INDEPENDENT AUDITOR'S REPORT

Mayor and Members of the Board of Aldermen City of Natchez Natchez, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Natchez, Mississippi (the City) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on Aggregate Discretely-Presented Component Units

The financial statements referred to above do not include financial data of one of the City's legally separate discretely-presented component units. Accounting principles generally accepted in the United States of America require the financial data for the component unit to be reported with the financial data of the City's primary government unless the City also issues financial statements for the financial reporting entity that includes the financial data for its component unit. The City has not issued such reporting entity financial statements. The amount by which this departure would affect the assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses of the aggregate discretely-presented component units is not reasonably determinable.

Adverse Opinion on Aggregate Discretely-Presented Component Units

In our opinion, because of the significance of the matter described in the "Basis for Adverse Opinion on Aggregate Discretely-Presented Component Units" paragraph, the financial statements referred to above do not present fairly, the financial position of the aggregate discretely-presented component units of the City of Natchez, Mississippi, as of September 30, 2020, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Budgetary Comparison Schedules, the Schedule of Funding Progress – MMRS, the Schedule of Changes In Net Pension Liability and Related Ratios – PERS, and the Schedule of Employer Contributions – PERS be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the *Required Supplementary Information* in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The *Other Supplementary Information*, as described in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required is not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net Changes in Fund Balances, Total Governmental Funds (Statement E)	\$	2,477,142
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital assets as expenditures. However, in the Statement of Activities, the cost of those assets is depreciated over their estimated useful lives. Thus, the change in net position differs from the change in fund balances by which capital outlays exceeded depreciation in the period:		
Capital outlay\$ 5,579,31Depreciation expense(2,585,79Loss on transfer of capital assets(2,508,12	5)	485,398
Repayment of debt principal is an expenditure in the governmental funds, and borrowing is an income item, but the repayment reduces long-term liabilities in the Statement of Net Position. Thus, the change in net position differs from the change in fund balances by the amount of debt repayments and debt issued.		
Repayment of debt principal		2,290,021
Net pension expense is reported in governmental funds as expenditures as they are paid; however, in the Statement of Activities, the net pension expense is reported according to estimates required by GASB 68:		
Pension expenses paid\$ 1,120,30Pension expenses per GASB 68(1,961,68		(841,374)
Some items reported in the Statement of Activites do not provide or require the use of current financial resources and, therefore, are not reported as revenues/expenditures in governmental funds. These activities include changes in deferrals related to pensions.		1,289,381
Governmental funds report bond proceeds and other debt as current financial resources. In contrast, the Statement of Activities treats such debt as a liability.		(2,432,424)
Amortization of original issue discount, gain on refunding, and deferred cost		(110,095)
Change in Net Position of Governmental Activities	\$	3,158,049

The accompanying notes are an integral part of this financial statement.

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

City of Natchez, Mississippi (the City) was incorporated January 28, 1846. The City operates under a Mayor-Aldermen form of government and provides the following services as authorized by its charter: public safety, highways and streets, sanitation, health and social services, culture-recreation, education, public improvements, planning and zoning, and general administrative services.

The accounting policies of the City conform to generally accepted accounting principles as applicable to governments.

The following is a summary of certain significant accounting policies:

A. Reporting Entity

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in generally accepted accounting principles (GAAP). The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of this ability to exercise oversight responsibility for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Component units are reported in the City's financial statements as follows:

• Blended Component Unit

<u>Natchez Water Works</u> The Natchez Water Works' Board of Commissioners is appointed by the City's Board of Aldermen. The rates for user charges and bond issuance authorizations are approved by the City, and the legal liability for the general obligation portion of the Natchez Water Works debt remains with the City. Complete financial statements may be obtained from Natchez Water Works.

• Discretely Presented Component Unit

<u>Judge George W. Armstrong Library (the Library Service</u>) The Library Service's Board of Directors is appointed by the City's Board of Aldermen. The City provides over 50% of the operating budget of the Library Service. Complete financial statements may be obtained from the Library Service.

• Related Organization

<u>The Natchez Housing Authority (the Authority</u>) The Authority is a related organization of the City. All five of its board members are appointed by the City. However, the City is not able to impose its will upon the Authority's Board, and there is no financial benefit burden relationship.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. Reporting Entity (continued)

• Other Reporting Entities

<u>Natchez Convention Promotion Commission (the Commission)</u> The Commission's Board of Directors is appointed by the City's Mayor and Board of Aldermen, and serves at their discretion. The City provides an annual appropriation and in-kind revenues to the Commission and also provides other services as specified in a management agreement. The independent audit of the Commission's financial statements as of September 30, 2020, was not complete as of the date the City's financial statements were available to be issued. As a result, the financial statements of the Commission are not included in the financial data of the City's aggregate discretely-presented component unit.

B. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund types (the total of all funds of a particular type). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the Government-Wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected on a full accrual, economic resource basis, which incorporates long-term assets and receivables, as well as long-term debt and obligations. The City generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The City may defer the use of restricted assets based on a review of the specific transaction. The Government-Wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.), which are otherwise being supported by general government revenues (property, sales, and use taxes; certain intergovernmental revenues; fines, permits, and charges; etc.). The Government-Wide Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function or a business-type activity. The City does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants. The governmental funds statements in the fund financial statements are presented on a current financial resource and modified accrual basis of accounting. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented, which briefly explains the adjustment necessary to reconcile funds based on financial statements with the governmental column of the government-wide presentation. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information. In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a selfbalancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changing therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the financial statements in this report into two broad fund categories and five generic fund types as follows:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-Wide and Fund Financial Statements (continued)

• Governmental Funds

<u>General Fund</u> – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Special Revenue Funds</u> – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

<u>Debt Service Funds</u> – Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service.

<u>Capital Projects Funds</u> – Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

• Proprietary Funds

Enterprise Funds - Natchez Water Works, a component unit of the City, accounts for the majority of operations of the Enterprise Fund. Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs and expenses of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges - or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The financial statements of the Enterprise Fund have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities. They apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict Governmental Accounting Standards Board (GASB) pronouncements, in which case, GASB prevails. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-Wide and Fund Financial Statements (continued)

The emphasis for the fund financial statements is on major funds within the governmental and propriety fund types. The general fund is always to be reported as a major fund. Other major funds are determined annually based on the following criteria:

Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and

Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

For the current year, the City reports the following major governmental funds:

General Fund – to account for resources traditionally associated with governments which are not required to be accounted for in another fund.

Pension Trust Fund – to account for resources held for payments to the Disability and Relief Municipal Retirement System Plan.

Casino Annual Lease Payment - to account for rents paid to the City and the subsequent use of those resources.

Debt Service Fund - to account for resources reserved for the repayment of City debt.

Transportation – Senior Citizens – to account for federal and state funds used to operate the City's public transportation system.

TIGER Fund – to account for funding and expenditures incurred for the rehabilitation and upgrade of five structurally deficient railroad truss bridges along the Natchez railway.

For the current year, the City reports the following major enterprise fund:

Natchez Water Works – to account for the provisions for water and sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and debt-related service, and billing and collections.

