INDEPENDENT AUDITORS' REPORT

Mississippi Department of Environmental Quality Jackson, Mississippi

Report on the Financial Statements of Selected Funds

We have audited the accompanying financial statements of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000 of the Mississippi Department of Environmental Quality (the "Agency") as of and for the year ended June 30, 2018, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinion

In our opinion, the financial statements of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000 present fairly, in all material respects, the respective financial position of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000 and 5358900000 of the Agency, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000 of the Agency are intended to present the financial position and changes in financial position of only that portion of the governmental activities of the Agency and of the State of Mississippi that is attributable to the transactions of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000. They do not purport to, and do not present fairly the financial position of the Agency or the State of Mississippi as of June 30, 2018, or the changes in financial position of each entity for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

Required Supplementary Information

Management has omitted the Management Discussion and Analysis and the Budgetary Comparison Schedules that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 2, 2019, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying selected fund financial statements of the Mississippi Department of Environmental Quality (the "Agency") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The Agency applies all applicable GASB pronouncements.

Financial Reporting Entity

The Agency is reported as a state agency in the State of Mississippi's Comprehensive Annual Financial Report. The selected funds presented in these financial statements are part of the larger entity that in whole comprises the financial reporting entity of the Agency. Treasury Fund 2247100000 is the general appropriation fund for the Agency and accounts for the operations of the Agency. Treasury Fund 3358400000 accounts for the Office of Pollution Control's special funds that are eligible to earn interest, which includes but is not limited to the groundwater protection fee on motor fuels, air operating permit program, asbestos abatement and accreditation program, comprehensive waste minimization, and the environmental protection trust to develop nonhazardous waste corrective action plans. Treasury Fund 33584A0000 accounts for the Deepwater Horizon oil spill funds. Treasury Fund 3358600000 is primarily for the administration of delegated programs such as the Clean Air Act, Clean Water Act, Comprehensive Environmental Response, Compensation and Liability Act, and Resource Conservation and Recovery Act. These programs form the basis of the Agency's monitoring, permitting, and compliance efforts. Treasury Fund 5358600000 is the designated fund to account for air and water pollution grants received from the federal government or federal funds transferred in from another state agency. Treasury Fund 5358900000 accounts for the HUD/MDA sub-grant funds and provides funds for planning, emergency grants to local governments and administrative expenses of the Agency.

Measurement Focus and Basis of Accounting

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Only current assets and current liabilities are generally included on the balance sheet. Under this method, revenues are recognized when measurable and available to finance operations of the current fiscal year. Available means collectible within the current year or soon enough after fiscal year-end to liquidate liabilities existing at the end of the fiscal year. The Agency considers revenues received within 60 days after fiscal year-end as available. Significant revenue sources that are susceptible to accrual include federal grants, investment income, and licenses and fees. Other miscellaneous revenues are recognized when received since they normally are measurable only at that time. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The selected funds for the Agency are reported as general funds. General fund balances are legally restricted to expenditures for specific purposes such as certain federal grant programs, taxes levied with statutorily defined distributions, and other resources restricted as to purpose.

Cash and Cash Equivalents

Cash and cash equivalents includes demand deposits accounts and equity in State Treasury funds. Equity in State Treasury funds consists of pooled cash held by the Treasurer of the State of Mississippi.

Receivables

Accounts receivable represent amounts due to the Agency for revenues earned that will be collected sometime in the future. The Agency provides an allowance for uncollectible accounts, when necessary, based upon a review of outstanding receivables, historical collection information, and existing economic conditions. Accounts receivable reported net of allowance for uncollectible accounts are \$52,290, \$137,013, and \$1,195,563 for Funds 3358400000, 3358600000, 5358600000, respectively.

Interfund Activity

In the selected fund financial statements, transactions for services rendered by one fund to another are treated as revenues of the recipient fund and expenditures of the disbursing fund. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Transfers represent flows of assets between funds of the Agency without equivalent flows of assets in return and without a requirement for payment.

