**INDEPENDENT AUDITORS' REPORT**

Board of Directors  
Mississippi Authority for Educational Television  
Jackson, Mississippi

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the Mississippi Authority for Educational Television as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Mississippi Authority for Educational Television's basic financial statements, as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes

evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the Mississippi Authority for Educational Television as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 1, the financial statements of the Mississippi Authority for Educational Television are intended to present the financial position and the changes in financial position of only that portion of the governmental activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the State of Mississippi that is attributable to the transactions of the Mississippi Authority for Educational Television and its component unit. They do not purport to, and do not present fairly the financial position of the State of Mississippi as of June 30, 2021, or the changes in its financial position in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4-10, budgetary comparison information on pages 45-46, Schedule of MPB's Share of the Net Pension Liability, Schedule of MPB's Contributions for net pension liability, notes to required supplementary information on pages 47-50, Schedule of MPB's share of net OPEB liability, Schedule of MPB's Contributions for OPEB, and notes to required supplementary information on pages 51-54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mississippi Authority for Educational Television's basic financial statements. The combining schedule of revenues and expenses is required by The Corporation for Public Broadcasting, a grantor agency. It is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The combining schedule of revenues and expenses as of June 30, 2021 on page 55 is the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining schedule of revenues and expenses is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2021 on our consideration of the Mississippi Authority for Educational Television's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Mississippi Authority for Educational Television's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## **MISSISSIPPI AUTHORITY FOR EDUCATIONAL TELEVISION (AN INSTRUMENTALITY OF THE STATE OF MISSISSIPPI)**

### **Introduction and Reporting Entity**

The following discussion and analysis of Mississippi Authority for Educational Television d/b/a Mississippi Public Broadcasting (the Agency) and its component unit's financial performance provides an overview of the Agency and its component unit's financial activities for the year ended June 30, 2021. The intent of this discussion and analysis is to look at the Agency and its component unit's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the Agency's financial performance.

The Agency is an instrumentality of the State of Mississippi and is governed by a seven member Board of Directors, four of whom are appointed by the Governor and ratified by the Legislature, in addition to the State Superintendent of Public Education (or his designee), the State Board for Community and Junior Colleges appointee and the Board of Trustees of the State Institutions of Higher Learning appointee.

The Agency's primary functions are to provide educational, instructional, professional growth, and public service programs and other related services for the students and citizens of Mississippi.

### **Financial Highlights**

- Total net position for 2021 decreased by \$1,000,406 to \$1,057,091.
- The Agency's total General Fund expenditures are reflected in the Fund Financial Statements on page 15. Expenditures totaled \$12,798,344 in 2021, a \$126,296 increase in operating expenses from prior year.
- Appropriations and transfers from the State of Mississippi (the State) are the major source of financial support available to the Agency, followed by support from MPB Foundation. State funding was consistent from 2020 to 2021.

## Overview of the Financial Statements

The Agency's financial statements present the Agency (the primary governmental public broadcasting entity) and its component unit, MPB Foundation (the Foundation) for 2020 and 2021. The Foundation raises funds for the Agency and provides grants to the Agency derived from fundraising efforts. It is legally separate from the Agency and is reported in a separate column in the government-wide financial statements. The Foundation's audited financial statements are issued under separate cover and are available upon request from the Foundation.

The financial statements of the Agency consist of the Statement of Net Position, the Statement of Activities, the Balance Sheet-Governmental Fund, and the Statement of Revenues, Expenditures and Changes in Fund Balance-Governmental Fund. These statements are prepared in conformity with Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments.

Our analysis of the total Agency begins on page 7. One of the most important questions asked about the Agency's finances is, "Is the Agency, as a whole, better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Agency as a whole and about its activities.

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 11 and 12) provide Information about the activities of the Agency as a whole and present a longer-term view of the Agency's finances. Fund Financial Statements begin on page 13 and explain how these services were financed in the short term, as well as what remains for future spending.

The Statement of Net Position presents information on all the Agency's non-fiduciary assets and liabilities, with the differences between the two reported as "net position." Over time, increases or decreases in the Agency's net position may serve as a useful indicator of whether its financial position is improving or deteriorating. Consideration must also be given to changes in the annual appropriation from the State, financial health of the Foundation for Public Broadcasting and the financial support ability of The Corporation for Public Broadcasting to fully assess the overall health of the Agency.

The Statement of Activities presents information showing how the Agency's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The Statement of Revenues, Expenditures and Changes in Fund Balance depicts the operating revenues and expenditures resulting in an Excess of Expenditures over Revenues, which is then combined with Other Financing Sources (Uses) to provide the total change in Fund Balance. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

## Reporting the Agency's Funds

### Fund Financial Statements

Our analysis of the Agency's major fund begins on page 9. The Fund Financial Statements begin on page 13 and provide detailed information about the funds.

