May 8, 2023

Members of the Board of Supervisors Scott County, Mississippi

Dear Board Members:

I am pleased to submit to you the 2021 financial and compliance audit report for Scott County. This audit was performed pursuant to Section 7-7-211(e), Mississippi Code Ann. (1972). The audit was performed in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

I appreciate the cooperation and courtesy extended by the officials and employees of Scott County throughout the audit. Thank you for working to move Mississippi forward by serving as a supervisor for Scott County. If I or this office can be of any further assistance, please contact me or Joe McKnight of my staff at (601) 576-2674.

Respectfully submitted,

Shad White

STATE OF MISSISSIPPI OFFICE OF THE STATE AUDITOR SHAD WHITE

AUDITOR

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Supervisors Scott County, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major funds, and the aggregate remaining fund information of Scott County, Mississippi, (the County) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Scott County, Mississippi, as of September 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule, the Schedule of the County's Proportionate Share of the Net Pension Liability, the Schedule of County Contributions, and the corresponding notes be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Omission of Required Supplementary Information

Scott County, Mississippi, has omitted the Management's Discussion and Analysis, that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Scott County, Mississippi's basic financial statements. The accompanying Reconciliation of Operating Costs of Solid Waste are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying Reconciliation of Operating Costs of Solid Waste is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Reconciliation of Operating Costs of Solid Waste is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Surety Bonds for County Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 8, 2023 on our consideration of Scott County, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Scott County, Mississippi's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Scott County, Mississippi's internal control over financial reporting and compliance.

JOE E. MCKNIGHT, CPA Director, County Audit Section

| Reconciliation of the Statement of Revenues, Expenditures and Changes in | | EXTIDIC 4-1 |
|--|----|----------------------|
| Fund Balances of Governmental Funds to the Statement of Activities | | |
| For the Year Ended September 30, 2021 | | |
| , or all 1 out 2 document 20, 202 . | | Amount |
| | | |
| Net Changes in Fund Balances - Governmental Funds | \$ | 644,273 |
| Amounts reported for governmental activities in the Statement of Activities | | |
| are different because: | | |
| Governmental Funds report capital outlays as expenditures. How ever, in the | | |
| Statement of Activities, the cost of those assets is allocated over their estimated | | |
| useful lives and reported as depreciation expense. Thus, the change in net position | | |
| differs from the change in fund balances by the amount that capital outlays of | | |
| \$3,581,890 exceeded depreciation of \$1,508,196 in the current period. | | 2,073,694 |
| | | |
| In the Statement of Activities, only gains and losses from the sale of capital assets | | |
| are reported, whereas in the Governmental Funds, proceeds from the sale of | | |
| capital assets increase financial resources. Thus, the change in net position differs | | |
| from the change in fund balances by the amount of the net gain of \$437,691 and | | |
| the proceeds from sale of \$1,177,322 and the compensation for loss of capital assets of | | (700 740) |
| \$27,087 in the current period. | | (766,718) |
| Fine revenue recognized on the modified accrual basis in the funds during the | | |
| current year is reduced because prior year recognition would have been required | | |
| on the Statement of Activities using the full-accrual basis of accounting. | | 142,336 |
| | | |
| Solid waste revenue recognized on the modified accrual basis in the funds during the | | |
| current year is reduced because prior year recognition would have been required | | |
| on the Statement of Activities using the full-accrual basis of accounting. | | 52,522 |
| Debt proceeds provide current financial resources to Governmental Funds, but | | |
| issuing debt increases long-term liabilities in the Statement of Net Position. Repayment | | |
| of debt principal is an expenditure in the Governmental Funds, but the repayment | | |
| reduces long-term liabilities in the Statement of Net Position. Thus, the change in | | |
| net position differs from the change in fund balances by the amount that debt | | |
| proceeds of \$3,220,574 exceeded debt repayments of \$1,993,406. | | (1,227,168) |
| | | , |
| Under the modified accrual basis of accounting used in the Governmental Funds, | | |
| expenditures are not recognized for transactions that are not normally paid with | | |
| expendable available financial resources. How ever, in the Statement of Activities, | | |
| w hich is presented on the accrual basis, expenses and liabilities are reported | | |
| regardless of when financial resources are available. In addition, interest on | | |
| long-term debt is recognized under the modified accrual basis of accounting w hen | | |
| due, rather than as it accrues. Thus, the change in net position differs from the change | | |
| in fund balances by a combination of the following items: | | |
| The amount of decrease in compensated absences | | 12,847 |
| The amount of increase in accrued interest payable | | (5,993) |
| The amortization of refunding bond premium | | 6,487 |
| The amortization of deferred refunding charges | | (66,594) |
| | | (,, |
| Some items reported in the Statement of Activities relating to the implementation of GASB 68 | | |
| are not reported in the governmental funds. These activities include: | | |
| Recording of pension expense for the current period | | (384,479) |
| Recording of contributions made during the year | | (364,479) 825,217 |
| Lessiang of contributions made during the year | | 020,211 |
| | _ | |
| Change in Net Position of Governmental Activities | \$ | 1,306,424 |

Notes to Financial Statements For the Year Ended September 30, 2021

(1) Summary of Significant Accounting Policies.

A. Financial Reporting Entity.

Scott County, Mississippi (the County) is a political subdivision of the State of Mississippi. The County is governed by an elected five-member Board of Supervisors. Accounting principles generally accepted in the United States of America require Scott County to present these financial statements on the primary government and its component units which have significant operational or financial relationships with the County. There are no outside organizations that should be included as component units of the County's reporting entity.

State law pertaining to county government provides for the independent election of county officials. The following elected and appointed officials are all part of the County legal entity and therefore are reported as part of the primary government financial statements.

