March 4, 2021

Mayor and City Council City of D'Iberville, Mississippi

We are pleased to submit the Comprehensive Annual Financial Report of the City of D'Iberville for the fiscal year ended September 30, 2020. The Administration of the City of D'Iberville is responsible for the information presented in this report. We believe the accompanying information is accurate and complete and fairly presents the financial position of the municipal government of the City of D'Iberville as of September 30, 2020 and results of operations for the fiscal year then ended.

Control Environment

The City's management is responsible for maintaining a system of internal controls sufficient to provide reasonable assurance that City assets are safeguarded from loss and that financial transactions are recorded timely and accurately. Reasonable assurance means that internal controls are selected or designed to reduce the risk of asset loss or inaccurate bookkeeping to an acceptable level, considering the constraint that the cost of control should not exceed the expected benefit. Management is responsible for communicating the purpose and importance of internal controls to employees and for providing the resources necessary to establish and maintain the control system.

Budgetary Controls

Prior to the beginning of each fiscal year, each department director prepares a projection of expenditures for their department. The City's Comptroller develops a projection of revenues for all funds and a projection of the expenditures not included in the departmental budgets. The revenue projections and proposed expenditures are presented to the City Manager. After reviewing the draft budget proposal, the City Manager meets with department directors to discuss their budget requests. Each director must justify their department's budget request by explaining the cost of the programs they propose for the coming year. When the City Manager is satisfied that the proposed budget conforms to the objectives and goals that he has set for the coming year, the entire budget proposal is presented to the City Council. During the budget workshop, the City Council will review, discuss, and question the proposed budget and make modifications to it. The Council will invite public comment on the taxing and spending plan at a special public hearing. After determining that the revenue projections in the budget are sound and that the proposed spending is necessary to provide the level of services and to accomplish the program goals and capital improvements proposed in the budget, the City Council will adopt the budget. After adopting the budget for the coming year, the City Council will set the property tax rate at a level that will generate the property revenue necessary to raise the budgeted ad valorem tax revenue.

Independent Audit

In accordance with Section 21-35-31, Miss Code of 1972 and guidelines prescribed by the State Auditor, the financial statements presented herein have been audited by Wright, Ward, Hatten & Guel, PLLC an independent firm of Certified Public Accountants. The objective of the auditor's work is to provide the auditor with a basis upon which to express an opinion on the fairness of the City's financial statements. The auditor's opinion is included in the Financial Section of this report. The auditor's work involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation.

State Department of Audit regulations require the independent auditor to disclose any instance of non-compliance with certain state laws, that may come to their attention during the audit of the City's financial statements. The auditor must test for non-compliance with federal requirements applicable to each major federal program in which the City of D'Iberville receives federal financial assistance.

Management's Discussion and Analysis

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the City of D'Iberville

The City of D'Iberville, incorporated in 1988, is located within Harrison County. Located at the juncture of Interstate Highways 10 & 110 and MS Highway 67, D'Iberville is uniquely positioned to develop and capture an even larger share of the gulf coast regional retail market.

The City of D'Iberville has operated under the council-manager form of government since 1988. Policy-making and legislative authority are vested in a governing council (Council) consisting of the mayor and five other members, all elected. The Council appoints the government's City Manager, who in turn appoints the heads of the various departments. The Mayor and the five council members serve four-year terms.

The City of D'Iberville provides a full range of services, including fire protection, police protection, water & sanitation, the construction and maintenance of streets and other infrastructure, planning and zoning, and recreational and cultural activities.

Economic Condition and Outlook

The City of D'Iberville was impacted by Hurricane Katrina which hit the Mississippi Gulf Coast in August of 2005. This Hurricane has been described as the worst natural disaster to ever occur in the United States. Approximately 40% of D'Iberville residents lost their homes.

Even fifteen years later, recovery from Hurricane Katrina remains the focus of City Management. Insurance claim proceeds and disaster assistance from the Federal Emergency Management Agency (FEMA) have allowed the City to repair and/or replace most of the City's lost assets. FEMA has approved project worksheets for approximately \$22,000,000. As of the date of this report, all City-owned buildings have been repaired including City Hall. Employees moved into a three-story addition to the current City Hall in March 2011. The renovation of the existing structure was completed and occupied in February 2013. All vehicles, traffic signals, lift stations and street signs have been repaired and/or replaced. The project of replacing the old grinder pumps with a new gravity system in the southeast corner of the City was completed in May 2011.

Post-storm reinvestment by the private sector has been remarkable. As of the date of this report, various single family and multi-family housing projects have been approved for development as well as several new restaurants and retail establishments in the Promenade shopping center.

Sales tax revenue increased 49% from FY2005 to FY2006. Although there was a steady decline in sales tax revenue in FY2007 through FY2009, it increased approximately 22% from FY2009 to FY2010, largely due to the opening of the Promenade shopping center. Sales tax revenue has increased modestly every year from FY2013 to present.

Over the last ten years, the northeast quadrant of the I-10/I-110 Commercial District has exploded with growth. Called the Lakewood Shopping Center, anchor tenants on the 60-acre development include: Wal-Mart, Lowes, and dozens of small retail businesses comprising nearly 400,000 square feet of space with more under various stages of permitting and construction. Lakewood Development has started a chain reaction of similar development in the remaining quadrants of the interchange wishing to capitalize on this strategic location. The first stage of development of the northwest quadrant is complete with the opening of the Promenade shopping center, including Target, Kohl's and many other national chain retailers. Target opened in October 2009, and Kohl's opened in March 2011. The southeast and southwest quadrants are also on the drawing board for additional retail shopping centers, services, and housing.

Together, the four quadrants of the I-10/I-110 Interchange represent the City's most potentially important retail location and development initiative.

More and more businesses and individuals are seeking a north shore location to develop that avoids the congestion and direct damage than can occur on the storm prone shoreline along the Mississippi Sound.

Scarlet Pearl Casino, the City's first casino, opened its doors in December 2015. Gaming revenue increased by nearly 29% from FY2016 to FY2017 and has increased modestly since FY2017. More casinos are on the horizon for D'Iberville. D'Iberville has been and will continue to be a bedroom community, resort/gaming destination and regional retail hub.

The Mississippi Department of Employment Security does not publish an unemployment rate for the City of D'Iberville. Since we are located in Harrison County, we feel that the County's unemployment rate is indicative of unemployment in our City. That rate dropped from 4.5% in September 2019 to 4.4% in September 2020.

Governmental Fund Revenues

Government funds are used to account for most City functions and operations including the various City departments, grants, capital projects, and the City's general obligation debt payments. Figure 1 illustrates the relative amounts of various general governmental revenues for the fiscal year 2020. The City's three largest sources of revenues for general government functions are sales tax, gaming tax, and ad valorem tax.

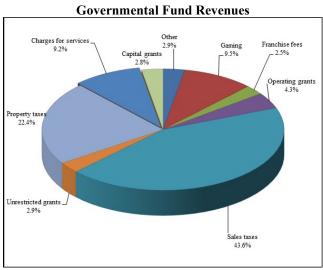

Figure 1

Intergovernmental revenues are collected by other governmental entities such as state government and distributed to the City. Other Intergovernmental Revenue includes taxes collected by the State of Mississippi and state and federal grants.

Property Taxes – In Mississippi, property taxes are levied by municipalities and counties on the assessed value of land and buildings, mobile homes, automobiles, business inventory and equipment. Assessed value is a prescribed percentage of true (appraised) value of each class of property.

Classes of property and assessment ratios are defined in Section 112 of the Mississippi Constitution of 1890.

Class of Property	Ratio
Class I Single-family, owner-occupied, residential real	10%
Class II All other real property, except Class I or Class IV	15%
Class III Personal property, except motor vehicles and Class IV	15%
Class IV Public Utility property	30%
Class V Motor Vehicles	30%

Ad valorem taxes are collected in arrears. The taxes for a calendar tax year are due by February 1 of the subsequent calendar year. Prior to the beginning of a new fiscal year, the City Council sets the tax rate (levy) that will generate the tax revenue needed for the upcoming fiscal year. In each fiscal year, the City collects the ad valorem taxes for the prior calendar tax year. The governing authorities of Harrison County both assess and collect the ad valorem taxes for the City of D'Iberville. The County then remits the amount collected for the City of D'Iberville monthly.