**Governmental funds** - The Agency's services are reported in a governmental fund, the General Fund, which focuses on how money flows into and out of the fund and the balance left at year-end that is available for spending. This fund is presented on the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the Agency's near-term financing requirements. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the governmental fund in a reconciliation at the end of the Fund Financial Statements.

**Fiduciary funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the Agency. Fiduciary funds are not reflected in the consolidated financial statements because resources of those funds are not available to support the Agency's own programs. These funds are reported using the accrual basis of accounting. The Agency is responsible for ensuring that the assets reported in these funds are used for their intended purpose, which is the cafeteria plan.

### Reconciliation of Government-Wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the fund financial statements with the government-wide financial statements. The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on the fund financial statements.

Capital outlay spending results in capital assets on the government-wide financial statements, but is reported as expenditures on the fund financial statements.

Prepaid broadcast rights, deferred production, and accrued compensated absences are not reported in the fund financial statements.

Net pension liability, and related deferred inflows and outflows of resources, is not due and payable in the current period and, therefore, is not reported in the fund financial statements.

Net OPEB liability, and related deferred inflows and outflows of resources, is not due and payable in the current period and, therefore, is not reported in the fund financial statements.

## Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the component unit financial statements.

## Required Supplementary Information and Other Supplementary Information

In addition to the financial statements and accompanying notes, this report also presents budgetary comparison schedules, net pension liability schedules, and net OPEB liabilities schedules as required supplementary information. These schedules are provided as required by the Governmental Accounting Standards Board. Additionally, The Corporation for Public Broadcasting requires a schedule reconciling the TV and Radio operations to the operations as a whole. That schedule is included at page 55.

## Financial Analysis of the Statements

The Agency's condensed financial statements represented below for fiscal year 2021 are for Governmental Activities only.

## Net Position

Net position may serve over time as a useful indicator of the Agency's financial position. Assets exceeded liabilities by \$1,057,091 as of June 30, 2021.

## Condensed Statement of Net Position

## Condensed Changes in Net Position

The Agency's total revenues for the fiscal year ended June 30, 2021 were \$13,225,324. The total cost of all programs and services was \$14,225,730 for 2021.

Program revenues:	
Charges for services	\$ 759,589
Operating grants	1,906,343
General revenues:	
State appropriations	6,028,121
Contributed state facilities use	428,063

Total expenses	<u>\$ 14,225,730</u>
Change in net position	\$ (1,000,406)
Net position - beginning	<u>2,057,497</u>
Net position - ending	<u>\$ 1,057,091</u>

To aid in the understanding of the Statement of Activities on page 12, some additional explanation is provided. The Programming and Production activities make up a large portion of expenses (34% in FY 2021). This program area is responsible for development of services and content that is offered via a variety of mediums. It has three major departments: purchased and produced Television Programming, News and Public Affairs, and Radio Programming and Production. You will notice that expenses by program are listed first in the Statement of Activities and then reduced by program revenues to arrive at a net expense from operations. The portion that is financed through general revenues is listed separately and deducted from net expenses to reflect the total change in net position. The reason for this format is to highlight the portion of the activities by program that is self-financing through fees and grants.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Agency, as a unit of State government, relies heavily upon State appropriations to fund its operating activities. State revenue directly affects the funding level of the Agency as a whole. State appropriations represented 46% of the Agency's 2021 total general fund revenues and other financing sources. State funding budget will increase in 2022. The Agency continues to exercise prudent budgeting practices and seeks other alternative sources of revenue.

In FY 2021, the Agency continued to position itself to remain as the State's lifeline of communication for citizens during a disaster. In 2022, the Agency will continue to focus its attention on its role in the State's disaster plan along with strategic urgencies identified by the Board. The Board's focus remains on addressing the Agency's future funding from the State Legislature seek new funding opportunities and identify available funding resources for system upgrades.

## **CONTACTING THE AGENCY'S FINANCIAL MANAGEMENT OFFICE**

This financial report is designed to provide the State's citizens, taxpayers, customers, investors, and creditors with a general overview of the Agency's finances and to show the Agency's accountability for the funding it receives. It is also intended to help the reader better understand the changes in the financial statement format. Additional details may be requested by mail at the following address:

# MISSISSIPPI AUTHORITY FOR EDUCATIONAL TELEVISION

## NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2021

### Note 1. Summary of Significant Accounting Policies

#### Financial Reporting Entity

The Mississippi Authority for Educational Television (MPB) is an agency of the State of Mississippi (the State) and was created by an act of the State Legislature to provide educational, instructional, and public service programs for the students and citizens of the State through educational broadcasting. MPB operates under the name Mississippi Public Broadcasting.

MPB is subject to the review and appropriation authority of the State Legislature. Rather than functioning as an autonomous entity, MPB is a part of the oversight unit of the State. The accompanying financial statements present the financial position and the changes in financial position of only that portion of the activities and funds of the State of Mississippi that is attributable to the transactions of MPB and its component unit.

