INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor Kenny Thomas
and Honorable Members of the Board of Alderman
City of Leland, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Leland, Mississippi, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Leland, Mississippi's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Leland, Mississippi, as of September 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As explained in Note 10, 16 and 17 to the financial statements, in 2015, the City adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement Number 68, *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement Number 27*.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-9 and 16-19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Leland, Mississippi's, basic financial statements. The introductory section, combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 9, 2018, on our consideration of the City of Leland, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Leland, Mississippi's internal control over financial reporting and compliance.

CITY OF LELAND, MISSISSIPPI
Management's Discussion and Analysis
September 30, 2017

INTRODUCTION

The discussion and analysis is of the City of Leland, Mississippi's annual financial performance provides an overall narrative review of the City's financial activities for the year ended September 30, 2017. The intent of this discussion and analysis is to look at the City's performance as a whole; we encourage readers to consider the information presented here in conjunction with additional information that we have furnished.

FINANCIAL HIGHLIGHTS

The assets of the City of Leland, Mississippi exceeded its liabilities at the close of the most recent fiscal year by \$813,525 (*net position*). Of this amount, \$1,963,362 (*unrestricted net assets*) is not available to be used to meet the City's ongoing obligations to citizens and creditors due to a deficit.

The City's total net position decreased by \$230,859. This decrease is due primarily to an increase in expenditures.

As of close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$5,040,559, an increase of \$840,001 in comparison with the prior year. Approximately \$145,683 of this total amount is not *available for spending* at the City's discretion (*Unrestricted fund balance*).

At the end of the current fiscal year, unassigned fund balance (deficit) for the general fund was \$145,683, or 4.95% of total general fund expenditures.

The City's total debt had a net increase of \$474,599 or 6.86% during the current fiscal year. The key factor in this increase was due to an increase in net pension liability.

OVERVIEW OF FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

GOVERNMENT - WIDE FINANCIAL STATEMENTS

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The City reports all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the City's assets (including infrastructure acquired after July 1, 1980) and all of the City's liabilities (including long-term debt).

CITY OF LELAND, MISSISSIPPI
Management's Discussion and Analysis
September 30, 2017

The government-wide financial statements are divided into two categories, which are described as follows:

- ◆ **Governmental Activities** - Expenses incurred in connection with providing basic services including public safety, culture, recreation, public works and general administration are reported as governmental activities. The governmental activities are financed by taxes, license and permit fees, intergovernmental sources, and utility franchise arrangements.
- ◆ **Business - Type Activities** - Expenses associated with providing utility services are recovered through fees paid by the customers that utilize these services. These activities are operated in a manner similar to commercial enterprises. Accordingly, activities associated with these services are reported as business type activities.

FUND FINANCIAL STATEMENTS

Fund financial statements provide detailed information regarding the City's most significant activities and are not intended to provide information for the City as a whole. Funds are accounting devices that are used to account for specific sources of funds. The City has three types of funds that are described as follows:

- ◆ **Governmental Funds** - These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental funds use a modified accrual basis of accounting that provides a short-term view of the City's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.
- ◆ **Proprietary Fund** - These funds are used to account for activities that function in a manner similar to commercial enterprises. Proprietary fund financial statements typically provide a more detail presentation of the information reported in the business-type activities portion of the government-wide financial statements.
- ◆ **Fiduciary Fund** - are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accrual basis of accounting is used for fiduciary funds.

As the presentation appearing above demonstrates, a large portion of the City's net position 318.62% are invested in capital assets. Net assets invested in capital assets consist of land, buildings, equipment, and any infrastructure acquired after September 30, 2017 less any debt used to acquire assets that remains outstanding. The City uses these capital assets to provide services to its citizens; consequently, these amounts are not available for future spending.

An additional portion of the net assets 7.25% represent resources that are subject to restrictions that are imposed by agreements with the City's bondholders or requirements imposed by various revenue sources. The remaining unrestricted net assets 225.87% is not available to be used to meet the City's ongoing obligations to citizens and creditors.

