## INDEPENDENT AUDITOR'S REPORT

Superintendent and School Board  
Hattiesburg Public School District

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hattiesburg Public School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Hattiesburg Public School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Hattiesburg Public School District, as of June 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Hattiesburg Public School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hattiesburg Public School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would

influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Hattiesburg Public School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hattiesburg Public School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions (PERS), the Schedule of the District's Proportionate Share of the Net OPEB Liability, and the Schedule of District Contributions (OPEB), be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hattiesburg Public School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedule of Expenditures of Federal Awards and the Schedule of Instructional, Administrative and Other Expenditures for Governmental Funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2026, on our consideration of the Hattiesburg Public School District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Hattiesburg Public School District’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hattiesburg Public School District’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

The following discussion and analysis of Hattiesburg Public School District's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2025. The intent of this discussion and analysis is to look at the School District's performance as a whole. Readers are encouraged to review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

## FINANCIAL HIGHLIGHTS

- Total net position for 2025 decreased \$3,598,799, including the effects of a change in accounting principle of (\$1,464,467) and error corrections of (\$1,010,264), which represents a 12% decrease from fiscal year 2024. Total net position for 2024 increased \$12,134,238, including an error correction of \$193,206, which represents an 67% increase from fiscal year 2023.
- General revenues amounted to \$51,724,837 and \$45,768,392, or 73% and 59% of all revenues for fiscal years 2025 and 2024, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$18,872,238, or 27% of total revenues for 2025, and \$31,661,372, or 41% of total revenues for 2024.
- The District had \$71,721,143 and \$65,488,732 in expenses for fiscal years 2025 and 2024; only \$18,872,238 for 2025 and \$31,661,372 for 2024 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$51,724,837 for 2025 were not adequate to provide for these programs, while general revenues of \$45,768,392 for 2024 were adequate to provide for these programs.
- Among major funds, the General Fund had \$48,779,921 in revenues and \$53,225,006 in expenditures for 2025, and \$45,402,907 in revenues and \$44,089,054 in expenditures in 2024. The General Fund's fund balance decreased by \$5,754,895 from 2024 to 2025, and increased by \$2,301,006, including an error correction of (\$2,058) from 2023 to 2024.
- Capital assets, including intangible right to use assets and net of accumulated depreciation/amortization, increased by \$10,280,215, including error corrections of (\$1,010,262), for 2025 and increased by \$15,167,128, including an error correction of \$195,262, for 2024. The increase for 2025 was due primarily to construction-in-progress expenditures and purchases of mobile equipment and furniture and equipment.
- Long-term debt, including compensated absences, lease obligations and subscription IT liabilities, decreased by \$2,605,726, including the effects of a change in accounting principle of \$1,464,467, for 2025 and decreased by \$1,113,147 for 2024. The decrease for 2025 was due primarily to payments on long-term debt. The liability for compensated absences increased by \$1,791,512, including the effects of a change in accounting principle of \$1,464,467, for 2025 and increased by \$71,130 for 2024.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements, which include government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplementary information, supplementary information, and other information.

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances. These statements consist of the Statement of Net Position and the Statement of Activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position presents information on all the District's nonfiduciary assets, deferred outflows, liabilities, and deferred inflows, with the differences between them reported as "net position." Over time, increases or decreases in the District's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section, pension expense, OPEB expense, and interest on long-term liabilities.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds.

**Governmental funds** – All of the District's general activities are reported in its governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. The approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the District's near-term financing decisions. The governmental funds Balance Sheet is reconciled to the Statement of Net Position, and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is reconciled to the Statement of Activities to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for all major funds. All non-major funds are combined and presented in these reports as other governmental funds.

**Reconciliation of Government-wide and Fund Financial Statements**

The financial statements include two schedules that reconcile the amounts reported on the governmental

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

funds financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements.

Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on government-wide financial statements, but are recorded as other financing sources on the governmental funds financial statements.

A net pension liability and net OPEB liability result in liabilities on the government-wide financial statements but are not reported on governmental funds financial statements.

Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

**Notes to the financial statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of District Contributions (PERS), Schedule of the District's Proportionate Share of the Net OPEB Liability, and Schedule of District Contributions (OPEB) as required supplementary information. The District adopts an annual operating budget for all governmental funds. A budgetary comparison schedule has been provided for the General Fund and each major special revenue funds as required by the Governmental Accounting Standards Board.

**Supplementary Information**

Additionally, a Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and a Schedule of Instructional, Administrative and Other Expenditures for governmental funds can be found in this report.

**Other Information**

Although not a required part of the basic financial statements, the Statement of Revenues, Expenditures and Changes in Fund Balances—General Fund, Last Four Years and the Statement of Revenues, Expenditures and Changes in Fund Balances—All Governmental Funds, Last Four Years, is presented for purposes of additional analysis as required by the Mississippi Department of Education.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net position**

Net position may serve over time as a useful indicator of the District's financial position. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$26,651,966 as of June 30, 2025.

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

Table 1 presents a summary of the District's net position at June 30, 2025 and June 30, 2024.

**Table 1**  
**Condensed Statement of Net Position**

	<u>June 30, 2025</u>	<u>June 30, 2024</u>	<u>Percentage Change</u>	
Current assets	\$ 37,186,708	\$ 43,274,280	-14.07	%

Net OPEB liability	2,727,478	2,683,911	1.62	%
Net pension liability	<u>94,926,836</u>	<u>89,102,827</u>	6.54	%
<b>Total liabilities</b>	<u>125,906,345</u>	<u>123,523,257</u>	1.93	%
<b>Deferred inflows of resources</b>	<u>5,025,007</u>	<u>6,772,336</u>	<b>-25.80</b>	<b>%</b>
<b>Net position:</b>				
Net investment in capital assets	69,418,769	57,464,816	20.80	%
Restricted	14,353,421	16,795,293	-14.54	%
Unrestricted	<u>(57,120,224)</u>	<u>(44,009,344)</u>	29.79	%
<b>Total net position</b>	<u>\$ 26,651,966</u>	<u>\$ 30,250,765</u>	<b>-11.90</b>	<b>%</b>

Error corrections that impacted prior fiscal years were made during the fiscal year ending June 30, 2025. Additional information and further explanation can be found in Note 12 of this report. Due to the immateriality of the result upon the affected funds, restatement to the individual impacted line items of the prior periods were not made to this schedule.

