TOWN OF LIBERTY, MISSISSIPPI
NOTES TO FINANCIAL STATEMENT
SEPTEMBER 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Liberty, Mississippi (the Town) was incorporated in 1809. The Town operates under a Mayor-Board of Alderpersons form of government and provides all of the rights and privileges provided by statute for municipalities.

A. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statement is reported using the cash basis of accounting as permitted by the Mississippi Office of the State Auditor, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The cash basis of accounting differs from GAAP primarily because revenues (cash receipts) are recognized when received rather than when earned and susceptible to accrual and expenditures or expenses (cash disbursements) are recognized when paid rather than when incurred or subject to accrual.

Governmental Activities

The Town reports the following major governmental funds:

The **General Fund** is the government's primary operating fund. It accounts for all the financial resources and the legally authorized activities of the Town except those required to be accounted for in other specialized funds.

The **Debt Service Fund** is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

The **Perpetual Care Fund** is used to account for the proceeds legally restricted to expenditures related to cemetery maintenance.

The **Vance Park Fund** is used to account for the proceeds legally restricted to expenditures related to the maintenance of Vance Park.

Business-Type Activities

The Town reports the following major proprietary funds:

The **Water and Sewer Fund** accounts for the activities of providing water and sewer services to citizens of the Town.

The **Natural Gas Fund** accounts for the activities of providing natural gas services to citizens of the Town.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

A. Measurement Focus, Basis of Accounting and Financial Statement Presentation - continued:

When both restricted and unrestricted cash is available for use, it is the Town's policy to use restricted cash first, then unrestricted cash as it is needed.

NOTE 2 - CASH AND CERTIFICATES OF DEPOSIT

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi Legislature and is governed by Section 27-105-5, Mississippi Code Ann. (1972). Under this program, the Town's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of a failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

The composition of the Town's cash and certificates of deposit is as follows at September 30, 2018:

	<u>Unrestricted Cash</u>	<u>Restricted Cash</u>	<u>Unrestricted Certificates of Deposit</u>	<u>Restricted Certificates of Deposit</u>	<u>Total</u>

Deposits at September 30, 2018 are summarized as follows:

	<u>Reported</u> <u>Amount</u>	<u>Bank</u> <u>Balance</u>
Cash	\$ 697,493	716,708
Certificates of deposit	<u>154,214</u>	<u>154,214</u>
Total deposits	\$ <u>851,707</u>	<u>870,922</u>

The difference of \$19,215 was principally due to outstanding checks. Of the bank balance, \$500,000 was covered by Federal depository insurance.

Custodial Credit Risk-Deposits. Custodial credit risk is defined as the risk that, in the event of a failure of a financial institution, the Town will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Town does not have a formal policy for custodial credit risk. However, the Mississippi State Treasurer manages the risk on behalf of the Town. As of September 30, 2018, \$370,922 of the Town's bank balance of \$870,922 was exposed to custodial credit risk as follows:

Collateralized by the State Public Funds Guaranty Pool	\$ <u>370,922</u>
--------------------------------------------------------	-------------------

Interest Rate Risk. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e) Miss. Code Ann. (1972). The Town does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a formal investment policy that addresses custodial risk. However, the Mississippi State Treasurer manages the risk on behalf of the Town. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the Town. The Town had no investments as of September 30, 2018.

NOTE 5 - DEFINED BENEFIT PENSION PLAN

General information about the Pension Plan

Plan Description

The Town of Liberty, Mississippi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost sharing, multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS, or by visiting online at www.pers.ms.gov.

Benefits Provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi (the State), state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of

Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a full refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011), are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provisions that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

For the year ended September 30, 2018, the Town's total payroll for all employees was \$375,091. Total covered payroll was \$372,356. Covered payroll refers to all compensation paid by the Town to active employees covered by the Plan.

NOTE 7 - CONTINGENCIES

Federal Grants

In the normal course of operations, the Town receives grant funds from various Federal and state agencies. The grant programs are subject to audit by the agents of the granting authority, the purpose of which is to ensure compliance with the conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

TOWN OF LIBERTY, MISSISSIPPI

SEPTEMBER 30, 2018

NOTE 8 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance for risks of loss other than workers' compensation and liability. Settled claims resulting from these commercially covered risks have not exceeded commercial coverage in any of the past three fiscal years.