Deferred Inflows of Resources

In addition to liabilities, the governmental funds' balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents items that are unavailable revenues that will not be recognized as an inflow of resources until future period(s) when they become available. The governmental funds report unavailable revenues from three sources: fines, penalties and assessments.

Fund Balances

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions provides fund balance categories to make the nature and extent of the constraint placed on a government's fund balances more transparent. Fund balances that are restricted for specific purposes by external resource providers, legally restricted to a specific use, or are not available for appropriation or expenditure are reported as restricted. Restrictions may only be changed or lifted with the consent of resource providers.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The classifications used in the selected governmental fund financial statements are based on the following methodology:

<u>Committed</u> – This includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.

<u>Restricted</u> – This classification includes amounts for which constraints have been placed on the use of the resources by law through constitutional provisions or enabling legislation.

<u>Unassigned</u> – This classification includes amounts for which no constraints have been applied to the use of funds.

Federal Grants

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenue when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

Subsequent Events

In connection with the preparation of the financial statements, management of the Agency has evaluated subsequent events through January 2, 2019, which is the date the financial statements were available to be issued.

NOTE 2: INTERFUND TRANSACTIONS

Interfund transfers consisted of the following:

	Transfers from Fund									
Year ended June 30, 2018	224	7100000	33	358400000	33	584A0000	3	358600000	53	58600000
Transfers to other Agency funds	\$	7,700	\$	5,976,439	\$	181,484	\$	4,438,048	\$	65,540
Totals	\$	7,700	\$	5,976, <u>4</u> 39	\$	181,484	\$	4,438,048	\$	65,540
						Transfer	i to	Fund		
Year ended June 30, 2018			22	47100000	33	58400000	33	358600000	53	58600000
Transfers from other Agency funds Transfers from the Department of			\$	-	\$	130,135	\$	6,704,463	\$	1,406

Totals			\$	9,980,742	\$	130,135	\$	6,704,463	\$	1,406

Interfund transfers are primarily used to move revenues from funds required to collect them to funds required to expend them.

Due to/from other funds consisted of the following:

	Due from Fund									
June 30, 2018	22	47100000	33	58400000	335	584A0000	33	358600000	53	58600000
Due to funds within the Agency Due to the Department of Finance	\$	243	\$	847,357	\$	23,761	\$	285,128	\$	774,732
and Administration		\$		Si 1				347,131		
Totals	\$	243	\$	847,357	\$	23,761	\$	632,259	\$	774,732
					Du	e to Fund				
June 30, 2018	22	47100000	33	58400000		584A0000	3	358600000	53	58600000
Due from funds within the Agency	\$	133,595	\$	÷.	\$	-	\$	1,603,207	\$	
Due from the Department of Finance and Administration		-		15,318		31,363				
Due from the Mississippi Emergency Management Agency				127		-		¥		83,636
Totals	\$	133,595	\$	15,318	\$	31,363	\$	1,603,207	\$	83,636

Due to and due from other funds result primarily from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system and payments between funds are made. All balances are expected to be received or paid during fiscal year 2019.

NOTE 3: DEPOSITS

Section 27-105-5, Mississippi Code Ann. (1972), authorizes the State Treasurer to implement a statewide collateral pool program which secures all state and local public funds deposits through a centralized system of pledging securities to the State Treasurer. The program requires the State Treasurer as pledgee of all public funds to monitor the security portfolios of approved financial institutions and ensure public funds are adequately secured.

Section 27-105-5, Mississippi Code Ann. (1972), establishes the requirements for a financial institution to be approved as a qualified public funds depository. Generally, financial institutions make annual application to the State Treasurer for state funds by signing a contract and supplying the financial report as provided to its regulatory authority to assure the statutorily required 5.5% primary capital to total assets ratio. When so approved by the State Treasurer, the financial institution is required to place on deposit with the State Treasurer collateral equal to at least 105% of the amount of public funds on deposit in excess of the amount insured by the Federal Deposit Insurance Corporation (FDIC). Collateral may be held by a third party custodian, with approval of the State Treasurer, if conditions are met which protect the state's interests.