Governmental Accounting Standards Board (GASB) Statement No. 61, "Determining Whether Certain Organizations Are Component Units," requires the inclusion of organizations for which the nature and significance of their relationship with MPB is such that their exclusion would cause MPB's financial statements to be misleading or incomplete. As a result, MPB's financial statements include a legally separate nonprofit entity as a component unit. MPB's component unit is MPB Foundation (the Foundation). The Foundation was established to raise funds for MPB and provide grants to MPB based on the results of its fundraising efforts. The discretely-presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from MPB. Transactions between MPB and the component unit have not been eliminated. The Foundation's audited financial statements are issued under separate cover and are available upon request from the Foundation.

#### Financial Reporting

MPB complies with accounting principles generally accepted in the United States of America (GAAP), which includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note.

## **Note 1. Summary of Significant Accounting Policies (continued)**

### Basis of Presentation

#### *Government-wide Financial Statements:*

The statement of net position and statement of activities display information about MPB as a whole. They include all funds and the component unit of MPB except for the fiduciary fund. Program revenues include charges to the recipients of goods or services and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

#### *Fund Financial Statements:*

Fund financial statements of MPB are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into two major categories: governmental and fiduciary.

The funds of MPB are described below:

- **Governmental Fund**

General Fund — The General Fund is the general operating fund of MPB. It is used to account for all financial resources except those required to be accounted for in another fund.

- **Fiduciary Fund**

Agency Fund — The Agency Fund is used to account for the contributions of employees to the MPB cafeteria plan. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of operations.

### Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### *Measurement Focus:*

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of changes in net position. All assets and liabilities (whether current or non-current) associated with activities are reported. Equity is classified as net position.

## **Note 1. Summary of Significant Accounting Policies (continued)**

In the fund financial statements, the governmental fund uses the "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on the balance sheet. The operating statement presents sources and uses of available spendable financial resources during a given period. The fund uses fund balance as the measure of available spendable financial resources at the end of the period.

The agency fund is not involved in the measurement of results of operations; therefore, measurement focus is not applicable to it.

### *Basis of Accounting:*

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or an economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, the governmental fund is presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when measurable and available. "Measurable" means knowing or being able to reasonably estimate the amount. "Available" means collectible within the current period or 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred.

### Appropriations/Allotment Balance

The appropriations/allotment balance is composed of the appropriated funds provided by the State Legislature. Section 64 of the Constitution of the State of Mississippi provides that "no bill passed...to make appropriations of money out of the State Treasury shall continue in force more than two months after the expiration of the fiscal year." Section 7-7-23, Miss. Code Ann. (1972), provides that purchase orders covering purchases of equipment, supplies, materials or services of whatever kind or nature for any department or agency to be paid for out of funds appropriated for any fiscal year are required to be executed by June 30, of the fiscal year. These purchase orders must be filed and received by the Department of Finance and Administration within five working days after June 30, and are considered obligations against the State. Appropriated funds are disbursed for these obligations until August 31, and any appropriations that remain undisbursed at August 31, lapse to the appropriating fund of the State of Mississippi to be used for appropriations in the following fiscal year.

### Cash and Investments

MPB's general fund cash is held by the Mississippi Treasury Department. MPB deposits cash of the fiduciary type fund in financial institutions selected by the board of directors in accordance with state statutes.

**Note 1. Summary of Significant Accounting Policies (continued)**

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

MPB may invest in interest-bearing time certificates of deposit or any bonds or other direct obligations of the United States of America, the State of Mississippi, or any county, municipality, or school district of Mississippi, provided certain provisions have been met.

Cash and cash equivalents include highly liquid investments with a maturity of three months or less when purchased unless the investments are held for long-term purposes.

Investments Held at Component Unit

Accounting Standards Codification (ASC) 820 defines fair value and establishes a framework for measuring fair value in U.S. generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820 applies only to fair value measurements that are already required or permitted by other accounting standards and is expected to increase the consistency of those measurements. The definition of fair value focuses on the exit price, i.e., the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, not the entry price, i.e., the price that would be paid to acquire the asset or received to assume the liability at the measurement date. ASC 820 emphasizes fair value is a market based measurement; not an entity specific measurement. Therefore, the fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability.

In accordance with ASC 820, the Foundation groups its assets measured at fair value in three levels, based on the markets in which such assets are traded and the reliability of the assumptions used to determine fair value. This hierarchy requires the Foundation to maximize the use of observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Each fair value measurement is placed into the proper level based on the lowest level of significant input. These levels are:

- Level 1 – inputs to the valuation methodology are based upon quoted prices for identical instruments traded in active markets. This level of the fair value hierarchy provides the most reliable evidence of fair value and is used to measure fair value whenever available.

**Note 1. Summary of Significant Accounting Policies (continued)**

- Level 2 – inputs to the valuation methodology are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 – inputs to the valuation methodology are generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset.

