Superintendent and School Board
[Input] School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, [the business-type activities, the aggregate discretely presented component units, (Delete if not applicable)] each major fund, and the aggregate remaining fund information of the [input] School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the [input] School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, [the business-type activities, the aggregate discretely presented component units, (Delete if not applicable)] each major fund, and the aggregate remaining fund information of the [input] School District, as of June 30, 2025, and the respective changes in financial position [and, where applicable, cash flows (Delete if not applicable)] thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the [input] School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Key Audit Matters (If engaged to communicate)

Emphasis-of-Matter (If applicable)

Other –Matter (If applicable)

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the [input] School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the [input] School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the [input] School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions (PERS), the Schedule of the District's Proportionate Share of the Net OPEB Liability, and the Schedule of District Contributions (OPEB), be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the [input] School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such

information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedule of Expenditures of Federal Awards and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated [\[date of report\]](#), on our consideration of the [\[input\]](#) School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the [\[input\]](#) School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering [\[input\]](#) School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(This page left blank intentionally)

The following discussion and analysis of [\[input\]](#) School District's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2025. The intent of this discussion and analysis is to look at the School District's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

- Total net position for 2025 increased/decreased \$_____, including an error correction of \$_____, which represents a(n) _____% increase/decrease from fiscal year 2024. Total net position for 2024 increased/decreased \$_____, including an error correction of \$_____, which represents a(n) _____% increase/decrease from fiscal year 2023.
- General revenues amounted to \$_____ and \$_____, or _____% and _____% of all revenues for fiscal years 2025 and 2024, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$_____, or _____% of total revenues for 2025, and \$_____, or _____% of total revenues for 2024.
- The District had \$_____ and \$_____ in expenses for fiscal years 2025 and 2024; only \$_____ for 2025 and \$_____ for 2024 of these expenses was offset by program specific charges for services, grants and contributions. General revenues of \$_____ for 2025 and \$_____ for 2024 **were/were not** adequate to provide for these programs.
- Among major funds, the General Fund had \$_____ in revenues and \$_____ in expenditures for 2025, and \$_____ in revenues and \$_____ in expenditures in 2024. The General Fund's fund balance increased/decreased by \$_____ from 2024 to 2025, and increased/decreased by \$_____ from 2023 to 2024.
- Capital assets, net of accumulated depreciation, increased/decreased by \$_____ for 2025 and increased/ decreased by \$_____ for 2024. The increase/decrease for 2025 was due to the addition/disposal of _____ coupled with the increase in accumulated depreciation.
- Long-term debt increased/decreased by \$_____ for 2025 and increased/decreased by \$_____ for 2024. This increase/decrease for 2025 was due primarily to the issuance of general/limited obligation bonds/principal payments on outstanding long-term debt. The liability for compensated absences increased/decreased by \$_____ for 2025 and increased/decreased by \$_____ for 2024.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplementary information, supplementary information, and other information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances. These statements consist of the Statement of Net Position and the Statement of Activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents information on all the District's nonfiduciary assets, deferred outflows, liabilities, and deferred inflows, with the differences between them reported as "net position." Over time, increases or decreases in the District's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are

reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section, pension expense, OPEB expense, and interest on long-term liabilities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two *(three)* categories: governmental funds and fiduciary funds. *(Add proprietary funds if applicable to the District.)*

Governmental funds – Most/All of the District's general activities are reported in its governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the District's near-term financing decisions. The governmental funds Balance Sheet is reconciled to the Statement of Net Position, and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is reconciled to the Statement of Activities to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All non-major funds are combined and presented in these reports as other governmental funds.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. These funds are reported using the accrual basis of accounting. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Proprietary funds *(Only add language if the District has these funds.)*

Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental funds financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements.

Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on government-wide financial statements, but are

recorded as other financing sources on the governmental funds financial statements.

A net pension liability and net OPEB liability result in liabilities on the government-wide financial statements but are not reported on governmental funds financial statements.

Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of District Contributions (PERS), Schedule of the District's Proportionate Share of the Net OPEB Liability, and Schedule of District Contributions (OPEB) as required supplementary information. The District adopts an annual operating budget for all governmental funds. A budgetary comparison schedule has been provided for the General Fund and each additional major special revenue fund *(if applicable)* as required by the Governmental Accounting Standards Board.

Supplementary Information

Additionally, a Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and a Schedule of Instructional, Administrative and Other Expenditures for governmental funds can be found in this report.

Other Information

Although not a required part of the basic financial statements, the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position

(Option 1 – Use if the school district has positive net position)

Net position may serve over time as a useful indicator of the District's financial position. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$_____ as of June 30, 2025.

(Option 2 – Use if the school district has negative net position)

Net position may serve over time as a useful indicator of the District's financial position. Liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$_____ as of June 30, 2025.

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets. *(if applicable)*

Table 1 presents a summary of the District's net position at June 30, 2025 and June 30, 2024. *(Show a column for proprietary fund, if applicable)*

Table 1
Condensed Statement of Net Position

	June 30, 2025	June 30, 2024	Percentage Change

Total net position	<u>\$ -</u>	<u>\$ -</u>	N/A %

[The following section sets forth information on the details of unrestricted net position that management may want to consider for inclusion in the MD&A. *Per GASB 100, prior period information should not be restated for change in accounting principle and changes to/within the reporting entity in RSI and SI. Prior period information can be restated for error corrections if applicable and practicable. Explain why not practicable to restate earlier periods.]

Additional information on unrestricted net position:

In connection with the application of standards on accounting and financial reporting for pensions and OPEB, management presents the following additional information:

Total unrestricted net position (deficit)	\$
Less unrestricted deficit in net position resulting from recognition of the net pension liability and net OPEB liability including the related deferred outflows and deferred inflows	
Unrestricted net position, exclusive of the net pension liability and net OPEB liability effect	<u>\$</u>

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- Increase/Decrease in net capital assets in the amount of \$_____.
- The principal retirement of \$_____ of long-term debt.

Changes in net position

The District's total revenues for the fiscal years ended June 30, 2025 and June 30, 2024 were \$_____ and \$_____, respectively. The total cost of all programs and services was \$_____ for 2025 and \$_____ for

2024.

Table 2 presents a summary of the changes in net position for the fiscal years ended June 30, 2025 and June 30, 2024.

Table 2

* Use "as previously reported" and "as restated" only if adjustment or restatement exists.

[Per GASB 100, prior period information should not be restated for change in accounting principle and changes to/within the reporting entity in RSI and SI. Prior period information can be restated for error corrections if applicable and practicable. Explain why not practicable to restate earlier periods.]

Governmental activities

The following table presents the cost of *six/seven* major District functional activities: instruction, support services, non-instructional, sixteenth section (*if applicable*), pension expense, OPEB expense and interest on long-term liabilities. The table also shows each functional activity's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost presents the financial burden that was placed on the State and District's taxpayers by each of these functions.

[The report model breaks out pension and OPEB expense. OPEB and Pension expense are not required to be broken out as a major expense. That is a management decision. Please edit the report accordingly depending on whether or not they are broken out or allocated to the other functional activities.]

Table 3
Net Cost of Governmental Activities

	Total Expenses		Percentage
	2025	2024	Change
Instruction	\$	\$	N/A %
Support services			N/A %
Non-instructional			N/A %
Sixteenth section			N/A %

Pension Expense			N/A %
OPEB Expense			N/A %
Interest on long-term liabilities			N/A %
Total net (expense) revenue	\$ -	\$ -	N/A %

- Net cost of governmental activities (\$_____ for 2025 and \$_____ for 2024) was financed by general revenue, which is primarily made up of property taxes (\$_____ for 2025 and \$_____ for 2024) and state and federal revenues (\$_____ for 2025 and \$_____ for 2024). In addition, there was \$_____ and \$_____ in Sixteenth Section sources for 2025 and 2024, respectively.
- Investment earnings amounted to \$_____ for 2025 and \$_____ for 2024.

(Additional Information should be disclosed for proprietary funds.)

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$_____, a(n) increase/decrease of \$_____, which includes an error correction of \$_____ and a(n) increase/decrease in inventory of \$_____. \$_____ or ____% of the fund balance is unassigned, which represents the residual classification for the General Fund's fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The remaining fund balance of \$_____ or ____% is either nonspendable, restricted, committed or assigned to indicate that it is not available for spending except only for the purposes to which it is restricted, committed or assigned.

The General Fund is the principal operating fund of the District. The increase/decrease in fund balance in the General Fund for the fiscal year was \$ _____. The fund balance of Other Governmental Funds showed a(n) increase/decrease in the amount of \$ _____, which includes an error correction of \$ _____ and a(n) increase/decrease in reserve for inventory of \$ _____, due primarily to _____. The increase (decrease) in the fund balances for the other major funds were as follows:

<u>Major Fund</u>		<u>Increase (Decrease)</u>
Fund 1	\$	xxxxxx
Fund 2	\$	(xxxxxx)
Fund 3		no increase or decrease
Fund 4		no increase or decrease

BUDGETARY HIGHLIGHTS

During the year, the District revised the annual operating budget. Budget revisions were made to address and correct the original budgets to reflect more accurately the sources and uses of funding for the School District. [\(Significant revisions should be explained as they apply to the District.\)](#)

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and *(if applicable)* major special revenue fund(s) is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2025, the District's total capital assets were \$ _____, including land, school buildings, building improvements, improvements other than buildings, buses, other school vehicles, furniture and equipment, and any intangible assets. This amount represents a(n) increase/decrease of \$ _____ from 2024. Total accumulated depreciation and amortization as of June 30, 2025, was \$ _____, and total depreciation and amortization expense for the year was \$ _____, resulting in total net capital assets of \$ _____.

Table 4

Lease assets			N/A %
Subscription IT assets			N/A %
Total	<u>\$ -</u>	<u>\$ -</u>	N/A %

Additional information on the District's capital assets can be found in Note __ included in this report.

Debt Administration. At June 30, 2025, the District had \$_____in outstanding long-term debt, of which \$_____is due within one year. The liability for compensated absences increased/decreased \$_____ from the prior year. (Significant issues and payments should be explained as they apply to the District).

The District maintains a(n) __ bond rating.

SCHOOL DISTRICT

Governmental Funds

**Reconciliation of the Governmental Funds Statement of Revenues,
Expenditures and Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2025**

Exhibit D-1

Net change in fund balances - total governmental funds \$

Amounts reported for governmental activities in the statement of activities are different because:

1. Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$	
Depreciation expense		0

2. In the statement of activities, only the gain/loss on the sale of assets is reported, while in the governmental funds, the proceeds from the sale increases financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the assets sold.
3. The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities:

Bonds and notes issued		
Refunding bonds issued		
Premiums on bonds and refunding bonds issued		
Leases issued		
Subscription IT liability issued		
Payments of debt principal		
Payments to refunded bond escrow agent		
Payments on refunded bonds		
Accrued interest payable		
		0

4. Some items relating to pensions and reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in the governmental funds. These activities include:

Pension expense		
Contributions subsequent to the measurement date		0

5. Some items relating to OPEB and reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in the governmental funds. These activities include:

OPEB expense		
Contributions subsequent to the measurement date		0

6. Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:

Change in compensated absences		
Change in inventory reserve		
Amortization of deferred charges, premiums and discounts		
		0

Note 1 – Summary of Significant Accounting Policies

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

[Option 1 - Select for a county school district]

As defined by accounting principles generally accepted in the United States of America, the school district is considered a "primary government." The school district is governed by a [input number] member board to which

[Option 1a - Select for a county school district, all members elected]

each member is elected by the citizens of each defined county district.