Custodial credit risk is the risk that in the event of the failure of a financial institution, the government will not be able to recover deposits or collateral securities that are in the possession of an outside party. Deposits above FDIC overage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the Agency. All deposited funds of the Agency are fully collateralized in accordance with state statutes.

NOTE 4: ACCOUNTS RECEIVABLE

Receivables as of year-end, including any applicable allowances for uncollectible accounts, are as follows:

	Fund Fund Fund
June 30, 2018	3358400000 3358600000 5358600000
Gross receivables Allowance for uncollectible accounts	\$ 577,300 \$ 6,269,389 \$ 1,195,563 (525,010) (6,132,376) -
Net total accounts receivable	\$ 52,290 \$ 137,013 \$ 1,195,563

As an agency of the State of Mississippi, the Agency is precluded by statute from discharging amounts owed. Accordingly, gross accounts receivables and the allowance for uncollectible accounts include amounts considered to be 100% uncollectible and fully reserved in a prior year.

NOTE 5: RETIREMENT PLAN

The Agency contributes to the Public Employees' Retirement System of Mississippi (PERS), a costsharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information.

That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, Mississippi 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

PERS members are required to contribute 9.00% of their annual covered salary and the Agency is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature.

NOTE 6: CONTINGENCIES

Federal Grants

The Agency has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditures of resources for allowable purposes. Any disallowance resulting from an audit may become a liability of the Agency. The Agency estimates that the ultimate disallowance pertaining to these grants, if any, will be immaterial to its overall financial condition. As of the report date, all costs have been funded through grant proceeds or legislation.

Litigation

The Agency is party to various legal proceedings that arise in the normal course of governmental operations. The State's legal counsel believes that they will be successful in defending the Agency in a majority of these cases. In the event they are not successful in defending such cases, the State's opinion is that the ultimate disposition of these matters will not have a material adverse effect on the financial position or changes in financial position of the Agency.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mississippi Department of Environmental Quality Jackson, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of State Treasury Funds 2247100000, 3358400000, 33584A0000, 3358600000, 5358600000 and 5358900000 of the Mississippi Department of Environmental Quality (the "Agency") as of and for the year ended June 30, 2018, and the related notes to the financial statements, and have issued our report thereon dated January 2, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements and schedule, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements for State Treasury Funds 2247100000, 3358400000, 3358400000, 3358600000, 5358600000 and 5358900000 are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Commission on Environmental Quality Mississippi Department of Environmental Quality

Report on the Financial Statements

We have audited the accompanying financial statements of the State of Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund (the Fund), as of and for the year ended June 30, 2018, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of June 30, 2018, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements referred to above are intended to present only the financial position and results of operations of the Clean Water State Revolving Loan Fund of the Mississippi Department of Environmental Quality, a department of the State of Mississippi. These statements are not intended to present the financial position and results of operations for the State of Mississippi or the Mississippi Department of Environmental Quality, of which the Clean Water State Revolving Loan Fund is a part.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued a report, dated October 15, 2018, on our consideration of the State of Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

See accompanying Notes to Financial Statements.

1. ORGANIZATION AND NATURE OF OPERATIONS OF THE FUND.

The Clean Water State Revolving Loan Fund (the Fund) of the Mississippi Department of Environmental Quality (MDEQ) was established pursuant to Title VI of the Federal Water Quality Act of 1987 (the Act). The Act established the State Revolving Fund (SRF) Program to replace the construction grants program and to provide loans at reduced interest rates to finance the construction of publicly owned water pollution control facilities, non-point source pollution control projects, and estuary management projects. Instead of making grants to political subdivisions that pay for a portion of building wastewater treatment facilities, the Fund provides for low interest rate loans to finance the entire cost of qualified projects. The Fund provides a flexible financing source that can be used for a variety of pollution control projects, including non-point source pollution control projects, and management projects. All loan repayments, including interest and principal, must remain in the Fund.