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- ◆ Increase in total current assets in the amount of \$1,544,275.
- ◆ Decrease in net capital assets in the amount of \$341,653.
- ◆ Increase in current liabilities in the amount of \$1,218,956.
- ◆ Decrease in long-term liabilities in the amount of \$474,599.

CITY OF LELAND, MISSISSIPPI
Management's Discussion and Analysis
September 30, 2017

The following are significant current year transactions that have had an impact on the Statement of Activities:

Governmental activities. Governmental activities increased the City's net position by \$367,508, accounting for 10.07% of the total growth in the City's net position. Key elements of this increase are as follows:

- ◆ Operating and capital grants increased by \$72,247 or 51.04% during the year.
- ◆ Sales tax revenue increase by \$53,080 or 11.35% during the year.
- ◆ Public safety department expenses increased by \$164,201 or 10.56% during the year.
- ◆ Public works department expenses increase by \$115,036 or 23.48% during the year.
- ◆ Sanitation department expenses decreased by \$6,569 or 1.33% during the year.

Business-type activities. Business-type activities decreased the City's net position by \$564,811, accounting for 231.69% of the decrease in the City's net position. Key elements of this increase are as follows:

- ◆ Charges for services for the business-type activities decreased by \$283,477 or 5.88% during the year.
- ◆ Operating expenses for the business-type activities increased by \$262,137 or 4.50% during the year.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information on current inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

The City's governmental funds reported combined fund balances of \$5,286,312, which represents an increase of \$840,001 in comparison to the previous balance. In addition, the City's general fund, which is not available for spending at the City's discretion, reported a deficit fund balance of \$142,359.

CITY OF LELAND, MISSISSIPPI
Management's Discussion and Analysis
September 30, 2017

Proprietary Funds - are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses a proprietary fund to account for the water and sewer, solid waste, and electric funds. Fund financial statements for the proprietary fund provide the same type of information as the government-wide financial statements, only in more detail.

Fiduciary Funds - are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accrual basis of accounting is used for fiduciary funds.

GENERAL FUND BUDGET HIGHLIGHTS

The City's general fund is required to adopt a budget. The budget is amended as necessary and appropriations increased as a result of the rising cost described in the preceding section.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets - As of September 30, 2017, the City's total capital assets were \$10,245,161. This includes land, buildings, furniture and equipment, mobile equipment, and infrastructure. There were no net increases before depreciation for the current year.

Total accumulated depreciation as of September 30, 2017 was \$5,218,549, including \$341,650, of depreciation expense for the year. The balance in total net capital assets was \$5,026,612 at year-end. Additional information on the City's capital assets can be found in note 6 of this report.

Debt Administration - As of September 30, 2017, the City had \$2,654,190 in long-term debt outstanding. This includes notes payable and compensated absences payable. Of this debt, \$383,767 is due within one year.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. CITY OF LELAND, MISSISSIPPI
 Reconciliation of the Statement of Revenues
 Expenditures, and Changes in Fund Balance to the
 Statement of Activities - Governmental Funds
 For the Year Ended September 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds		\$ 594,248
--	--	------------

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlays	-	
Depreciation expense	<u>119,541</u>	119,541

The statement of activities reports pension expense and other activity related to net pension liability:

Pension expense	208,510	
Contributions made after the measurement date	<u>(199,533)</u>	8,977

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. However, in the Statement of Activities, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long term debt is recognized under the modified accrual basis of accounting when due, rather than as it accrues. Thus, the change in net position differs from the change in fund balance by a combination of the following items:

Other	<u>20,558</u>	20,558
-------	---------------	--------

Activities from debt related transactions		
Principal payment on debt		<u>172,000</u>

Change in net position of governmental activities		\$ <u>915,324</u>
---	--	-------------------

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Leland, Mississippi (the City) was incorporated under the provisions of Mississippi Law. The City is governed by its Mayor and a Board of Aldermen consisting of five members. Services provided to the citizens of Leland include but are not limited to public safety (police and fire protection), streets, recreation, and utility services (water and sewer).

