

OFFICE OF THE STATE AUDITOR REPORT NOTE:

Section 7-7-211, Mississippi Code Annotated (1972) gives the Office of the State Auditor the authority to audit, with the exception of municipalities, any governmental entity in the state. In the case of municipalities, *Section 21-35-31, Mississippi Code Annotated (1972)* requires municipalities to obtain an annual audit performed by a private CPA firm and submit that audit report to the Office of the State Auditor. The Office of the State Auditor files these audit reports for review in case questions arise related to the municipality.

As a result, the following document was not prepared by the Office of the State Auditor. Instead, it was prepared by a private CPA firm and submitted to the Office of the State Auditor. The document was placed on this web page as it was submitted and no review of the report was performed by the Office of the State Auditor prior to finalization of the report. The Office of the State Auditor assumes no responsibility for its content or for any errors located in the document. Any questions of accuracy or authenticity concerning this document should be submitted to the CPA firm that prepared the document. The name and address of the CPA firm appears in the document.

INDEPENDENT AUDITORS' REPORT

To the City of Hollandale
City of Hollandale, Mississippi

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Hollandale, Mississippi as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities,

JONES &
TUGGLE

the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hollandale, Mississippi, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3–6 and 35–36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Hollandale, Mississippi basic financial statements. The combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

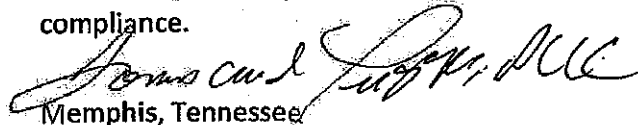

In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2022, on our consideration of the City of City of Hollandale, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations,

contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Hollandale, Mississippi's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Hollandale, Mississippi's internal control over financial reporting and compliance.

Memphis, Tennessee
June 24, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Hollandale financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2021. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the basic financial statements to enhance their understanding of the City's financial performances.

FINANCIAL HIGHLIGHTS

- . The City's net assets Increased by \$176,355
- . Total General Revenues were \$1,550,132
- . Total Business-type revenues (sales of water and sewer) \$566,100
- . Expenses for the City were \$2,113,776

OVERVIEW OF FINANCIAL STATEMENT

These statements consist of two types of financial statements:

Government-wide financial statements – These financial statements are designed to provide the reader with an overview of the City's finances, similar to what you would find in a private business. The statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The state of new assets presents information on all the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as revenues are received or expenditures are made; therefore, some of the expenses reported might reflect payments we have made during this fiscal year related to projects or activities from a prior fiscal year. Likewise, some of the revenues reported may reflect funding we have secured for activities or projects that we are contemplating for the future.

Governmental Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over monies that have been earmarked for specific activities of projects. The financial statements do not include any of the "business" type funds, which are our water and sewer fund. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. We currently have the General Fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS – CONTINUED (2)

GOVERNMENT WIDE FINANCIAL ANALYSIS

The largest portion of the City's net assets can be found in fixed assets and investments less any encumbrance. The City uses these capital assets to provide services; therefore, these assets may not be available for future spending.

Below are a summary and a prior year comparison of the City's net assets:

	FYE 09/30/2021	FYE 09/30/2020
<i>Assets</i>		
Current assets	\$ 1,132,141	\$ 1,072,253

Total Expenses	2,635,677	2,706,119

The City of Hollandale had a reasonable financial year for the period ending September 30, 2021. A city's function is not to produce a profit, but we must maintain a level of revenues in excess of expenditures in order to maintain the overall financial health and viability of the City.

MANAGEMENT'S DISCUSSION AND ANALYSIS – continued (3)

The City of Hollandale had a reasonable financial year for the period ending September 30, 2021. A city's function is not to produce a profit, but we must maintain a level of revenues in excess of expenditures in order to maintain the overall financial health and sustainability of the City.

