INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Pearl River Basin Development District,
a component unit of the State of Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Pearl River Basin Development District, component unit of the State of Mississippi, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the

Auditor's Responsibility - continued:

entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Pearl River Basin Development District as of June 30, 2015, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters**Required Supplementary Information**

Accounting principles generally accepted in the United States of America, require that the management's discussion and analysis, budgetary comparison information, the Schedule of Changes in Net Pension Liability and Related Ratios, and the Schedule of Employer Contributions on pages 4-8 and 40-48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pearl River Basin Development District's basic financial statements. The schedules listed in the Table of Contents under the Other Supplemental Information section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules listed in the Table of Contents under the Other Supplemental Information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Matters - continued:

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2016, on our consideration of Pearl River Basin Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pearl River Basin Development District's internal control over financial reporting and compliance.

Haddox Reed Embank P.L.L.C.

Jackson, Mississippi
January 27, 2016

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

Our discussion and analysis of Pearl River Basin Development District's financial performance provides an overview of the District's financial activities for the year ended June 30, 2015. Please read it in conjunction with the District's financial statements which begin on page 9.

FINANCIAL HIGHLIGHTS

- The District realized a \$102,130 (1.3%) increase in net position during the current fiscal year. The increase in net position is the direct result of an increase in general revenues received by the District during the current fiscal year. The District realized an increase of \$228,767 (41.1%) in general revenues from the prior year, while total expenses increased \$45,686 (6.2%). With the slowed national and local economies, the District's special projects have been reduced over recent years.
- During the current fiscal year, the District received an appropriation from the State of Mississippi in the amount of \$200,000 to be used for general operations of the District.

USING THE ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 9 and 10) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements start on page 11. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about all the District's funds.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that aids in determining if the District as a whole is better off or worse off as a result of the year's activities. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the District's net position and

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

REPORTING THE DISTRICT AS A WHOLE - CONTINUED:

changes in them. The District's net position, the difference between assets and liabilities, is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating.

In the Statement of Net Position and the Statement of Activities, the District reports all activities as governmental activities. The District does not have business-type activities or component units.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

The District's fund financial statements begin on page 11 and provide detailed information about all the District's funds - not the District as a whole. The District has elected to report all governmental funds individually because the District believes the financial position and activities of all its funds are significant to the District as a whole. Some funds are required to be established by State law, while others are established by the District to help control and manage money for a particular purpose. All the District's funds are considered to be governmental funds.

Governmental funds focus on how money flows into and out of the individual funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted into cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's operations. The relationship or differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is detailed in a reconciliation located after the governmental fund financial statements.

FINANCIAL ANALYSIS OF THE DISTRICT

The District's combined net position increased from \$7,666,642 (as restated) at June 30, 2014 to \$7,768,772 at June 30, 2015, as reflected in the following table:

**PEARL RIVER BASIN DEVELOPMENT DISTRICT

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

FINANCIAL ANALYSIS OF THE DISTRICT - CONTINUED:

While the Statement of Net Position shows the change in financial position, the Statement of Activities provides answers as to the nature and source of these changes. As can be seen from the previous table, total revenue in the amount of \$888,988 and operating expenses in the amount of \$786,858, resulting in an increase in net position of \$102,130.

BUDGETARY HIGHLIGHTS

The District adopts annual budgets for all governmental funds in accordance with the laws of the State of Mississippi. The budgets include all proposed expenses and the means of financing them. The District's budgets remain in effect the entire year. The District is authorized to transfer budgeted amounts between major expenditure classifications on a limited basis.

For all the District's governmental funds, expenditures on the budgetary basis were \$376,307 less than budgeted expenditures. The District's fund balances reported on the Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds is different from the fund balances reported on the budget comparison statements. A schedule reconciling these differences is provided on page 47.

CAPITAL ASSET AND DEBT ADMINISTRATION

At June 30, 2015, the District had invested \$3,400,960, net of depreciation, in a broad range of capital assets including land, land improvements (park grounds and facilities), buildings, machinery and equipment. This represents a net decrease of \$56,952 over the prior year (1.6% decrease). There were no additions to capital assets for the year and depreciation for the year was \$56,952.