The District implemented GASB 101, *Compensated Absences*, which resulted in an adjustment to beginning net position in the Government-wide financial statements. Additional information and further explanation can be found in Note 12 of this report.

Additional information on unrestricted net position:

In connection with the application of standards on accounting and financial reporting for pensions and OPEB, management presents the following additional information:

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

Total unrestricted net position (deficit)	\$ (57,120,224)
Less unrestricted deficit in net position resulting from recognition of the net pension liability and net OPEB liability including the related deferred outflows and deferred inflows	78,544,344
Unrestricted net position, exclusive of the net pension liability and net OPEB liability effect	<u>\$ 21,424,120</u>

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- Increase in net capital assets in the amount of \$10,280,215.
- The principal retirement of \$4,427,168 of long-term debt.

**Changes in net position**

The District's total revenues for the fiscal years ended June 30, 2025 and June 30, 2024 were \$70,597,075 and \$77,429,764, respectively. The total cost of all programs and services was \$71,721,143 for 2025 and \$65,488,732 for 2024.

Table 2 presents a summary of the changes in net position for the fiscal years ended June 30, 2025 and June 30, 2024.

Error corrections that impacted prior fiscal years were made during the fiscal year ending June 30, 2025. Additional information and further explanation can be found in Note 12 of this report. Due to the immateriality of the result upon the affected funds, restatement to the individual impacted line items of the prior periods were not made to this schedule.

The District implemented GASB 101, *Compensated Absences*, which resulted in an adjustment to beginning net position in the Government-wide financial statements. Additional information and further explanation can be found in Note 12 of this report.

**Governmental activities**

The following table presents the cost of seven major District functional activities: instruction, support services, non-instructional, sixteenth section, pension expense, OPEB expense and interest on long-term liabilities. The table also shows each functional activity's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost presents the financial burden that was placed on the State and District's taxpayers by each of these functions.

Instruction	\$ (21,420,428)	\$ (16,113,874)	(32.93) %
Support services	(16,361,936)	(5,925,788)	(176.11) %
Non-instructional	(24,963)	136,879	(118.24) %
Sixteenth section	(99,445)	(54,401)	(82.80) %
Pension Expense	(14,147,086)	(11,089,762)	(27.57) %
OPEB Expense	118,062	238,697	(50.54) %
Interest on long-term liabilities	(913,109)	(1,019,111)	10.40 %
<b>Total net (expense) revenue</b>	<b>\$ (52,848,905)</b>	<b>\$ (33,827,360)</b>	<b>(56.23) %</b>

- Net cost of governmental activities (\$52,848,905 for 2025 and \$33,827,360 for 2024) was financed by general revenue, which is primarily made up of property taxes (\$24,066,804 for 2025 and \$23,796,025 for 2024) and state and federal revenues (\$25,303,744 for 2025 and \$19,493,943 for 2024). In addition, there were \$115,217 and \$96,658 in Sixteenth Section sources for 2025 and 2024, respectively.
- Investment earnings amounted to \$1,545,103 for 2025 and \$1,880,078 for 2024.

## FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$38,291,754, a decrease of \$7,813,037, which includes an increase in inventory of \$45,577. \$10,474,040 or 27% of the fund balance is unassigned, which represents the residual classification for the General Fund's fund balance that has not been assigned to other funds and that has not been restricted or assigned to specific purposes within the general fund. The remaining fund balance of \$27,817,714 or 73% is either nonspendable, restricted or

HATTIESBURG PUBLIC SCHOOL DISTRICT  
Management's Discussion and Analysis  
For Year Ended June 30, 2025

assigned to indicate that it is not available for spending except only for the purposes to which it is restricted or assigned.

The General Fund is the principal operating fund of the District. The decrease in fund balance in the General Fund for the fiscal year was \$5,754,895. The fund balance of Other Governmental Funds showed a decrease in the amount of \$2,058,142, which includes an increase in inventory of \$45,577. The increase (decrease) in the fund balances for the other major funds were as follows:

<u>Major Fund</u>	<u>Increase(Decrease)</u>
ARP ESSER III Fund	no increase or decrease

**BUDGETARY HIGHLIGHTS**

During the year, the District revised the annual operating budget. Budget revisions were made to address and correct the original budgets to reflect more accurately the sources and uses of funding for the School District.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and major special revenue funds is provided in this report as required supplementary information.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets.** As of June 30, 2025, the District's total capital assets were \$124,715,206, including land, school buildings, building improvements, improvements other than buildings, buses, other school vehicles, furniture and equipment, and any intangible assets. This amount represents an increase of \$13,434,203, including an error correction of (\$988,686). Total accumulated depreciation and amortization as of June 30, 2025, was \$34,084,917, and total depreciation and amortization expense for the year was \$4,034,930, resulting in total net capital assets of \$90,630,289.

**Table 4  
Capital Assets, Net of Accumulated Depreciation**

	<u>June 30, 2025</u>	<u>June 30, 2024</u>	<u>Percentage Change</u>
Land	\$ 1,071,353	\$ 704,392	52.10 %
Construction in Progress	10,582,835	20,504,755	(48.39) %

Subscription IT assets	23,591	113,253	(79.17) %
<b>Total</b>	<b>\$ 90,630,289</b>	<b>\$ 80,350,074</b>	<b>12.79 %</b>

Additional information on the District's capital assets can be found in Notes 5 and 6 included in this report.

**Debt Administration.** At June 30, 2025, the District had \$23,462,358 in outstanding long-term debt, including lease liabilities, subscription IT liabilities and compensated absences payable, of which \$4,553,928 is due within one year. The liability for compensated absences increased \$1,791,512, including the effects of a change in accounting principle of \$1,464,467, from the prior year.