We rely upon our citizens, first for shopping in the City of Hollandale because a percentage of our revenues come from sales taxes and secondly, we rely on the businesses and taxpayers for the prompt payments of property, vehicle ad valorem, personal and utility taxes. As with the prior year, we have seen a decrease in sales tax due to the economy. Expenses increased due to fuel cost and other economic difficulties.

ANALYSIS OF FINANCIAL POSITION AND RESULTS OF OPERATIONS

The millage rate is at 76.00 mills for this fiscal year. Budget restraints will remain in place indefinitely. Upon reviewing the income and expenditures for the prior year, the Board of Aldermen decided to increase the present millage rate. Hollandale participated in or applied for several grant programs. The sustainability of our community relies heavily upon our taxpayers and funding from other sources.

1. The City of Hollandale was awarded a total of \$566,427.8 in ARPA funds for water, sewer, and broadband infrastructure. In 2021, the City received \$283,213.64 of the funds allocated.
2. The City of Hollandale received \$82,270.92 from the Mississippi Infrastructure Modernization Act of 2018 to assist in repair, maintenance and /or reconstruction of streets as well as repair, maintenance and/or improvements to water and sewer infrastructure. The City proposes to overlay Johnson, Truman, and Roosevelt streets.
3. In April of 2017, the City of Hollandale was awarded a Transportation Alternative Award. It is anticipated that approximately \$90,000 in federal funds (80% federal funds and 20% local match) are available for the construction of the project. The City proposes to install approximately 1,300 feet of sidewalk along West Avenue between Mill Street and South McKinley Avenue. The funds were obligated before the deadline date of June 30, 2021. The engineers are in the first phase to move this project forward.

BUDGETARY HIGHLIGHTS

The City's fiscal operating budget for the General Fund and Water and Sewer Fund are presented and adopted by the Board of Aldermen prior to September 15 of each year for the upcoming fiscal year of October 1 to September 30. The City endeavors to determine accurate projections for revenues and expenses based on historical data and a reasonable forecast for the upcoming 12-month period. Due to unforeseen events throughout the year, occasionally it is necessary for the City to amend its budget from time to time during the fiscal year. For FY 2021, there were no substantial adjustments required, therefore no revisions were necessary.

MANAGEMENT'S DISCUSSION AND ANALYSIS – continued (4)

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS:

Currently, there are no pending litigations for the City of Hollandale for this fiscal year.

CONTACT:

If you have any questions concerning this report, please contact the Mayor's Office, City of Hollandale, and P. O. Box 395, Hollandale, MS 38748. Telephone: 662-827-2241 or email: mayormorrow@bbimail.net

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF
ACTIVITIES**

For the Year Ended September 30, 2021

Net Change in Fund Balance - Total Governmental Funds	\$ 20,677
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlays as expenses. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.	(127,437)
Different between pension cost actuarially detrminte and the amount of contribution paid.	(273,637)
Capital expenditures used in governmental activities are not financial uses and therefore are not reported in the funds.	<u>456,884</u>
Change in Net Position of Governmental Activities	<u>\$ 76,487</u>

See Independent Auditors' Report and Notes to the Financial Statements.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021

REPORTING ENTITY

The City of Hollandale operates under an alderman—mayor form of government. The accounting policies of the City of Hollandale conform to generally accepted accounting principles as applicable to governments except as discussed in Note 6. The following is a summary of the more significant policies:

Note 1 - Summary of Significant Accounting Policies

Basis of Account/Measurement Focus

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that are comprised its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenue, and expenditures or expensed, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

A. Government-Wide Financial Statements

The Town's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the Town accompanied by a total column. The Town has no Fiduciary activities.

These statements are presented on a "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenue for the Tow are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the government activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

NOTES TO THE FINANCIAL STATEMENTS**For the Year Ended September 30, 2021****(Continued)****Note 1 - Summary of Significant Accounting Policies (Continued)****B. Government Fund Accounting**

Government Fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The City has presented all major funds that met those qualifications.

