INDEPENDENT AUDITOR'S REPORT

Superintendent and School Board
Greenville Public School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenville Public School District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Greenville Public School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenville Public School District, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions (PERS), the Schedule of the District's Proportionate Share of the Net OPEB Liability, and the Schedule of District Contributions (OPEB) on pages 6-15, 53-54, 55, 56, 57, and 58, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Greenville Public School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds, and the other information section, which includes the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information

directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information mentioned above is fairly stated in all material respects in relation to the basic financial statements as a whole.

The other information section, which includes the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2019, on our consideration of the Greenville Public School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Greenville School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greenville Public School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**GREENVILLE PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

The following discussion and analysis of Greenville Public School District's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

- Total net position for 2018 decreased \$ 5,026,371, including a prior period adjustment of (\$5,513,419), which represents an 9% decrease from fiscal year 2017. Total net position for 2017 decreased \$3,488,977, including a prior period adjustment of (\$30,762), which represents a 7% decrease from fiscal year 2016.
- General revenues amounted to \$33,867,971 and \$36,388,685, or 73% and 77% of all revenues for fiscal years 2018 and 2017, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$12,419,738, or 27% of total revenues for 2018, and \$10,642,227, or 23% of total revenues for 2017.
- The District had \$45,800,661 and \$50,489,127 in expenses for fiscal years 2018 and 2017; only \$12,419,738 for 2018 and \$10,642,227 for 2017 of these expenses was offset by program specific charges for services, grants and contributions. General revenues of \$33,867,971 for 2018 were adequate to provide for these programs. General revenues of \$36,388,685 for 2017 were not adequate to provide for these programs.
- Among major funds, the General Fund had \$33,853,657 in revenues and \$33,052,297 in expenditures for 2018, and \$36,143,128 in revenues and \$33,905,397 in expenditures in 2017. The General Fund's fund balance increased by \$1,102,995, including a decrease in inventory of \$8,131, from 2017 to 2018, and increased by \$1,788,717, including a prior period adjustment of \$7,307 and a decrease in inventory of \$13,401, from 2016 to 2017.
- Capital assets, net of accumulated depreciation, decreased by \$244,861, including a prior period adjustment of (\$318,225), for 2018 and decreased by \$250,527 for 2017. The decrease for 2018 was due primarily to prior period adjustment.
- Long-term debt, including compensated absences payable, increased by \$407,739 for 2018 and decreased by \$934,645 for 2017. This increase for 2018 was due primarily to the inception of a capital lease for the purchase of school buses. The liability for compensated absences increased by \$22,036 for 2018 and decreased by \$797 for 2017.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplementary information, supplementary information, and other information.

**GREENVILLE PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances. These statements consist of the Statement of Net Position and the Statement of Activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents information on all the District's nonfiduciary assets, deferred outflows, liabilities, and deferred inflows, with the differences between them reported as "net position." Over time, increases or decreases in the District's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, pension expense, OPEB expense, and interest on long-term liabilities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds – Most of the District's general activities are reported in its governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the District's near-term financing decisions. The governmental funds Balance Sheet is reconciled to the Statement of Net Position, and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is reconciled to the Statement of Activities to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting*

**GREENVILLE PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Manual for Mississippi Public School Districts. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All non-major funds are combined and presented in these reports as other governmental funds.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. These funds are reported using the accrual basis of accounting. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental funds financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements. Capital outlay spending results in capital assets on government-wide financial statements but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on government-wide financial statements but are recorded as other financing sources on the governmental funds financial statements.

A net pension liability and net OPEB liability result in liabilities on the government-wide financial statements but are not reported on governmental funds financial statements.

Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements but are reported as expenditures on the governmental funds financial statements.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of District Contributions (PERS), Schedule of the District's Proportionate Share of the Net OPEB Liability, and Schedule of District Contributions (OPEB) as required supplementary information. The District adopts an annual operating budget for all governmental funds. A budgetary comparison schedule has been provided for the General Fund and each major special revenue fund as required by the Governmental Accounting Standards Board.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Supplementary Information

Additionally, a Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and a Schedule of Instructional, Administrative and Other Expenditures for governmental funds can be found in this report.