[Option 1b - Select for a county school district, some elected / some appointed]

[input number] are elected by citizens of each defined county district and [input number] are selected by the City of [input city's name] Board of Alderman [or appropriate name].

[Option 2 - Select for a city school district]

As defined by accounting principles generally accepted in the United States of America, the school district is considered an "other stand-alone government." The school district is a related organization of, but not a component unit of, the city of [input city name] since the governing authority of the city selects a majority of the school district's board but does not have financial accountability for the school district.

[Continue]

For financial reporting purposes, [input] School District has included all funds and organizations. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

[If the school district has Trust Certificate/Certificates of Participation (Blended Component Unit) include the following:]

Blended component unit

The [input name] Leasing Authority ("the Authority") as explained in the following paragraph is considered to be a blended component unit as determined by Section 2100 of the *Codification of Governmental Accounting and Financial Reporting Standards* and is included in the district's reporting entity.

The Authority is governed by a [input number] member board which is appointed by the school district's governing board. Although it is legally separate from the school district, it is reported as if it is part of the primary government because its sole purpose is to provide financing for the renovation, improvement, construction, and equipping of certain school facilities. Therefore, all of the Authority's assets, liabilities, fund balances, revenues, expenditures and other financing sources and uses have been included in the government-wide financial statements of the school district (see Note ____).

[If the school district has discretely presented component units, the following should be presented:]

Discretely presented component units

[The note should include a description of the component unit included within the financial reporting entity; a description of the relationship between the component units and the school district; a discussion of the criteria for including component units within the reporting entity; a discussion of how component units are reported (blended, discrete presentation, or included in the fund financial statements); and information on how to obtain a copy of the separately issued financial statements of the component units.]

Complete financial statements for each of the individual component units may be obtained from [input source].

[The summary of significant accounting policies should include a disclosure regarding related organizations and the relationship that exists between the school district and any related organization. GASB Statement No. 14:68; 2005 GAAFR page 200.]

Related Organizations

[If the school district is itself a component unit, include information concerning the primary government and a description of the nature of the relationship. Reference GASB Statement No. 14:65; 2005 GAAFR page 200.]

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the District's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Net position is reported in three categories:

Notes to the Financial Statements
For Year Ended June 30, 2025

1. Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

[Note: According to GASB Statement No. 63, the net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount should reduce the amounts of the debt and/or deferred inflows included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources should be included in the same net position component (restricted or unrestricted) as the unspent amount.]

2. Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property taxes and other items not included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary (*if applicable*) and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other governmental funds.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund.

[List other individual major funds, if any, and a description of each.]

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Include the following for proprietary funds, if applicable

The school district reports the following major enterprise fund:

The district's enterprise fund is the _____ fund. This fund is used to account for the _____ of the district.

[Continue]

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

The school district also reports fiduciary funds which focus on net position and changes in net position.

The District's fiduciary funds include the following:

[List individual private purpose trust funds and custodial funds presented, if any, and a description of each]

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds - Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Permanent Funds - Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

PROPRIETARY FUNDS

Enterprise Funds – These funds are used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the school district has decided that periodic determination of revenues earned, expenses incurred and/or net income is necessary for management accountability.

FIDUCIARY FUNDS

Private-purpose Trust Funds - Private-purpose trust funds are used to report all trust arrangements, other than those properly reported elsewhere, in which the principal and income benefit individuals, private organizations or other governments.

Custodial Funds - Custodial Funds are used to report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

Notes to the Financial Statements
For Year Ended June 30, 2025

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Fiduciary Fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property taxes, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

[Option 1 - Use the following for county levying authority]

Ad valorem property taxes are levied by the governing authority of the county on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

[Option 2 - Use the following for city levying authority]

Ad valorem property taxes are levied by the governing authority of the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

[Option 3 - Use the following if the school district has both county and city levying authorities]

Ad valorem property taxes are levied by the governing authorities of the county and the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

[Continue]

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

general long-term debt and acquisitions under leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

The effect of inter-fund activity has been eliminated from the government-wide statements.

[If the district has any proprietary funds, include the following paragraph:]

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

[Continue]

Revenues from the Mississippi Student Funding Formula are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting*, issued in 2012 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 2014*, issued by the U.S. Department of Education.

D. Encumbrances

[Option 1]

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

[Option 2]

An encumbrance system is maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts. Encumbrances outstanding at year-end are reported as a classification of fund balances since they do not constitute expenditures or liabilities.

[Option 3]

An encumbrance system is maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts. However, the school district attempts to liquidate all encumbrances at year-end. Encumbrances outstanding at year-end are/are not reported within committed or assigned fund balances.

Notes to the Financial Statements
For Year Ended June 30, 2025

E. Assets, liabilities, deferred outflows/inflows, and net position/fund balances

1. Cash, Cash equivalents and Investments

Cash and cash equivalents

The district's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Investments

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

Investments for the district, as well as for its component units *[strike if no component units]*, are reported at fair market value.

2. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e. the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Due from Other Governments

Due from other governments represents amounts due from the State of Mississippi and various grants and reimbursements from other governments.

4. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis). The costs of governmental fund type inventories are reported as expenditures when purchased.

[If the district is maintaining inventory using the consumption method, insert the appropriate disclosure.]

[Use one of the following two options concerning prepaid items.]

[Option 1]

Prepaid items, such as prepaid insurance, are not reported for governmental fund types since

Notes to the Financial Statements
For Year Ended June 30, 2025

the costs of such items are accounted for as expenditures in the period of acquisition.

[Option 2]

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements.

5. Restricted Assets

Certain resources set aside for repayment of debt are classified as restricted assets on the Statement of Net Position because their use is limited by applicable debt statutes, e.g. Qualified School Construction Bond sinking funds. Also, the nonexpendable portion of the Permanent Fund, if applicable, is classified as restricted assets because the 16th Section Principal fund is not available for use by the district except as provided for under state statute for loans from this fund.

6. Capital Assets

Capital assets include land, improvements to land, easements, water rights, timber rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Capital assets are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost or estimated historical cost based on appraisals or deflated current replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the thresholds in the table below.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities' column in the government-wide financial statements.

Depreciation is calculated on the straight-line basis for all assets, except land.

The following schedule details the capitalization thresholds:

	Capitalization Policy	Estimated Useful Life
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased assets	**	**
Subscription IT asset	**	**
Intangible assets	**	**

(**) The estimated useful life is [describe as deemed appropriate for the district's specific intangible asset(s)]. There is no mandated maximum amortization period. Intangible assets with indefinite useful lives should not be amortized.

The term 'depreciation' includes the amortization of intangible assets.

Notes to the Financial Statements
For Year Ended June 30, 2025

7. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. *(List the number and type(s) of deferred outflows)*

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. *(List the number and type(s) of deferred inflows)*

See Note ____ for further details.

8. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law. A greater amount may be provided by school district policy provided that it does not exceed the provisions for leave as provided in Sections 25-3-93 and 25-3-95. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. A liability is recorded when each of the following have occurred: the leave is attributable to services already rendered, the leave accumulates and carries forward from one reporting period to the next, the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means, and the leave that has been used but not yet been paid in cash or settled through noncash means. The current portion of this liability is estimated based on *[historical trends OR budgeted amounts and may be affected by other factors including the government/school district's policies]*. In the fund financial statements, governmental funds report the liability for compensated absences from expendable available financial resources only if the payable has matured, for example, an employee retires.

9. Leases

The Governmental Accounting Standards Board (GASB) issued Statement No. 87, Leases (GASB 87) to establish a single leasing model for accounting and reporting purposes. This guidance is intended to enhance the accountability, consistency and comparability of lease activities reported by governments. GASB 87 was implemented during fiscal year 2022.

The school district uses the *[Describe the rate used to calculate present value]* to calculate the present value of lease payments when the rate implicit in the lease is not known. *[Include any other requested disclosures either here or in a separate lease note. See Note 6 in the report model and GASB 87 for a listing of required disclosures.]*

10. Subscription-Based Information Technology Arrangements

The Governmental Accounting Standards Board (GASB) issued Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs) (GASB 96) to establish uniform accounting and financial reporting requirements for SBITAs, to improve comparability of financial statements among governments that have entered into SBITAs, and to enhance

Notes to the Financial Statements
For Year Ended June 30, 2025

understandability, reliability, relevance and consistency of information about SBITAs. GASB 96 was implemented during fiscal year 2023.

[Include any other requested disclosures either here or in a separate SBITA note. See Note 6 in the report model and GASB 96 for a listing of required disclosures.]

11. Long-term Liabilities and Bond Discounts/Premiums

In the government-wide, **proprietary and component unit (if applicable)** financial statements, outstanding debt is reported as liabilities. Bond discounts or premiums and the difference between reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures. See Note ___ for details.

12. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State and School Employees' Life and Health Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recorded when the OPEB benefits come due. Investments are reported at fair value as determined by the state.

14. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action of the School Board, the District's highest level of

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

decision-making authority. This formal action is the *[input formal action that is required to be taken by Board to establish the commitment.]* *[Input the following sentence if there is no committed fund balance.]* Currently there is no committed fund balance for this school district.

Assigned fund balance includes amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the _____ pursuant to authorization established by *[input policy]*.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance.

[Modify the following disclosure as it applies to the District.] When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the District's general policy to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts. *[If a minimum fund balance policy is formally adopted, describe the policy, including the action taken in adopting the policy.]*

15. Related Parties

[If there are any related party relationships required to be disclosed, please give a brief explanation. If none, remove this section of Note 1.]

16. Indirect Expenses

[If the School District allocates any indirect expenses please include a policy for allocating indirect expenses to functions in the statement of activities. Remove if not applicable.]

17. Accounting Standards Update

GASB 101, Compensated Absences, was implemented during the 2025 fiscal year. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

[If the School District chose to early implement any GASB standards, please include a list of the standards implemented.]

If any other accounting pronouncements were implemented, list them here.

The following GASB standard went into effect during the 2025 fiscal year. Not all standards are incorporated in the report model. If the school district has any of the following they will need to account for those items and incorporate disclosures based on the standards:

Statement 102 – Certain Risk Disclosures

Notes to the Financial Statements
For Year Ended June 30, 2025

Note 2 – Cash and Cash Equivalents

[Option 1 – Use the following section if the district does not have cash with fiscal agents or investments reported in the basic financial statements.]

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$_____ and \$ _____, respectively.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2025, \$_____ of the district's bank balance of \$_____ was exposed to custodial credit risk. *[Strike last sentence if inapplicable.]*

Note 2 – Cash and Cash Equivalents, Cash with Fiscal Agents, and Investments

[Option 2 - Use the following section if the school district reports cash with fiscal agents and/or investments. Edit the note title accordingly.]