Beneficial interest in assets held at the Community Foundation for Mississippi and interest in charitable trust are assets carried at fair value. The Foundation has no liabilities carried at fair value at June 30, 2021.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Contributions and underwriting are recognized when the donor makes a promise to give to MPB or its component unit that is, in substance, unconditional. The allowance method is used to determine the uncollectible portion of these unconditional promises to give.

In the fund financial statements, receivables accrued in the governmental fund include substantially all types since they are both measurable and available.

Prepaid Broadcast Rights, Production Costs, and Production Revenue

In the government-wide statements, amounts paid for program broadcast rights are expensed ratably over the broadcasting period. Costs incurred by MPB for production of special programs are expensed when the program is broadcast.

In the fund financial statements, payments for broadcast rights and production costs are recorded as expenditures when the costs are incurred.

Capital Assets

*Government-Wide Statements:*

In the government-wide financial statements, property and equipment is accounted for as capital assets. Capital assets are valued at historical cost, or estimated historical cost if actual cost is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Maintenance

**Note 1. Summary of Significant Accounting Policies (continued)**

and repair costs are expensed as incurred, and property and equipment of MPB is capitalized only if it exceeds thresholds established by the State as follows:

<u>Category</u>	<u>Threshold</u>
Land	\$ -
Land improvements	25,000
Buildings	50,000
Infrastructure	100,000
Furniture and equipment	5,000

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided using the straight-line method of depreciation over the assets estimated useful lives. The range of estimated useful lives by type of asset is as follows:

Buildings	40 years
Infrastructure	20 years
Furniture and equipment	3-15 years

*Fund Financial Statements:*

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Unearned Revenue

MPB defers revenue recognition in connection with resources that have been received but not yet earned.

Accrued Compensated Absences

Section 25-3-97, Miss. Code Ann. (1972), authorizes payment for a maximum of 30 days accrued personal leave upon termination of employment. No payment is authorized for accrued major medical leave unless the employee presents medical evidence that his or her physical condition is such that he or she can no longer work in a capacity of state government.

The liability for these compensated absences up to a maximum of 30 days of accrued personal leave per employee is recorded as a liability in the government-wide statements. In the fund financial statements, the governmental fund reports only the compensated absence liability payable from expendable available financial resources.

**Note 1. Summary of Significant Accounting Policies (continued)**

Accumulated unpaid major medical leave is not accrued in the financial statements because it is not probable that the compensation will be paid.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. MPB has deferred outflows which are presented as a deferred outflow for pension and OPEB.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. MPB has deferred inflows which are presented as a deferred inflow for pension and OPEB.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 12 for further details.

Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Mississippi State and School Employees Life and Health Insurance Plan and additions to/deductions from OPEB's fiduciary net position have been determined on the same basis as they are reported by Mississippi State and School Employees Life and Health Insurance Plan. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 13 for further details.

**Note 1. Summary of Significant Accounting Policies (continued)**

Equity Classifications

*Government-wide Statements:*

Equity is classified as net position in the government-wide financial statements and is displayed in three components:

- a. Net investment in capital assets — consists of capital assets, net of accumulated depreciation.
- b. Restricted — results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
- c. Unrestricted — consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

MPB applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

*Fund Financial Statements:*

In accordance with GASB Statement No. 54, the governmental fund financial statements present fund balances based on the extent of the constraints on their use as follows:

- a. Non-spendable fund balance — consists of amounts that cannot be spent because they are either (1) not in spendable form or (2) are legally or contractually required to be maintained intact.
- b. Restricted fund balance — consists of amounts for which constraints have been placed on their use: (1) by external groups such as creditors, grantors, contributors, or by laws or regulations of other governments, or (2) by law through constitutional provisions or enabling legislation.
- c. Committed fund balance — consists of amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors.
- d. Assigned fund balance — consists of amounts that are constrained by the Mississippi Authority for Educational Television's intent to use them for a specific purpose but that are neither restricted nor committed. Intent can be expressed by an official or body to which the Board of Directors has delegated the authority.
- e. Unassigned fund balance — consists of the residual fund balance for the General Fund.

**Note 1. Summary of Significant Accounting Policies (continued)**

MPB utilizes restricted fund balances first, followed by committed fund balances and then assigned fund balances.

Income Taxes for Component Unit

The Foundation is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation is classified as a publicly supported organization and not a private foundation under the Internal Revenue Code.

The Foundation has adopted the provisions of FASB ASC 740-10, Accounting for Uncertainty in Income Taxes. The Foundation's status as a 501(c)(3) not-for-profit has been determined to be valid. The Foundation files Federal Form 990.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Component unit

MPB Foundation (the Foundation) was incorporated as a not-for-profit corporation in the State of Mississippi on August 26, 2016. The Foundation operates solely for the benefit and support of the Mississippi Authority for Educational Television, an agency of the State of Mississippi that provides educational broadcasting in Mississippi under the name Mississippi Public Broadcasting (MPB). The Foundation operates under an affiliation agreement that governs its relationship with MPB.