Sales Tax – State law requires sellers of goods and services to collect and remit to the state sales taxes of various rates specified in its statutes. A tax rate of 7% applies to retail sales of tangible personal property. Of the taxes collected by the state each month, 18.5% of the sales tax revenue from activities within a municipal corporation is remitted to the municipal government.

Figure 2 illustrates the relative amount of total expenditures for each service and function accounted for in the City's governmental funds for the fiscal year 2020. Capital outlay and public safety are the largest expenditure categories of the City's governmental funds in FY2020.

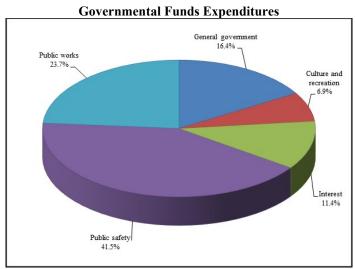

Figure 2

Debt Management

A municipality may finance its activities by incurring various forms of debt, from lease-purchase arrangements to long-term bonds. General obligation debt is bonds or notes secured by the governmental entity's pledge to levy tax adequate to repay the debt. Limited obligation bonds are secured by the pledge of a defined portion of the taxing power of the municipality. Revenue bonds are secured by a pledge of specific revenue sources other than ad valorem taxes such as revenue from a utility system.

Cash Management

Mississippi laws address the investment of surplus money by municipalities and the investment of the proceeds of bonds separately. The investment of surplus money is limited to bonds or other direct obligations of the United States of America or the State of Mississippi or any county or municipality of this state or any school district or obligations issued or guaranteed in full as to principal and interest by the United States of America which are subject to a repurchase agreement deposit with a maturity of six months or less. Treasury Bills are purchased by a municipal depository under a Security Safekeeping Agreement.

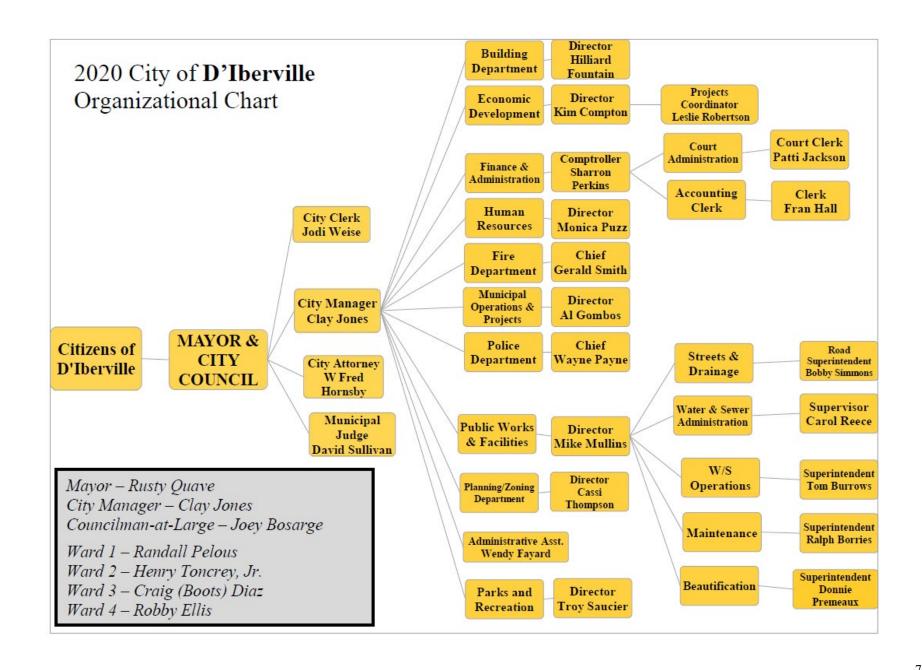

Major Initiatives

During FY2020, the City spent just over \$4,500,000 on capital outlay throughout the City, including a major road construction project on D'Iberville Blvd. The new police station is also now under construction and expected to be completed in Spring 2021.

Respectfully submitted,

Clay Jones, City Manager

Sharron Perkins, Finance Director

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and City Council City of D'Iberville, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of D'Iberville, Mississippi, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of D'Iberville, Mississippi, as of September 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 11-18, budgetary comparison information on pages 55-56 and the schedule of changes in the City's net pension and related ratios schedule on pages 57-60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of D'Iberville, Mississippi's basic financial statements. The introductory section, combining and individual non-major fund financial statements and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

In addition, the State of Mississippi requires municipalities submit a schedule of surety bonds maintained for city personnel in compliance with § 21-17-5 of Mississippi Code of 1972. This schedule has been presented on page 103. This schedule is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of surety bonds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 4, 2021, on our consideration of the City of D'Iberville, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of D'Iberville, Mississippi's internal control over financial reporting and compliance.

Other Reporting Required by State of Mississippi

In accordance with the State of Mississippi, we have also issued our report dated March 4, 2021, on our consideration of the City of D'Iberville's compliance with state laws and regulations. The purpose of that report is to describe the scope of our testing of internal controls over compliance with state laws and regulations and the result of that testing, and not to provide an opinion on internal controls or compliance. That report is an integral part of an audit performed in accordance with state guidelines in considering the City of D'Iberville's internal control over financial reporting and compliance.

Wright, Ward, Hatten & Guel Gulfport, Mississippi

Walt Ward 7 Lethe & Suf

March 4, 2021

Introduction

The following Management's Discussion and Analysis of the City of D'Iberville's ("the City") activities and financial performance provides an introduction to the financial statements of the City for the fiscal year ended September 30, 2020. The information contained in this Management's Discussion and Analysis has been prepared by management and should be considered in conjunction with the financial statements and the notes thereto, which follow this section.

The components of the annual financial report include:

- Management's Discussion and Analysis (MD&A)
- Basic Financial Statements
- Required Supplementary Information (RSI)

The MD&A, a component of RSI, introduces the basic financial statements and provides an analytical overview of the City's financial activities. This MD&A provides comparisons with the previous year.

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at September 30, 2020, by \$53,091,183.
- Net position of the City's governmental activities increased by 3.6 percent, from \$29 million to \$30.1 million. Unrestricted net position changed from a \$22.7 million deficit at September 30, 2019, to a \$24.6 million deficit at the end of this year. Unrestricted net position reflects the component of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements.

The \$24,550,536 deficit in unrestricted governmental net position can largely be explained by the City's unfunded net pension liability of \$16,540,191.

- The total net position increased by \$2,081,535. Of this amount an increase of \$1,036,297 was associated with governmental activities and an increase of \$1,045,238 with business-type activities.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$11,493,517, an increase of \$3,377,344 in comparison with the prior year's fund balance of \$8,116,173.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$7,425,426 or 45.1% of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, economic development, and parks and recreation. The major business-type activities of the City include providing water and sewer services to the residents of the City.

The government-wide financial statements can be found on pages 19-20 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting not only to ensure and demonstrate compliance with finance-related legal requirements but also to help control and manage money for particular purposes or to show it is meeting legal responsibilities for using certain taxes, grants, and other money. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Overview of the Financial Statements (Continued)

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The City maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and the CDBG funds, which are considered major funds, and the other governmental funds for the purpose of consistency.

The City adopts an annual budget for all of its fund groups. Budgetary comparison statements and schedules have been provided to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 21-24 of this report.

• Proprietary Fund

The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City maintains two enterprise funds. Information is presented in the proprietary statement of net position and the proprietary statement of revenues, expenses, and changes in net position for the water and sewer and the waterfront development funds.

The proprietary fund financial statements can be found on pages 25-27 of this report.

Notes to the Financial Statements

Notes to the financial statements provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. Refer to Note 1 in the financial statements for more detailed information on the elements of the financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain other supplementary information. The budget comparison for the general fund and the CDBG grant fund are presented immediately after the basic financial statements as required supplementary information. All other fund group budget schedules are presented in the supplementary section of this report.