HATTIESBURG PUBLIC SCHOOL DISTRICT

Governmental Funds

**Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities** **Exhibit D-1**  
**For the Year Ended June 30, 2025**

Net change in fund balances - total governmental funds	\$	(7,858,614)
Amounts reported for governmental activities in the statement of activities are different because:		
1. Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay	\$ 15,352,304	
Capital outlay - Intangible assets	29,930	
Depreciation expense	(3,888,030)	
Amortization expense	(146,900)	
	11,347,304	11,347,304
2. In the statement of activities, only the gain/loss on sale of assets is reported, while in the governmental funds, the proceeds from the sale increases financial resources. Thus, the change in Net Position differs from the change in fund balance by the cost of the assets sold		
	(56,827)	(56,827)
3. The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities:		
SBITAs issued	(29,930)	
Payments of debt principal	4,427,168	
	4,397,238	4,397,238
4. Some items relating to pensions and reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in the governmental funds. The activities include:		
Pension expense	(14,147,086)	
Contributions subsequent to the measurement date	5,206,952	
	(8,940,134)	(8,940,134)
5. Some items relating to OPEB and reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in the governmental funds. The activities include:		
OPEB expense	118,062	
Contributions subsequent to the measurement date	118,749	
	236,811	236,811
6. Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:		
Change in compensated absences	(327,045)	
Accrued interest payable	31,622	
Change in inventory	45,577	
	(249,846)	(249,846)
<b>Change in Net Position of governmental activities</b>	<b>\$</b>	<b>(1,124,068)</b>

The notes to the financial statements are an integral part of this statement.

## **Note 1 – Summary of Significant Accounting Policies**

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

### **A. Financial Reporting Entity**

As defined by accounting principles generally accepted in the United States of America, the school district is considered an "other stand-alone government." The school district is a related organization of, but not a component unit of, the city of Hattiesburg since the governing authority of the city selects a majority of the school district's board but does not have financial accountability for the school district.

For financial reporting purposes, Hattiesburg Public School District has included all funds and organizations. The district has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the district are such that exclusion would cause the district's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the district to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

### **B. Government-wide and Fund Financial Statements**

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the district. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the district's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Net position is reported in three categories:

1. Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.
2. Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

requirements of a particular function. Property taxes and other items not included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other governmental funds.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. The general fund is used to account for and report all financial resources not accounted for and reported in another fund.

ARP ESSER III Fund – This special revenue fund is used to account for the Federal Elementary and Secondary School Emergency Relief (ESSER) Fund grant, administered by the United States Department of Education. ESSER III was established in March 2021, when the American Rescue Plan (ARP) Act was signed into law.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Additionally, the school district reports the following fund types:

#### GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds - Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Permanent Funds - Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

### **C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

expenditures related to compensated absences and judgments, are recorded only when payment is due.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.

Property taxes, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Ad valorem property taxes are levied by the governing authority of the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under leases are reported as other financing sources.

Under the terms of grant agreements, the district funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the district's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

The effect of inter-fund activity has been eliminated from the government-wide statements.

Revenues from the Mississippi Student Funding Formula are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting*, issued in 2012 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 2014*, issued by the U.S. Department of Education.

**D. Encumbrances**

An encumbrance system is maintained to account for commitments or assignments resulting from approved purchase orders, work orders and contracts. However, the school district attempts to liquidate all encumbrances at year-end. Encumbrances outstanding at year-end are not reported within committed or assigned fund balances.

**E. Assets, liabilities, deferred outflows/inflows, and net position/fund balances**

1. Cash, Cash equivalents and Investments

Cash and cash equivalents

The district's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

Investments

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have an original maturity greater than three months when acquired.

Investments for the district are reported at fair market value.

2. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e. the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Due from Other Governments

Due from other governments represents amounts due from the State of Mississippi and various grants and reimbursements from other governments.

4. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis). The costs of governmental fund type inventories are reported as expenditures when purchased.

Prepaid items, such as prepaid insurance, are not reported for governmental fund types since the costs of such items are accounted for as expenditures in the period of acquisition.

5. Restricted Assets

Certain resources set aside for repayment of debt are classified as restricted assets on the Statement of Net Position because their use is limited by applicable debt statutes, e.g. Qualified School Construction Bond sinking funds. Also, the nonexpendable portion of the Permanent Fund, if applicable, is classified as restricted assets because the 16<sup>th</sup> Section Principal fund is not available for use by the district except as provided for under state statute for loans from this fund.

6. Capital Assets

Capital assets include land, improvements to land, easements, water rights, timber rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Capital assets are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost or estimated historical cost based on appraisals or deflated current

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

replacement cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the district as assets with an initial, individual cost in excess of the thresholds in the table below.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities' column in the government-wide financial statements.

Depreciation is calculated on the straight-line basis for all assets, except land.

The following schedule details the capitalization thresholds:

	Capitalization Policy	Estimated Useful Life
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased assets	**	**
Subscription IT asset	**	**
Intangible assets	***	***

(\*\*) Right-to-use assets are amortized in a rational and systematic manner over the shorter of the lease or subscription term or the useful life of the underlying assets. A capitalization threshold has not been set for right-to-use assets.

(\*\*\*) The estimated useful life is amortized using the straight-line method with the amortization term based on contractual or legal provisions. There is no mandated maximum amortization period. Intangible assets with indefinite useful lives are not amortized.

*The term 'depreciation' includes the amortization of intangible assets.*

7. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

Deferred outflows of resources related to pensions  
Deferred outflows of resources related to OPEB (other post-employment benefits)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred inflows of resources related to pensions  
Deferred inflows of resources related to OPEB (other post-employment benefits)  
Deferred inflows of resources related to leases

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

See Notes 6, 9, 10, and 16 for further details.

8. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law. A greater amount may be provided by school district policy provided that it does not exceed the provisions for leave as provided in Sections 25-3-93 and 25-3-95. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as a long-term liability in the government-wide statements. A liability is recorded when each of the following have occurred: the leave is attributable to services already rendered, the leave accumulates and carries forward from one reporting period to the next, the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means, and the leave that has been used but not yet been paid in cash or settled through noncash means. The current portion of this liability is estimated based on historical trends and may be affected by other factors including the school district's policies. In the fund financial statements, governmental funds report the liability for compensated absences from expendable available financial resources only if the payable has matured, for example, an employee retires.

