustments subsequent to the employee's retirement date. The annual adjustments are one-half of the change in the Consumer Price Index, limited to a maximum increase in retirement allowance of 2.5 percent

Employees covered by benefit terms. At September 30, 2017 and 2016, the following employees were covered by the benefit terms:

	2017	2016
Inactive employees or beneficiaries currently receiving benefits	724	688
Inactive employees entitled to but not yet receiving benefits Inactive employees not entitled to benefits	162 919	156 947
but with employee contributions Active employees	1,020	1,154
	2,825	2,945

Effective October 1, 2011, the Pension Plan was amended to freeze entry to new participants. Effective November 20, 2014, the Health System froze benefit accruals for all Pension Plan participants.

Contributions. As a governmental entity, the Health System is exempt from the requirements of the Employee Retirement Income Security Act of 1974, and is otherwise not required by law or statute to make annual contributions to the Plan. The Health System did not make any contributions to the Pension Plan during the years ended September 30, 2017 and 2016.

Through November 2014, active participants were required to contribute 3 percent of annual pay to the Pension Plan. Effective November 20, 2014, the Pension Plan was amended whereby employee contributions ceased subsequent to the first payroll period paid in December 2014.

#### Net pension liability

The Health System's net pension liability was measured as of September 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2016.

Actuarial assumptions. The total pension liability in the October 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Cost of living increases	1.25%
Salary increases	-%
Investment rate of return	6%

Mortality rates were based on the RP-2014 Employee and Healthy Annuitant Mortality Tables adjusted back to 2006, then projected forward with Scale MP-2016 for all years.

The long-term expected rate of return on pension plan investments was determined based on input provided by the investment advisor regarding expected returns and standard deviations by asset class and a decision by the plan sponsor to select a conservative expected return within that model.

Discount rate. The discount rate used to measure the total pension liability at September 30, 2017 was 3.49 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will not be made in the future and that Health System contributions will be made at actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected not to be available to make all projected future benefit payments of current active and inactive employees. Therefore, a blended rate of that utilizes the long-term expected rate of return on the Pension Plan investments of 6.0 percent and the twenty-year general obligation Federal Reserve Bond Buyer Index rate ("Muni Bond Rate") of 3.35 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate changed from the rate of 3.27 percent used at the previous measurement date at September 30, 2016 due to changes in the expected long-term rate of return on investments and the Muni Bond Rate.

#### Changes in the net pension liability

The following represents the changes in the net pension liability as of September 30, 2017:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Interest	\$ 14,893,889	\$ -	\$ 14,893,889
Differences between expected and actual experience	4,496,222	-	4,496,222
Net investment income	-	11,369,590	(11,369,590)
Changes of assumptions	(15,273,971)	-	(15,273,971)
Benefit payments, including refunds of employee			
contributions	(16,304,500)	(16,304,500)	-
Administrative expense		<u>(685,109</u> )	<u>685,109</u>
Net change	(12,188,360)	(5,620,019)	(6,568,341)
Balance at October 1, 2016	463,629,088	<u>130,631,000</u>	332,998,088
Balance at September 30, 2017	<u>\$451,440,728</u>	<u>\$125,010,981</u>	<u>\$326,429,747</u>

The following represents the changes in the net pension liability as of September 30, 2016:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Interest	\$ 17,011,106	\$ -	\$ 17,011,106
Differences between expected and actual experience	(10,199,979)	-	(10,199,979)
Net investment income	· -	8,918,860	(8,918,860)
Changes of assumptions	29,972,888	-	29,972,888
Benefit payments, including refunds of employee			
contributions	(15,023,227)	(15,023,227)	-
Administrative expense	<u>-</u> _	(677,633)	677,633
Net change	21,760,788	(6,782,000)	28,542,788
Balance at October 1, 2015	441,868,300	137,413,000	304,455,300
Balance at September 30, 2016	\$463,629,088	\$130,631,000	\$332,998,088

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the Health System, calculated using the discount rate of 3.49 percent, as well as what the Health System's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Sensitivity	Discount <u>Rate</u>	Net Pension Liability
Current discount rate  1% decrease in discount rate	3.49% 2.49%	\$ 326,429,747 \$ 403,010,896
1% increase in discount rate	4.49%	\$ 266,152,784

Pension plan fiduciary net position. Detailed information about the Pension Plan's fiduciary net position is available in the separately issued financial report.

# Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions

For the years ended September 30, 2017 and 2016, the Health System recognized pension expense of approximately \$16,352,000 and \$22,169,000, respectively.

At September 30, 2017, the Health System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Difference between expected and actual experience Changes of other assumptions or other inputs Net difference between projected and actual earnings on pension	\$	3,073,367 17,586,379	\$	4,252,469 10,440,436
plan investments		<u> </u>	_	76,840
	<u>\$</u>	20,659,746	\$	14,769,745

At September 30, 2016, the Health System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defe Outflo Resou	ws of	I	Deferred nflows of lesources
Difference between expected and actual experience Changes of other assumptions or other inputs Net difference between projected and actual earnings on pension	\$ 31,9	- 980,821	\$	7,226,224
plan investments	4,5	526,034		470,150
	\$ 36,5	506,855	\$	7,696,374

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in pension expense as follows:

Year ended September 30:	
2018	\$ 8,150,154
2019	(226,117)
2020	(1,348,641)
2021	(685,395)
Thereafter	 
	\$ 5,890,001

## 9. Postemployment Healthcare Plan

Singing River Health System Postretirement Medical Plan (the "Health Plan") was a single-employer defined benefit healthcare plan sponsored and administered by the Health System. The Health Plan provided medical and drug benefits to eligible retirees and their spouses. The Health System's Board of Trustees was authorized to establish and amend all provisions. The Health System did not issue a publicly available financial report that included financial statements and required supplementary information for the Health Plan.

During the year ended September 30, 2016, the Health System Board resolved to terminate the Health Plan effective January 1, 2017. As no participants remained in the Health Plan at September 30, 2016, the net postemployment benefit obligation is \$0.

#### Annual OPEB cost and net OPEB obligation

The Health System's annual other postemployment benefit ("OPEB") cost (benefit) was calculated based on the annual required contribution of the employer ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represented a level of funding that, if paid on an ongoing basis, was projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of 6.678 years. The following table shows the components of the Health System's annual OPEB cost for the previous years, the amount actually contributed to the Health Plan and changes in the Health System's net OPEB obligation:

	2017	2016
Annual OPEB cost (benefit)	<b>\$</b> -	\$ (13,977,882)
Contributions	<u>-</u> _	
Decrease in net OPEB obligation	-	(13,977,882)
Net OPEB obligation, beginning of year	<del>-</del>	(13,977,882)
Net OPEB obligation, end of year	<u>\$</u>	<u>\$</u>

### Three-year trend information

Fiscal Year Ended	Annual OPEB cost (Benefit)	Percentage of Annual OPEB cost Contributed	Net OPEB Obligation
September 30, 2015	\$ (1,331,158)	(17)	13,977,882
September 30, 2016	(13,977,882)	-	-
September 30, 2017	· · · · · · · · · · · · · · · · · · ·	-	_

#### 10. Business and Credit Concentrations

The Health System grants credit to patients, substantially all of whom are local area residents. The Health System generally does not require collateral or other security in extending credit to patients; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans or policies (e.g., Medicare, Medicaid, Blue Cross and commercial insurance policies).

The mix of receivables from patients and third-party payors follows at September 30:

	2017	2016
Medicare	36%	36%
Commercial insurance	19%	18%
Patients	25%	26%
Blue Cross	10%	10%
Medicaid	<u>10%</u> _	10%
	100%	100%

### 11. Risk Management

Effective October 1, 2003, the Health System implemented a self-insurance program for professional and general liability risks, both with respect to claims incurred after the effective date of the program and claims incurred but not reported prior to that date. The Health System does not maintain any excess coverage for its self-insurance because the Health System is a community hospital organized in accordance with the community statutes of the State of Mississippi and, as such, is afforded sovereign immunity in accordance with the Mississippi Tort Claims Act. Presently, sovereign immunity limits losses to \$500,000 per claim. Prior to October 1, 2003, the Health System's insurance coverages for professional and general liability risks were provided under claims-made policies.

Incurred losses identified through the Health System's incident reporting system and incurred but not reported losses are accrued based on estimates that incorporate the Health System's current inventory of reported claims and historical experience, as well as considerations such as the nature of each claim or incident, relevant trend

factors and advice from consulting actuaries. The Health System has established a self-insurance trust fund for payment of liability claims and makes deposits to the fund in amounts determined by consulting actuaries.

The self-insurance liability for professional and general liability is included in the accrued workers' compensation, professional, and general liability costs line item on the statement of net position. The following is a summary of changes in the Health System's self-insurance liability for professional and general liability costs for fiscal years 2017 and 2016:

	2017		2016		
Balance at October 1 Provisions for claims reported and claims incurred but not reported	\$	6,284,576 3.046,269	\$	6,227,682 56.894	
Claims paid		-		-	
Balance at September 30	\$	9,330,845	\$	6,284,576	

Like many other businesses, the Health System is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illness; natural disasters and professional and general liability claims and judgments. Commercial insurance coverage is purchased for most claims arising from such matters. Claims settled through September 30, 2017 have not exceeded this commercial coverage in any of the three preceding years.

Prior to 2003, the Health System purchased insurance to cover workers' compensation claims. During 2003, the Health System purchased high-deductible workers' compensation insurance, which had the effect that the Health System is largely self-insured.

The self-insurance liability for workers' compensation claims is included in the accrued workers' compensation, professional, and general liability costs line item on the statement of net position. The following is a summary of changes in the Health System's self-insurance liability for worker's compensation coverages for fiscal years 2017 and 2016:

	 2017	 2016
Balance at October 1 Provisions for claims reported and claims incurred but not reported Claims paid	\$ 1,910,000 493,594 (583,594)	\$ 2,590,000 (232,105) (447,895)
Balance at September 30	\$ 1,820,000	\$ 1,910,000

The Health System is self-insured for employee health coverage up to a limit of \$500,000 per individual claim. The Health System maintains coverage with a third-party carrier for excess losses up to \$1 million (specific lifetime reimbursement per covered person).

The self-insurance liability for employee health coverage is included in the accrued payroll and employee benefits line item on the statement of net position. The following is a summary of changes in the Health System's self-insurance liability for employee health coverage for fiscal years 2017 and 2016:

	 2017	_	2016
Balance at October 1 Provisions for claims reported and claims incurred but not reported Claims paid	\$ 2,230,585 18,650,074 (18,491,912)	\$	2,892,571 20,672,073 (21,334,059)
Balance at September 30	\$ 2,388,747	\$	2,230,585

# 12. Blended Component Unit Reporting

The Condensed Combining Statement of Net Position, Condensed Combining Statement of Revenue, Expenses and Changes in Net Position and the Condensed Combining Statement of Cash Flows as of and for the years ended September 30, 2017 and 2016, are detailed below:

Condensed Combining Statement of Net Positon, September 30, 2017:

#### 13. Recent Reporting and Disclosure Developments

#### Accounting pronouncements issued not yet adopted

The Health System will adopt GASB No. 84, *Fiduciary Activities* in fiscal year 2020. This statement establishes criteria for identifying fiduciary activities of all state and local governments. Governments with activities meeting this criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. Fiduciary funds which should be reported include (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds.

The Health System will adopt GASB No. 87, Leases in fiscal year 2021. This statement will require recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It will establish a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee will be required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor will be required to recognize a lease receivable and deferred inflow of resources.

#### 14. Risks and Uncertainties

#### Current economic and regulatory conditions

The current economic environment continues to present hospitals with unprecedented circumstances and challenges. These conditions, including factors such as the unemployment rate, have made it difficult for certain of the Health System's patients to pay for services rendered. As employers make adjustments to health insurance plans putting more of the burden for the cost of health care on employees, or as more patients become unemployed, services provided to self-pay and other payers may significantly impact net patient service revenue, which could have an adverse impact on the Health System's future operating results. Other factors such as the Health System's responsibility to absorb the costs of care for indigent and uninsured, increases in labor and supply costs, heightened competition, specialist shortages, and rising insurance costs could also have an impact.