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits and investments are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest excess funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposit or interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (c) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, not to exceed fifty percent of all monies invested with maturities of thirty

Notes to the Financial Statements
For Year Ended June 30, 2025

days or longer; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or other interests in, any open-end or closed-end management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration, not to exceed twenty percent of invested excess funds. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Investment income of less than \$100 can be credited to the General Fund.

Cash and Cash Equivalents

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$ _____ (which includes \$ _____ of certificates of deposit with original maturities beyond three months and reported on the Balance Sheet as investments) and \$ _____, respectively.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2025, \$ _____ of the district's bank balance of \$ _____ was exposed to custodial credit risk. *[Strike last sentence if inapplicable.]*

[NOTE: Edit the remainder of Note 2 to agree with reported amounts per Statement of Net Position]

Cash with Fiscal Agents

The carrying amount of school district's cash with fiscal agents held by financial institutions was \$ _____.

Note to Preparer:

The GASB Statement No. 40 investment note disclosure below is intended to be used only as a guide. Please tailor the note disclosure to each individual school district's situation.

Investments

As of June 30, 2025, the district had the following investments.

Investment Type	Rating	Maturities (in years)	Fair Value
U.S. Government securities			\$
Certificates of deposit			
Mutual funds			
Federal Home Loan Bank			
Hancock Horizon Treasury Securities			
Money Market Mutual Funds			
Total			\$ -

The district categorizes its fair value measurements within the fair value hierarchy established by generally

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

(The following is for illustrative purposes. Please describe the fair value level for each investment type. The bullets below are just examples. If any investments fall under level 3 or have had to be written down, also include that in the disclosure. If there are any non-investment assets or liabilities that would fall under GASB Statement No. 72, please include in a separate note.)

The district has the following recurring fair value measurements as of June 30, 2025:

- _____ type of investments of \$ _____ are valued using quoted market prices (Level 1 inputs)
- _____ type of investments of \$ _____ are valued using a matrix pricing model (Level 2 inputs)

Interest Rate Risk. The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. [If the district has adopted an interest rate risk policy, then explain such policy].

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk. [If the district has adopted a credit risk policy, then explain such policy]. [The credit quality rating of investments as described by nationally recognized statistical rating organizations should be disclosed].

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk. *Modify or strike if inapplicable >* [The investments in the Hancock Horizon Treasury Securities Money Market Mutual Funds are uninsured and unregistered and are not backed by the full faith and credit of the federal government.] Of the district's investments in _____, \$ _____ of underlying securities are held by the investment's counterparty, not in the name of the district. *Modify or strike if inapplicable >* [As of June 30, 2025, the district did not have any investments to which this would apply.]

Concentration of Credit Risk. Disclosure of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments. As of June 30, 2025, the district had the following investments: [List ONLY qualifying investments comprising more than 5 percent of the district's total investments.]

Issuer	Fair Value	% of Total Investments
	\$	

Notes to the Financial Statements

Note 3 – Inter-fund Receivables, Payables and Transfers

The following is a summary of inter-fund transactions and balances:

[NOTE: if only one section is needed, remove the lettering, i.e., A. and B.]

A. Due From/To Other Funds

Receivable Fund	Payable Fund	Amount
General Fund	Major fund #1	\$
	Other governmental funds	
Major fund #1	General Fund	
	Other governmental funds	
Major fund #2	General Fund	
	Other governmental funds	
Other governmental funds	General Fund	
Fiduciary funds	General Fund	
Total		<u>\$ -</u>

[Insert a summary description of the due from/to other funds transactions here.]

B. Advances To/From Other Funds

Receivable Fund	Payable Fund	Amount
General Fund	Major fund #1	\$
	Other governmental funds	
Major fund #1	General Fund	
	Major fund #2	
	Other governmental funds	
Major fund #2	General Fund	
	Major fund #1	
	Fiduciary funds	
Other governmental funds	General Fund	
	Major fund #2	
	Other governmental funds	
Fiduciary funds	General Fund	
Total		<u>\$ -</u>

[Insert a summary description of the advances to/from other funds transactions here.]

[The following note should be included if Sixteenth Section Principal Fund loans are reported with advances on the Balance Sheet. If advance is for another purpose, insert a basic summary description.]

Sixteenth section principal loans payable

Note: The sixteenth section principal loans payable are not reflected on the Statement of Net Position because these funds were borrowed by the General Fund from the Sixteenth Section Trust Fund (Permanent Trust) in accordance with Section 29-3-113, Miss. Code Ann. (1972). The revenues and expenditures associated with these transactions are reflected on the Statement of Revenues, Expenditures and Changes in Fund Balances. The interest rate on the sixteenth section principal loans payable as of June 30, 2025 is _____ percent.

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements

Note 4 – Restricted Assets

[Modify or omit this section if inapplicable. It should be presented as one paragraph, and the amounts disclosed should agree with the corresponding amounts on the Statement of Net Position.]

[Option 1]

The restricted assets represent the cash balance and investment balance, totaling \$ _____ and \$ _____, respectively, of the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs.

[Option 2]

In addition, the restricted assets represent the cash and investment balance, totaling \$ _____ and \$ _____, respectively, of the QZAB Bond Retirement Fund.

[Option 3]

In addition, the restricted assets represent the cash and investment balance, totaling \$ _____ and \$ _____, respectively, of the MAEP Limited Obligation Bond/Note Fund.

[Option 4]

In addition, the restricted assets represent the cash and investment balance, totaling \$ _____ and \$ _____, respectively, of the QSCB Bond Retirement Fund.

NOTE: Lease and SBITA assets should be disclosed separately from other capital assets both in total and by major classes of underlying assets. If you choose not to present these separate schedules you will need to break down leases by asset class in the fixed asset and debt rollforwards.

Notes to the Financial Statements
For Year Ended June 30, 2025

Leases

[The following is meant to provide disclosure guidelines based on GASB 87. Please update the note based on applicability and the leases of your school district. School districts should add any disclosures that are deemed necessary and remove any disclosures that are inapplicable. Please refer to GASB 87 for a full listing of required disclosures related to leases.]

Please ensure that all the required disclosures in red below and listed fully in GASB 87 are included in the report as applicable. The language in black below gives some examples of how disclosures could be worded. Please adjust disclosures based on the school district's leases. It is not required to prepare a separate lease note if the required disclosures are included elsewhere in the report. That is a matter of auditor judgement.]

As Lessee:

The school district is a lessee for various noncancellable leases of [buildings, equipment, etc.]. For leases that have a maximum possible term of 12 months or less at commencement, the school district recognizes expense based on the provisions of the lease contract. For all other leases, other than short term, the school district recognized a lease and an intangible right-to-use lease asset.

At lease commencement, the school district initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, plus lease payments made at or before the lease commencement date, plus any initial direct costs ancillary to placing the underlying asset into service, less any lease incentives received at or before the lease commencement date. Subsequently, the lease asset is amortized in [depreciation and amortization expense, lease expense, etc.] on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

The school district generally uses its [insert rate] as the discount rate for leases unless the rate that the lessor charges is known. [Describe how the school district determines the rate].

The lease term includes the noncancellable period of the lease plus any additional periods covered by either a school district or lessor option to extend for which it is reasonably certain to be exercised or terminate for which it is reasonably certain to not be exercised. Periods in which both the school district and the lessor have a unilateral option to terminate (or if both parties have agreed to extend) are excluded from the lease term.

A lessee should disclose the following about its lease activities (which may be grouped for purposes of disclosure), other than short-term leases:

- *A general descriptions of its leasing arrangements, including:*
 - o *The basis, terms, and conditions on which variable payments are determined and*
 - o *The existence, terms and conditions of residual value guarantees provided by the lessee*
- *The total amount of lease assets, and the related accumulated amortization disclosed separately from other capital assets*
- *The amount of lease assets by major classes of underlying assets, disclosed separately from other capital assets*
- *The amount of outflows of resources recognized in the reporting period for variable payments not previously included in the measurement of the lease liability*
- *The amount of outflows of resources recognized in the period for other payments not previously included in the liability*
- *Principal and interest requirements to maturity, presented separately, for the lease liability for each of the five subsequent fiscal years and in five-year increments thereafter*
- *Lease commitments for which the lease term has not yet begun*
- *The components of any loss associated with an impairment*

Notes to the Financial Statements
For Year Ended June 30, 2025

Additional disclosures also need to be made for the following transactions, if applicable:

- *Sublease transactions*
- *Sale-leaseback transactions*
- *Lease-leaseback transactions*

A lessee is not required to disclose collateral pledged as a security for a lease if that collateral is solely the asset underlying the lease.

<u>Year Ending June 30</u>	<u>Principal Payments</u>	<u>Interest Payments</u>	<u>Total</u>

As Lessor:

A lessor should disclose the following about its lease activities (which may be grouped for purposes of disclosure):

- *A general description of its leasing arrangements, including the basis, terms, and conditions on which any variable payments not included in the measurement of the lease receivable are determined*
- *The total amount of inflows recognized in the reporting period from leases, if that amount cannot be determined based on the face of the financial statements*
- *The amount of inflows of resources recognized in the reporting period for variable and other payments not previously included in the measurement of the lease receivable*
- *The existence, terms and conditions of options by the lessee to terminate the lease or abate payments if the lessor government has issued debt for which the principal and interest payments are secured by the lease payments*

Additional disclosures also need to be made for the following transactions, if applicable:

- *Leases of assets that are investments*
- *Certain regulated leases*
- *Sublease transactions*
- *Sale-leaseback transactions*
- *Lease-leaseback transactions*

Sixteenth Section Lands (Edit as appropriate with the implementation of GASB 87)

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future rental payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

SBITA

The following is meant to provide disclosure guidelines based on GASB 96. Please update the note based on applicability and the SBITA of your school district. School districts should add any disclosures that are deemed necessary and remove any disclosures that are inapplicable. Please refer to GASB 96 for a full listing of required disclosures related to SBITA.

The school district should disclose the following information about its SBITA (which may be grouped for purposes of disclosures):

- A general description of its SBITAs including the basis, terms, and conditions on which variable payments not included in the measurement of the liability are determined*
- The total amount of subscription assets, and the related accumulated amortization, disclosed separately from other capital assets*
- The amount of outflows of resources recognized in the reporting period for variable payments not previously included in the measurement of the subscription liability*
- The amount of outflows of resources recognized in the reporting period for other payments not included in the measurement of the subscription liability*
- The principal and interest requirements to maturity*
- Commitments under SBITAs before the commencement of the subscription term*
- The components of any loss associated with an impairment*

Note 7 – Long-term Liabilities

The following is a summary of changes in long-term liabilities and other obligations for governmental activities:

	Balance 7/1/2024	Additions	Reductions	Balance 6/30/2025	Amounts due within one year
A. General obligation bonds payable	\$	\$	\$	\$	- \$
General obligation refunding bonds payable					-
Premiums/Discounts (If applicable)					
B. Limited obligation bonds payable					-
Limited obligation refunding bonds payable					-
Premiums/Discounts (If applicable)					
C. Certificates of participation payable					-
D. Three mill notes payable					-
E. Transportation equipment loans payable					-
F. Shortfall notes payable					-
G. Obligations under leases**					-
H. Obligations under energy efficiency loans					-
I. Subscription IT liabilities					-
J. Installment purchases loans payable					-
K. Qualified zone academy bonds payable					-
L. Qualified school construction bonds payable					-
M. Other loans payable					-
N. Compensated absences payable*					-
Total	\$	- \$	- \$	- \$	-

*The change in the compensated absences liability is presented as a net change. (Compensated absences can be shown gross or net. If shown net, then this sentence must be included.)