During the year ended June 30, 2021, the Foundation adopted the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which outlines a single comprehensive mode for entities to use in accounting for revenue arising from contracts with customers and, supersedes or replaces nearly all GAAP revenue recognition guidance. This standard establishes a new contract and control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time, and expands disclosures about revenue. Topic 606 has been applied using the modified-retrospective method. There was no adjustment to opening net assets as of July 1, 2020.

**Note 1. Summary of Significant Accounting Policies** (continued)

During the year ended June 30, 2021, the Foundation adopted FASB ASU 2018-08, *Clarifying the Scope of Accounting Guidance for Contributions Received and Contributions Made (Topic 958)*, which requires that an entity evaluate whether transactions should be accounted for as contributions or as exchange transactions and determining whether a contribution is conditional. The results of applying Topic 958 did not have a material impact on the financial statements.

Subsequent events

MPB's management has evaluated subsequent events for potential recognition and disclosure through December 7, 2021, the date the financial statements were available to be issued.

**Note 2. Promises to Give**

The Foundation's unconditional promises to give at June 30, 2021 are as follows:

Unconditional promises to give	\$ 172,523
Allowance for uncollectible amounts	<u>(36,514)</u>
Unconditional promises to give, net	<u>\$ 136,009</u>

**Note 3. Capital Campaign receivable**

During 2019, the Foundation initiated a five-year capital fundraising campaign, Focus on the Future Campaign, for the purpose of enhancing education, workforce development and the economy of the state of Mississippi. Unconditional promises to give under the fundraising campaign are reported as capital campaign receivable. Capital campaign receivable at June 30, 2021 is as follows:

To be collected in less than one year	\$ 122,700
Allowance for uncollectible accounts	<u>(18,405)</u>
Current campaign receivable	<u>\$ 104,295</u>
To be collected in one to five years	\$ 161,800
Present value discount	(9,333)
Allowance for uncollectible amounts	<u>(24,270)</u>
Non-current campaign receivable	<u>\$ 128,197</u>
Total capital campaign receivable	<u>\$ 232,492</u>

**Note 4. Beneficial Interest in Assets Held by Community Foundation**

MPB Foundation entered into an investment agreement with the Community Foundation for Mississippi (CFM). The Foundation's agreement with CFM designates the Foundation as the beneficiary. Any distributions from the fund must be approved by CFM. The investment fund held by CFM is designated as an agency fund. The fund is not endowed; therefore funds are available for grant distribution with approval by CFM. This asset is reflected as unrestricted net assets. The fair market value of the fund, which consists of investments in mutual funds, was \$1,186,270 at June 30, 2021. These funds are categorized as a Level 1 fair value measurement.

The following table represents a reconciliation of the activities of the beneficial interest in assets held by the Community Foundation of Mississippi as of June 30, 2021:

Fair market value, beginning of year	\$ 882,299
Investment income	52,711
Net unrealized gain	261,036
Administrative fees	<u>(9,776)</u>
Fair market value, end of year	<u>\$ 1,186,270</u>

**Note 5. Assets Held at Fair Value**

The following is a summary of MPB's assets held at fair value at June 30, 2021:

<u>Description</u>	<u>Total</u>	<u>Fair Value Measurement</u>		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

	<u>\$ 1,186,270</u>	<u>\$ 1,186,270</u>	<u>\$ -</u>	<u>\$ -</u>

The components of the Foundation's investment income as reported in the accompanying statement of activities are as follows for the year ended June 30, 2021:

Net realized loss from sale of securities	\$ (723)
Net unrealized gain	261,036
Investment fees and other distributions	(9,776)
Interest, dividends, and other investment income	<u>53,433</u>
	<u>\$ 303,970</u>

**Note 6. Deferred Revenue**

At June 30, 2021, the Foundation recognized deferred revenue of \$7,000 related to an underwriting contract with a term ending February 2022.

**Note 7. Net Assets with Restrictions**

The Foundation's net assets with restrictions at June 30, 2021 are as follows:

Capital campaign receivables	\$ 232,492
Grant payable to MPB	<u>7,000</u>
Assets with donor restrictions	<u>\$ 239,492</u>

**Note 8. Capital Assets**

The primary government's capital asset activity for the year ended June 30, 2021, was as follows:

**Note 8. Capital Assets** (continued)

MPB's depreciation expense for the year ended June 30, 2021, was as follows:

Programming and production	\$ 698,832
Educational services	111,178
Broadcasting and technical services	460,594
Management and general	<u>317,650</u>
Total depreciation expense	<u>\$ 1,588,254</u>

Certain capital assets of MPB were acquired with federal grant revenues and, as a result, the disposition of the capital assets is restricted under the terms of the federal grants.