The Fund was funded by the U.S. Environmental Protection Agency (EPA) by a series of grants starting in 1989. In order to receive a grant, states are required to provide an additional 20 percent of the federal capitalization grant as matching funds. As of June 30, 2018, Congress authorized the EPA to award \$357,342,986 in capitalization grants to the State of Mississippi (the State). The State is required to contribute \$71,468,597 in matching funds. In prior years the State was awarded hardship grants totaling \$1,045,000, which required matching contributions of \$52,250. Hardship grants are maintained in the same fund with capitalization grants, with subsidiary records to account for grant balances and transactions separately. Because all hardship grants have been obligated and paid out to grant recipients, there were no hardship grant payments made for the year ended June 30, 2018.

The Fund is administered by the Commission on Environmental Quality (the Commission) acting through the Construction Branch (the Branch) of the Surface Water Division of the Office of Pollution Control of MDEQ. MDEQ's primary activities include the making of loans for water pollution control facilities and the management and coordination of the Fund. The Commission consists of seven members, all of which are appointed by the Governor.

The Fund does not have any full-time employees. The Fund is administered by employees of the Branch. All employee and related costs are recorded in MDEQ's Office of Pollution Control Operating Fund. Operating costs are reimbursed from the avails of a 5% administrative fee collected from each loan. (See Note 6).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.

The Fund is included in the State's basic financial statements as a General Fund of the State of Mississippi.

Basis of Accounting

The Fund presents its financial statements as a General Fund and uses the modified accrual basis of accounting. Revenues are recognized when they are both "measurable and available". Measurable means the amount can be determined. Available means amounts collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures are recorded when the related liability is incurred. The Fund applies all relevant Governmental Accounting Standards Board (GASB) pronouncements, as well as applicable statements issued by the Financial Accounting Standards Board.

Equity in Internal Investment Pool

Monies of the Fund deposited with the State Treasurer's Office internal investment pool are considered cash and cash equivalents. According to state law, the Treasurer is responsible for maintaining the cash balances and investing excess cash of the Fund, as discussed in Note 3. Therefore, management of the Fund does not have any control over the investment of excess cash.

Due from Other Governments

The State operates the Fund as a direct loan program, whereby loans made to political subdivisions are funded by the federal capitalization grant, the state matching amount, loan repayments and interest earnings. Loan funds are disbursed to the political subdivision as they expend funds for the purposes of the loan and request reimbursement from the Fund. Interest is calculated from the original contract completion date, and after the final disbursement has been made, the principal amount identified in the loan agreement is adjusted for the actual amounts disbursed plus interest accrued during the period between the original construction contract completion date and the initiation of the repayment process.

Fund Balance

In accordance with Government Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions,* the governmental fund balance is classified as follows:

Restricted: includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation. The fund balance in the fund is Restricted for Recreation and Resources Development due to federal grant requirements, bond issuance provisions, and state and federal legislation.

Comparative Data

Comparative prior year totals have been presented in the accompanying financial statements to provide an understanding of the change in the Fund's financial condition and operations and are not intended to be a complete presentation of the prior year financial statements in accordance with accounting principles generally accepted in the United States of America.

Budget Information

Under the Constitution of the State of Mississippi, money may only be drawn from the Treasury by a legal appropriation. The Fund operations are included in MDEQ's annual budget.

3. EQUITY IN INTERNAL INVESTMENT POOL.

All monies of the Fund are deposited with the State Treasurer and are considered to be cash and cash equivalents. The Treasurer is responsible for maintaining the cash balances in accordance with state laws, and excess cash is invested in the State's cash and short-term investment pool. Details of the investments of the internal investment pool for state agencies can be obtained from the State Treasurer. As of June 30, 2018, the State's total pooled deposits and investments for State Agencies were approximately \$3.36 billion, and the average remaining life of the securities invested was 2.52 years. The earnings for the total special funds pooled investments for the year ended June 30, 2018 were approximately \$25.2 million.