All government funds are accounted for on a spending, or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. (The Town's deferred outflows of resources and deferred inflows of resources are noncurrent.) The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to the finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenue subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the Town, are property tax, sales tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The government reports the following major government funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The solid waste fund accounts for the Town's trash collection and deposits.

C. Proprietary Fund Financial Statements

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and for the non-major aggregated. A column representing internal service funds is also presented in these statements. However, internal service funds balances and activities have been combined with the governmental activities in the Government-Wide financial statements.

NOTES TO THE FINANCIAL STATEMENTS**For the Year Ended September 30, 2021****(Continued)****Note 1 - Summary of Significant Accounting Policies (Continued)****C. Proprietary Fund Financial Statements (Continued)**

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues in the proprietary fund are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operation expenses.

When both restricted and unrestricted funds are available for use, it is the Town's policy to use restricted resources first and then unrestricted resources as necessary.

The government reports the following major proprietary funds:

The water and sewer funds operate the water and sewage distribution system. The gas fund operates the gas distribution system.

D. Assets, Liability, and Net Assets or Equity**Deposit and Investments**

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorized the City to invest in certificate of deposit, obligations of the U. S. Treasury, agencies, instrumentalities and obligations guaranteed as to principal and interest by the United States or any of its agencies, repurchase agreements, and the Mississippi local government investment pool.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current

NOTES TO THE FINANCIAL STATEMENTS*For the Year Ended September 30, 2021**(Continued)**Note 1 - Summary of Significant Accounting Policies (Continued)**D. Assets, Liability, and Net Assets or Equity (Continued)*

portion of interfund loans) or "advances to/from other funds)" (i.e. non-current portion of interfund loans). Receivables and payables classified as "due from related organizations" and "due to related organizations" are made up of transactions between individual funds of the City of Hollandale.

Trade receivables listed on the utilities' balance sheet result from unpaid billing for services to customers, approximately one month's billing.

Property taxes are levied annually on October 1. Taxes are due and payable from the following February 1 through March 31 in the year succeeding the tax levy. An unperfected lien attaches by statute to property on March 15 and unpaid taxes for the prior year's levy. Taxes uncollected for one year past due are submitted to the Chancery Court for collections. Tax liens become perfected at the time the court enters judgement.

The millage rate for the year was 76.00 mills, allocated as follows:

General Fund	87.50 mills
Fire Department Fund	<u>3.50</u> mills
TOTAL	<u>91.00</u> mills

Inventories

Government fund inventories of gasoline and diesel and stated at cost, using the first-in/first-out method (FIFO).

Restricted Assets

One saving account in the general fund and three in the water fund are reported as restricted assets, on the balance sheet.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items). Are reported in the applicable government or business-type activities columns in the government-wide financial statements. Capital assets are defined in the governmental funds as assets with an initial, individual cost or more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 1 - Summary of Significant Accounting Policies (Continued)

D. Assets, Liability, and Net Assets or Equity (Continued)

Capital Assets (Continued)

estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The proprietary funds define capital assets, which include property, plant, equipment, and construction in progress, as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Assets acquired through contributions from developers or other customers are capitalized at their estimated fair market value at the date of donation. The Town of Henning elected not to report major general infrastructure assets retroactively.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlay for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the following straight-line method over the following estimated useful life:

Fixed Assets and Long-Term Liabilities (Continued) -

Infrastructure	50 years
Building	40 years
Distribution Systems	25 years
Improvements	20 years
Heavy Equipment	10 years
Other Equipment	5 years
Vehicles	5 years

Long-term liabilities of the Governmental and Proprietary Funds are accounted for in the funds themselves. Additional information concerning fixed assets and long-term liabilities are provided in Notes 2 and 3.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the