All nonmajor funds are reported in the aggregate on the fund financial statements.

The City's Fiduciary Fund activities are insignificant and are not reported in these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Fixed Assets and Long-Term Liabilities

Capital outlays are recorded as expenditures in the governmental fund financial statements and as assets in the government-wide financial statements to the extent the City's capitalization thresholds are met. Depreciation is recorded on general fixed assets on a government-wide basis. Capital outlays of the proprietary funds are recorded as capital assets and depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis. All fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated fixed assets are valued at their estimated fair market value on the date donated. The retroactive infrastructure capitalized amount was estimated using current replacement cost for a similar asset and deflating this cost through the use of price indices to the acquisition year. The City does not capitalize historical treasures or works of art. The City maintains many items and buildings of historical significance. The City does not require that the proceeds from the sale of historical treasures or works of art be used to acquire items for the collection.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenditures that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts, and any resulting gain or loss is included in the results of operations.

In the government-wide financial statements, debt principal payments of both governmental and business-type activities are reported as decreases in the balance of the liability on the Statement of Net Position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid. The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. All governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets.

Their reported fund balance (net of current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Noncurrent portions of long-term receivables due to governmental funds are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate, however, that they should not be considered "available spendable resources" since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net position.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Fixed Assets and Long-Term Liabilities (continued)

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. In accordance with GASB Statement 34, depreciation is calculated and allocated by function on the Government-Wide Statement of Net Position. Accumulated depreciation is reported on the Government-Wide Statement of Net Position and the Statement of Net Position for proprietary funds. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings	33 1/3-80 years
Machinery and equipment	5-10 years
Vehicles	5 years
Improvements	8 years
Water and sewer lines	40-80 years
Streets and other infrastructure	80 years

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available.

Taxpayer-assessed income, gross receipts, and sales tax are considered "measurable when in the hands of intermediary collecting governments and are recognized as revenue at that time." Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest revenue, charges for services, and federal programs on which the revenue is recognized when the expenditure has been incurred. Fines and permits are not susceptible to accrual because generally they are not recognized until received in cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except principal and interest on general long-term debt, which is recognized when due.

All proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

E. Budgets and Budgetary Accounting

In accordance with Mississippi State Law, the City budgets for the upcoming year on a modified cash basis, which includes liabilities that will be paid within 30 days of the fiscal year-end. The City follows these procedures in establishing the budgetary data reflected in the financial statements:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Budgets and Budgetary Accounting (continued)

- 1. Prior to September 1, the City Clerk submits to the Mayor and Board of Aldermen a proposed operating budget for the fiscal year commencing the following October 1.
- 2. Public hearings are conducted at City Hall to obtain taxpayer comments.
- 3. The budget, as submitted, is reviewed by the Mayor and Board of Aldermen, and necessary revisions are made to the budget. Then the budget is approved prior to September 15.
- 4. The budget is formally revised during July of each year or any time a deficit is indicated.
- 5. Budgetary comparisons are employed by management as a management control device during the year. The budget and actual comparisons are formally presented to the Mayor and Board of Aldermen throughout the year.
- 6. The budgets adopted are on a modified cash (non-GAAP) basis. Revenues are recognized when receipted (cash basis) from October 1 through September 30. Expenditures are recognized when legally budgeted and disbursed throughout the fiscal year or within 30 days thereafter. However, expenditures for uncompleted improvements in progress of construction may be charged to the budget at any time.
- 7. All budgetary appropriations lapse at the end of each fiscal year.

F. Encumbrance System

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders, and contracts.

G. Cash and Investments

The City deposits funds in financial institutions selected by the Board of Aldermen in accordance with state statutes. Furthermore, the City invests excess funds in various investment instruments that are allowed by statutes.

Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below.

- <u>Cash</u> All deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) must be collateralized in an amount equal to 105% of the uninsured amount.
- <u>Investments</u> The City is allowed, by statute, to invest excess funds in any bonds or other direct obligations
 of the United States of America or the State of Mississippi, or of any county or municipality of this state when
 such county or municipal bonds have been properly approved, or interest-bearing time certificates of deposit
 or interest-bearing accounts with any financial institution approved for the deposit of state funds.

Investments are stated at cost or amortized cost.

For the Statement of Cash Flows – Proprietary Funds, the City considers cash to be cash on hand and cash in demand deposit accounts, including restricted accounts, to be cash.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Advances to/from Other Funds

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" or "advances to/from other funds," representing current and long-term portions of the interfund loans, respectively.

All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

I. Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

J. Inventory

Inventories of the Enterprise Fund are valued at cost using the first-in/first-out (FIFO) method. The costs of inventory items are recorded as expenditures when consumed rather than when purchased.

K. Restricted Assets

Certain proceeds of the Enterprise Fund, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because their use is limited. Cash and investments are set aside to refund customer meter deposits only in the event the customer ceases to be a user of the water system. No interest is paid on these deposits.

L. Deferred Charge

In governmental fund types, bond issuance costs are recognized in the current period. Bond issuance costs for the government-wide statements and propriety fund types are deferred and amortized over the life of the bond issue.

M. Deferred Income

Deferred investment income is recorded and amortized over the life of the investment.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

N. Compensated Absences

Employees of the City accumulate annual and sick leave as designated in the personnel policies adopted by the City. The City is responsible for up to 30 days of accumulated annual leave for each employee. The City does not provide for the payment of accumulated sick leave. Vested or accumulated annual leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated annual leave that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group. No expenditure is reported for these amounts. Vested or accumulated annual leave of the Enterprise Fund is recorded as an expense and liability of those funds as the benefits accrue to employees. Unused personal leave in excess of 30 days and unused sick leave may be counted as creditable service for the purpose of the retirement system.

O. Fund Equity

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- <u>Invested in capital assets, net of related debt</u> Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- <u>Restricted net position</u> Consists of net assets with constraints placed on the use either by

 (a) external groups such as creditors, grantors, contributors, or laws or
 (b) laws through
 constitutional provisions or enabling legislation.
- 3. <u>Unrestricted net position</u> All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

• Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unassigned, with reserved further defined as nonspendable, restricted, assigned, and committed. Proprietary fund equity is classified the same as in the government-wide statements. The following are the classifications of reserves used by the City for governmental funds:

- 1. <u>Nonspendable</u> Fund balances not in a spendable form, such as prepaid items or inventory, or that cannot legally be spent or contractually required to remain intact.
- <u>Restricted</u> Amounts that are restricted by donors, creditors or other outside third parties, or by enabling legislation.
- 3. <u>Assigned</u> Amounts that are constrained by the nature of the City's intent for use but not restricted or committed in any formal manner.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Fund Equity (continued)

- Fund Statements (continued)
 - 4. <u>Committed</u> Amounts that can only be used for specific purposes pursuant to formal actions taken by the highest level of authority.
 - 5. <u>Unassigned</u> The residual fund balance.