9. Leases

The Governmental Accounting Standards Board (GASB) issued Statement No. 87, Leases (GASB 87) to establish a single leasing model for accounting and reporting purposes. This guidance is intended to enhance the accountability, consistency and comparability of lease activities reported by governments. GASB 87 was implemented during fiscal year 2022.

When acting as the lessee, the school district uses either the U. S. Treasury prime lending rate or the U. S. Treasury yield curve rate at lease inception to calculate the present value of lease payments when the rate implicit in the lease is not known.

When acting as the lessor, the school district uses 4% to calculate the present value of lease payments involving the leasing of 16<sup>th</sup> Section School lands.

10. Subscription-Based Information Technology Arrangements

The Governmental Accounting Standards Board (GASB) issued Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs) (GASB 96) to establish uniform accounting and financial reporting requirements for SBITAs, to improve comparability of financial statements among governments that have entered into SBITAs, and to enhance understandability, reliability, relevance and consistency of information about SBITAs. GASB 96 was implemented during fiscal year 2023.

The school district uses either the U. S. Treasury prime rate or the U.S. Treasury Yield curve rate as a basis for establishing an effective interest rate when subscription arrangements do not state an effective rate.

11. Long-term Liabilities and Bond Discounts/Premiums

In the government-wide financial statements, outstanding debt is reported as liabilities. Bond discounts or premiums and the difference between reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

The governmental fund financial statements recognize the proceeds of debt and premiums

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

as other financing sources of the current period. Issuance costs are reported as expenditures. See Note 7 for details.

12. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State and School Employees' Life and Health Plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recorded when the OPEB benefits come due. Investments are reported at fair value as determined by the state.

14. Fund Balances

Fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

*Nonspendable fund balance* includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed, or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

*Restricted fund balance* includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

*Committed fund balance* includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action of the School Board, the District's highest level of decision-making authority. This formal action is the official action of the school board approving committed fund balances. Currently there is no committed fund balance for this school district.

*Assigned fund balance* includes amounts that are constrained by the district's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the general fund, this is the residual amount within the fund that is not restricted or committed. Assignments of fund balance are created by the school district management pursuant to authorization established through school board policy.

*Unassigned fund balance* is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance. When an expenditure/expense is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) resources are available, it is the district's general policy to use restricted resources first. When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the district's general policy to spend committed resources first, followed by assigned amounts, and then unassigned amounts.

It is the goal of the district to achieve and maintain an unassigned fund balance in the General Fund at fiscal year end of not less than 12% of revenues.

15. Accounting Standards Update

GASB 101, Compensated Absences, was implemented during the 2025 fiscal year. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

## Note 2 – Cash and Cash Equivalents, Cash with Fiscal Agents and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits are imposed by statutes as follows:

**Deposits.** The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school district's deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

**Investments.** Sections 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest excess funds in the types of investments authorized by Section 27-105-33(d) and (e) Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposit or interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (c) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, not to exceed fifty percent of all monies invested with maturities of thirty days or longer; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or other interests in, any open-end or closed-end management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration, not to exceed twenty percent of invested excess funds. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Investment income of less than \$100 can be credited to the General Fund.

### Cash and Cash Equivalents

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds was \$32,716,549. The carrying amount of deposits in the government-wide financial statements was reported as cash and cash equivalents in the amount of \$32,046,678.

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

*Custodial Credit Risk - Deposits.* Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2025, none of the district's bank balance was exposed to custodial credit risk.

Cash with Fiscal Agents

The carrying amount of the school district's cash with fiscal agents reported in the governmental funds was \$720,554.

Investments

As of June 30, 2025, the district had the following investments:

<u>Investment Type</u>	<u>Rating</u>	<u>Maturities (in years)</u>	<u>Fair Value</u>
U. S. Treasury Notes and Bonds	AA+	Less than 5	\$ 2,236,067
	AA+	5 but less than 10	672,446
	AA+	10 but less than 15	51,720
Taxable Municipal Bonds	BB+ - AA	Less than 5	307,847
	AA	5 but less than 10	176,620
	AA	10 but less than 15	51,310
	Aa1	30 but less than 35	26,132
Mortgage Backed Securities	AA+	Less than 5	424,648
	AA+	5 but less than 10	56,718
	AA+	10 but less than 15	106,030
	AA+	15 but less than 20	66,091
	AA+	20 but less than 25	32,622
Total			\$ 4,208,251

The district categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

All investments were valued using quoted market prices (Level 1 inputs).

*Interest Rate Risk.* The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

*Custodial Credit Risk – Investments.* Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk. As of June 30, 2025, the district did not have any investments to which this would apply.

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

*Concentration of Credit Risk.* Disclosure of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U. S. Government, investments in mutual funds and external investment pools, and other pooled investments.

Issuer	Fair Value	% of Total Investments
U.S. Treasury Notes and Bonds	\$ 2,960,233	70%
Taxable Municipal Bonds	561,909	13%
Mortgage Backed Securities	686,109	16%
Total	\$ 4,208,251	100%

**Note 3 – Inter-fund Receivables, Payables and Transfers**

The following is a summary of inter-fund transactions and balances:

**A. Due From/To Other Funds**

Receivable Fund	Payable Fund	Amount
General Fund	ARP ESSER III Fund	\$ 1,025,544
	Other governmental funds	999,628
Other governmental funds	General Fund	1,327
Total		\$ 2,026,499

The primary purpose of the inter-fund balance is to eliminate deficit cash balances in certain special revenue funds caused by negative federal award program cash flows. Inter-fund balances also include interfund loans. All balances are expected to be repaid within one year.

**B. Advances To/From Other Funds**

Receivable Fund	Payable Fund	Amount
Other governmental funds	General Fund	\$ 538,250
Total		\$ 538,250

The interfund advances represent sixteenth section principal loans due from the General Fund to the 16<sup>th</sup> Section Principal Fund.