** If lease and SBITA disclosures are presented in a separate note, they do not have to be included in the long-term liabilities note. Please add or remove as applicable.

Note: GAAP specifically require that the terms by which interest rates change for variable rate debt be disclosed. GASB Statement No. 38:10b; 2005 GAAFR pg 225.

Note: If the school district has pledged future revenue to repay debt, the following items are required to be disclosed, GASB Statement No. 48.

1. Specific revenue pledged and the approximate amount of the pledge.
2. Purpose of the debt secured by the pledge.
3. Term of the commitment (i.e. period during which the revenue will not be available.)
4. Relationship of the pledged amount of the revenue to the total for that specific revenue.
5. Comparison of the pledged revenues recognized during the period to the principal and interest requirements for the debt directly or indirectly collateralized by those revenues.

Note: Debt issued at a premium or discount should be reported and disclosed at its face amount with the discount or premium shown separately as a direct deduction from or addition to the amount of the debt.

Note: GASB 88 (implemented in fiscal year 2020) defines *debt* as a liability that arises from a contractual obligation to pay cash (or another financial asset) in one or more payments to settle an amount that is fixed at the date when the contractual obligation is established.

Additional disclosures include:

Notes to the Financial Statements
For Year Ended June 30, 2025

- a. Amount of unused lines of credit.
- b. Assets pledged as collateral for debt.
- c. Terms specified in debt agreements related to significant events of default with finance-related consequences, termination events with finance-related consequences, and subjective acceleration clauses.

Notes should separate information about direct borrowings and direct placement of debt from other debt.

See GASB 88 for further details and illustrations.

See GASB 101 for changes in compensated absences liability presentation.

A. General obligation bonds payable

General obligation bonds are direct obligations and pledge the full faith and credit of the school district. General obligation bonds currently outstanding are as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
1.				\$	\$
2.					
Total				\$ -	\$ -

The following is a schedule by years of the total payments due on this debt:

- 1. General obligation bond issue of [Date]:

Year Ending June 30	Principal	Interest	Total
2026	\$	\$	\$
2027			-
2028			-
2029			-
2030			-

Total	\$ -	\$ -	\$ -

The amount of bonded indebtedness that can be incurred by the school district is limited by Sections 37-59-5 and 37-59-7, Miss. Code Ann. (1972). Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, unless certain conditions, as set forth in Section 37-59-7, Miss. Code Ann. (1972) have been met. As of June 30, 2025, the amount of outstanding bonded indebtedness was equal to ____% of property assessments as of October 1, 2024.

[NOTE: If the district refunded debt in the current fiscal year, where the proceeds of new debt was placed with an escrow agent to pay the old debt in a future year, include the following information.

If the district has refunded bonds/notes in prior years, insert a separate disclosure, "Prior Year Defeasance of Debt" – See Report Model, Note 7, for example disclosure.]

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

Advance Refunding

On [date], the district issued \$_____ in [type of debt issuance] with an average interest rate of ____% to advance refund \$_____ of outstanding [type of debt issuance] with an average interest rate of ____%. The net proceeds of \$_____ after payments of \$_____ for issuance costs were deposited in an irrevocable trust with an escrow agent to provide for all future debt payment requirements on the [type of debt issuance].

As a result, the [original debt issuance] are considered to be defeased and the liability for those bonds [certificates, notes, etc.] has been removed from long-term liabilities.

The district advance refunded the [original debt issuance] to reduce its total debt service payments over the remaining ____ years of the debt by approximately \$_____ and to realize an economic gain of \$_____.

Current Refunding

On [date], the School District issued \$_____ in general obligation refunding bonds with an average interest rate of ____% to refund \$_____ of the following outstanding bond issue(s):

Issue	Average Interest Rate	Outstanding Amount Refunded
	0.00%	\$ -
	0.00%	-
	0.00%	-

(Note to Preparer: Choose appropriate sentence as to the reason for the current refunding and/or edit as necessary.)

The School District refunded the above bonds to reduce its total debt service payments over the next ____ years by almost \$_____ and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$_____.

The School District refunded the above bonds to reduce its total debt service payments over the next ____ years by almost \$_____; however, the refunding resulted in an economic loss of \$_____.

K. Qualified zone academy bonds payable

As more fully explained in Note ___, debt has been issued by the school district that qualifies as Qualified Zone Academy bonds. Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
1.	**			\$	\$
2.					
Total				\$	- \$

L. Qualified school construction bonds payable

As more fully explained in Note ___, debt has been issued by the school district that qualifies as Qualified School Construction bonds. Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
1.	**			\$	\$
2.					
Total				\$	- \$

** [If debt is interest-bearing, a debt maturity schedule should be disclosed.]

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

M. Other loans payable

The school district has issued debt instruments granted under the authority of [input applicable state statute].

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
1.				\$	\$
2.					
Total				\$ -	\$ -

The following is a schedule by years of the total payments due on this debt:

1. Other loan issue of [Date]:

Year Ending June 30	Principal	Interest	Total
2026	\$	\$	\$ -
2027			-
2028			-
2029			-
2030			-
2031 – 2035			-
2036 – 2040			-
2041 – 2045			-
2046 – 2050			-
Total	\$ -	\$ -	\$ -

This debt will be retired from the [input fund].

2. Other loan issue of [Date]:

Year Ending June 30	Principal	Interest	Total
2026	\$	\$	\$ -
2027			-
2028			-
2029			-
2030			-

Total	\$	- \$	- \$

N. Compensated absences payable

As more fully explained in Note 1(E)(8), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid. (This last sentence is no longer a requirement according to GASB 101.)

Note 8 – Prior Year Defeasance of Debt

In prior years, the [input] School District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the district's financial statements. On June 30, 2025, \$_____ of bonds outstanding are defeased.

[Note: If you have "in-substance defeasance" treating debt as *extinguished* for financial accounting purposes, please refer to GASB Statement No. 86.]

Note 9 – Impairment of Assets

During the current fiscal year, the [input] School District has recognized that the following assets qualified as impaired due to [description of the impairment].

Governmental Type Activities:

Classification (Instruction, Support Services, etc.)	Asset Qualifying As Impaired	Historical Cost	Less: Accumulated Depreciation	Carrying Value	Recognized Property Insurance Recovery	(Gain) Loss
	\$	\$	\$	- \$	\$	-
				-		-
				-		-
				-		-
				-		-
				-		-
Total Governmental Activities	\$	- \$	- \$	- \$	- \$	-

Notes to the Financial Statements
For Year Ended June 30, 2025

This impairment loss is reported on the financial statements as a *[program expense, operating expense, special item, or extraordinary item]*.

Note 10 – Short-Term Financing

During the fiscal year ended June 30, 2025, the school district participated in the following short-term financing(s) for the purpose of _____:

[Option 1]

- A. Mississippi School Boards Association (MSBA) cash flow management program.

Under this program, the school district issued a revenue anticipation note payable, and the proceeds from such issuance were held by the financial institution serving as trustee under the program. The school district made periodic withdrawals from the trustee based on its cash flow needs. A fixed rate of return was earned on the investable note proceeds held by the trustee, and such earnings were used to cover the interest and related issuance costs of the note. Depending upon whether the earnings were more or less than the interest and related issuance costs, the school district received a distribution from or made a payment to the trustee.

All transactions related to participation in this program are accounted for as part of the school district's General Fund.

[Option 1a - NOTE: Add the following paragraph if the note matures AFTER June 30]

The revenue anticipation note payable did not mature until after the end of the current fiscal year; however, the school district repaid any withdrawals to the trustee prior to the end of the current fiscal year. Consequently, the note is reflected as a fund liability, not as a long-term liability. The current balance at June 30, 2025, was \$_____.

[This disclosure should also address how the district intends to finance the repayment of the short-term debt outstanding at the end of the period (for instance, repayment from operating revenues, a rollover of the obligations, or replacement with long-term debt.)]

[Option 2]

- A. Bank-financed short term debt.

The school district issued a revenue anticipation note payable to *[input]*, and the proceeds from such issuance are accounted for as a current liability in the *[input]* fund of the school district. Once the cash flow was available, the district made a payment consisting of principal and interest to the trustee.

All transactions related to participation in this program are accounted for as part of the school district's General Fund.

- B. Changes in short-term debt activity recorded in the governmental activities during fiscal year 2025 are as follows:

[List all short term individual debt instruments, including Tax/Revenue Anticipation Notes.]

Note 11 – Other Commitments

[NOTE: The following two statements may not apply. Remove the statement(s) that does/do not apply.]

Commitments under construction contracts are described in Note ____.

Commitments under re-roofing and renovation contracts amount to \$ ____.

Note 12 – Defined Benefit Pension Plan

General Information about the Pension Plan

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report is available at www.pers.ms.gov.

Benefits provided. Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

Notes to the Financial Statements
For Year Ended June 30, 2025

Contributions. PERS members are required to contribute 9.00% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The employer's rate as of June 30, 2025 was 17.40% of annual covered payroll. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Section 25-11-1 of the Mississippi Code of 1972, as amended, and may be amended only by the Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2025, 2024 and 2023 were \$_____, \$_____ and \$_____, respectively, which equaled the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the school district reported a liability of \$_____ for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the school district's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The school district's proportionate share used to calculate the June 30, 2025 net pension liability was ____ percent, which was based on a measurement date of June 30, 2024. This was an increase/decrease of _____ percent from its proportionate share used to calculate the June 30, 2024 net pension liability, which was based on a measurement date of June 30, 2023.

[If there are changes of benefit terms that affected the measurement of the total pension liability since the prior measurement date, the District should disclose information required by paragraph 80(e) of GASB Statement No. 68 here. If changes expected to have a significant effect on the measurement of the District's proportionate share of the net pension liability had occurred between the measurement date and the reporting date, the District should disclose information required by paragraph 80(f) of GASB Statement No. 68 here.]

For the year ended June 30, 2025, the District recognized pension expense of \$_____. At June 30, 2025 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$
Net difference between projected and actual earnings on pension plan investments***		
Changes of assumptions		
Changes in proportion and differences between District contributions and proportionate share of contributions		
District contributions subsequent to the measurement date		
Total	\$ _____	\$ _____

[***Note: "Net difference between projected and actual earnings on pension plan investments" is the only deferred item that shall be presented net. All other deferred items should be gross.]