The District has no outstanding bonds at June 30, 2015 and has no immediate plans to issue bonds in the near future.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

Effective July 1, 2009, Hinds County withdrew from the District. This withdrawal had a significant impact on operations for the fiscal year ended September 30, 2010, since Hinds County accounted for \$408,180 (44.83%) of the member counties' revenues during the year ended June 30, 2009. Revenues from the member counties decreased from \$910,468 in fiscal

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS - CONTINUED:

year 2009 to \$532,173 in fiscal year 2010 and had increased to \$576,761 in fiscal year 2012. During the fiscal years ended June 30, 2013 and 2014, revenues from member counties decreased slightly to \$569,780 and \$550,953 respectively, due to a net decrease in the assessed valuation of property located in the member counties. Revenues from member counties increased slightly to \$572,691 during the fiscal year ended September 30, 2015. The District received an appropriation of funds from the State of Mississippi General Fund in the amount of \$200,000 for the fiscal year ended June 30, 2015 to fund operating expenses during the fiscal year. The State of Mississippi has approved an additional \$200,000 to be received by the District for the fiscal year beginning July 1, 2015. The District continues to evaluate the possibility of gaining additional operating revenue from new sources in addition to increasing funds available from existing sources. Furthermore, the District is planning to keep expenses at or near their current level until tax revenue increases.

In July, 2013 the District's board approved the transfer of the restricted funds in the Jackson Clearing Project Maintenance Fund and the Mitigation Lands Capitalized Management Fund to the Rankin-Hinds Pearl River Flood and Drainage Control District, a governmental entity. The Flood and Drainage Control District will assume all responsibilities for these funds including all future commitments. The transfer of funds is expected to occur later during the fiscal year ended June 30, 2016, once final approval is granted by all responsible parties.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information, contact the District's Office, 2304 Riverside Drive, Jackson, Mississippi 39296-5332.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT
OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2015**

NET CHANGE IN FUND BALANCES - total governmental funds	\$ 159,974
---	-------------------

Amounts reported for governmental activities in the
Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(56,952)
---	----------

Governmental funds report the expense for employee retirement benefits as the amount incurred and due based on the applicable percent of compensation paid during the fiscal year. However, in the Statement of Activities the current year expense is based on the net change in the liability for pension benefits and the change in net deferred outflows and inflows of resources related to the pension plan.	(4,467)
--	---------

Decrease in compensated absences not payable from current year resources are not reported as expenditures of the current year. In the Statement of Activities, this amount represents an addition in expenses of the current year.	<u>3,575</u>
---	--------------

CHANGE IN NET POSITION - Statement of Activities	\$ <u>102,130</u>
---	--------------------------

The accompanying notes are an integral part of this statement.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of the Reporting Entity

The Pearl River Basin Development District (the District) was created and exists pursuant to the provisions of Chapter 255, General Laws of Mississippi of 1964, as amended. The District is a component unit of the State of Mississippi for financial reporting purposes. The State of Mississippi has substantive authority to approve and modify the District's budget. The purpose of the District is for the preservation, conservation, storage and regulation of the waters of the Pearl River and its tributaries and their overflow waters for domestic, commercial, municipal, industrial, flood control, timber management, irrigation, navigation, and pollution abatement, and for the preservation, conservation and development of the soil of the Pearl River Basin. The organizational meeting was held on November 13, 1964 and the District officially began business on January 1, 1965. The District is comprised of ten member counties located in the Pearl River Basin and is primarily supported by annual revenue from the member counties in an amount equal to a .25 mill tax on the assessed valuation of all property located in each member county. The District is supported by, and is economically dependent upon, payment from its ten member counties.

During the 2001 legislative session, House Bill Number 1029 was enacted to allow, from and after July 1, 2001, for a member county to withdraw from the District by notifying the District of its intention on or before March 15 of the fiscal year of the District preceding the effective year of withdrawal. The law requires the withdrawing member to be responsible for its portion of any District bonds, contractual obligations, and any other indebtedness and liabilities of the District that are outstanding on the date of such member's withdrawal. In addition, the withdrawing member is responsible for its portion of budgeted expenditures through the effective date of withdrawal.