The effect of regulatory changes, including programs like the Centers for Medicare and Medicaid Services ("CMS") Value Based Purchasing Program, lack of Medicaid expansion in Mississippi, reductions in Disproportionate Share Hospital (DSH) payments to states like Mississippi under the Patient Protection and Affordable Care Act and the Health System (PPACA), Health Insurance Exchanges under the PPACA shifting more beneficiaries into lower-paying plans with plan reimbursement rates that are significantly lower than traditional employer-sponsored plans, the Readmissions Reduction Program established by the PPACA which cut Medicare reimbursement by up to two percent, the Federal Recovery Audit Contract ("RAC") program which subjects hospitals to long cumbersome appeal processes for perfectly valid claims, Value Based Payment Program reductions implemented by Medicare, Medicaid, and certain insurers to put payments to providers at varying levels of risk, Bundled Payments reductions where certain costs like lab costs are associated with other procedures in the overall encounter must be absorbed by the hospital with no separate credit given for those services, Sequestration Reductions which reduce Medicare payments by two percent, and other regulatory changes could have an adverse impact on the Health System's future operating results. The accompanying financial statements have been prepared using values and information currently available to the Health System.

#### Other uncertainties

The United States District Court of the Southern District of Mississippi ("District Court") approved a settlement in a class-action lawsuit related to the Pension Plan in June 2016. That decision was appealed to the Fifth Circuit Court of Appeals and oral arguments were heard on January 5, 2017. On July 27, 2017, the Fifth Circuit Court of Appeals remanded the case to the District Court in an effort to provide additional consideration as it relates to the settlement. On October 30, 2017 the Health System submitted its brief to the District Court and provided the additional Court

of Appeals-requested information. The District Court will hold a supplemental fairness hearing on January 22, 2018. The outcome of the District Court's decision could significantly impact the financial statements.

The Health System acknowledges, in the summer of 2016, questions were raised as to how an employed neurologist diagnosed the existence of multiple sclerosis, and how that physician treated those patients. The review of this matter is ongoing; however, this has resulted in the physician no longer being employed by the Health System. The Health System has notified the physician's patients and all other entities requiring notification. The Heath System has received a limited number of claims and appropriate reserves are included in the financial statements related to this matter.

The Health System is also involved in various other litigation arising in the normal course of business. Based on consultations with legal counsel, management is of the opinion that these matters will be resolved without material adverse effect on the Health System's future financial position or the results of its future operations, to the extent determinable.

#### 15. Deconsolidation

The Health System, through its fully blended component unit, SRHSAS held a 51% ownership interest in two ambulatory surgery centers, Mississippi Coast Endoscopy and Ambulatory Surgery Center, LLC ("MCEASC") and Ocean Springs Surgical and Endoscopy Center, LLC ("OSSEC"). On August 1, 2016, the Company sold 26.5% of its ownership interest resulting in a gain of \$8,324,004. Through the sale, SRHSAS no longer holds controlling interest in MCEASC and OSSEC; accordingly, the Health System derecognized related assets, liabilities and minority interest of MCEASC and OSSEC. The Health System determined that on the date of sale, the fair market value of its retained interest in MCEASC and OSSEC was \$4,385,300. The net cash inflow arising from the deconsolidation of the surgery centers was \$4,507,428 (\$4,991,169 in cash consideration received less \$483,471 in cash deconsolidated upon the loss of control). The total impact on the Health System financial statements of the deconsolidation of net position was \$1,011,384.

#### 16. Fair Value Measurements

GASB Statement No. 72, Fair Value Measurements and Application, addresses accounting and financial reporting issues related to fair value measurements. The standard describes fair value as an exit price. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard provides guidance for determining a fair value measurement for financial reporting purposes. This standard also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

The standard establishes a three-level hierarchy of inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets or liabilities, inputs that are observable for the asset or liability, and market-corroborated inputs. Level 3 inputs are unobservable inputs and take into account all information about market participant assumptions that are reasonably available. The System categorizes its fair value measurements within the fair value hierarchy established by this standard.

For assets carried at fair value, the following table provides fair value information as of September 30, 2017 and 2016:

	Fair value measurements at September 30, 2017 using			
	Fair value at	Quoted prices in active markets for identical assets and liabilities	Quoted prices for similar assets and liabilities	Significant unobservable inputs
Investments by fair value level	<u>September 30,</u> <u>2017</u>	(Level 1)	(Level 2)	(Level 3)
U.S. Government obligations	\$ 11,858,902	\$ 11,858,902	\$ - \$	-
Municipal obligations	2,039,183	-	2,039,183	-
Collateralized mortgage obligations	11,299,172	-	11,299,172	-
Mortgage-backed securities	3,420,400		3,420,400	<del>_</del>
Total investments by level	\$ 28,617,657	<b>\$</b> 11,858,902	<u>\$ 16,758,755</u> <u>\$</u>	

The above schedule excludes guaranteed contracts measured at contract value of \$3,145,160, money market funds of \$15,019,762 and money market investments of \$3,610,184.

	Fair value measurements at September 30, 2016 using							
	= -	air value at ptember 30,	ac f	ted prices in ctive markets or identical ts and liabilities	-	Quoted prices or similar assets and liabilities	5	Significant unobservable inputs
	<u> </u>	<u>2016</u>		(Level 1)		(Level 2)		(Level 3)
Investments by fair value level		<u> </u>						
U.S. Government obligations	\$	6,963,647	\$	6,963,647	\$	-	\$	-
Municipal obligations		823,247		-		823,247		-
Mortgage-backed securities		1,687,501		<u>-</u>		1,687,501		
Total investments by level	\$	9,474,395	\$	6,963,647	\$	2,510,748	\$	<u>-</u>

The above schedule excludes guaranteed contracts measured at contract value of \$3,145,160, money market funds of \$15,812,945 and money market investments of \$3,603,539.

Municipal obligations, collateralized mortgage obligations and mortgage-backed securities classified in Level 2 of the fair value hierarchy are valued using techniques which reflect market participants' assumptions and maximize the use of relevant observable inputs included quoted prices for similar assets, benchmark yield curves, and market corroborated inputs.

#### 17. Investments in Uncombined Entities

SRHSAS holds a non-controlling 24.5% ownership interest in two ambulatory surgery centers, Mississippi Coast Endoscopy and Ambulatory Surgery Center, LLC ("MCEASC") and Ocean Springs Surgical and Endoscopy Center, LLC ("OSSEC"). SRHSAS accounts for the investments in uncombined entities using the equity method of accounting. SRHAS' investment in the uncombined entities was \$4,231,409 and \$4,475,659 at September 30, 2017 and 2016, respectively.

# Component Unit West Jackson County Utility District

Notes to the Financial Statements For the year ended September 30, 2017

Notes to Financial Statements For the Year Ended September 30, 2017

# Note 1 – Summary of Significant Accounting Policies

West Jackson County Utility District (the District) was created by a resolution of the Board of Supervisors of Jackson County, Mississippi, dated February 5, 1974, under the provisions of Senate Bill 2251, Laws of Mississippi of 1966. The entity was originally created as the St. Martin-Gulf Hills Utility District of Jackson County, Mississippi. The District was dormant until August 14, 1992, at which time the District held its initial meeting since being reactivated and by resolution of the Board of Supervisors in January 1993, the name was changed to the West Jackson County Utility District. West Jackson County Utility District is a component unit of Jackson County, Mississippi.

The following significant accounting policies were applied in the preparation of the accompanying financial statements:

Basis of Accounting and Presentation – The District's financial statements include the accounts of all District operations. The District provides water and sewer collection services to its customers and charges and collects user fees for these services. The financial statements of the District are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities, and as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles.

The District's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statement presents increases (revenues) and decreases (expenses) in net position. Under the accrual basis of accounting, revenues are recognized when measurable and available to finance operations of the current fiscal year. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current year or soon enough after fiscal year end to liquidate liabilities existing at the end of the fiscal year.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principle operating revenues for proprietary funds are charges to customers for services. Principle operating expenses are the cost of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenue and expenses are classified as non-operating in the financial statements.

Notes to Financial Statements For the Year Ended September 30, 2017

# Note 1 - Summary of Significant Accounting Policies (Continued)

Capital Assets – Capital assets are valued at historical cost. Depreciation is recorded as an expense against operations for proprietary funds and accumulated depreciation is reported on the statements of Net Position. Depreciation is provided for using the straight-line method over the estimated useful lives of the assets.

Estimated useful lives are as follows:

Machinery, equipment and automobiles Collection system and water wells

5 years 25-35 years

Cash and Cash Equivalents - Cash and cash equivalents include all cash and short-term investments (including restricted assets) with an original maturity of three months or less. The carrying value of cash equivalents approximates fair value due to the short maturities of those instruments.

Estimates - Preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capitalization of Interest Costs - The District follows the policy of capitalizing interest costs incurred on debt proceeds used in the construction of fixed assets. Interest costs incurred on debt proceeds through the date of completion of construction are recorded as part of the capitalized cost of the asset.

Risk Management - The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets, error and omissions, injuries to employees and natural disasters. The District manages these risks through commercial insurance coverage. There have been no material uninsured losses exceeding insurance coverage during the past three fiscal years.

Restricted Assets – Restricted assets are assets restricted by the covenants of long-term financial arrangements or other third party legal restrictions. Restricted assets are used in accordance with their requirements and where both restricted and unrestricted resources are available for use; restricted resources are used first and then unrestricted as they are needed.

Inventories - Material and supplies inventories are recorded at average cost.

Revenue Recognition – Revenues are recorded as meters are read on a cycle basis each month for customers on metered service. Other customers are billed on a flat-rate basis, and revenues are recorded as billed. Also, the District records estimated revenues earned but not billed to customers as of the end of the year. Revenues from connection fees are recognized upon completion of the connection. Interest income is recorded as it is earned.

Notes to Financial Statements For the Year Ended September 30, 2017

# **Note 1 - Summary of Significant Accounting Policies (Continued)**

Revenue and Expense Classification – The District distinguishes operating revenues and expenses from non-operating items in the preparation of its financial statements. Operating revenues and expenses generally result from providing water and sewer services in connection with the District's principal ongoing operations. The principal operating revenues are sales to customers. The District's operating expenses include treatment fees, labor, materials, services and other expenses related to delivery of water and sewer collection. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses, or capital contributions.

Net position - Net Position as presented in the Statement of Net Position includes:

Investment in capital assets, net of related debt - The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted - The component of net position that reports the funds that are restricted by bond or loan covenants or for utility system construction.

Unrestricted - The difference between the assets and liabilities that is not reported in the components of net position detailed above.

# **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 1 - Summary of Significant Accounting Policies (Continued)

## **Pensions (Continued)**

In June 2012, the Governmental Accounting Standards Board issued GASB Statement No. 68 *Accounting and Financial Reporting for Pensions*. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, note disclosure and required supplementary information requirements about pensions also are addressed. This statement is effective for fiscal years beginning after June 15, 2014.