Other Information

Although not a required part of the basic financial statements, the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position

Net position may serve over time as a useful indicator of the District's financial position. Liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$58,834,189 as of June 30, 2018.

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

- Net cost of governmental activities [(\$33,380,923) for 2018 and (\$39,846,900) for 2017] was financed by general revenue, which is primarily made up of property taxes (\$10,272,097 for 2018 and \$10,276,007 for 2017) and state and federal revenues (\$23,278,743 for 2018 and \$25,522,801 for 2017). In addition, there was \$166,220 and \$142,926 in Sixteenth section sources for 2018 and 2017, respectively.
- Investment earnings amounted to \$76,190 for 2018 and \$29,836 for 2017.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$9,376,577, an increase of \$1,788,730, which includes a prior period adjustment of (\$3,935) and an increase in inventory of \$4,448. \$3,366,980 or 36% of the fund balance is unassigned, which represents the residual classification for the General Fund's fund balance that has not been assigned to other funds and that has not been restricted,

**GREENVILLE PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

committed, or assigned to specific purposes within the general fund. The remaining fund balance of \$6,009,597 or 64% is either nonspendable, restricted, committed or assigned to indicate that it is not available for spending except only for the purposes to which it is restricted, committed or assigned.

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was \$1,102,995, which included a decrease in inventory of \$8,131. The fund balance of Other Governmental Funds showed an increase in the amount of \$250,269, which includes a prior period adjustment of (\$3,935). The increase (decrease) in the fund balances for the other major funds were as follows:

Major Fund	Increase (Decrease)
Food Service Fund	\$ (94,835)
Tax Levy Debt Service Fund	530,301

BUDGETARY HIGHLIGHTS

During the year, the District revised the annual operating budget. Budget revisions were made to address and correct the original budgets to reflect more accurately the sources and uses of funding for the School District.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and each major special revenue fund is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2018, the District's total capital assets were \$27,036,182, including school buildings, building improvements, improvements other than buildings, buses, other school vehicles, leased equipment, and furniture and equipment. This amount represents an increase of \$470,490 from 2017, which includes a prior period adjustment of \$18,829. Total accumulated depreciation as of June 30, 2018, was \$15,690,604, and total depreciation expense for the year was \$512,162, resulting in total net capital assets of \$11,345,578.

Exhibit D-1

Net change in fund balances - total governmental funds \$ 1,788,217

Amounts reported for governmental activities in the statement of activities are different because:

1. Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 597,537	
Depreciation expense	<u>(512,162)</u>	85,375

2. In the statement of activities, only the gain/loss on the sale of assets is reported, while in the governmental funds, the proceeds from the sale increases financial resources. Thus, the change in Net Position differs from the change in fund balance by the cost of the assets sold.

	<u>(12,011)</u>	(12,011)
--	-----------------	----------

3. The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities:

Inception of capital lease	(563,500)	
Payments of debt principal	177,797

Contributions subsequent to the measurement date	<u>4,071,912</u>	(959,733)

5. Some items relating to OPEB and reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in the governmental funds. The activities include:

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

NOTE 1 – Summary of Significant Accounting Policies

The accompanying financial statements of the Greenville Public School District (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

As defined by accounting principles generally accepted in the United States of America, the school district is considered an "other stand alone government." The district is a related organization of, but not a component unit of, the city of Greenville, Mississippi, since the governing authority of the city selects a majority of the school district's board but does not have financial accountability for the district.

For financial reporting purposes, Greenville Public School District has included all funds and organizations. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Net position is reported in three categories:

1. Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.
2. Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

3. Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property taxes and other items not included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other governmental funds.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund.

Food Service Fund – This fund accounts for food distribution, the national school breakfast program, the national school lunch program, and child and adult care food programs as applicable.

Tax Levy Debt Service Fund – This fund accounts for the debt service of the qualified school construction bonds.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

The District's fiduciary funds include the following:

Student Club Funds – These funds account for the monies raised through student club activities.

Payroll Clearing Fund – This fund is used to report the payroll resources held by the district in a purely custodial capacity (assets and liabilities) and does not involve the measurement of the results of operations.