Five member counties have complied with the provisions of House Bill Number 1029 and have formally withdrawn from the District as of June 30, 2015. Two of the member counties withdrew effective July 1, 2002. These members were responsible for 4.66% of the support received from all member counties for the 2002 fiscal year. The third member county withdrew effective July 1, 2003. This member county was responsible for 19.83% of the support received from all member counties for the 2003 fiscal year. In addition, a fourth member withdrew from the District effective July 1, 2004. This member county was responsible for 4.18% of the support received from all member counties for the 2004 fiscal year. Lastly, a fifth member county complied with the provisions of the law and formally withdrew from the District effective July 1, 2009. This member county was responsible for 44.83% of the support received from all member counties for the 2009 fiscal year.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

B. Basis of Accounting/Measurement Focus

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Government-Wide Financial Statements

The District's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present a summary of Governmental Activities of the District. The District does not operate any Business-Type Activities.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. The types of transactions reported as program revenues for the District are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

B. Basis of Accounting/Measurement Focus - continued:

Government-Wide Financial Statements - continued:

governmental accounting and financial reporting. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities at the government-wide financial reporting level, provided they do not conflict with or contradict GASB pronouncements.

Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all governmental funds. The District has elected to report all governmental funds as major funds because the District believes the financial position and activities of all its funds are significant to the District as a whole. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide Financial Statements.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financial sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally received within 60 days after year-end) are recognized when due. The primary revenue source, which has been treated as susceptible to accrual by the District, is tax revenue received from the member counties. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Major Governmental Funds - The major governmental funds reported by the District are as follows:

General Fund - The District's two General Funds are the primary operating funds. They account for all of the general government, except those required to be accounted for in another fund.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

B. Basis of Accounting/Measurement Focus - continued:

Governmental Fund Financial Statements - continued:

Jackson Clearing Project Maintenance Fund - This special revenue fund was established during the year ended June 30, 2002, with funds provided by member counties that have elected to withdraw from the District. The funds are to be used to provide for the withdrawing counties' estimated share of costs associated with the District's commitment to fund the Jackson Clearing Project through the year 2035.

Mitigation Lands Capitalized Management Fund - This special revenue fund was established during the year ended June 30, 1985, with principal provided by the District. The U.S. Government provided additional principal during the year ended June 30, 1986. These funds are to be used to provide for the maintenance, operation and intensive management of wildlife mitigation lands acquired in connection with a clearing project of the District.

In July 2013, the District's board approved the transfer of the restricted funds in the Jackson Clearing Project Maintenance Fund and the Mitigation Lands Capitalized Management Fund to the Rankin-Hinds Pearl River Flood and Drainage Control District, a governmental entity. The Flood and Drainage Control District will assume all responsibilities for these funds including all future commitments. The transfer of funds should occur during the fiscal year ended June 30, 2016, once final approval is granted by all responsible parties.

Lower Pearl River Restoration Trust Fund - This special revenue fund was established during the year ended June 30, 2000, with principal provided by bond proceeds transferred from the Mississippi Department of Wildlife, Fisheries and Parks (MDWFP). The funds are to be used to provide for the operation, maintenance, repair, replacement and rehabilitation costs incurred by the District for the Lower Pearl River Restoration Project.

C. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows*

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

C. Deferred Outflows/Inflows of Resources - continued:

of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

D. Cash, Cash Equivalents and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The District is authorized by State law to deposit its funds with any qualified depository of the State at a rate of interest equal to or exceeding statutory requirements, provided that approved securities are pledged to secure those funds. In addition, the District can invest in direct debt securities of the United States and the State of Mississippi. The District's investments are stated at fair value, except for highly liquid market investments with maturities of one year or less at the time of purchase which are stated at amortized costs. Market value is used for those securities for which market quotations are readily available. For securities that lack readily available market quotations, reasonable estimates of fair value are used based on the market value of similar investments. The District generally holds all investments until maturity or until market values equal or exceed costs.