# Note 2 - Cash and Collateralized Deposits

The collateral for public entities' deposits in financial institutions, is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann, (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

#### Note 3 – Restricted Assets

The District has established restricted savings accounts, which are maintained as required to cover contingencies for system maintenance, customer deposits, and debt service. The District is required by bond and note covenants to maintain reserves for depreciation, contingencies and debt service payments. Balances in these accounts at September 30, 2017, may be stated as follows:

#### **Restricted Cash Balances:**

Bond-related debt service and other reserves	\$ 2,784,539
Construction and special projects funds	2,177,251
Customer deposits	530,685
Total restricted assets	\$ 5,492,475

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 4 – Capital Assets

A summary of the District's changes in capital assets for the year ended September 30, 2017, is as follows:

	Balance		Transfers/	Balance
Description	<u> 10/1/2016</u>	<u>Additions</u>	<u>Dispositions</u>	<u>9/30/2017</u>
Office furniture and equipment	\$ 399,914	\$ 7,900	\$ -0-	\$ 407,814
Buildings	538,840	-0-	-0-	538,840
Machinery and equipment	960,959	16,375	-0-	977,334
Vehicles	701,296	49,185	49,194	701,287
Utility systems	51,961,643	256,959	-0-	52,218,602
Land	52,439	15,000	-0-	67,439
Construction in progress	<u>949,278</u>	<u>3,770,402</u>	<u>30,370</u>	4,689,310
Totals	55,564,369	4,115,821	79,564	59,600,626
Less: Accumulated depreciation	<u>16,596,264</u>	<u>1,802,159</u>	49,194	18,349,229
Total capital assets	\$ <u>38,968,105</u>	\$ <u>2,313,662</u>	\$ <u>30,370</u>	\$ <u>41,251,397</u>

On July 1, 2014, the City of D'Iberville conveyed to the District the sewer assets of the Cherry Park Subdivision. Under the agreement, the District billed the customers of the area for sewer fees and paid the City of D'Iberville for wastewater treatment services. During the year ended September 30, 2017, the District connected the subdivision to its collection system.

## Note 5 – Construction in Progress

The District is currently in the process of expanding its service area and extending its utility system. Until such time as the projects are completed and placed in service, the costs of construction are reported as construction in progress on the statements of net position. The balance in this account includes actual construction costs, construction engineering fees, administrative expenses and interest costs. Details of the balances in this account at September 30, 2017 are as follows:

<u>Project</u>	
Wastewater Facilities Plan - Phase I	\$ 2,523,930
Wastewater Facilities Plan - Phase II	289,500
Water Facilities Plan - Phase III	1,733,865
Preliminary engineering and design	
costs for other projects	142,015
Total Construction in progress	\$ <u>4,689,310</u>

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 6 – Long-Term Debt

Details of the District's long-term debt are as follows:

Regions Bank as Trustee, Series 2013 Bond Issue – During the year ended September 30, 2013, the District secured financing in the form of a bond issue through Mississippi Development Bank in the amount of \$12,155,000 for the purpose of refinancing a portion of the existing USDA debt and acquiring additional funding for the expansion of the utility system. The loan agreement provides for annual principal payments and semi-annual interest payments with interest rates ranging between 1.0% and 5.0%, based on maturity date of the bonds. The bond issue has a maturity date of December 1, 2033. At September 30, 2017, the principal balance of the outstanding bonds totaled \$11,055,000.

Mississippi Department of Health, Water Facilities Plan Phase I – The District secured financing for the installation of new water mains, new automatic-read meters and abandonment of nine wells within the Gulf Hills area, through a loan from the Mississippi Department of Health in the amount of \$5,000,000. The project was completed in October, 2013 at a total loan amount of \$4,104,258. The note is payable \$21,025 monthly beginning March 15, 2014, bearing interest at 1.95% for a period of 235 months. At September 30, 2017, the principal balance of this note was \$3,450,016.

Mississippi Department of Health, Water Facilities Plan Phase II — The District secured financing from the Mississippi Department of Health in the amount of \$4,104,258 for the completion of various distribution upgrades and improvements in the Gulf Hills and Laura Acres areas of the system. The project was completed in September, 2014; and the loan was finalized in January, 2015. The note bears interest at 1.95% and is payable at \$21,025 per month for a period of 237 months. At September 30, 2017, the principal balance of this note was \$3,183,536.

Mississippi Department of Environmental Quality Revolving Loan Fund, Sewer System Extension Project — During the year ended September 30, 2001, the District entered into an agreement with the Mississippi Department of Environmental Quality for financing for the construction of an extension of the District's sewer system. The final loan totaled \$4,202,135 and is payable over a period of 236 months at \$21,398 per month. The note bears interest at 1.75%. At September 30, 2017, the principal balance of this note was \$1,442,249.

Mississippi Department of Health, Tucker Road Water Main – During the year ended September 30, 2001, the District entered into an agreement with the Mississippi Department of Health, for financing through the Drinking Water Systems Improvements Revolving Loan Fund for the construction of the Tucker Road Water Main. The original loan was approved for \$139,351 and the final amount totaled \$123,060. During the year ended September 30, 2017, the District repaid the balance of the note in full.

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 6 – Long-Term Debt (Continued)

Mississippi Department of Environmental Quality, Lemoyne Water Tank Project – The District has secured financing for the construction of an elevated water tank to serve as part of the water system for Lemoyne Boulevard and adjoining areas. The financing is provided through the Water Pollution Control Revolving Loan Fund Program. The original loan was approved for \$752,635 and the final loan amount totaled \$719,093. The note is payable \$3,658 monthly bearing interest at 1.95%, with a term of 237 months. At September 30, 2017, the principal balance of this note was \$448,986.

Mississippi Department of Health, Lemoyne Water Well and Distribution Project – The District has secured financing for the construction of water well and distribution system to serve customers in the Lemoyne Boulevard and adjoining areas. The financing is provided through the Drinking Water Systems Improvements Revolving Loan Fund. The original loan was approved for \$1,505,065 and the final loan amount totaled \$1,441,641. The note is payable \$7,334 monthly, bearing interest at 1.95%, with a term of 237 months. At September 30, 2017, the principal balance of this note was \$900,131.

Mississippi Department of Environmental Quality, North of I-10 Sewer Expansion Project The District has secured financing for the installation of 57,000 feet of force main, pumping stations and other items necessary to serve approximately 300 customers, referred to as the Sewer Completion Project. The final loan amount totaled \$2,230,228; payable \$12,245 monthly, bearing interest at 2.75%, with a term of 237 months. At September 30, 2017, the principal balance of this note was \$1,402,471.

Rural Development, Water System Revenue Bond, 2007 issue — On July 31, 2017, the District obtained financing from USDA, Rural Development in the amount of \$9,500,000, for the purchase of the utility systems of Coast Waterworks, Inc. and Magnolia Utilities, Inc. at a cost of \$8,500,000; and for the improvement of existing systems and the construction of new facilities. The bond bears interest at 4.125%, payable in monthly installments of \$42,845. At September 30, 2017, the principal balance of this note was \$7,858,495.

Rural Development, Water System Revenue Bond, 2008 issue – On March 18, 2009, the District obtained financing for the purchase of the TESI water system; and for improvements to and extension of the existing system in the area known as Old St. Martin through the issuance of \$882,000 in bonds through USDA, Rural Development. The bond bears interest at 4.125%, payable in monthly installments of \$4,117. At September 30, 2017, the principal balance of this note was \$785,250.

Mississippi Department of Health, Distribution Lines Replacements and Upgrades - On November 7, 2014, the District entered into a loan agreement with the Mississippi Department of Health for a project consisting of the replacement and/or upgrade of approximately 92,000 linear feet of water distribution lines. The loan is authorized in the amount of \$5,000,000 bearing interest at 1.95%; payable in monthly installments of 25,437 for a period of 237 months based on

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 6 – Long-Term Debt (Continued)

## Mississippi Department of Health, Distribution Lines Replacements and Upgrades (Continued)

the initial repayment schedule per the loan agreement. As of September 30, 2017, the District had outstanding advances under the agreement totaling \$1,384,087.

Mississippi Department of Environmental Quality, Sewer Facilities Plan - On October 3, 2014, the District entered into a loan agreement with the Mississippi Department of Environmental Quality for a project consisting of replacements, extensions, repairs and improvements to existing sewer systems. The loan is authorized in the amount of \$7,847,920 bearing interest at \$1.75%; payable in monthly installments of \$39,189 for a period of 237 months based on the initial repayment schedule per the loan agreement. As of September 30, 2017, the District had outstanding advances under the agreement totaling \$1,692,802.

Changes in long-term debts for the year ended September 30, 2017, are summarized as follows:

Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
\$ <u>31,962,162</u>	\$ <u>2,939,389</u>	\$ <u>1,298,446</u>	\$ <u>33,603,105</u>	\$1,335,730

The debt service requirements on the outstanding long-term debts balances are as follows:

September 30,	Principal	Interest	Total
2018	\$ 1,335,730	\$ 1,128,964	\$ 2,464,694
2019	1,871,399	1,227,658	3,099,057
2020	2,092,723	1,240,268	3,332,991
2021	2,154,343	1,179,022	3,333,365
2022	2,216,906	1,115,585	3,332,491
2023-2027	8,931,021	4,038,566	12,969,587
2028-2032	8,177,118	2,230,848	10,407,966
2033-2037	4,596,237	792,526	5,388,763
2038-2042	2,184,499	210,105	2,394,604
2043-2047	43,129	<u>870</u>	43,999
Totals	\$ <u>33,603,105</u>	\$ <u>13,164,412</u>	\$ <u>46,767,517</u>

#### Note 7 – Line of Credit

On November 22, 2016, the District renewed an unsecured line of credit with M & M Bank in the amount of \$2,000,000. The line bears interest at 3.25%, payable quarterly; maturing September 22, 2017. There were no advances outstanding as of September 30, 2017.

## Note 8 - Ad Valorem Taxes, Jackson County

West Jackson County Utility District receives ad valorem taxes from Jackson County, Mississippi on an annual basis. Ad Valorem taxes received for the year ended September 30, 2017, totaled \$297,795.

Notes to Financial Statements For the Year Ended September 30, 2017

#### Note 9 - Defined Benefit Pension Plan

General Information about the Pension Plan

Plan Description. The District contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service.

Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 9 - Defined Benefit Pension Plan (Continued)

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the District is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2017 was 15.75% of annual covered payroll. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Section 25-11-1 of the Mississippi Code of 1972, as amended, and may be amended only by the State of Mississippi Legislature. The District's contributions to PERS for the fiscal years ending September 30, 2017, 2016 and 2015 were \$194,477, \$181,573 and \$176,083, respectively, which equaled the required contributions for each year.

# Pensions Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the District reported a liability of \$3,108,847, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2017, the District's proportion was .018702 percent; which was an increase of .001274% from its proportion as of the prior year. For the year ended September 30, 2017, the District recognized pension expense of \$381,079. At September 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Dicc 1	 red Outflows Resources		red Inflows <u>Resources</u>
Differences between expected and actual experience  Net difference between projected and actual	\$ 44,664	\$	22,685
earnings on pension plan investments Changes in assumptions	69,098		39,914 5,298
Changes in proportion and differences between the District's contributions and	05,050		3,290
proportionate share of overall contributions District contributions subsequent to the	206,459		
measurement date	 51,527	_	
Total	\$ 371,748	\$	67,897

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 9 – Defined Benefit Pension Plan (Continued)

Total

# Pensions Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date totaling \$51,527 will be recognized as a reduction to the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years ended September 30:		
2018	\$	115,338
2019		110,210
2020		64,161
2021	(	37,385)
		,

Actuarial assumptions. The collective total pension liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	3.25 – 18.50 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with rates set forward one year for males with adjustments.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 9 – Defined Benefit Pension Plan (Continued)

# Pensions Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Broad	27.00%	4.60%
International Equity	18.00	4.50
Emerging Markets Equity	4.00	4.75
Global	12.00	4.75
Fixed Income	18.00	0.75
Real Estate	10.00	3.50
Private Equity	8.00	5.10
Emerging Debt	2.00	2.25
Cash	1.00	0.00
Total	100.00%	

Discount Rate – The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability as of the measurement date, calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$ 4,077,461	\$ 3,108,847	\$ 2,304,687

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Notes to Financial Statements For the Year Ended September 30, 2017

#### Note 10 - Sixteenth Section Lease

The District has a lease agreement with the Jackson County Board of Education for a portion of sixteenth section land. The lease term is forty years beginning in fiscal year 2000, with an annual minimum rental of \$495, based on 10% of the appraised value of the property. The agreement provides for reappraisal each eight years and an adjustment of rent based on 10% of the new appraised value. In 2016, the property was reappraised and a new annual rent of \$650 was established. For the years ended September 30, 2017 and 2016, the District was billed the prior amount of \$1,050 by the Jackson County School District, resulting in an overpayment of \$800. This overpayment will be applied by the Jackson County School District to the lease payments due for the next two years. Future minimum payments under the remaining term of the lease are as follows:

Year Ended September 30,	Future Minimum Rentals
2018	\$ -0-
2019	500
2020	650
2021	650
2022	650
2023-2027	3,250
2028-2032	3,250
2033-2037	3,250
2038-2039	1,300
Totals	\$ <u>13,500</u>

## Note 11- Compensated Absences

The District has adopted personnel policies of which compensated absences in the form of vacation and sick leave are covered. Employees accrue vacation leave and sick leave, each at a rate of 3.33 hours per month, after three months of service through the first year. In years two through five, the accrual is 6.66 hours per month; in years six through ten, the accrual is 10 hours per month; in years eleven through fifteen, the accrual is 13.33 hours per month; and employees with over fifteen years of service, the accrual is 16.66 hours per month. Upon separation from service, employees are entitled to payment of accrued compensated absences as follows:

Vacation:

Each employee will be paid up to 240 hours of accrued vacation time. Any unused time shall be transferred to the Mississippi Public Employees Retirement System, subject to the System's guidelines, providing the employee is vested at the time of separation.