- Board of Supervisors
- Chancery Clerk
- Circuit Clerk
- Justice Court Clerk
- Purchase Clerk
- Tax Assessor-Collector
- Sheriff

B. Basis of Presentation.

The County's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, fund financial statements and accompanying note disclosures which provide a detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information concerning the County as a whole. The statements include all nonfiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities are generally financed through taxes, intergovernmental revenues and other nonexchange revenues.

The Statement of Net Position presents the financial condition of the governmental activities of the County at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other revenues not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the County.

Notes to Financial Statements For the Year Ended September 30, 2021

Fund Financial Statements:

Fund financial statements of the County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflows, liabilities, deferred inflows, fund balances, revenues and expenditures. Funds are organized into governmental and fiduciary, even though the latter are excluded from the government-wide financial statements. Major individual Governmental Funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column as Other Governmental Funds.

C. Measurement Focus and Basis of Accounting.

The Government-wide and Fiduciary Funds financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Shared revenues are recognized when the provider government recognizes the liability to the County. Grants are recognized as revenues as soon as all eligibility requirements have been satisfied.

Governmental Fund financial statements are presented using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period when they are both measurable and available to finance operations during the year or to liquidate liabilities existing at the end of the year. Available means collected in the current period or within 60 days after year end to liquidate liabilities existing at the end of the year. Measurable means knowing or being able to reasonably estimate the amount. Expenditures are recognized in the accounting period when the related fund liabilities are incurred. Debt service expenditures and expenditures related to compensated absences and claims and judgments, are recognized only when payment is due. Property taxes, state appropriations and federal awards are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period.

The County reports the following major Governmental Funds:

<u>General Fund</u> - This fund is used to account for and report all financial resources not accounted for and reported in another fund.

<u>American Recovery Fund</u> - This fund is used to account for monies received from the American Rescue Plan Act of 2021 (ARPA) that are considered restricted in nature.

Additionally, the County reports the following fund types:

GOVERNMENTAL FUND TYPES

<u>Special Revenue Funds</u> - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

<u>Debt Service Funds</u> - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

<u>Capital Projects Funds</u> - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

FIDUCIARY FUND TYPE

Notes to Financial Statements For the Year Ended September 30, 2021

<u>Custodial Funds</u> - Custodial Funds are used to report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

D. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2012 by the Government Finance Officers Association.

E. Deposits and Investments.

State law authorizes the County to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U.S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the County may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, and all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash (generally three months or less). Investments in governmental securities are stated at fair value. However, the County did not invest in any governmental securities during the fiscal year.

F. Receivables.

Receivables are reported net of allowances for uncollectible accounts, where applicable.

G. Interfund Transactions and Balances.

Transactions between funds that are representative of short-term lending/borrowing arrangements and transactions that have not resulted in the actual transfer of cash at the end of the fiscal year are referred to as "due to/from other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.

H. Capital Assets.

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the (applicable) governmental activities column in the government-wide financial statements. All purchased capital assets are stated at historical cost where records are available and at an estimated historical cost where no records exist. Capital assets include significant amounts of infrastructure, which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition. The extent to which capital assets costs have been estimated and the methods of estimation are not readily available. Donated capital assets are recorded at estimated fair market value at the time of donation. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend their respective lives are not capitalized; however, improvements are capitalized. Interest expenditures are not capitalized on capital assets.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives are used to report capital assets in the government-wide statements. Depreciation is calculated on the straight-line basis for all assets, except land. A full year's depreciation expense is taken for all purchases and sales of capital assets during the year. The following schedule details those thresholds and estimated useful lives:

Notes to Financial Statements For the Year Ended September 30, 2021

| | _ | Capitalization Thresholds | Estimated Useful Life |
|--------------------------------------|----|------------------------------|-----------------------|
| Land | \$ | 0 | N/A |
| Infrastructure | | 0 | 20-50 years |
| Buildings | | 50,000 | 40 years |
| Improvements other than buildings | | 25,000 | 20 years |
| Mobile equipment | | 5,000 | 5-10 years |
| Furniture and equipment | | 5,000 | 3-7 years |
| Leased property under capital leases | | * | * |

^{*} Leased property capitalization policy and estimated useful life will correspond with the amounts for the asset classification, as listed above.

I. Deferred Outflows/Inflows of Resources.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

<u>Deferred amount on refunding</u> - For current refundings and advance refundings resulting in defeasance of debt reported by governmental activities, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter.

<u>Deferred outflows related to pensions</u> - This amount represents the County's proportionate share of the deferred outflows of resources reported by the pension plan in which the County participates. See Note 11 for additional details.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

<u>Deferred revenues – property taxes/unavailable revenue – property taxes</u> - Deferred inflows of resources should be reported when resources associated with imposed nonexchange revenue transactions are received or reported as a receivable before the period for which property taxes are levied.

<u>Unavailable revenue – fines</u> - When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

<u>Unavailable revenue – accounts receivable</u> - When an asset is recorded in the governmental fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available.

<u>Deferred inflows related to pensions</u> - This amount represents the County's proportionate share of the deferred inflows of resources reported by the pension plan in which the County participates. See Note 11 for additional details.

Notes to Financial Statements For the Year Ended September 30, 2021

J. Long-term Liabilities.

Long-term liabilities are the unmatured principal of bonds, loans, notes or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, the face amount of the debt issued is reported as other financing sources.

K. Pensions.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Compensated Absences.

The County has adopted a policy of compensation for accumulated unpaid employee personal leave. No payment is authorized for accrued major medical leave. Accounting principles generally accepted in the United States of America require accrual of accumulated unpaid employee benefits as long-term liabilities in the government-wide financial statements. In fund financial statements, Governmental Funds report the compensated absence liability payable only if the payable has matured, for example, an employee resigns or retires.

M. Equity Classifications.

Government-wide Financial Statements:

Equity is classified as Net Position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position not meeting the definition of "restricted" or "net investment in capital assets."

