

OFFICE OF THE STATE AUDITOR REPORT NOTE:

Section 7-7-211, Mississippi Code Annotated (1972) gives the Office of the State Auditor the authority to audit, with the exception of municipalities, any governmental entity in the state. In the case of municipalities, *Section 21-35-31, Mississippi Code Annotated (1972)* requires municipalities to obtain an annual audit performed by a private CPA firm and submit that audit report to the Office of the State Auditor. The Office of the State Auditor files these audit reports for review in case questions arise related to the municipality.

As a result, the following document was not prepared by the Office of the State Auditor. Instead, it was prepared by a private CPA firm and submitted to the Office of the State Auditor. The document was placed on this web page as it was submitted and no review of the report was performed by the Office of the State Auditor prior to finalization of the report. The Office of the State Auditor assumes no responsibility for its content or for any errors located in the document. Any questions of accuracy or authenticity concerning this document should be submitted to the CPA firm that prepared the document. The name and address of the CPA firm appears in the document.

Independent Auditor's Report

Honorable Mayor and Members of the Board of Aldermen
City of Brandon, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Brandon, Mississippi, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Brandon, Mississippi, as of September 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and the Schedule of the City's Proportionate Share of the Net Pension Liability and the Schedule of City's Contributions on pages 3-12 and 44-50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

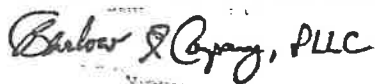

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Brandon, Mississippi's basic financial statements. The Schedule of Surety Bonds for Municipal Officials and other comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2022, on our consideration of the City of Brandon, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Brandon, Mississippi's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Brandon, Mississippi's internal control over financial reporting and compliance.

Brandon, Mississippi
April 29, 2022

**CITY OF BRANDON
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED September 30, 2021**

The Discussion and Analysis of the City of Brandon financial performance provides an overall review of the City's financial activities for the year ended September 30, 2021. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Please read it in conjunction with the City of Brandon's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2021 were as follows:

Total net position for 2021 increased \$2,781,239 or 5.9% from 2020. Total net position for 2020 increased \$7,726,895 or 19.5% from fiscal year 2019. The increase in 2021 resulted primarily from the increase in governmental activities cash and other assets and business-type activities increase in capital assets.

General revenues accounted for \$22,545,139 and \$17,803,725 in revenue, or 75% and 74% of all revenues for fiscal years 2021 and 2020 respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$7,385,584 or 25% for 2021 and \$6,254,363 or 26% of total revenues for 2020.

In the business-type activity of sanitation, sanitation expenses were \$1,345,427 while charges for sanitation services were \$1,419,987. Water and sewer charges for services were \$10,126,875 with expenses of \$10,339,370. Investment income was \$54,676 for 2021. The City received \$7,500 in capital grants and contributions.

Long-term debt decreased by \$1,228,271 for fiscal year 2021 and increased by \$376,854 for fiscal year 2020. The decrease in 2021 was due to decrease in governmental activities long-term debt and in 2020 due to issuance of new general obligation bonds. Additionally, the liability for compensated absences decreased by \$39,863 in 2021 and increased by \$46,039 in 2020. The net pension liability was \$16,194,334 and \$17,273,891 for 2021 and 2020 respectively.

Overall, the book value of capital assets increased \$4,215,419 in 2021 and increased by \$3,741,155 for 2020. The changes were due to new construction in progress in 2021 and 2020.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements, and 4) required supplementary information.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net position presents information on all the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline functions of the City that are principally supported by property taxes and intergovernmental revenues (governmental activities) and water, sewer, and sanitation charges (proprietary activities). The governmental activities of the City include general government, public safety, public works, and interest on long-term debt.

The government-wide financial statements are included in this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's current financing requirements. Government funds are reported using modified accrual accounting. This method of accounting measures cash and other assets that can be easily converted to cash. The Governmental Funds Statements provide a detailed short-term view of the City's operations.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The reconciliations are presented elsewhere in the auditor's report.

The basic governmental fund financial statements can be found in this report.

Proprietary funds. The City of Brandon maintains one type of proprietary fund, the enterprise fund. The Enterprise fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses the enterprise fund to account for its Water and Sewer operations as well as sanitation.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found in this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in this report.

Required supplementary information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget process.

The City adopts an annual operating budget for all governmental funds and proprietary funds. Budgetary comparison statements have been provided for the General Fund and the Enterprise Fund. This required supplementary information is included elsewhere in this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The Statement of Net position and the Statement of Activities report information about the City as a whole and about its activities and may serve over time as a useful indicator of the City's financial position. These statements include all of the City's assets and liabilities resulting from the use of the accrual basis of accounting and economic resources focus of measurement.

Net position. The City's combined net position, on the accrual basis of accounting and economic resources measurement focus, increased from \$47,409,682 to \$50,190,923 between fiscal years 2020 and 2021. This increase is the result of the change in net position from operations of \$2,781,241.