P. Concentrations of Credit Risk

All accounts receivable of the City are deemed collectible. However, financial instruments which potentially subject the Enterprise Fund to concentrations of credit risk consist of billed accounts receivable and unbilled costs. Billed accounts receivable and unbilled amounts due on services result primarily from customer services provided for water sales, sewer charges, and garbage collection. Customer services are disconnected and their consumer deposit surrendered once two months of nonpayment occurs to limit the Enterprise Fund's credit risk to a minimal level. Historically, neither the City nor the Enterprise Fund has incurred any significant credit related losses.

Q. Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, interfund transfers have been eliminated to the extent possible.

NOTE 2 - CASH, OTHER DEPOSITS, AND INVESTMENTS

Cash and Other Deposits

Custodial Credit Risk. The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the FDIC.

The carrying amount of the City's deposits with financial institutions was \$8,815,619, and the bank balance was \$8,545,212.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

	<u>\$</u>	1,818,948		

On April 18, 2006, the City issued \$9,695,000 of Special Obligation Refunding Bonds with an average interest rate of 4.20% to advance refund \$7,440,000 of outstanding Special Obligation Bonds for the Convention Center. The net proceeds of \$9,537,093 (after payment of \$270,651 in underwriting fees, insurance, and other issuance costs) were used to purchase \$9,265,350 in U.S. Government Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the Convention Center bonds. As a result, the Special Obligation Bonds for the Convention Center are considered defeased and the liability for those bonds has been removed from the Government-Wide Statement of Net Position. A portion of those bonds totaling \$3,785,000 was not refunded.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 5 - LONG-TERM DEBT (continued)

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,826,442. That difference is being charged to operations through the year 2024. The City completed this refunding to reduce its total debt service payments for the years 2015 to 2014 by \$227,241 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$222,605.

On March 9, 2009, the City issued \$3,010,000 of General Obligation Bonds for a current refunding of existing bonds totaling \$2,870,000. There were \$140,000 in bond issue costs and discounts, reducing the amount available for refunding to an amount equal to the bonds to be defeased, resulting in no economic gain or loss on the refunding. The maturity dates remained the same, with final maturity in March 2017. The interest rates ranged from 2.00% to 3.375%.

On April 1, 2009, the City issued \$2,595,000 of Tax Increment Financing Limited Obligation Bonds due in annual installments of \$110,000 to \$265,000, payable June 1, 2010 through June 1, 2023; and interest of 7.000%, payable on June 1 and December 1 of each year beginning with June 1, 2009 and ending with June 1, 2023. The bonds are funded by ad valorem taxes collected annually on the incremental increase in the value of real and personal property and any increase in sales tax revenues located within the specified benefiting area. In accordance with a tax pledge agreement between the City and Adams County, Mississippi, the County has pledged its incremental increase in value of ad valorem tax collections on benefiting property, under the terms of the Regional Economic Development Agreement (REDA) adopted by the City and the County on October 5, 2006.

On October 28, 2014, the City issued \$400,000 of Tax Incremental Financing Limited Obligation Bonds due in annual installments of \$25,000 to \$40,000, payable September 1, 2015 through September 1, 2026; and interest of 3.950%, payable annually on September 1 beginning with September 1, 2015 and ending with September 1, 2026. The bonds are funded by ad valorem taxes collected annually on the incremental increase in the value of real and personal property. In accordance with a tax pledge agreement between the City and Adams County, Mississippi, the County has pledged 50% of its incremental increase in value of ad valorem tax collections on benefiting property, under the terms of REDA.

Revenue Bonds. The City has issued bonds where the City pledges income derived from Natchez Water Works' operations to pay debt service. During 2005, Natchez Water Works issued the combined Water and Sewer Revenue Refunding Bonds, Series 2005. The intent of these bonds was to refund and refinance the Water and Sewer System revenue bonds, Series 1994, at their first call date. Natchez Water Works did call all 1994 revenue bonds on August 1, 2006.

On September 22, 2009, Natchez Water Works entered into an agreement with the Mississippi Water Pollution Control Revolving Fund to receive \$5,080,000 in both American Recovery & Reinvestment Act (ARRA) funds (\$4,318,000) and loan monies (\$762,000). The agreement was for the installation of a fine screen, replacement of return-activated sludge pumps, removal and land application of biosolids, construction of a sludge dewatering facility, and construction of solar drying chambers and related appurtenances. The project was completed during the fiscal year ended September 30, 2011, and only \$527,537 in loan monies was borrowed. The loan is currently in repayment and has an interest rate of 1.75%.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 5 - LONG-TERM DEBT (continued)

On April 26, 2011, Natchez Water Works entered into an agreement with the Mississippi Water Pollution Control Revolving Fund to receive \$1,364,140 in both grant funds (\$272,828) and loan proceeds (\$1,091,312). The agreement was for the installation of a diffuser system and four 50-horsepower blowers along with a new control system in the aeration basin, the installation of a diffuser system and refurbishing the three existing blowers in the digesters, a new lighting system in the basements at the clarifiers and digesters, and a new 1,800-square-foot storage building and related appurtenances. The project was completed during the fiscal year ended September 30, 2013, and \$14,663 in interest expense was added to the loan balance, totaling \$1,115,122. The loan is currently in repayment and has an interest rate of 1.75%.

On August 30, 2019, Natchez Water Works entered into an agreement with the Mississippi Drinking Water Systems Improvements Revolving Loan Fund to receive \$1,919,980 in Ioan proceeds. The agreement was for improvements at two pumping plants and wells and the installation of new water mains. The project was completed during the fiscal year ended September 30, 2021, for \$1,405,409 in both principal forgiveness (\$500,000) and Ioan proceeds (\$905,409). As of September 30, 2020, the Ioan proceeds that were recorded totaled \$748,378 and the project was not yet finished.

Annual debt service requirements to maturity for the following debt reported as governmental activities are as follows:

Year Ending		Special Obligation

NOTE 5 - LONG-TERM DEBT (continued)

Limitations and Restrictions

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

The following is a schedule of limitation of the bonded indebtedness of the City at September 30, 2020:

Assessed valuation for fiscal year ended September 30, 2020	\$	126,530,000
Percent limitation		15%
Authorized debt limit	\$	18,979,500
Present debt service subject to 15% limitation		
Margin for further indebtedness under 15% limitation	<u>\$</u>	18,979,500

NOTE 6 - OBLIGATIONS UNDER CAPITAL LEASES

The City has adopted the policy of acquiring certain fixed assets through the use of lease-purchase agreements. For the lease-purchases backed by full faith and credit of the City, debt service is accounted for as a governmental activity.