Notes to Financial Statements For the Year Ended September 30, 2021

Net Position Flow Assumption:

When an expense is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

Fund Financial Statements:

Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. The following are descriptions of fund classifications used by the County:

Restricted fund balance includes amounts that have constraints placed upon the use of the resources by an external party or imposed by law through either a constitutional provision or enabling legislation.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Fund Balance Flow Assumption:

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned or unassigned) resources are available, it is the County's general policy to use restricted resources first. When expenditures are incurred for purposes for which unrestricted (committed, assigned and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the County's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

N. Property Tax Revenues:

Numerous statutes exist under which the Board of Supervisors may levy property taxes. The selection of authorities is made based on the objectives and responsibilities of the County. Restrictions associated with property tax levies vary with the statutory authority. The amount of increase in certain property taxes is limited by state law. Generally, this restriction provides that these tax levies shall produce no more than 110% of the amount, which resulted from the assessments of the previous year.

The Board of Supervisors, each year at a meeting in September, levies property taxes for the ensuing fiscal year which begins on October 1. Real property taxes become a lien on January 1 of the current year, and personal property taxes become a lien on March 1 of the current year. Taxes on both real and personal property, however, are due on or before February 1 of the next succeeding year. Taxes on motor vehicles and mobile homes become a lien and are due in the month that coincides with the month of original purchase.

Notes to Financial Statements For the Year Ended September 30, 2021

Accounting principles generally accepted in the United States of America require property taxes to be recognized at the levy date if measurable and available. All property taxes are recognized as revenue in the year for which they are levied. Motor vehicle and mobile home taxes do not meet the measurability and collectability criteria for property tax recognition because the lien and due date cannot be established until the date of original purchase occurs.

O. Intergovernmental Revenues in Governmental Funds.

Intergovernmental revenues, consisting of grants, entitlements and shared revenues, are usually recorded in Governmental Funds when measurable and available. However, the "available" criterion applies for certain federal grants and shared revenues when the expenditure is made because expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition depends on compliance with these requirements.

P. Changes in Accounting Standards.

The Governmental Accounting Standards Board issued GASB 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* in May 2020. The objective of this Statement was to provide temporary relief to governments in light of the COVID-19 pandemic by postponing effective dates of certain Statements and Implementation Guides. The effective dates of GASB 83-84, GASB 88-93, and Implementation Guides No. 2017-3, 2018-1, 2019-1, and 2019-2 were postponed one year. The effective dates of GASB 87, *Leases*, and Implementation Guide No. 2019-3, *Leases*, were postponed eighteen months.

GASB 84, Fiduciary Activities, was implemented during fiscal year 2021. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds.

(2) Fund Reclassification.

Effective October 1, 2020, and in accordance with the implementation of GASB Statement No. 84, the Payroll Clearing Fund, previously reported as a Fiduciary Fund, was reclassified and reported in the General Fund. Therefore, the County has adjusted beginning fund balance/net position for the General Fund and Governmental Activities in the amount of \$392,508.

For the Fiduciary Fund Custodial Activities, the County has treated the beginning of the year net position of \$0 as having been recognized in the period incurred.

(3) Prior Period Adjustments.

A summary of the significant net position/fund balance adjustments is as follows:

Exhibit 2 – Statement of Activities – Governmental Activities.

| Explanation | Amount |
|--|-----------------|
| To correct prior year errors in pension calculations. | \$ (249,506) |
| To correct prior year errors in additions to construction in progress. | (86,805) |
| Total prior period adjustments | \$ (336,311) |

Notes to Financial Statements For the Year Ended September 30, 2021

(4) Deposits.

The carrying amount of the County's total deposits with financial institutions at September 30, 2021, was \$20,216,251, and the bank balance was \$20,591,044. The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Mississippi Code of 1972 Annotated. Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of the failure of a financial institution, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. The County does not have a formal policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation (FDIC). Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the County.

(5) Interfund Transactions and Balances.

The following is a summary of interfund balances at September 30, 2021:

A. Due From/To Other Funds:

| Receivable Fund | Payable Fund | Amount |
|---|------------------------------|-----------------------|
| Other Governmental Funds Custodial Funds | General Fund General Fund | \$ 84,462 8,263 |
| Total | | \$ 92,725 |

The receivables represent the tax revenue collected in September, 2021, but not settled until October, 2021. All interfund balances are expected to be repaid within one year from the date of the financial statements.

B. Transfers In/Out:

| Transfers In | Transfers Out | Amount |
|--------------------------|--------------------------|---------------|
| General Fund | Other Governmental Funds | \$ 125,000 |
| Other Governmental Funds | General Fund | 125,000 |
| Other Governmental Funds | Other Governmental Funds | 591,742 |
| Total | | \$ 841,742 |

The principal purpose of interfund transfers was to provide funds for grant matches or to provide funds to pay for capital outlay. All interfund transfers were routine and consistent with the activities of the fund making the transfer.

Notes to Financial Statements For the Year Ended September 30, 2021

(6) Intergovernmental Receivables.

Intergovernmental receivables at September 30, 2021, consisted of the following:

| Description | Amount |
|--|---------------|
| Governmental Activities: | |
| Legislative tax credit | \$ 138,640 |
| Emergency performance grant reimbursement | 27,999 |
| Reimbursement for housing prisoners | 29,300 |
| Department of Human Services reimbursement | 6,583 |
| Total Governmental Activities | \$ 202,522 |

(7) Capital Assets.

The following is a summary of capital assets activity for the year ended September 30, 2021:

Governmental activities:

| | | Balance | | | | Balance |
|---|-----|--------------|-----------|-----------|--------------|----------------|
| | _ | Oct. 1, 2020 | Additions | Deletions | Adjustments* | Sept. 30, 2021 |

^{*}Adjustments are to correct prior-year errors in the County's capital asset records.