E. Budget

Annual budgets are adopted for all District funds in accordance with the laws of the State of Mississippi as follows:

1. Approximately one year before a fiscal year begins, the District prepares a proposed operating budget for that year. The operating budget includes proposed expenditures and the means of financing them.
2. At the beginning of August, this proposed budget for the fiscal year commencing the following July is submitted to the Department of Finance and Administration and the Legislative Budget Office. Budget hearings are conducted resulting in recommendations for changes.
3. In January, the proposed budget and the recommendations proposed by the Department of Finance and Administration and the Legislative Budget Office are presented to the appropriate legislative committees. These committees make any revisions they deem necessary or appropriate. Prior to March 30, the budget is legally enacted through passage of a statute.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

E. Budget - continued:

4. The District is authorized to transfer budgeted amounts between major expenditure classifications on a limited basis subject to approval by the Department of Finance and Administration. Also, the District can go before the Legislature in January and request an increase for the current year.

The District's annual budget is prepared principally on the modified cash basis utilizing encumbrance accounting. Encumbrances represent executed but unperformed purchase orders. Encumbrances are recorded as expenditures for budgetary purposes if presented for payment in the 60-day lapse period immediately following the end of the fiscal year and as reservations of fund balance in the Governmental Fund Balance Sheet. Unexpended appropriations at June 30 are available for subsequent expenditure only to the extent that encumbrances have been established and they are presented for payment during the succeeding 60-day lapse period. All revenue is accounted for under cash basis.

F. Encumbrances

As of June 30, 2015, the District has encumbered amounts in the Operation and Special Projects Fund that they intend to honor in subsequent years. The amount encumbered is \$247,343 as of June 30, 2015. This amount is reported as committed at the fund level.

G. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

H. Capital Assets

The District's assets are capitalized at historical cost. Donated capital assets are capitalized at estimated fair market value on the date donated. The District has adopted the capitalization threshold for reporting capital assets based on amounts established by the State of Mississippi as follows:

Buildings	\$ 50,000
Land improvements	25,000
Furniture and equipment	5,000
Vehicles	5,000

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED:

H. Capital Assets - continued:

Depreciation is recorded on a straight-line basis over the useful lives of the assets with a salvage value as follows:

<u>Assets</u>	<u>Life</u>	<u>Salvage Value</u>
Buildings	40 years	20%
Land improvements	20 years	20%
Furniture and equipment	5-15 years	1%
Computer equipment	3 years	1%
Heavy and outdoor equipment	5-15 years	5%
Vehicles	3-10 years	10%

I. Compensated Absences Payables

The District accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. These conditions arise primarily from vacation benefits that employees have earned but have not taken. The District uses the LIFO method of accounting for these compensated absences and, accordingly, has recorded the amount as a liability in the Government-Wide Financial Statements.

NOTE 2 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The composition of the District's cash, cash equivalents and investments is as follows at June 30, 2015:

	<u>Primary Government</u>
Cash on hand	\$ 80
Deposits in banks	197,468
Certificates of deposit	<u>4,366,920</u>
	<u>\$ 4,564,468</u>

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2 - CASH, CASH EQUIVALENTS AND INVESTMENTS - CONTINUED:

The District's cash, cash equivalents and investments for the primary government at June 30, 2015 are reported as follows:

	<u>Governmental Activities</u>
Cash and cash equivalents	\$ 606,267
Investments	<u>3,958,201</u>
	\$ <u>4,564,468</u>

Deposits

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the District's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation. Deposits at June 30, 2015 are summarized as follows:

	<u>Reported Amount</u>	<u>Bank Balance</u>
Cash and cash equivalents	\$ 197,468	366,791
Certificates of deposit	<u>4,366,920</u>	<u>4,366,920</u>
Total deposits	\$ <u>4,564,388</u>	<u>4,733,711</u>

The difference of \$169,323 was principally due to outstanding checks. Of the bank balance, \$844,972 was covered by Federal Depository Insurance.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2015, \$3,888,739 of the District's bank balance of \$4,733,711 was exposed to custodial credit risk as follows:

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2 - CASH, CASH EQUIVALENTS AND INVESTMENTS - CONTINUED:

Deposits - continued:

Collateralized by the State Public Funds	
Guaranty Pool	\$ <u>3,888,739</u>
Total	\$ <u>3,888,739</u>

Interest rate risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District's investment policy is limited to complying with the State's investment statutes. The State law has not addressed an interest rate risk; however, the District's policy is to hold all investments to maturity reducing any interest rate risk.