NOTES TO THE FINANCIAL STATEMENTS*For the Year Ended September 30, 2021**(Continued)**Note 1 - Summary of Significant Accounting Policies (Continued)**D. Assets, Liability, and Net Assets or Equity (Continued)**Long-term Obligations (Continued)*

applicable governmental activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance cost, are deferred and amortized over the life of the bonds using the effective interest method. Bond payable are reported net of the applicable bond premium or discount. Bond issue costs are reported as deferred charges and amortized over the term of the related debt

Net Position/Fund Equity

In the proprietary funds, equity is classified as net position and displayed in the following three components:

- Invested in capital assets, net o related debt – consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds that are attributable to the acquisition, construction, or improvement of those assets, debt related to unspent proceeds or other restricted cash and investments is excluded from the determination
- Restricted for debt services – consists of net assets for which constraints are placed thereon by external parties such as lenders, grantors, contributor, laws, regulations and enabling legislation including self-imposed legal mandates less any related liabilities.
- Unrestricted – All other net assets that do not meet the description of the above categories.

In the fund financial statements, the government has not implemented policies and procedures for the governmental fund balance using committed and assigned fund balances.

NOTE 2 – STEWARDWHIP, COMPLIANCE AND ACCOUNTABILITY**A. Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds and special revenue funds. All annual appropriations lapse at fiscal year-end. The appropriated budget is prepared by fund, function, and department. Transfers of appropriations require the approval of the Town board. The legal level of budgetary control (i.e., the level at which expenditure may not legally exceed appropriations) is the department level. As an extension of the budgetary process, the Board may transfer or appropriate additional funds

NOTES TO THE FINANCIAL STATEMENTS**For the Year Ended September 30, 2021****(Continued)**

for expenditures not anticipated at the time of the budget adoption. The Board amended the budget at the end of the fiscal year.

NOTE 3 – MEASUREMENT FOCUS, BASIS OF ACCOUNTING, FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available as net current assets. "Measurable" means that amounts can be reasonably determined within the current period. "Available" means collectible within the current period or soon enough thereafter (60 days) to be used to pay liabilities of the current period. Major revenues susceptible to accrual include sales tax and property taxes levied and due in the current year even though a portion of the taxes may be collected in the subsequent year. Penalty on sales taxes and interest on delinquent taxes are considered measurable when paid and are recognized as revenue at that time. Intergovernmental revenues received as reimbursement for specific purposes or projects are recognized in the period the expenditures are incurred. Intergovernmental revenue received but not yet earned.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued) - is recorded as deferred revenue. Property and sales taxes received prior to the time they are due are also recorded as deferred revenue. In subsequent periods, when the City has legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Revenue from land sale contracts receivable is deferred until the receivables are collected. Expenditures are recorded when the fund liability is incurred. The exception to this general rule is principal and interest on general long-term debt which is recognized when due.

NOTE 4 – ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS**For the Year Ended September 30, 2021****(Continued)****NOTE 5 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the statement of net position will sometime report a separate section for deferred outflows or resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town had no items reported in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The Town has one item that qualify for reporting in this category deferred inflows related to unearned property taxes.

NOTE 6 – BUDGET PROCESS

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

A. Prior to August 1st, the City Clerk and Chief Administrative Officer submits to the Mayor and Aldermen a proposed operating budget for the fiscal year commencing the following October 1st. The operating budget includes proposed expenditures and the means of financing them.

B. Public notice is given of the City's budget meetings being open to the public, so that public hearings are conducted at City Hall to obtain taxpayer comments.