The following is an analysis of property leased by the City under capital leases by major classes:

<u>Class of Property</u>	Balance 9/30/2020				
Furniture and equipment	\$	<u>122,874</u>			

The following is a schedule by years of future minimum lease payments under capital leases together with the present value of the minimum lease payments as of September 30, 2020:

Year Ending September 30		General
2021	\$	70,326
2022		57,268
Total	\$	127,594
Less amounts representing interest	·····	(4,719)
Total at present value	<u>\$</u>	122,875

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 7 - PROPERTY TAX

Property taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied in September and payable on or before February 1. All property taxes are collected and remitted to the City by the county tax collector. The millage rate for the City for the period beginning October 1, 2019 and ending September 30, 2020, was 46.732 mills, broken down as follows:

General Fund	33.560
Bond and Interest Retirement Fund	0.900
Parks and Recreation Fund	2.000
Pension Fund	3.900
Judge George W. Armstrong Library Fund	2.575
Natchez Economic Development Authority Fund	0.813
Capital Improvement	1.250
Public Properties	1.734
	46.732

Restrictions associated with property tax levies are established by state law which provides that the tax levy for general purposes shall produce no more than 110% of the amount which resulted from those levies' assessments of the previous year.

NOTE 8 - LEASE COMMITMENT

Operating lease and rental expenditures for the year ended September 30, 2020, amounted to \$48,329.

NOTE 9 - RETIREMENT PLANS

The City participates in two retirement systems administered by the Public Employees Retirement System of Mississippi (PERS). Both systems are defined benefit plans and include a multi-employer, cost-sharing plan and an agent-multiple pension plan as described below. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employee Retirement System, PERS Building, 429 Mississippi Street, Jackson, Mississippi 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

A. Disability and Relief Municipal Retirement Systems Plan

Plan Description – The Disability and Relief Fund for Firemen and Policemen was established in the manner provided by the act of the Legislature of the State of Mississippi. Beginning July 1, 1987, administration of the above system was transferred to PERS. Only Natchez policemen and firemen whose employment commenced prior to July 1, 1976, are eligible for coverage under this plan. Participation of those eligible is voluntary, and participants may withdraw upon request.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 - RETIREMENT PLANS (continued)

A. Disability and Relief Municipal Retirement Systems Plan (continued)

Benefits Provided – Service Retirement. A retirement allowance is payable to any member who retires and has completed at least 20 years of creditable service, regardless of age. Any general employee member who has attained age 70 and any fireman or policeman who has attained age 65 shall be retired forthwith. The annual retirement allowance payable to a retired member is equal to:

- 1. 50% of average compensation, plus
- 2. 1.7% of average compensation for each year of credited service over 20.

The aggregate amount of (1) and (2) above shall not exceed 66 2/3% of average compensation regardless of service.

Benefits Provided – Disability Retirement. A retirement allowance is payable to any member who is not eligible for a service retirement benefit but who becomes totally and permanently disabled, either physically or mentally, regardless of creditable service, if the disability is due to causes in the performance of duty. If the disability is not in the performance of duty, the member must have completed at least five years of creditable service to be eligible for retirement. The annual disability retirement allowance payable is equal to 50% of his salary at the time of retirement if the disability is due to causes in the performance of duty. If the disability is not in the performance of duty, the allowance is equal to 2.5% times credited service, not to exceed 20 times his salary at the time of retirement for firemen and policemen, and average compensation for general employees.

Death Benefits. A benefit is payable upon the death of a member under the following conditions.

- a. The member has retired,
- b. The member is eligible to retire,
- c. The death is in the line of duty, or
- d. The death is not in the line of duty but occurs after the member has 5 years of credited service.

The benefit is payable to the surviving spouse and to children under age 18, to dependent children through age 23 when full-time students, and to dependent children of any age if handicapped. The annual benefit payable under all conditions in the case of firemen and policemen and under other than condition (c) above in the case of general employees is equal to 2.5% of average compensation for each year of credited service up to 20 and 1.7% of average compensation for each year over 20, with a maximum benefit of 66 2/3% of average compensation. For general employee members under condition (c) above, the annual benefit payable is equal to 50% of salary at the time of death.

Refund of Contributions. Upon a member's termination of employment for any reason before retirement, his accumulated contributions are refunded. Upon the death of a member who is not eligible for any other death benefit, his or her accumulated contributions, together with regular interest thereon, are paid to his or her beneficiary.

Post Retirement Adjustments in Allowances. The allowance of service retirees only is adjusted annually by a cost-ofliving adjustment (COLA) on the basis of the annual percentage change in each fiscal year of the Consumer Price Index to a maximum of 2.5% per year (not to exceed 10%). This adjustment has been included in System liabilities.

At June 30, 2020 (measurement date), the following City employees were covered by the plan:

Active	-
Retired participants and beneficiaries currently receiving benefits	43
Inactive participants	
Total	43

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 - RETIREMENT PLANS (continued)

A. Disability and Relief Municipal Retirement Systems Plan (continued)

Actuarial Assumptions:

Valuation date	June 30, 2020
Actuarial cost method	Ultimate asset reserve
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	Market value of assets
Investment rate of return	6.50%, net of pension plan investment expense, including inflation
Salary increases	3.25-4.75%, including inflation
Inflation	3.00%

Interest Rate: 7.75% per annum, compounded annually (net after investment expenses) for prior funding policy rate determination and GASB disclosure. 6.50% per annum, compounded annually (net after investment expenses) for current funding policy rate determination.

Death After Retirement: The mortality table, for post-retirement mortality, used in evaluating allowances to be paid is the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with males rates set forward one year. The RP-2014 Disabled Retiree Table set forward five years for males and four years for females was used for the period after disability retirement. This assumption is used to measure the probabilities of each benefit payment being made after retirement. Mortality improvement is anticipated under this assumption.

Marriage Assumption: 85% married with the husband three years older than his wife.

Valuation Method: Unfunded employer liabilities are amortized over a closed 30-year period from September 30, 1990, as a level percent of the municipality's assessed property valuation.

Assessed Property Value Rate of Increase: 2.0% per annum, compounded annually used in determining the millage rate under the prior funding policy.

Expense Load: 2.0% of employer contributions.

Asset Valuation Method: The actuarial value of assets recognizes a portion of the difference between the market value of assets and the expected actuarial value of assets, based on the assumed valuation rate of return. The amount recognized each year is 20% of the difference between market value and expected actuarial value. Actuarial value of assets was set equal to the market value on September 30, 2006, and smoothing commenced in 2007. Actuarial assets were allocated to individual cities in the same proportion that their market value of assets was to the total market value of assets for all cities.

Basis of Accounting

MMRS uses the accrual basis of accounting and the economics resources measurement focus. Employee and employer contributions are recognized as revenue in the period in which employees' services are performed. Investment income is recognized when earned.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 – RETIREMENT PLANS (continued)

Expenses, including benefits and refunds paid, are recognized when incurred. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Corporate bonds are valued based on yields currently available on comparable securities from issuers of similar credit ratings.

Mortgage securities are valued on the basis of future principal and interest payments and discounted at prevailing interest rates for similar instruments. Short-term investments are reported at market value when published prices are available, or at cost plus accrued interest, which approximates fair value. For individual investments where no readily ascertainable market value exists, PERS, in consultation with its investment advisors and custodial bank, has determined the fair values.

Funding Policy – This plan is funded through participant contributions equal to 10% of gross wages and ad valorem taxes. In order to meet current benefit payments and payments upon participants' withdrawal, if necessary, the General Fund contributes an additional amount.