Equity in internal investment pool is cash equity with the Treasurer and consists of pooled deposits and investments carried at cost, which approximates fair value. At June 30, 2018, the Fund had approximately \$104.8 million in the Treasurer's internal investment pool. The total deposits and investments of the internal investment pool are categorized according to credit risk in the State of Mississippi's Comprehensive Annual Financial Report. However, the Fund's portion of the internal investment pool cannot be individually categorized because the deposits and investments are pooled with other state agencies.

4. DUE FROM OTHER GOVERNMENTS AND CREDIT RISK.

The Fund makes loans to qualified political subdivisions for projects that meet the eligibility requirements of the Act. Loans are financed by capitalization grants, state match, loan repayments and interest earnings. Interest rates on loans vary between 1.75% and 4.5%, and are generally repaid over 20 years starting within one year after the project is completed. Details of loans receivable as of June 30, 2018, are discussed below:

In the event of a default on a loan obligation by a public entity, MDEQ has certain legal remedies available that provide for ultimate collection of amounts due.

Loans by Category

Due from other governments at June 30, 2018, is as follows:

		Loans Authorized	Authorized Amount Remaining	Cumulative Repayments	Balance
Completed projects	\$	753,552,674	46 621 927	387,371,080	366,181,594
Projects in progress		101,494,296	46,621,837		54,872,459
Totals	\$	855,046,970	46,621,837	387,371,080	421,054,053
Less amount due within one year on completed projects					(27,767,032)
Due from other governments, long-ter	m			9	393,287,021

Loans mature at various intervals through June 30, 2038. The scheduled principal payments on loans maturing in subsequent years are as follows:

Year Ending June 30:	Amount
2019	\$ 27,767,032
2020	27,601,144
2021	27,961,063
2022	27,819,649
2023	27,687,178
Thereafter	282,217,987
Total	\$421,054,053_

Major Loans to Political Subdivisions

As of June 30, 2018, the Fund had made loans to 29 local agencies that, in the aggregate, exceeded \$5,000,000 for each local agency. The outstanding balances of these loans represent approximately 76% of the total loans receivable, as follows:

			Loan
		Authorized	Receivable
		Loan	Balance at
Local Agency		Amount	June 30, 2018
	*		
DeSoto County WWA	\$	64,179,923	22,162,352

City of Clarksdale		5,221,222	3,506,772
Totals	\$	591,121,721	318,613,413

The authorized loan amount includes both completed projects and projects in progress. As of June 30, 2018, cumulative principal repayments on completed projects from the above local agencies total \$171,239,749 and amounts remaining to be disbursed on projects in progress total \$46,633,159.

5. GRANT AWARDS.

The Fund is funded by grants from the EPA authorized by Title VI of the Act, matching funds from the State, loan repayments and interest earnings. All funds drawn are recorded as grant awards from the EPA. As of June 30, 2018, the EPA has awarded capitalization and hardship grants of \$358,387,986 to the State, of which \$321,781,731 has been drawn for loans and administrative expenses.

The following summarizes the capitalization grants awarded, amounts drawn on each grant and balances available for future loans:

			Draws		Draws

State of Mississippi	\$ 64,171,011	53,058	64,224,069

6. ADMINISTRATIVE FEES/COSTS.

In connection with issuing loans to political subdivisions, certain administrative and processing functions are performed by the Construction Branch (the Branch) of the Surface Water Division of the Office of Pollution Control of MDEQ, as discussed in Note 1. To help fund the cost of such functions and MDEQ's indirect costs, a 5% administrative fee is collected from each loan. Until fiscal year 1999, administrative fees were added to the loan principal amount to be repaid by the loan recipient.

However, for all loans made after October 1, 1998, the 5% administrative fee is no longer added to the loan principal to be repaid by the loan recipient. Instead, it is collected through the loan repayment stream. Beginning with the initiation of the repayment process and until such time the total administrative fee is collected, the interest portion of each loan repayment is used to satisfy collection of the administrative fee in lieu of the interest portion. The administrative fees and costs related thereto are recognized on the financial statements of MDEQ's Office of Pollution Control SRF Administrative Fee Fund.