C. Prior to September 15th, the budget is legally enacted through adoption by the Mayor and City Aldermen.

D. The budget is formally revised during the year and properly amended by the Mayor and City Aldermen.

E. Budgetary comparisons are employed by management as a management control device during the year for all funds.

F. Appropriations lapse at the end of each fiscal year.

Mississippi laws require that municipalities budget revenue and expenditures on a modified-cash basis. Claims that have been incurred prior to the end of the year and that are paid within 30 days under the accrual basis. Prior year claims that are paid after 30 days revert to the cash basis. All revenue is accounted for under the cash basis. The required budgetary basis is therefore not considered a generally accepted accounting principal. Governmental accounting requires that the "budget to actual" statements be prepared according to budgetary laws and the statement of revenues, expenditures, and fund balance be prepared according to the modified-accrual basis (GAAP). The major reconciling items between the budgetary and GAAP presentations are presented on the "budget to actual" statements

Balance at 9/30/20	<u>\$ 144,341</u>

NOTE 9 – DEFINED PENSION PLAN

(1) Plan Description

The Public Employees' Retirement System of Mississippi (PERS or the System) was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in the System, and elected members of the State Legislature and the President of the Senate. The System administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*.

For the cost-sharing plan participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.50% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

A cost-of-living adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 9 - Defined Pension Plan (Continued)

members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann § 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. The PERS plan financial report is included in the Comprehensive Annual Financial Report of the Public Employees' Retirement System available at www.PERS.ms.gov.

(2) Basis of Presentation

The Schedule of Employer Allocations and Schedule of Collective Pension Amounts (the Schedules) present amounts that are elements of the financial statements of the System or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the System or its participating employers. The Schedules are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. Such preparation requires management to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ.

(3) Employer Allocations

GASB Statement No.68, *Accounting and Financial Reporting for Pensions*, requires participating employers to recognize their proportionate share of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense. These Schedules are prepared to provide employers with their calculated proportionate share. Contributions from the employers are recognized when legally due, based on statutory requirements. The employer allocation percentages presented in the Schedule of Employer Allocations are based on the ratio of each employer's actual contribution to the System's total actual contributions for the fiscal year ended June 30, 2021.

The current year employer contributions used in the Schedule of Employer Allocations for 2021 are a component of total employer contributions presented in the Systems audited financial statements. The reconciliation of employer contributions is as follows for the year ended June 30, 2021:

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 9 - Defined Pension Plan (Continued)

Total current year employer contributions per Schedule of Employer Allocations	\$ 130,929
Timing differences	65
Fees from Optional Retirement Plan *	1,296
Miscellaneous	82
Total employer contributions per audited financial statements	<u>\$ 132,373</u>

* Optional Retirement Plan contributes administrative fees of 2.60% of covered wages.

(4) Collective Net Pension Liability

The components of the collective net pension liability of the participating employers at June 30, 2021 were as follows:

Total pension liability	\$5,658,164
Plan fiduciary net position	<u>3,985,462</u>
Employer's net pension liability	<u>\$1,672,702</u>

(a) Actuarial Assumptions

The collective total pension liability was determined by an actuarial valuation as of June 30, 2021, and a measurement date determined of June 30, 2021 using standard rollforward techniques using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40%
Salary increases	2.65-17.90%, including inflation
Investment rate of return	7.55%, net of pension plan investment expense, including inflation

Mortality rates were based on the PubS.H.-2010 (B) retiree Table with the following adjustments. For males 95% of male rates up to 60, 110% for ages 61 to and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates will be projected generationally using the MP-2021 projection scale to account for future improvements in life expectancy.

The actuarial assumptions are based on the experience investigation for the four-year period ending June 30, 2021.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 9 - Defined Pension Plan (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The most recent target asset allocation and best estimates of real rates of return for each major asset class as of June 30, 2021, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Domestic	27.00%	4.60%
International Equity	22.00	4.50
Global Equity	12.00	4.80
Fixed Income	20.00	(0.25)
Real Estate	10.00	3.75
Private equity	8.00	6.00
Cash Equivalent	1.00	(1.00)
Total	<u>100.00%</u>	

(b) Discount Rate

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at the current employer contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table presents the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.55%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.55%) or 1-percentage-point higher (8.55%) than the current rate:

NOTES TO THE FINANCIAL STATEMENTS

(5) Collective Deferred Outflows of Resources and Deferred Inflows of Resources

Annual changes to the net pension liability resulting from differences between expected and actual experiences with regards to economic and demographic factors and from changes of assumptions about future economic or demographic factors or other inputs are deferred and amortized over the average of the expected remaining service life of active an inactive member. Differences between projected and actual earnings on pension plan investments are amortized over a closed period of 5 years. The following

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 9 - Defined Pension Plan (Continued)

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources for the year ended June 30, 2021:

(5) Collective Deferred Outflows of Resources and Deferred Inflows of Resources (Continued)

	Measurement Period	Amortization Period	Beginning of year balance	Additions	Deductions	End of year balance
Deferred outflows (inflows) of resources:						
Net difference between projected and actual earnings on investments						
	2017	5.00	\$ (115,726)	\$ -	\$ 115,726	\$ -
	2018	5.00	(15,681)	-	7,841	(7,841)
	2019	5.00	25,936	-	(8,645)	17,291
	2020	5.00	119,016		(29,754)	89,262
	2021	5.00	-	(750,569)	150,114	(600,455)
			<u>13,545</u>	<u>(750,569)</u>	<u>235,281</u>	<u>(501,743)</u>
Difference between expected and actual experience						
	2018	3.90	517	-	(517)	-
	2020	3.66	18,940	-	(7,120)	11,820
	2021	3.88	-	20,514	(5,287)	15,227
			<u>19,457</u>	<u>20,514</u>	<u>(12,924)</u>	<u>27,047</u>
Changes in assumptions						
	2019	3.76	11,657	-	(6,623)	5,034
	2021	3.88	-	166,276	(76,806)	89,470
			<u>11,657</u>	<u>166,276</u>	<u>(83,429)</u>	<u>94,504</u>
			<u>\$ 44,658</u>	<u>\$ (563,778)</u>	<u>\$ 138,928</u>	<u>\$ (380,192)</u>

The collective deferred outflows of resources and deferred inflows of resources reported in the table above will be amortized in the collective proportionate share of pension expense as follows:

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 9 - Defined Pension Plan (Continued)

Years Ended June 30

2022	\$ (65,625)
2023	(64,737)
2024	(85,965)
2025	<u>(163,865)</u>
	<u>\$ (380,192)</u>

The table below provides a summary of the collective deferred outflows and inflows as of June 30, 2021 (measurement date):

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experiences	\$ 26,746	\$ -
Changes in assumptions	128,714	-
Net difference between projected and actual earnings on plan investments	-	503,746
Employer contribution subsequent to the measurement date	<u>See note</u>	<u>-</u>
Total	<u>\$ 155,460</u>	<u>\$ 503,746</u>

Note: The deferred outflow of resources reported by an employer should include contributions made by the employer during its fiscal year that will be reflected in the net pension liability in the next measurement period. Amortization periods for fiscal year 2022 are 3.88 for the average expected remaining service life of members and 5.0 years for investment gains/losses. PERS will provide current year collective information. In order to properly report PE and deferred outflows/inflows of resources in future years, it will be necessary for employers to maintain schedules for amortizing deferred amounts.

(6) - Allocable Plan Pension Expense

The components of allocable plan pension expense, which excludes amounts attributable to employer-paid members contributions for the year ended June 30, 2021, comprised the following:

NOTES TO THE FINANCIAL STATEMENTS*For the Year Ended September 30, 2021**(Continued)***Note 9 - Defined Pension Plan (Continued)**

Service Cost	\$ 7,985
Interest on total pension liability	366,611
Member contribution	(64,598)
Projected earning on planned investment	(227,688)
Administrative expense	1,841
Other	544
Recognition of deferred outflows/inflows of resources:	
Differences between expected and actual experiences	15,401
Differences between expected and actual earning on investments	(29,061)
Changes in assumptions	38,537
	<u>\$ 109,571</u>

The employer proportionate share of the collective pension expense is equal to the collective pension expense multiplied by the employer's allocation percentage for the fiscal year ended June 30, 2021, as shown in the Schedule of Employer Allocation.