Changes in Net Pension Liability

Changes in the City's net pension liability for the MMRS Plan for the year ended September 30, 2020, were as follows:

		tal Pension Liability (a)		n Fiduciary et Position (b)		Net Pension ability(Asset) (a)-(b)
Balance at June 30, 2019	\$	5,997,916	<u>\$</u>	<u>1,841,771</u>	<u>\$</u>	4,156,145
Charges for the year:

A. Disability and Relief Municipal Retirement Systems Plan (continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the MMRS Plan's (the Plan) net position liability calculated using the discount rate of 7.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current rate:

	19	1% Decrease Current Discount		19	% Increase	
		6.75%	Rate 7.75%			8.75%
Plan's Net Pension Liability (Asset)	\$	4,597,375	\$	4,143,434	\$	3,749,067

In the year ended September 30, 2020, the City's tax levy to fund the Plan was 3.9 mills. The City paid \$468,000 to the Plan during the year ended September 30, 2020. As of September 30, 2020, the City has insufficient funds in a special revenue fund from the avails of special tax levies that were set aside for future contributions to the Plan.

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued MMRS of Mississippi's financial report.

B. Public Employees Retirement System

Plan Description – The City contributes to the Public Employees Retirement System of Mississippi (PERS), a cost-sharing, multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 - RETIREMENT PLANS (continued)

B. Public Employees Retirement System (continued)

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi (the State), state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the PERS's Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a full refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0% compounded for each fiscal year thereafter.

Funding Policy – PERS members are required to contribute 9.00% of their annual covered salary, beginning in July 2010, and the City is required to contribute at an actuarially determined rate. The rate in effect for this fiscal year was 17.4%. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The City's contributions to PERS for the year ended September 30, 2020, were \$1,120,307, equal to the required contributions for the year. The contributions for the year September 30, 2020, was \$320,862, equal to the required contributions for the year. The contributions for Judge George W. Armstrong Library for the year ended September 30, 2020, was \$29,894, equal to the required contributions for each year. The employees of Natchez Convention Promotion Commission are City employees, and their required contribution is included in the above numbers.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to PERS

At September 30, 2020, the City reported a liability of \$19,107,173 for its proportionate share of the PERS net pension liability. The PERS net pension liability was measured as of June 30, 2020, and the total PERS pension liability used to calculate the PERS net pension liability was determined by an actuarial valuation as of that date

The City's proportion of the PERS net pension liability was based on a projection of the City's long-term share of contributions to the PERS pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2020, the City's proportion was 0.0985652%, which was a negligible decrease from its proportion measured as of June 30, 2020.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 – RETIREMENT PLANS (continued)

B. Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to PERS (continued)

For the year ended September 30, 2020, the City recognized pension expense related to PERS of \$2,128,553. At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		red Outflows Resources	Deferred Inflows of Resources		
Difference between expected and actual results	\$	116,638	\$	-	
Changes in assumptions		75,169		-	
Net difference between projected and actual earnings on Plan		551,957		-	
Changes in proportion and differences between City					
contributions and proportionate share of contributions		· –		-	
City contributions subsequent to the measurement date		276,090		-	
Total	\$	1,019,854	<u>\$</u>		

The \$276,090 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Deferred Outflows (Deferred Inflows) Aging:

Year ended September 30		
2021	\$ 313	3,824
2022	313	3,824
2023	116	5,11 <u>5</u>
	<u>\$ 743</u>	3,763

Actuarial Assumptions. The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.:

Inflation	2.75%
Salary increases	3.00–18.25%, including inflation
Investment rate of return	7.75%, net of Plan investment expense, including
	inflation

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the four-year period ending June 30, 2018.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 - RETIREMENT PLANS (continued)

B. Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to PERS (continued)

In 2015 and later, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2022 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Withdrawal rates, pre-retirement mortality rates, disability rates, and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally, the price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected
Asset Class	<u>Target Allocation</u>	Real Rate of Return
U.S. Broad	27.00%	4.90%
International Equity	22.00%	4.75%
Global Equity	12.00%	5.00%
Debt Securities	20.00%	0.50%
Real Estate	10.00%	4.00%
Private Equity	8.00%	6.25%
Cash	1.00%	-
Total	100.00%	

Discount Rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following table presents the City's proportionate share of the net pension liability of PERS based on the June 30, 2016 actuarial valuations, calculated using the discount rate of 7.75%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current rate:

	1	% Decrease	Cu	irrent Discount	1	% Increase
	<u> </u>	6.75%		Rate 7.75%		8.75%
City's Proportionate Share of the Net Pension Liability (Asset)	\$	24,731,888	\$	19,107,173	\$	14,464,523

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 9 - RETIREMENT PLANS (continued)

B. Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to PERS (continued)

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued Public Employees' Retirement System of Mississippi's financial report.

NOTE 10 - OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Generally accepted accounting principles require disclosure of certain information concerning individual funds including:

Deficit fund balance of individual funds

<u>Special Revenue Funds</u> : Parks and Recreation Visitor Center Operations Natchez-Adams EDA Public Properties Downtown Christmas Tree Food and Lodging	\$ (404,644) (140,568) (3,522) (48,698) (1,897) (119,952)
<u>Capital Improvement Funds</u> : Yazoo & MS Valley Railroad Depot Colonnades and Visitor Welcome Center Regional Transit Construction MDOT - Natchez Trails Schneider Electric ERBR	\$ (108,462) (19,672) (56,770) (1,158) (5) (6)

NOTE 11 - SEGMENT INFORMATION FOR NATCHEZ WATER WORKS

Natchez Water Works, a component unit of the City, provides water and sewer utility services. The following is a summary of disclosures required by GASB Statements 34 and 37:

	V	Vater Utility		Sewer Utility	A	dministration_		Total
Operating revenues	\$	2,721,936	\$	2,659,268	\$	-	\$	5,381,204

Grant revenue								736,559
Interest expense								(18,224)
Net income							<u>\$</u>	(50,934)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 12 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 13 - TRANSFER OF CAPITAL ASSETS

On July 23, 2020, the City transferred assets totaling \$3,450,000 to the National Park Service. These assets included the Visitor Center building and land on Canal Street. The City had recognized accumulated depreciation of \$941,875 on these assets prior to the transfer.

NOTE 14 - PRIOR PERIOD ADJUSTMENT

The following describes prior period adjustments made as of September 30, 2020, to both Government-Wide and Governmental Fund financial statements.

	As I	Previously			Effect of
<u>Balance Sheet at September 30, 2019</u>		Stated	As	Restated	 Correction
Due from state sources	\$	384,507	\$	431,696	\$ 47,189
Fund balance – ending	\$	89,874	\$	137,063	\$ 47,189

NOTE 15 - SUBSEQUENT EVENTS

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes.

Management of the City evaluated the activity of the City through September 28, 2021, the date the financial statements were available to be issued, and determined that the following subsequent event has occurred requiring disclosure in the notes to the financial statements:

During March 2020, a global pandemic was declared by the World Health Organization related to the rapidly growing outbreak of a novel strain of the coronavirus (COVID-19). The pandemic is ongoing as of September 28, 2021, and has significantly affected economic conditions in the United States of America. However, the impact of this event on the City's activities and financial position cannot be reasonably estimated at this time.