Table 1 reflects condensed information on the City's net position.

				Table 1					
				Net Position					
				2021					

Table 2 shows the Changes in Net Position for the September 30, 2021 year end.
A comparative analysis of government-wide data is as follows:

Table 2							
Changes in Net Position

Water and sewer			10,339,370	8,399,046	10,339,370	8,399,046	23.10%
Sanitation			1,345,427	1,307,301	1,345,427	1,307,301	2.92%
Interest and fiscal charge	1,551,655	1,388,704			1,551,655	1,388,704	11.73%
Total Expenses	27,073,723	17,843,888	11,684,797	9,706,347	38,758,520	27,550,235	40.68%
Change in Net Position	\$ 2,857,000	6,214,200	(75,759)	1,512,696	2,781,241	7,726,896	-64.01%
Net Position, beginning	27,516,582	21,302,382	19,893,100	18,380,404	47,409,682	39,682,786	19.47%
Net Position, ending	\$ 30,373,582	27,516,582	19,817,341	19,893,100	50,190,923	47,409,682	5.87%

Governmental Activities. Revenues for the City's governmental activities for the year ended September 30, 2021 were \$29,930,723 compared to \$24,058,088 in 2020. Program revenues increased 18% primarily as a result of a increase in charges for services in culture and recreation programs. General revenues are, for the most part, comprised of sales and use taxes and property taxes (75%).

The cost of providing all governmental activities for 2021 was \$27,073,723 and for 2020 was \$17,843,888, an increase of \$9,229,835 for 2021 and a decrease of \$3,735,627 for 2020. Of this amount, general government expenses increased \$832,784 in 2021 and increased \$31,223 in 2020; public safety expenses increased \$4,143,731 for 2021 and increased \$446,473 for 2020; public services expenses increased \$915,405 in 2021 and increased \$53,761 in 2020; culture and recreation expenses increased \$3,174,964 in 2021 and decreased \$4,219,436 in 2020; and interest on long-term debt expenses increased \$162,951 in 2021 and decreased \$25,922 in 2020.

The City's largest programs are public safety, culture and recreation, public services, and general government. Expenses exceeding revenues are offset by general revenues generated by taxes, investment income and other general revenues.

Business-type Activities. Revenues for business-type activities are primarily comprised of charges for services (99%). Charges for services for the City's business-type activities were \$11,546,862 for 2021 and \$11,115,772 for 2020, an increase of \$431,090 in 2021 and an increase of \$382,072 for 2020. Revenue from capital grants was \$7,500 in 2021 compared to \$0 for 2020.

The costs of these business-type activities were \$11,684,797 and \$9,706,347 for 2021 and 2020 respectively, an increase of \$1,978,450 in 2021 due to increases in water and sewer costs and sanitation costs; and a decrease of \$28,382 in 2020 due to decreases in water and sewer costs.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the city's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

The financial performance of the City as a whole is reflected in its governmental funds. As the City completed the year, its governmental funds reported a combined fund balance of \$18,779,107, an increase of \$4,859,433. The fund balance consists of \$12,878,277 or 68.58% which is restricted for specific purposes which are externally imposed, \$313,920 or 1.67% is committed for specific purposes internally imposed by the City; \$5,075 or 0.03% is assigned for specific purposes that can be expressed by the Board of Alderman or by an official to which the Board delegates. At the end of the year, the amount of fund balance unassigned, which is available for spending for any purpose, is \$5,581,835 or 29.72%.

BUDGETARY HIGHLIGHTS

The City's budget is prepared according to Mississippi law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the City revised the annual operating budget. Schedules showing the original and final budget amounts compared to the City's actual financial activity for the General Fund and Enterprise Fund are provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. As of September 30, 2021, the City's total capital assets were \$165,475,724 including land, city buildings, infrastructure, vehicles and furniture and equipment. This amount represents an increase of \$8,182,842 for 2020 to 2021. The accumulated depreciation as of September 30, 2021 was \$63,019,130 and total depreciation expense for the year was \$5,218,413.

Table 3								
Capital Assets at September 30, 2021								
(Net of Depreciation)								
								Percent
	Governmental Activities		Business-type Activities		Total			Change

Additional information on the City's long-term debt can be found in the notes to the financial statements included in this report.								

CURRENT ISSUES

Bond Refunding Issue

The City is in process of finalizing a Refunding Bond Issue in the principal amount of and not to exceed \$4,950,000 for the purpose of advance refunding a portion of the \$6,000,000 MS Development Bank Special Obligation Bonds, Series 2018.

Agreement between the City and The Department of the Army

A Project Partnership Agreement was entered into with the Department of the Army Corps of Engineers for a Section 592 Project for assistance with City of Brandon Water System Improvements to include construction of a water well and tank. Federal Funds available under this agreement is \$3,400,000 and will include a local match of 25% or \$1,333,333.