Sixteenth section principal loans payable

The sixteenth section principal loans payable are not reflected in the Statement of Net Position because these funds were borrowed by the General Fund from the Sixteenth Section Trust Fund (Permanent Fund) in accordance with Section 29-3-113, Miss. Code Ann. (1972). The revenues and expenditures associated with these transactions are reflected on the Statement of Revenues, Expenditures and Changes in Fund Balances. The interest rate on the sixteenth section principal loan as of June 30, 2025, is four (4) percent.

The following is a schedule by years of the total payments due on this debt.

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

Year Ending June 30	Principal	Interest	Total
2026 \$	39,911	21,530	61,441
2027	41,507	19,934	61,441
2028	43,167	18,274	61,441
2029	44,894	16,547	61,441
2030	46,690	14,751	61,441
2031-2035	263,003	44,199	307,202
2036	59,078	2,363	61,441
Total \$	<u>538,250</u>	<u>137,598</u>	<u>675,848</u>

**C. Inter-fund Transfers**

Transfers Out	Transfers In	Amount
General Fund	Other governmental funds	\$ 1,691,850
ARP ESSER III Fund	Other governmental funds	11,367
Other governmental funds	General Fund	<u>339,621</u>
Total		<u>\$ 2,042,838</u>

Inter-fund transfers represent operating transfers from the General Fund to other governmental funds and transfers of indirect costs from other governmental funds to the general fund.

**Note 4 – Restricted Assets**

The restricted assets represent the cash balance of \$669,871, the cash with fiscal agents balance of \$22,907, the investment balance of \$2,067,351, and the accrued interest balance of \$10,020 of the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs. Restricted assets also include the cash with fiscal agents balance of \$697,647, the investments balance of \$2,140,900, and the accrued interest balance of \$6,680 of the 2010 QSCB Bond Retirement Fund (Debt Service Fund), which are legally restricted for the retirement of debt. Restricted assets at June 30, 2025, totaled \$5,615,376.

**Note 5 – Capital Assets**

The following is a summary of changes in capital assets for governmental activities:

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

	Balance 7/1/2024	Increases	Decreases	Completed Construction	Adjustments	Balance 6/30/2025
<b>Governmental Activities:</b>						
<u>Non-depreciable capital assets:</u>						
Land	\$ 704,392	366,961				1,071,353
Construction-in-progress	20,504,755	13,236,261		(22,169,496)	(988,685)	10,582,835
<b>Total non-depreciable capital assets</b>	<b>21,209,147</b>	<b>13,603,222</b>	<b>-</b>	<b>(22,169,496)</b>	<b>(988,685)</b>	<b>11,654,188</b>
<u>Depreciable capital assets:</u>						
Buildings	43,683,402			2,313,956		45,997,358

**Leases**

*As Lessee:*

The school district is a lessee for various noncancellable leases of equipment. For leases that have a maximum possible term of 12 months or less at commencement, the school district recognizes expense based on the provisions of the lease contract. For all other leases, other than short term, the school district recognized a lease and an intangible right-to-use lease asset.

At lease commencement, the school district initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, plus lease payments made at or before the lease commencement date, plus any initial direct costs ancillary to placing the underlying asset into service, less any lease incentives received at or before the lease commencement date. Subsequently, the lease asset is amortized in depreciation and amortization expense on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

The school district generally uses either the U. S. Treasury prime lending rate or the U. S. Treasury yield curve rate at the date of lease inception as the discount rate for leases unless the rate that the lessor charges is known.

The lease term includes the noncancellable period of the lease plus any additional periods covered by either a school district or lessor option to extend for which it is reasonably certain to be exercised or terminate for which it is reasonably certain not to be exercised. Periods in which both the school district and the lessor have a unilateral option to terminate (or if both parties have agreed to extend) are excluded from the lease term.

The district has entered into five (5) equipment leases for the lease of copier equipment. Discount rates used on the leases are 7.50%.

The following is a schedule by years of the total payments due on this debt:

Year Ending	Principal	Interest	Total
June 30			
2026	\$ 23,497	2,483	25,980
2027	16,013	832	16,845
2028	4,221	79	4,300
<b>Total</b>	<b>\$ 43,731</b>	<b>3,394</b>	<b>47,125</b>

*As Lessor:*

Acting as lessor, the district has entered into 143 leases transferring the right of use of sixteenth section school lands. Such leases are set for a term that corresponds with state law in accordance with the type lease executed.

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools.

The following shows the future rental payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

<u>Year Ending</u> <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2026	\$ 50,630	71,964	122,594
2027	52,655	69,939	122,594
2028	53,792	67,832	121,624
2029	53,765	65,681	119,446
2030	55,942	63,530	119,472
2031-2035	308,107	282,380	590,487
2036-2040	339,868	217,882	557,750
Thereafter	884,338	345,167	1,229,505
	<u>\$ 1,799,097</u>	<u>1,184,375</u>	<u>2,983,472</u>

The total amount of inflows recognized in the reporting period from these leases is \$75,472. As of June 30, 2025, the district recognized a lease receivable of \$1,799,097 and deferred inflow of resources of \$1,783,129 related to the sixteenth section land leases.

**SBITAs**

The school district has non-cancellable subscription-based information technology arrangements for various software. For subscriptions that have a maximum possible term of 12 months or less at commencement, the school district recognizes expense based on the provisions of the subscription arrangement. For all other subscription-based information technology arrangements, other than short term, the school district recognizes a subscription payable and an intangible right-to-use subscription asset.

At subscription commencement, the school district initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability plus payments associated with the subscription made to the vendor at the inception of the arrangement, plus capitalized implementation costs, less vendor incentives. Subsequently, the subscription asset is amortized in depreciation and amortization expense on a straight-line basis over the shorter of the subscription term or the useful life of the underlying asset. The school district generally uses either the U.S. Treasury prime lending rate or the U. S. Treasury yield curve rate at subscription inception as the discount rate for Subscriptions unless the rate that the lessor charges is known.

The subscription term includes the noncancellable period of the subscription plus any additional periods covered by either a school district or lessor option to extend for which it is reasonably certain to be exercised or to terminate for which it is reasonably certain not to be exercised. Periods in which both the school district and the lessor have a unilateral option to terminate (or if both parties have agreed to extend) are excluded from the subscription term.