The City's accompanying policies conform to generally accepted accounting principals for governmental units. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Some of the City's more significant accounting policies are described as follows:

FINANCIAL REPORTING ENTITY

The accompanying financial statements reflect only the primary government of the City of Leland. The primary government includes only those funds, organizations, institutions, agencies, departments, and offices that are not legally separate from the City.

BASIC FINANCIAL STATEMENTS

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as either governmental activities or business-type activities, which are described as follows:

1. Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.
2. Business-type activities rely on fees and charges for support and operate in a manner similar to private sector enterprises. Since proprietary funds operate in a manner similar to business enterprises, these funds follow certain pronouncements that are developed by the Financial Accounting Standards Board (FASB) for business enterprises. However, the City only applies those FASB pronouncements that were issued on or before November 30, 1989.

The government-wide and fund financial statements present the City's financial position and results of operations from differing perspectives which are described as follows:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the City as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude any fiduciary activities which are reported in the fund financial statements.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service or business-type activity. Program revenues include charges for services, fines, court cost, contributions associated with a particular function, and most grants.

FUND FINANCIAL STATEMENTS

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Separate financial statements are provided for governmental funds and business-type (enterprise) funds. In addition, separate financial statements are presented for any fiduciary activities. Major individual funds are reported as separate columns in the fund financial statements. The City's major funds are described as follows:

MAJOR GOVERNMENTAL FUNDS

General Fund - The general fund is the primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Sanitation Fund - The fund is a special revenue fund used to account for the operation of the City's sanitation system, which is supported by user charges.

Library Fund - The fund is a special revenue fund used to account for the operation of the City's library.

MAJOR BUSINESS- TYPE FUNDS

Water System - The water system fund is used to account for the operation of the City's water system, which is supported by user charges.

Electrical System - The electrical system fund is used to account for the operation of the City's electrical system, which is supported by user charges.

Sewer System Improvement Fund - The sewer system fund is used to account for the operation of the City's sewer system, which is supported by user charges and special taxes.

Business-Type funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing goods and services in connection with the funds ongoing operations. Principal operating revenues are charges to customers for water and sewer service.

Additionally, the government reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term "proceeds of specific revenue sources" establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Funds - Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

As a general rule the effect of interfund activity has been eliminated for the government-wide financial statements. Exceptions to this general rule are charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

<u>Financial Statement Presentation</u>	<u>Basis of Accounting</u>	<u>Measurement Focus</u>
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of accounting and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end or if it is due under cost reimbursement arrangement. In addition, expenses are generally recorded when a liability has been incurred; however, debt service, claims and judgments are recorded as expenses when payment is made. Furthermore, when the current financial resources measurement focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt is reported as an other financing source and repayment of long-term debt is reported as an expenditure.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements

BUDGETARY CONTROL

The City Charter establishes the fiscal year as the twelve-month period beginning October 1. The procedures detailed below are followed in establishing the budgetary data reflected in the financial statements.

The City Clerk and Mayor prepare a proposed budget based on an estimate of the revenues expected to be received in the next fiscal year and submits the proposal to the Board of Aldermen. A summary of the proposed budget is published and the public is notified that the proposed budget is available for public inspection. At the same time, a public hearing is set.

A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.

As required by state law, the budgets are amended whenever projected revenue fails to meet original expectations or when projected expenditures exceed original expectations. Budgetary amounts are presented as amended and all budgetary appropriations lapse at the end of the fiscal year.

CASH AND CASH EQUIVALENTS

The City deposits excess funds in financial institutions selected by the Board. State statutes specify how these depositories are to be selected.

Cash consists of amounts on deposit in demand accounts and savings accounts. Cash and other deposits are valued at cost.

In the event of a failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC).

INTERNAL ACTIVITY

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded.