Downtown Revitalization Continues

A bid was awarded in the amount of \$613,810 for improvements to Dining Street, Poindexter Street and overlay of the Frontiers parking lot. The improvements include overlay, curb, gutter, and street extension. This will allow more parking for the increasing downtown establishments.

Tax Increment Financing Bond Issue

This Tax Increment Financing Plan for Orleans Way, City of Brandon, Mississippi will be an undertaking of the City of Brandon authorized pursuant to Sections 21-45-1, et. Seq., MS Code 1972 as amended. The Developer proposes to develop 112-acre, mixed use development in the city including a grocery store, hotel, car dealership, senior living, office space, retail, restaurants and on-site infrastructure necessary to support the development with construction of a road extending Orleans Way. This project is anticipated to be after fiscal year 2022.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the City of Brandon's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Angela Bean, City Clerk at (601) 825-5021.

CITY OF BRANDON
RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION
GOVERNMENTAL FUNDS
September 30, 2021

Total fund balances - governmental funds		\$ 18,779,108
Total net position reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds:		
Governmental capital assets	108,932,300	
Less accumulated depreciation	<u>(35,046,019)</u>	73,886,281
Certain items are not available to pay for current period expenditures and, therefore, are either deferred or not applicable to funds.		
Deferred outflows and inflows related to pensions		(4,896,843)
Deferred outflows related to bond refunding		1,202,491
Certain items are not due and payable in the current period and, therefore, are either deferred or not reported in the governmental funds.		
Interest payable		(249,611)
Deferred inflows for developer construction advances		(31,509)
Long-term liabilities (including currents portion due) are not due and payable in the current period and accordingly are not reported in the governmental funds.		
		<u>(58,316,335)</u>
Net position of governmental activities		\$ <u><u>30,373,582</u></u>

See accompanying notes to financial statements.

CITY OF BRANDON
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
GOVERNMENTAL FUNDS

For the year ended September 30, 2021

Net change in fund balances - governmental funds	\$	4,859,434
--	----	-----------

Amounts reported for governmental activities in Statement of
 Activities are different because:

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of capital assets
 is depreciated over their estimated useful lives. In the current
 period, these amounts are:

Capital outlay	\$	4,327,682	
Depreciation expense		(3,596,097)	731,585

Some revenues and expenses reported in the statement of activities are
 not available for spending or do not require the use of current
 resources, and, therefore are not reported as revenues or
 expenditures in the governmental funds.

Change in compensated absences		47,054
Pension expense for the current period		(5,633,905)
Interest expense		212,380
Change in Prepaid expenses		136,700
Other revenues (expenses)		9,878

Payments made to bond escrow agents consume current financial resources in
 governmental funds, but the payments made to bond escrow agents
 are used to redeem bonds in the governmentwide financial statements and
 has no effect on the statement of activities

651,560

The issuance of long-term debt (e.g., bonds, leases) provides
 current financial resources to governmental funds, while the
 repayment of the principal of long-term debt consumes the
 current financial resources of governmental funds. Neither
 transaction, however, has any effect on net position. Also,
 governmental funds report the effect of premiums, discounts,
 and similar items when debt is first issued, whereas these
 amounts are deferred and amortized in the statement of activities.

Debt issuance proceeds		(5,255,000)	
Retirement of debt		7,097,314	1,842,314

Change in net position - governmental funds	\$	2,857,000
---	----	-----------

See accompanying notes to financial statements.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

(1) Reporting Entity and Summary of Significant Accounting Policies

Reporting Entity

The City of Brandon was incorporated on December 19, 1831. The city operates under a mayor-board of aldermen form of government (also known as "code charter form") that provides all of the rights and privileges provided by statute for municipalities. The accounting policies of the City of Brandon conform to generally accepted accounting principles as applicable to governments.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its own budget, levy taxes or set rates or charges, or issue bonded debt without approval by the primary government.

Based on the application of the criteria above, no component units of the City of Brandon were identified.

Financial Statement Presentation

The basic financial statements are prepared in conformity with GAAP, which requires the government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities on the statement of net position and statement of activities. The City's statement of net position includes both noncurrent assets and noncurrent liabilities of the City. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements, which use the modified accrual basis of accounting and the current financial resources measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The Management's Discussion and Analysis provides an analytical overview of the City's financial activities. In addition, a budgetary comparison schedule is presented that compares the original adopted and final amended General Fund budget with actual results.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for services.

The statement of net position is designed to display the financial position of the primary government (governmental and business-type activities) and its component units. Governments will report all capital assets, including infrastructure, in the government-wide statement of net position and will report depreciation expense in the statement of activities.