*Payroll-related information not provided because plan is closed to new entrants, there are very few remaining active members, and many municipalities have no remaining active members.

Notes to Schedule

Actuarially determined contribution rates are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are reported. Contributions for the fiscal year ending September 30, 2020, were based on the June 30, 2018 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Ultimate Asset Reserve
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	Market value of assets
Inflation	3.00%
Salary increases	3.25-4.75%, including inflation
Investment rate of return	6.50%, net of pension plan investment expense, including inflation

• Information is unavailable for years prior to the City's implementation of GASB 68 in fiscal year 2015. The amounts presented were determined as of the measurement date of June 30 of the fiscal year presented.

See Independent Auditor's Report.

OTHER SUPPLEMENTARY INFORMATION

. . .

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

YEAR ENDED SEPTEMBER 30, 2020

Budgetary Comparison Schedule

1. Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the cash basis, and variances between the final budget and the actual data.

2. Budget Adoption and Amendments

Preliminary budgets for the ensuing year are prepared by the City Clerk prior to September 30 of each fiscal year. The availability of the proposed budgets for public inspection and the date of the public hearing on the proposed budgets are advertised in public notices. During its September meeting, the Board of Aldermen holds a public hearing on the proposed budgets in order to receive comments from residents of the City. Changes are made to the proposed budgets based on the public hearing and the desires of the Board of Aldermen. The budgets are then adopted during the Board of Aldermen's regular September meeting.

During regular meetings, the Board of Aldermen reviews any proposed amendments, makes changes as it deems necessary, and formally adopts the amendments. The adoption of the amendments is included in the Board of Aldermen meeting minutes and published in public notices.

Appropriations lapse at year-end and must be appropriated for the following year to be expended. All changes in the budgets must be approved by the Board and the grantor agencies.

3. Budget/GAAP Reconciliation

The major differences between the budgetary basis and the GAAP basis are:

- a. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
- b. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

YEAR ENDED SEPTEMBER 30, 2020

Budgetary Comparison Schedule (continued)

The following schedule reconciles net change in fund balances on the budgetary basis financial statements for the General Fund and each major special revenue fund, in which there were no changes:

	General Fund	Transportation Fund	Casino Fund	Pension Fund	TIGER Fund	
Net change budget basis	\$ 102,753	\$ 251,077	\$ 193,454	\$ 19,550	\$ 3,063	
Increase (decrease): Net adjustments for revenue accruals	115,626	(85,836)	-	-	-	
Net adjustments for expenditure accruals	420,198	100,645			<u> </u>	
Net change GAAP basis	<u>\$ 638,577</u>	<u>\$ 265,886</u>	<u>\$ 193,453</u>	<u>\$ 19,550</u>	<u>\$ </u>

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

SPECIAL REVENUE FUNDS

Soil Conservation Service Special - to account for improvements to areas that have suffered soil erosion.

Public Properties – to account for maintenance and improvements to public properties owned by the City. Financing is provided by insurance proceeds from the loss of a City-owned building.

Auburn Maintenance Fund – to segregate funds collected from antebellum home Auburn used specifically for maintenance.

Food and Lodging Tax II - to account for the tax assessed in addition to the general sales tax for food and lodging.

Special Fire Fund - to account for money received from the State's "Municipal Fire Protection Fund."

Senior Citizens Fund – to account for expenditures for a recreational program for senior citizens. Financing is provided by federal grants and local resources.

Police Grant Fund – to account for expenditures incurred in providing two additional police officers. Financing is provided by federal grants and local matching of funds.

Senior Citizens Swim Fund - to account for fees received for participation in the enjoyment of the facilities. Financing is self-supported.

Retired and Seniors Volunteers Fund – to account for expenditures to provide a variety of opportunities for retired persons to serve their community through volunteer service. Financing is provided by federal grants and local resources.

Transportation – Senior Citizens – to account for expenditures incurred in connection with a transportation system. Financing is provided by federal grants, user fees, and local resources.

Parks and Recreation – to account for the operation and maintenance of all City-owned parks and recreational facilities. Financing is provided by a specific annual property tax levy to the extent charges for use of the facilities are not sufficient to provide such financing.

Recreation Department - Donations - to account for private donations for recreational uses.

Visitors Center Operations – to account for revenues and expenditures associated with operating the Visitor's Reception and Intermodal Transportation Center.

City Auditorium Maintenance - to account for funds related to the maintenance of the City Auditorium.

Downtown Christmas Tree – to account for donations and related expenditures for the Christmas tree centered downtown.

Special Fire Fund #2 – second fund established to track monies related to the fire department but not available for general purposes.

Regional Transit Operations – to account for monies received to reimburse the City for personnel costs for a coordinator of the new Regional Transit Facility.

Tricentennial Donations – to account for donated funds received in support of activities throughout 2016 in celebration of Natchez's tricentennial.

SPECIAL REVENUE FUNDS (continued)

Fire Department FEMA Grant - used to purchase fire equipment.

Forks of the Road - to collect and accumulate private donations for the Forks of the Road project.

Housing Revolving Loan Program – loan program for first-time homebuyers.

HOME Down Payment Assistance - program to assist eligible participants in receiving funds to purchase a home.

Department of Tourism Management - to further segregate Visitor Center revenue sources and expenditures.

Recycling Fund – to account for funds used to establish a recycling program in the City, including the cost of purchasing appropriate receptacles for collection.

Pension Trust Fund - to account for tax monies and employee contributions and payments to PERS.

Judge George W. Armstrong Library Fund – to account for tax monies allocated for the maintenance and support of Judge George W. Armstrong Library, Natchez branch.

Natchez Economic Development Authority – to account for tax monies levied in direct support of the Natchez EDA.

Casino Annual Lease Payment – established solely to segregate rental receipts from the Magnolia Bluffs Casino.

Road and Bridge Tax - to further segregate tax receipts specifically identified by Adams County as road and bridge collections.

SNAP 2014 - to account for the funding received under this program.

Humana Foundation Grant – to account for funds received from a grant encouraging healthy lifestyles through nutrition and exercise.

Traffic Fund/MDOT Intersections – to account for funds related to a specific maintenance project in conjunction with MDOT.

DEBT SERVICE FUNDS

Bond and Interest Fund – to accumulate monies for payment of general long-term debt. Financing is to be provided by a specific annual property tax levy. Property taxes levied in excess of actual requirements are legally restricted to servicing this debt.

Bond and Interest Escrow Fund – to accumulate monies for payment of the Convention Center Bonds. Financing is to be provided by transfers of gaming and restaurant tax revenues.

TIF Bond Series 2008 – to accumulate monies for payment of limited obligation tax increment financing bond for improvements around the Convention Center Hotel.

TIF Bond Series 2014 – to accumulate monies for payment of limited obligation tax increment financing bond for improvements around the Holiday Inn Express.