In preparing the government-wide financial statement, transfers are eliminated to present net transfers for governmental activities and business-type activities. In addition, interfund receivables and payables are eliminated to present a net internal balance for each type of activity.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

Restricted Assets - Restricted assets represent resources that must be expended in a specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. Whenever restricted assets can be used to satisfy an obligation, the restricted assets are typically consumed before utilizing any unrestricted resources.

Capital Assets - Capital assets, which include property, equipment and infrastructure acquired after October 1, 2003, are reported as assets in the applicable governmental or business-type columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Assets reported in the fund financial statements for governmental funds exclude capital assets. Instead, the governmental funds report the acquisition of capital assets as expenditures rather than asset acquisitions. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value when received by the City.

Capital assets, excluding land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Land Improvements	20
Heavy machinery and equipment	5-15
Computer equipment	3
Vehicles	3-10
Infrastructure	8-50

Interest is capitalized on proprietary funds assets constructed with the proceeds of tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on investment proceeds over the same period.

Compensated Absences - The City accrues unpaid leave and associated employee-related cost when earned (or estimate to be earned) by employees up to 60 hours. For the Proprietary Funds and the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Funds Financial Statements, all of the compensated absences are considered long-term and therefore, are not a liability and represents a reconciling item between fund level and government-wide presentation.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

Fund Balance - In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-Type Definitions*. The objective of the statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions.

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five (5) components, nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This component includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted - This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (Compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.

Committed - This component consist of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision making authority which includes the city charter, ordinances, and resolutions. Those committed amounts cannot be used for any other purpose unless the City removes or changes the specified use by taking the same type of action (city charter, ordinance, and resolution) it employed previously to commit those amounts.

Assigned - This component consists of amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by the Board of Alderman, City Clerk, or their designee as established in the City's Fund Balance Policy.

Unassigned - This classification represents amounts that have not been restricted, committed, or assigned to specific purpose within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources (committed, assigned, and unassigned) as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use it is the City's policy to use committed resources first, then assigned, and then unassigned as they are needed.

NOTE 2 - CASH AND CASH EQUIVALENTS

The collateral for public entities, deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Mississippi Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits.

The carrying amount of the City's deposits with financial institutions in the governmental activities and the business-type activities funds was \$1,056,365 and \$1,593,953, respectively. The carrying amount of deposits reported in the government-wide financial statements was: Cash and Cash Equivalents - \$1,738,051.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of a failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. However, the Mississippi State Treasury manages the risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. As of *September 30, 2017*, none of the City's bank balance of \$2,475,579 was exposed to custodial credit risk.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The City does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a formal investment policy that addresses custodial credit risk. However, the Mississippi State Treasurer manages the risk on, behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. As of *September 30, 2017*, none of the City's bank balance of \$2,475,579 was exposed to custodial credit risk.

Concentration of Credit Risk. Disclosures of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments. As of *September 30, 2017*, the City had no investments.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

Following is a list of the City's eligible investments, which in accordance with State statute are limited to the investment of funds in excess of sums required for immediate expenditure or current obligations:

Certificates of deposit with municipal depositories approved annually by the State Treasurer bonds or direct obligations of the:

- United States of America
- State of Mississippi
- County or Municipality of Mississippi
- School Districts

State statute allows the investment of funds received from the sale of bonds, notes, or certificates of indebtedness which are not immediately required for disbursement for the purpose issued, in direct obligations issued by or guaranteed in full by the United States of America, or in certificates of deposit with approved municipal depositories.

NOTE 3 - AD VALOREM TAXES

Ad valorem taxes are assessed on a calendar year basis and are due on or before December 31 in the year in which the tax is levied. Property taxes are recognized when the revenue is measurable and available. Available means due or past due and collected no longer than 60 days after the close of the current period. For the year ended September 30, 2017, the City levied and collected 44.30 mills of taxes for general corporate purposes of the City.