The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. Direct expenses are those that are clearly identifiable with a specific activity or program. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given activity

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

or program, and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular activity or program. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Fund financial statements display the financial transactions and accounts of the City based on funds. The operation of each fund is considered to be an independent accounting entity. The fund financial statements also include a reconciliation to the government-wide statement.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial treatment applied to a fund is determined by its measurement focus. The government-wide financial statements, proprietary fund financial statements, and the fiduciary fund financial statements are all reported using the *economic resources measurement focus* and the accrual basis of accounting. Under this focus and basis, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the cash is received or expended.

Property tax, sales tax, franchise tax, intergovernmental revenue, and investment earnings are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available when cash is received.

All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. The City considers revenues to be available if they are collected within 60 days of the end of the current fiscal year; taxpayer assessed income and sales taxes are considered "measurable" when received by intermediary collecting governments and are recognized as revenue at that time. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, if measurable, except for principal and interest payments on general long-term debt, which are recognized when due.

Major Governmental Funds

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Capital Projects Fund accounts for financial resources to be used for the acquisition of major capital facilities (other than those financed by proprietary funds).

The Amphitheater Fund is a special revenue fund which is used to account for revenues generated from and expenditures related to the operation of the Amphitheater.

Non-Major Governmental Fund Types

In addition to the major funds listed above, the City reports on the non-major governmental funds:

The Drug Seizure Fund is a special revenue fund which is used to account for revenues generated from sources such as grants, contributions and drug forfeitures. This fund expends those revenues for drug trafficking prevention.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

The Infrastructure Fund accounts for financial resources provided by the State of Mississippi through the Infrastructure Modernization Act.

Major Proprietary Fund

The Water and Sewer Fund and the Sanitation Fund are used to account for the operations of the City's water and wastewater systems and waste disposal respectively, (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Fund and the Sanitation Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fund Balance

Governmental fund balance is reported in five separate categories: Nonspendable, restricted, committed, assigned, and unassigned. When both restricted and unrestricted fund balance is available for use, it is the City's policy to use restricted fund balance first. When expenditures qualify for more than one unrestricted fund balance classification, it is the City's policy to use resources in the following order: Committed, assigned, and then unassigned.

Nonspendable fund balance - amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance - amounts constrained to specific purposes by the City itself, using its highest level of decision-making authority, the Board of Alderman. To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the City intends to use for a specific purpose. Intent can be expressed by the Board of Alderman or by an official to which the Board delegates this responsibility.

Unassigned fund balance - amounts that are available for any purpose.

Cash and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

For purposes of the Statement of Cash Flows, the Proprietary Funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

be cash equivalents.

Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Interfund loans or transactions between funds that are representative of lending/borrowing arrangements are reported as “advances from and to other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

Interfund receivables and payables between funds are eliminated in the government-wide financial statements on the Statement of Net Position.

Receivables are shown net of an allowance for doubtful accounts. The allowance for doubtful accounts is estimated based on professional judgment and historical information.

Property Tax

As of January 1 of each calendar year, property taxes attach as an enforceable lien on property. Taxes are levied as of January 1 and are payable on or before February 1. All property taxes are collected and remitted to the city by the county tax collector. The millage rate for the city for January through December 31, 2021, was 33 mills. Of that amount, 20 mills were for general fund and 13 mills for the debt service fund. The taxes were distributed to funds in accordance with prescribed tax levies. Remaining uncollected taxes were not accrued. An annual tax sale is held for uncollected taxes.

Inventory

No inventories are maintained in the General Fund. Supplies are recorded as expenditures when purchased. Inventories in the Proprietary Fund consist of supplies, which are recorded at cost (calculated on the first-in, first-out basis).

Restricted Assets

Certain resources of the City are classified as restricted assets on the balance sheet. These funds are maintained in separate accounts and their use is limited by applicable law, bond covenants or agreement.

Capital Assets

Capital assets purchased or acquired are carried at historical cost or estimated historical cost. Contributed assets are recorded at fair market value as of the date received. The City defines capital assets as assets with an estimated useful life in excess of two years and an initial cost of more than \$5,000. The cost of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight line method over the following useful lives:

Buildings	40 years
Building improvements	10-40 years
Computer Equipment and Peripherals	3 years
Heavy Equipment	10 years
Furniture and Fixtures	7 years
Improvements other than Buildings	10-20 years
Infrastructure	20-50 years
Vehicles and Equipment	5 years

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

Compensated Absences

The City records the vested portion of accumulated unused compensated absences at year-end based on each employee's accumulated unused hours and rate of pay. All compensated absences are accrued when incurred in the governmental-wide and proprietary fund financial statements. Compensated absences expected to be liquidated with expendable available financial resources are reported as expenditures and fund liabilities of the governmental fund that will make the payments.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Long-term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Bond Discounts, Premiums and Issuance Costs

In the fund financial statements, bond premiums, discounts and issuance costs are recognized as revenues/expenditures in the period incurred. In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds payable using the straight-line method. Bond premiums and discounts are presented as additions/reductions to the face amount of the bonds payable. Bond issuance costs are recognized as an expense in the period incurred.

