FINANCIAL AUDIT REPORT

INDEPENDENT AUDITOR'S REPORT ON THE BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

Superintendent and School Board Holmes County School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Holmes County School District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Holmes County School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

1929 SPILLWAY ROAD, SUITE B BRANDON, MISSISSIPPI 39047 TELEPHONE 601-992-5292 FAX 601-992-2033

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Holmes County School District, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the school district adopted Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. As a result, net position as of July 1, 2017, has been restated. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of District Contributions (PERS), the Schedule of the District's Proportionate Share of the Net OPEB Liability, and the Schedule of District Contributions (OPEB) on pages 8 - 19 and 66 - 74, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Holmes County School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds, and the other information section, which includes the Statement of Revenues, Expenditures and Changes in Fund Balances - General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances - All

Governmental Funds, Last Four Years are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information mentioned above is fairly stated in all material respects in relation to the basic financial statements as a whole.

The other information section, which includes the Statement of Revenues, Expenditures and Changes in Fund Balances - General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Funds, Last Four Years has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 22, 2019, on our consideration of the Holmes County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Holmes County School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Holmes County School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis For the Year Ended June 30, 2018

The following discussion and analysis of Holmes County School District's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

- Total net position for 2018 decreased \$433,697, including a prior period adjustment of (\$2,627,626), due primarily to the effect of recording the net OPEB liability, which represents a 4% decrease from fiscal year 2017. Total net position for 2017 increased \$512,670, which represents a 5% increase from fiscal year 2016.
- General revenues amounted to \$20,188,505 and \$20,461,106, or 73% and 74% of all revenues for fiscal years 2018 and 2017, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$7,563,584, or 27% of total revenues for 2018, and \$7,189,209, or 26% of total revenues for 2017.
- The District had \$25,558,160 and \$27,137,645 in expenses for fiscal years 2018 and 2017; only \$7,563,584 for 2018 and \$7,189,209 for 2017 of these expenses was offset by program specific charges for services, grants and contributions. General revenues of \$20,188,505 for 2018 and \$20,461,106 for 2017 were adequate to provide for these programs.
- Among the major funds, the General Fund had \$19,186,735 in revenues and \$18,019,767 in expenditures for 2018, and \$19,373,169 in revenues and \$17,017,332 in expenditures for 2017. The General Fund's fund balance increased by \$1,687,526, including a prior period adjustment of (\$2,668), from 2017 to 2018, and increased by \$2,171,613, from 2016 to 2017.
- Capital assets, net of accumulated depreciation, decreased by \$357,935, for 2018 and decreased by \$467,653, for 2017. The decrease for 2018 was due primarily to the recording of depreciation expense during the year.
- Long-term debt decreased by \$570,000 for 2018 and decreased by \$550,000 for 2017. This decrease for 2018 was due primarily to principal payments on long-term debt. The liability for compensated absences decreased by \$3,045 for 2018 and decreased by \$6,114 for 2017.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplementary information, supplementary information, and other information.

Management's Discussion and Analysis For the Year Ended June 30, 2018

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances. These statements consist of the Statement of Net Position and the Statement of Activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents information on all the District's nonfiduciary assets, deferred outflows, liabilities, and deferred inflows, with the differences between them reported as "net position." Over time, increases or decreases in the District's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section, pension expense, OPEB expense, and interest on long-term liabilities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds - Most of the District's general activities are reported in its governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the

Management's Discussion and Analysis For the Year Ended June 30, 2018

long-term impact of the District's near-term financing decisions. The governmental funds Balance Sheet is reconciled to the Statement of Net Position, and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is reconciled to the Statement of Activities to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All non-major funds are combined and presented in these reports as other governmental funds.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. These funds are reported using the accrual basis of accounting. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental funds financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements.

Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on government-wide financial statements, but are recorded as other financing sources on the governmental funds financial statements.

A net pension liability and net OPEB liability result in liabilities on the government-wide financial statements but are not reported on governmental funds financial statements.

Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

Management's Discussion and Analysis For the Year Ended June 30, 2018

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of District Contributions (PERS), Schedule of the District's Proportionate Share of the Net OPEB Liability, and Schedule of District Contributions (OPEB) as required supplementary information. The District adopts an annual operating budget for all governmental funds. A budgetary comparison schedule has been provided for the General Fund and each additional major special revenue fund as required by the Governmental Accounting Standards Board.

Supplementary Information

Additionally, a Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and a Schedule of Instructional, Administrative and Other Expenditures for governmental funds can be found in this report.

Other Information

Although not a required part of the basic financial statements, the Statement of Revenues, Expenditures and Changes in Fund Balances - General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

Net Position may serve over time as a useful indicator of the District's financial position. Liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$10,557,861 as of June 30, 2018.

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

Management's Discussion and Analysis For the Year Ended June 30, 2018

Table 1 presents a summary of the District's net position at June 30, 2018 and June 30, 2017.

Table 1 Condensed Statement of Net Position

	_	June 30, 2018	June 30, 2017	Percentage

Management's Discussion and Analysis For the Year Ended June 30, 2018

Additional information on unrestricted net position:

In connection with the application of standards on accounting and financial reporting for pensions and OPEB, management presents the following additional information:

Total unrestricted net position (deficit)	\$ (28,807,889)
Less unrestricted deficit in net position resulting from recognition of the net pension liability and net OPEB liability including the related	
deferred outflows and deferred inflows	35,396,577
Unrestricted net position, exclusive of the net pension liability and net OPEB liability effect	\$ 6,588,688

The following are significant current year transactions that have had an impact on the Statement of Net Position:

- Decrease in net capital assets in the amount of \$357,935.
- The principal retirement of \$570,000 of long-term debt.
- Implementation of GASB 75 which resulted in the recognition of a net OPEB liability in the amount of \$2,472,383.

Changes in net position

The District's total revenues for the fiscal years ended June 30, 2018 and June 30, 2017 were \$27,752,089 and \$27,650,315, respectively. The total cost of all programs and services was \$25,558,160 for 2018 and \$27,137,645 for 2017.