Credit risk: The District is allowed, by State statute, to invest excess funds in any bonds or other direct obligations of the United States of America, of the State of Mississippi, or of any county or municipality of Mississippi, when such county or municipal bonds have been properly approved; or in obligations issued or guaranteed in full as to principal and interest by the United States of America which are subject to a repurchase agreement with a qualified depository; or in interest-bearing time certificates of deposit with any financial institution approved for the deposit of state funds.

Concentration of credit risk: The District complies with the State statute regarding investments; as a result, concentration risk is virtually eliminated.

Custodial credit risk: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. To minimize this risk, the District's funds are protected through a collateral pool administered by the State Treasurer.

NOTE 3 - ACCOUNTS RECEIVABLE

Member Counties

As reflected in the accompanying Government-Wide Statement of Net Position, the accounts receivable - member counties at June 30, 2015 totaled \$81,459.

The following is a breakdown of this amount by member county:

Total	\$ <u>258,382</u>	<u>19,158</u>	<u>277,540</u>

NOTE 7 – DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan Description. The District contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005, by calling (601) 359-3589 or 1-800-444-PERS, or by visiting online at www.pers.ms.gov.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 - DEFINED BENEFIT PENSION PLAN - CONTINUED:

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi (the State), state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a full refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

For the year ended June 30, 2015, the District's total payroll for all employees was \$162,165. Total covered payroll was \$162,165. Covered payroll refers to all compensation paid by the District to active employees covered by the Plan.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 - DEFINED BENEFIT PENSION PLAN - CONTINUED:

Contributions: PERS members are required to contribute 9.00% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The rate for the year ended June 30, 2015 was 15.75% of annual covered payroll. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The District's contributions to PERS for the fiscal years ended June 30, 2015, 2014 and 2013 were \$25,541, \$25,096 and \$17,424, respectively, which equaled the required contributions for each year.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability of \$319,719 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2014, the District's proportion was 0.002634 percent, which was an increase of 0.000448 percent from its proportion measured as of June 30, 2013:

For the year ended June 30, 2015, the District recognized pension expense of \$30,008. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual results	\$ 3,668	-
Changes in assumptions	-	-
Net difference between projected and actual earnings on Plan investments	-	37,077
Changes in proportion and differences between District contributions and proportionate share of contributions	45,325	-
District contributions subsequent to the measurement date	<u>25,541</u>	<u>-</u>
Total	<u>\$ 74,534</u>	<u>37,077</u>

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 - DEFINED BENEFIT PENSION PLAN - CONTINUED:

The \$25,541 of deferred outflows of resources resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year Ending June 30,	
2016	\$ 8,354
2017	8,354
2018	4,477
2019	<u>(9,269)</u>
Total	<u>11,916</u>

Actuarial Assumptions. The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.50 percent
Salary increases	4.25-19.50 percent, including inflation
Investment rate of return	8.00 percent, net of Plan investment expense, including inflation

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the four year period ending June 30, 2012. As a result of the experience report which is dated June 12, 2013, the Board of Trustees adopted assumptions for PERS that revised salary increase, withdrawal, pre-retirement mortality, disability, and retirement rates for active members. Also adopted by the Board, were changes in the post-retirement mortality for PERS.

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA Projected to 2025 by Scale AA, set forward two years for males. The RP-2000 Disabled Mortality Table, set back three years for males and set forward two years for females, was used for the period after disability retirement. This assumption is used to measure the probabilities of each benefit payment being made after retirement.

The long-term expected rate of return on the PERS investments of 8.0% percent was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of the plans' investment expense and the assumed

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 - DEFINED BENEFIT PENSION PLAN - CONTINUED:

rate of inflation) were developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Broad	34.00%	5.20 %
International Equity	19.00%	5.00 %
Emerging Markets Equity	8.00%	5.45 %
Fixed Income	20.00%	0.25 %
Real Assets	10.00%	4.00 %
Private Equity	8.00%	6.15 %
Cash	<u>1.00%</u>	(0.50)%
Total	<u>100.00%</u>	

Discount Rate. The discount rate used to measure the total pension liabilities was 8.0 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions for PERS will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the plan's total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following table presents the District's proportionate share of the net pension liability of PERS based on the June 30, 2014, actuarial valuations, calculated using the discount rate of 8.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.0 percent) or one percentage point higher (9.0 percent) than the current rate:

**PEARL RIVER BASIN DEVELOPMENT DISTRICT

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 - DEFINED BENEFIT PENSION PLAN - CONTINUED:

	<u>District's Proportionate Share of Net Pension Liability</u>
1.00% decrease (7.00%)	\$ 435,874
Current discount rate (8.00%)	319,719
1.00% increase (9.00%)	222,830

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued Public Employees' Retirement System of Mississippi's financial report.