Pensions

Financial reporting information pertaining to the City's participation in the Public Employees' Retirement System of Mississippi ("PERS") is prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 68, Accounting and Financial Reporting for Pensions, as amended by GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date.

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of PERS have been determined on the same basis as they are reported by PERS. The financial statements were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing PERS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis. The fiduciary net position is reflected in the measurement of the City's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comparative Data

Comparative total data for the prior year have been presented in the supplemental comparison schedules in order to provide an understanding of changes in the respective funds' financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make statements unduly complex and difficult to understand.

Reclassifications

Certain amounts have been reclassified in the comparison schedules of revenues, expenditures, and changes in fund balance for comparative purposes to conform with the presentation in the current-year financial statements.

(2) Budget and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to September 1, the Mayor submits to the Board of Aldermen a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- During September, the budget must be published in a newspaper published in the city (or the county if none is published by the city).
- Prior to the adoption of the budget, at least one public hearing is held by the Board of Aldermen to provide the general public with an opportunity to comment on the taxing and spending plan incorporated in the proposed budget. The public hearing must be held at least one week prior to the adoption of the budget with advance notice and held outside normal working hours.
- Prior to September 15, the budget is legally enacted through passage of an ordinance.
- Routine budget revisions may be made by the Board as often as necessary. However, when a department's total budget has been revised up or down by ten percent (10%) or more, public notice must be given of the change. Also, during the first three months of office, while operating under the prior Board's budget, the new Board is limited to one revision if a deficit is evident.
- It is the City's policy for the Board to approve all budget transfers between departments and/or funds.
- Formal budgetary integration is employed as a management control device during the year for the various funds. Budgeting data presented is as originally adopted or amended by the Board of Aldermen.
- Budgets for the various funds are not adopted on a basis consistent with generally accepted accounting principles (GAAP) but rather on a modified cash basis as required by State statutes.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

(3) Deposits and Investments

Mississippi Code Section 21-33-323 allows municipalities to maintain deposits in banks and savings and loan associations insured by the Federal Deposit Insurance Corporation. Municipalities may also invest in obligations of the United States of America or the State of Mississippi, or of any county, school district or municipal bonds that have been approved by a reputable bond attorney or have been validated by decree of the chancery court, or in obligations issued or guaranteed in full as to principal and interest by the United States of America which are subject to a repurchase agreement with a qualified depository.

Custodial Credit Risk

State statute requires that all deposits in financial institutions be collateralized in an amount at least equal to 105% of the amount not insured by the Federal Deposit Insurance Corporation (FDIC). The City participates in the State Treasurer's collateral pool. The City's deposits were fully insured or collateralized with securities held by this pool at September 30, 2021.

At September 30, 2021, the carrying amount of the City's deposits was \$20,596,868 and the bank balance was \$20,826,416.

(4) Receivables

Receivables of the proprietary funds are recorded net of uncollectible amounts.

Allowances for doubtful accounts are as follows:

Allowances related to Water and Sewer Fund receivables	\$ 757,500
Allowances related to Sanitation Fund receivables	<u>67,500</u>
Total	<u>\$ 825,000</u>

(5) Interfund Advances and Transfers

1. Individual fund interfund receivable and payable balances at September 30, 2021 were:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General Fund	Water & Sewer Fund	\$ <u>14,998</u>
Net Internal Balances		\$ <u><u>14,998</u></u>

Due from and due to balances result from interfund loans and are recorded as current assets and liabilities in the financial statements. The difference between the fund statement balances for due from/due to balances and the internal balances on the government-wide statements consolidates the amount due from the Sanitation Fund to the General Fund with the amount due from the General Fund to the Water and Sewer Fund.

2. Interfund transfers between the Capital Projects Fund, the Water and Sewer Fund and the Sanitation Fund reflect the transfer of assets and accumulated depreciation between the funds. Interfund transfers from the General Fund to the Debt Service Fund were made for the payment of debt service.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

General Obligation Bonds

General obligation bonds are directed unlimited obligations issued on a pledge of the general taxing power for the payment of the debt obligations of the City.

Special Obligation Bonds

Special obligation bonds issued under Mississippi Code Section 31-25-28, the Mississippi Development Bank Act (Bank Act) do not constitute a general obligation of the City. Neither the full faith and credit nor the taxing power of the City has been pledged for the repayment of these bonds. Payments are to be paid from the City revenues. In addition, the Bank Act provides for the intercept of monies owed to the City and held by the Mississippi Department of Revenue or other agencies of the State if the City is deficient in its payments due under the note.