Government-wide Condensed Data Financial Analysis

At September 30, 2020 and 2019 the City's assets and deferred outflows of resources exceeded the liabilities and deferred inflows of resources by \$53,091,183, and \$51,009,648 respectively. The largest portion of the City's total net position reflects its net investment in capital assets, less any related debt used to acquire or construct those assets. That amount decreased in 2020 by \$107,003 to \$70,900,087. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Government-wide Condensed Data Financial Analysis (Continued)

Restricted net position, representing resources that are subject to externally imposed restrictions, comprise 9.76% of total net position, as compared to 0.63% in the prior year. The remaining negative balance in the governmental activities represented unrestricted net position of (\$24,550,536). A negative unrestricted net position amount means that it would be necessary to convert restricted assets to unrestricted assets if all ongoing obligations were immediately due and payable. The positive amount of \$1,561,701 in the business-type activities may be used to meet ongoing obligations to citizens and creditors; however, internally imposed designations of certain resources further limit the purposes for which unrestricted net position can be used.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. Unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the close of the fiscal year, the City's governmental funds reported a combined ending fund balance of \$11,493,517, an increase of \$3,377,344 in comparison with the prior year. 64% or \$7,354,050 of this combined total is unassigned, while \$56,071 is not in spendable form due to prepayments, i.e., the prepaid asset is not expected to be converted to cash. The remaining \$4,083,396 is assigned for specific purposes.

• General Fund

The general fund is the chief operating fund of the City. As a measure of the general fund's liquidity, it may be useful to compare the unassigned fund balance to total fund expenditures. At the end of 2020, the general fund's unassigned fund balance represents 45.1% of total general fund expenditures.

Debt Service Fund

The Debt Service Fund is a governmental fund, which accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Police Station Fund

The City uses this fund to account for bond proceeds and other expenses relating to the construction of the City of D'Iberville's new \$5 million, state-of-the-art police station.

• Non-Major Funds

These are mainly comprised of special revenue funds and some capital project funds. Many special revenue funds are set up to maintain various reimbursable grants in which the fund does not carry a balance. The City reported an additional nonmajor fund for FY2020, the Infrastructure Use Fund, which accounts for infrastructure modernization use tax revenue.

Financial Analysis of the Government's Funds (Continued)

Proprietary Funds

The Water and Sewer fund had an increase in net position totaling \$146,342 at the end of FY2020 and the Waterfront Development fund had an increase of \$898,896 for the year resulting in a net increase in proprietary funds of \$1,045,238 for the year ended September 30, 2020.

Budget Variances in the General Fund

Amendments to the original budget increased total revenues by \$701,318, which increased amounts available for appropriation in the general fund. Total budgeted appropriations only increased by \$56,331 during the 2020 fiscal year; however actual expenditures were still under budget by \$1,012,431 at year end, as a result of a conservative fiscal management plan. Refer to the budgetary comparison schedule for the General Fund on page 59 in the RSI section of the annual financial report.

Capital Asset and Long-Term Debt Activity

Capital Asset Activity

At September 30, 2020, the City reported \$68,753,802 in net capital assets for governmental activities and \$24,411,108 in capital assets for business-type activities.. Additional information on the City's capital assets can be found in Note 5: Capital Assets on pages 40-42 of this report.

Capital Asset and Long-Term Debt Activity (Continued)

Long-Term Debt Activity

At the end of the current fiscal year, the City had \$37,742,923 in outstanding debt principal excluding bond discounts, premiums, compensated absences and net pension liability. Additional information on the City long-term debt can be found in Note 6: Long-Term Debt on pages 42-47 of this report.

CITY OF D'IBERVILLE, MISSISSIPPI RECONCILIATION OF THESTATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net change in fund balances - total governmental funds

\$ 3,377,344

Amounts reported for governmental activities in the statement of

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

 Capital outlay
 4,458,823

 Depreciation
 (2,530,787)
 1,928,036

In the statement of activities, only the gain or loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the assets sold.

Net loss on sale/donation of capital assets (6,990)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds

Net change in court fine revenues

10,375

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Repayment of principal	2,393,216
Issuance of bonds	(5,000,000)

The amortization of the discount and premium are treated as a reduction to expense on the statement of activities

(3,594)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Change in net pension liability	(1,509,609)	
Change in compensated absences	(9,327)	
Change in accrued interest payable	(675,145)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

I. Introduction

The City of D'Iberville, Mississippi (the City) was incorporated on February 10, 1988, under the provisions of the State of Mississippi. The City operates under a council-manager form of government and is authorized to provide various services under State law.

The City of D'Iberville is a municipal corporation governed by an elected five-member council and mayor. Each of the council members and the mayor serves a four-year term.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the Notes is organized to provide explanations, including required disclosures, of the City's financial activities for the fiscal year ended September 30, 2020.

II. Financial Reporting Entity

The accompanying financial statements present the City's governmental units over which the City exercises significant influence. Significant influence or accountability is based primarily on operational or functional relationships with the City (as distinct from legal relationships).

Component unit criteria are based on identification of legally separate organizations for which the elected officials of the City are financially accountable. The City has no component units.

In accordance with a pre-incorporation agreement, the D'Iberville schools continue to be operated and maintained by the Harrison County School District. The City does not appoint any of the members of the school board, and the property taxes that are collected from residents within the City for the school district are paid directly to the school district by the Harrison County Tax Collector.

Management has identified one joint venture (Harrison County Utility Authority), and one jointly governed organization (Harrison County Library System). A joint venture is a legal entity or other organization that results from a contractual arrangement that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. A jointly governed organization is similar in nature to a joint venture in that they provide goods and services to the citizenry of two or more governments; however, there is no ongoing significant financial interest or responsibility by the participating governments.

III. Government-Wide and Fund Financial Statements

(A) Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City. For the most part, the effect of inter-fund activities has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

III. Government-Wide and Fund Financial Statements (continued)

(A) Government-Wide Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

(B) Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns within the fund financial statements.

IV. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(A) Basis of Accounting

The City's financial statements are prepared in accordance with accounting principles generally accepted in the U.S. (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, generally including the reclassification or elimination of internal activity (between or within funds). Proprietary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Only current assets and current liabilities are generally included on the balance sheet. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Interest associated with the current fiscal period is considered to be susceptible to accrual and so, has been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IV. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

(A) Basis of Accounting (continued)

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

(B) Fund Types and Major Funds

Governmental Funds

The City reports the following major governmental funds:

General Fund – This is the general operating fund of the City. Substantially all tax revenues, Federal and State aid (except aid for capital projects), and other operating revenues are accounted for in the General Fund. This fund also accounts for expenditures and transfers as appropriated in the expenditures budget, which provides for the City's day-to-day operations, including transfers to the Debt Service Fund for payment of long-term liabilities.

Debt Service Fund – The debt service fund is used by the City to pay the interest and principal of the general and special obligation bonds, tax increment financing bonds, certificates of participation and capital leases.

Police Station Fund – The City uses this fund to account for bond proceeds and other expenses relating to the construction of the City's new \$5 million, state-of-the-art police station.

Proprietary Funds

The City reports the following major proprietary funds:

Water and Sewer Fund – The water and sewer fund accounts for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing water and sewer services to the residents of the City of D'Iberville on a continuing basis are financed or recovered primarily through user charges.

Waterfront Development Fund – The waterfront development fund accounts for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs (expenses, including depreciation) of providing boat slips to the residents of the City of D'Iberville will be financed or recovered primarily through user charges in the form of rental receipts.

(C) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IV. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

(C) Use of Estimates (continued)

The City reports receivables at net realizable value. The allowance for doubtful accounts determination is based on historical losses and current economic conditions. Delinquent receivables are analyzed on a continuing basis, and once those receivables are determined to be uncollectible, they are written off through a charge against an existing allowance account.