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance or participates in State insurance funds for risks of loss other than workers' compensation insurance. Settled claims resulting from these risks have not exceeded commercial or State insurance coverage in any of the past three fiscal years.

With respect to workers' compensation coverage, the District has joined with other state agencies to pool its risk as a member of the Mississippi State Agencies Self-Insured Workers' Compensation Pool, a public entity risk pool. The District pays semi-annual premiums to the pool for its workers' compensation coverage. The Agreement establishing the Pool provides that the Pool will be self-sustaining through member premiums. Members' liabilities incurred for workers' compensation are not relieved except through payment by the Pool or the members of required workers' compensation benefits.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

The District and other state agencies (non-Federal sponsors) entered into a project cooperation agreement with the Federal government during the fiscal year ended June 30, 1998, for the purpose of construction of an earth-filled trapezoidal weir and excavation of a pilot channel in the Lower Pearl River Basin. The total project costs were funded 25% by non-Federal sponsors and 75% by

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 9 - COMMITMENTS AND CONTINGENCIES - CONTINUED:

the Federal Government. The non-Federal share was provided by \$4,000,000 in bond revenue that had been authorized by the Mississippi Legislature and Office of the Governor of the State of Mississippi.

During the year ended June 30, 2000, the project was completed and the Mississippi Department of Wildlife, Fisheries and Parks (MDWFP) forwarded \$2,045,865 representing the remaining funds from the \$4,000,000 in bond proceeds to the District for the establishment of a trust account for the use towards the operation, maintenance, repair, replacement, and rehabilitation costs to be incurred solely by the non-Federal sponsors. The District established the Lower Pearl River Restoration Trust Fund, to account for these funds. The District is to execute these responsibilities for a period of 50 years or until the Mississippi Legislature further delineates or clarifies these responsibilities, whichever occurs first. In addition, the District, in accordance with the non-Federal sponsors' agreement, is to provide a final accounting and forward remaining funds in the trust account to the MDWFP 50 years after the date of completion of initial construction of the project. The District received an additional \$977,500 from the Federal government during the fiscal year ended June 30, 2002, representing excess non-Federal funds that had been held pending the completion of the project.

Under the terms of another agreement between the District and the MDWFP, the District has agreed to provide up to \$4,300 per year to the Department through September 2035. The District has received a credit, under the terms of the agreement, toward future years' payments of approximately \$76,000 from the proceeds of a timber sale in 1998.

NOTE 10 - NET POSITION

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources on the government-wide financial statements. Net position is classified in the following categories:

Net investment in capital assets - This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets. The District had no outstanding debt attributed to capital assets as of June 30, 2015.

Restricted net position - This amount is restricted by creditors, grantors, contributors, or laws or regulations of other governments.

Unrestricted net position - This amount is the net position that does not meet the definition of "net investment in capital assets" or "restricted net position".

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 11 - FUND BALANCE REPORTING

Authoritative guidance provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has prepaid expenses included in fund balances that are deemed to be nonspendable.

In addition to the nonspendable fund balance, authoritative guidance has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed: fund balances that contain self-imposed constraints of the government from its highest level of decision making authority.
- Assigned: fund balances that contain self-imposed constraints of the government to be used for a particular purpose.
- Unassigned: fund balance of the general fund that is not constrained for any particular purpose.