The Foundation's capital asset activity for the year ended June 30, 2021, was as follows:

	Balance 6/30/2020	Additions	Balance 6/30/2021
Furniture and equipment	\$ 14,959	\$ -	\$ 14,959

**Note 9. Accrued Compensated Absences**

The following is a summary of changes in the accrued compensated absences liability for the year ended June 30, 2021:

	Balance 6/30/2020	Additions	Reductions	Balance 6/30/2021	Amounts due within one year
Primary government	<u>\$ 454,599</u>	<u>\$ 168,846</u>	<u>\$ (188,747)</u>	<u>\$ 434,698</u>	<u>\$ 40,000</u>

There were no amounts left unpaid at year-end that normally would be liquidated with expendable available financial resources. Therefore, no current liability for compensated absences is reported in the fund financial statements.

**Note 10. Note Payable**

During May 2020, the Foundation borrowed \$47,249 from a bank under the Small Business Administration (SBA) Payroll Protection Program. The note payable was due in monthly installments of \$2,650 with interest of 1.00% beginning December 2020 through May 2022. The loan was unsecured and subject to the loan forgiveness provisions of Section 1106 of the CARES Act and the SBA Interim Final Rule dated April 2, 2020. As of June 30, 2021, the Foundation received loan forgiveness; therefore, \$47,249 of loan forgiveness is included in miscellaneous income in the accompanying statement of revenues and expenses as of June 30, 2021.

**Note 11. Lease Revenues**

MPB leases unneeded space on its transmitter towers to various governmental and commercial entities. Tower lease revenue totaled \$441,543 during the year ended June 30, 2021. Future minimum lease revenues are as follows:

Fiscal years ending June 30,

2022	\$ 206,240
2023	200,411
2024	163,040
2025	113,922

2027-2031	<u>528,251</u>
	<u>\$ 1,289,696</u>

**Note 12. Pension Plan**Plan description

MPB contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201, or by calling (601) 359-3589 or 1-800-444-PERS. It is also available at [www.pers.ms.gov](http://www.pers.ms.gov).

## **Note 12. Pension Plan (continued)**

### Benefits provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.00% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less.

Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.00% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.00% compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

### Contributions

PERS members are required to contribute 9.00% of their annual covered salary, and MPB is required to contribute at an actuarially determined rate. The employer's rate as of June 30, 2021, was 17.40% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. MPB's contributions to PERS for the fiscal year ending June 30, 2021, was \$681,384, which equaled the required contributions for the year.

**Note 12. Pension Plan** (continued)Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, MPB reported a liability of \$11,615,304 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. MPB's proportion of the net pension liability was based on a projection of MPB's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2021, MPB's proportion was 0.06%.

For the year ended June 30, 2021, MPB recognized pension expense of \$736,542. At June 30, 2021, MPB reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 71,125	\$ -
Net difference between projected and actual earnings on pension plan investments	614,964	-
Changes of assumptions	659,425	1,376,679
Changes in proportion and differences between ER contributions and proportionate share of contributions	(13,924)	-
District contributions subsequent to the measurement date	<u>683,924</u>	<u>-</u>
Total	<u>\$ 2,015,514</u>	<u>\$ 1,376,679</u>

\$683,924 reported as deferred outflows of resources related to pensions resulting from MPB contributions subsequent to the measurement date, will be recognized as a reduction to the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

Year ended June 30:	
2022	\$ (12,319)
2023	(12,319)
2024	(12,319)
2025	<u>(8,132)</u>
	<u>\$ (45,089)</u>

**Note 12. Pension Plan (continued)**Actuarial assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.00% - 18.25%, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119. For females 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

The actuarial assumptions are based on the experience investigation for the four-year period ending June 30, 2018.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	27.00%	4.90%
International equity	22.00%	4.75%
Global equity	12.00%	5.00%
Debt securities	20.00%	1.50%
Real estate	10.00%	4.00%
Private equity	8.00%	6.25%
Cash equivalents	1.00%	0.25%
Total	<u>100.00%</u>	

**Note 12. Pension Plan (continued)**Discount rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, 9.00%, and that Employer contributions will be made at the current employer contribution rate, 17.40%. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of MPB's proportionate share of the net pension liability to changes in the discount rate

The following presents MPB's proportionate share of the net pension liability of the cost-sharing plan, calculated using the discount rate of 7.75%, as well as what MPB's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
MPB's proportionate share of the net pension liability	<u>\$ 13,140,510</u>	<u>\$ 11,615,304</u>	<u>\$ 7,352,801</u>

*Pension plan fiduciary net position.* Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

**Note 13. Other Postemployment Benefits (OPEB)**Plan description

State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). The Plan was established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan. The Board has the sole legal authority to promulgate rules and regulations governing the operations of the Plan within the confines of the law governing the Plan. The Plan is self-insured and is financed through premiums collected from employers, employees, retirees and COBRA participants.

**Note 13. Other Postemployment Benefits (OPEB) (continued)**

The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan. A trust was created June 28, 2018 for the OPEB Plan and, the Plan is considered a cost-sharing multiple-employer defined benefit OPEB plan. Benefits of the OPEB plan consist of an implicit rate subsidy, which is essentially the difference between claims cost and premiums received for retirees.