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2018, valuation for the June 30, 2021 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	30.9 years
Asset valuation method	5-year smoothed market
Price Inflation	3.00 percent
Salary increase	3.25 percent to 18.50 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Note 10 - Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of a depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Federal Deposit Insurance Corporation (FDIC) insures deposits up to \$250,000. As of September 30, 2021, the City had unsecured funds in the amount of \$333,474. The State of Mississippi Treasury Department

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 10 - Custodial Credit Risk (Continued)

oversees the collateralization process for all institutions approved as a public depository in the Statewide Public Funds Collateral Program. On a daily basis, the Treasury monitors collateralization requirements maintained for all of the institutions holding public funds. By using this method, we can provide a better level of assurance to our public entities that their funds are properly safeguarded.

Note 11 - Compensated Absences

The City recognizes a liability for the amount of accrued vacation and vested sick leave. Accumulated vacation may be received in cash by the employee at any time, subject to certain restrictions. Unused sick leave is vested at 25% after five years of employment, and an additional 25% is vested after ten years. Vested sick leave may only be received in cash by the employee upon termination of employment. The obligation of accumulated unpaid vacation and vested sick leave amounts to \$58,245 at September 30, 2021 for the Primary Government.

Note 12 – Interfund Receivable and Payables

<u>Due From:</u>	<u>Due To:</u>	<u>Amount</u>
General Fund	Water Fund	222,224

The interfund receivable and payables do not balance out to zero. Management should perform a review of the interfund receivable and payables and correct the balances.

Note 13 – Risk Management

The government is exposed to various risks of loss related to torts; theft of damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. There has been no significant reduction in insurance coverage from the previous year and settlements have not exceeded insurance coverage for each of the past three fiscal years.

Note 14 – Prior Period Adjustments

The net asset of the general fund was increased by \$26,231 and the enterprise fund was decreased by \$104,072 to record the changes in the net pension adjustments and reclassify the due to and due from and correct the note payable for an amount that was expensed in prior year.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended September 30, 2021
(Continued)

Note 14 – Prior Period Adjustments (continued)

General Fund:

Beginning Balance	\$ (125,634)
Net pension adjustment	<u>110,380</u>
Ending Balance	<u>\$ (15,254)</u>

Water Fund:

Beginning Balance	\$ 1,220,336
Net pension adjustment	<u>(44,142)</u>
Ending Balance	<u>1,176,194</u>

Note 15 – Subsequent Events

Management has evaluated events and transaction subsequent to the balance sheet date through the date of the auditors' report (the date the financial statements were available to be issued) for potential recognition or disclosure in the financial statements. Management did not identify any items that should be disclosed.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTER BASED ON AN AUDIT OF FINANCIAL
STATEMENT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

To the City of Hollandale and Board of Aldermen
Hollandale, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Hollandale, Mississippi, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise City of Hollandale, Mississippi's basic financial statements, and have issued our report thereon dated June 24, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Hollandale, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Hollandale, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Hollandale, Mississippi's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTER BASED ON AN AUDIT OF FINANCIAL STATEMENT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Hollandale, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

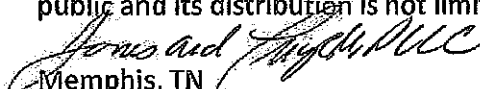

To the Honorable Mayor and Board of Aldermen
City of Hollandale, Mississippi

We have audited the general-purpose financial statements of the City of Hollandale, Mississippi, as of and for the year ended September 30, 2021, and have issued our reported thereon dated July 10, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

As required by the state compliance and by the audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state law and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit, the general-purpose financial statements disclosed no material instances of noncompliance with state law and regulations. The prior year finding has been corrected.

This report is intended for the information of the City's management and the Office of the State Auditors and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public and its distribution is not limited.