Sick Leave:

Employees are not compensated for unused sick leave. Any unused sick leave at the time of separation shall be transferred to the Mississippi Public Employees Retirement System, subject to the System's guidelines, providing the employee is vested at the time of separation.

Notes to Financial Statements For the Year Ended September 30, 2017

## Note 12 - Commitments and Contingencies

The District is a party to various legal proceedings arising principally in the normal course of operations. These legal proceedings are not likely to have a material adverse impact on the accompanying financial statements and accordingly, no provision for losses has been recorded.

## Note 13 - Subsequent Events

Management has evaluated subsequent events through March 8, 2018, the date the financial statements were issued. The following were identified subsequent events:

On October 10, 2017, the District entered into a loan agreement with the Mississippi Department of Environmental Quality for a wastewater improvements facility plan project consisting of the installation of gravity and force main sewer lines and related appurtenances, abandonment of four pump stations and installation of a 1,000 GPM regional pump station. The loan is authorized in the amount of \$4,491,255 bearing interest at \$1.75%; payable in monthly installments of \$22,427 for a period of 237 months beginning December 10, 2020, based on the initial repayment schedule per the loan agreement.

On October 24, 2017, the District renewed its line of credit with M & M Bank in the amount of \$2,000,000. The credit line bears interest at 3.25% payable quarterly, maturing October 22, 2019.

On November 14, 2017, the District awarded a contract to a contractor in the amount of \$253,916 for construction related to the Walker Road water main relocation. The total cost of the project including design and engineering fees is projected to be \$373,069.

On December 1, 2017, the District awarded a contract to a contractor in the amount of \$3,347,770 for construction related to the wastewater improvements facility plan project funded by the State Revolving Loan through the Mississippi Department of Environmental Quality.

On December 19, 2017, the District approved a purchase order in the amount of \$250,000 for the purchase of a three-yard positive displacement sewer combo truck.

## Component Unit Jackson County Emergency Communications District

Notes to the Financial Statements For the year ended September 30, 2017

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Reporting Entity

The District was incorporated in 1987 under House Bill No. 104, Mississippi Code of 1972 and Amendments thereto. The creation of the District was necessitated by the existence of inadequate emergency communication systems serving Jackson County, Mississippi.

The District's entity consists of and includes all funds that are covered by the oversight responsibility of the District. There are no funds excluded from the reporting entity, which are under the control of the District. The reporting entity is a component unit of Jackson County, Mississippi.

#### **B.** Basis of Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) for state and local governments. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles for state and local governments in the United States of America.

The District's operations are presented as a single enterprise fund. Enterprise funds distinguish operating revenues and expenses from non-operating items in accordance with the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net assets, deferred outflows and inflows, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred.

Revenues from telephone surcharges are reported as operating revenues. All expenses related to operating the Emergency Communications District are reported as expenses. Interest and investment income are reported as non-operating income. Interest expense is reported as a non-operating expense. Capital contributions, special and extraordinary items are reported separately after non-operating revenues and non-operating expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### C. Assets, Liabilities, Deferred Outflows/Inflows, and Fund Balance

#### Deposits and Investments

The District considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Short-term investments with an original maturity of one year or less are reported at cost, which approximates fair value.

Note 2 sets forth information about the use of federal depository insurance (FDIC) and collateralization to insure the District's deposits.

#### Receivables and Payables

All receivables and payables are shown at their net realizable value. Management expects to collect entire amounts due and therefore has not established an allowance for uncollectible accounts.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in the financial statements. Prepaid items are recognized utilizing the consumption method.

### Furniture, Fixtures, and Equipment

Capital assets purchased or acquired with useful lives of more than one year are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Other costs incurred for repairs and maintenance are expensed as incurred. The threshold for capitalizing assets is \$1,000. Depreciation on all assets is estimated on the straight-line basis over useful lives ranging from five to ten years.

#### Compensated Absences

Paid annual leave is granted to employees who have been employed by Jackson County for at least 12 months and who have worked at least 1,250 hours during the previous 12 months. Annual leave is accumulated based on a period of continuous service and is earned in varying amounts depending on the years of service with the District. Unused vacation leave may be paid to employees upon separation from employment up to a maximum of 240 hours provided they have completed at least six months of continuous service. Additional accrued annual leave is credited to the State Retirement. The maximum amount that can be credited to the State Retirement is 11,200 hours of combined accrued unused sick and annual leave. The employee may elect to have all earned but unused annual leave credited to State Retirement.

Paid sick leave is granted to full-time employees who have completed six months of service and are eligible to earn annual leave. Sick leave is accumulated for full-time employees who work 66-80 hours or more per pay period at specified hours per pay period, up to a maximum of 480 hours per year. Employees can only be paid for sick leave for actual time missed due to qualified sick leave absences. Upon termination, no payment is made to employees for accumulated sick leave; however, the unused hours are credited to State Retirement. As stated above, the maximum amount of combined accrued unused annual and sick leave that may be credited to State Retirement is 11,200 hours.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Mississippi Public Employees' Retirement System and additions to/deductions from the Systems' fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Net Position

In the Proprietary Fund financial statements, the difference between the District's total assets and deferred outflows of resources, total liabilities and deferred inflows of resources represents net position. Net position displays three components:

- 1. Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, constructions or improvement of those assets.
- 2. Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditor, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position All other net position not meeting the definition of "restricted" or "invested in capital assets, net of related debt." Unrestricted net position represents the net position available for future operations.

When an expenditure is incurred for purposes for which both restricted and unrestricted resources are available, it is the District's general policy to use restricted resources first.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The District has a deferred outflow which is presented as a deferred outflow of resources related to pension obligations.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The District has a deferred inflow which is presented as a deferred inflow of resources related to pension obligations.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Budgetary Control**

State statute establishes the fiscal year as the twelve-month period beginning October 1. The District submits to the Board of Commissioners a budget of estimated expenditures for the ensuing fiscal year at the June meeting.

Upon receipt of the budget estimates, the Board holds a meeting on the proposed budget. The Board makes comments on the proposed budget, and holds a subsequent meeting in the following month to review the changes. The budget is legally adopted at the September board meeting.

Budgeted amounts are as originally adopted, as amended by the Board of Commissioners.

#### New GASB Pronouncements

The Governmental Accounting Standards Board has issued several new pronouncements that the District has reviewed for application to their accounting and reporting.

GASB Statement No. 82, Pension Issues, an Amendments of GASB Statements No. 67, No. 68, and No. 73, is effective for the periods beginning after June 15, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The District has implemented this reporting requirement for the year ended September 30, 2017.

(A Component Unit of Jackson County, Mississippi)
NOTES TO BASIC FINANCIAL STATEMENTS

September 30, 2017

#### NOTE 2. DEPOSITS AND INVESTMENTS

State law requires that all deposits in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limits be 105% collateralized by U.S. Government obligations or by state municipal obligations that have a fair value of not less than the principal amount of deposits. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-1-5-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer.

Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC. The District's deposits were fully insured or collateralized as required by statues at September 30, 2017.

At year-end, the carrying amount of the District's deposits was \$1,137,642, and the respective bank balances totaled \$1,140,232. The bank balance is categorized as follows:

Amount collateralized with securities held in the State of Mississippi collateral pool on behalf of the District

\$ 890,232

Amounts held at various financial institutions covered under Federal Depository Insurance

250,000
\$ 1,140,232

#### NOTE 3. CONCENTRATION OF CREDIT RISK

Custodial credit risk is the risk that in the event of the failure of a financial institution, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the District. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the District as indicated at Note 2.

#### NOTE 4. ACCOUNTS RECEIVABLE

Accounts receivable represents receivables from telephone companies based upon fees as approved in enabling legislation. For the year ended September 30, 2017, the accounts receivable balance was \$205,624. The District considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts has been established.

(A Component Unit of Jackson County, Mississippi)

NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 5. FURNITURE, FIXTURES, AND EQUIPMENT

Furniture, fixtures, and equipment consisted of the following at September 30, 2017:

	Beginning			Ending
	<b>Balance</b>	Additions	Disposals	Balance
Capital assets:				
Furniture and fixtures	\$ 465,916	-	-	465,916
Auto	26,642	-	-	26,642
Communications system	<u>11,992,608</u>	22,552		12,015,160
Total capital assets	12,485,166	22,552		12,507,718
Less accumulated depreciation for:				
Furniture and fixtures	268,370	35,650	-	304,020
Auto	26,642	-	-	26,642
Communications system	9,949,119	406,478		10,355,597
Total accumulated depreciation	10,244,131	442,128		10,686,259
Total capital assets, net	\$ <u>2,241,035</u>	<u>(419,576</u> )	_	1,821,459

Depreciation expense for the year ended September 30, 2017 was \$442,128.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS

September 30, 2017

#### NOTE 6. LONG-TERM DEBT AND OTHER OBLIGATIONS

The following is a summary of changes in long-term debt transactions of the District for the year ended September 30, 2017:

	Beginning				Ending	Due Within
		Balance	Additions	Reductions	Balance	One Year
Compensated Absences	\$	28,976	1,702	-	30,678	15,339
Capital Lease Obligations	_	1,017,702		<u>(440,885</u> )	576,817	459,106
Total Long-Term Liabilities	\$	1,046,678	1,702	(440,885)	607,495	474,445

### Capital Lease Obligation

The District has entered into a capital lease agreement as of September 30, 2017. The capital lease agreement is for a communications tower. The scheduled minimum lease payment under the agreement includes interest of 4.07%. The capital lease obligation matures in December 2018. The cumulative amount of assets acquired under the capital lease described above amounted to \$3,632,070 with \$2,118,708 of accumulated depreciation as of September 30, 2017,

The future minimum lease obligation and the net present value of these minimum lease payments as of September 30, 2017 were as follows:

2018	\$	475,633
2019	_	118,910
Less amount representing interest	_	(17,726)
Present value of minimum payments	\$ <u>_</u>	576,817

#### NOTE 7. PENSION PLAN

#### **Defined Benefit Pension Plan**

#### Plan Description

The Jackson County Emergency Communications District contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 7. PENSION PLAN (continued)

#### Benefits Provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

#### **Contributions**

PERS members are required to contribute 9.00% of their annual covered salary and the Jackson County Emergency Communications District is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2017 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature.

The Jackson County Emergency Communications District's contribution to PERS for the year ended September 30, 2017, 2016, and 2015 was \$21,563, \$20,741, and \$19,174 respectively, which equal to the required contributions for each year.

(A Component Unit of Jackson County, Mississippi)
NOTES TO BASIC FINANCIAL STATEMENTS

September 30, 2017

#### NOTE 7. PENSION PLAN (continued)

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the District reported a liability of \$349,091 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017 the District's proportion was 0.0021%, which was an increase of 0.0001% from its proportion measured as of June 30, 2016.