Benefits provided

The Plan was formed by the State Legislature to provide group health and life benefits to full-time active and retired employees of the State, agencies, universities, community/junior colleges, public school districts and public libraries. In addition, the spouse and/or children of covered employees and retirees, as well as surviving spouses and COBRA participants, may be eligible for health insurance coverage under the Plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan. Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance. The Plan offers a Base option and a Select option for health benefits for non-Medicare participants. The Plan includes a separate coverage level for Medicare eligible retirees, Medicare eligible surviving spouses, and Medicare eligible dependents of retirees and surviving spouses.

Contributions

The Board has the sole authority for setting life and health insurance premiums for the Plan. The required premiums vary based on the plan selected and the type of participant. Employers pay no premiums for retirees while employees' premiums are funded primarily by their employer.

**Note 13. Other Postemployment Benefits (OPEB) (continued)****OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB**

At June 30, 2021, MPB reported a liability of \$583,381 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The basis for MPB's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the Plan in the fiscal year of all employers. The allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by the employee. At the measurement date of June 30, 2020, MPB's proportion was 0.07496460%. This was a decrease of .00216057% from the proportionate share as of the measurement date of June 30, 2019.

For the year ended June 30, 2021, MPB recognized OPEB income of \$6,201. At June 30, 2021, MPB reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 744	\$ 101,524
Net difference between projected and actual investment earnings on OPEB Plan investments	19	-
Changes of assumptions	90,575	24,653
Changes in proportion and differences between ER contributions and proportionate share of contributions	<u>10,485</u>	<u>66,164</u>
Total	<u>\$ 101,823</u>	<u>\$ 192,341</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2022	(27,334)
2023	(27,334)
2024	(22,503)
2025	(5,681)
2026	<u>(7,666)</u>
	<u>\$ (90,518)</u>

**Note 13. Other Postemployment Benefits (OPEB) (continued)**

Actuarial assumptions - The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75%
Salary increases	3.00% - 18.25%
Municipal Bond Index Rate	
Measurement date	2.19%
Prior measurement date	3.50%
Year FNP is projected to be depleted	
Measurement Date	2020
Prior measurement date	2019
Single equivalent interest rate, net of OPEB plan investment expense, including inflation	
Measurement date	2.19%
Prior measurement date	3.50%
Health care cost trends	
Medicare supplement claims	7.00% for 2021 decreasing to an ultimate rate of 4.50% by 2030
Pre-Medicare	

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 112% of males rates from ages 18 to 75 scaled down to 105% for ages 80 to 119. For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

The demographic actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study dated April 2, 2019.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2020 valuation were based on a review of recent plan experience done concurrently with the June 30, 2020 valuation.

**Discount rate**

The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.19%.

**Long-term rate of return**

The long-term rate of return is 4.50%.

**Note 13. Other Postemployment Benefits (OPEB) (continued)**

Municipal bond rate

The discount rate determination will use a municipal bond rate to the extent the trust is projected to run out of money before all benefits are paid. The rate used, if necessary, for this purpose is the monthly average of the Bond Buyers General Obligation 20-year Municipal Bond Index Rate (formerly published monthly by the Board of Governors of the Federal Reserve System).

Sensitivity of MPB's proportionate share of the net OPEB liability to changes in the discount rate

The following presents MPB's proportionate share of the net OPEB liability, as well as what MPB's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.19%) or 1-percentage-point higher (3.19%) than the current discount rate:

	<u>1% Decrease (1.19%)</u>	<u>Discount Rate (2.19%)</u>	<u>1% Increase (3.19%)</u>
MPB's net OPEB liability	<u>\$ 538,663</u>	<u>\$ 583,381</u>	<u>\$ 634,044</u>

Sensitivity of MPB's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates

The following presents MPB's proportionate share of the net OPEB liability, as well as what MPB's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Healthcare cost trend current rates</u>	<u>1% Increase</u>
MPB's net OPEB liability	<u>\$ 644,675</u>	<u>\$ 583,381</u>	<u>\$ 530,806</u>

Detailed information about the OPEB plan's fiduciary net position for June 30, 2020, and going forward will be available in separately issued financial reports available on the Mississippi Department of Finance and Administration's website.

#### **Note 14. FCC Revenue**

The Federal Communication Commission (FCC) mandated that television and radio stations provide more channels for wireless broadband services. This requires stations nationwide to move to a new frequency which will free up space needed. This project is known as Repack. With the exception of tower maintenance costs, station's repacking expenses are reimbursable by the FCC. For the year ended June 30 2021, MPB recognized \$2,256,561 in FCC Revenue.

#### **Note 15. Related Party Transactions**

##### Transactions with Component Unit

The primary government recognized grant revenue totaling \$640,513 from its component unit during the year ended June 30, 2021.

