INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
Members of the Board of Alderpersons
Town of Heidelberg, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the major fund of the Town of Heidelberg, Mississippi, as of and for the year ended September 30, 2019, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting as described in Note 1, which includes that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in these circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities and the business-type activities, and the major fund of the Town of Heidelberg, Mississippi, as of September 30, 2019, and the respective changes in cash basis financial position for the year then ended in accordance with the basis of accounting as described in Note 1.

OTHER MATTERS

Omission of Required Supplementary Information

Management has omitted the Management's Discussion and Analysis and the Budgetary Comparison Schedules that accounting principles generally accepted in the United States of America required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

The Schedule of Investments-All Funds and the Schedule of Surety Bonds for Municipal Officials and Employees, for the Town of Heidelberg, Mississippi, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2020, on our consideration of the Town of Heidelberg, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Heidelberg, Mississippi's internal control over financial reporting and compliance.

Emphasis of Matter

As discussed in Note 1, the Town of Heidelberg, Mississippi prepares its financial statements on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted by the United States of America.

TOWN OF HEIDELBERG, MISSISSIPPI
Notes to the Financial Statements
For the Year Ended September 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity.

The Town of Heidelberg, Mississippi, (Town) operates under the Mayor-/alderperson form of government; the following services are provided by the Town: Public Safety (Police, Fire and Protection/Inspection), Public Works, Culture and Recreation, and General Administrative Services.

The financial statements of the Town have been prepared on the basis of cash receipts and disbursement basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

B. Government-wide and Fund Financial Statements.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Changes in Net Position) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Town combines the Statement of Activities and Statement of Net Position.

The Statement of Activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. *Direct disbursements* are those that are clearly identifiable with a specific function or segment. *Program receipts* include (1) receipts from customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among programs receipts are reported instead as *general receipts*.

Separate financial statements are provided for governmental funds and propriety funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation.

The Government-wide financial statements are reported using the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Receipts are recorded when cash is collected and disbursements are recorded when cash is spent.

Governmental fund financial statements are reported using the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Receipts are recorded when cash is collected. Disbursements are generally recorded when cash is spent.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation. - continued

The government reports the following major Governmental Fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. All general tax revenues and other sources of revenue used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all cost of operating the government for which a separate fund has not been established.

Proprietary Funds

Enterprise Funds- Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control accountability, or other purposes.

D. Assets, Net Position and Fund Balances.

1. *Cash and Investments.*

The government's cash and cash equivalents are considered to be cash on hand or invested in certificates of deposit.

2. *Net Position.*

Restricted net position-consists of cash with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

3. *Fund Balances.*

In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the Town classifies governmental fund balances as follows:

Non-spendable - Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints. The Town has no fund balance reported in this category.

Restricted - Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. The Town has no fund balance reported in this category.

TOWN OF HEIDELBERG, MISSISSIPPI
Notes to the Financial Statements
For the Year Ended September 30, 2019

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

D. Assets, Net Position and Fund Balances. continued

Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by management other than the highest decision-making authority of the Town. The Town has no fund balance reported in this category.

Unassigned – Includes positive fund balance with the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The Town uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Town would first use committed, then assigned, and lastly, unassigned amounts of unrestricted fund balance when expenditures are made.

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied as of January 1 and payable on or before February 1. Automobile ad valorem taxes are collected by Jasper county and remitted to the Town. The County retains a collection fee. Lien dates for personal and real property are in August. Delinquent tax payments, received throughout the year, are recognized as revenue in the year received. The millage rate for the Town for January through December was 18.64 mills broken down as follows:

General Fund	<u>18.64</u>
--------------	--------------

Restrictions associated with property tax levies are established by state law which provide provides that the tax levy for general purposes shall no more than 110% of the amount which results from those levies' assessments of the previous year. Uncollected taxes were determined to be properly handled.