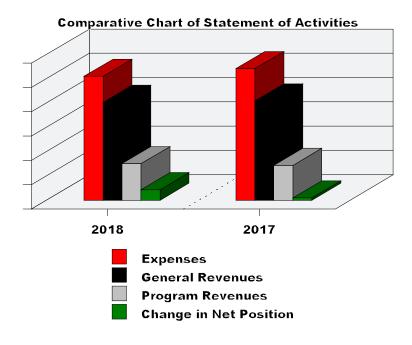

Table 2 presents a summary of the changes in net position for the fiscal years ended June 30, 2018 and June 30, 2017.

Management's Discussion and Analysis For the Year Ended June 30, 2018

Governmental activities

The following table presents the cost of seven major District functional activities: instruction, support services, non-instructional, sixteenth section, pension expense, OPEB expense, and interest on long-term liabilities. The table also shows each functional activity's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost presents the financial burden that was placed on the State and District's taxpayers by each of these functions.

Chart of Expenses as per Statement of Activities

- Net cost of governmental activities (\$17,994,576 for 2018 and \$19,948,436 for 2017) was financed by general revenue, which is primarily made up of property taxes (\$5,157,242 for 2018 and \$4,975,002 for 2017) and state and federal revenues of (\$14,159,535 for 2018 and \$14,828,770 for 2017). In addition, there was \$807,785 and \$577,092 in Sixteenth Section sources for 2018 and 2017, respectively.
- Investment earnings amounted to \$48,709 for 2018 and \$20,438 for 2017. Decrease in fair market value amounted to \$32,073 for 2018.

Management's Discussion and Analysis For the Year Ended June 30, 2018

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$12,119,808, an increase of \$2,026,620, which includes a decrease in inventory of \$37,167. \$6,656,725, or 55% of the fund balance is unassigned, which represents the residual classification for the general fund's fund balance that has not been assigned to other funds and that has not been restricted, or assigned to specific purposes within the general fund. The remaining fund balance of \$5,463,083 or 45% is either nonspendable, restricted or assigned to indicate that it is not available for spending except only for the purposes to which it is restricted or assigned.

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was \$1,687,526, including a prior period adjustment of (\$2,668). The fund balance of Other Governmental Funds showed an increase in the amount of \$154,665, which includes a prior period adjustment of \$2,668 and a decrease in inventory of \$37,167. The increase (decrease) in the fund balances for the other major funds were as follows:

Major Fund		Increase (Decrease)		
Title I Fund		no increase or decrease		
QZAB Debt Retirement Fund	\$	184,429		

BUDGETARY HIGHLIGHTS

During the year, the District revised the annual operating budget. Budget revisions were made to address and correct the original budgets to reflect more accurately the sources and uses of funding for the Holmes County School District.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and each major special revenue fund is provided in this report as required supplementary information.

Management's Discussion and Analysis For the Year Ended June 30, 2018

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2018, the District's total capital assets were \$33,363,868, including land, school buildings, building improvements, improvements other than buildings, mobile equipment, buses, other school vehicles and furniture and equipment. This amount represents an increase of \$95,250 from 2017. Total accumulated depreciation as of June 30, 2018, was \$14,848,863, and total depreciation expense for the year was \$745,750, resulting in total net capital assets of \$18,515,005.

Table 4
Capital Assets, Net Accumulated Depreciation

Additional information on the District's long-term debt can be found in Note 6 included in this report.

CURRENT ISSUES

The Holmes County School District is financially stable. The District is proud of its community support of the public schools.

The District has committed itself to financial excellence for many years. The District's system of financial planning, budgeting and internal financial controls is well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

The District actively pursues grant funding to supplement the local, state and federal revenues.

Enrollment for the 2017 - 2018 year decreased 1% to 2,539 students.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

If you have questions about this report, contact the Superintendent's Office of the Holmes County School District, PO Box 630, Lexington, MS 39095.

Notes to the Financial Statements For the Year Ended June 30, 2018

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 1 - Summary of Significant Accounting Policies

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

As defined by accounting principles generally accepted in the United States of America, the school district is considered a "primary government." The school district is governed by a five member board to which each board member board is elected by the citizens of each defined county district.

For financial reporting purposes, Holmes County School District has included all funds and organizations. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of
accumulated depreciation, and reduced by outstanding balances of bonds,
notes and other debt attributable to the acquisition, construction or
improvement of those assets.

Notes to the Financial Statements For the Year Ended June 30, 2018

- 2. Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property taxes and other items not included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other governmental funds.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund.

Title I Fund - This is a special revenue fund that accounts for federal sources received and expenditures incurred under the Title I grants to local educational agencies program.

QZAB Debt Retirement Fund - This is a debt service fund that accounts for annual deposits to be paid to the Qualified Zone Academy Bond Debt.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

The District's fiduciary funds include the following:

Payroll Clearing Fund - This fund serves as a clearing fund for payroll type transactions.

Notes to the Financial Statements For the Year Ended June 30, 2018

Student Club Funds - These various funds account for the monies raised through school club activities and fund raisers and club related expenditures approved by the individual clubs.

Accounts Payable Clearing - This fund is used as a clearing account for non-payroll transactions.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

<u>Special Revenue Funds</u> - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

<u>Debt Service Funds</u> - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

<u>Permanent Funds</u> - Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

FIDUCIARY FUNDS

<u>Agency Funds</u> - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Fiduciary Fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this

Notes to the Financial Statements For the Year Ended June 30, 2018

purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property taxes, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Ad valorem property taxes are levied by the governing authority of the county on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

The effect of inter-fund activity has been eliminated from the government-wide statements.

Revenues from the Mississippi Adequate Education Program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting*, issued in 2012 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for*

Notes to the Financial Statements For the Year Ended June 30, 2018

Local and State School Systems, 2014, issued by the U.S. Department of Education.

D. Encumbrances

An encumbrance system is not maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts.

E. Assets, liabilities, deferred outflows/inflows, and net position/fund balances

1. Cash, Cash equivalents and Investments

Cash and cash equivalents

The district's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Investments

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Sections 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

Investments for the district are reported at fair market value.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Notes to the Financial Statements For the Year Ended June 30, 2018

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Due from Other Governments

Due from other governments represents amounts due from the State of Mississippi and various grants and reimbursements from other governments.

4. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis). The costs of governmental fund type inventories are reported as expenditures when purchased.

Prepaid items, such as prepaid insurance, are not reported for governmental fund types since the costs of such items are accounted for as expenditures in the period of acquisition.

5. Restricted Assets

Certain resources set aside for repayment of debt are classified as restricted assets on the Statement of Net Position because their use is limited by applicable debt statutes, e.g. Qualified Zone Academy Bond and Qualified School Construction Bonds sinking funds. Also, the nonexpendable portion of the Permanent Fund, if applicable, is classified as restricted assets because the 16th Section Principal fund is not available for use by the district except as provided for under state statute for loans from this fund.

6. Capital Assets

Capital assets include land, improvements to land, easements, water rights, timber rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Capital assets are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost or estimated historical cost based on appraisals or deflated current replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or

Notes to the Financial Statements For the Year Ended June 30, 2018

> materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the thresholds in the table below.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Depreciation is calculated on the straight-line basis for all assets, except land.

The following schedule details the capitalization thresholds:

	_	Capitalization Policy	Estimated Useful Life
Land	\$	0	0
Buildings		50,000	40 years
Building Improvements		25,000	20 years
Improvements other than buildings		25,000	20 years
Mobile equipment		5,000	5-10 years
Furniture and equipment		5,000	3-7 years
Leased property under capital leases		*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed. See Note 5 for details.

7. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The school district have deferred outflows which are presented as deferred outflows for pensions and OPEB.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods an so will not be recognized as an inflow of resources (revenue) until that time. The school

Notes to the Financial Statements For the Year Ended June 30, 2018

district have deferred inflows which are presented as a deferred inflows for pensions and OPEB.

See Note 14 for further details.

8. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law. A greater amount may be provided by school district policy provided that it does not exceed the provisions for leave as provided in Sections 25-3-93 and 25-3-95. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the liability for compensated absences from expendable available financial resources only if the payable has matured, for example, an employee retires.

9. Long-term Liabilities and Bond Discounts/ Premiums

In the government-wide financial statements, outstanding debt is reported as liabilities. Bond discounts or premiums and the difference between reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures. See Note 6 for details.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at

Notes to the Financial Statements For the Year Ended June 30, 2018

fair value.

11. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State and School Employees' Life and Health Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Fiduciary net position was zero as of the measurement date of June 30, 2017.

12. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action of the School Board, the District's highest level of decision-making authority. Currently there is no committed fund balance for this school district.

Assigned fund balance includes amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is

Notes to the Financial Statements For the Year Ended June 30, 2018

the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the Superintendent and Business Manager pursuant to authorization established by the policy adopted by the school district.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the District's general policy to use restricted resources first. When expenditures/expense are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

It is the goal of the District to achieve and maintain an unassigned fund balance in the general fund at fiscal year end of not less than 7% of actual received revenues. If the unassigned fund balance at fiscal year end falls below the goal, the District shall develop a restoration plan to achieve and maintain the minimum fund balance.

13. New Pronouncements

In June 2017, the GASB issued GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This statement is effective for fiscal years beginning after June 15, 2017.

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 2 - Cash and Cash Equivalents, Cash with Fiscal Agents, and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits and investments are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest excess funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposits or interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (c) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, not to exceed fifty percent of all monies invested with maturities of thirty days or longer; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or other interests in, any open-end or closed-end management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration, not to exceed twenty percent of invested excess funds. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Investment income of less than \$100 can be credited to the General Fund.

Cash and Cash Equivalents

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$8,924,909 and \$618,554, respectively.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district

Notes to the Financial Statements For the Year Ended June 30, 2018

does not have a deposit policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2018, none of the district's bank balance of \$10,603,473 was exposed to custodial credit risk.

Cash with Fiscal Agents

The carrying amount of school district's cash with fiscal agents held by financial institutions was \$27,146.

Investments

As of June 30, 2018, the district had the following investments:

_		Maturities	
Investment Type	Rating	(in years)	Fair Value
US Government Securities	No Rating	1-5	\$ 2,290,788

The School Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable in puts.

The School Board has the following recurring fair value measurements as of June 30, 2018:

• Level 1 type of investments of \$2,290,788 are valued using quoted market prices (Level 1 inputs)

Interest Rate Risk. The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investments choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk. As of June 30, 2018, the district did not have any investments to which this would apply.

Notes to the Financial Statements For the Year Ended June 30, 2018

Concentration of Credit Risk. Disclosure of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments.

Note 3 - Inter-fund Receivables, Payables, and Transfers

The following is a summary of inter-fund transactions and balances:

A. Due From/To Other Funds

Receivable Fund	Payable Fund	 Amount	
General Fund	Title I Fund	\$ 559,197	
	Fiduciary Funds	2,184	
	Other Governmental Funds	254,313	
Other Governmental Funds	General Fund	 91,408	
Total		\$ 907,102	

The purpose of the Due From/To Other Funds was to cover deficit cash balances at year end.

B. Advances To/From Other Funds

Receivable Fund	Payable Fund		Amount	
General Fund	Fiduciary Funds	\$	4,050	
Other Governmental Funds	General Fund		844,104	
Total		\$	848,154	

The sixteenth section principal loans payable are not reflected on the Statement of net Position because these funds were borrowed by the General Fund from the Sixteenth Section Trust Fund (Permanent Trust) in accordance with Section 29-3-113, Miss. Code Ann. (1972). The revenues and expenditures associated with these transactions are reflected on the Statement of Revenues, Expenditures and Changes in Fund Balances. The interest rate on the sixteenth section principal loans payable as of June 30, 2018 is 4.0 percent.

Notes to the Financial Statements For the Year Ended June 30, 2018

The following is a schedule by years of the total payments due on this debt:

Year Ending			
June 30	Principal	Interest	Total
2019	\$ 56,177	33,764	89,941
2020	58,424	31,517	89,941
2021	60,761	29,180	89,941
2022	63,191	26,750	89,941
2023	65,719	24,222	89,941
2024 - 2028	370,194	79,512	449,706
2029 - 2030	169,638	10,245	179,883
Total	\$ 844,104	235,190	1,079,294

Advances totaling \$4,050 were for cash flow purposes.