For the year ended September 30, 2017, the District recognized pension expense of \$50,576. At September 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	
		Outflows of	<b>Deferred Inflows</b>
		Resources	of Resources
Differences between expected and actual experiences	\$	5,014	2,547
Changes of assumptions		7,758	594
Net difference between projected and actual earnings on pension plan			
investments		-	4,481
Changes is proportion and differences between District contributions and			
proportionate share of contributions		17,331	-
District contributions subsequent to the measurement date	_	5,889	
Total	\$_	35,992	7,622

\$5,889 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended September 30, :

2018	\$ 14,198
2019	12,583
2020	2,444
2021	(6,744)
2022	-
Thereafter	 
Total	\$ 22,481

(A Component Unit of Jackson County, Mississippi)

NOTES TO BASIC FINANCIAL STATEMENTS

September 30, 2017

#### NOTE 7. PENSION PLAN (continued)

#### Actuarial assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary increases 3.75-18.50%, including inflation

Investment rate of return 7.75%, net of pension plan investments expense, including

inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with males rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2017, are summarized in the following table:

Asset class	Target Allocation	Long-term expected real rate of return
U.S. Broad	27.00 %	4.60
International equity	18.00	4.50
Emerging markets equity	4.00	4.75
Global	12.00	4.75
Fixed income	18.00	0.75
Real assets	10.00	3.50
Private equity	8.00	5.10
Emerging Debt	2.00	2.25
Cash	1.00	
Total	100.00 %	

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 7. PENSION PLAN (continued)

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following table presents the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	Current				
		Decrease (6.75%)	Discount Rate (7.75%)	1% Increase (8.75%)	
District's proportionate share of the net pension					
liability	\$	457,857	349,091	258,792	

### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 8. DEFERRED COMPENSATION PLAN

Employees of the District are eligible to participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code (IRC) Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

Under the deferred compensation plan, which is available to all employees of the District, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portions until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency. The deferred compensation plan is administered by the Board of Trustees of the Public Employees Retirement System of Mississippi. The plan's assets are held in trust by the Public Employees Retirement System of Mississippi for the exclusive benefit of the participants and beneficiaries of the plan and are not subject to the general creditors of the District. As a result, the plan's assets are not reflected in an agency fund of the District.

There are no employees participating in the plan as of September 30, 2017.

### NOTE 9. SUBSEQUENT EVENTS

Events that occur after the statement of net position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes. Management of Jackson County Emergency Communications District evaluated the activity of the district through January 19, 2018, (the date the financial statements were available to be issued).

## Component Unit Jackson County Port Authority

Notes to the Financial Statements For the year ended September 30, 2017

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Financial Reporting Entity

The Jackson County Port Authority was created in 1956 under Chapter 199 of the Laws of the State of Mississippi. The Port Authority was given exclusive jurisdiction over all improvements resulting from the acts (harbors, waters, vessels, etc.) for the purpose of importing and exporting goods under a tariff approved by the Federal Maritime Commission. The Port Authority is also charged with the operations of an industrial water supply system, a water pollution control system and a water cooling lake. The Port Authority is comprised of Commissioners appointed by the Jackson County Board of Supervisors and the Governor of the State of Mississippi. The Commissioners set rules and regulations regarding policies of the Port Authority, but day-to-day operations are carried out by a Port Director and staff.

The Jackson County Port Authority is a component unit of Jackson County, Mississippi, the primary government. A primary government is a legal entity or body politic and includes all funds, organizations, institutions, agencies, departments and offices that are not legally separate. The Jackson County Port Authority has significant operational and functional relationships with Jackson County, Mississippi.

The financial statements of the Port Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units, hereinafter referred to as GAAP (generally accepted accounting principles). The accepted standard-setting body of establishing governmental accounting and financial reporting principles is GASB (the Governmental Accounting Standards Board).

The Port Authority does not have any component units as defined by GASB Statement No. 14, The Financial Reporting Entity, and GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units, an Amendment of GASB Statement No. 14.

#### **B.** Basis of Presentation

#### Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

#### Fund Financial Statements

Financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows/inflows, liabilities, net position/fund equity, revenues, and expenditures/expenses.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The Port Authority reports the difference between its governmental fund assets and deferred outflows of resources, and its liabilities and deferred inflows of resources, as fund balance.

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The proprietary funds are classified as enterprise funds.

Fiduciary funds are those used to account for funds held by the Port Authority in trust for others that cannot be used to support the Port Authority's programs.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. An emphasis is placed on major funds with the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Port Authority or meets the following criteria:

- ♦ Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are a least 10 percent of the corresponding total for all funds of that category or type, and
- The same element of the individual governmental fund or enterprise fund that met the 10 percent test is at least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- In addition, any other governmental or enterprise fund that the Port Authority believes is particularly important to financial statement users may be reported as a major fund.

The Port Authority reports the following major funds:

Major Governmental Funds

- Gross Receipts Operating Fund is the general operating fund of the Port Authority. It is used to account for all financial resources except those required to be accounted for in another fund.
- Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). During the year ended September 30, 2017, the Port Authority had two capital project funds: the Harbor Maintenance Fund and the Rail, Wood Pellet Fund.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Major Enterprise Funds

- Bayou Casotte Water System fund accounts for operations of the Port Authority's water distribution system.
- Singing River Island fund accounts for operations of the Singing River Island.
- Industrial Parks fund accounts for operations of the Industrial Parks.
- Black Creek Cooling Facility fund accounts for operations of the Port Authority's cooling facility.

The Port Authority reports the following non-major funds:

Non-Major Governmental Funds

- Special revenue funds are used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, (other than debt service or capital projects) as follows:
  - ♦ Port Day Fund
  - ♦ Transportation Security Administration Round 2 Fund
  - ♦ Transportation Security Administration Round 3 Fund
- Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest and related costs, other than enterprise debt. Currently, there is one debt service fund, the Bond Redemption fund.

In addition, the Port Authority reports the following fund types:

Fiduciary Funds

• The Mississippi Corps of Engineers fund is a private-purpose trust fund which is used to report all other trust arrangements under which principal and/or income benefit individuals, private organizations or other governments. The purpose of the fund is to make improvements to the channel. Angola LNG will be making the improvements and the Jackson County Port Authority is the channel sponsor.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Port Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Intergovernmental aids and grants are recognized as revenues in the period the Port Authority is entitled to the resources and the amounts are available. Amounts owed to the Port Authority which are not available are recorded as receivables and unearned revenues. Amounts received prior to the entitlement period are also recorded as unearned revenues.

The Port Authority reports unearned revenues on its governmental funds balance sheet. Unearned revenues arise from taxes levied in the current year which are for subsequent year's operations. For governmental fund financial statements, unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received before the Port Authority has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Port Authority has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The enterprise funds follow all pronouncements of the Governmental Accounting Standards Board. The proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### D. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position/Fund Balances

### Deposits

The Port Authority deposits excess funds in the financial institution selected by the Board of Commissioners. The Port Authority considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. All cash and cash equivalents are reported at their carrying amounts, which reasonably approximates fair value.

#### Receivables

All trade receivables are reported net of an allowance for uncollectible, where applicable. Unbilled charges are accrued as receivables and revenue at September 30, 2017.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items, such as prepaid insurance, are not reported for Governmental Fund Types since the costs of such items are accounted for as expenditures in the period of acquisition.

#### Capital Assets

General capital assets are those capital assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The Port Authority reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital position utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise funds' statement of net position.

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the Port Authority's historical records of necessary improvements and replacement. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	20-50 years
Water systems	30-35 years
Machinery and equipment	5-10 years
Improvements	5-35 years
Other infrastructures	10-50 years
Vehicles	5 years

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The Port Authority has a deferred outflow which is presented as a deferred outflow of resources related to pension obligations.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The Port Authority has a deferred inflow which is presented as a deferred inflow of resources related to pension obligations and unavailable revenue. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

134

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Compensated Absences

Vacation benefits and sick leave are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the Port Authority will compensate the employees for the benefits through paid time off or some other means.

All compensated absences liabilities include salary-related payments, where applicable.

The Port Authority accrues accumulated unpaid vacation leave at the end of the fiscal year. The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated liability at the fund reporting level only "when due". The non-current portion (the amount estimated to be used beyond the next fiscal year) for governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations.

The Port Authority's policy allows employees to accumulate unused sick leave on an unlimited basis and vacation leave up to two years before reaching their vacation 'cap'. Upon termination, any accumulated vacation will be paid to the employee up to 240 hours. Any earned vacation hours in excess of 240 hours is certified and sent to the Public Employees Retirement System (PERS). Sick leave is not paid upon termination, however, any unused sick time is also certified and sent to PERS.

### Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Capital leases are recognized as a liability in the governmental fund financial statements when due.

#### Debt Premiums, Discounts and Issuance Costs

On the government-wide statement of net position and the proprietary fund type statement of net position, debt premiums and discounts are netted against debt payable and debt issuance costs are recognized as an outflow of resources in the period incurred. On the government-wide and proprietary fund type statement of activities, unamortized debt premiums and discounts are deferred and amortized over the life of the debt using the straight-line method.

At the governmental fund reporting level, debt fund reporting level, debt premiums and discounts are reported as other financing sources and uses, separately from the face amount of the debt issued. Debt issuance costs are reported as debt service expenditures.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Mississippi Public Employees' Retirement System and additions to/deductions from the Systems' fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Net Position/Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

In the Government-Wide financial statements, the difference between the Port Authority's total assets and deferred outflows of resources, total liabilities and deferred inflows of resources represents net position. Net position displays three components:

- Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, constructions or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditor, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position not meeting the definition of "restricted" or "invested in capital assets, net of related debt." Unrestricted net position represents the net position available for future operations.

Generally, governmental fund balances represent the difference between assets and deferred outflows of resources, liabilities and deferred inflows of resources. Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Includes amounts that cannot be spent. This includes amounts that are either not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds from the collection of those receivables or from the sale of those properties are restricted, committed or assigned) or amounts that are legally or contractually required to be maintained intact, such as a principal balance of a permanent fund.
- Restricted Includes amounts that have constraints placed upon the use of the resources either by external party or imposed by law through a constitutional provision or enabling legislation.
- Committed Includes amounts that can be used only for specific purposes pursuant to constraints imposed by a formal action of the Board of Commissioners as approved in the board minutes.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Assigned Includes amounts that are constrained by the Port Authority's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this the residual amount within the fund that is not classified as nonspendable and is neither restricted nor committed.
- Unassigned Is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the Port Authority's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the Port Authority's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

The Port Authority has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

Revenue Source: Legal Restrictions in Use of Fur	nds:
Grant revenue from Jackson County, MS  Debt service and capital improvements.	rements
Grant revenue from the State of Mississippi Capital improvements	
Lease income from Signal International, LLC Channel dredging	
Grant revenue from Economic Development Foundation Capital improvements	
Grant revenue from Transportation Security Administration Security improvements	

For the year ended September 30, 2017, the Port Authority complied, in all material respects, with these revenue restrictions.

The Port Authority does not have a minimum fund balance policy.

#### Revenues

Substantially all governmental fund revenues are accrued. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue based on GASB Statement No. 33. In applying GASB Statement No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and unearned revenue by the recipient.

#### Expenditures

Expenditures are recognized when the related fund liability is incurred.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Internal Activity

Quasi-external transactions are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund from which expenditures were initially made that are properly applicable to another fund are recorded as expenditures in the fund that is reimbursed. Outstanding reimbursements are recorded as due to or from other funds. Net receivables or payables from other funds are reported as internal balances in the government-wide statement of net position.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

#### Use of Estimates

The preparation of the financial statement in conformity with account principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### New GASB Pronouncements

The Governmental Accounting Standards Board has issued the following new pronouncement that the Port Authority has reviewed for application to their accounting and reporting.

GASB Statement No. 82, Pension Issues, an Amendments of GASB Statements No. 67, No. 68, and No. 73, is effective for the periods beginning after June 15, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The Port Authority has implemented this reporting requirement for the year ended September 30, 2017.