##### Contributed Facilities Use

MPB and its component unit occupy buildings owned by the Institutions of Higher Learning (a State agency). The value of the facilities used in excess of the \$124,800 rent charged to MPB, is estimated at \$428,063 for the year ended June 30, 2021.

##### Appropriations

MPB recognized appropriation transfers from the State's General Fund and Capital Expense Fund totaling \$6,028,121 during the year ended June 30, 2021.

##### Expenses

MPB was charged fees by other agencies of the State of Mississippi for various services for the years ended June 30, 2021:

Institutions of Higher Learning (facility costs)	\$ 124,800
Finance and administration	<u>58,985</u>
Total support	<u>\$ 183,785</u>

##### Mississippi Ednet Institute, Inc.

MPB provides certain facilities and administrative services at no charge to Mississippi Ednet Institute, Inc. (Ednet), which is a non-profit organization that provides educational programming through a statewide Educational Broadband Service system. MPB's executive director serves as the president and chief executive officer of Ednet, and one of MPB's board members is the chairperson of Ednet's eight-member board of directors.

**Note 15. Related Party Transactions (continued)****Friends of ETV and PRM**

Friends of ETV and PRM (Friends) was dissolved during the year ended June 30, 2007, and Friends' remaining funds were transferred to the Community Foundation of Mississippi in order to establish an endowment for the benefit of MPB. The Community Foundation of Mississippi owns and controls the endowment assets, determines the purpose and amount of endowment distributions, and can change the endowment's overall purpose or beneficiary. Therefore, the endowment is not reflected in these financial statements.

**Note 16. Commitments**

MPB leases certain land, storage space, and equipment under operating leases. Total rental expense under operating leases (with initial terms in excess of one year) for the year ended June 30, 2021 was \$30,879.

Fiscal years ending June 30,	Primary <u>Government</u>
2022	23,706
2023	17,389
2024	14,889
2025	2,866
2026	-
Total minimum lease payments	<u>\$ 58,850</u>

**Note 17. Risk Management**

The State of Mississippi has elected to retain most exposure to risk, including health and life benefits, tort liability, unemployment benefits and workers compensation benefits. MPB contributes to the State's internal service risk management fund based on actuarially determined assessments and premiums charged by the State.

**Note 18. Contingent Liabilities**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, would constitute a liability of the applicable funds. MPB is neither aware of, nor expects, any significant disallowances.

**Note 19. Concentrations**

MPB Foundation maintains deposits in a financial institution and at times has deposits in excess of federal insurance limits. The Foundation does not believe it is subject to any unusual credit risk beyond the customary credit risk related to conducting its nonprofit activities.

**Note 20. Risks and Uncertainties**

The Foundation's beneficial interest in assets held by the community foundation invests in mutual funds and corporate stocks. These investment are exposed to interest rate, market, credit, and other risks depending upon the nature of the investment. Accordingly, it is reasonably possible that these factors will result in changes in the value of the Foundation's beneficial interest which could materially affect the amounts reported in the financial statements.

MPB Foundation maintains deposits in a financial institution and at times has deposits in excess of federal insurance limits. The Foundation does not believe it is subject to any unusual credit risk beyond the customary credit risk related to conducting its nonprofit activities.

As a result of the spread of COVID-19, coronavirus, economic uncertainties have arisen which could have a material adverse impact on economic and market conditions. While potential impact is unknown at this time, the outbreak presents uncertainty and risk with respect to MPB and its component unit, MPB Foundation, its performance, and its financial results.

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For the Year Ended June 30, 2021

#### Pension Schedules

##### *Changes in assumptions*

##### 2019

- The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119; For females rates from ages 18 to 65 scaled up to 102% for ages 75 to 119; Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments: For males, 137% of male rates at all ages; For females, 115% of female rates at all wages; Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The price inflation assumption was reduced from 3.00% to 2.75%.
- The wage inflation assumption was reduced from 3.25% to 3.00%.
- Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.
- The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

##### 2017

- The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.
- The wage inflation assumption was reduced from 3.75% to 3.25%.
- Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.
- The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

##### 2016

- The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

##### 2015

- The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.
- The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.
- Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION** (continued)  
For the Year Ended June 30, 2021

- Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.
- The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

*Changes in benefit provisions*

2016

- Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

*Methods and assumptions used in calculations of actuarially determined contributions*

2020

- The actuarially determined contributions rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2017 valuation for the June 30, 2019 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry age
Amortization method	Level % of payroll, open
Remaining amortization period	38.4 years
Asset valuation method	5-year smoothed market
Price inflation	3.00%
Salary increases, including wage inflation	3.25% to 18.50%, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Mississippi Authority for Educational Television  
Jackson, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the Mississippi Authority for Educational Television (MPB) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Mississippi Authority for Educational Television's basic financial statements, and have issued our report thereon dated December 7, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered MPB's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of MPB's internal control. Accordingly, we do not express an opinion on the effectiveness of MPB's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether MPB's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of MPB's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering MPB's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