Accounts Payable Clearing Fund – This fund is used to report the resources of paid claims held by the district in a purely custodial capacity (assets and liabilities) and does not involve the measurement of the results of operations.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

Special Revenue Funds - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds - Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Permanent Funds - Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Fiduciary Fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property taxes, intergovernmental revenues (shared revenues, grants and reimbursements from other

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Ad valorem property taxes are levied by the governing authority of the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

The effect of inter-fund activity has been eliminated from the government-wide statements.

Revenues from the Mississippi Adequate Education Program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting*, issued in 2012 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 2014*, issued by the U.S. Department of Education.

D. Encumbrances

An encumbrance system is maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts. However, the school district attempts to liquidate all encumbrances at year-end. Encumbrances outstanding at year-end are not reported within committed or assigned fund balances.

E. Assets, liabilities, deferred outflows/inflows, and net position/fund balances

1. Cash, Cash equivalents and Investments

Cash and cash equivalents

The district's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

Investments

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

Investments for the district are reported at fair market value.

2. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e. the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Due from Other Governments

Due from other governments represents amounts due from the State of Mississippi and various grants and reimbursements from other governments.

4. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis). The costs of governmental fund type inventories are reported as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements.

5. Restricted Assets

Certain resources set aside for repayment of debt are classified as restricted assets on the Statement of Net Position because their use is limited by applicable debt statutes, e.g. Qualified School Construction Bond sinking funds. Also, the nonexpendable portion of the Permanent Fund, if applicable, is classified as restricted assets because the 16th Section Principal fund is not available for use by the district except as provided for under state statute for loans from this fund.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

6. Capital Assets

Capital assets include land, improvements to land, easements, water rights, timber rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Capital assets are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost or estimated historical cost based on appraisals or deflated current replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the thresholds in the table below.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Depreciation is calculated on the straight-line basis for all assets, except land.

The following schedule details the capitalization thresholds:

	Capitalization Policy	Estimated Useful Life
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed. See Note 5 for details.

7. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

Deferred outflows - Pensions

Deferred outflows - Postemployment Benefits Other Than Pensions (OPEB)

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows - Pensions

Deferred inflows - Postemployment Benefits Other Than Pensions (OPEB)

See Note 9, Note 10, and Note 17 for further information concerning deferred outflows and inflows of resources and liabilities relating to pensions and OPEB.

8. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law. A greater amount may be provided by school district policy provided that it does not exceed the provisions for leave as provided in Sections 25-3-93 and 25-3-95. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the liability for compensated absences from expendable available financial resources only if the payable has matured, for example, an employee retires.

9. Long-term Liabilities and Bond Discounts/Premiums

In the government-wide financial statements, outstanding debt is reported as liabilities. Bond discounts or premiums and the difference between reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures. See Note 6 for details.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Postemployment Benefits Other than Pensions (OPEB)

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State and School Employees' Life and Health Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Fiduciary net position was zero as of the measurement date of June 30, 2017.

12. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action of the School Board, the District's highest level of decision-making authority. This formal action is the approval of the commitment by the school board. Currently there is no committed fund balance for this school district.

Assigned fund balance includes amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the school district's business manager pursuant to authorization established by school board policy.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the District's general policy to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend committed resources first, followed

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

by assigned amounts, and then unassigned amounts.

Note 2 – Cash and Cash Equivalents, Cash with Fiscal Agents and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits and investments are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest excess funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposit or interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (c) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, not to exceed fifty percent of all monies invested with maturities of thirty days or longer; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or other interests in, any open-end or closed-end management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration, not to exceed twenty percent of invested excess funds. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Investment income of less than \$100 can be credited to the General Fund.

Cash and Cash Equivalents

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$6,979,657 and \$6,720, respectively.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation. Deposits above FDIC coverage are

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district.

Cash with fiscal agents

The carrying amount of the school district's cash with fiscal agents held by financial institutions at June 30, 2018, was \$29,225.

Investments

As of June 30, 2018, the district had the following investments.