Notes to Financial Statements For the Year Ended September 30, 2021

Depreciation expense was charged to the following functions:

| | Amount |
|--|-----------------|
| Governmental activities: | |
| General government | \$ 88,297 |
| Public safety | 425,709 |
| Public works | 952,062 |
| Health and welfare | 42,128 |
| Total governmental activities depreciation expense | \$ 1,508,196 |

Commitments with respect to unfinished capital projects at September 30, 2021, consisted of the following:

| | Remaining | |
|-----------------------------------|----------------|------------------|
| | Financial | Expected Date of |
| Description of Commitment | Commitment | Completion |
| | | |
| McCurdy Road bridge replacement | \$ 40,945 | December 2022 |
| Damascus Road bridge replacement | 361,722 | September 2022 |
| Pea Ridge Road bridge replacement | 628,425 | September 2023 |

(8) Claims and Judgments.

Risk Financing.

The County finances its exposure to risk of loss related to workers' compensation for injuries to its employees through the Mississippi Public Entity Workers' Compensation Trust, a public entity risk pool. The County pays premiums to the pool for its workers' compensation insurance coverage, and the participation agreement provides that the pool will be self-sustaining through member premiums. The retention for the pool is \$1,000,000 for each accident and completely covers statutory limits set by the Workers' Compensation Commission. Risk of loss is remote for claims exceeding the pool's retention liability. However, the pool also has catastrophic reinsurance coverage for statutory limits above the pool's retention, provided by Safety National Casualty Corporation, effective from January 1, 2021, to January 1, 2022. The pool may make an overall supplemental assessment or declare a refund depending on the loss experience of all the entities it insures.

(9) Capital Leases.

As Lessee:

The County is obligated for the following capital assets acquired through capital leases as of September 30, 2021:

| Classes of Property | Governmental Activities |
|--------------------------------------|--------------------------------|
| Mobile equipment | \$ 4,939,042 |
| Total Less: Accumulated depreciation | 4,939,042 (1,287,731) |
| Leased Property Under Capital Leases | \$ 3,651,311 |

Notes to Financial Statements For the Year Ended September 30, 2021

The following is a schedule by years of the total payments due as of September 30, 2021:

| | Gov | vernmental Activities | <u> </u> |
|--------------------------|-----|-----------------------|----------|
| Year Ending September 30 | | Principal | Interest |
| 2022 | \$ | 658,280 | 67,748 |

<u>Legal Debt Margin</u> - The amount of debt, excluding specific exempted debt that can be incurred by the

Notes to Financial Statements For the Year Ended September 30, 2021

County is limited by state statute. Total outstanding debt during a year can be no greater than 15% of assessed value of the taxable property within the County, according to the then last completed assessment for taxation. However, the limitation is increased to 20% whenever a county issues bonds to repair or replace washed out or collapsed bridges on the public roads of the County. As of September 30, 2021, the amount of outstanding debt was equal to 3.02 percentage of the latest property assessments.

The following is a summary of changes in long-term liabilities and obligations for the year ended September 30, 2021:

| | | Balance | | | Balance Sept. | Amount due within |
|----------------------------------|-----|--------------|-----------|------------|---------------|-------------------|
| | | Oct. 1, 2020 | Additions | Reductions | 30, 2021 | one year |
| Governmental Activities: | | | | | | |
| Compensated absences | \$ | 260,510 | | 12,847 | 247,663 | |
| General obligation bonds Add: | | 6,360,000 | 1,100,000 | 735,000 | 6,725,000 | 965,000 |
| Premiums | | 51,359 | | 6,487 | 44,872 | |
| Capital leases | | 2,069,254 | 2,120,574 | 1,258,406 | 2,931,422 | 658,280 |
| Total | \$_ | 8,741,123 | 3,220,574 | 2,012,740 | 9,948,957 | 1,623,280 |

Compensated absences will be paid from the funds from which the employees' salaries were paid, which are generally the General Fund and Road Maintenance Funds.

(11) Defined Benefit Pension Plan.

General Information about the Pension Plan

<u>Plan Description</u>. Scott County, Mississippi contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost sharing, multiple-employer, defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by *Mississippi Code of 1972 Annotated Section 25-11-1 et seq.* and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to Public Employees' Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Benefits Provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is

Notes to Financial Statements For the Year Ended September 30, 2021

made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

<u>Contributions</u>. At September 30, 2021, PERS members were required to contribute 9% of their annual covered salary, and the County is required to contribute at an actuarially determined rate. The employer's rate at September 30, 2021 was 17.40% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The County's contributions (employer share only) to PERS for the years ending September 30, 2021, 2020 and 2019 were \$825,217, \$775,188 and \$723,615, respectively, equal to the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2021, the County reported a liability of \$10,132,581 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The County's proportionate share used to calculate the September 30, 2021 net pension liability was 0.068554 percent, which was based on a measurement date of June 30, 2021. This was an increase of 0.001408 percent from its proportionate share used to calculate the September 30, 2020 net pension liability, which was based on a measurement date of June 30, 2020.