C. Inter-fund Transfers

Transfers In Transfers Out		 Amount
General Fund	Title I Fund	\$ 59,796
	Other Governmental Funds	73,203
Title I Fund	Other Governmental Funds	213,889
Other Governmental Funds	General Fund	99,510
	Other Governmental Funds	 126,653
Total		\$ 573,051

The purpose of the transfers was to provide funds for general operating activities. All transfers were routine and consistent with the fund making the transfer.

Note 4 - Restricted Assets

The restricted assets represent the cash balance totaling \$472,510, of the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs.

In addition, the restricted assets represent the cash with fiscal agents balance, totaling \$178 of the MAEP Limited Obligation Bond Fund.

In addition, the restricted assets represent the cash with fiscal agents and investment balances, totaling \$22,111 and \$1,856,788, respectively, of the QZAB Debt Retirement Fund.

Notes to the Financial Statements For the Year Ended June 30, 2018

In addition, the restricted assets represent the cash with fiscal agents and investment balances, totaling \$1,124 and \$101,000, respectively, of the QSCB 2010 Debt Retirement Fund.

In addition, the restricted assets represent the cash with fiscal agents and investment balances totaling \$3,733 and \$333,000, respectively, of the QSCB 2012 Debt Retirement Fund.

In addition, the restricted assets represent the cash balance totaling \$124,134, of the QSCB 2012 Debt Retirement Fund.

Note 5 - Capital Assets

The following is a summary of changes in capital assets for governmental activities:

	Balance 7-1-2017	Increases	Decreases	Balance 6-30-2018
Non-depreciable capital assets:				
Land	\$ 256,168			256,168
Total non-depreciable capital assets	256,168	0	0	256,168
Depreciable capital assets:				
Buildings	23,699,202			23,699,202
Buildings improvements	583,157			583,157
Improvements other than buildings	2,787,616			2,787,616
Mobile equipment	4,143,822	404,050	325,072	4,222,800
Furniture and equipment	1,798,653	16,272		1,814,925
Total depreciable capital assets	33,012,450	420,322	325,072	33,107,700
Less accumulated depreciation for:				
Buildings	7,767,532	413,148		8,180,680
Building improvements	383,306	23,326		406,632
Improvement other than buildings	1,436,662	95,357		1,532,019
Mobile equipment	3,201,923	151,626	292,565	3,060,984
Furniture and equipment	1,606,255	62,293		1,668,548
Total accumulated depreciation	14,395,678	745,750	292,565	14,848,863
Total depreciable capital assets, net	18,616,772	(325,428)	32,507	18,258,837
Governmental activities capital assets, net	\$ <u>18,872,940</u>	(325,428)	32,507	18,515,005

Depreciation expense was charged to the following governmental functions:

	Amount
Instruction	\$ 522,025
Support services	149,150
Non-instructional	74,575
Total depreciation expense	\$ 745,750

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 6 - Long-term liabilities

The following is a summary of changes in long-term liabilities and other obligations for governmental activities:

		_	Balance 7-1-2017	Reductions	Balance 6-30-2018	Amount due within one year
A.	Limited obligation bonds payable	\$	570,000	570,000	0	
B.	Qualified zone academy bonds payable		2,500,000		2,500,000	
C.	Qualified school construction bonds payable		3,200,000		3,200,000	
D.	Compensated absences payable	-	99,143	3,045	96,098	
	Total	\$	6,369,143	573,045	5,796,098	0

A. Limited obligation bonds payable

This debt was paid off and retired from the MAEP Retirement Fund.

B. Qualified zone academy bonds payable

As fully explained in Note 11, debt has been issued by the school district that qualifies as Qualified Zone Academy Bonds. Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amoun Issued	t Amount Outstanding
Qualified zone academy bonds	0.00%	07-23-08	07-15-20	\$ 2,500,000	2,500,000

C. Qualified school construction bonds payable

As fully explained in Note 12, debt has been issued by the school district that qualifies as Qualified School Construction Bonds. Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	_	Amount Issued	Amount Outstanding
Qualified school construction bonds, Series 2010	6.00%	12-17-10	12-01-25	\$	2,200,000	2,200,000
Qualified school construction bonds, Series 2012	0.17%	12-07-12	12-15-27		1,000,000	1,000,000
Total				\$	3,200,000	3,200,000

The following is a schedule by years of the total payments due on this debt:

Notes to the Financial Statements For the Year Ended June 30, 2018

1. Qualified school construction bonds series 2010:

Year Ending June 30		Principal	Interest	Total
2019	\$		132,000	132,000
2020			132,000	132,000
2021			132,000	132,000
2022			132,000	132,000
2023			132,000	132,000
2024 - 2026	_	2,200,000	396,000	2,596,000
Total	\$	2,200,000	1,056,000	3,256,000

This debt will be retired from the QSCB 2012 Debt Retirement Fund.

2. Qualified school construction bonds series 2012:

Year Ending June 30	 Principal	Interest	Total
2019	\$	1,700	1,700
2020		1,700	1,700
2021		1,700	1,700
2022		1,700	1,700
2023		1,700	1,700
2024 - 2028	1,000,000	8,500	1,008,500
Total	\$ 1,000,000	17,000	1,017,000

This debt will be retired from the QSCB 2012 Debt Retirement Fund.