<u>Investment Type</u>	<u>Rating</u>	<u>Maturities (in years)</u>	<u>Fair Value</u>
U.S. Treasury SLGS	N/A	Less than 10 years	\$ 2,969,263
Total			<u>\$ 2,969,263</u>

The district categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The district has the following recurring fair value measurements as of June 30, 2018:

- All investments are valued using quoted market prices (Level 1 inputs)

Interest Rate Risk. The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk.

Concentration of Credit Risk. Disclosure of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments

	Fiduciary funds	2,586
Fiduciary funds	General Fund	64,832
	Other governmental funds	41,284
Total		<u>\$ 1,461,362</u>

The amounts represent inter-fund balances created by loans from the General Fund to special revenue funds to provide adequate cash flow for those funds operating on an expenditure reimbursement basis. Cash is loaned to the funds for operational purposes, and the loans are repaid after reimbursement for grant expenditures is received. Amounts also included are amounts due to and from the governmental funds to and from clearing funds at June 30, 2018.

B. Advances To/From Other Funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>

Food Service Fund	General Fund	430,622
Other governmental funds	General Fund	69,283
Total		<u>\$ 1,534,334</u>

Transfers represent indirect costs from special revenue funds transferred to the General Fund and operational transfers between governmental funds.

Note 4 – Restricted Assets

The restricted assets represent the cash balance, totaling \$40,749, of the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs.

Also included in restricted assets are the cash with fiscal agent balance and the investment balance, totaling \$29,225 and \$2,969,263, respectively, of the Tax Levy Debt Service Fund (Debt Service Fund).

Total restricted assets shown on the Statement of Net Position is \$3,039,237.

C. Obligations under capital leases

The school district has entered into a lease agreement as lessee for financing the acquisition of seven (7) 2018 Blue Bird Vision buses at a cost of \$563,500. This lease qualifies as a capital lease for accounting purposes.

The various options available to the lessee for this lease are as follows:

1. The title of the buses transfers to the school district at the end of the lease term.

<u>Description</u>	<u>Interest Rate</u>	<u>Issue Date</u>	<u>Maturity Date</u>	<u>Amount Issued</u>	<u>Amount Outstanding</u>
Bus Lease, Series					
2017		9/15/2017	10/15/2021	\$ 563,500	445,703
Total				<u>\$ 563,500</u>	<u>445,703</u>

The following is a schedule by years of the total payments due on this debt:

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 107,013	12,034	119,047
2020	109,903	9,144	119,047
2021	112,870	6,177	119,047
2022	<u>115,917</u>	<u>3,130</u>	<u>119,047</u>
Total	<u>\$ 445,703</u>	<u>30,485</u>	<u>476,188</u>

The school district uses the straight-line method of amortization for the lease payments which is not in accordance with accounting principles generally accepted in the United States of America. However, the difference between the effective interest method and the straight-line method is not considered material.

This debt will be retired from the General Fund.

D. Compensated absences payable

As more fully explained in Note 1(E)(8), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

Note 7 – Other Commitments

The school district has several operating leases for the following:

1. 54 copiers

Lease expenditures for the year ended June 30, 2018, amounted to \$136,800.

Future lease payments for these leases are as follows:

Year Ending June 30	Amount
2019	\$ 136,800
2020	22,800
Total	<u>\$ 159,600</u>

Note 8 – Short-Term Financing

During the fiscal year ended June 30, 2018, the school district participated in the following short-term financing for the purpose of a tax anticipation note borrowing.

Tax Anticipation Note. The school district issued a revenue anticipation note payable in the amount of \$2,400,000 on November 30, 2017. The note was issued at an interest rate of 1.95% and was repaid on March 28, 2018. Total interest paid on the note was \$15,129.86. The note was issued in anticipation of ad valorem taxes budgeted for the 2018 year and repaid from those revenues.