(D) Reporting Changes and New Accounting Pronouncements for Future Implementation

Reporting Changes

Effective for fiscal year 2020 reporting, the City adopted the following new standards issued by the Governmental Accounting Standards Board (GASB):

Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The effective dates of certain provisions contained in the following pronouncements are postponed by one year:

- Statement No. 83, *Certain Asset Retirement Obligations*. Effective for reporting periods beginning after June 15, 2019.
- Statement No. 84, Fiduciary Activities. Effective for reporting periods beginning after December 15, 2019.
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. Effective for reporting periods beginning after June 15, 2019.
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period. Effective for reporting periods beginning after December 15, 2020.

The effective dates of the following pronouncements are postponed by 18 months:

• Statement No. 87, *Leases*. Effective for fiscal years beginning after June 15, 2021, and all reporting periods thereafter.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IV. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

(D) Reporting Changes and New Accounting Pronouncements for Future Implementation (continued) Reporting Changes

Statement No. 83, Certain Asset Retirement Obligations. The provisions of GASB 83 are effective for financial statements for reporting periods beginning after June 15, 2019. The requirements of this Statement will enhance comparability of financial statements by establishing uniform criteria for governments to recognize and measure certain asset retirement obligations (ARO's), including obligations that may not have been previously reported. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring disclosures related to those ARO's.

Statement No. 84, *Fiduciary Activities*. The provisions of GASB 84 are effective for fiscal years beginning after December 15, 2019. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities.

Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This statement will improve the information that is disclosed in notes of governmental financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The requirements of this statement are effective for reporting periods beginning after June 15, 2019.

New Accounting Pronouncements for Future Implementation

In June 2017, the GASB issued Statement No. 87, *Leases*. The provisions of GASB 87 are effective for fiscal years beginning after June 15, 2021. The primary objectives of GASB 87 are to establish a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement will enhance the relevance and consistency of information about a governments' leasing activities, as well as the decision-usefulness of the information provided to financial statement users by requiring notes to the financial statements related to the timing, significance, and purpose of a government's leasing arrangements.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The provisions of GASB 89 are effective for reporting periods beginning after December 15, 2020. The primary objectives of Statement 89 are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and will simplify accounting for interest cost incurred before the end of a construction period.

(E) Comparative Data and Reclassifications

Comparative data for the prior year has been presented in certain sections of the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. Also, certain amounts presented in the prior year have been reclassified in order to be consistent with the current year's presentation.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Assets, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

(A) Cash and Cash Equivalents

For purposes of the statement of cash flows, the City's cash and cash equivalents are primarily considered to be cash on hand, amounts held in demand deposits, all certificates of deposits and cash equivalents, which are short-term highly liquid investments that are readily convertible into cash (including restricted assets) in generally three months or less.

(B) Interfund Transactions

Transactions between funds that are representative of lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that these funds are not available for appropriation and are not expendable available financial resources. There are no advances between funds at year-end.

(C) Restricted Assets/Resources

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws. Restricted assets in the utility fund represent principal payments due for the repayment of the 2016 series of the Mississippi Development Bank's water and sewer special obligation bonds (as required by the debt covenant). The amounts that are designated as utility customer meter deposits are classified as restricted as well.

When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the City's policy is to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned or unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the City's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Assets, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

(D) Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns within the government-wide financial statements. Capital assets, other than buildings, improvements other than buildings and infrastructure assets, are defined by the government as assets with an initial, individual cost of \$5,000 or more (amount not rounded) and an estimated useful life in excess of one year.

Donated capital assets are recorded at estimated fair value at the date of donation. In the fund-level financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for as they are in the government-wide financial statements.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend the life of that asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the constructed assets. No interest cost was capitalized during the current fiscal year.

Property, plant, equipment, and infrastructure assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	20-40 years
Infrastructure	20-50 years
Heavy equipment	10 years
Furniture and fixtures	7 years
Vehicles and equipment	5 years
Computer equipment and peripherals	3 years

(E) Long-Term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position.

The governmental fund financial statements recognize the proceeds of debt and premiums related to debt, if any, as other financing sources of the current period. Issuance costs, if any, are reported as expenditures at the time incurred.

(F) Compensated Absences

The City has two types of compensated absences that are described as follows:

- *Vacation* Full time employees are granted 9 to 27 vacation days per year depending on the employee's length of service.
- *Sick Leave* Full-time employees are granted 12 sick leave days per year. However, unused sick leave is not reimbursed upon termination.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Assets, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

(F) Compensated Absences (continued)

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. For governmental fund financial statements, the amount of accumulated vacation leave has been recorded as a current liability to the extent that the amounts are expected to be paid using expendable available financial resources.

The compensated absences liability is computed using the specific identification method whereby the actual number of vacation hours is multiplied by the employee's hourly rate at September 30, 2020.

The resulting liability is then increased to include social security and retirement contributions that the City is required to pay upon liquidation of the liability.

(G) Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, deferred outflows of resources, represents consumption of net position that applies to a future period or periods and so will, not be recognized as an outflow of resources (expense/expenditure) until then. As of September 30, 2020, the City reported deferred outflows on advance refunding in the amount of \$331,721 and deferred outflows on the pension in the amount of \$1,476,881.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period or periods and so, will not be recognized as an inflow of resources (revenue) until that time. As of September 30, 2020, the City reported deferred inflows on property tax revenue of \$4,499,643 and deferred inflows on the pension in the amount of \$125,344.

(H) Postemployment Benefits Other than Pensions (OPEB)

COBRA

In compliance with federal law, the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), the state offers health and dental benefits on a temporary basis to qualified beneficiaries whose benefit coverage would otherwise end because of a qualifying event such as loss of employment. COBRA coverage is available on a self-paid basis and is the same medical and dental coverage available to state employees.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported are fair value

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Assets, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

(I) Fund Balances

Fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts that can be spent only for specific purposes because of the City Charter, City Code, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed – Amounts that can be used only for specific purposes determined by a formal action by City Council ordinance or resolution. This includes the budget reserve account.

Assigned – Amounts that are designated by management for a specific purpose but are not spendable until a budget ordinance is passed by City Council.

Unassigned – All amounts not included in other spendable classifications.

As discussed in Note 1: V(C), restricted funds are used first as appropriate. Assigned Funds are reduced to the extent that expenditure authority has been budgeted by Council or the assignment has been changed by management. Decreases to fund balance first reduce unassigned fund balance; in the event that unassigned fund balance becomes zero, then assigned and committed fund balances are used in that order.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

(J) Net Position

Net position represents the difference between assets, deferred outflows of resources and liabilities and deferred inflows of resources.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

NOTE 2: CASH

A summary of cash (including restricted deposits) as of September 30, 2020, is as follows:

	Unrestricted		cted Restricted		 Total
Governmental activities:				_	
General fund	\$	6,053,156	\$	119,164	\$ 6,172,320
Special revenue funds		-		290,868	290,868
Debt service fund				2,090,869	2,090,869
Capital project funds		-		2,030,183	 2,030,183
		6,053,156		4,531,084	10,584,240
Business-type activities:		_		_	
Water & Sewer fund		3,081,439		1,167,809	4,249,248
Waterfront development fund		-		2,000	 2,000
		3,081,439		1,169,809	4,251,248
	\$	9,134,595	\$	5,700,893	\$ 14,835,488

The carrying amount of the City's total deposits with financial institutions at September 30, 2020, was \$14,835,488 and the bank balance was \$14,982,994. The \$5,700,893 restricted amount is composed of: \$47,143 for unemployment, \$290,502 for public safety purchases, \$2,102,568 for capital and infrastructure improvements, \$2,680,702 for debt service reserves, and \$579,978 for customer deposits.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of the failure of a financial institution, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Citydoes not have a formal policy for custodial credit risk. However, the City follows state statutes that allowpublic entities to select depositories on the basis of competitive bid. Depositories must be covered by Federal Deposit Insurance Corporation (FDIC) or collateralized in an amount equal to 105% of the uninsured deposit.

The collateral is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by §27-105-5 of the Mississippi Code of 1972, Annotated. Under this program, the City's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institutionwould be liquidated by the State Treasurer to replace the public deposits not recovered by the FDIC.