Capital Improvements Fund – to account for the expenditures incurred for capital improvements in the City. Financing is provided by a specific annual tax levy.

Regional Transit Construction – to account for funding and expenditures related to the construction of the Regional Transit Facility.

Yazoo and MS Valley Railroad Depot - to account for grants received and expended to renovate and restore the Yazoo and MS Valley Railroad Depot.

Colonnades and Visitor Welcome Center – to account for funding and expenditures related to the restoration of the Colonnades at the Visitor Welcome Center and other maintenance projects there.

Community Development – to account for receipts received related to future development of recreation facilities and other community projects.

Highland Boulevard/Highway 61 Lift Station – to account for funding and expenditures related to the repairs of the lift station at this location.

TIGER Fund – to account for funding and expenditures incurred for the rehabilitation and upgrade of five structurally deficient railroad truss bridges along the Natchez railway.

North Natchez Drainage – to account for expenditures incurred for the repair and reconstruction of the drainage system in the northern section of the City.

Senior Center Renovation – to account for funds received under CDBG grants for the renovation of the Senior Center.

Casino Park Pool Renovation - to account for monies to be used in the future renovation of the Duncan Park swimming pool.

Natchez Trails Project - to account for funding received from various sources in conjunction with the development of a downtown walking trail.

Schneider Electric Fund – to account for funding and expenditures incurred for energy efficient improvements at City-owned buildings and street lights in an effort to reduce utility costs.

ERBR Fund - to account for funding and expenditures incurred for emergency road and bridge repair.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Mayor and Board of Aldermen City of Natchez, Mississippi Natchez, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Natchez, Mississippi (the City) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated September 28, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as Items 2020-1, 2020-2, 2020-3, 2020-4, 2020-5, 2020-6, and 2020-7, that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as Items 2020-5 and 2020-7.

City of Natchez, Mississippi's Response to Findings

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Mayor and Board of Aldermen City of Natchez, Mississippi Natchez, Mississippi

Report on Compliance with Requirements for Each Major Federal Program

We have audited City of Natchez, Mississippi's (the City) compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Silas Simmons, LP

Natchez, Mississippi September 28, 2021

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED SEPTEMBER 30, 2020

SECTION 1: SUMMARY OF AUDITOR'S RESULTS

Section I – Internal Control and Compliance Material to the Financial Statements:				
2019-1	<u>Financial Statement Submission to State Auditor</u> The City's audited financials were not submitted to the Mississippi State Auditor's office by the statutory date of September 30, 2020.	Resolved		
2019-2	<u>Bank Reconciliations</u> Bank reconciliations are not being properly reconciled to the general ledger or in a timely manner.	Not Resolved		
2019-3	<u>Accounting Records and Financial Statement Preparation</u> Transactions are not being recorded to the City's general ledger in a timely manner.	Not Resolved		
2019-4	Interfund Transfers, Due To/From, and Advances Interfund transactions are not being recorded timely or accurately.	Not Resolved		
2019-5	<u>Segregation of Duties</u> During the process of obtaining an understanding of internal control in planning the audit, assessing control risk, and assessing fraud risk, a lack of segregation of duties was noted.	Not Resolved		
2019-7	<u>General Fund Expenditures Over Budget</u> The City's General Fund expenditures exceeded its budgeted amount by \$1,015,773.	Not Resolved		
2019-8	<u>Casino Annual Lease Fund Expenditures Over Budget</u> The City's Casino Annual Lease Fund expenditures exceeded its budgeted amount by \$350,490.	Resolved		
Section II – Internal Control and Compliance Material to Federal Awards:				
2019-6	<u>Compliance with Reporting Requirements of OMB - Single Audit</u> The City's Single Audit was not filed with the Federal Audit Clearinghouse by June 30, 2020.	Resolved		

Section III - Management Letter:

No management letter issued.

CURRENT YEAR FINDINGS, RECOMMENDATIONS, AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

Section I – Internal Control and Compliance Material to the Financial Statements:

2020-1 Bank Reconciliations (Internal Control Deficiency)

Condition

Bank accounts are not being properly reconciled to the general ledger accurately or in a timely manner. This internal control deficiency is causing the City's general ledger balances to be incorrect throughout the year. When accounts are not reconciled, it increases the likelihood that a misstatement will occur and not be prevented, or detected and corrected, on a timely basis.

<u>Criteria</u>

Timely reconciliation of bank accounts to the general ledger is a key component of any adequate system of internal control. Reconciliations should be prepared to ensure that (1) all cash receipts, disbursements, and transfers are recorded; (2) checks are clearing the bank in a reasonable time; (3) reconciling items are appropriate and are being recorded; and (4) the reconciled cash balance agrees to the general ledger cash balance.

Cause of Condition

Turnover in the City Clerk position, turnover in accounting staff, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls; financial statements and financial data relied upon by the Board of Aldermen and City management for decision making is not accurate or current.

Recommendation

We recommend that all bank accounts, including payroll clearing accounts, be reconciled to the general ledger on a monthly basis. The City Clerk should receive monthly bank statements unopened from the bank and review them for unusual deposits or disbursement activity. Within 15 days of the date of the statement, a reconciliation of each account should be performed by an adequately trained staff member that has no authorization to sign checks, receive or deposit cash, or authorize disbursements. The reconciliation should be initialed and dated by the responsible staff member. The City Clerk should review, initial, and date each reconciliation promptly after completion. Furthermore, we recommend that copies of the completed and reviewed reconciliations be included in the board packet for the first Board of Aldermen meeting subsequent to completion of the bank reconciliations. The Board of Aldermen should carefully review the reconciliations included in the board packet to ensure that this internal control procedure is being performed accurately and timely.

2020-2 Accounting Records and Financial Statement Preparation (Internal Control Deficiency)

Condition

Transactions are not being recorded to the City's general ledger in a timely manner. Our audit field work commenced in July of 2021. At that time, transactions relating to fiscal year-end September 30, 2020, were in the process of being recorded to the general ledger.

<u>Criteria</u>

Transactions should be recorded to the City's general ledger at the time of initiation.

CURRENT YEAR FINDINGS, RECOMMENDATIONS, AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-2 Accounting Records and Financial Statement Preparation (Internal Control Deficiency) (continued)

Cause of Condition

Turnover in the City Clerk position, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls; financial data that is derived from the City's general ledger and relied upon by the Board of Aldermen and City management for decision making is not accurate or current.

2020-3 Interfund Transfers, Due To/Due From, and Advances (Internal Control Deficiency)

Condition

Interfund transfers, interfund loans, and interfund advances are not being recorded timely or accurately. More specifically, amounts were noted as being moved between funds without consideration of the intent and final accounting treatment of the transactions.

<u>Criteria</u>

The intent of any interfund activity determines the proper accounting treatment.

- (1) Interfund transfers are flows of resources between funds with no corresponding requirement for repayment.
- (2) Interfund loans and advances are amounts provided with a requirement for repayment.

Timely and accurate recording of interfund activity is necessary for City management and the Board of Aldermen to know the financial resources available for each fund.