NOTE 4 - RECEIVABLES

Receivables as of year end for the government's individual major and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

	General Fund	Sanitation Fund	Nonmajor Governmental	Water/Sewer Fund	Electric Fund	Total

NOTE 8 - DEFINED BENEFIT PENSION PLANS

1. General Information

Plan Description and Provisions: The City of Leland, Mississippi contributes to the Public Employees Retirement System of Mississippi ("PERS"), a cost sharing, multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444- PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

Plan Funding Policy: PERS members are required to contribute 9.00% of their annual covered salary and the City of Leland, Mississippi is required to contribute at an actuarially determined rate. This rate was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The City of Leland, Mississippi contributions to PERS for the years ended September 30, 2017, 2016, and 2015 were \$252,421, \$247,397, and \$199,533, respectively, equal to the required contributions for each year.

B. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2017, the City reported a liability of \$3,677,311 for its proportionate share of the net pension liability. The Net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's portion of the net pension liability was based on a projection of the City's long-term share of contribution to the pension plan relative to projected contribution of all participating entities, actuarially determined. The City's proportionate share used to the September 30, 2017 net pension liability was 0.02564800 percent, which was based on a measurement date of June 30, 2016. This was an increase of 0.0185900 percent from its proportionate share used to calculate the September 30, 2017 net pension liability, which was based on a measurement date of June 30, 2017.

Deferred outflows of resources and deferred inflows of resources by source reported by the City at September 30, 2017 for the municipal plan is as follows:

A. Governmental Activities

C. Actuarial assumptions.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to change in the discount rate. Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's proportionate share of net pension liability	\$ 5,591,954	\$ 4,263,568	\$ 3,160,719

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

D. Schedule of Assumptions

The total pension liability in the September 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

<u>Schedule of Assumptions</u>	<u>Municipal Pension</u>
Inflation	3.0 percent
Salary changes	3.75 - 19.00 %, depending on age, service, and type of employment including inflation.
Investment rate of return	7.75%, net of pension plan investment expense, including inflation.
Mortality Assumption	RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2016, set forward one year for males.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

CITY OF LELAND, MISSISSIPPI
Notes to the Financial Statements
September 30, 2017

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U. S Broad	34%	5.20%
International Equity	19	5.00
Emerging Markets Equity	8	5.45
Fixed Income	20	0.25
Real Assets	10	4.00
Private Equity	8	6.15
Cash	1	.50
Total	100%	

NOTE 9 - COMPENSATION OF ELECTED OFFICIALS AND KEY EMPLOYEES

NOTE 11 - RESERVED FUND BALANCES AND RETAINED EARNINGS

Various bond covenants require the City to maintain cash reserves that can only be used under specific circumstances. Since these funds are available only under specific circumstances, the amounts are presented as restricted.

NOTE 12 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks of loss are covered by participation in a public entity risk pool that operates as a common insurance program and by acquiring commercial insurance coverage. Claims resulting from these risks have historically not exceeded insurance coverage.

NOTE 13 - SUBSEQUENT EVENTS

Subsequent events have been evaluated through August 9, 2018, which represents the date the financial statements were available to be issued. Subsequent events after that date have not been evaluated.

NOTE 14 - PROPERTY TAXES RECEIVABLE AND PROPERTY TAX CALENDAR

Property taxes receivable are recorded in the general fund after the general fund budget is approved by the Board of Aldermen/Alderwomen. At fiscal year-end, the receivable represent delinquent taxes.

Property taxes on real, personal and public utilities attach as an enforceable lien on the levy date or January 1 for the preceding calendar year. Washington County bills and collects the real, personal and ad valorem taxes for the City of Leland, Mississippi. The taxes are remitted to the City on a monthly basis.

The taxes are due on or before February 1; however, installment payments can be made one-half of balance due February 1 and one-fourth each on May 1 and August 1. Major tax payments are received February through May, are recognized as revenue in the year received. Delinquent tax payments, received throughout the year, are recognized as revenue in the year received.