NOTE 2 - CASH AND CASH EQUIVALENTS

At year-end, the Town's carrying amount of deposits was \$1,376,672 and the bank balance was \$1,396,488. The collateral for public entities' deposits in financial institutions are held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the town's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holdings deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Notes to the Financial Statements
For the Year Ended September 30, 2019

NOTE 2 - CASH AND CASH EQUIVALENTS-continued

Custodial Credit Risk – Deposits and Investments: Custodial credit risk is defined as the risk that, in the event of a failure of a financial institution, the Town will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Town does not have a formal policy for custodial credit risk. However, the Mississippi State Treasury manages the risk on behalf of the Town. Deposits above FDIC coverage are collateralized by the pledging financial institution’s trust department or agent in the name of the Mississippi State Treasurer on the behalf of the Town. As of September 30, 2019, none of the Town’s bank balances of \$1,396,488 was exposed to custodial risk.

Interest Rate Risk: The Town does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e) Miss. Code Ann. (1972). The Town does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

NOTE 3 - INVESTMENTS

The Town is allowed, by statute, to invest excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county or municipality of this state, when such county or municipal bonds have been properly approved; or in interest-bearing time certificates of deposit or interest-bearing accounts with any financial institution approved for the deposit of state funds; or in any type of investment permitted by sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972).

Investments are reported at fair value, which is determined using selected bases. All of the Town’s investments consist of certificates of deposits, which mature over three months from the end of the fiscal year and are not considered cash or cash equivalents. These investments are reported at cost, which is the fair value.

NOTE 4 - INTERFUND LOANS AND TRANSFERS

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE
PRIMARY GOVERNMENT FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor and
Members of the Board of Alderpersons
Heidelberg, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, and the aggregate remaining fund information of Town of Heidelberg, Mississippi, as of and for the year ended September 30, 2019 which collectively comprise the Town's basic financial statements and have issued our report thereon dated December 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Heidelberg, Mississippi's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as 2019-001, 2019-002, and 2019-003, to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Heidelberg, Mississippi's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Town of Heidelberg's Responses to Findings

Town of Heidelberg, Mississippi's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. Town of Heidelberg, Mississippi's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

Honorable Mayor and
Members of the Board of Alderpersons
Town of Heidelberg, Mississippi

We have audited the financial statements of the governmental activities, the business-type activities and each major fund the aggregate remaining fund information of the Town of Heidelberg, Mississippi, as of and for year ended September 30, 2019, and have issued our report thereon dated December 30, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards prescribed by the Office of the State Auditor, and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the Town's compliance with these requirements. Accordingly, we do not express such an opinion.

The results of those procedures and our audit of the financial statements did not disclose any immaterial instances of noncompliance with other state laws and regulations. However, our procedures did disclose a material instance of noncompliance with state laws and regulations. Our finding and recommendation and your response is as follows:

2019-003. Finding

As reported in the prior year, the Town exceeded budgeted expenditures in the general fund in general government, public safety, public works, and culture and recreation. According to Section 21-35-15 of the MS Code Ann. (1972), expenditures shall not exceed budget, measured at the lowest level adopted in the budget.

Repeat Finding: Yes, 2018-004.

Criteria: The Town should establish procedures to ensure that the budgeted expenditures are not exceeded.

Condition: The expenditures exceeded budgeted amounts for the fiscal year.

Cause: The Town did not amend the budget to actual of year end.

Effect: The Town was not in compliance with Section 21-35-15 of the MS. Code Ann. (1972).

Recommendation

The Town should closely monitor its budget and amend as deemed appropriate ensuring that actual expenditures do not exceed those budgeted.

The Board of Aldermen now receives a monthly budget to actual report which is monitored for budget overages.

The Office of the State Auditor or a public accounting firm will review, on subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

Section 2: Financial Statement Findings

2019-001. Finding

Significant Deficiency - Material Weakness

As reported in the prior year, there is a limited accounting staff to properly segregate of duties normally required for an efficient internal control structure. However, due to the limited number of personnel, an adequate segregation of duties is not possible without additional costs.

Repeat Finding: Yes, 2018-001.

Criteria: The Town should have a proper segregation of duties.

Condition: The Town does not have an adequate segregation of duties.

Cause: The size of the Town and available revenue does not allow for an adequate segregation of duties due to additional cuts.

Effect: The Town does not have a proper segregation of duties.

Recommendation: The cost of hiring additional personnel verses the benefit of a proper segregation of duties must be weighed.

View of Responsible Officials: Since the cost to hire additional personal is cost prohibitive, this will continue to be a deficiency in future audits. Management believes sufficient internal controls are present.