Cause of Condition

The City regularly has cash deficits in certain funds. To ensure that these funds have the necessary cash to cover immediate expenditures, interfund activity in the form of cash transfers, cash advances, or interfund loans are necessary. Correctly and timely recording these interfund transactions has consistently been difficult for the City due to turnover in the City Clerk position, turnover in accounting staff, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls; financial data that is derived from the City's general ledger and relied upon by the Board of Aldermen and City management for decision making is not accurate or current.

Recommendation

In regard to all interfund activity, we recommend the following:

- (1) All interfund transactions should be authorized by the Board of Aldermen or the appropriate member of City management before the transaction is initiated with the bank.
- (2) All interfund transactions should be recorded to the appropriate general ledger accounts (transfer, due to/due from, or advance) upon initiation, based on the intent of the Board of Aldermen or City management. In addition, all interfund balances and transactions should be recorded on a subsidiary schedule or ledger.

CURRENT YEAR FINDINGS, RECOMMENDATIONS, AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-3 Interfund Transfers, Due To/Due From, and Advances (Internal Control Deficiency) (continued)

- (3) On a monthly basis, the subsidiary schedule of transfers, due to/due from balances, and advance balances should be reconciled to the general ledger by a designated member of the accounting staff.
- (4) The City Clerk should review, initial, and date the reconciled schedule promptly after completion.
- (5) Furthermore, we recommend that the reconciled and reviewed subsidiary schedule be included in the board packet for the first Board of Aldermen meeting subsequent to completion.

2020-4 Segregation of Duties (Internal Control Deficiency)

Condition

During the process of obtaining an understanding of internal control in planning the audit, assessing control risk, and assessing fraud risk, a lack of segregation of duties was noted. Specifically, it was noted that the City Clerk was responsible for initiating, recording, authorizing, and reconciling cash transactions pertaining to the fiscal year.

<u>Criteria</u>

Segregation of duties is a key component of any internal control environment, with the primary objective being the prevention of fraud and errors. The objective is achieved through the separation of the functional responsibilities of a financial transaction among different individuals. Ideally, no single individual should be able to initiate, record, authorize, and reconcile any one transaction.

Cause of Condition

Turnover in accounting staff, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls.

Recommendation

We recommend that the City hire additional accounting staff or train existing staff to allow the functional responsibilities of recording and processing transactions to be adequately segregated.

2020-5 General Fund Expenditures Over Budget (Compliance Finding)

Condition

The City's General Fund expenditures exceeded its budgeted amount by \$414,851.

<u>Criteria</u>

Mississippi statute [Section 21-35-15, Miss. Code Ann. (1972)] says that governments' expenditures shall not exceed budget estimates, measured at the lowest level adopted in the budget, except for capital outlay, election expenses, and payment of emergency warrants.

Cause of Condition

The City did not adjust its budgeted amount for General Fund expenditures during the year in an amount that would have prevented noncompliance.

CURRENT YEAR FINDINGS, RECOMMENDATIONS, AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-5 General Fund Expenditures Over Budget (Compliance Finding) (continued)

Effect of Condition

Material weakness in internal controls.

Recommendation

We recommend that City management review the budget to actual regularly during the year and ensure that the budget is amended as necessary.

2020-6 Documentation of Adjusting Journal Entries (Internal Control Deficiency)

Condition

We noted that numerous adjusting journal entries recorded in the City's accounting records lacked an adequate description and proper documentation. Further, the City does not have a formal set of policies and procedures in place to track and account for adjusting journal entries.

<u>Criteria</u>

Adjusting journal entries are prepared for transactions that have not been recorded in the accounting records through another process or to correctly restate an account balance or previously recorded transaction. Policies and procedures specific to adjusting journal entries are necessary to ensure that any journal entries posted to the City's general ledger are properly prepared, documented, reviewed, approved, and recorded.

Cause of Condition

Lack of formal accounting policies and procedures, turnover in accounting staff, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls.

Recommendation

In regard to adjusting journal entries, we recommend the City take the following steps:

- (1) Develop and implement a set of policies and procedures that are specific to the accounting for adjusting journal entries. At a minimum, the policy should require the following:
 - a. Review and approval of any adjusting journal entry by an individual not responsible for its preparation and posting.
 - b. All journal entries should have supporting documentation as well as a brief description and reference number included in the journal entry's line item on the City's detailed general ledger report.
 - c. The supporting documentation should be maintained in an accessible file for review by management or external auditors, whenever necessary.

CURRENT YEAR FINDINGS, RECOMMENDATIONS, AND CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

2020-6 Documentation of Adjusting Journal Entries (Internal Control Deficiency) (continued)

- (2) Implement a formal documentation system, such as use of a Journal Entry Form, to be maintained separately and apart from the City's Springbrook accounting platform and general ledger report. The documentation form should be completed for each journal entry posted, and at a minimum include the following information
 - a. Approval and posting date
 - b. General Ledger effective date
 - c. Applicable fund(s) and department(s)
 - d. Applicable General Ledger account numbers
 - e. Amounts debited and credited to each General Ledger account
 - f. An adequate description of purpose of then entry
 - g. Name of individual who initiated and posted
 - h. Name of individual who reviewed and approved

2020-7 Unauthorized Use of Funds

Condition

One of the interest payments for the 2006 Refunding Bonds was paid from the 2008 Construction Fund bank account.

<u>Criteria</u>

Specific bank accounts are set up and authorized for payment of that specific bond principal and interest payments, in accordance with bond covenants.

Cause of Condition

Turnover in the City Clerk position, turnover in accounting staff, limited accounting staff, and accounting staff with limited training and experience.

Effect of Condition

Material weakness in internal controls.

Recommendation

We recommend that City management be diligent and pay special attention to the bank accounts from which payments are being made, especially those related to bond payments.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Mayor and Board of Aldermen City of Natchez, Mississippi Natchez, Mississippi

We were engaged to audit the basic financial statements of City of Natchez, Mississippi as of and for the year ended September 30, 2020, and have issued our report dated September 28, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*.

We were engaged to audit the accompanying financial statements in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included such tests of the accounting records and other auditing procedures as we considered necessary in the circumstances.

Item specifically noted as findings as they relate to items required to be tested by the State of Mississippi are as follows:

1. Inventory was not taken as prescribed for the year ended September 30, 2020.

This report is intended solely for the information and use of the Board of Aldermen, management, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Silas Simmons, LIP

Natchez, Mississippi September 28, 2021

MANAGEMENT'S CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2020

City of Natchez, Mississippi respectfully submits the following corrective action plan for the year ended September 30, 2020:

Independent Public Accounting Firm: S

Silas Simmons, LLP 209 N. Commerce Street Natchez, Mississippi 39120

Audit Period: October 1, 2019 through September 30, 2020

2020-1 Bank Reconciliations

Management's response: The City Clerk will ensure that all bank reconciliations are prepared on a monthly basis and reviewed by management.

<u>Servia Fortenberry</u> <u>September 28, 2021</u>
