NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Shaw, Mississippi, (City) have been prepared in conformity with the cash basis of accounting. Consequently, certain revenues are recognized when received rather than when earned and certain expenses and requisition of assets are recognized when cash is disbursed rather than when the obligation is incurred. The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds and similar component units apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The City does not apply FASB pronouncements issued after November 30, 1989. The more significant of the government's accounting policies are described below.

A. Fund Accounting

The financial statement consist of all the funds of the City of Shaw: General Fund, Special Revenue Funds, and the Enterprise Funds.

The accounts of the City of Shaw are organized on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUNDS

General Fund: The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund: The Special Revenue Funds are used to account for the proceeds of special revenue sources that are legally restricted for specific expenditure purposes. The Special Revenue Fund in this financial statement is used to account for receipts and disbursements of the City's restricted resources.

PROPRIETARY FUNDS

Enterprise Fund: The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the cost and expenses of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. The City's Water and Sewer Funds are included in this category.

MAJOR FUNDS

For 2017, the City reports the following major funds:

General Fund - reports as the primary fund of the City. This fund is used to account for all financial resources not reported in other funds.

Water and Sewer Fund - accounts for the operating activities of the City's water and sewer utility services.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The financial statements are prepared on a cash receipts and disbursements basis, according to requirements for small Cities in the State of Mississippi as prescribed by the Office of the State Auditor. Consequently, certain revenues are recognized when received rather than when earned, and certain expenditures or expenses are recognized when paid rather than when the obligation is incurred.

C. Total Columns on Combined Statement

The total column on the Combined Statement of Cash Receipts and Disbursements is captioned Memorandum Only to indicate that it is presented only to facilitate analysis. Data in this column is not meant to present fairly the cash receipts and disbursements of consolidated financial information for the City as a whole in conformity with the cash basis of accounting which is a comprehensive basis of accounting other than generally accepted accounting principles.

D. Cash and Cash Equivalents

The City deposits excess funds in the financial institutions selected by the board. State statues specify how these depositories are to be selected.

Cash and cash equivalents consist of amounts on deposit in demand accounts and certificates of deposits with maturities greater than 12 months when acquired.

E. Investments

The City can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality, or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposits are classified as investments if they have a maturity greater than 12 months when acquired.

Investments are reported at fair value.

---- 1 2 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Report Classification

Receipts and disbursements were classified according to requirements for small Cities in the State of Mississippi as prescribed by the Office of the State Auditor.

G. Property Tax

Property taxes attach as an enforceable lien on property January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent February 1 of the following year. The millage rate for the City for the fiscal year ended September 30, 2017 was 82.0 mills for general purposes.

NOTE 2 - BUDGET POLICY

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to September 30, the City Clerk submits to the Mayor and Aldermen a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenses and expenditures and the means of financing them.
- Public notice is given of the City's budget meetings being open to the public, so that a public hearing is conducted on the budget.
- The budget as submitted is reviewed by the Mayor and Aldermen and necessary revisions are made to the budget. Then, the budget is approved prior to September 15.
- The Budget is formally revised during July of each year or anytime a deficit is indicated.
- Budgetary comparisons are employed by management as a management control device during the year for all funds.
- Appropriations lapse at the end of each fiscal year.

NOTE 2 - BUDGET POLICY (Continued)

Mississippi laws require that municipalities budget on a modified-cash basis. Claims that have been incurred prior to the end of the year and that are paid within 30 days are recorded under the accrual basis. Prior year claims that are paid after 30 days revert to the cash basis. All revenue is accounted for under the cash basis. The required budgetary basis is therefore not considered a generally accepted accounting principle. Governmental accounting requires that the "budget to actual" statements be prepared according to budgetary laws. The major reconciling items between the budgetary and cash basis presentations are presented on the "budget to actual" statements.

NOTE 3 - CASH AND CASH EQUIVALENTS

The collateral for public entities, deposits in financial institutions, is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Mississippi Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits.

The carrying amount of the City's deposits with financial institutions in the governmental activities and the business-type activities funds was \$511,862 and \$40,641, respectively. The bank balance was \$656,228.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of a failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City does not have a formal policy for custodial credit risk. However, the Mississippi State Treasury manages the risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. As of September 30, 2017, none of the City's bank balance of \$656,228 was exposed to custodial credit risk.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The City does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a formal investment policy that addresses custodial credit risk. However, the Mississippi State Treasurer manages the risk on behalf of the City. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the City. As of September 30, 2017, none of the City's bank balance of \$656,228 was exposed to custodial credit risk.

NOTE 3 - CASH AND CASH EQUIVALENTS (Continued)

Concentration of Credit Risk. Disclosures of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments. As of September 30, 2017, the City had no investments.

Following is a list of the City's eligible investments, which in accordance with State statute are limited to the investment of funds in excess of sums required for immediate expenditure or current obligations:

Certificates of deposit with municipal depositories approved annually by the State Treasurer bonds or direct obligations of the:

- United States of America
- State of Mississippi
- County or Municipality of Mississippi
- School Districts

State statue allows the investment of funds received from the sale of bonds, notes, or certificates of indebtedness which are not immediately required for disbursement for the purpose issued, in direct obligations issued by or guaranteed in full by the United States of America, or in certificates of deposit with approved municipal depositories.

6. We inquired about the Municipal Compliance Questionnaire and were informed by the City Clerk that the questionnaire had not been completed and submitted to the proper state agency. - For the current fiscal year, the City's chart of accounts is in compliance with that which is outlined in the State of Mississippi Municipal Audit and Accounting Guide. However, during prior fiscal years, the City was not in compliance.
- An aging report of utility customers accounts receivable are not being prepared on a monthly basis and reconciled to the general ledger. This report should be prepared so that the Board can regularly review the aging report and be diligent in collection efforts.
- Utility revenues charges were not recorded the general ledger. It is imperative that all transactions be recorded in the general ledger monthly so that the Board can make informed decisions.

We were not engaged to, and did not, perform an audit, the objective of which would be the expression of an opinion, on the accounting records. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