\$_____ reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended June 30, 2026. [Remove previous sentence if not applicable.] Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Notes to the Financial Statements
For Year Ended June 30, 2025

Year Ending June 30:

2026 \$
2027
2028
2029
2030

Actuarial assumptions. The total pension liability as of June 30, 2024 was determined by an actuarial valuation prepared as of June 30, 2023 and by the investment experience for the fiscal year ending June 30, 2024. The following actuarial assumptions are applied to all periods included in the measurement:

Inflation	2.40 percent
Salary increases	2.65 – 17.90 percent, including inflation
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates for service retirees were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to age 60, 110% for ages 61 to 75 and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates for disability retirees were based on the PubG.H-2010 Disabled Table adjusted 134% for males and 121% for females. Mortality rates for Contingent Annuitants were based on the PubS.H-2010(B) Contingent Annuitant Table, adjusted 97% for males and 110% for females. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The actuarial assumptions used for the purposes of determining the total pension liability were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2022. The experience report is dated April 21, 2023.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The most recent target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>		<u>Long-Term Expected Real Rate of Return</u>	
Domestic Equity	25.00	%	5.15	%
International Equity	20.00		5.00	
Global Equity	12.00		5.15	
Fixed Income	18.00		2.75	
Real Estate	10.00		3.50	
Private Equity	10.00		6.25	
Infrastructure	2.00		3.85	
Private Credit	2.00		4.90	
Cash Equivalents	1.00		0.50	
Total	100	%		

Discount rate. The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be phased in to 19.90 percent

Notes to the Financial Statements
For Year Ended June 30, 2025

over five fiscal years (17.90 percent for FYE 2025, 18.40 percent for FYE 2026, 18.90 percent for FYE 2027, 19.40 percent for FYE 2028, 19.90 percent for FYE 2029 and beyond). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$	\$	\$

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

[If the District reported payables to the defined benefit pension plan, it should disclose information required by paragraph 122 of Statement 68.]

Note 13 – Other Postemployment Benefits (OPEB)

[If the District's employees were provided with benefits through more than one defined benefit OPEB plan, the District should disclose information required by paragraph 89 of GASB Statement No. 75 and should apply the requirements of paragraph 90 of this Statement.]

General Information about the OPEB Plan.

Plan description. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). The Plan was established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan. The Board has the sole legal authority to promulgate rules and regulations governing the operations of the Plan within the confines of the law governing the Plan. The Plan is self-insured and is financed through premiums collected from employers, employees, retirees and COBRA participants. The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan. The plan issues a publicly available financial report that can be obtained at <http://knowyourbenefits.dfa.ms.gov/>.

Benefits provided.

The Plan was formed by the State Legislature to provide group health and life benefits to full-time active and retired employees of the State, agencies, universities, community/junior colleges, public school districts and public libraries. In addition, the spouse and/or children of covered employees and retirees, as well as surviving spouses and COBRA participants, may be eligible for health insurance coverage under the Plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active

Notes to the Financial Statements
For Year Ended June 30, 2025

employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan. Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance. The Plan offers a Base option and a Select option for health benefits for non-Medicare participants. The Plan includes a separate coverage level for Medicare eligible retirees, Medicare Eligible surviving spouses, and Medicare eligible dependents of retirees and surviving spouses.

Contributions.

The Board has the sole authority for setting life and health insurance premiums for the Plan. The required premiums vary based on the plan selected and the type of participant. Employers pay no premiums for retirees while employees' premiums are funded primarily by their employer. Contributions to the OPEB plan from the District were \$_____ for the year ended June 30, 2025.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

At June 30, 2025, the District reported a liability of \$_____ for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The basis for the District's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the Plan in the fiscal year of all employers. The allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by the employee. At the measurement date of June 30, 2024, the District's proportion was _____ percent. This was an increase/decrease of _____ percent from the proportionate share as of the measurement date of June 30, 2023. [\[Remove previous sentence if not applicable.\]](#)

For the year ended June 30, 2025, the District recognized OPEB expense of \$_____. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$
Changes of assumptions		
Net difference between projected and actual earnings on OPEB plan investments		
Changes in proportion and differences between District contributions and proportionate share of contributions		
District contributions subsequent to the measurement date		
Total	\$ _____	\$ _____

\$_____ reported as deferred outflows of resources related to OPEB resulting from school district

Notes to the Financial Statements
For Year Ended June 30, 2025

contributions subsequent to the measurement date will be recognized as a reduction to the net OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30:

2026	\$
2027	
2028	
2029	
2030	
2031	

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2024, using the following key actuarial assumptions and other inputs:

Inflation	2.40 percent
Salary increases	2.65-17.90 percent, including wage inflation
Municipal Bond Index Rate	
Measurement Date	3.94%
Prior Measurement Date	3.66%
Year FNP is projected to be depleted	
Measurement Date	2024
Prior Measurement Date	2023
Single Equivalent Interest Rate, net of OPEB plan investment expense, including price inflation	
Measurement Date	3.94%
Prior Measurement Date	3.66%
Health Care Cost Trends	
Medicare Supplement Claims	6.00% for 2025 decreasing to an ultimate rate of 4.50% by 2029 FYE
Pre-Medicare	

Mortality rates for service retirees were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to age 60, 110% for ages 61 to 75 and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates for disability retirees were based on the PubG.H-2010 Disabled Table adjusted 134% for males and 121% for females. Mortality rates for Contingent Annuitants were based on the PubS.H-2010(B) Contingent Annuitant Table, adjusted 97% for males and 110% for females. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The demographic actuarial assumptions used in the June 30, 2024 valuation were based on the results of the last actuarial experience study, dated April 21, 2023.

Notes to the Financial Statements
For Year Ended June 30, 2025

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2024 valuation were based on a review of recent plan experience done concurrently with the June 30, 2024 valuation.

[If the benefit terms included ad hoc postemployment benefit changes, the District should disclose information about assumptions related to those terms, as required by paragraph 92 of GASB Statement No. 75.]

The long-term expected rate of return on OPEB plan investments is 4.50%.

Discount rate. The discount rate used to measure the total OPEB liability at June 30, 2024 was 3.94 percent. Since the Prior Measurement Date, the Discount Rate has changed from 3.66% to 3.94%.

The trust was established on June 28, 2018 with an initial contribution of \$1,000,000. As of June 30, 2024, the trust has \$1,104,394. The fiduciary net position is projected to be depleted immediately, therefore, the Municipal Bond Index Rate is used in the determination of the discount rate for both the June 30, 2023 and the June 30, 2024 total OPEB liability. The discount rate used to measure the total OPEB liability at June 30, 2024 was based on a monthly average of the Bond Buyers General Obligation 20-year Municipal Bond Index Rate.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.94 percent) or 1-percentage-point higher (4.94 percent) than the current discount rate:

	1% Decrease (2.94%)	Current Discount Rate (3.94%)	1% Increase (4.94%)
Net OPEB liability	\$	\$	\$

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Healthcare Cost Trend Rates Current	1% Increase
Net OPEB liability	\$	\$	\$

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in a separately issued report that can be found at <http://knowyourbenefits.dfa.ms.gov/>.

Payables to the OPEB Plan

[If the District reported payables to the defined benefit OPEB plan, it should disclose information required by paragraph 142 of GASB Statement No. 75.]

Notes to the Financial Statements
For Year Ended June 30, 2025

Note 14 – Deficit Fund Balance of Individual Funds

[Option 1 - Only the district maintenance fund has a deficit fund balance]

The District Maintenance Fund, included in the General Fund for financial reporting purposes, has a deficit fund balance in the amount of \$_____. The deficit fund balance of the District Maintenance Fund is in violation of Section 37-61-19, Miss. Code Ann. (1972), which imposes personal liability on any school official who knowingly enters into any contract, incurs any liability, or makes any expenditure in excess of the resources available for the fiscal year under certain circumstances.

[Option 2 - Use the following language if two or more funds, including the District Maintenance Fund, have deficit fund balances.]

A general listing of the individual funds that have a deficit fund balance, including amounts of the deficit, is as follows:

<u>Fund</u>	<u>Fund Balance</u>
	\$

The deficit fund balances, as listed above, are in violation of Section 37-61-19, Miss. Code Ann. (1972), which imposes personal liability on any school official who knowingly enters into any contract, incurs any liability, or makes any expenditure in excess of the resources available for the fiscal year under certain circumstances.

[Option 3 - Use the following language if only one fund other than the District Maintenance Fund has a deficit fund balance, and the District Maintenance Fund has available funds to cover the deficit.]

The [input] Fund has a deficit fund balance in the amount of \$_____.

The deficit fund balance is in violation of Section 37-61-19, Miss. Code Ann. (1972). However, this deficit could have been eliminated with a transfer from the District Maintenance Fund (General Fund). Section 37-61-21, Miss. Code Ann. (1972), allows the school board of the school district, with the assistance from the superintendent, to transfer resources to and from functions and funds within the budget when and where needed under certain circumstances.

[Option 4 - Use the following language if two or more funds other than the District Maintenance Fund have deficit fund balances, and the District Maintenance Fund has available funds to cover the deficits.]

A general listing of the individual funds that have a deficit fund balance, including amounts of the deficit, is as follows:

<u>Fund</u>	<u>Fund Balance</u>
	\$

The deficit fund balances, as listed above, are in violation of Section 37-61-19, Miss. Code Ann. (1972). These deficits could have been eliminated with a transfer from the District Maintenance Fund (General Fund). Section 37-61-21, Miss. Code Ann. (1972), allows the school board of the school district, with the assistance from the superintendent, to transfer resources to and from functions and funds within the budget when and where needed under certain circumstances.

[Option 5 - Use the following language if two or more funds other than the District Maintenance Fund have deficit fund balances, and the District Maintenance Fund DOES NOT have available funds to cover the

Notes to the Financial Statements
For Year Ended June 30, 2025

deficits]

A general listing of the individual funds that have a deficit fund balance, including amounts of the deficit, is as follows:

Fund	Fund Balance
	\$

The deficit fund balances are in violation of Section 37-61-19, Miss. Code Ann. (1972). Section 37-61-21, Miss. Code Ann. (1972), allows the school board of the school district, with the assistance from the superintendent, to transfer resources to and from functions and funds within the budget when and where needed under certain circumstances. However, funds are not available to eliminate these deficits. Section 37-61-19, Miss. Code Ann. (1972), imposes personal liability on any school official who knowingly enters into any contract, incurs any liability, or makes any expenditure in excess of the resources available for the fiscal year under certain circumstances.