Note 9 – Defined Benefit Pension Plan

General Information about the Pension Plan

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of

the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The employer's rate as of June 30, 2018 was 15.75% of annual covered payroll. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Section 25-11-1 of the Mississippi Code of 1972, as amended, and may be amended only by the Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2018, 2017 and 2016 were \$4,071,912, \$3,991,469 and \$4,420,898, respectively, which equaled the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the school district reported a liability of \$65,679,029 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the school district's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The school district's proportionate share used to calculate the June 30, 2018 net pension liability was 0.3951 percent, which was based on a measurement date of June 30, 2017. This was a decrease of 0.0437 percent from its proportionate share used to calculate the June 30, 2017 net pension liability, which was based on a measurement date of June 30, 2016.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

For the year ended June 30, 2018, the District recognized pension expense of \$5,031,645. At June 30, 2018 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,134,751	\$ 479,243
Net difference between projected and actual earnings on pension plan investments		437,207
Changes of assumptions	1,657,089	124,297
Changes in proportion and differences between District contributions and proportionate share of contributions		8,214,081
District contributions subsequent to the measurement date	4,071,912	
Total	\$ <u>6,863,752</u>	\$ <u>9,254,828</u>

\$4,071,912 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:	
2019	\$ (2,590,083)
2020	(1,958,758)
2021	(645,467)
2022	(1,268,680)

Actuarial assumptions. The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increases	3.25-18.50 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2022, with males rates set forward one year.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>		<u>Long-Term Expected Real Rate of Return</u>	
U.S. Broad	27.00	%	4.60	%
International Equity	18.00		4.50	
Emerging Markets Equity	4.00		4.75	
Global	12.00		4.75	
Fixed Income	18.00		0.75	
Real Estate	10.00		3.50	
Private Equity	8.00		5.10	
Emerging Debt	2.00		2.25	
Cash	1.00		0.00	
Total	100	%		

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Employer contributions will be made at the current employer contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
District's proportionate share of the net pension liability	\$ 86,142,432	\$ 65,679,029	\$ 48,689,959

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Note 10 – Other Postemployment Benefits (OPEB)

General Information about the OPEB Plan.

Plan description. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). The Plan was established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan. The Board has the sole legal authority to promulgate rules and regulations governing the operations of the Plan within the confines of the law governing the Plan. The Plan is self-insured and is financed through premiums collected from employers, employees, retirees and COBRA participants. The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan. A trust was created June 28, 2018 for the OPEB Plan and, while no trust was in place for the June 30, 2017 plan year-end, for purposes of comparability for future periods, terminology used herein is based on the plan being a cost-sharing multiple-employer defined benefit OPEB plan. The plan does not issue a stand-alone financial report.

Benefits provided.

The Plan was formed by the State Legislature to provide group health and life benefits to full-time active and retired employees of the State, agencies, universities, community/junior colleges, public school districts and public libraries. In addition, the spouse and/or children of covered employees and retirees, as well as surviving spouses and COBRA participants, may be eligible for health insurance coverage under the Plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan. Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance. The Plan offers a Base option and a Select option for health benefits for non-Medicare participants. The Plan includes a separate coverage level for Medicare eligible retirees, Medicare Eligible surviving spouses, and Medicare eligible dependents of retirees and surviving spouses.

Contributions.

The Board has the sole authority for setting life and health insurance premiums for the Plan. The required premiums vary based on the plan selected and the type of participant. Employers pay no premiums for

retirees while employees' premiums are funded primarily by their employer. Contributions to the OPEB plan from the District were \$202,479 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

At June 30, 2018, the District reported a liability of \$4,749,517 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The basis for the District's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the Plan in the fiscal year of all employers. The allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by the employee. At the measurement date of June 30, 2017, the District's proportion was 0.60533552 percent. This was a decrease of 0.02426286 percent from the proportionate share as of the measurement date of June 30, 2016.

For the year ended June 30, 2018, the District recognized OPEB expense of \$206,174. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$
Changes of assumptions		241,844
Net difference between projected and actual earnings on OPEB plan investments		
Changes in proportion and differences between District contributions and proportionate share of contributions		168,536
District contributions subsequent to the measurement date	202,479	
Total	\$ <u>202,479</u>	\$ <u>410,380</u>

\$202,479 reported as deferred outflows of resources related to OPEB resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Actuarial assumptions. The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00 percent
Salary increases	3.25-18.50 percent, including wage inflation
Long-term Investment Rate of Return, net of OPEB plan investment expense, including inflation	N/A

Health Care Cost Trends	
Medicare Supplement Claims	7.75 percent for 2017 decreasing to an ultimate rate of 5.00 percent by 2023
Pre-Medicare	

Both pre-retirement and post-retirement mortality rates were based on the RP 2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, male rates set forward 1 year and adjusted by 106% for males at all ages, and females adjusted to 90% for ages less than 76, 95% for age 76, 105% for age 78 and

110% for ages 79 and greater. Post-disability mortality rates were based on the RP 2014 Disabled Retiree Mortality Table set forward 4 years for males and 3 years for females.