For the year ended September 30, 2021, the County recognized pension expense of \$384,479. At September 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | D | eferred Outflows of Resources | Deferred Inflows of Resources |
|---|-------|----------------------------------|-------------------------------|
| Differences between expected and actual experience Net difference between projected and actual earnings | \$ | 160,587 | |
| on pension plan investments Changes of assumptions Changes in the proportion and differences between the | | 779,589 | 3,290,746 |
| County's contributions and proportionate share of contributions County contributions subsequent to the measurement | | 195,828 | 161,170 |
| date | | 212,604 | |
| Total | \$ | 1,348,608 | 3,451,916 |

\$212,604 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Notes to Financial Statements For the Year Ended September 30, 2021

| Year ending September 30 | Amoun |
|--------------------------|--------------|
| 2022 | \$ (651,101 |
| 2023 | (334,667 |
| 2024 | (420,816 |
| 2025 | (909,328 |
| Total | \$(2,315,912 |

<u>Actuarial Assumptions</u>. The total pension liability as of June 30, 2021 was determined by an actuarial valuation prepared as of June 30, 2020, by the new actuarial assumptions adopted by the Board subsequent to the June 30, 2020 valuation based on the experience investigation for the four-year period ending June 30, 2020, and by the investment experience for the fiscal year ending June 30, 2021. The following actuarial assumptions are applied to all periods in the measurement:

Inflation 2.40 percent

Salary increases 2.65 – 17.90 percent, including inflation

Investment rate of return 7.55 percent, net of pension plan investment

expense, including inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to age 60, 110% for ages 61 to 75 and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates for disability retirees were based on the PubG.H-2010 Disabled Table adjusted 134% for males and 121% for females. Mortality rates for Contingent Annuitants were based on the PubS.H-2010(B) Contingent Annuitant Table, adjusted 97% for males and 110% for females. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The actuarial assumptions used for the purposes of determining the total pension liability were based on the results of an actuarial experience study for the four-year period from July 1, 2016 to June 30, 2020. The experience report is dated April 20, 2021.

The long-term expected rate of return on pension plan investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The most recent target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Notes to Financial Statements For the Year Ended September 30, 2021

| | Target | Long-Term Expected Real |
|----------------------|------------|----------------------------|
| Asset Class | Allocation | Rate of Return |
| Domestic Equity | 27.00 % | 4.60 % |
| International Equity | 22.00 | 4.50 |
| Global Equity | 12.00 | 4.80 |
| Fixed Income | 20.00 | (0.25) |
| Real Estate | 10.00 | 3.75 |
| Private Equity | 8.00 | 6.00 |
| Cash Equivalents | 1.00 | (1.00) |
| Total | 100.00 % | |

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.55 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current contribution rate (17.40%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.55 percent, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.55 percent) or 1-percentage-point higher (8.55 percent) than the current rate:

| | | 1% | Current | 1% |
|---------------------------------|----|------------|---------------|-----------|
| | | Decrease | Discount Rate | Increase |
| | | (6.55%) | (7.55%) | (8.55%) |
| | _ | | | |
| County's proportionate share of | | | | |
| The net pension liability | \$ | 14,350,110 | 10,132,581 | 6,657,001 |

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

(12) Contingencies.

<u>Federal Grants</u> - The County has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a grantor audit may become a liability of the County. No provision for any liability that may result has been recognized in the County's financial statements.

<u>Litigation</u> - The County is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the County with respect to the various proceedings. However, the County's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the County.

(13) Effect of Deferred Amounts on Net Position.

Notes to Financial Statements For the Year Ended September 30, 2021

The governmental activities' unrestricted net position amount of \$(4,490,770) includes the effect of deferred inflows/outflows of resources related to pensions. A portion of the deferred outflows of resources related to pensions in the amount of \$212,604 resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2022. The \$1,136,004 balance of the deferred outflows of resources related to pensions at September 30, 2021, will be recognized in pension expense over the next three years. The \$3,451,916 balance of the deferred inflows of resources related to pensions at September 30, 2021, will be recognized in pension expense over the next four years.

The governmental activities' net investment in capital assets amount of \$16,824,053 includes the effect of deferring the recognition of expenditures resulting from an advance refunding of County debt. The \$460,609 balance of deferred outflows of resources at September 30, 2021, will be recognized as an expense and will decrease the net investment in capital assets over the next six years.

(14) Joint Ventures.

The County participates in the following joint ventures:

Scott County is a participant with Rankin, Smith and Simpson Counties in a joint venture authorized by *Section 39-3-9, Mississippi Code of 1972 Annotated,* to operate the Central Mississippi Regional Library System. The joint venture was created to provide library services to the public and is governed by a five-member board, of which two members are appointed by Rankin County and one from each of the other three counties. By contractual agreement, the County's appropriation to the joint venture was \$222,455 in fiscal year 2021. Complete financial statements for the Central Mississippi Regional Library System can be obtained from the following address: 3470 Highway 80 East, Pearl, MS 39208.

The Scott County Coliseum is operated jointly by the County and the City of Forest. The joint venture was created to provide economic development with the County and City. The Board of Trustees for the Coliseum is composed of board members of the participating governments and other citizens that are selected by those board members. The City of Forest has control over the bank account and funds of the Coliseum. The County appropriated \$46,683 for support of the Coliseum in fiscal year 2021.

(15) Jointly Governed Organizations.

The County participates in the following jointly governed organizations:

East Central Community College operates in a district composed of the counties of Leake, Neshoba, Newton, Scott and Winston. The Scott County Board of Supervisors appoints six of the 30 members of the college board of directors. The County levy collected in 2021 the following amounts: \$499,490 for maintenance and support and \$149,994 for buildings and renovations.

Central Mississippi Emergency Medical Services District operates in a district composed of the counties of Attala, Clarke, Copiah, Holmes, Lauderdale, Leake, Madison, Neshoba, Rankin, Scott, Smith, Warren and Yazoo. The Scott County Board of Supervisors appoints two of the 26 board members. The County appropriates only modest financial support for the district.

East Central Planning and Development District operates in a district composed of the counties of Clarke, Jasper, Kemper, Lauderdale, Leake, Newton, Neshoba, Scott and Smith. The Scott County Board of Supervisors appoints one of the 15 members of the board of directors. The County provided \$16,284 in support for the district in fiscal year 2021.