Bonds payable at September 30, 2021, are comprised of the following:

<u>General Obligation Bonds</u>	<u>Governmental Activities</u>	<u>Business- type</u>
\$2,355,000 2015 Refunding Bonds due in annual installments ranging from \$20,000 to \$760,000 for 9 years through September 2024, with interest ranging from 2.0% to 3.0%.	1,230,000	-
\$13,680,000 2014 Public Improvement Bonds due in annual installments ranging from \$270,000 to \$1,130,000 for 18 years through November 2034, with interest ranging from 2.0% to 5.0%.	7,995,000	-
\$5,255,000 2020 Refunding Bonds due in annual installments ranging from \$193,616 to \$1,069,805 for 15 years through September 2035, with interest of 1.85%.	5,113,000	
\$6,000,000 2016 Special Obligation Bonds, Series A (General Obligation Bond), due in annual installments ranging from \$0 to \$900,000 for 15 years through 2031, with interest ranging from 3.0% to 4.0%.	6,000,000	-
\$4,000,000 2020 General Obligation Bonds due in annual installments ranging from \$750,000 to \$850,000 for five years through 2025, with interest ranging from 1.10% to 1.25%.	3,250,000	
Total General Obligation Bonds	23,588,000	-
\$14,000,000 2016 Special Obligation Bonds, Series B, due in annual installments ranging from \$130,000 to \$6,200,000 for 30 years through 2046, with interest ranging from 3.0% to 4.0%.	13,360,000	-

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

\$2,000,000 Water and Sewer Revenue Bonds Sr 2017, due in semi-annual installments ranging from \$105,000 to \$170,000 for 15 years through 2033, with interest ranging from 1.9% to 2.7%. - 1,675,000

\$6,000,000 2018 Special Obligation Bonds due in annual installments ranging from \$225,000 to \$400,000 for 20 years through 2038, with interest ranging from 2% to 4%.

Total before premiums/(discounts), net	42,258,000	1,675,000
Premiums/(discounts), net	1,995,286	-
Total Bonds Payable	\$ 44,253,286	\$ 1,675,000

Advance Refunding

On October 15, 2020, the City issued \$5,255,000 in general obligation refunding bonds with an interest rate of 1.85% to advance refund \$4,225,000 of 2014 series general obligation bonds.

The net proceeds of \$5,066,000, after payment of \$188,811 in issuance costs, was used to purchase state and local government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the bonds. As a result, those bonds are considered defeased, and the liability for those bonds was removed from the Statement of Net Position.

The refunding of these bonds resulted in an economic gain of \$338,591 for the City. The economic gain results from the net present value difference between the new and the old debt service requirements.

Limitation of Indebtedness

Mississippi Code Section 21-33-303 prohibits any municipality from issuing bonds secured by a pledge of its full faith and credit for the purposes authorized by law in an amount which, when added to the then outstanding bonded indebtedness of such municipality shall exceed fifteen percent (15%) of the assessed value of the taxable property within such municipality, according to the last completed assessment for taxation.

In computing such indebtedness, there may be deducted all bonds or other evidence of indebtedness, heretofore or hereafter issued, for school, water, sewer systems, gas and light and power purposes and for the construction of special improvements primarily chargeable to the property benefited, or for the purpose of paying the municipality's proportion of any betterment program, a portion of which is primarily chargeable to the property benefited. However, in no case shall any municipality contract any indebtedness which, when added to all of the outstanding general obligation indebtedness, both bonded and floating, shall exceed twenty percent (20%) of the assessed value of all taxable property within such municipality according to the last completed assessment for taxation.

Any loan made pursuant to the provisions of Mississippi Code Section 31-25-28 shall not constitute an indebtedness of the local governmental unit within the meaning of any constitutional or statutory limitation or restriction.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

The following is a schedule of limitations on the indebtedness of the City as of September 30, 2021:

Authorized Debt Limit:	15 Percent	20 Percent
Assessed valuation for the fiscal year ended September 30, 2021 - \$ 247,550,645	\$ 37,132,597	\$ 49,510,129
Total long-term debt - governmental activities	42,619,989	42,619,989
Less amounts not subject to statutory limitation	(19,031,989)	(19,028,087)
Present debt subject to debt limitation	23,588,000	23,591,902
Margin for further general indebtedness	\$ 13,544,597	\$ 25,918,227

(8) Fund Balances and Restricted Net Position

In 2013, legislation was passed providing for a 2% sales tax of restaurant and bar food and beverage sales to be used by the City to fund the promotion of tourism, parks and recreation, which is set to be repealed after July 1, 2027. At September 30, 2021, the government-wide statement of net position reports \$14,437,318 of restricted net position, of which \$2,262,351 is restricted by this enabling legislation.

(9) Defined Benefit Pension Plan

Plan Description

The City contributes to the Public Employees' Retirement System of Mississippi ("PERS"). PERS was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in PERS, and elected members of the State Legislature and the President of the Senate. PERS administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*.