Note 15 – Adjustments and Restatements of Beginning Balances

Change in Accounting Principle or Estimate

{Describe the nature of and reason for the change in accounting principle or estimate that occurred during the fiscal year and the effect it had on the financial statements.}

Changes to or within the Financial Reporting Entity

Change in Component Unit Presentation

{Describe the nature of and reason for the change in component unit presentation that occurred during the fiscal year and the effect it had on the financial statements. See example paragraph in GASB 100.}

Addition of Discretely Presented Component Unit

{Describe the nature of and reason for the addition of a discretely presented component unit that occurred during the fiscal year and the effect it had on the financial statements. See example paragraph in GASB 100.}

Correction of an Error in Previously Issued Financial Statements

{Describe the nature of the error in previously issued financial statements that was corrected during the fiscal year and the effect it had on the financial statements. See example paragraph in GASB 100.}

Adjustments to and Restatements of Beginning Balances

During fiscal year 2025, changes to or within the financial reporting entity, change in accounting principle, and an error correction resulted in adjustments to and restatements of beginning net position and fund balance, as follows:

		Reporting Units Affected by Adjustments to and Restatements of Beginning Balances						
		Funds			Government-Wide		Component Unit	
		General Fund	Fund	Other Governmental Funds	Governmental Activities	Business-Type Activities	CU 1	CU 2
July 1, 2024, as previously reported								
	Change from major to nonmajor fund							
	Change from blended to discrete presentation							
	Change in accounting principle							
	Error correction							
July 1, 2024, as adjusted or restated		\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Note: Only include items applicable to the school district. Edit if necessary.

Notes to the Financial Statements
For Year Ended June 30, 2025

Note 16 – Contingencies

Federal Grants – The school district has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from the grantor audit may become a liability of the school district.

Litigation – [EXAMPLE]>> The school district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to the various proceedings. However, the school district's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the school district.

Note 17 – Contingent Liabilities

[NOTE: This note refers to excessive interest revenue earned on debt proceeds above interest paid on the debt. The calculation would be made by a bond attorney or some other expert.]

During the year ended June 30, 2025, the district issued \$_____ in [general obligation bonds] for [capital improvements].

The Internal Revenue Code (IRC) and Arbitrage Rebate Regulations issued by the Internal Revenue Service (IRS) require a rebate to the Federal Government of excess investment earnings on bond proceeds if the yield on those earnings exceeds the effective yield on the related tax-exempt bonds issued. Excess earnings must be rebated every five years, or upon maturity of the bonds, whichever is earlier.

[Option 1 - No calculation was made by the school district]

During the current year, the arbitrage calculation was not made.

[Option 2 - Calculation was made and the school district possibly may owe money to the IRS]

The arbitrage calculation resulted in \$_____ of possible excess earnings, which has the potential of being rebated to the IRS. This amount is reported as a reserve for arbitrage commitments in the _____ Fund.

Note 18 – Risk Management

[Option 1 - Use if the school district only has commercial insurance to cover claims]

The school district is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

[Option 2 - Use if the school district belongs to a risk pool for coverage]

The school district is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Participation in Public Entity Risk Pool

[NOTE: Select the option(s) that apply.]

[Option 2a]

The school district is a member of the Mississippi School Boards Association Workers' Compensation Trust

Notes to the Financial Statements
For Year Ended June 30, 2025

(MSBAWCT). The trust is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. The trust consists of approximately 58 school districts and covers risks of loss arising from injuries to the members' employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of MSBAWCT contributes quarterly to a fund held in trust by Wells Fargo in Portland, Oregon. The funds in the trust account are used to pay any claim up to \$750,000. For a claim exceeding \$750,000, MSBAWCT has insurance which will pay the excess to the statutory amount required by the Mississippi Workers' Compensation Commission Act. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. [The district has not had an additional assessment for excess losses incurred by the pool.]

Note: There has been only one assessment in the history of the pool, which was for a group of fund years from 10/01/1993 through 09/30/2004; if an additional assessment applied to the District on September 30, 2005 is still outstanding, replace the last sentence with the following paragraph:

On September 30, 2005, [input] School District was assessed an additional assessment of \$____. The balance of the additional assessment as of June 30, 2025 was \$____. This assessment is allowed to be repaid at a rate of 5% of their current premium per year until the total assessment is fully paid as long as they continue as members. If a member leaves the pool, they must repay the complete balance of the assessment within two years in equal installments.

[Option 2b]

The school district is a member of the Mississippi Municipal Workers' Compensation Group (MMWCG). The group is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. MMWCG covers risks of loss arising from injuries to the school district's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of the MMWCG contributes quarterly to a fund held in trust. The funds in the trust account are used to pay any claim up to \$500,000. For a claim exceeding \$500,000, MMWCG has insurance which will pay the excess up to the statutory amount required by the Mississippi Workers' Compensation Commission Act. If total claims during a year were to deplete the trust account, then the pool members would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the pool.

[Option 2c]

The school district is a member of the Mississippi School Boards Association Property Trust (MSBAPT). The Trust is a risk sharing pool; such a pool is frequently referred to as a self-insurance pool. The Trust consists of approximately 77 school districts and covers losses associated with property damage to the physical assets owned by the member districts. An indemnity agreement is executed by each member in the Trust for the purposes of jointly and severally binding the pool and each of the members/districts to meet the financial obligations of each member. Each member of the Trust contributes annually to a fund held in trust by Bank of America in Danville, Illinois. The funds in the trust account are used to pay any claim up to \$150,000 per occurrence. For a claim/occurrence exceeding \$150,000 the Trust has secured excess insurance. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the Trust.

[Option 2d]

The school district is a member of the Mississippi School Boards Association Casualty Trust (MSBACT). The Trust is a risk sharing pool; such a pool is frequently referred to as a self-insurance pool. The Trust consists of approximately 77 school districts and covers liability related losses the member may be responsible for through General Liability, Automobile Liability and School Board Legal Liability. An indemnity agreement is executed by each member in the Trust for the purposes of jointly and severally binding the pool and each of the members/districts to meet the financial obligations of each member. Each

Notes to the Financial Statements
For Year Ended June 30, 2025

member of the Trust contributes annually to a fund held in trust by Bank of America in Danville, Illinois. The funds in the trust account are used to pay any claim up to \$150,000 per occurrence. For a claim/occurrence exceeding \$150,000 the Trust has secured excess insurance. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the Trust.

Note 19 – Uncertainties

In cases where a township is occupied by two or more school districts, state law requires that available sixteenth section funds shall be divided between the school districts lying wholly or partly within such townships in proportion to the number of children enrolled and residing in each school district. In order to determine what portions of available sixteenth section funds are due to or from other school districts, the superintendent of each school district is required to compile lists of such children in compliance with Section 29-3-121, Miss. Code Ann. (1972). Because none of the school districts which share townships with [input] School District nor the [input] School District itself filed lists of children as required, no division of sixteenth section revenues has been accrued as a receivable or payable, as the case may be.

Of the townships with which [input] School District is shared by other school districts, [input] School District has control of some of the sixteenth section property. A portion of the sixteenth section revenues (rents, leases, timber sales, etc.) to which [input] School District received on these sections may be due other school districts. In addition, for the other townships where another school district controls the sixteenth section property, [input] School District may be entitled to a portion of the sixteenth section revenues that the other school district received. Because none of the school districts compiled and filed lists of educable children as state law requires in either the current year or in preceding years, neither the amounts of any liabilities owed to other school districts nor the amounts of any receivables due from other school districts can be determined.

Note 20 – Trust Certificates

A trust agreement dated [date of agreement], was executed by and between the school district and [input], as trustees.

The trust agreement authorized the issuance of trust certificates in the principal amount of \$_____. Approximately \$_____ was used to provide financing for the construction and renovation of school buildings and related facilities and equipment (the "project"); the remainder of approximately \$_____ was used to pay the cost of issuance.

The project is loaned to the school district in accordance with the provisions of the Emergency School Leasing Authority Act as described in Section 37-7-351, et seq., Miss. Code Ann. (1972). The agreement transfers ownership of the project to the school district upon complete retirement of the trust certificates. The school district is obligated to make payments to the trustee in an amount equal to the debt service requirements for the trust certificates. The payments by the school district are used by the trustee to pay the principal and interest payments due on the trust certificates.

It is not anticipated the project will have sufficient value to satisfy the certificates in the event the school district defaults; therefore, the source of payment of the certificates is the responsibility of the school district. See Note ___ for details regarding the debt service requirement on the trust certificates.

Using the guidance provided in Section 2100 of the *Codification of Governmental Accounting and Financial Reporting Standards* dealing with defining the reporting entity, the trust accounts created by this trust agreement were deemed to constitute an inseparable part of the school district. Therefore, the assets, liabilities, fund balances, revenues, expenditures and other financing sources/uses of the trust accounts created by this trust agreement are part of the school district's financial statements, thereby eliminating the effects of the agreement for financial reporting purposes.

Notes to the Financial Statements
For Year Ended June 30, 2025

Note 21 – Qualified Zone Academy Bonds

Section 226 of the Taxpayer Relief Act of 1997 (Public Law 105-34) provides for a source of capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the establishment of special academic programs from kindergarten through secondary school, in partnership with the business community. The school district, in agreement with [insert partner], has entered into such an arrangement dated [date of arrangement]. [NOTE: Describe the arrangement].

This agreement establishes a method of repayment for a qualified interest-free debt instrument. The agreement requires the school district to deposit funds annually into a sinking fund account on or before [insert date(s) or time frame]. The amount on deposit at June 30, 2025 was \$_____. The amount accumulated in the sinking fund at the end of the ten-year period will be sufficient to retire the debt. The following schedule reports the annual deposits to be made to the sinking fund by the school district:

Year Ending June 30	Amount
2026	\$
2027	
2028	
2029	
2030	
Thereafter	
Total	\$ _____ -

Note 22 – Qualified School Construction Bonds

Section 1521 of the American Recovery and Reinvestment Act (ARRA) of 2009 provides for a source of capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the construction, rehabilitation or repair of a public school facility or for the acquisition of land where a school will be built. Investors receive Federal income tax credits at prescribed tax credit rates in lieu of interest, which essentially allows state and local governments to borrow without incurring interest costs. While Qualified School Construction Bonds (QSCBs) are intended to be interest free to a borrower, the ARRA legislation allows a lender to charge supplemental interest, and such supplemental interest is the responsibility of the school district.

When the stated interest rate on the QSCB results in interest payments that exceed the supplemental interest payments discussed in the preceding paragraph, the school district may apply for a direct cash subsidy payment from the U.S. Treasury which is intended to reduce the stated interest rate to a nominal percentage. These subsidy payments do not include the amount of any supplemental interest paid on a QSCB. For the year ended June 30, 2025, the subsidy payments amounted to \$_____. [If debt is interest-bearing and no subsidy payments were received, please disclose the reasons.]

The school district makes equal annual payments into a sinking fund which is used to pay off the bonds at termination. The current maturity limit of tax credit bonds is 17 years, per the U. S. Treasury Department. Under this program, ten percent of the proceeds must be subject to a binding commitment to be spent within six months of issuance and 100% must be spent within three years. Up to two percent of bond proceeds can be used to pay costs of issuance. The amount on deposit at June 30, 2025 was \$_____. The amount accumulated in the sinking fund at the end of the seventeen-year period is expected to be sufficient to retire the debt. The following schedule reports the annual deposits to be made to the sinking fund by the school district.

[INPUT] SCHOOL DISTRICT

NOTE: Amount in sinking fund disclosed in this note should also be disclosed in Note 4 as a restricted asset.