The demographic actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study dated April 18, 2017.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017 valuation were based on a review of recent plan experience done concurrently with the June 30, 2017 valuation.

The plan had no assets as of the measurement date of 2017.

Discount rate. The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.56 percent. Since the Prior Measurement Date, the Discount Rate has changed from 3.01% to 3.56%.

Since no trust was set up as of June 30, 2017, there was no projection of cash flows for the Plan and the Plan was projected to be depleted in 2017.

The discount rate determination will use a municipal bond rate to the extent the trust is projected to run out of money before all benefits are paid. The rate used, if necessary, for this purpose is the average of the Bond Buyer General Obligation 20-year Municipal Bond Index Rates during the month of June published at the end of each week by the Bond Buyer.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.56 percent) or 1-percentage-point higher (4.56 percent) than the current discount rate:

	1% Decrease (2.56%)	Discount Rate (3.56%)	1% Increase (4.56%)
Net OPEB liability	\$ 4,874,949	\$ 4,749,517	\$ 4,656,108

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Healthcare Cost Trend Rates Current	1% Increase

Note 11 – Sixteenth Section Lands

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

Note 13 – Contingencies

Federal Grants – The school district has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from the grantor audit may become a liability of the school district.

Litigation – The school district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to the various proceedings.

Note 14 – Risk Management

The school district is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 15 – Qualified School Construction Bonds

Section 1521 of the American Recovery and Reinvestment Act (ARRA) of 2009 provides for a source of capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the construction, rehabilitation or repair of a public school facility or for the acquisition of land where a school will be built. Investors receive Federal income tax credits at prescribed tax credit rates in lieu of interest, which essentially allows state and local governments to borrow without incurring interest costs. While Qualified School Construction Bonds (QSCBs) are intended to be interest free to a borrower, the ARRA legislation allows a lender to charge supplemental interest, and such supplemental interest is the responsibility of the school district.

When the stated interest rate on the QSCB results in interest payments that exceed the supplemental interest payments discussed in the preceding paragraph, the school district may apply for a direct cash subsidy payment from the U.S. Treasury which is intended to reduce the stated interest rate to a nominal percentage. These subsidy payments do not include the amount of any supplemental interest paid on a QSCB. For the year ended June 30, 2018, the subsidy payments amounted to \$440,800.

The school district makes equal annual payments into a sinking fund which is used to pay off the bonds at termination. The current maturity limit of tax credit bonds is 17 years, per the U. S. Treasury Department.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR YEAR ENDED JUNE 30, 2018**

Under this program, ten percent of the proceeds must be subject to a binding commitment to be spent within six months of issuance and 100% must be spent within three years. Up to two percent of bond proceeds can be used to pay costs of issuance. The amount on deposit at June 30, 2018 was \$2,998,488, which included \$29,225 cash with fiscal agents and \$2,969,263 investments. The amount accumulated in the sinking fund at the maturity date of the bonds is expected to be sufficient to retire the debt. The following schedule reports the annual deposits to be made to the sinking fund by the school district.

Note 16 - Insurance loss recoveries

The Greenville Public School District received \$280,790 in insurance loss recoveries during the 2017-2018 fiscal year related to property damages. In the government-wide Statement of Activities, the insurance loss recoveries were reported as charges for services and were allocated to the support services expense function.