Risk of loss related to workers' compensation for injuries to Town employees is covered through the Mississippi Municipal Workers' Compensation Group, a public entity risk pool. The pool was formed on March 28, 1989, by the Mississippi Nonprofit Corporation Act, pursuant to Section 71-3-75, Mississippi Code Annotated (1972), to provide public entities within the State of Mississippi workers' compensation and employers' liability coverage. The Town pays premiums to the pool quarterly for its workers' compensation insurance coverage based on total payroll. The participation agreement provides that the pool will be self-sustaining through member premiums. If total claims during a year were to deplete the trust account, then the pool members would be required to pay for the deficiencies. The Town has not had an additional assessment for losses incurred by the pool.

The Town is a member of the Mississippi Municipal Liability Plan, a public entity risk pool. The Mississippi Municipal Liability Plan covers liability claims against its members and is funded through member contributions. The Town has not had an additional assessment for excess losses.

NOTE 9 - SUBSEQUENT EVENTS

The Town had no subsequent events of a material nature requiring adjustment to or disclosure in the financial statement through April 1, 2019, the date the financial statement was approved by the Town's management and thereby available to be released.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH STATE LAWS AND REGULATIONS

To the Honorable Mayor and Board of Alderpersons of the
Town of Liberty
Liberty, Mississippi

We have audited the financial statement of the governmental activities, the business-type activities, and each major fund of the Town of Liberty, Mississippi for the year ended September 30, 2018, and have issued our report thereon dated April 1, 2019. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

As required by the state legal compliance audit program prescribed by the Mississippi Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the financial statement of the governmental activities, the business-type activities, and each major fund information disclosed no material instances of noncompliance with state laws and regulations.

This report is intended for the information of the Town of Liberty, Mississippi's management, Honorable Mayor and Board of Alderpersons, and the Mississippi Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

To the Honorable Mayor and Board of Alderpersons of the
Town of Liberty
Liberty, Mississippi

In planning and performing our audit of the governmental activities, the business-type activities, and each major fund of the Town of Liberty, Mississippi as of and for the year ended September 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we noted a certain matter that is presented for your consideration. This letter does not affect our report dated April 1, 2019 on the financial statement of the Town of Liberty, Mississippi. We will review the status of this comment during our next audit engagement. Our comment and recommendation has been discussed with the appropriate members of management. We will be pleased to discuss this comment in further detail at your convenience, perform any additional study on the matter, or assist you in implementing the recommendation. Our comment is summarized as follows:

The Town has accumulated funds in the debt service fund in excess of the outstanding debt. We recommend that the Town discontinue the ad valorem tax levy specific to debt service and determine the allowable disposition of the excess funds.

This letter is intended solely for the information and use of management, the Mayor and Board of Alderpersons and others within the Town, and is not intended to be and should not be used by anyone other than those specified parties.

To the Honorable Mayor and Board of Alderpersons of the
Town of Liberty
Liberty, Mississippi

In planning and performing our audit of the financial statement of the governmental activities, the business-type activities, and each major fund of the Town of Liberty, Mississippi for the year ended September 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Liberty, Mississippi's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Town of Liberty, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Liberty, Mississippi's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in internal control to be a material weakness:

Audit procedures identified material misstatements per the Town's accounting records as a result of the lack of controls over the review of journal entries and coding of cash receipts and disbursements. We recommend the Town of Liberty implement policies and procedures to ensure proper review of journal entries and coding of cash receipts and disbursements.

We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated April 1, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Town's financial statement or a determination of the type of auditor's opinion that may be expressed on that statement, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Town's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

To the Honorable Mayor and Board of Alderpersons of the
Town of Liberty
Liberty, Mississippi

In planning and performing our audit of the financial statement of the governmental activities, the business-type activities, and each major fund of the Town of Liberty, Mississippi for the year ended September 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Liberty, Mississippi's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Town of Liberty, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Liberty, Mississippi's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in internal control to be a material weakness:

Audit procedures identified material misstatements per the Town's accounting records as a result of the lack of controls over the review of journal entries and coding of cash receipts and disbursements. We recommend the Town of Liberty implement policies and procedures to ensure proper review of journal entries and coding of cash receipts and disbursements.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Town of Liberty, Mississippi's internal control to be a significant deficiency:

Due to the limited number of people working in the office, many critical duties are combined and given to available employees. Presently, a single individual prepares checks, reconciles bank accounts, performs all payroll duties, and maintains the general ledger. To the extent possible, duties should be segregated to serve as a check and balance on the employee's performance and to maintain the best control system possible. We feel segregation could be improved if different employees performed the separate duties of processing cash receipts and cash disbursements, and maintaining books of original entry.

This communication is intended solely for the information and use of management, the Honorable Mayor and Board of Alderpersons, and others within the Town of Liberty, Mississippi, and is not intended to be, and should not be, used by anyone other than these specified parties.