The school district has entered into one (1) SBITA arrangement for various educational and information technology software and cloud services. Discount rate was 5.0 percent.

The following is a schedule by years of the total payments due on this debt:

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

Year Ending June 30	Principal	Interest	Total
2026	\$ 2,789	204	2,993
<b>Total</b>	<b>\$ 2,789</b>	<b>204</b>	<b>2,993</b>

**Note 7 – Long-term Liabilities**

The following is a summary of changes in long-term liabilities and other obligations for governmental activities:

	Balance July 1, 2024	Additions	Reductions	Adjustments	Balance June 30, 2025	Amounts Due Within One Year
A. General obligation refunding bonds payable	\$ 18,885,000	-	890,000	-	17,995,000	975,000
B. Three mill notes payable	540,000	-	370,000	-	170,000	170,000
C. Qualified school construction bonds	6,000,000	-	3,000,000	-	3,000,000	3,000,000
D. Compensated absences payable	459,326	327,045	-	1,464,467	2,250,838	382,642
	<b>\$ 25,884,326</b>	<b>327,045</b>	<b>4,260,000</b>	<b>1,464,467</b>	<b>23,415,838</b>	<b>4,527,642</b>

The change in the compensated absences liability is presented as a net change. The adjustment above to compensated absences was a result of retroactively implementing GASB 101.

**A. General obligation refunding bonds payable**

Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
General obligation refunding bonds, Series 2019	0.30%	1-Apr-19	1-Apr-39	\$ 22,500,000	\$ 17,995,000
Total				<b>\$ 22,500,000</b>	<b>\$ 17,995,000</b>

The following is a schedule by years of the total payments due on this debt:

General obligation refunding bond issue of April 1, 2019:

Year Ending June 30	Principal	Interest	Total
2026	\$ 975,000	623,775	1,598,775
2027	1,025,000	584,775	1,609,775
2028	1,075,000	543,775	1,618,775
2029	1,125,000	500,775	1,625,775
2030	1,165,000	467,025	1,632,025
2031-2035	6,555,000	1,743,075	8,298,075
2036-2039	6,075,000	521,419	6,596,419
<b>Total</b>	<b>\$ 17,995,000</b>	<b>4,984,619</b>	<b>22,979,619</b>

This debt will be retired from the Bond Retirement Fund (debt service fund).

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

The amount of bonded indebtedness that can be incurred by the school district is limited to Sections 37-59-5 and 37-59-7, Miss. Code Ann. (1972). Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the last completed assessment for taxation, unless certain conditions, as set forth in Section 37-59-7, Miss. Code Ann. (1972) have been met. As of June 30, 2025, the amount of outstanding bonded indebtedness was equal to 5% of property assessments as of October 1, 2024.

**B. Three mill notes payable**

Debt currently outstanding is as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding	Amounts due within one year
Limited tax note, Series 2019	2.59%	25-Jul-19	25-Jul-25	\$ 800,000	\$ 170,000	\$ 170,000
Total				\$ 800,000	\$ 170,000	\$ 170,000

The following is a schedule by years of the total payments due on this debt:

Limited obligation bond issue of July 25, 2019:

Year Ending June 30	Principal	Interest	Total
2026	\$ 170,000	4,403	174,403
Total	\$ 170,000	4,403	174,403

This debt will be retired from the Three Mill Note Debt Service Fund (Debt Service Fund).

Future pledge of revenue.

The school district has pledged a portion of the future state revenues the district receives from the State of Mississippi pursuant to the Mississippi Accountability and Adequate Education Program Act, Sections 37-151-1 through 37-151-7, Miss. Code Ann. (1972), to repay \$800,000 in three mill limited tax notes issued on July 25, 2019. The state aid capital improvements bonds are not included in the computation of the debt limit percentage. Proceeds from the notes were used to finance capital improvements made to the district's buildings. The notes are payable through July 25, 2025. The total principal and interest payments remaining are \$174,403. The principal and interest payments for the current year and State EEF funds for buildings and buses were \$385,339 and \$173,863, respectively.

**C. Qualified school construction bonds payable**

As more fully explained in Note 16, debt has been issued by the school district that qualifies as Qualified School Construction Bonds. Debt currently outstanding is as follows:

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding	Amounts due within one year
QSCB, Series 2010	1.25%	1-Dec-10	1-Dec-25	\$ 3,000,000	\$ 3,000,000	\$ 3,000,000
Total				<u>\$ 3,000,000</u>	<u>\$ 3,000,000</u>	<u>\$ 3,000,000</u>

The following is a schedule by years of the total payments due on this debt:

Qualified School Construction Bonds of December 1, 2010:

Year Ending June 30	Principal	Interest	Total
2026	\$ 3,000,000	165,000	3,165,000
Total	<u>\$ 3,000,000</u>	<u>165,000</u>	<u>3,165,000</u>

This debt will be retired from the 2010 QSCB Retirement Fund (Debt Service Fund). The district will make annual payments to a sinking fund maintained by the paying agent.

#### D. Compensated absences payable

As more fully explained in Note 1(E)(8), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

#### Note 8 – Other Commitments

Commitments under construction contracts are described in Note 5

#### Note 9 – Defined Benefit Pension Plan

##### General Information about the Pension Plan

*Plan Description.* The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report is available at [www.pers.ms.gov](http://www.pers.ms.gov).

*Benefits provided.* Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's participation in PERS by the PERS' Board of Trustees. If approved, membership for the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter.