Note 17 – Effect of Deferred Amounts on Net Position

The unrestricted net position (deficit) amount of (\$69,504,814) includes the effect of deferred inflows/outflows of resources related to pensions. A portion of the deferred outflow of resources related to pensions in the amount of \$4,071,912 resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. The \$2,791,840 balance of the deferred outflow of resources related to pensions at June 30, 2018 will be recognized as pension expense and will decrease the unrestricted net position amount over the next 3 years. The \$9,254,828 balance of the deferred inflow of resources related to pensions at June 30, 2018 will be recognized as a reduction of pension expense and will increase the unrestricted net position amount over the next 4 years.

The unrestricted net position (deficit) amount of (\$69,504,814) includes the effect of deferred inflows/outflows of resources related to OPEB. The deferred outflow of resources related to OPEB in the amount of \$202,479 resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred inflows of resources totaling \$410,380 related to OPEB at June 30, 2018, will be recognized as OPEB revenue and increase unrestricted net position over the next 6 years.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018**

Budgetary Comparison Schedule

1. Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

2. Budget Amendments and Revisions

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15. A budgetary comparison is presented for the General Fund and each major special revenue fund consistent with accounting principles generally accepted in the United States of America.

Pension Schedules

1. Changes of assumptions

2015:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

2016:

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

2017:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

**GREENVILLE PUBLIC SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018**

The wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

2. Changes in benefit provisions

2016:

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

3. Method and assumptions used in calculations of actuarially determined contributions.

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2015 valuation for the June 30, 2017 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	33.9 years
Asset valuation method	5-year smoothed market
Price Inflation	3.00 percent
Salary increase	3.75 percent to 19.00 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

OPEB Schedules

1. *Changes of assumptions*

2017: The discount rate was changed from 3.01% for the prior Measurement Date to 3.56% for the current Measurement Date.

2. *Changes in benefit provisions*

2017: None

3. *Methods and assumptions used in calculations of Actuarially Determined Contributions.* The Actuarially Determined Contributions rates, as a percentage of payroll, used to determine the Actuarially Determined Contribution amounts in the Schedule of Employer Contributions are

NOTES TO THE SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2018**

Schedule of Expenditures of Federal Awards

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Greenville Public School District under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Greenville Public School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Greenville Public School District.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

3. Indirect Cost Rate

The Greenville Public School District has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

REPORT ON INTERNAL CONTROL AND COMPLIANCE

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Superintendent and School Board
Greenville Public School District
Greenville, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenville Public School District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Greenville Public School District's basic financial statements, and have issued our report thereon dated September 16, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Greenville Public School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Greenville Public School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Greenville Public School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as 2018-001 and 2018-002 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Greenville Public School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2018-003, and 2018-004.

Greenville Public School District's Responses to Findings

Greenville Public School District's responses to the findings identified in our audit are described in the accompanying Auditee's Corrective Action Plan. Greenville Public School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Superintendent and School Board
Greenville Public School District
Greenville, Mississippi

Report on Compliance for Each Major Federal Program

We have audited the Greenville Public School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Greenville Public School District's major federal programs for the year ended June 30, 2018. The Greenville Public School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Greenville Public School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Greenville Public School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Greenville Public School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the Greenville Public School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Greenville Public School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Greenville Public School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as item 2018-003 and 2018-004 that we consider to be a material weakness.

Greenville Public School District's responses to the internal control over compliance finding identified in our audit is described in the accompanying Auditee's Corrective Action Plan. Greenville Public School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board
Greenville Public School District
Greenville, Mississippi

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenville Public School District as of and for the year ended June 30, 2018, which collectively comprise Greenville Public School District's basic financial statements and have issued our report thereon dated September 16, 2019. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds." As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance. The district reported no classroom supply funds carried over from previous years.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of our procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed an instance of noncompliance described in Finding SL-2018-1 with other state laws and regulations.

The Office of the State Auditor or a public accounting firm will review, on the subsequent year's audit engagement, the finding in this report to ensure that corrective action has been taken.

The Greenville Public School District's response to the finding included in this report was not audited and, accordingly, we expressed no opinion on it.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies, the Office of the State Auditor and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Section II: Summary of Auditor's Results

Material Weaknesses

2018-001

Criteria: An effective system of internal control requires proper segregation of duties to the greatest extent possible.