Notes to the Financial Statements For the Year Ended June 30, 2018

Total qualified school construction bonds payments for all issues:

Year Ending June 30	 Principal	Interest	Total
2019	\$	133,700	133,700
2020		133,700	133,700
2021		133,700	133,700
2022		133,700	133,700
2023		133,700	133,700
2024 - 2028	3,200,000	404,500	3,604,500
Total	\$ 3,200,000	1,073,000	4,273,000

D. Compensated absences payable

As more fully explained in Note 1(E)(8), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

Note 7 - Defined Benefit Pension Plan

General Information about the Pension Plan

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school district. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contigent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after 60 or those who retire regardless

Notes to the Financial Statements For the Year Ended June 30, 2018

> of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

> Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The employer's rate as of June 30, 2018 was 15.75% of annual covered payroll. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Section 25-11-1 of the Mississippi Code of 1972, as amended, and may be amended only by the Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2018, 2017 and 2016 were \$2,144,973, \$1,937,081, and \$2,173,228, respectively, which equaled the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the school district reported a liability of \$31,870,370 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the school district's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The school district's proportionate share used to calculate the June 30, 2018 net pension liability was 0.191720 percent, which was based on a measurement date of June 30, 2017. This was a decrease of 0.023971 percent from its proportionate share used to calculate the June 30, 2017 net pension liability, which was based on a measurement date of June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$2,207,656. At June 30, 2018 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Notes to the Financial Statements For the Year Ended June 30, 2018

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$		232,549
Net difference between projected and actual earnings on pension plan investments			2,462,478
Change of assumptions		32,549	
Changes in proportion and differences between District contributions and proportionate share of contributions		1,327,071	1,713,528
District contributions subsequent to the measurement date	_	2,144,973	
Total	\$	3,504,593	\$ 4,408,555

\$2,144,973 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Tear Ending June 30:	
2019	\$ (1,211,157)
2020	(864,494)
2021	(357,664)
2022	 (615,620)
Total	\$ (3,048,935)

Vear Ending June 30:

Actuarial assumptions. The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increases	3.25 - 18.50 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table Projected with Scale BB to 2022, with males rates set forward one year.

Notes to the Financial Statements For the Year Ended June 30, 2018

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a lognormal distribution analysis in which best-estimates ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Broad	27.00%	4.60%
International Equity	18.00%	4.50%
Emerging Markets Equity	4.00%	4.75%
Global	12.00%	4.75%
Fixed Income	18.00%	0.75%
Real Estate	10.00%	3.50%
Private Equity	8.00%	5.10%
Emerging Debt	2.00%	2.25%
Cash	1.00%	0.00%
Total	100%	:

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Employer contributions will be made at the current employer contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the District's proportionate

Notes to the Financial Statements For the Year Ended June 30, 2018

share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

		Current				
	_	1% Decrease (6.75%)		Discount Rate (7.75%)		1% Increase (8.75%)
District's proportionate share of the net pension liability	\$	41,800,119	\$	31,870,370	\$	23,626,522

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Note 8 - Other Postemployment Benefits (OPEB)

General Information about the OPEB Plan.

Plan description. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). The Plan was established by Section 25-15-3 et. seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan. The Board has the sole legal authority to promulgate rules and regulations governing the operations of the Plan within the confines of the law governing the Plan. The Plan is self-insured and is financed through premiums collected from employers, employees, retirees and COBRA participants. The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan. A trust was created June 28, 2018 for the OPEB Plan and, while no trust was in place for the June 30, 2017 plan year-end, for purposes of comparability for future periods, terminology used herein is based on the plan being a cost-sharing multiple-employer defined benefit OPEB plan. The plan does not issued a stand-alone financial report.

Benefits provided.

The Plan was formed by the State Legislature to provide group health and life benefits to full-time active and retired employees of the State, agencies, universities, community/junior colleges, public school districts and public libraries. In addition, the spouse and/or children of covered employees and retirees, as well as surviving spouses and COBRA participants, may be eligible for health insurance coverage under the Plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan.

Notes to the Financial Statements For the Year Ended June 30, 2018

Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance. The Plan offers a Base option and a Select option for health benefits for non-Medicare participants. The Plan includes a separate coverage level for Medicare eligible retirees, Medicare Eligible surviving spouses, and Medicare eligible dependents of retirees and surviving spouses.

Contributions.

The Board has the sole authority for setting life and health insurance premiums for the Plan. The required premiums vary based on the plan selected and the type of participant. Employers pay no premiums for retirees while employees' premiums are funded primarily by their employer. Contributions to the OPEB plan from the District were \$105,401 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

At June 30, 2018, the District reported a liability of \$2,472,383 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The basis for the District's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the Plan in the fiscal year of all employers. The allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by the employee. At the measurement date of June 30, 2017, the District's proportion was 0.31511020 percent. This was a decrease of 0.01862455 percent from the proportionate share as of the measurement date of June 30, 2016.

For the year ended June 30, 2018, the District recognized OPEB expense of \$100,020. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Notes to the Financial Statements For the Year Ended June 30, 2018

	<u>-</u>	Deferred Outflows of Resources	Deferred Inflows of Resources
Change of assumptions	\$		\$ 125,893
Changes in proportion and differences between District contributions and proportionate share of contributions			129,370
District contributions subsequent to the measurement date		105,401	
Total	\$	105,401	\$ 255,263

\$105,401 reported as deferred outflows of resources related to OPEB resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30:		
2019	\$	(44,783)
2020		(44,783)
2021		(44,783)
2022		(44,783)
2023		(44,783)
Thereafter		(31,348)
Total	\$ _	(255,263)

Actuarial assumptions. The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Notes to the Financial Statements For the Year Ended June 30, 2018

Inflation 3.00 percent

Salary increases 3.25 - 18.50 percent, including wage inflation

Long-term Investment Rate of Return, net of OPEB plan investment expense,

including inflation N/A

Municipal Bond Index Rate

Measurement Date 3.56 percent Prior Measurement Date 3.01 percent

Year FNP is projected to be depleted

Measurement Date 2017 Prior Measurement Date 2016

Single Equivalent Interest Rate, net of OPEB plan investment expense, including inflation

Measurement Date 3.56 percent Prior Measurement Date 3.01 percent

Health Care Cost Trends

Medicare Supplement Claims

7.75 percent for 2017 decreasing to an ultimate rate of 5.00 percent by 2023

Both pre-retirement and post-retirement mortality rates were based on the RP 2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, male rates set forward 1 year and adjusted by 106% for males at all ages, and females adjusted to 90% for ages less than 76, 95% for age 76, 105% for age 78 and 110% for ages 79 and greater. Post-disability mortality rates were based on the RP 2014 Disabled Retiree Mortality Table set forward 4 years for males and 3 years for females.