*Contributions.* PERS members are required to contribute 9.00% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The employer's rate as of June 30, 2025 was 17.90% of annual covered payroll. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Section 25-11-1 of the Mississippi Code of 1972, as amended, and may be amended only by the Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2025, 2024 and 2023 were \$5,206,952, \$4,874,396 and \$4,569,413, respectively, which equaled the required contributions for each year, respectively, which equaled the required contributions for each year.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2025, the school district reported a liability of \$94,926,836 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The district's proportion of the net pension liability was based on a projection of the school district's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. The school district's proportionate share used to calculate the June 30, 2025 net pension liability was 0.365561 percent, which was based on a measurement date of June 30, 2024. This was an increase of 0.011294 percent from its proportionate share used to calculate the June 30, 2024 net pension liability, which was based on a measurement date of June 30, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$14,147,086. At June 30, 2025 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 5,080,581	\$
Net difference between projected and actual earnings on pension plan investments	1,085,195	
Changes of assumptions	5,698,095	
Changes in proportion and differences between District contributions and proportionate share of contributions	4,400,144	2,471,237
District contributions subsequent to the measurement date	5,206,952	
Total	<u>\$ 21,470,967</u>	<u>\$ 2,471,237</u>

\$5,206,952 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

Year Ending June 30:		
2026	\$	6,826,844
2027		7,296,256
2028		440,818
2029		(771,140)

*Actuarial assumptions.* The total pension liability as of June 30, 2024 was determined by an actuarial valuation prepared as of June 30, 2023 and by the investment experience for the fiscal year ending June 30, 2024. The following actuarial assumptions are applied to all periods included in the measurement:

Inflation	2.40 percent
Salary increases	2.65 – 17.90 percent, including inflation
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates for service retirees were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to age 60, 110% for ages 61 to 75 and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates for disability retirees were based on the PubG.H-2010 Disabled Table adjusted 134% for males and 121% for females. Mortality rates for Contingent Annuitants were based on the PubS.H-2010(B) Contingent Annuitant Table, adjusted 97% for males and 110% for females. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The actuarial assumptions used for the purposes of determining the total pension liability were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2022. The experience report is dated April 21, 2023.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The most recent target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>		<u>Long-Term Expected Real Rate of Return</u>	
Domestic Equity	25.00	%	5.15	%
International Equity	20.00		5.00	
Global Equity	12.00		5.15	
Fixed Income	18.00		2.75	
Real Estate	10.00		3.50	
Private Equity	10.00		6.25	
Infrastructure	2.00		3.85	
Private Credit	2.00		4.90	
Cash Equivalents	1.00		0.50	
Total	100	%		

*Discount rate.* The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be phased in to 19.90 percent

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

over five fiscal years (17.90 percent for FYE 2025, 18.40 percent for FYE 2026, 18.90 percent for FYE 2027, 19.40 percent for FYE 2028, 19.90 percent for FYE 2029 and beyond). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.* The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 123,038,924	\$ 94,926,836	\$ 71,919,122

*Pension plan fiduciary net position.* Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

**Note 10 – Other Postemployment Benefits (OPEB)**

**General Information about the OPEB Plan.**

*Plan description.* State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). The Plan was established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan. The Board has the sole legal authority to promulgate rules and regulations governing the operations of the Plan within the confines of the law governing the Plan. The Plan is self-insured and is financed through premiums collected from employers, employees, retirees and COBRA participants. The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan. The plan issues a publicly available financial report that can be obtained at <http://knowyourbenefits.dfa.ms.gov/>.

*Benefits provided.*

The Plan was formed by the State Legislature to provide group health and life benefits to full-time active and retired employees of the State, agencies, universities, community/junior colleges, public school districts and public libraries. In addition, the spouse and/or children of covered employees and retirees, as well as surviving spouses and COBRA participants, may be eligible for health insurance coverage under the Plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan. Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance. The Plan offers a Base option and a Select option for health benefits for non-Medicare participants. The Plan includes a separate coverage level for Medicare eligible retirees, Medicare Eligible

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

surviving spouses, and Medicare eligible dependents of retirees and surviving spouses.

*Contributions.*

The Board has the sole authority for setting life and health insurance premiums for the Plan. The required premiums vary based on the plan selected and the type of participant. Employers pay no premiums for retirees while employees' premiums are funded primarily by their employer. Contributions to the OPEB plan from the District were \$118,749 for the year ended June 30, 2025.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB**

At June 30, 2025, the District reported a liability of \$2,727,478 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The basis for the District's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the Plan in the fiscal year of all employers. The allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by the employee. At the measurement date of June 30, 2024, the District's proportion was 0.48810955 percent. This was an increase of 0.0031019 percent from the proportionate share as of the measurement date of June 30, 2023.

For the year ended June 30, 2025, the District recognized OPEB expense of (\$118,062). At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 563,444	\$ 483,292
Changes of assumptions	107,531	208,208
Net difference between projected and actual earnings on OPEB plan investments	107	
Changes in proportion and differences between District contributions and proportionate share of contributions	91,050	79,141
District contributions subsequent to the measurement date	118,749	
<b>Total</b>	<b>\$ <u>880,881</u></b>	<b>\$ <u>770,641</u></b>

\$118,749 reported as deferred outflows of resources related to OPEB resulting from school district contributions subsequent to the measurement date will be recognized as a reduction to the net OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30:	
2026	\$ (104,399)
2027	(53,413)
2028	24,595
2029	62,040
2030	53,382
2031	9,286
<b>Total</b>	<b>\$ <u>(8,509)</u></b>

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

*Actuarial assumptions.* The total OPEB liability was determined by an actuarial valuation as of June 30, 2024, using the following key actuarial assumptions and other inputs:

Inflation	2.40 percent
Salary increases	2.65-17.90 percent, including wage inflation
Municipal Bond Index Rate	
Measurement Date	3.94%
Prior Measurement Date	3.66%
Year FNP is projected to be depleted	
Measurement Date	2024
Prior Measurement Date	2023
Single Equivalent Interest Rate, net of OPEB plan investment expense, including price inflation	
Measurement Date	3.94%
Prior Measurement Date	3.66%
Health Care Cost Trends	
Medicare Supplement Claims	6.00% for 2025 decreasing to an ultimate rate of 4.50% by 2029 FYE
Pre-Medicare	

Mortality rates for service retirees were based on the PubS.H-2010(B) Retiree Table with the following adjustments: For males, 95% of male rates up to age 60, 110% for ages 61 to 75 and 101% for ages above 77. For females, 84% of female rates up to age 72 and 100% for ages above 76. Mortality rates for disability retirees were based on the PubG.H-2010 Disabled Table adjusted 134% for males and 121% for females. Mortality rates for Contingent Annuitants were based on the PubS.H-2010(B) Contingent Annuitant Table, adjusted 97% for males and 110% for females. Mortality rates will be projected generationally using the MP-2020 projection scale to account for future improvements in life expectancy.