Condition: The school district has assigned only one individual to receive cash, prepare the receipts, enter the receipts into the accounting system, download or access bank statements online, and reconcile the bank accounts.

Cause: This is the result of inadequate job assignments to ensure proper segregation of duties.

Effect: This increased the risk that misstatements, due to error or fraud, could occur and not be detected in a timely manner.

Recommendation: We recommend that the district strengthen its internal controls whereby duties will be divided to the greatest extent possible.

Response: See Corrective Action Plan.

2018-002

Criteria: An effective system of internal controls require the bank reconciliations be prepared accurately and timely and any identified unreconciled differences be resolved in a timely manner.

This is a repeat finding from fiscal year ending June 30, 2017.

Condition: During our test work, we found that bank reconciliations had not been prepared accurately and in timely manner.

Effect: A delay in accurate bank reconciliations results in a weakness in the system of internal controls over cash.

Cause: Cash accounts were not reconciled properly in a timely manner.

Recommendation: The District should establish and maintain an effective internal control system over cash and ensure that all bank reconciliations are prepared correctly on a monthly basis.

Response: See Corrective Action Plan.

**GREENVILLE PUBLIC SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2018**

Section III: Federal Award Findings and Questioned Costs

2018-003

Programs: Child nutrition cluster: National school breakfast program – CFDA 10.553, National school lunch program – CFDA 10.555, Summer food service program for children – CFDA 10.559; Title I grants to local educational agencies – CFDA 84.010; Special education cluster: Special education - grants to states – CFDA 84.027, Special education - preschool grants – CFDA 84.173.

Compliance Requirement: Cash management

Criteria: An effective system of internal controls require the bank reconciliations be prepared accurately and timely and any identified unreconciled differences be resolved in a timely manner.

This is a repeat finding from fiscal year ending June 30, 2017.

Condition: During our test work, we found that bank reconciliations had not been prepared accurately and timely.

Effect: A delay in accurate bank reconciliations results in a weakness in the system of internal controls over cash.

Cause: Cash accounts were not reconciled properly in a timely manner.

Recommendation: The District should establish and maintain an effective internal control system over cash and ensure that all bank reconciliations are prepared correctly on a monthly basis.

Response: See Corrective Action Plan.

2018-004

Special Reporting

Programs: Child nutrition cluster: national school breakfast program – CFDA 10.553, National school lunch program – CFDA 10.555, summer food service program for children – CFDA 10.559; Title I grants to local educational agencies – CFDA 84.010; Special education cluster: special education - grants to states – CFDA 84.027, special education - preschool grants – CFDA 84.173.

Pass-Through Entity:
Mississippi Department of Education

Criteria: In accordance with 2 CFR § 200.512- Report Submission, "the single audit must be completed and the data collection form and reporting package must be submitted within the earlier of 30 calendar days after receipt of the auditor's report(s), or nine months after the end of the audit period."

Condition: The required data collection form and reporting package to the Federal Audit Clearinghouse was not submitted within established timeframe.

**GREENVILLE PUBLIC SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2018**

Cause: There was a delay in preparation of the financial statements on a timely basis.

Effect: The School District did not comply with Federal reporting regulations.

Questioned Costs: For the purposes of this finding, we have not questioned any costs.

Perspective: This finding will result in the auditee being considered high-risk auditee in at least the next two audit periods.

Recommendation: We recommend that the School District strengthen its internal control systems over reporting to ensure single audit reporting package and data collection form are submitted to the Federal Audit Clearinghouse within established timeframe and financial statements are prepared timely.

Response: See Corrective Action Plan.

SL-2018-1

Criteria: Section 37-61-21, Miss. Code Ann. (1972), requires the Mississippi School Districts to have final amended budget approved by October 15.

Condition: While the district board minutes reflect approval of the combined FY18 amended budget, the board minutes did not include budgets for individual funds.

Cause: A misinterpretation of the requirements for approval of the amended budget by district staff, resulted in non-compliance.

Effect: The district was not in compliance with the Section 37-61-21, Miss. Code Ann. (1972).

Recommendation: The District should have final amended (combined and combining) budgets approved by October 15.

Response: See Corrective Action Plan.