Note 23 – Alternative School Consortium

The school district entered into an Alternative School Agreement dated [date of agreement] creating the [Name of the consortium]. This consortium was created pursuant to the provisions of Section 37-13-92 (6), Miss. Code Ann. (1972), and approved by the Mississippi Department of Education and includes the [input] School District, [input] School District and [input] School District.

Section 37-13-92 (6), Miss. Code Ann. (1972), allows two or more adjacent school districts to enter into a contract to operate an alternative school program. The school board of the school district designated by the agreement as the lead district will serve as the governing board of the alternative school program. Transportation for students attending the alternative school program will be the responsibility of the individual school district sending the students.

The [input] School District has been designated as the lead school district for the [Name of the consortium], and the operations of the consortium are included in its financial statements.

[Option 1 - NOTE: Only where the school district is acting as the agent of record would the following financial information be included.]

The following Statement of Revenues, Expenditures and Changes in Fund Balances is presented to detail the financial activity of the [Name of the consortium].

Note 24 – Vocational School Consortium

The school district entered into a Vocational Educational Agreement dated [date of agreement] creating the [Name of the consortium]. This consortium was created pursuant to the provisions of Section 37-31-73, Miss. Code Ann. (1972), and approved by the Mississippi Department of Education. The consortium includes the [List all individual school districts, counties, municipalities and/or community/junior colleges].

Section 37-31-73, Miss. Code Ann. (1972), authorizes the above noted entities to enter into an agreement that would provide for the construction or operation of a regional vocational education center. Any such agreement should provide for a designated fiscal agent, providing the method of financing the construction and operation of such facilities, the manner in which such facilities are to be controlled and staffed and detail procedures for student admission and transportation services for those students.

[INPUT] SCHOOL DISTRICT

Notes to the Financial Statements
For Year Ended June 30, 2025

Note 25 - Insurance loss recoveries

The [input] School District received \$_____ in insurance loss recoveries related to _____ damage during the 2024-2025 fiscal year. In the government-wide Statement of Activities, the insurance loss recoveries were reported as [charges for services] and allocated among the expense functions based on the following percentages:

Insurance Loss Recoveries	Percentage	Expense Function
\$ _____	#DIV/0!	Instruction
	#DIV/0!	Support services
	#DIV/0!	Non-instructional
\$ -	#DIV/0!	

Note 26 – Effect of Deferred Amounts on Net Position

[This is an illustrative disclosure showing an example disclosure where a deferred inflow and/or outflow had a significant effect on net position. Note should be adjusted based on the specific circumstances of the school district. Based on GASB Statement No. 63, paragraphs 13 and 14 disclosures need to be made to show the detail of the different types of deferred amounts unless the significant components are presented on the face of the financial statements and disclosures should be made to explain the significant effects of deferred amounts on net position, if any.]

The unrestricted net position amount of \$ _____ includes the effect of deferring the recognition of expenses resulting from a deferred outflow from pensions. A portion of the deferred outflow of resources related to pension in the amount of \$ _____ resulting from the school district contribution subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. The \$ _____ balance of deferred outflow of resources related to pensions, at June 30, 2025 will be recognized as an expense and will decrease the unrestricted net position over the next 3 or 4 years.

The unrestricted net position amount of \$ _____ includes the effect of deferring the recognition of revenue resulting from a deferred inflow from pensions. The \$ _____ balance of deferred inflow of resources related to pensions, at June 30, 2025 will be recognized as revenue and will increase the unrestricted net position over the next 3 or 4 years.

The unrestricted net position amount of \$ _____ includes the effect of deferring the recognition of expenses resulting from a deferred outflow from OPEB. A portion of the deferred outflow of resources related to OPEB in the amount of \$ _____ resulting from the school district contribution subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2026. The \$ _____ balance of deferred outflow of resources related to OPEB, at June 30, 2025 will be recognized as an expense and will decrease the unrestricted net position over the next 6 years.

The unrestricted net position amount of \$ _____ includes the effect of deferring the recognition of revenue resulting from a deferred inflow from OPEB. The \$ _____ balance of deferred inflow of resources related to OPEB, at June 30, 2025 will be recognized as revenue and will increase the unrestricted net position over the next 6 years.

Note 28 – Extraordinary Items and/or Special Items

Note 29 – Asset Retirement Obligations

[Per GASB 83 (effective for fiscal year end 6/30/19), if certain asset retirement obligations exist, please include note disclosures that will provide a general description of the asset retirement obligations and associated tangible capital assets; the methods and assumptions used to measure the liabilities; the estimated remaining useful lives of the associated capital assets; how any legal requirements to set aside assets restricted for payment of asset retirement obligations are being met (for example, through surety bonds, insurance policies, letters of credit, guarantees by other entities, or funding trusts); and the amount of the restricted assets (unless they are separately displayed in the financial statements). The reasons for not recognizing an asset retirement obligation that has been incurred but is not reasonably estimable would also have to be disclosed. See GASB 83 for further guidance and examples.]

Note 30 - Subsequent Events

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of the [input] School District evaluated the activity of the district through [insert date], (the date the financial statements were available to be issued), and determined that the following subsequent event(s) has (have) occurred requiring disclosure in the notes to the financial statements:

[Provide details of subsequent events.]

[SCHOOL DISTRICTS USING THIS MODEL FOR DISCLOSURES SHOULD ADD ANY ADDITIONAL DISCLOSURES THAT ARE DEEMED NECESSARY AND REMOVE ANY DISCLOSURES THAT ARE INAPPLICABLE. THE ABOVE SHOULD ONLY BE USED AS A GUIDE.]

However, GASB Statement No. 75 was implemented in FYE 6/30/2018, and, until a full 10-year trend is compiled, the District has only presented information for the years in which information is available. Prior year information is based on historical amounts reported in prior year audit report(s).

[NOTE: This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, Districts should present information for those years for which information is available.]

Notes to Required Supplementary Information

Budgetary Comparison Schedule

(1) Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

(2) Budget Amendments and Revisions

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15. A budgetary comparison is presented for the General Fund and each major Special Revenue Fund (*if applicable*) consistent with accounting principles generally accepted in the United States of America.

Pension Schedules

(1) *Changes of assumptions*

2015:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

2016:

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

2017:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

The wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

2019:

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: for males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119; for females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119; and projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments: for males, 137% of male rates at all ages; for females, 115% of female rates at all ages; and projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 3.00% to 2.75%.

The wage inflation assumption was reduced from 3.25% to 3.00%.

Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

2021:

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: for males, 95% of male rates up to age 60, 110% for ages 61 to 75, and 101% for ages above 77; for females, 84% of female rates up to age 72, 100% for ages above 76; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubG.H-2010 Disabled Table for disabled retirees with the following adjustments: for males, 134% of male rates at all ages; for females, 121% of female rates at all ages; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of contingent annuitant mortality was based on the PubS.H-2010(B) Contingent Annuitant Table with the following adjustments: for males, 97% of male rates at all ages; for females, 110% of female rates at all ages; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 2.75% to 2.40%.

The wage inflation assumption was reduced from 3.00% to 2.65%.

The investment rate of return assumption was changed from 7.75% to 7.55%.

The assumed load for administrative expenses was increased from 0.25% to 0.28%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 9% to 12%.

The percentage of active member deaths assumed to be in the line of duty was decreased from 6% to 4%.

2023:

The investment rate of return assumption was changed from 7.55% to 7.00%.

The assumed load for administrative expenses was decreased from 0.28% to 0.26% of payroll.

Withdrawal rates, disability rates and service retirement rates were adjusted to reflect actual experience more closely.

The percentage of participants assumed to receive a deferred benefit upon attaining the eligibility requirements for retirement was increased from 60% to 65%.

For married members, the number of years that a male is assumed to be older than his spouse was changed from 3 years to 2 years.

The assumed amount of unused sick leave at retirement was increased from 0.50 years to 0.55 years.

The assumed average number of years of military service that participants will have at retirement was decreased from 0.25 years to 0.20 years.

(2) *Changes in benefit provisions*

2016:

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

(3) *Method and assumptions used in calculations of actuarially determined contributions.*

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2022 valuation for the June 30, 2024 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	25.6 years
Asset valuation method	5-year smoothed market
Price Inflation	2.40 percent
Salary increase	2.65 percent to 17.90 percent, including inflation
Investment rate of return	7.55 percent, net of pension plan investment expense, including inflation

OPEB Schedules

(1) *Changes of assumptions*

2017: The discount rate was changed from 3.01% for the prior Measurement Date to 3.56% for the current Measurement Date.

2018: The discount rate was changed from 3.56% for the prior Measurement Date to 3.89% for the current Measurement Date.

2019: The discount rate was changed from 3.89% for the prior Measurement Date to 3.50% for the current Measurement Date.

2020: The discount rate was changed from 3.50% for the prior Measurement Date to 2.19% for the current Measurement Date.

2021: The discount rate was changed from 2.19% for the prior Measurement Date to 2.13% for the current Measurement Date.

2022: The discount rate was changed from 2.13% for the prior Measurement Date to 3.37% for the current Measurement Date.

2023: The discount rate was changed from 3.37% for the prior Measurement Date to 3.66% for the current Measurement Date. Withdrawal rates, disability rates, service retirement rates and salary merit rates were adjusted to reflect actual experience more closely.

2024: The discount rate was changed from 3.66% for the prior Measurement Date to 3.94% for the current Measurement Date. Withdrawal rates, disability rates, service retirement rates and salary merit rates were adjusted to reflect actual experience more closely.

(2) *Changes in benefit provisions*

2017: None

2018: None

2019: None

2020: The schedule of monthly retiree contributions was increased as of January 1, 2021. In addition, the deductibles and coinsurance maximums were increased for the Select coverage and the coinsurance maximums were increased for the Base Coverage beginning January 1, 2021.

2021: The schedule of monthly retiree contributions was increased as of January 1, 2022. In addition, the in-network medical deductible was increased for the Select coverage beginning January 1, 2022.

2022: The schedule of monthly retiree contributions was increased as of January 1, 2023. In addition, the in-network medical deductible was increased for the Select coverage beginning January 1, 2023.

2023: The schedule of monthly retiree contributions was increased as of January 1, 2024. In addition, the in-network medical deductible was increased for the Base Family coverage beginning January 1, 2024.

2024: The schedule of monthly retiree contributions was increased as of January 1, 2025. In addition, the medical deductible was increased for the Base Family coverage beginning January 1, 2025.

(3) *Methods and assumptions used in calculations of Actuarially Determined Contributions.* The Actuarially Determined Contributions rates, as a percentage of payroll, used to determine the Actuarially Determined Contribution amounts in the Schedule of Employer Contributions are calculated as of the most recent Valuation Date. The following actuarial methods and assumptions (from the June 30, 2023 actuarial valuation) were used to determine contribution rates reported in that schedule for the year ending June 30, 2024:

Actuarial cost method	Entry age
Amortization method	Level dollar
Amortization period	30 years, open
Asset valuation method	Market Value of Assets
Price inflation	2.40%
Salary increases, including wage inflation	2.65% to 17.90%
Initial health care cost trend rates	
Medicare Supplement Claims	6.50%
Pre-Medicare	

Ultimate health care cost trend rates	
Medicare Supplement Claims	4.50%
Pre-Medicare	
Year of ultimate trend rates	
Medicare Supplement Claims	2029
Pre-Medicare	
Long-term investment rate of return, net of OPEB plan investment expense, including price inflation	3.66%

The accompanying notes to the supplementary information are an integral part of this schedule.