For the cost-sharing plan participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.50% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

Contributions

The contributions requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. PERS members are required to contribute 9% of their annual covered compensation and employers are required to contribute at an actuarially determined rate. The contributions are deducted from the employee's wages or salary and remitted by the City to PERS. The employer's contractually required contribution rate for the year ended September 30, 2021 was 17.4% of annual covered payroll, and when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City's contributions to PERS for the years ended September 30, 2021, 2020, and 2019 was \$1,246,566, \$1,250,773, and \$1,110,145, respectively, which was 100% of the required contribution for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2021, the City reported a liability of \$16,194,334 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2021, the City's proportion was 0.109566 percent, which was an increase of .0020246 percent from its proportion measured as of June 30, 2020.

Changes in net pension liability are recognized in pension expense with the following exceptions:

Differences Between Expected and Actual Experience.

Differences between actual and expected experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over the average of the expected remaining service lives of active and inactive members. For 2021, this was 3.88 years, which was an increase of .22 years from the prior year average of 3.66.

Changes in Assumptions.

2021

- The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:
 - For males, 95% of male rates up to age 60, 110% for ages 61 to 75, and 101% for ages above 77.
 - For females, 84% of female rates up to age 72, 100% for ages above 76.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubG.H-2010 Disabled Table for disabled retirees with the following adjustments:

For males, 134% of male rates at all ages.

For females, 121% of female rates at all ages.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of contingent annuitant mortality was based on the PubS.H-2010(B) Contingent Annuitant Table with the following adjustments:

For males, 97% of male rates at all ages.

For females, 110% of female rates at all ages.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 2.75% to 2.40%.

The wage inflation assumption was reduced from 3.00% to 2.65%.

The investment rate of return assumption was changed from 7.75% to 7.55%.

The assumed load for administrative expenses was increased from 0.25% to 0.28% of payroll.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 9% to 12%.

The percentage of active member deaths assumed to be in the line of duty was decrease from 6% to 4%.

2019

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:

For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119.

For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119.

Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments:

For males, 137% of male rates at all ages.

For females, 115% of female rates at all ages.

Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 3.00% to 2.75%.

The wage inflation assumption was reduced from 3.25% to 3.00%.

Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

2017

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

The wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

2016

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

2015

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP- 2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

Changes in benefit provisions

2016

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

For the year ended September 30, 2021, the City recognized pension expense of \$7,173,254, which included net amortization of deferred outflows and deferred inflows. Of this amount, \$6,068,572 was allocated to governmental activities and \$1,104,682 was allocated to business-type activities.

At September 30, 2021, the City reported \$2,862,856 in deferred outflows of resources and \$8,650,811 in deferred inflows of resources related to pensions from the following sources:

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 258,947	\$ 5,895,285
Net difference between projected and actual earnings on pension plan investments	1,018,242	-
Change of assumptions	1,246,146	-
City contributions subsequent to the measurement date	339,521	-
Differences between City contributions and proportionate share of contributions	-	2,755,526
Total	\$ 2,862,856	\$ 8,650,811

The \$2,862,856 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date and the net difference between expected and actual plan experience and changes in assumptions will be recognized as a reduction of the net pension liability in the year ending September 30, 2021. The \$8,650,811 of deferred inflows resulting from the City's difference between expected and actual plan experience and differences between city contributions and proportionate share of contributions will be recognized as an increase in the net pension liability in the year ending September 30, 2021. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense in future years.

Actuarial Assumptions

The total pension liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.75-19% average, including inflation
Investment rate of return	7.75% net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, with male's rates set forward one year.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2012–June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2021 are summarized in the following table:

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
U.S. Broad	27%	4.60%
International equity	22%	4.50%
Global	12%	4.80%
Fixed Income	20%	-25.00%
Real Estate	10%	3.75%
Private equity	8%	6.00%
Cash	1%	-1.00%
Total	100%	

Discount Rate

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9%) and that employer contributions will be made at the current employer contribution rate (17.4%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	Discount Rate		
	1% Decrease 6.75 %	Current 7.75 %	1% Increase 8.75 %
City's proportional share of the net pension liability	\$ 22,934,973	\$ 16,194,334	\$ 10,639,511

Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued Public Employees' Retirement System of Mississippi financial report. That information may be obtained by going to the PERS website, by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

(10) Commitments and contingencies

Operating Leases

The City has entered into several operating lease agreements in the conduct of its day-to-day operations to provide for facilities and/or services. None of these operating leases are considered to be significant commitments. The City has also entered into 3 Sixteenth Section land leases with the Rankin County School District as detailed below:

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

1. Old Brandon Memorial Cemetery – 40 years at \$1,000 per year due each January through 2034.
2. Water tower on Highway 471 – 7 years at \$2,000 per year due each July.
3. Lights of Liberty Cemetery – 25 years at \$200 per year due each July through 2040.

Contingent Liabilities

The City participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the City's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Various claims and lawsuits are pending against the City. In the opinion of City management, after consultation with legal counsel, there are no material unfavorable dispositions anticipated against the City.

Construction and Other Significant Commitments

The remaining payments of construction contracts relating to construction or major repairs in progress aggregated approximately \$5,023,672. These contracts will be paid in future periods as work is performed. Payment will be made with proceeds remaining from past bond issues, operating revenues, Federal grants and restaurant sales tax receipts to be received.