Amounts for specific purposes by fund and fund balance classifications for the year ended June 30, 2015, are as follows:

<u>Classification/Fund</u>	<u>Purpose</u>	<u>Amount</u>
Nonspendable	Prepaid Expenses	\$ 17,230
Restricted:		
Jackson Clearing Project Maintenance Fund	Jackson Clearing Project	341,345
Mitigation Lands Capitalized Management Fund	Land Management	86,582
Lower Pearl River Restoration Trust Fund	Lower Pearl Project	3,969,260
Committed:		
Operation and Special Projects Fund	Subsidies, loans and grants	247,343
Unassigned:		
Operation and Special Projects Fund		162,494
Bogue Chitto Water Park		<u>(162,494)</u>
		<u>\$ 4,661,760</u>

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 12 - DEFICIT FUND EQUITY

For the years ended June 30, 2015, the following funds had deficit fund balances:

	<u>Fund Deficit</u>
General Fund:	
Bogue Chitto Water Park Fund	\$ <u>162,494</u>

This deficit fund balance is offset by the positive fund balance per the General Fund - Operation and Special Projects Fund.

NOTE 13 - WITHDRAWAL OF MEMBER COUNTIES FROM THE DISTRICT

Hinds County, Mississippi satisfied the provisions of Section 51-11-87 of the Mississippi Code of 1972 and withdrew from the District effective July 1, 2009 (see details per Note 1). The withdrawal of Hinds County, Mississippi resulted in five of the original fifteen counties having withdrawn from the District since the District's enabling legislation was changed to allow a county to withdraw during the 2001 legislative session. The last fiscal year all fifteen member counties were in the District was the fiscal year ended June 30, 2001. The tax revenue from the member counties for that fiscal year was \$916,997. This amount compares to tax revenue assessed for the current fiscal year ended June 30, 2015 from the ten remaining member counties in the amount of \$572,691.

The Management and Board of the District have been able to reduce expenses each year as counties have withdrawn resulting in reduced tax revenue. In addition, the District was appropriated by the legislature of the State of Mississippi to receive up to \$200,000 from the State's General Fund for the fiscal years beginning July 1, 2014 and July 1, 2015 to fund operations. Based on a fund balance in the District's general fund (Operation and Special Projects Fund and Bogue Chitto Water Park Fund) of \$264,573 at June 30, 2015, and the funding authorized by the State of Mississippi, management believes that the current level of revenue will allow the District to meet its current outstanding commitments and operate at an effective level through the fiscal year ended June 30, 2016.

NOTE 14 - NEW ACCOUNTING PRONOUNCEMENTS

Impact of Recently Issued Accounting Principles

Recently Adopted Accounting Pronouncements

In June 2012, the GASB issued Statement 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement 27*. GASB 68 improves accounting and financial reporting

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 14 - NEW ACCOUNTING PRONOUNCEMENTS - CONTINUED:

Impact of Recently Issued Accounting Principles - continued:

Recently Adopted Accounting Pronouncements - continued:

by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement is effective for fiscal years beginning after June 15, 2014.

GASBS No. 69, *Government Combinations and Disposals of Government Operations*, issued in January 2013, provides accounting and financial reporting guidance, including disclosure requirements, for combinations (mergers, acquisitions, or transfers of operations) and disposals of operations in the government environment. GASBS No. 69 is effective for such transactions occurring in financial reporting periods beginning after December 15, 2013.

In November 2013, the GASB amended GASBS No. 68 by issuing GASBS No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, which is to be applied simultaneously with GASBS No. 68. At the beginning of the period in which GASBS No. 68 is adopted, it may not be practical for a government to determine the amounts of all deferred inflows of resources and deferred outflows of resources related to pensions. In such circumstances, GASBS No. 71, paragraph 3, requires the government to recognize a beginning deferred outflow of resources only for any pension contributions it made subsequent to the measurement date of the beginning net pension liability but before the start of the government's fiscal year. No beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions should be recognized.