Region Ten, Weems Community Mental Health Center operates in a district composed of the counties of Clarke, Jasper, Kemper, Lauderdale, Leake, Neshoba, Newton, Scott and Smith. The Scott County Board of Supervisors appoints one of the nine members of the board of commissioners. The County appropriated \$31,000 for support of the commission in the fiscal year 2021.

Notes to Financial Statements For the Year Ended September 30, 2021

The Mid-Mississippi Development District operates in a district composed of the counties of Clarke, Jasper, Lauderdale, Newton, Scott and Smith. The district was organized to foster, encourage and facilitate economic development in the member counties. The district's board of trustees is composed of 30 members, five each from the six-member counties. The County appropriated \$45,470 for support to the district in fiscal year 2021.

(16) Tax Abatements.

As of September 30, 2021, Scott County provided tax-exempt status to five manufacturing companies and three processing plants subject to the requirements of GASB Statement No. 77. These companies are exempt from real and personal property taxes except for levies involving the school, the mandatory mill and the community college tax levies. These exemptions are authorized under *Sections 27-31-101 and 27-31-105, Mississippi Code of 1972 Annotated.* These exemptions encourage businesses to locate or expand operations in the County and to create jobs. The amount of taxes abated during fiscal year 2021 totaled \$2,088,828.

Notes to Financial Statements For the Year Ended September 30, 2021

(17) Subsequent Events.

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events, which provide evidence about conditions that existed after the Statement of Net Position date, require disclosure in the accompanying notes. Management of Scott County evaluated the activity of the County through May 8, 2023, and determined that the following subsequent events have occurred requiring disclosure in the notes to the financial statements.

Subsequent to September 30, 2021, the County issued the following debt obligations:

| Issue Date | Interest Rate | Issue Amount | Type of Financing | Source of Financing |
|---------------|------------------|-----------------|-------------------|---------------------|
| 02/07/2022 | 2.21% | \$ 269,150 | Finance purchase | Ad valorem taxes |

How ever, GASB Statement No. 68 w as implemented for the fiscal year ended September 30, 2015, and, until, a full 10 year trend is compiled, the County has only presented information for the years in which information is available.

Notes to the Required Supplementary Information For the Year Ended September 30, 2021 UNAUDITED

A. Budgetary Information.

Statutory requirements dictate how and when the County's budget is to be prepared. Generally, in the month of August, prior to the ensuing fiscal year beginning each October 1, the Board of Supervisors of the County, using historical and anticipated fiscal data and proposed budgets submitted by the Sheriff and the Tax Assessor-Collector for his or her respective department, prepares an original budget for each of the Governmental Funds for said fiscal year. The completed budget for the fiscal year includes for each fund every source of revenue, each general item of expenditure, and the unencumbered cash and investment balances. When during the fiscal year it appears to the Board of Supervisors that budgetary estimates will not be met, it may make revisions to the budget.

The County's budget is prepared principally on the cash basis of accounting. All appropriations lapse at year end, and there are no encumbrances to budget because state law does not require that funds be available when goods or services are ordered, only when payment is made.

B. Basis of Presentation.

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) presents the original legally adopted budget, the final legally adopted budget, actual amounts on a budgetary (Non-GAAP Basis) and variances between the final budget and the actual amounts. The schedule is presented for the General Fund and each major Special Revenue Fund. The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) is a part of required supplementary information.

C. Budget/GAAP Reconciliation.

The major differences between the budgetary basis and the GAAP basis are:

- 1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles the budgetary basis schedules to the GAAP basis financial statements for the General Fund and the major Special Revenue Fund:

| | Governmental Fund Types | | | |
|--|-------------------------|-----------|---------------|--|
| | | General | American | |
| | | Fund | Recovery Fund | |
| Net Changes in Fund Balances - Budgetary Basis | \$ | 306,427 | 2,733,213 | |
| Increase (Decrease) | | | | |
| Net adjustments for revenue accruals | | (204,266) | (2,731,379) | |
| Net adjustments for expenditure accruals | | 115,453 | | |
| Net Changes in Fund Balances - GAAP Basis | \$ | 217,614 | 1,834 | |

Notes to the Required Supplementary Information For the Year Ended September 30, 2021 UNAUDITED

Pension Schedules

A. Changes of assumptions.

2015

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

<u>2016</u>

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

2017

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

The wage inflation assumptions was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6.00% to 7.00%.

2019

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:

For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119.

For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119.

Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments:

For males, 137% of male rates at all ages.

For females, 115% of female rates at all ages.

Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 3.00% to 2.75%.

Notes to the Required Supplementary Information For the Year Ended September 30, 2021 UNAUDITED

The wage inflation assumption was reduced from 3.25% to 3.00%.

Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

2021

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:

For males, 95% of male rates up to age 60, 110% for ages 61 to 75, and 101% for ages above 77.

For females, 84% of female rates up to age 72, 100% for ages above 76.

For females, 84% of female rates up to age 72, 100% for ages above 76. Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubG.H-2010 Disabled Table for disabled retirees with the following adjustments:

For males, 134% of male rates at all ages.

For females, 121% of female rates at all ages.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of contingent annuitant mortality was based on the PubS.H-2010(B) Contingent Annuitant Table with the following adjustments:

For males, 97% of male rates at all ages.

For females, 110% of female rates at all ages.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 2.75% to 2.40%.

The wage inflation assumption was reduced from 3.00% to 2.65%.

The investment rate of return assumption was changed from 7.75% to 7.55%.

The assumed load for administrative expenses was increased from 0.25% to 0.28% of payroll.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 9% to 12%.

The percentage of active member deaths assumed to be in in the line of duty was decrease from 6% to 4%.