The demographic actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study dated April 18, 2017.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017 valuation were based on a review of recent plan experience done concurrently with the June 30, 2017 valuation.

The plan had no assets as of the measurement date of 2017.

Notes to the Financial Statements For the Year Ended June 30, 2018

Discount rate. The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.56 percent. Since the Prior Measurement Date, the Discount Rate has changed from 3.01% to 3.56%.

Since no trust was set up as of June 30, 2017, there was no projection of cash flows for the Plan and the Plan was projected to be depleted in 2017.

The discount rate determination will use a municipal bond rate to the extent the trust is projected to run out of money before all benefits are paid. The rate used, if necessary, for this purpose is the average of the Bond Buyer General Obligation 20-year Municipal Bond Index Rates during the month of June published at the end of each week by the Bond Buyer.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.56 percent) or 1-percentage point higher (4.56 percent) than the current discount rate:

	1% Decrease (2.56%)	Discount Rate (3.56%)	1% Increase (4.56%)
Net OPEB liability	\$ 2,537,677	\$ 2,472,383	\$ 2,423,758

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Healthcare Cost Trend				
	1% Decrease		Rates Current		1% Increase
Net OPEB liability	\$ 2,283,411	\$	2,472,383	\$	2,688,114

OPEB plan fiduciary net position. The fiduciary net position for the OPEB plan was zero as of June 30, 2017, the measurement date. Therefore, no separately issued financials were prepared. Detailed information about the OPEB plan's fiduciary net position for June 30, 2018 and going forward will be available in separately issued financial reports available on the Mississippi Department of Finance and Administration's website.

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 9 - Sixteenth Section Lands

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future rental payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

Year Ending		
June 30		Amount
2019	\$	247,138

2049 - 2053		4,435
2054		887
Total	\$	741 206
Total	Þ	741,296

Note 10 - Risk Management

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 11 - Qualified Zone Academy Bonds

Section 226 of the Taxpayer Relief Act of 1997 (Public Law 105-34) provides for a source of capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the establishment of special academic programs from kindergarten through secondary school, in partnership with the business community. The school district, in agreement with Trustmark Bank, has entered into such an arrangement dated July 23, 2008.

This agreement establishes a method of repayment for a qualified interest-free debt instrument. The agreement requires the school district to deposit funds annually into a sinking fund account on or before July 22nd of each year. The amount on deposit at June 30, 2018 was \$1,878,899. The amount accumulated in the sinking fund at the end of the ten-year period will be sufficient to retire the debt. The following schedule reports the annual deposits to be made to the sinking fund by the school district.

Year Ending June 30	Amount
2019	\$ 150,000
2020	150,000
2021	 127,000
Total	\$ 427,000

Note 12 - Qualified School Construction Bonds

Section 1521 of the American Recovery and Reinvestment Act (ARRA) of 2009 provides for a source of capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the construction, rehabilitation or repair of a public school facility or for the acquisition of land where a school will be built. Investors receive Federal income tax credits at prescribed tax credits rates in lieu of interest, which essentially allows state and local governments to borrow without incurring interest costs. While Qualified School Construction Bonds (QSCBs) are intended to be interest free to a borrower, the ARRA legislation allows a lender to charge supplemental interest, and such supplemental interest is the responsibility of the school district.

When the stated interest rate on the QSCB results in interest payments that exceed the supplemental interest payments discussed in the preceding paragraph, the school district may apply for a direct cash subsidy payment from the U.S. Treasury which is intended to reduce the stated interest rate to a nominal percentage. These subsidy payments do not include the amount of any supplemental interest paid on a QSCB. For the year ended June 30, 2018, the subsidy payments amounted to \$115,069.

Notes to the Financial Statements For the Year Ended June 30, 2018

The school district makes equal annual payments into a sinking fund which is used to payoff the bonds at termination. The current maturity limit of tax credits is 17 years, per the U.S. Treasury Department. Under this program, ten percent of the proceeds must be subject to a binding commitment to be spent within six months of issuance and 100% must be spent within years. Up to two percent of bond proceeds can be used to pay costs of issuance. The amount on deposit at June 30, 2018 was \$438,857. The amount accumulated in the sinking fund at the end of the seventeen-year period will be sufficient to retire the debt. The following schedules report the annual deposits to be made to the sinking fund by the school district.

1. Qualified school construction bonds series 2010:

Year Ending June 30		Amount
2019	\$	186,000
2020		186,000
2021		186,000
2022		200,000
2023		335,000
2024 - 2026		1,007,000
Total	\$ _	2,100,000

2. Qualified school construction bonds series 2012:

Year Ending June 30	 Amount
2019	\$ 67,000
2020	67,000
2021	67,000
2022	67,000
2023	67,000
2024 - 2028	 335,000
Total	\$ 670,000

Notes to the Financial Statements For the Year Ended June 30, 2018

Total payment for all issues:

Year Ending June 30		Amount
2019	\$	253,000
2020		253,000
2021		253,000
2022		267,000
2023		402,000
2024 - 2028	_	1,342,000
Total	\$	2,770,000

EEF Building and Buses revenue is pledged to go toward the sinking fund payments.

Note 13 - Contingencies

Federal Grants - The school district has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from the grantor audit may become a liability of the school district.

Litigation - The school district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to the various proceedings. However, the school district's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the school district.

Note 14 - Effects of Deferred Amounts on Net Position

The unrestricted net position amount of (\$28,807,889) includes the effect of deferring the recognition of expenses resulting from a deferred outflow from pensions. A portion of the deferred outflow of resources related to pension in the amount of \$2,144,973 resulting from the school district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. The \$1,359,620 balance of deferred outflow of resources, at June 30, 2018 will be recognized as an expense and will decrease the unrestricted net position over the next 3 years.

Notes to the Financial Statements For the Year Ended June 30, 2018

The unrestricted net position amount of (\$28,807,889) includes the effect of deferring the recognition of revenues resulting from a deferred inflow from pensions. The \$4,408,555 balance of deferred inflow of resources at June 30, 2018 will be recognized as revenue and will increase the unrestricted net position over the next 4 years.