#### NOTE 2. DEPOSITS

State law requires that all deposits in excess of FDIC insurance limits be 105% collateralized by U.S. Government obligations or by state municipal obligations that have a market value of not less than the principal amount of the deposits. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State legislature and is governed by Section 27-1-5-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer.

Financial Institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 2. DEPOSITS (continued)

At year-end, the carrying amount of the Port Authority's deposits was \$29,900,979, and the respective bank balances totaled \$29,958,428. The bank balance is categorized as follows:

Amount collateralized with securities held in the State of Mississippi collateral pool on behalf of the Port Authority \$29,708,428

Amounts held at various financial institutions covered under Federal Depository Insurance

250,000 \$ 29,958,428

The Port Authority's deposits were fully collateralized as required by statutes at September 30, 2017.

The table presented below is a summary of restricted cash at September 30, 2017:

	Restricted Ca	ash
Bayou Casotte Water System - Cash held in escrow	\$ 33,5	504
Harbor Maintenance	8,771,4	174
Rail, Wood Pellet	8,614,0	554
Unemployment Fund Reserve	15,0	<u>000</u>
Total restricted cash	\$ 17,434,	532

#### NOTE 3. CONCENTRATION OF CREDIT RISK

#### A. Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of the failure of a financial institution, the Port Authority will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Port Authority does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the Port Authority. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the Port Authority.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

### NOTE 4. ACCOUNTS RECEIVABLE

Accounts receivable at September 30, 2017 consisted of the following:

	Accounts Receivable	Allowance for Uncollectible Accounts	Net Accounts Receivable	
Governmental Activities:				
Terminal Operations	\$ <u>1,928,756</u>	260,669	<b>1,668,</b> 087

Other liabilities: Compensated absences	_	58,508		(6,067)	52,441	
Total business-type activities long-term liabilities	\$	36,790,251		7,465	36,797,716	_

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 6. LONG-TERM LIABILITIES (continued)

## A. General Obligation Bonds

Series 1994 Refunding – During November 1994, \$12,840,000 of General Obligation Bonds were issued to advance refund the Series A and Series B revenue bonds for the Bayou Casotte Water System (an enterprise fund). The bonds are carried on the balance sheet of the fund. The interest rates are variable and subject to change pursuant to a remarketing agreement. Chevron USA, Inc. has guaranteed the payment of principal and interest on these bonds.

Associated with this bond is an unamortized discount arising from the refunding. This discount is being amortized over the remaining life of the refunded bonds using the straight-line method. The detail balance of this General Obligation Bond as of September 30, 2017 is as follows:

Bonds Payable	\$ 12,840,000
Unamortized discount	 (94,725)
	\$ 12,745,275

## **B.** Special Obligation Bonds

Series 2009 Special Obligation - During December 2009, \$24,000,000 of Special Obligation Bonds were issued to provide funds to expand and improve the industrial water supply system established by Jackson County and the Port Authority and to provide water to various industries in Jackson County. The bonds are carried on the balance sheet of the Bayou Casotte fund. The interest rates are variable and subject to change pursuant to a remarketing agreement. Chevron USA, Inc. has guaranteed the payment of principal and interest on these bonds. In case of default by Chevron USA, Inc., the Port Authority is responsible for the payment of principal and interest of this debt from water revenues.

Annual debt service requirements to maturity for the general and special obligation bonds are as follows:

	Business-type Activities		
	Principal	Interest*	
Amounts due fiscal year ending September 30,			
2018	\$ -	70,620	
2019	-	70,620	
2020	-	70,620	
2021	-	70,620	
2022	-	70,620	
2023 - 2040	36,840,000	1,271,160	
Total	\$ 36,840,000	1,624,260	

<sup>\*</sup> Interest is estimated based on rates at September 30, 2017 for both the 1994 Refunding bonds and the 2009 Special Obligation bonds.

Governmental Activit	ies:							
General Fund	\$			54,579	100,000	2,000	61,565	218,144
Total	\$			54,579	100,000	2,000	61,565	218,144

Transfers are used to (a) move revenues from the fund that statute or budget requires collecting to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.

#### NOTE 9. PENSIONS

#### A. Defined Benefit Pension Plan

## Plan Description

The Port Authority contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

# NOTE 9. PENSIONS (continued) Benefits Provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

#### **Contributions**

PERS members are required to contribute 9.00% of their annual covered salary and the Port Authority is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2017 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature.

The Port Authority's contribution to PERS for the years ended September 30, 2017, 2016, and 2015 were \$463,312, \$460,853, and \$436,597 respectively, which equal to the required contributions for each year.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 9. PENSIONS (continued)

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows or Resources Related to Pensions

At September 30, 2017, the Port Authority reported a liability of \$8,311,698 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Port Authority's proportion of the net pension liability was based on a projection of the Port Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the Port Authority's proportion was 0.05 percent, which was unchanged from its proportion measured as of June 30, 2016.

For the year ended September 30, 2017, the Port Authority recognized pension expense of \$1,386,657. At September 30, 2017, the Port Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ 119,412	60,646
Changes of assumptions	184,737	14,163
Net difference between projected and actual earnings on pension plan		
investments	-	106,715
Changes is proportion and differences between Port Authority contributions		
and proportionate share of contributions	625,242	-
Port Authority contributions subsequent to the measurement date	104,798	
Total	\$ 1,034,189	181,524

\$104,798 reported as deferred outflows of resources related to pensions resulting from Port Authority contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ending September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30,:	
2018	\$ 513,763
2019	389,721
2020	4,933

Total	\$ 747,867

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 9. PENSIONS (continued)

## Actuarial assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary increases 3.75-18.50%, including inflation

Investment rate of return 7.75%, net of pension plan investments expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with males rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2017, are summarized in the following table:

	<b>T</b>	Long-term
	Target	expected real
Asset class	Allocation	rate of return
U.S. Broad	27.00 %	4.60
International equity	18.00	4.50
Emerging markets equity	4.00	4.75
Global	12.00	4.75
Fixed income	18.00	0.75
Real assets	10.00	3.50
Private equity	8.00	5.10
Emerging debt	2.00	2.25
Cash	1.00	
Total	100.00 %	

## Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 9. PENSIONS (continued)

## Sensitivity of the Port Authority's proportionate share of the net pension liability to changes in the discount rate

The following table presents the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

C-----

	10	√ Decrease	1% Increase	
		(6.75%)	Discount Rate (7.75%)	(8.75%)
Port Authority's proportionate share of the net pension		_		
liability	\$	10,901,346	8,311,698	6,161,726

## Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

#### NOTE 10. COMMITMENTS AND CONTINGENCIES

#### A. Federal Grants

The Port Authority participates in certain federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any liability for reimbursement which may arise as the result of these audits is not believed by management to be material.

## **B.** Litigation

The Port Authority is party to legal proceedings that occur in the normal course of operations. Estimates of ultimate outcome or liability, if any, is not possible at the present time. However, the Port Authority's legal counsel believes that ultimate liability resulting from lawsuits will not have a material adverse effect on the financial condition of the Port Authority.

## C. Risk Management

The Port Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Port Authority carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## D. Operating Leases

The Port Authority operates several leases that are no money leases. These leases are meant to benefit the City of Pascagoula, Jackson County, Mississippi, and the Port Authority. The Port Authority cannot sublease these leases.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

#### NOTE 11. OPERATING LEASES IN STATEMENTS OF LESSOR

The Port Authority leases various properties to several lessees during the year. These lease agreements are classified as operating leases for accounting purposes and paid on a monthly, quarterly, and yearly basis with corresponding renewal options. The leased properties have a cost of \$48,726,047 with a carrying value of \$26,005,201.

The future minimum lease rentals are as follows:

	Min	imum lease rental
Year ending September 30,		
2018	\$	869,012
2019		869,012
2020		869,012
2021		844,013
2022		844,013
Total	\$	4,295,062

#### NOTE 12. RELATED PARTY TRANSACTIONS

Jackson County, Mississippi, of which the Port Authority is a component unit, has issued general long-term debt under the Port Act under Title 59 of the Mississippi Code of 1972. There was one general obligation bond and one special obligation bond outstanding as of September 30, 2017, with a combined balance of \$36,745,275. All of this debt is administered by the Jackson County Chancery Clerk's office, and all payments thereon are provided by Jackson County with the exception of the \$12,840,000 bonds payable in the business-type funds. Payment of this debt will be managed by Chevron when due.

## NOTE 13. INDIVIDUAL FUND FINANCIAL STATEMENTS

The financial statements for the Bayou Casotte Industrial Water System and the Black Creek Cooling Facility – Operating Fund were issued individually to comply with provisions of their respective authorizing bond resolutions.

## NOTE 14. DEFICIT FUND BALANCES

The Bayou Casotte Water Supply System Fund, which is presented in the financial statements as an enterprise fund had a deficit fund net position of \$10,023,176 as of September 30, 2017.

(A Component Unit of Jackson County, Mississippi) NOTES TO BASIC FINANCIAL STATEMENTS September 30, 2017

## NOTE 15. SUBSEQUENT EVENTS

Events that occur after the statement of net position date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes. Management of the Port Authority evaluated the activity of the entity through February 1, 2018, the date that the financial statements. The following items were noted:

♦ In December 2015, the Port Authority and Jackson County, Mississippi entered into a debt service agreement in which the County agreed to issue up to \$24,000,000 in general obligation bonds to be used for construction of the wood pellet facility and rail navigation. The Port Authority agreed to make all payments of principal and interest, as they become due. As of the date of this report, the bonds have not been issued.

## Component Unit Jackson-George Regional Library System

Notes to the Financial Statements For the year ended September 30, 2017

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

The Jackson-George Regional Library System (the Library System) was created through a contract between Jackson and George counties. The Library System is managed by a regional Board of Trustees, who are appointed by the Board of Supervisors of each county. The Regional Board sets policies and budgets for the eight libraries in the System. The Library System is funded primarily by the tax levies of the counties and cities included in the System.

The financial statements of the Library System have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units, hereinafter referred to as GAAP (generally accepted accounting principles). The accepted standard-setting body of establishing governmental accounting and financial reporting principles is GASB (the Governmental Accounting Standards Board).

The Library System does not have any component units as defined by GASB Statement No. 14, The Financial Reporting Entity, and GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units, an Amendment of GASB Statement No. 14.

#### **B.** Basis of Presentation

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

#### Fund Financial Statements

Financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, net position/fund equity, revenues, and expenditures/expenses.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The Library System reports the difference between its governmental fund assets and deferred outflows of resources, and its liabilities and deferred inflows of resources, as fund balance.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Funds are organized as major funds or non-major funds within the governmental statements. An emphasis is placed on major funds with the governmental categories. A fund is considered major if it is the primary operating fund of the Library System or meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are a least 10 percent of the corresponding total for all funds of that category or type, and
- ♦ The same element of the individual governmental fund or enterprise fund that met the 10 percent test is a least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- In addition, any other governmental or enterprise fund that the Library System believes is particularly important to financial statement users may be reported as a major fund.

The Library System reports the following major funds:

General fund is the general operating fund of the Library System. It is used to account for all financial resources except those required to be accounted for in another fund.

Grants Management fund (special revenue fund) is used to account for the proceeds of specific revenue sources from grants that are legally restricted to expenditures for specified purposes.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library System considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

County taxes associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Library System.

## D. Assets, Liabilities, Deferred Outflows/Inflows, and Net Position/Fund Balances

#### **Deposits**

The Library System deposits excess funds in the financial institution selected by the Board of Trustees. Cash deposits are reported at carrying amounts which reasonably estimate fair value.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Receivables and Payables

All receivables and payables are shown at their net realizable value. Management expects to collect entire amounts due and therefore has not established an allowance for uncollectible accounts.

## Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items, such as prepaid insurance, are not reported for Governmental Fund Types since the costs of such items are accounted for as expenditures in the period of acquisition.

#### Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Furniture and fixtures 5 years Computer equipment 5 years Library materials 5 years

#### Compensated Absences

Paid annual leave is granted to salaried employees regularly scheduled to work 20 or more hours per week. Annual leave is accumulated based on a full-time 37.5 hour work week and is earned in varying amounts depending on the years of service with the Library System. After six full calendar months of continuous service, the employee will be paid for earned but unused annual leave up to a maximum of 240 hours. Additional accrued annual leave is credited to the State Retirement. The maximum amount that can be credited to the State Retirement is 11,200 hours of combined accrued unused sick and annual leave. The employee may elect to have all earned but unused annual leave credited to State Retirement.

Paid sick leave is granted to all salaried employees regularly scheduled to work 20 or more hours per week. Sick leave is accumulated at a rate of 120 hours per year based on a full-time 37.5 hour workweek. Employees can only be paid for sick leave for actual time missed due to qualified sick leave absences. Upon termination, no payment is made to employees for accumulated sick leave; however, the unused hours are credited to State Retirement. As stated above, the maximum amount of combined accrued unused annual and sick leave that may be credited to State Retirement is 11,200 hours.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Mississippi Public Employees' Retirement System and additions to/deductions from the Systems' fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Revenues

Substantially all governmental fund revenues are accrued. In applying GASB Statement No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient. Fines are recognized as revenue when they are considered measurable, or at the time of receipt.

#### **Expenditures**

Expenditures are recognized when the related fund liability is incurred.

## Net Position/Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

In the Government-Wide financial statements, the difference between the Library System's total assets and deferred outflows of resources, total liabilities and deferred inflows of resources represents net position. Net position displays three components:

- Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, constructions or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditor, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position not meeting the definition of "restricted" or "invested in capital assets, net of related debt." Unrestricted net position represents the net position available for future operations.

Generally, governmental fund balances represent the difference between assets and deferred outflows of resources, liabilities and deferred inflows of resources. Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Includes amounts that cannot be spent. This includes amounts that are either not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds from the collection of those receivables or from the sale of those properties are restricted, committed or assigned) or amounts that are legally or contractually required to be maintained intact, such as a principal balance of a permanent fund.
- Restricted Includes amounts that have constraints placed upon the use of the resources either by external party or imposed by law through a constitutional provision or enabling legislation.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Committed Includes amounts that can be used only for specific purposes pursuant to constraints imposed by a formal action of the Board of Trustees as approved in the board minutes.
- Assigned Includes amounts that are constrained by management of the Library System's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not classified as nonspendable and is neither restricted nor committed.
- Unassigned Is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the Library Systems's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the Library's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

The Library System does not have a minimum fund balance policy.

#### Internal Activity

Quasi-external transactions are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund from which expenditures were initially made that are properly applicable to another fund are recorded as expenditures in the fund that is reimbursed. Outstanding reimbursements are recorded as due to or from other funds. Net receivables or payables from other funds are reported as internal balances in the government-wide statement of net position.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The Library System has a deferred outflow which is presented as a deferred outflow of resources related to pension obligations.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The Library System has a deferred inflow which is presented as a deferred inflow of resources related to pension obligations and unavailable revenue. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### New GASB Pronouncements

The Governmental Accounting Standards Board has issued the following new pronouncement that the Library System has reviewed for application to their accounting and reporting.

GASB Statement No. 82, Pension Issues, an Amendments of GASB Statements No. 67, No. 68, and No. 73, is effective for the periods beginning after June 15, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The Library System has implemented this reporting requirement for the year ended September 30, 2017.

#### NOTE 2. DEPOSITS

State law requires that all deposits in excess of Federal Deposit Insurance Corporation (FDIC) limits be 105% collateralized by U.S. Government obligations or by state municipal obligations that have a fair value of not less than the principal amount of the deposits. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State legislature and is governed by Section 27-1-5-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer.

Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 2. DEPOSITS (continued)

Deposits at September 30, 2017, are as follows:

	Go	vernmental Funds	Wide	Statement et Position
Cash on hand Bank deposits	\$	413 1,190,864		413 1,190,864
Total	\$	1,191,277		1,191,277
At year-end, the carrying amount of the Library System's deposits was \$1,190,5 totaled \$1,350,781. The bank balance is categorized as follows:	864, ar	nd the respecti	ve bank	x balances
Amount collateralized with securities held in the State of Mississippi collaterathe Library System	ıl pool	on behalf of	\$	1,100,781
Amounts held at various financial institutions covered under Federal Deposito	ry Insi	urance		
			\$	250,000 1,350,781

#### NOTE 3. CONCENTRATIONS OF CREDIT RISK

## A. Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of the failure of a financial institution, the Library System will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Library System does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the Library System. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the Library System.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 4. CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2017, was as follows:

	]	Beginning			Ending
		Balance Increases		Decreases	Balance
Governmental Activities:		_			
Library materials	\$	7,415,068	453,302	-	7,868,370
Furniture and equipment		402,825	-	-	402,825
Computer equipment	_	309,243	10,184	(49,417)	270,010
Total capital assets	_	8,127,136	463,486	(49,417)	8,541,205
Less accumulated depreciation for:					
Library materials		6,107,459	371,422	-	6,478,881
Furniture and equipment		382,621	6,187	-	388,808
Computer equipment	_	136,020	49,219	(45,770)	139,469
Total accumulated depreciation	_	6,626,100	426,828	(45,770)	7,007,158
Total capital assets, net	\$_	1,501,036	36,658	(3,647)	1,534,047

Depreciation expense was charged to programs for the year ended September 30, 2017, as follows:

#### Governmental activities:

General government	\$ 426,828
Total current year depreciation expense	\$ 426,828

## NOTE 5. ACCOUNTS PAYABLE

Payables are composed of amounts due to vendors within 60 days of year end and accrued salaries and benefits.

## NOTE 6. LONG-TERM LIABILITIES

Long-term liability activity for the year ended September 30, 2017, is shown as follows:

Long-Term Obligations	Beginning balance	Additions	Reductions	Ending balance	Amount due within one year
Governmental Activities:					
Compensated Absences	\$ <u>155,389</u>		<u>-</u>	155,389	77,695
Total government activities	\$ 155,389			155,389	77,695

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

#### NOTE 7. INTERFUND BALANCES

The composition of inter fund balances as September 30, 2017 is as follows:

Due to/from other funds:

Receivable Fund	Payable Fund	<u>A</u>	mount
General Fund	Non-major Funds	\$	6,000
Non-major Funds	General Fund		12,691
Total Internal Balances		\$	18,691

#### NOTE 8. INTERFUND TRANSFERS

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

At September 30, 2017, transfers to/from other funds consist of the following:

Transfer from Grants Management Fund to General Fund for expenditures paid on behalf of the Grants Management Fund \$\frac{17,111}{17,111}\$

Total Transfers to/from other funds \$\frac{17,111}{17,111}\$

#### NOTE 9. PENSION PLAN

#### A. Defined Benefit Pension Plan

## Plan Description

The Jackson-George Regional Library System contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 9. PENSION PLAN (continued)

#### Benefits Provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

#### **Contributions**

PERS members are required to contribute 9.00% of their annual covered salary and the Jackson-George Regional Library System is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2017 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature.

The Jackson-George Regional Library System's contribution to PERS for the year ended September 30, 2017, 2016, and 2015 was \$326,930, \$323,364, and \$323,513 respectively, which equal to the required contributions for each year.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the Library System reported a liability of \$5,319,486 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Library System's proportion of the net pension liability was based on a projection of the Library System's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the Library System's proportion was 0.032 percent, which was unchanged from its proportion measured as of June 30, 2016.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 9. PENSION PLAN (continued)

For the year ended September 30, 2017, the Library System recognized pension expense of \$572,585. At September 30, 2017, the Library System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	
		Outflows of	<b>Deferred Inflows</b>
		Resources	of Resources
Differences between expected and actual experiences	\$	76,424	38,815
Net difference between projected and actual earnings on pension plan			
investments		-	68,298
Changes of assumptions		118,232	9,065
Changes is proportion and differences between Library System contributions		-	84,566
and proportionate share of contributions			
Library system contributions subsequent to the measurement date	_	79,401	
Total	\$_	274,057	200,744

\$79,401 reported as deferred outflows of resources related to pensions resulting from Library System contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Year ended September 30,

2018	\$	26,160
2019		65,109
2020		5,398
2021		(102,755)
2022		-
Thereafter		<u> </u>
Total	\$ <u></u>	(6,088)

## Actuarial assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75-18.50%, including inflation
Investment rate of return	7.75%, net of pension plan investments expense,
	including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with males rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 9. PENSION PLAN (continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target Allocation	Long-term expected real rate of return
U.S. Broad	27.00 %	4.60
International equity	18.00	4.50
Emerging markets equity	4.00	4.75
Global	12.00	4.75
Fixed income	18.00	0.75
Real assets	10.00	3.50
Private equity	8.00	5.10
Emerging debt	2.00	2.25
Cash	1.00	
Total	100.00 %	

#### Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Library System's proportionate share of the net pension liability to changes in the discount rate

The following presents the Library System's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Library System's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate:

	Current			
	1%	% Decrease (6.75%)	Discount Rate (7.75%)	1% Increase (8.75%)
Library System's proportionate share of the net pension				
liability	\$	6,976,861	5,319,486	3,943,505

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 9. PENSION PLAN (continued)

#### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

#### NOTE 10. DEFERRED COMPENSATION PLAN

Employees of the Library System are eligible to participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code (IRC) Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

Under the deferred compensation plan, which is available to all employees of the Library System, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portions until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency. The deferred compensation plan is administered by the Board of Trustees of the Public Employees Retirement System of Mississippi. The plan's assets are held in trust by the Public Employees Retirement System of Mississippi for the exclusive benefit of the participants and beneficiaries of the plan and are not subject to the general creditors of the Library System. As a result, the plan's assets are not reflected in an agency fund of the Library.

#### NOTE 11. COMMITMENTS AND CONTINGENCIES

## A. Litigation

The Library System is party to legal proceedings that occur in the normal course of operations. Estimates of ultimate outcome or liability, if any, is not possible at the present time. However, the Library System's legal counsel believes that ultimate liability resulting from lawsuits will not have a material adverse effect on the financial condition of the Library System.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

#### NOTE 12. FUNDING

The Library System receives funding from the Mississippi Library Commission. Federal funds are provided through a grant to the Mississippi Library Commission from the Institute of Museums and Library Services (CFDA No. 45.310), under the Library Services and Technology Act (LSTA). State funds are provided through the Mississippi State Legislature in the following bills: Senate Bill 3158-2001, Senate Bill 3315-2000, and House Bill 1672-1999.

Funds received from the Mississippi Library Commission for the year ended September 30, 2017 on the cash basis are as follows:

Grant #	Source	Program	Amount
SH17-360-18-0	State	Health insurance	\$ 240,122
SH18-360-18-0	State	Health insurance	42,720
Total health insurance grant			282,842
SP17-362-18-0	State	Personnel incentive	144,685
SP18-362-18-0	State	Personnel incentive	39,548
Total personnel incentive grant			184,233
SL17-361-18-0	State	Life insurance	3,103
SL18-361-18-0	State	Life insurance	577
Total life insurance grant			3,680
	Total Sta	ate Funding	\$ 470,755
Grant #	Source	Program	Amount
FIT14-000-18-0	Federal	ILL Transport Cooperative	\$ 26,216
FSR17-247-18-0	Federal	Services/Resources	1,987
	Total Fe	deral Funding	\$ 28,203

The Jackson-George Regional Library System also receives federal funding from the Federal Communications Commission, Administered through the Universal Service Administrative Company (E-Rate) under CFDA: 32.001. Funding received, on the cash basis, for the year ended September 30, 2017 was \$108,753.

#### NOTE 13. CONCENTRATION OF REVENUES

The Library is dependent on Jackson and George Counties and component cities and the Mississippi Library Commission for the majority of the funding necessary for its operations. Significant changes in the level of funding from these sources could have a favorable or unfavorable impact on the operating results of the Library.