NOTE 3: RECEIVABLES

(A) Due from other governments

The City reported the following amounts as due from other governments as of September 30, 2020:

	Governmental Activities					Bus	iness-Type		Total	
		General	1	Non-major		Total	W	aterfront	Go	vernment-
		Fund		Funds	Go	vernmental	D	ev. Fund		Wide
Harrison County - SRO	\$	58,599	\$	-	\$	58,599	\$	-	\$	58,599
State of Mississippi - Gaming		262,278		-		262,278		-		262,278
State of Mississippi - MDOT		-		113,477		113,477		-		113,477
State of Mississippi - Tidelands		-				-		81,915		81,915
State of Mississippi - CDBG		-		86,227		86,227		-		86,227
State of Mississippi - CARES ACT		222,181				222,181				222,181
Other Public Safety Grants		7,638		36,661		44,299		-		44,299
Total due from other governments	\$	550,696	\$	236,365	\$	787,061	\$	81,915	\$	868,976

(B) Accounts receivable, net of allowance

Customer receivables consist of the following at September 30, 2020:

	Governmental activities		Business-ty		
			Water &	Waterfront	
	Court	Garbage	Sewer	Development	
	Fines	Collections	Fund	Fund	Total
Charges billed but uncollected	\$ 4,182,678	\$ 127,344	\$ 1,112,373	\$ 15,863	\$ 5,438,258
Charges accrued but unbilled at year end	-	42,432	250,050	-	292,482
Less: Allowance for uncollectible accounts	(3,555,276)	(71,771)	(731,801)	(15,384)	(4,374,232)
Total accounts receivable	\$ 627,402	\$ 98,005	\$ 630,622	\$ 479	\$ 1,356,508

NOTE 4: INTERFUND TRANSACTOINS AND BALANCES

Government-wide Financial Statements

(A) Interfund Balance

The following is the interfund balance ended September 30, 2020:

Receivable Fund	Payable Fund	A	Amount
General	Waterfront development fund	\$	49,585

During the course of the year, certain expenditures were paid on a reimbursement basis requiring the City to borrow monies at year-end from the general fund in order to prevent a deficit cash balance in the waterfront development fund.

NOTE 4: INTERFUND TRANSACTIONS AND BALANCES (Continued)

Fund Financial Statements

(A) Due To/From Other Funds

The following is a summary of the due to/from other funds at September 30, 2020.

Receivable Fund	Payable Fund	 Amount
General Fund	MDOT Boney Avenue Signalization Fund	\$ 63,957
General Fund	Bulletproof Vest Fund	1,365
General Fund	DUI Grant Fund	1,648
General Fund	JAG Grant Fund	33,648
General Fund	MDOT Sangani Utilities Fund	38,921
General Fund	Waterfront Development Fund	49,585
Total		\$ 189,124

During the course of the year, certain expenditures were paid on a reimbursement basis requiring the City to borrow monies at year-end from the general fund in order to prevent a deficit cash balance in the above funds.

(B) Interfund Transfers

In addition to the above due to/from balances, the following transfers were made between funds duringthe year ended September 30, 2020:

Transfers From	Transfers To		Amount
General Fund	Municipal Fire Rebate Fund	\$	28,790
General Fund	MDOT Boney Avenue Signalization Fund		13,839
General Fund	USDA Grant Fund		90,680
General Fund	Bulletproof Vest Fund		2,912
General Fund	DUI Grant Fund		4,577
General Fund	JAG Grant Fund		16,840
General Fund	Debt Service fund	3	3,715,943
Municipal Fire Rebate Fund	Debt Service fund		86,017
Total		\$ 3	,959,598

Transfers are indicative of the City's matching portion of various capital projects, lease payments, anddebt service. The general fund transferred \$3,715,943 to the debt service fund for principal and interestpayments. The general fund made transfers of \$157,638 to the nonmajor funds for the City's match requirements for certain federal and state grants. The municipal fire rebate fund transferred \$86,017 to the debt service fund for principal and interest payments.

NOTE 5: CAPITAL ASSETS

Capital asset activity governmental activities for the year ended September 30, 2020, is as follows:

	Balance		Disposals/	Balance

NOTE 6: LONG-TERM DEBT (Continued)

Governmental Activities (Continued)

General Obligation Bonds

In June 2016, the City issued \$2,480,000 of General Obligation Public Improvement Refunding Bonds, Series 2016, with an average interest rate of 2.5%. The net proceeds of \$2,490,916 (after issuance costs of \$52,572, plus premium of \$86,289) were used to advance refund the General Obligation Public Improvement Bonds, Series 2009, with a total principal amount of \$2,455,000 with interest rates from 3.0% to 3.6%.

In December of 2019, the City issued \$5,000,000 of General Obligation Bonds, Series 2019, with varying interest rates of 2.375% to 3.125%, with principal maturing December 2039. The proceeds of \$5,000,000 are being used for construction of a new police station.

Annual debt service requirements to maturity for the general obligation bond – refunding bonds are as follows:

Year				
Ending	Principal	Principal Interest		Total
2021	\$ 485,000	\$	221,264	\$ 706,264
2022	505,000		150,172	655,172
2023	520,000		136,172	656,172
2024	535,000		121,750	656,750
2025	555,000		107,863	662,863
2026-2030	1,135,000		423,859	1,558,859
2031-2035	1,325,000		269,457	1,594,457
2036-2040	1,575,000		100,179	 1,675,179
	\$ 6,635,000	\$	1,530,716	\$ 8,165,716

Special Obligation Bonds

In August 2011, the City authorized and issued Special Obligation Bond, Series 2011 for the purpose of purchasing approximately 6.4 acres of property. The amount of the bond issued was \$4,000,000 with a varying interest rate of 2.0-5.375% and principal maturing September 2031.

Annual debt service requirements to maturity for the special obligation bond are as follows:

Year				
Ending	 Principal	Principal Interest		 Total
2021	\$ 190,000	\$	129,694	\$ 319,694
2022	200,000		122,094	322,094
2023	205,000		133,594	338,594
2024	215,000		104,369	319,369
2025	225,000		94,425	319,425
2026-2030	1,325,000		293,096	1,618,096
2031	305,000		16,394	321,394
	\$ 2,665,000	\$	893,666	\$ 3,558,666

NOTE 6: LONG-TERM DEBT (Continued)

Governmental Activities (Continued)

Limited Obligation/Tax Increment Financing Bonds

The City issues Tax Increment Financing (TIF) bonds to encourage economic development within certain areas of the City.

Tax increment financing bonds currently outstanding are as follows:

	Interest Rates	 Amount
TIF Bond 2008	4.76%	 770,000
TIF Bond 2013	2.0 - 4.75%	8,470,000
TIF Bond 2015	3.95%	1,760,000
TIF Bond 2017A	5.00%	6,470,000
TIF Bond 2017B	4.75 - 5.0%	3,335,000
TIF Bond 2018	4.25 - 4.5%	 1,828,000
		\$ 22,633,000

The original amount of TIF bonds issued from April 1999 to December 2013 was \$19,020,000. The City's outstanding balance for these bonds was \$9,240,000 as of September 30, 2020.

On March 2, 2016, the City issued \$2,400,000 in TIF limited obligation refunding bonds, Series 2016 for the Academy Sports Project. These bonds have an average interest rate of 3.95% with principal maturing March 2031.

On June 13, 2017, the City issued \$10,820,000 in TIF limited obligation refunding bonds, Series 2017A and Series 2017B for the Racetrack Road Redevelopment Project. Series 2017A has an interest rate of 5% and Series 2017B has a variable interest rate of 4.75% to 5%. Series 2017A has principal maturing May 2037 and Series 2017B has principal maturing May 2028. In addition, the City is required to maintain a Debt Service Reserve Fund in the amount of \$871,250 for the duration of these bonds. This amount is reflected in reserved cash and cash equivalents.

On November 1, 2018, the City issued \$1,897,000 in TIF limited obligation refunding bonds, Series 2018 for the Galleria Automotive Project. These bonds have an interest rate between 4.25% and 4.5% with principal maturing November 2038. In addition, the City is required to maintain a Debt Service Reserve Fund in the amount of \$144,695 for the duration of these bonds. This amount is reflected in restricted cash.