The City has executed Development and Reimbursement Agreements with developers related to future Tax Increment Financing (TIF) for the ongoing Crossgates Crossing and Grants Ferry Parkway projects. The amount the financed will be determined when the projects are completed. The TIF debt will be paid from future revenues generated in the respective project areas. Crossgates Crossing TIF debt will be paid from future ad valorem receipts. Grants Ferry Parkway TIF debt will be paid with a combination of future ad valorem revenue and sales tax revenue (50%).

The City has approved tax abatements for which the amounts have not yet been established. The abatement of property taxes will be determined based on the difference in unimproved and improved property values upon completion of ongoing construction projects in the Downtown Historic District.

(11) Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the City carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Participation in Public Entity Risk Pool

The City is a member of the Mississippi Municipal Workers' Compensation Group (MMWCG) and the Mississippi Municipal Liability Plan (MMLP), both of which are administered by Municipal Services, Inc. Both groups are risk-sharing pools; such a pool is frequently referred to as a self-insurance pool.

MMWCG covers risks of loss arising from injuries to the city's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member.

Each member of the MMWCG contributes quarterly to a fund held in trust. The funds in the trust

CITY OF BRANDON
NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2021

account are used to pay any employee claim. If total claims during a year were to deplete the trust account, then the pool members would be required to pay for the deficiencies. The City has not had an additional assessment for excess losses incurred by the pool.

MMLP covers the risk of loss related to torts and other liability claims. The general policy limit is \$500,000 per occurrence, but the policy also tracks the Mississippi tort claims law for municipalities which limits the City's liability to \$250,000 per occurrence. The policy also covers up to \$1,000,000 in federal claims. As with the MMWCG, pool members would be required to pay for the deficiency should total claims for the year exceed member contributions. The City has received no assessments for excess losses incurred by the pool.

Group Health Insurance

Fox Everett Insurance Company is the claims administrator for the City's health plan. The City self-funds the health plan, but purchases specific stop loss coverage. The specific stop loss insurance assumes the risk for claims on any individual in excess of \$60,000 paid during a calendar year. There was no change in the level of this coverage during the fiscal year.

(12) Subsequent Events

The City evaluated subsequent events through April 29, 2022, the date which the financial statements were available to be issued, noting the following subsequent events to be disclosed.

CITY OF BRANDON
BUDGETARY COMPARISON SCHEDULE

The notes to the required supplementary information are an integral part of this schedule.

* The amounts presented for each fiscal year were determined as of the measurement date of 6/30 of the year prior to the fiscal year presented.

CITY OF BRANDON
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended September 30, 2021

Budgetary Comparison Schedule

Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

Pension Schedules

Measurement Date

The amounts presented for each fiscal year were determined as of the measurement date of June 30 of the year prior to the fiscal year presented.

Data Available and Presented

The required supplementary schedules are presented to illustrate the requirement to show information for 10 years, as required by GASB 68. GASB 68 was implemented during the fiscal year ended September 30, 2015 and only reflects data for years for which trend information is available.

Change of Benefit Terms

There were no changes in benefit terms during the year ended September 30, 2020.

Change of Assumptions

2021

The expectation of retired life mortality was changed to the PubS H-2010(B) Retiree Table with the following adjustments:

For males, 95% of male rates up to age 60, 110% for ages 61 to 75, and 101% for ages above 77.

For females, 84% of female rates up to age 72, 100% for ages above 76.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubG.H-2010 Disabled Table for disabled retirees with the following adjustments:

For males, 134% of male rates at all ages.

For females, 121% of female rates at all ages.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of contingent annuitant mortality was based on the PubS.H- 2010(B) Contingent Annuitant Table with the following adjustments:

For males, 97% of male rates at all ages.

For females, 110% of female rates at all ages.

Projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 2.75% to 2.40%.

The wage inflation assumption was reduced from 3.00% to 2.65%.

The investment rate of return assumption was changed from 7.75% to 7.55%.

The assumed load for administrative expenses was increased from 0.25% to 0.28% of payroll.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 9% to 12%.

The percentage of active member deaths assumed to be in the line of duty was decrease from 6% to 4%.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Honorable Mayor and Members of the Board of Aldermen
Brandon, Mississippi

We have audited the basic financial statements of the City of Brandon, Mississippi as of and for the year ended September 30, 2021, and have issued our report dated April 29, 2022. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed no instances of noncompliance with state laws and regulations.

This report is intended for the information of the City of Brandon's management and the Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and Members of the Board of Aldermen
City of Brandon, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Brandon, Mississippi, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Brandon, Mississippi's basic financial statements, and have issued our report thereon dated April 29, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Brandon, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Brandon, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Brandon, Mississippi's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The CPA. Never Underestimate The Value.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Brandon, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