B. Changes in benefit provisions.

2016

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

Notes to the Required Supplementary Information For the Year Ended September 30, 2021 UNAUDITED

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2019 valuation for the June 30, 2021 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method Amortization method Remaining amortization period Asset valuation method Price inflation Salary increase

Investment rate of return

Entry age
Level percentage of payroll, open
28.8 years
5-year smoothed market
2.75 percent
3.00 percent to 18.25 percent, including inflation
7.75 percent, net of pension plan investment expense, including inflation

STATE OF MISSISSIPPI OFFICE OF THE STATE AUDITOR SHAD WHITE

AUDITOR

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Supervisors Scott County, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Scott County, Mississippi (the County), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated May 8, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Scott County, Mississippi's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Scott County, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as 2021-001, 2021-002, 2021-003, and 2021-004 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Scott County, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Responses as item 2021-001.

We also noted certain matters, which we have reported to the management of Scott County, Mississippi, in the Independent Accountant's Report on Central Purchasing System, Inventory Control System and Purchase Clerk Schedules and the Limited Internal Control and Compliance Review Management Report dated May 8, 2023, included within this document.

Scott County's Responses to Findings

Scott County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. Scott County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

AUDITOR

INDEPENDENT ACCOUNTANT'S REPORT ON CENTRAL PURCHASING SYSTEM, INVENTORY CONTROL SYSTEM AND PURCHASE CLERK SCHEDULES (REQUIRED BY SECTION 31-7-115, MISSISSIPPI CODE OF 1972 ANNOTATED)

Members of the Board of Supervisors Scott County, Mississippi

We have examined Scott County, Mississippi's (the County) compliance with establishing and maintaining a central purchasing system and inventory control system in accordance with *Sections 31-7-101* through *31-7-127*, *Mississippi Code of 1972 Annotated* and compliance with the purchasing requirements in accordance with bid requirements of *Section 31-7-13*, *Mississippi Code of 1972 Annotated* during the year ended September 30, 2021. The Board of Supervisors of Scott County, Mississippi is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the County's compliance with specified requirements. The Board of Supervisors of Scott County, Mississippi, has established centralized purchasing for all funds of the County and has established an inventory control system. The objective of the central purchasing system is to provide reasonable, but not absolute, assurance that purchases are executed in accordance with state law.

Because of inherent limitations in any central purchasing system and inventory control system, errors or irregularities may occur and not be detected. Also, projection of any current evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

The results of our audit procedures disclosed certain instances of noncompliance with the aforementioned code sections. These instances of noncompliance were considered in forming our opinion on compliance. Our findings and recommendations and your responses are disclosed below:

Purchase Clerk.

1. The Purchase Clerk was not bonded correctly.

Repeat Finding No

Criteria Section 31-7-124, Mississippi Code of 1972 Annotated, requires each Purchase Clerk to

execute a bond in a penalty not less than \$100,000 to be payable, conditioned and

approved as provided by law.

Condition The Purchase Clerk was bonded for \$75,000 instead of \$100,000 for fiscal year 2021.

Cause The County did not comply with state laws.

Effect Failure to comply with state statutes would limit the amount available for recovery

if a loss occurred.

Recommendation The Purchase Clerk should increase the bond to \$100,000.

Views of Responsible

Official(s) I was unaware of the changes made to the bond amount for Purchasing Clerks. We have

reached out to our bond associates and updated to the new amount as of October 26,

2022.

In our opinion, except for the noncompliance referred to in the preceding paragraph, Scott County, Mississippi, complied, in all material respects, with state laws governing central purchasing, inventory and bid requirements for the year ended September 30, 2021.

The accompanying schedules of (1) Purchases Not Made from the Lowest Bidder, (2) Emergency Purchases and (3) Purchases Made Noncompetitively from a Sole Source are presented in accordance with *Section 31-7-115*, *Mississippi Code of 1972 Annotated*. The information contained on these schedules has been subjected to procedures performed in connection with our aforementioned examination and, in our opinion, is fairly presented in relation to that examination.

Scott County's response to the finding included in this report was not audited, and accordingly, we express no opinion on it.

This report is intended for use in evaluating Scott County, Mississippi's compliance with the aforementioned requirements, and is not intended to be and should not be relied upon for any other purpose. However, this report is a matter of public record and its distribution is not limited.

AUDITOR

LIMITED INTERNAL CONTROL AND COMPLIANCE REVIEW MANAGEMENT REPORT

Members of the Board of Supervisors Scott County, Mississippi

In planning and performing our audit of the financial statements of Scott County, Mississippi for the year ended September 30, 2021, we considered Scott County, Mississippi's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

In addition, for areas not considered material to Scott County, Mississippi's financial reporting, we have performed some additional limited internal control and state legal compliance review procedures as identified in the state legal compliance audit program issued by the Office of the State Auditor. Our procedures were substantially less in scope than an audit, the objective of which is the expression of an opinion on the County's compliance with these requirements. Accordingly, we do not express such an opinion. This report does not affect our report dated May 8, 2023, on the financial statements of Scott County, Mississippi.

Due to the reduced scope, these review procedures and compliance tests cannot and do not provide absolute assurance that all state legal requirements have been complied with. Also, our consideration of internal control would not necessarily disclose all matters within the internal control that might be weaknesses. In accordance with Section 7-7-211, Mississippi Code of 1972 Annotated, the Office of the State Auditor, when deemed necessary, may conduct additional procedures and tests of transactions for this or other fiscal years to ensure compliance with legal requirements.

The results of our review procedures and compliance tests identified certain areas that are opportunities for strengthening internal controls and operating efficiency. Our finding, recommendation, and your response is disclosed below:

Chancery Clerk.

1. The Chancery Clerk should perform monthly bank reconciliations.

Repeat Finding No

Criteria An effective system of internal control over the collection, recording and disbursement of

cash in the Chancery Clerk's office should include a reconciliation of the bank account to

the cash journal on a monthly basis.

Condition It was noted the Chancery Clerk's land redemption bank account had not been reconciled

to the cash journal. An October 2022 cash count revealed a net cash overage of \$445.