Recently Issued Accounting Pronouncements

In February 2015, the GASB issued Statement 72, *Fair Value Measurement and Application*. GASB 72 will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial

**PEARL RIVER BASIN DEVELOPMENT DISTRICT

position. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

In June 2015, the GASB issued Statement 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. GASB 73 will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities. The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement for pension plans that are within the scope of Statement 67 or for pensions that are within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

In June 2015, the GASB issued Statement 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. GASB 74 establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain nonemployer governments that have a legal obligation to provide financial support for OPEB provided to the employees of other entities. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, issued in June 2015, will improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement is effective for fiscal years beginning after June 15, 2017. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 14 - NEW ACCOUNTING PRONOUNCEMENTS - CONTINUED:

Impact of Recently Issued Accounting Principles - continued:

Recently Issued Accounting Pronouncements - continued:

In June 2015, the GASB issued Statement 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. GASS 76 improves financial reporting by (1) raising the category of GASB Implementation Guides in the GAAP hierarchy, thus providing the opportunity for broader public input on implementation guidance; (2) emphasizing the importance of analogies to authoritative literature when the accounting treatment for an event is not specified in authoritative GAAP; and (3) requiring the consideration of consistency with the GASB Concepts Statements when evaluating accounting treatments specified in nonauthoritative literature. As a result, governments will apply financial reporting guidance with less variation, which will improve the usefulness of financial statement information for making decisions and assessing accountability and enhance the comparability of financial statement information among governments. The requirements of this Statement are effective for reporting periods beginning after June 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

GASB Statement No. 77, *Tax Abatement Disclosures*, issued in August 2015, improves financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

NOTE 15 - PRIOR PERIOD ADJUSTMENT

The District has restated prior year government-wide net position to reflect the retroactive provisions of GASB Statements No. 68 and 71, which require governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time.

**PEARL RIVER BASIN DEVELOPMENT DISTRICT
(A COMPONENT UNIT OF THE STATE OF MISSISSIPPI)**

**NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 15 - PRIOR PERIOD ADJUSTMENT - CONTINUED:

The following summarizes the prior period adjustment referred to above.

Government-Wide Governmental Activities - Net Position

Balance, June 30, 2014, as previously reported	\$ 7,944,437
Prior period adjustment for:	
Increase in previously reported net pension liability	(302,891)
Increase in previously reported deferred outflows of resources related to the net pension liability	<u>25,096</u>
Balance, June 30, 2014, as restated	\$ <u>7,666,642</u>
Total decrease in governmental activities net position	\$ <u>(277,795)</u>

NOTE 16 - SUBSEQUENT EVENTS

The District has evaluated subsequent events through January 27, 2016, the date the financial statements were approved by the District's management and thereby available to be issued and has determined that there are no subsequent events of a material nature requiring adjustment to or disclosure in the accompanying financial statements.

Budgetary Comparison Schedules

NOTE A - BASIS OF PRESENTATION

The District's annual budget is prepared principally on the modified cash basis utilizing encumbrance accounting. Encumbrances represent executed but unperformed purchase orders. Encumbrances are recorded as expenditures for budgetary purposes if presented for payment in the 60-day lapse period immediately following the end of the fiscal year and as reservations of fund balance in the Governmental Fund Balance Sheet. Unexpended appropriations at June 30 are available for subsequent expenditure only to the extent that encumbrances have been established and they are presented for payment during the succeeding 60-day lapse period. All revenue is accounted for under the cash basis.

NOTE B - BUDGET-TO-ACTUAL RECONCILIATION

The following schedule reconciles the fund balances on the budgetary basis to the GAAP basis:

	<u>Operation and Special Projects Fund</u>	<u>Bogue Chitto Water Park</u>	<u>Jackson Clearing Project Maintenance Fund</u>	<u>Mitigation Lands Capitalized Management Fund</u>	<u>Lower Pearl River Restoration Trust Fund</u>
Fund balance - budgetary basis	\$ 328,378	(163,330)	341,306	86,571	3,958,201
Add accrued revenue for current year	81,459	-	39	11	11,059
Prepaid expenses	<u>17,230</u>	<u>836</u>	<u>-</u>	<u>-</u>	<u>-</u>
Fund balance - GAAP basis	<u>\$ 427,067</u>	<u>(162,494)</u>	<u>341,345</u>	<u>86,582</u>	<u>3,969,260</u>

ADDITIONAL REPORT

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

To the Board of Directors of
Pearl River Basin Development District

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Pearl River Basin Development District, component unit of the State of Mississippi, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Pearl River Basin Development District's basic financial statements and have issued our report thereon dated January 27, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Pearl River Basin Development District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pearl River Basin Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Pearl River Basin Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Internal Control Over Financial Reporting - continued:

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pearl River Basin Development District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