The principal and interest on tax increment financing bonds are paid from the increase in sales tax revenue that is generated from the developed area. These bonds are generally issued as 10- or 20-year serial bonds with varying amounts of principal maturing each year. These bonds are reflected in the governmental activity's column of the Statement of Net Position.

NOTE 6: LONG-TERM DEBT (Continued)

Governmental Activities (Continued)

Limited Obligation/Tax Increment Financing Bonds

Annual debt service requirements to maturity for tax increment financing bonds are as follows:

Year			
Ending	Principal	Interest	Total
2021	\$ 1,404,000	\$ 1,068,764	\$ 2,472,764
2022	1,452,000	1,012,604	2,464,604
2023	1,510,000	953,710	2,463,710
2024	1,293,000	881,349	2,174,349
2025	1,346,000	819,237	2,165,237

<u>Certificates of Participation</u>

In accordance with §31-8-1 et seq. of the Mississippi Code of 1972, Annotated), the City issued Certificates of Participation in the amount of \$2,755,000 and transferred the proceeds to the Southern Mississippi Investment Company, Inc. The funds were issued to construct a fire station. The Corporation has entered into a twenty-year lease with the City. The City is obligated to pay the principal and interest on the debt. The interest on the certificates is 3.17%, and they mature April 1, 2028. At the completion of the lease, the City will assume ownership of the facility. This obligation is not a general obligation and does not constitute a pledge of full faith and credit of the City.

Annual debt service requirements to maturity for certificates of participation are as follows:

Year							
Ending	Principal		Interest		Total		
2021	\$	185,000	\$ 51,830	\$	236,830

Revenue Refunding Bonds - Advance Refunding

In July 2016, the City issued \$5,545,000 of Combined Water and Sewer System Revenue Refunding Bonds, Series 2016, with a varying interest rate of 2.0% to 2.5%. The net proceeds of \$5,610,192 (after issuance costs of \$115,128, plus premium of \$79,298) were used to advance refund the Mississippi Development Bank Water and Sewer Special Obligation Bonds, Series 2010 and Series 2011, with a total principal amount of \$5,180,000 with interest rates from 2.0% to 5.25%. In addition, the City is required to maintain a Debt Service Reserve Fund in the amount of \$554,500 for the duration of these bonds. This amount is reflected in reserved cash and cash equivalents.

NOTE 6: LONG-TERM DEBT (Continued)

Business-type Activities –

Revenue Refunding Bonds - Advance Refunding

Annual debt service requirements to maturity for the revenue refunding bond are as follows:

Year							
Ending	Principal		Interest		Interest		 Total

Notes Payable

Mississippi Development Bank Loan - The City entered into a loan agreement with the Mississippi Development Bank to provide funds for water and sewer system upgrades and improvements. This loan has a 20-year maturity and an interest rate of 3.00%. This loan is reflected in the Business-Type Activities column of the Statement of Net Position.

Special Community Disaster Loans - The City obtained a loan from the Federal Emergency Management Agency in the amount of \$348,563 for water and sewer operations under the Community Disaster Loan program. This loan is reported in the Business-Type Activities section of the financial statements. The payments on this loan are deferred for several years maturing in fiscal year ending 2035 and bear interest at 2.70%.

Annual debt service requirements for the notes/loans are as follows:

Year				
Ending	P	rincipal	 Interest	Total
2019	\$	20,339	\$ 4,108	\$ 24,447
2020		20,750	3,698	24,448
2021		21,169	3,279	24,448
2022		21,596	2,852	24,448

2024-2028		105,737	5,425	111,162
2029-2032		348,563	125,509	474,072
	\$	560,186	\$ 147,287	\$ 707,473

Compensated Absences

The City's policies relative to compensated absences and the method of computing accrued liabilities and reporting are discussed in Note 1 V(F) on page 34-35.

NOTE 7: RETIREMENT PLANS

A - Defined Benefit Pension Plan

General Information about the Pension Plan

Plan Description

The City contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by §25-11-1 et seq of the Mississippi Code of 1972, Annotated and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Benefits provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public Cities. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees.

If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions and the Board's authority to determine contribution rates are established by Miss. Code Ann. §25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature.

NOTE 7: RETIREMENT PLANS (Continued)

A - Defined Benefit Pension Plan

Contributions

PERS members are required to contribute 9.00% of their annual covered salary, and the City is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2020, was 17.4% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The City's contributions to PERS for the fiscal years ending September 30, 2020, 2019 and 2018 were \$1,127,643, \$1,003,966, and \$962,796, respectively, which equaled the required contributions for each year.

Pension liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2020, the City reported a liability of \$16,540,191 in the governmental activities and \$2,044,293 in the business-type activities for a total of \$18,584,484 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2020, the City's proportion was .096 percent. For the year ended September 30, 2020, the City recognized pension expense for governmental activities of \$1,972,062 and \$243,738 for business-type activities.

At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			
	Governmental Business-Type		T . 1	
	Activities	Activities	Total	
Differences between expected and actual experience	\$ 143,571	\$ 17,745	\$ 161,316	
Changes of assumptions	92,526	11,436	103,962	
Net difference between projected and actual earnings				
on pension plan investments	679,408	83,972	763,380	
Changes in proportion and differences between City				
contributions and proportionate share on contributions	170,708	21,099	191,807	
City's contributions subsequent to the measurement date	228,210	28,206	256,416	
Total deferred outflows related to pensions	\$ 1,314,423	\$ 162,458	\$1,476,881	
	Deferred Inflows of Resources			
	Governmental	Business-Type		
	Activities	Activities	Total	
Changes in proportion and differences between City				
contributions and proportionate share on contributions	112,001	13,843	125,844	
Total	\$ 112,001	\$ 13,843	\$ 125,844	

NOTE 7: RETIREMENT PLANS (Continued)

A - Defined Benefit Pension Plan

Within the deferred outflows, \$256,416 of deferred outflows of resources is related to pensions resulting from the City's contributions subsequent to the measurement date and will be recognized as a reduction to the net pension liability in the year ended September 30, 2020. Other amounts, netting to \$1,094,621, reported as deferred outflow of resource and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30:

2021	\$ 204,218
2022	309,569
2023	334,848
2024	245,986
	\$1,094,621

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2019 and are based on the results of an actuarial experience study for the four-year period ending June 30, 2018. The experience report is dated April 2, 2019. An expected total pension liability is determined as of the measurement date of June 30, 2020, using standard roll forward techniques. The roll forward techniques are applied to the liabilities before and after the assumption changes then compared as of June 30, 2020, to reflect the assumption gain and loss for the year. The following actuarial assumptions applied to all periods included in the measurement.

Price Inflation 2.75 percent

Salary Increase 3.00-18.25 percent, including inflation

Investment Rate of Return 7.75 percent, (net of investment expense, including inflation)

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119. For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

NOTE 7: RETIREMENT PLANS (Continued)

A - Defined Benefit Pension Plan

The long-term expected rate of return on the PERS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of the plans' investment expense, and the assumed rate of inflation) were developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected Real	
Asset Class	Target Allocation	Rate of Return	
Domestic Equities	27.00 %	4.90 %	
International Equities	22.00	4.75	
Global Equities	12.00	5.00	
Debt Securities	20.00	.50	
Real Estate	10.00	4.00	
Private Equity	8.00	6.25	
Cash	1.00	N/A	
Total	100.00 %		

Discount rate

The discount rate used to measure the total pension liability for PERS was 7.75 percent, which was based on the future long-term expected rate of return of 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.0%) and at the current contribution rate (17.4%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return investments was applied to all periods of projected benefit payments to determine each plan's total pension liability.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following table presents the City's proportionate share of the PERS net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.75 percent) or one percentage-point higher (8.75 percent) than the current rate:

	Current		
	1% Decrease	Discount	1% Increase
	(6.75%)	Rate (7.75%)	(8.75%)
City's proportionate share			
of the net pension liability	\$ 24,055,332	\$ 18,584,484	\$ 14,068,837

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report which can be obtained at www.pers.ms.gov.