NOTES TO BASIC FINANCIAL STATEMENTS For the Year Ended September 30, 2017

## NOTE 14. PRIOR PERIOD ADJUSTMENT

A prior period adjustment of \$47,576 was made to correct September 30, 2016 net position related to the understatement of accounts receivable.

Net position, September 30, 2016 as originally presented	\$ (2,333,798)
Understatement of accounts receivable	47,576
Net position as restated, September 30, 2016	\$ (2,286,222)

## NOTE 15. SUBSEQUENT EVENTS

Events that occur after the statement of net position date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net position date are recognized in the accompanying financial statements. Subsequent events that provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes. Management has evaluated subsequent events through January 12, 2018, the date that the financial statements were made available for issue and has determined that there are no additional adjustments and/or disclosures required.

<sup>\*</sup> This schedule is presented to illustrate the requirement to show information for 10 years. However, GASB Statement No. 68 was was implemented for the fiscal year ended September 30, 2015, and, until a full 10 year trend is compiled, the County has only presented information for the years in which information is available.

The accompanying notes to the Required Supplementary Information are an integral part of this schedule.

## Jackson County, Mississippi

Notes to the Required Supplementary Information For the year ended September 30, 2017

## **Budgetary Comparison Schedules**

## A. Budgetary Information.

Statutory requirements dictate how and when the County's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the County, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor-Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The County's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

## B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplemental information.

## C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

- 1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and each major Special Revenue Fund:

## Jackson County, Mississippi

Notes to the Required Supplementary Information For the Year Ended September 30, 2017

## **Governmental Fund Types**

	(	General Fund	Road Fund
Budget (Cash Basis)		9,969,206	1,765,167
Increase (Decrease)			
Net adjustments for revenue accruals		(111,108)	6,677
Net adjustments for expenditure accruals		871,333	(646,833)
GAAP Basis	\$	10,729,431	1,125,011

## Pension Schedules

## A. Changes of assumptions.

## 2015

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

## 2016

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

#### 2017

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

## Jackson County, Mississippi

Notes to the Required Supplementary Information For the Year Ended September 30, 2017

The Wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

(2) Change in Benefit Provisions.

2016:

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

Plan fiduciary net position - beginning of year	130,631,000	137,412,999
Plan fiduciary net position - end of year	125,010,981	130,631,000
Net pension liability - end of year	\$ 326,429,747	\$ 332,998,088
Plan fiduciary net position as a percentage of total pension liability	27.7%	28.2%
Covered-employee payroll	N/A	N/A
Net pension liability as a percentage of covered-employee payroll	N/A	N/A

## Notes to Schedule:

Benefit changes - In November 2014, benefit terms were modified to freeze benefit accruals for all participants.

Changes of assumptions - In fiscal 2015, amounts reported as changes in assumptions resulted primarily from changes in the discount rate, due to changes in benchmark municipal bond index rates.

#### **Pension Schedules**

## Changes of assumptions:

- 2017
  - O The expectation of retired life mortality was changed to the RP-2014 Healthy "Annuitant Blue Collar Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.
  - o The wage inflation assumption was reduced from 3.75% to 3.25%
  - O Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.
  - O The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.
- 2016
  - The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.
- 2015
  - O The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.
  - O The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.
  - Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.
  - Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.
  - O The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

# Changes in benefit provisions:

- 2016
  - Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

# West Jackson County Utility District (A Component Unit of Jackson County, Mississippi)

Notes to the Required Supplementary Information For the Year Ended September 30, 2017

# Method and assumptions used in calculations of actuarially determined contributions:

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2015 valuation for the June 30, 2017 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method

Amortization method

Remaining amortization period

Asset valuation method

Price inflation Salary increase

Investment rate of return

Entry age

Level percentage of payroll, open

33.9 years

5-year smoothed market

3.00 percent

3.75 percent to 19.00 percent, including inflation

7.75 percent, net of pension plan investment

expense, including inflation

(A Component Unit of Jackson County, Mississippi)
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended September 30, 2017

#### NOTE 1. BUDGETS AND BUDGETARY ACCOUNTING

## A. Budgets and Budgetary Accounting

Statutory requirements dictate how and when the Port Authority's budget is to be prepared. Generally, during September, a budget is prepared by the Port Authority's management and submitted to the Board of Commissioners for approval. The completed budget for the fiscal year includes for all funds every source of revenue, each general item of expenditure, and unencumbered cash and investment balances. On a periodic basis, as required by changing conditions, the budgeted amounts are amended. Annual legally adopted operating budgets are not adopted for special revenue funds.

The Port Authority's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year-end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

## B. Basis of Presentation

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP, Cash Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP, Cash Basis) and variance between the final budget and the actual amounts. The schedule is presented for the Gross Operating Receipts Fund of the Port Authority. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP, Cash Basis) is a part of required supplemental information.

#### C. Excess of Expenditures over Appropriations (Budget)

There were no expenditures in excess of appropriations (budget) for the fiscal year ended September 30, 2017.

#### **NOTE 2. PENSION SCHEDULES**

## A. Changes of Benefit Terms

None.

## B. Changes of Assumptions

Salary changed from 3.75 - 19.00%, including inflation to 3.75 - 18.50%

# SINGING RIVER MENTAL HEALTH / MENTAL RETARDATION SERVICES SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2017

#### Note A – Basis of Presentation

The Schedule of Expenditures of Federal Awards (the Schedule) includes federal grants passed through the Mississippi Department of Mental Health for the year ending June 30, 2017. The information presented in this Schedule is in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Due to the fact that the Schedule only presents a portion of the operations of the Agency, it is not intended to, nor does it present the financial position, changes in net assets or cash flows of the Agency. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

## Note B – Summary of Significant Accounting Policies

The Schedule is reported on the accrual basis of accounting. Singing River Mental Health/Mental Retardation Services uses the accrual basis of accounting for the basic financial statements.

#### 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grant activity of Singing River Health System (the "Health System") under programs of the federal government for the year ended September 30, 2017. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Because the schedule presents only a selected portion of the operations of the Health System, it is not intended to and does not present the financial position, changes in net position or cash flows of the Health System.

## 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement.

The Health System has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

## 3. Contingencies

The Health System's federal programs are subject to financial and compliance audits by grantor agencies which, if instances of material noncompliance are found, may result in disallowed expenditures and affect its continued participation in specific programs. The amount, if any, of expenditures, which may be disallowed by the grantor agencies, cannot be determined at this time. However, the Health System expects such amounts, if any, to be immaterial.

#### SPECIAL REPORTS

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Supervisors Jackson County, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Jackson County, Mississippi, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated May 16, 2018. Our report includes a reference to other auditors who audited the financial statements of Singing River Health / Mental Retardation Services, Jackson County Port Authority, Singing River Health System, West Jackson County Utility District, Jackson County Emergency Communications District and Jackson-George Regional Library System, as described in our report on the Jackson County, Mississippi financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Jackson County, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jackson County, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs as 2017-001 that we consider to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Jackson County, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Jackson County's Response to Finding**

Jackson County's response to the finding identified in our audit is described in the accompanying Auditee's Corrective Action Plan. Jackson County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Members of the Board of Supervisors Jackson County, Mississippi

#### Report on Compliance for Each Major Federal Program

We have audited Jackson County, Mississippi's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Jackson County, Mississippi's major federal programs for the year ended September 30, 2017. Jackson County, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Ouestioned Costs.

Jackson County's basic financial statements include the operations of the Jackson County Port Authority, Singing River Health System and Singing River Mental Health / Mental Retardation Services and, which received \$1,884,370, \$3,601,987 and \$776,948, respectively, in federal awards which is not included in the schedule during the year ended September 30, 2017. Our audit, described below, did not include the operations of the Port Authority because this component unit engaged another auditor to perform an audit in accordance with the Uniform Guidance.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Jackson County, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jackson County, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Jackson County, Mississippi's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Jackson County, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2017.

#### **Report on Internal Control Over Compliance**

Management of Jackson County, Mississippi is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Jackson County, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jackson County, Mississippi's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

## INDEPENDENT ACCOUNTANT'S REPORT ON CENTRAL PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND PURCHASE CLERK SCHEDULES (REQUIRED BY SECTION 31-7-115, MISS. CODE ANN. (1972))

Members of the Board of Supervisors Jackson County, Mississippi

We have examined Jackson County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with Sections 31-7-101 through 31-7-127, Miss. Code Ann. (1972) and compliance with the purchasing requirements in accordance with the bid requirements of Section 31-7-13, Miss. Code Ann. (1972) during the year ended September 30, 2017. The Board of Supervisors of Jackson County, Mississippi, is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Jackson County, Mississippi, has established centralized purchasing for all funds of the County and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

In our opinion, Jackson County, Mississippi, complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2017.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with Section 31-7-115, Miss. Code Ann. (1972). The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned examination and, in our opinion, is fairly presented in relation to that examination.

1929 SPILLWAY ROAD, SUITE B BRANDON, MISSISSIPPI 39047 TELEPHONE 601-992-5292 FAX 601-992-2033 This report is intended for use in evaluating Jackson County, Mississippi's compliance with the aforementioned requirements, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

### LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

Members of the Board of Supervisors Jackson County, Mississippi

In planning and performing our audit of the financial statements of Jackson County, Mississippi for the year ended September 30, 2017, we considered Jackson County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Jackson County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the County's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated May 16, 2018, on the financial statements of Jackson County, Mississippi.

Although no findings came to our attention as a result of these review procedures and compliance tests, these procedures and tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of the internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity and is not intended to be and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

1929 SPILLWAY ROAD, SUITE B BRANDON, MISSISSIPPI 39047 TELEPHONE 601-992-5292 FAX 601-992-2033 SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Schedule of Findings and Question Costs For the Year Ended September 30, 2017

#### Section I: Summary of Auditor's Results

#### Financial Statements:

- 1. Type of auditor's report issued on the financial statements: Unmodified.
- 2. Internal control over financial reporting:
  - a. Material weakness identified? No.
  - b. Significant deficiency identified? Yes.
- 3. Noncompliance material to financial statements noted? No.

#### Federal Awards:

- 4. Internal control over major federal programs:
  - a. Material weakness identified? No.
  - b. Significant deficiency identified? None reported.
- 5. Type of auditor's report issued on compliance for major federal programs: Unmodified.
- 6. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? No.
- 7. Identification of major federal programs:

CFDA Numbers	Name of Federal Program or Cluster
15.668	Coastal Impact Assistance Program
20.205	Highway Planning and Construction Program
97.036	Disaster Grants - Public Assistance

- 8. Dollar threshold used to distinguish between type A and type B programs: \$750,000.
- 9. Auditee qualified as a low-risk auditee? No.

#### Section II: Financial Statement Findings

The results of our tests disclosed the following finding related to the financial statements that is required to be reported by *Government Auditing Standards*.

#### **Significant Deficiency**

#### **Finding 2017-001**:

#### Criteria:

The Jackson County Sheriff's Office tracks and maintains leave liability for its employees separately from other County office employees.

#### Condition:

The County payroll department has not kept leave liability data for Sheriff and Adult Detention Facility (ADC) employees. These public safety departments have over 250 employees that are not being accounted for in centralized accounting and counted toward the total compensated absences liability for the County.

#### Cause:

In past years spanning several Sheriff administrations, leave liability has been kept by the Sheriff's Office and not provided to County payroll personnel to include toward total leave liability for presentation in the financial statements.

#### Effect/Possible Effect:

The absence of Sheriff and ADC employee leave calculations resulted in an understatement of leave liability totaling \$605,497. Financial statement data can be impacted by not including these figures with the remaining compensated absences liability totals.

#### **Recommendation:**

The Board of Supervisors should take action ensuring this data is presented in a complete and accurate manner ensuring that proper leave liability calculations are kept for reporting purposes and to ensure accurate payment is made to employees at termination.

#### Section III: Federal Award Findings and Questioned Costs

The results of our tests did not disclose any findings and questioned costs related to the federal awards.

#### AUDITEE'S CORRECTIVE ACTION PLAN