Cause The Chancery Clerk failed to reconcile the bank account to the cash journal on a monthly

basis.

Effect Failure to reconcile the bank account to the cash journal could result in the loss or misuse

of public funds.

Recommendation The Chancery Clerk should properly maintain a cash journal, ensuring that it reconciles to

the bank account on a monthly basis.

Views of Responsible Official(s)

A portion of the overage is the interest paid on the account each month. The amount of this \$445 that is interest is \$109.02. The remaining \$335.98 amount could possibly be an older check listed as not cleared, but I will continue to research this overage amount in this account.

Scott County's response to the finding included in this report was not audited, and accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Supervisors, and others within the entity, and is not intended to be, and should not be used by anyone other than these parties. However, this report is a matter of public record and its distribution is not limited.

Schedule of Findings and Responses For the Year Ended September 30, 2021

Section 1: Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued on the financial statements:

Governmental activities

General Fund

American Recovery Fund

Aggregate remaining fund information

Unmodified

Unmodified

Unmodified

Unmodified

2. Internal control over financial reporting:

a. Material weaknesses identified?

b. Significant deficiency identified?

None Reported

3. Noncompliance material to the financial statements noted? Yes

Section 2: Financial Statement Findings

Tax Assessor-Collector.

Material Weakness Material Noncompliance

2021-001. The Tax Collector should make daily deposits

Repeat Finding Yes

Criteria An effective system of internal control over cash should include daily bank deposits.

Additionally, Section 25-1-72, Mississippi Code of 1972 Annotated, requires all county officers who receive funds payable into the county treasury to deposit such funds into the

county depository on the day they are collected or on the next business day.

Condition As reported in the prior three years' audit reports, we noted that bank deposits were not

being made on a daily basis in the Tax Collector's office, with as many as five business

days between receipt and deposit of funds.

Cause The Tax Collector failed to make timely deposits.

Effect Failure to have adequate controls in place could result in the loss or misappropriation of

public funds.

Recommendation The Tax Collector should implement controls to ensure that bank deposits are made on a

daily basis.

Views of Responsible

Official(s) During the audit period, the office was staffed with a skeleton crew only due to COVID.

Deposits were delayed due to that. In the future we will work to make deposits in a timely

manner.

Schedule of Findings and Responses For the Year Ended September 30, 2021

Material Weakness

2021-002. The Tax Collector should maintain a cash journal and reconcile it monthly.

Repeat Finding Yes

Criteria An effective system of internal control over the collection, recording and disbursement of

cash in the Tax Collector's office should include proper maintenance of a cash journal and

reconciliation of the bank statement to the cash journal on a monthly basis.

Condition As reported in the prior thirteen years' audit reports, it was noted that the Tax Collector did

not maintain a cash journal and therefore had not reconciled the bank statement to the cash journal. A cash count that was performed during the audit revealed an unidentified

difference between the cash journal and the bank reconciliation.

Cause The cash collections and disbursements were not correctly entered into the accounting

system from which the cash journal is generated. This has caused large unidentified

differences between the monthly cash journals and bank statements.

Effect Failure to reconcile the bank account to the cash journal could result in making incorrect

settlements of taxes collected to the County and other entities for which the Tax Collector

collects taxes, as well as the loss or misuse of public funds.

Recommendation The Tax Collector should maintain a cash journal and correctly make and record all

deposits when they are received. The cash journal should be reconciled to the bank

statements on a monthly basis.

Views of Responsible

Official(s) We are implementing a new cash journal and still in the learning process. The cash

journal spreadsheet will be fully implemented by next audit.

Material Weakness

2021-003. Controls over cash collections in the Tax Collector's office should be strengthened.

Repeat Finding Yes

Criteria An effective system of internal controls over the collection, recording and disbursement of

cash in the Tax Collector's office should include an adequate segregation of duties.

Condition As reported in the prior eight years' audit reports, the cash collections and disbursement

functions in the Tax Collector's Office were not adequately segregated for effective internal controls. The bookkeeper reconciles cash collections and receipts, prepares bank deposits, posts to the cash journal, writes all checks for disbursements and is responsible

for reconciling the bank statements.

Cause The Tax Collector lacked the necessary internal controls.

Effect Failure to have an adequate segregation of duties could result in the loss of public funds.

Recommendation The Tax Collector should take steps to ensure there is an adequate segregation of duties

in the collection and disbursement functions of the office.

Schedule of Findings and Responses For the Year Ended September 30, 2021

Views of Responsible

Official(s)

With limited staff there is only limited abilities to divide duties. Clerks balance individual drawers, bookkeeper verifies and prepares deposits then another clerk takes the deposit to the bank. The reconciliation and cash journal are verified by myself and checks can only be signed by me. Controls are in place to ensure monies are accounted for accurately.

Material Weakness

2021-004. The Tax Collector should perform monthly bank reconciliations.

Repeat Finding Yes

Criteria An effective system of internal control over the collection, recording and disbursement of

cash in the Tax Collector's office should include a reconciliation of the bank account to the

cash journal on a monthly basis.

Condition As reported in the prior three years' audit reports, it was noted that the Tax Collector was

not reconciling the bank account to the cash journal. An October 2022 cash count revealed

a net cash shortage of \$851.

Cause The Tax Collector failed to reconcile the bank account to the cash journal on a monthly

basis.

Effect Failure to reconcile the bank account to the cash journal could result in the loss or misuse

of public funds.

Recommendation The Tax Collector should properly maintain a cash journal, ensuring that it reconciles to

the bank account on a monthly basis.

Views of Responsible

Official(s)

We are currently implementing a new spreadsheet to reconcile the cash journal and bank

account monthly. The spreadsheet was in the process of being completed and will be fully

implemented by next audit.