NOTE: If there are any amounts provided to subrecipients then a column would also need to be added to disclose those amounts.

* - When COVID-19 funds are subawarded from an existing program, the information furnished to subrecipients should distinguish the subawards of incremental COVID-19 funds from non-COVID-19 subawards under the existing program.

** - Please include the appropriate ALN from the grant award documentation. If the ALN is unknown, then please use ALN 12.U01 per the FAC Instructions for Form SF-SAC.

NOTE: Per MDE, 96.001 should NOT be presented as passed through MDE

NOTE: A total amount should be provided for each ALN and cluster. For example, ALN 84.027 and 84.027X should include a Subtotal since they have the same ALN 84.027.

[INPUT] SCHOOL DISTRICT

Notes to the Supplementary Information
For the Year Ended June 30, 2025

Schedule of Expenditures of Federal Awards

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the [input] School District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the [input] School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the [input] School District.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the (identify basis of accounting) basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

(3) Indirect Cost Rate

The [input] School District has/has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

(4) Loan or loan guarantee programs (if applicable)

[For loan or loan guarantee programs, identify in the notes to the Schedule the balances outstanding at the end of the audit period.]

[Note: The above notes are presented as an example template. Please ensure that the following required information is included in the notes [2 CFR 200.510(5-6)]:

- Description of the significant accounting policies used in the preparation of the SEFA
- Statement as to whether the auditee elected to use the 10% de minimis cost rate
- For loan or loan guarantee programs, a note identifying the balances outstanding at the end of the audit period.]

SCHOOL DISTRICT
Supplementary Information

Schedule of Instructional, Administrative and Other Expenditures - Governmental Funds
For the Year Ended June 30, 2025

Expenditures	Total	Instruction and Other Student Instructional Expenditures	General Administration	School Administration	Other
Salaries and fringe benefits	\$ 0				
Other	0				
Total	<u>\$ 0</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Total number of students *	<u>1</u>				
Cost per student	<u>\$ 0</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>

For purposes of this schedule, the following columnar descriptions are applicable:

Instruction and Other Student Instructional Expenditures - includes the activities dealing directly with the interaction between teachers and students. Included here are the activities of teachers, teachers aides or classroom assistants of any type.

General Administration - includes expenditures for the following functions: Support Services - General Administration and Support Services - Business.

School Administration - includes expenditures for the following function: Support Services - School Administration.

Other - includes all expenditure functions not included in Instruction or Administration Categories.

* includes the number of students reported on the ADA report submission for month 9, which is the final submission for the fiscal year

[NOTE: Total expenditures above should agree to total expenditures per Exhibit D.]

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

(This page left blank intentionally)

INDEPENDENT AUDITOR'S REPORT
ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board
[Input] School District

~~~~~

[Option 1]      UNMODIFIED Opinion

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the [input] School District as of and for the year ended June 30, 2025, which collectively comprise [input] School District's basic financial statements and have issued our report thereon dated [date of report]. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

~~~~~

[Option 2] QUALIFIED Opinion

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the [input] School District as of and for the year ended June 30, 2025, which collectively comprise [input] School District's basic financial statements and have issued our report thereon dated [date of report]. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our report differed from the standard report because of a scope limitation due to [input].

~~~~~

[CONTINUE]

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds." As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

~~~~~

[Option 1] Use the following language if the district materially complied with Section 37-61-33(3)(a)(iii).

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance.

~~~~~

[Option 2]      Use the following language if the district did not comply with Section 37-61-33(3)(a)(iii).

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed the following instance of noncompliance. The noncompliance is reported in finding number *[input]* below.

~~~~~

[CONTINUE]

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, “the auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district.”

~~~~~

[Option 1]      Use the following language if the district materially complied with Section 37-9-18(3)(b).

The results of our procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

~~~~~

[Option 2] Use the following language if the district did not comply with Section 37-9-18(3)(b).

The results of our procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed the following instance of noncompliance related to incorrect or inappropriate functional level expenditure coding. The noncompliance is reported in finding number *[input]* below.

~~~~~

[CONTINUE]

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

~~~~~

[Option 1] [Use the following language if NO findings relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements did not disclose any instances of noncompliance with other state laws and regulations.

~~~~~

[Option 2] Use the following language if 1 immaterial finding relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the following immaterial instance of noncompliance with other state laws and regulations. Our finding and recommendation and your response are as follows:

*[Insert immaterial finding, recommendation and response]*

~~~~~

[Option 3] Use the following language if 2+ immaterial findings relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the following immaterial instances of noncompliance with other state laws and regulations. Our findings and recommendations and your responses are as follows:

[Insert immaterial findings, recommendations and responses]

~~~~~

[Option 4] Use the following language if 1 material noncompliance relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the instance of noncompliance described in Finding **2025-*[input]*** in the Schedule of Findings and Questioned Costs.

~~~~~

[Option 5] Use the following language if 1 material noncompliance relative to other state laws and regulations, AND 1 immaterial finding relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the instance of noncompliance described in Finding **2025-*[input]*** in the Schedule of Findings and Questioned Costs and the following immaterial instance of noncompliance with other state laws and regulations. Our immaterial finding and recommendation and your response are as follows:

[Insert immaterial finding, recommendation and response]

~~~~~

[Option 6] Use the following language if 1 material noncompliance relative to other state laws and regulations, AND 2+ immaterial findings relative to other state laws and regulations.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the instance of noncompliance described in Finding **2025-*[input]*** in the Schedule of Findings and Questioned Costs and the following immaterial instances of noncompliance with other state laws and regulations. Our immaterial findings and recommendations and your responses are as follows:

*[Insert immaterial findings, recommendations and responses]*

~~~~~

[CONTINUE] *[if applicable]*

[Insert instance(s) of immaterial noncompliance, recommendation(s) and response(s) relative to Section 37-61-33(3)(a)(iii)]

[Insert instance(s) of immaterial noncompliance, recommendation(s) and response(s) relative to Section 37-9-18(3)(b)]

~~~~~

[CONTINUE]

(If 1 finding reported within this report)

The Office of the State Auditor or a public accounting firm will review, on the subsequent year's audit engagement, the finding in this report to ensure that corrective action has been taken.

The *[input]* School District's response to the finding included in this report was not audited and, accordingly, we express no opinion on it.

~~~~~

(If 2+ findings reported within this report)

The Office of the State Auditor or a public accounting firm will review, on the subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

The *[input]* School District's responses to the findings included in this report were not audited and, accordingly, we express no opinion on them.

~~~~~

[CONTINUE]

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies, the Office of the State Auditor and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS

(This page left blank intentionally)

Schedule of Findings and Questioned Costs  
For the Year Ended June 30, 2025

Section I: Summary of Auditor's Results

Financial Statements:

1. Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP:
2. Internal control over financial reporting:
  - a. Material weakness(es) identified? (Yes/No)
  - b. Significant deficiency(ies) identified? (Yes/None reported)
3. Noncompliance material to financial statements noted? (Yes/No)

Federal Awards:

4. Internal control over major programs:
  - a. Material weakness(es) identified? (Yes/No)
  - b. Significant deficiency(ies) identified? (Yes/None reported)
5. Type of auditor's report issued on compliance for major federal programs:
6. Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? (Yes/No)
7. Identification of major federal programs:

| <u>Assistance Listing Numbers</u> | <u>Name of Federal Program or Cluster</u> |
|-----------------------------------|-------------------------------------------|
|                                   |                                           |
8. Dollar threshold used to distinguish between type A and type B programs: \$750,000\*
9. Auditee qualified as low-risk auditee? (Yes/No)
10. Prior fiscal year audit findings(s) and questioned costs which would require the auditee to prepare a summary schedule of prior audit findings in accordance with 2CFR 200.511(b). (Yes/No)

[Note: Question #10 is not included in the AICPA template. We included it in the model since the summary schedule is still required if the answer is "yes".]

Schedule of Findings and Questioned Costs  
For the Year Ended June 30, 2025

\*Use amount unless total federal expenditures exceed \$25,000,000

**[NOTE:** With the implementation of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), please note that if the entity meets the criteria to be classified as low-risk, the auditor must have coverage of at least 20% of total federal awards expended. Otherwise, the 40% coverage requirement must be met. Also, questioned costs over \$25,000 have to be included in the report. Please refer to the Uniform Guidance for a complete list of changes and guidance.]

In regards to the 2024 changes to Uniform Guidance: The effective date for the final guidance is October 1, 2024. Federal agencies may elect to apply the final guidance to Federal awards issued prior to October 1, 2024, but they are not required to do so. For agencies applying the final guidance before October 1, 2024, the effective date of the final guidance must be no earlier than June 21, 2024. The effective date for the increase in the audit threshold is for fiscal years beginning on or after October 1, 2024 (that is, years ending on or after September 30, 2025).

Schedule of Findings and Questioned Costs  
For the Year Ended June 30, 2025

Section II: Financial Statement Findings

[Option 1] (Insert if no findings reported in Section II)

The results of our tests did not disclose any findings related to the financial statements that are required to be reported under *Government Auditing Standards*.

[Option 2] (Insert findings reported in Section II)

*This section identifies the significant deficiencies, material weaknesses, fraud, noncompliance with provisions of laws. Regulations, contracts, and grant agreements related to the financial statements for which Government Auditing Standards requires reporting.*

*Audit findings that relate to both the financial statements and federal awards must be reported in both Section II and Section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a material weakness in internal control that affects an entity as a whole, including its federal awards, generally would be reported in detail in Section II. Section III would then include a summary identification of the finding and a reference back to the specific finding in Section II.*

*Please include all elements of a finding for each finding listed: criteria, condition, cause, effect or potential effect, recommendation and views of responsible officials.*

~~~~~

Section III: Federal Award Findings and Questioned Costs

[Option 1] (Insert if no findings reported in Section III)

The results of our tests did not disclose any findings and questioned costs related to the federal awards.

[Option 2] (Insert findings reported in Section III)

This section identifies audit findings required to be reported by 2 CFR 200.516(a) (for example, significant deficiencies, material weaknesses, material instances of noncompliance, including questioned costs, and significant instances of abuse.) Where practical, findings should be organized by federal agency or pass-through entity.

Audit findings that relate to both the financial statements and federal awards should be reported in both Section II and Section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule. For example, a finding of noncompliance with a federal program statute that is also material to the financial statements generally would be reported in detail in Section III. Section II would then include a summary identification of the finding and a reference back to the specific finding in Section III.

Please include all elements of a finding for each finding listed:

- | | |
|--|--|
| ●identification of the federal program | ●context |
| ●criteria of specific requirement | ●identification as a repeat finding, if applicable |
| ●condition | ●recommendation |
| ●cause | ●views of responsible officials |
| ●effect or potential effect | |
| ●questioned costs | |