NOTE 7: RETIREMENT PLANS (Continued)

B - Deferred Compensation Plan

The City, through VOYA, offers its employees a voluntary deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The assets of the plan are held in trust for the exclusive benefit of participants and their beneficiaries. The requirements of Internal Revenue Code Section 457(g) prescribe that the City does not own the amounts deferred by employees, including the related income on those amounts. Additionally, the City does not have fiduciary accountability for the plan. Accordingly, the assets and the liability for compensation deferred by plan participants, including earnings on plan assets, are not included in the City's financial statements.

NOTE 8: RELATED PARTY COMMITMENTS

Joint Governance

On September 30, 1998, the City entered into an agreement with the Harrison County Library Board of Trustees, the City of Gulfport, the City of Biloxi, the City of Pass Christian, and Harrison County to mutually cooperate in securing a more economical public library system through combined resources, interests, materials and facilities to be known as the Harrison County Library System.

There are no specific monetary terms in the agreement, and the City of D'Iberville has no equity interest in the organization. The Harrison County Library Board approves an operating budget every year which stipulates the amount of funds needed from participating municipalities and various other funding sources.

The City of D'Iberville contributed \$143,879 for the year ended September 30, 2020. This agreement is cancelable upon 60 days written notice prior to the end of the fiscal year, and therefore, the City of D'Iberville does not have an ongoing financial responsibility.

Joint Venture

The City of D'Iberville is a member of the Harrison County Utility Authority (Authority) which was established by an act of the Mississippi Legislature and operates under §49-17-701 of the Mississippi Code of 1972, Annotated to provide for adequate wastewater treatment and solid waste disposal services to the citizens of Harrison County, Mississippi. The governing board is comprised of one member from each of the cities located in Harrison County and two members from the Harrison County Board of Supervisors.

Through a fifty-year contract, the City of D'Iberville is obligated to pay monthly, its pro-rata share of all operating, administrative, and capital costs of the Authority. Additionally, the City is jointly and severally liable for all of the liabilities of the Authority. The Authority is classified as a joint venture between the City of D'Iberville and the other members.

NOTE 8: RELATED PARTY COMMITMENTS (Continued)

As of the date of this report, the Authority has not completed the annual audit of their FY 2020 financial statements. The following is a synopsis of the Authority's financial statements as of and for the year ended September 30, 2019, a complete copy of which is on file at the administrative offices of the Authority.

The following is a synopsis of the Authority's financial statements as of and for the year ended September 30, 2019:

CONDENSED STATEMENT OF NET POSITION

General Fund

Statement of revenues, expenditures and changes in fund balance:

Public works expenditures:

Other services and charges (solid waste charges)

\$ 744,784

Water and Sewer Enterprise Fund

Statement of revenues, expenses and changes in net position:

Contracted services (wastewater treatment)

\$ 1,095,717

NOTE 9: COMMITMENTS AND CONTINGENCIES

Commitments

(A) Economic Development

The City has the authority to enter into various agreements in an effort to promote economic development and re-development within the City. These agreements offer reductions in sales tax, property taxes, and business licensing fees.

The City derives authority for tax abatement under the Tax Increment Financing Act, §21-45-1 through §21-45-21 of the Mississippi Code of 1972, Annotated. Under these statues, any municipality may enter into agreements with any developer whereby the developer will agree to construct, operate and maintain buildings or other facilities or improvements included within such projects as are provided in a redevelopment plan. In addition, §17-21-5 of the Mississippi Code of 1972, Annotated, allows cities to exempt any or all municipal ad valorem taxes, excluding school districts, to any privately owned new or improvements to structures within a designated business district, historic landmark/preservation district, urban renewal or redevelopment district. In 2013, the City adopted Ordinance No. 141 to address these tax abatements.

The City may agree to either forego a portion of its sales and/or property tax or pay a portion of its sales and/or property tax in order to reimburse the property owners for construction and maintenance of public improvements. In an effort to promote immediate economic development, property owners have paid for and installed the improvements in advance. In each project area, the revenues to the City were either zero or declining. As such, the City was in a position to both enhance its economic base and improve overall economic vitality in areas surrounding the specific projects.

Parties to the incentive agreements and the various components therein are different, however each financial agreement is set to expire at either a date certain, or when a given amount of funds have been paid to reimburse the project developers, whichever occurs first.

The City has no tax abatements as of September 30, 2020.

NOTE 9: COMMITMENTS AND CONTINGENCIES (Continued)

(B) Harrison County Inter-local Agreement

The Council approved an inter-local agreement with Harrison County, Mississippi to provide for certain services in connection with the City's roads, bridges, highways, approach and related drainage, and parks and recreational facilities. This agreement is for the period January 2019 through January 2020.

On May 11, 2016, the Council also approved an inter-local agreement for all emergency communications, including 911 services for public safety and protection and other purposes. This agreement is for the period July 1, 2016 through December 31, 2020. The City pays \$67,537 per quarter which represents a portion of the total costs of direct salaries and all fringe benefits of the total number of all dispatchers operating in the Sheriff's dispatch unit. The City further agrees to pay 100% of the actual payments, including fringe benefits, which the County pays to dispatchers working overtime or holidays on City matters. In fiscal year 2020, the City paid \$270,154 to Harrison County for these services. Per the inter-local agreement, the City's reimbursement to Harrison County for these services shall not exceed \$300,000 each year.

Contingencies

(A) Litigation

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's legal counsel, the resolution of these matters will not have a materially adverse effect on the financial condition of the City.

(B) Grants and Awards

Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally federal and state governments. Any disallowed expenses, including amounts already collected, might constitute a liability of the applicable funds.

The City of D'Iberville has been notified by the Mississippi Department of Environmental Quality MDEQ) of the repayment of monies that were awarded to the City in FY 2012. The City received \$2.7 million during FY 2012, and the City has partially spent the award on allowable expenditures. Management has included \$176,468 as unearned revenue, a liability, in the general fund to reflect amount due to MDEQ as of September 30, 2020.

In the nonmajor funds, the City has included an unearned revenue amount of \$71,376 which is due to an expenditure related to the MDOT Sangani Utilities project that was incurred after the project had been closed out. The City is currently pursuing reimbursement from the MDOT for this expenditure.

NOTE 10: NET POSITION

The detail of net position – governmental activities as of September 30, 2020, is as follows:

Governmental Activities:

Net investment in capital assets:	
Net capital assets	68,753,802
Bonds and borrowings payable, net	(33,703,360)
Noncapital related bonds payable	15,455,496
Outflows attribuable to capital asset acquisition	32,046
Retainages and capital related accounts payable	(518,270)
Net investment in capital assets	50,019,714
Restricted net position	
Restricted cash and cash equivalents	4,531,084
Nonspendable - prepaid insurance	56,071_
Restricted net position	4,587,155
Unrestricted net position	(24,550,536)
Total governmental activities net position	30,056,333

The \$20,550,536 deficit in unrestricted governmental net position can largely be explained by the City's unfunded net pension liability of \$16,540,191.

The detail of net position – business-type activities as of September 30, 2020, is as follows:

Business-type Activities:

Net investment in capital assets:	
Net capital assets	24,411,108
Less: outstanding balances of borrowings for capital asset acquisition:	(3,830,410)
Add: deferred outflows of resources attributable to capital asset acquisition	299,675
Net investment in capital assets	20,880,373
Restricted net position	
Restricted cash and cash equivalents	1,169,809
Less: liabilities related to restricted assets:	(579,978)
Nonspendable - prepaid insurance	3,445
Restricted net position	593,276
Unrestricted net position	1,561,701
Total business-type net position	23,035,350

A deficit unassigned fund balance of \$71,376 exists in the MDOT Sangani Utilities special revenue fund. The deficit relates to a dispute that began in fiscal year 2012, between the City and MDOT regarding payment to a contractor above the amount allocated for construction. The City is still pursing reimbursement as of September 30, 2020.

NOTE 11: RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended September 30, 2020, the City carried insurance through various commercial carriers to cover all risks of losses. The government has had no settled claims resulting from these risks that exceeded its commercial coverage in any of the past three fiscal years.