NOTE 15 - RELATED PARTY TRANSACTIONS

The City of Leland is a participant in the Municipal Energy Agency of Mississippi (MEAM). The function of MEAM is to provide a continuing source of electrical power to its participants at the best possible rates. In 1994, the City entered into a Power Purchase Contract with MEAM, which provides that the City will purchase its electrical power from MEAM through August 1, 2022, including a payment of a 2 mil per kilowatt hour assessment. MEAM has pledged its revenue from the Power Purchase contracts on Revenue Bonds issued to finance the construction of electric generation equipment at certain participants' generation plants which benefit all MEAM participants. The City of Leland's ongoing responsibility in MEAM is limited to obligations to purchase allocated amounts of electricity during the contract period at such rates as the Board of Commissioners of MEAM may deem appropriate to produce revenues for MEAM sufficient to service the Revenue Bonds. In the event that the City should cease to purchase power prior to the expiration date of the contract, the City would be obligated to repay MEAM its proportionate share of the underdepreciated cost of the constructed equipment. After the expiration date of the contract, the City of Leland may withdraw from MEAM at any time and purchase its power directly from outside sources.

The financial statements of MEAM are audited on an annual basis. These separate financial statements are available at the offices of MEAM in Jackson, Mississippi. During the current fiscal year, the City of Leland purchased \$2,360,459 of electricity from MEAM under its Power Purchase Contracts and owed MEAM \$247,397 at September 30, 2017.

NOTE 19 - NEW ACCOUNTING STANDARDS

In fiscal year 2017, the City implemented the following GASB Statements:

In February 2015, the GASB issued Statement No. 72, "Fair Value Measurement and Application." This statement addresses accounting and financial reporting issues related to fair value measurements. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2015.

In June 2015, the GASB issued Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". This statement will establish the hierarchy of GAAP for state and local governments. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2015.

In August 2015, the GASB issued Statement No. 77, "Tax Abatement Disclosure". GASB 77 requires certain disclosure related to tax abatement agreements. The requirements of this statement are effective for financial statement for the fiscal years beginning after December 15, 2015.

The City will adopt the following new accounting pronouncements in future years:

In June 2015, the GASB issued Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statement 67 and 68". This statement will improve the usefulness of information for decisions made by the various users of the general purpose external financial reports. The requirements of this statement are effective for financial statements for the periods beginning after June 15, 2015. The City is evaluating the impact, if any, upon its financial position, results of operations, or cash flows upon adoption.

In June 2015, the GASB issued Statement No. 74, "Financial Reporting for Postemployment Benefits Plans Other Than Pension Plans". This statement will improve the usefulness of information about postemployment benefits other than pensions (Other Postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2016. The City is evaluating the impact, if any, upon its financial position, results of operations, or cash flows upon adoption.

In June 2015, the GASB issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This statement will improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). These requirements of this statement are effective for financial statements for periods beginning after June 15, 2017. The City is evaluating the impact, if any, upon its financial position, results of operations, or cash flows upon adoption.

In June 2015, the GASB issued Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". This statement will establish the hierarchy of GAAP for state and local governments. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2015. The Town is evaluating the impact, if any, upon its financial position, results of operations, or cash flows upon adoption.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor Kenny Thomas and
Honorable Members of the Board of Alderman
Leland, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Leland, Mississippi, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Leland, Mississippi's basic financial statements, and have issued our report thereon dated August 9, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Leland, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Leland, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Leland, Mississippi's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Leland, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
STATE LAWS AND REGULATIONS

To the Honorable Mayor Kenny Thomas
Honorable Members of the Board of Alderman
of the City of Leland, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business activities, each major fund, and the aggregate remaining fund information of the City of Leland, Mississippi (the City) as of and for the year ended September 30, 2017, which collectively comprise the City of Leland, Mississippi's basic financial statements and have issued our report thereon dated August 9, 2018. We conducted our audit in accordance with auditing standards generally accepted in the United States America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of procedures performed to test compliance with certain other laws and regulations and our audit of the financial statements disclosed no instance of noncompliance with other state laws and regulations.

This report is intended solely for the information and use of the Mayor, Board of Alderman, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
