Our responsibility is to express opinions on this financial statement based on our audit. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. **NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED SEPTEMBER 30, 2018**

**NOTE 2: Cash and Cash Equivalents**

The Town deposits funds in financial institutions selected by the Board of aldermen.

All cash and checking accounts are with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) which insures the account for \$250,000. The collateral for public entities' deposits in the financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann (1972). Under this program, the town's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution should be liquidated by the State Treasury to replace the public deposits not covered by the Federal Depository Insurance Corporation. Custodial credit risk for deposits is the risk that in the event of a bank failure, the Town's deposits may not be returned or the Town.

At year-end, the carrying or book amount of the Town's deposits were \$1,589,023. At year-end, the Town's bank balances were not exposed to any custodial credit risk because all deposits were fully collateralized.

*Custodial Credit Risk – Deposits.* Custodial credit risk is defined as the risk that, in the event of a failure of a financial institution, the Town will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Town does not have a formal policy for custodial risk. However, the Mississippi State Treasury manages the risk on behalf of the Town. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the Town. As of September 30, 2018, none of the Town's bank balance was exposed to custodial credit risk.

*Interest Rate Risk.* The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e) Miss. Code Ann. (1972). The Town does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

*Custodial Credit Risk – Investments.* Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have a formal investment policy that addresses custodial risk. However, the Mississippi State Treasurer manages the risk on behalf of the Town. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the Town.

*Concentration of Credit Risk.* Disclosures of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments. As of September 30, 2018 the Town had no investments.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

June 24, 2019

To the Honorable Mayor and Board of Alderpersons  
Town of Tylertown

We have audited the financial statements of each major fund and the aggregate remaining fund information of Town of Tylertown as of and for the year ended September 30, 2018, which collectively comprise Town of Tylertown's basic financial statements and have issued our report thereon dated June 24, 2019. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the town's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the board and management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