NOTE 12: WORLDWIDE PANDEMIC

In early 2020, an outbreak of the novel strain of coronavirus (COVID-19) emerged globally. As a result, there have been mandates from federal, state, and local authorities resulting in an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the City is not estimable at this time.

NOTE 13: SUBSEQUENT EVENTS

Events that occur after the statement of net position date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of net position date require disclosure in the accompanying notes.

Management of the City of D'Iberville, Mississippi evaluated the activity of the City through March 4, 2021, (the date the financial statements were available to be issued), and determined no events have occurred subsequent to September 30, 2020, through this date, that would require adjustment to or disclosure in the financial statements or in the accompanying notes.

CITY OF D'IBERVILLE, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY COMPARISON SCHEDULE FOR THE YEARS ENDED SEPTEMBER 30, 2020

NOTE A: BUDGETARY INFORMATION

The procedures used by the City in establishing the budgetary data in the financial statements are as follows:

- 1. Prior to August 1, the City Manager submits to the Council members a proposed operating budget for the fiscal year beginning October 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. No later than September 15, the budget is legally enacted through passage of a resolution.
- 3. The General Fund and Special Revenue funds' budgets are adopted on a cash basis as required by State statute. Accordingly, actual figures have also been presented on a cash basis. All budgeted amounts presented in the accompanying schedule are as originally adopted or as amended by the Council members.
- 4. The City Manager is responsible for monitoring the budget and actual results and is authorized to transfer budgeted amounts within funds. However, any revisions that alter the total expenditures must be approved by the Council members.

CITY OF D'IBERVILLE, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – PENSION SCHEDULES FOR THE YEARS ENDED SEPTEMBER 30

Changes of assumptions.

> 2019

- The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:
 - For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119.
 - For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119.
 - Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabledretirees with the following adjustments:
 - For males, 137% of male rates at all ages.
 - For females, 115% of female rates at all ages.
 - Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The price inflation assumption was reduced from 3.00% to 2.75%.
- The wage inflation assumption was reduced from 3.25% to 3.00%.
- Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.
- The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

> 2017

- The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.
- The wage inflation assumption was reduced from 3.75% to 3.25%.
- Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.
- The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

≥ 2016

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

> 2015

- The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.
- The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.
- Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.
- Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.
- The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

CITY OF D'IBERVILLE, MISSISSIPPI NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – PENSION SCHEDULES FOR THE YEARS ENDED SEPTEMBER 30

Changes in benefit provisions

> 2016

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

Methods and assumptions used in calculations of actuarially determined contributions

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2019 valuation for the June 30, 2020 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method Entry age

Amortization method Level percentage open

Remaining amortization period 30.9 years

Asset valuation method 5-year smoothed market

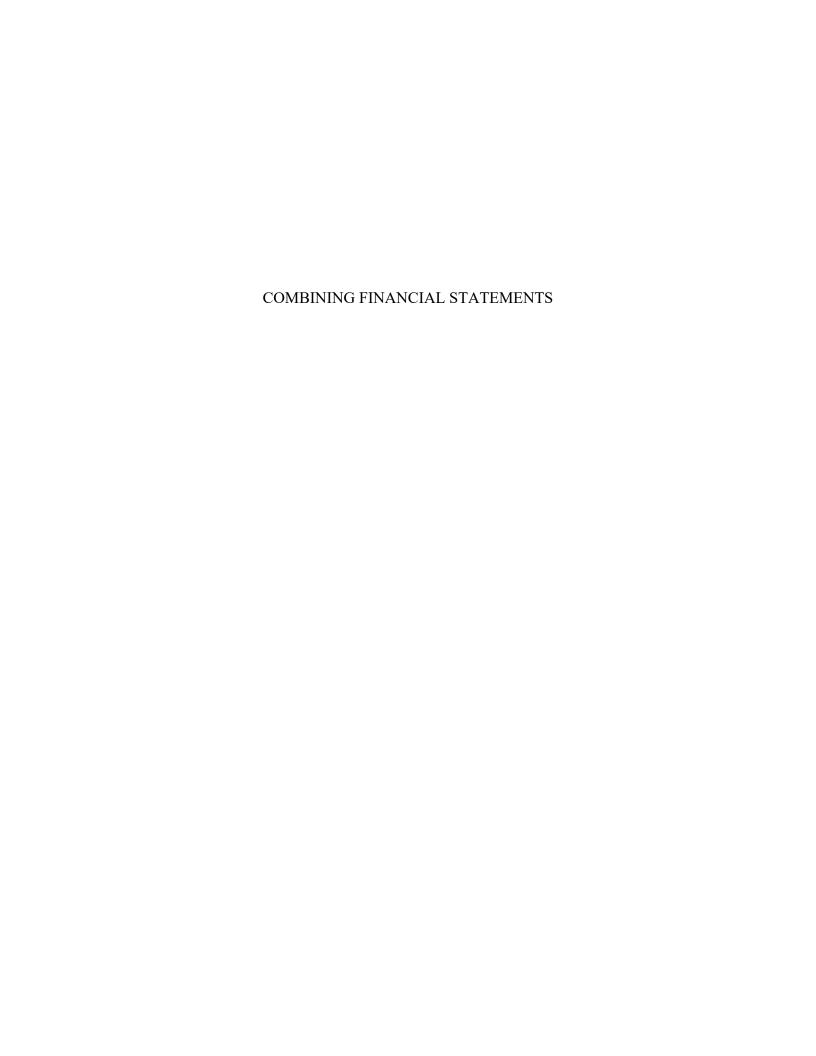

Price inflation 3.00 percent

Salary increase 3.25 percent to 18.50 percent, including inflation

Investment rate of return 7.75 percent, net of pension plan investment expense,

including inflation

¹ The amount of general obligation bonded debt that can be incurred by the City is limited by state statute. Total outstanding general obligation bonded debt during a year can be no greater than 15% of assessed value of the taxable property within the City, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a city issues bonds to repair or replace washed out or collapsed bridges on the public roads of the city.

² The legal debt limit applies to total governmental activities long-term bonded debt.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and City Council City of D'Iberville, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of D'Iberville, Mississippi, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise City of D'Iberville, Mississippi's basic financial statements, and have issued our report thereon dated March 4, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of D'Iberville, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness City of D'Iberville, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of City of D'Iberville, Mississippi's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of D'Iberville, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Mayor and City Council City of D 'Iberville, Mississippi

Report on Compliance for Each Major Federal Program

We have audited the City of D'Iberville, Mississippi's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of D'Iberville, Mississippi's major federal programs for the year ended September 30, 2020. City of D'Iberville, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of D'Iberville, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of D'Iberville, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of D'Iberville, Mississippi's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of D'Iberville, Mississippi, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control over Compliance

Management of the City of D'Iberville, Mississippi, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of D'Iberville, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of D'Iberville, Mississippi's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

LINITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

To the Mayor and City Council City of D'Iberville, Mississippi

In planning and performing our audit of the financial statements of the City of D'Iberville, Mississippi for the year ended September 30, 2020, we considered the City of D'Iberville, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to the City of D'Iberville, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the City's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated March 4, 2021, on the financial statements of the City of D'Iberville, Mississippi.

Although no findings came to our attention as a result of these review procedures and compliance tests, these procedures and tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of the internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Miss. Code Ann. (1972), the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

This report is intended for the information and use of management, the city council, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Notes to the Schedule:

Note 1 – Basis of Presentation

This schedule includes the federal award activity of the City of D'Iberville, Mississippi under programs of the federal government of the year ended September 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents on a selected portion of the operations of City of D'Iberville, Mississippi, it is not intended to and does not present the financial position, or changes in net assets of City of D'Iberville, Mississippi.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on same basis of accounting and significant accounting policies, as applicable, used for the financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain typesof expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or creditsmade in the normal course of business to amounts reported as expenditures in prior years.

Note 3 – Indirect Cost Rate

The City of D'Iberville, Mississippi has elected to not use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 4 – Subrecipients

No awards were passed through to subrecipients.