The unrestricted net position amount of (\$28,807,889) includes the effect of deferring the recognition of expenses resulting from a deferred outflow from OPEB. A portion of the deferred outflows of resources related to OPEB in the amount of \$105,401 resulting from the amount paid by the school district as benefits come due subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2019.

The unrestricted net position amount of (\$28,807,889) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from OPEB. The \$255,263 balance of deferred inflow of resources at June 30, 2018 will be recognized as a revenue and will increase the unrestricted net position over the next 6 years.

Note 15 - Insurance Recovery

The Holmes County School District received \$489,737 in insurance loss recoveries related to vandalized buses damage during the 2017 - 2018 fiscal year. In the government-wide Statement of Activities, the insurance loss recoveries were reported as instruction and support services.

Note 16 - Prior Period Adjustment

A summary of significant Net Position adjustments is as follows:

Exhibit B - Statement of Activities

Explanation			Amount
1. Implementation of GASB 75:		\$	
Net OPEB liability (06-30-17)	(2,724,908)		
Deferred outflows - contributions made during fiscal year 2017	97,282	_	
Total prior period adjustment related to GASB 75		\$_	(2,627,626)

Note 17 - Fund Reclassification

The General Fund beginning balance of \$2,668 was reclassified to the Other Governmental Funds due to several funds were reported in the General Fund in the prior years.

Notes to the Financial Statements For the Year Ended June 30, 2018

Note 18 - Subsequent Events

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of the Holmes County School District evaluated the activity of the district through the date the financial statements were available to be issued, and determined that the following subsequent event has occurred requiring disclosure in the notes to the financial statements:

During the 2016 session, the Mississippi Legislature passed House Bill 926 which provides for an Administrative consolidation of the Durant Public School District and the Holmes County School District into one school district to be designated as Holmes County Consolidated School District effective July 1, 2018.

Budgetary Comparison Schedules

(1) Basis of Presentation

The Budgetary Comparison Schedules present the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

(2) Budget Amendments and Revisions

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15. A budgetary comparison is presented for the General Fund and each major Special Revenue Fund consistent with accounting principles generally accepted in the United States of America.

Pension Schedules

(1) Changes of assumptions

2015:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75% respectively.

2016:

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

<u>2017</u>:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

Notes to the Required Supplementary Information (Continued) For the Year Ended June 30, 2018

The wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

(2) Changes in benefit provisions

2016:

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

(3) Method and assumptions used in calculations of actuarially determined contributions.

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2015 valuation for the June 30, 2017 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method Entry age

Amortization method Level percentage of payroll, open

Remaining amortization period 33.9 years

Asset valuation method 5-year smoothed market

Price Inflation 3.00 percent

Salary increase 3.75 percent to 19.00 percent, including inflation

Investment rate of return 7.75 percent, net of pension plan investment

expense, including inflation

OPEB Schedules

(1) Changes of assumptions

2017:

The discount rate was changed from 3.01% for the prior Measurement Date to 3.56% for the current Measurement Date.

(2) Changes in benefit provisions

<u>2017</u>:

None

Notes to the Required Supplementary Information (Continued) For the Year Ended June 30, 2018

(3) Methods and assumptions used in calculation of Actuarially Determined Contributions. The Actuarially Determined Contributions rates, as a percentage of payroll, used to determine the Actuarially Determined Contribution amounts in the Schedule of Employer Contributions are calculated as of the most recent Valuation Date. The following actuarial methods and assumptions (from the June 30, 2016 actuarial valuation) were used to determine contribution rates reported in that schedule for the year ending June 30, 2017:

Actuarial cost method Entry age

Amortization method Level dollar

Amortization period 30 years, open

Asset valuation method Market Value of Assets

Price Inflation 3 percent

Salary increases, including wage inflation 3.25 percent to 18.50 percent

Initial health care cost trend rates Medicare

Supplement Claims Pre-Medicare 7.75 percent

Ultimate health care cost trend rates Medicare

Supplement Claims Pre-Medicare 5.00 percent

Year of ultimate trend rates Medicare

Supplement Claims Pre-Medicare 2022

Long-term investment rate of return, net of pension plan investment expense, including

price inflation 3.56 percent

(4) Under GASB 75, employers are also required to consider any implicit subsidy that may be occurring. Medical costs generally increase with advancing age. Therefore, the medical costs for the retiree group are higher than the medical costs for the employee group, even taking Medicare into account. Stated another way, when a plan includes both employees and retirees, the blended premiums are almost always higher than what the premiums would be for employees, and lower than what the premiums would be for retirees, if each group were rated separately. The premium rate difference is referred to as the implicit rate subsidy.

Notes to the Supplementary Information For the Year Ended June 30, 2018

Schedule of Expenditures of Federal Awards

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the school district under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the school district, it is not intended to and does not present the financial position, changes in net position, or cash flows of the school district.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

(3) Indirect Cost Rate

The school district has not elect to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

(4) Other Items

Donated commodities of \$181,854 are included in the National School Lunch Program.

HOLMES COUNTY SCHOOL DISTRICT

Schedule of Instructional, Administrative and Other Expenditures - Governmental Funds For the Year Ended June 30,2018

Expenditures		Total	Instruction and Other Student Instructional Expenditures	General Administration	School Administration	Other

REPORTS ON INTERNAL CONTROLS AND COMPLIANCE

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Superintendent and School Board Holmes County School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Holmes County School District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Holmes County School District's basic financial statements, and have issued our report thereon dated April 22, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the school district's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the school district's internal control. Accordingly, we do not express an opinion on the effectiveness of the school district's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs that we consider to be a significant deficiency Finding 2018-001.

1929 SPILLWAY ROAD, SUITE B BRANDON, MISSISSIPPI 39047 TELEPHONE 601-992-5292 FAX 601-992-2033

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Holmes County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Holmes County School District's Response to Finding

The Holmes County School District's response to the finding identified in our audit is described in the accompanying auditee's corrective action plan. The Holmes County School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Superintendent and School Board Holmes County School District

Report on Compliance for Each Major Federal Program

We have audited Holmes County School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on Holmes County School District's major federal program for the year ended June 30, 2018. Holmes County School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for Holmes County School District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for its major federal program. However our audit does not provide a legal determination of the school district's compliance.