Administrative fees collected for the fiscal year ended June 30, 2018, totaled \$2,561,076 with additional amounts collected for interest totaling \$170,878 for total receipts of \$2,731,954. During that period, \$1,179,316 was expended from available administrative fee funds for administrative costs of the Fund. No additional administrative costs for fiscal year 2018 was drawn from the federal government.

7. CONTINGENCIES.

The Fund is exposed to various risks of loss related to torts, theft of assets, errors or omissions, injuries to State employees while performing Fund business, or acts of God. MDEQ maintains insurance coverage provided by the Mississippi Tort Claims Board for some risk of loss related to the Fund. Since its inception in 1989, there have not been any claims against the Fund.

8. HURRICANE KATRINA LOAN FORBEARANCE.

On August 29, 2005, Hurricane Katrina swept through Mississippi causing widespread destruction, including that to water and sewer operations. Some loan fund projects in progress, as well as, future projects included in the Intended Use Plan were impacted. The current portion of Due from Other Governments and loan repayments due for future years may be delayed if sales tax diversions of impacted areas are placed in abeyance for a period of time or if water and sewer collections from impacted areas are insufficient to support loan repayment schedules. The Commission has granted forbearance of loan repayment for up to eleven years to those water systems. In addition to a forbearance of loan repayments, the Commission will not accrue interest on those loans during the first two years of the forbearance period, or during the entire forbearance period for loans in Hancock County, consistent with State law. Federal and State law were recently amended to allow repayment of loans over a period of up to 30 years. At the end of each approved forbearance period the related loans have been restructured as appropriate. The last two loans which remained in forbearance were each restructured on October 21, 2016, with approximately half of the outstanding principal for each being split into separate loan agreements. Under these restructured loan agreements, repayments resumed on the first half (approximate) of the outstanding principal on January 1, 2017; and, repayments on the remainder of the outstanding principal are set to resume on January 1, 2019.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*

Commission on Environmental Quality Mississippi Department of Environmental Quality

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the State of Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund, as of and for the year ended June 30, 2018, and the related notes to the financial statements and have issued our report thereon dated October 15, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund's internal control to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

Independent Auditor's Report on Compliance with the Requirements Applicable to the Environmental Protection Agency's Capitalization Grants for Clean Water State Revolving Funds in Accordance with *Government Auditing Standards*

Commission on Environmental Quality Mississippi Department of Environmental Quality

We have audited the financial statements of the State of Mississippi Department of Environmental Quality Clean Water State Revolving Loan Fund (the Fund) as of and for the year ended June 30, 2018, and have issued our report thereon dated October 15, 2018.

We have also audited the Fund's compliance with requirements governing:

- Activities allowed or unallowed,
- Allowable costs/cost principles,
- Cash management,
- State matching,
- Period of availability of federal funds and binding commitments,
- Procurement, suspension and debarment,
- Program income,
- Reporting,
- Subrecipient monitoring, and
- Special tests and provisions

that are applicable to the Clean Water State Revolving Loan Fund Program for the year ended June 30, 2018. The management of the Clean Water State Revolving Loan Fund Program is responsible for the Fund's compliance with those requirements. Our responsibility is to express an opinion on those requirements based on our audit.

We conducted our audit of compliance with those requirements in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the Fund's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Fund's compliance with those requirements.

In our opinion, the Fund complied, in all material respects, with the requirements governing activities allowed or unallowed; allowable costs/cost principles; cash management; state matching; period of availability of federal funds and binding commitments; procurement suspension and debarment; program income; reporting; subrecipient monitoring; and special tests and provisions that are applicable to the Clean Water State Revolving Loan Fund Program for the year ended June 30, 2018.

This report is intended for the information and use of management of the Clean Water State Revolving Loan Fund, the Governor, members of the Legislature and the United States Environmental Protection Agency and is not intended to be and should not be used by anyone other than the specified parties.