Opinion on Each Major Federal Program

In our opinion, the Holmes County School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2018-002. Our opinion on the federal program is not modified with respect to this matter.

Holmes County School District's response to the noncompliance finding identified in our audit is described in the accompanying auditee's corrective action plan. Holmes County School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the Holmes County School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Holmes County School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the school district's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be

material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as 2018-002, that we consider to be a significant deficiency.

Holmes County School District's response to the internal control over compliance finding identified in our audit is described in the accompanying auditee's corrective action plan. Holmes County School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board Holmes County School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Holmes County School District as of and for the year ended June 30, 2018, which collectively comprise the Holmes County School District's basic financial statements and have issued our report thereon dated April 22, 2019. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to ensure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds." As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the auditor shall test to ensure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of our procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the following immaterial instance of noncompliance with other state laws and regulations. Our finding and recommendation and your response are as follows:

Finding 1:

Criteria:

Section 29-3-57, Miss. Code Ann. (1972) states, "It is the duty of the Superintendent of Education to collect promptly all rentals due. Upon a sixty (60) day default in payment of any rental accounting to the terms of such lease, the lease shall be declared terminated unless the Board of Education finds extenuating circumstances were presented."

Condition:

During our test of sixteenth section leases, we identified three (3) leases that were more than 60 days past due.

Cause:

The cause of the above condition is primarily due to management noncompliance with Section 29-3-57, Miss. Code Ann. (1972).

Effect:

District's resources of sixteenth section lease payments were not available for operations.

Recommendation:

We recommend that the District comply with Section 29-3-57, Miss. Code Ann. (1972), that states when leases are in default for more than 60 days from the due date, the lease shall be declared terminated unless the Board of Education finds extenuating circumstances are present.

Response:

The District will comply with Section 29-3-57, Miss. Code Ann. (1972), that states when leases are in default for more than 60 days from the due date, the lease shall be declared terminated unless the Board of Education finds extenuating circumstances are present. At this time Holmes County School District is in compliance and will remain in compliance. The past due amounts have been collected.

The Office of the State Auditor or a public accounting firm will review, on the subsequent year's audit engagement, the finding in this report to ensure that corrective action has been taken.

The Holmes County School District's response to the finding included in this report was not audited and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies, the Office of the State Auditor and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2018

Section I: Summary of Auditor's Results

Financial Statements:

- 1. Type of auditor's report issued: Unmodified.
- 2. Internal control over financial reporting:
 - a. Material weakness(es) identified? No.
 - b. Significant deficiency(ies) identified? Yes.
- 3. Noncompliance material to financial statements noted? No.

Federal Awards:

- 4. Internal control over major programs:
 - a. Material weakness(es) identified? No.
 - b. Significant deficiency(ies) identified? Yes.
- 5. Type of auditor's report issued on compliance for major programs: Unmodified.
- 6. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? Yes.
- 7. Identification of major program:

CFDA Numbers	Name of Federal Program or Cluster
84.010	Title I Grants to Local Educational Agencies

- 8. Dollar threshold used to distinguish between type A and type B programs: \$750,000.
- 9. Auditee qualified as low-risk auditee? Yes.
- 10. Prior fiscal year audit findings(s) and questioned costs relative to federal awards which would require the auditee to prepare a summary schedule of prior audit findings in accordance with 2 CFR 200.511(b). No.

Section II: Financial Statement Findings

The results of our tests disclosed the following finding related to the financial statements that is required to be reported by *Government Auditing Standards*.

Significant Deficiency

Finding 2018-001

Criteria:

Management is responsible for establishing an internal control that ensures strong financial accountability and safeguarding of assets. A critical aspect of financial management is the maintenance of accurate accounting records. During the audit, we noted that the school district was not maintaining club accounts in accordance with the MS School Financial Accounting Manual.

Condition:

There was not adequate documentation to support cash balances of student club funds.

Cause:

Controls were not in place to ensure the appropriate recording of transactions throughout the year.

Effect:

We were unable to determine cash balances of student club funds.

Recommendation:

Management should implement policies and procedures to ensure the maintenance of accurate accounting records.

View of Responsible Officials:

Will include the following steps: (1) require monthly cash reports from every district location due to the Business Office by the fifth of the following month. (2) Reconcile these reports to the bank statements, follow up, and correct all discrepancies.

Section III: Federal Award Findings and Questioned Costs

The results of our tests disclosed the following finding and questioned cost related to the federal awards.

Significant Deficiency and Noncompliance

Program: U. S. Department of Education

Passed-through the Mississippi Department of Education

Title I Grants to Local Educational Agencies

CFDA# 84.010

Compliance requirement: Allowable Cost/Cost Principles

Finding 2018-002

Criteria:

According to the provisions of 2CFR 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the district is required to document employee time and effort for prorated employees and semi-annual certification for non-prorated employees.

Condition:

The school district did not perform semi-annual certifications for two of its Title I employees and one was not signed by staff.

Context:

During the test work surrounding semi-annual certifications, the school district failed to provide the required documentation.

Questioned Costs:

None.

Cause:

Controls were not in place to ensure the documentation to support the time and effort of employees who are paid from federal awards programs. The Title I Director who was in place during the fiscal year had resigned and the current staff was unable to locate these documents.

Effect:

As a result, controls were not in place to ensure that activities supported the cost objectives.

<u>Identification of a Repeat Finding</u>:

No.

Whether Sampling was Statically Valid:

No.

Recommendation:

The District should implement controls and procedures to ensure semi-annual certification for non-prorated employees is properly documented.

View of Responsible Officials:

Will include the following steps: (1) The Chief of Academics and Federal Programs meet with the Financial Department monthly, more if needed, to discuss the process that is needed to complete the documents so the requirements as time and effort reports, drawdowns, reconciled balances between MCAPS and the Financial Software, etc. are done in a timely manner. (2) Review reports retrieved from the financial software and compare them to the detailed information in MCAPS.