The demographic actuarial assumptions used in the June 30, 2024 valuation were based on the results of the last actuarial experience study, dated April 21, 2023.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2024 valuation were based on a review of recent plan experience done concurrently with the June 30, 2024 valuation.

The long-term expected rate of return on OPEB plan investments is 4.50%.

*Discount rate.* The discount rate used to measure the total OPEB liability at June 30, 2024 was 3.94 percent. Since the Prior Measurement Date, the Discount Rate has changed from 3.66% to 3.94%.

The trust was established on June 28, 2018 with an initial contribution of \$1,000,000. As of June 30, 2024, the trust has \$1,104,394. The fiduciary net position is projected to be depleted immediately, therefore, the Municipal Bond Index Rate is used in the determination of the discount rate for both the June 30, 2023 and the June 30, 2024 total OPEB liability. The discount rate used to measure the total OPEB liability at June 30, 2024 was based on a monthly average of the Bond Buyers General Obligation 20-year Municipal Bond Index Rate.

*Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate.* The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

percentage-point lower (2.94 percent) or 1-percentage-point higher (4.94 percent) than the current discount rate:

	1% Decrease (2.94%)	Current Discount Rate (3.94%)	1% Increase (4.94%)
Net OPEB liability	\$ 2,973,329	\$ 2,727,478	\$ 2,512,930

*Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates.* The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Healthcare Cost Trend Rates Current	1% Increase
Net OPEB liability	\$ 2,547,615	\$ 2,727,478	\$ 2,927,998

*OPEB plan fiduciary net position.* Detailed information about the OPEB plan's fiduciary net position is available in a separately issued report that can be found at <http://knowyourbenefits.dfa.ms.gov/>.

**Note 11 – Short-Term Financing**

During the fiscal year ended June 30, 2025, the school district participated in the following short-term financing(s) for the purpose of making improvements within the District and purchasing buses:

Bank-financed short term debt.

- A. The school district issued a Limited Tax Note payable to Trustmark National Bank, and the proceeds from such issuance are accounted for as a current liability in the debt service fund of the school district. Once the cash flow was available, the district made a payment consisting of principal and interest to the trustee.

All transactions related to participation in this program are accounted for as part of the school district's General Fund.

- B. Changes in short-term debt activity recorded in the governmental activities during fiscal year 2025 are as follows:

Description	Balance 7/1/2024	Additions	Reductions	Balance 6/30/2025
Limited Tax Note	\$ -	\$ 1,600,000	\$ 1,600,000	\$ -
<b>Total</b>	<b>\$ -</b>	<b>\$ 1,600,000</b>	<b>\$ 1,600,000</b>	<b>\$ -</b>

**Note 12 – Adjustments and Restatements of Beginning Balances**

Change in Accounting Principle or Estimate

Governmental Accounting Standards Board (GASB) Statement No. 101, effective for the years beginning after December 15, 2023, updates the recognition and measurement guidance for compensated absences. This new standard aims to create a more consistent model applicable to all types of compensated absence arrangements, such as vacation, personal, and sick leave.

A liability for compensated absences must be recognized if: 1) the leave is attributable to services already rendered; 2) the leave accumulates and carries forward to future periods; and 3) it is more likely than not (greater than 50% likelihood) that the leave will be used or paid.

The district restated beginning net position to account for the new liability amounts as of the beginning of the 2025 year. The restatement reduced beginning net position by \$1,464,467.

Correction of an Error in Previously Issued Financial Statements

Capital assets were overstated by \$988,686, while accumulated depreciation was understated by \$21,576. The net OPEB liability was understated by \$2 in the prior year. Total error corrections reduced beginning net position by \$1,010,264.

Adjustments to and Restatements of Beginning Balances

During fiscal year 2025, a change in accounting principle and error corrections resulted in adjustments to and restatements of beginning net position as follows:

	Reporting Units Affected by Adjustments to and Restatements of Beginning Balances	
	Government-Wide	
	Governmental Activities	
July 1, 2024, as previously reported	\$	30,250,765
Error correction		(1,010,264)
Change in accounting principle		(1,464,467)
July 1, 2024, as adjusted or restated	\$	27,776,034

**Note 13 – Alternative School Consortium**

The school district entered into an Alternative School Agreement dated May 11, 2021, creating the Hattiesburg Public School District and Forrest County Agricultural School District Alternative School. This consortium was created pursuant to the provisions of Section 37-13-92(6), Miss. Code Ann. (1972), and was approved by the Mississippi Department of Education. The consortium includes the Hattiesburg Public School District and the Forrest County Agricultural School District.

Section 37-13-92(6), Miss. Code Ann. (1972), allows two or more adjacent school districts to enter into a contract to operate an alternative school program. The school board of the school district designated by the agreement as the lead district will serve as the governing board of the alternative school program. Transportation for students attending the alternative school program will be the responsibility of the individual school districts sending the students.

The Hattiesburg Public School District has been designated as the lead school district for the consortium, and the operations of the consortium are included in its financial statements.

The following Statement of Revenues, Expenditures and Changes in Fund Balances is presented to detail the financial activity of the Hattiesburg Public School District and Forrest County Agricultural School District Alternative School.

**Note 14– Contingencies**

Federal Grants – The school district has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from the grantor audit may become a liability of the school district.

Litigation – The school district is party to legal proceedings, many of which occur in the normal course of governmental operations. It is not possible at the present time to estimate the outcome or liability, if any, of the school district with respect to the various proceedings. However, the school district's legal counsel believes that ultimate liability resulting from these lawsuits will not have a material adverse effect on the financial condition of the school district.

**Note 15 – Risk Management**

The school district is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**Note 16 – Qualified School Construction Bonds**

Section 1521 of the American Recovery and Reinvestment Act (ARRA) of 2009 provides for a source of

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

capital at no or at nominal interest rates for costs incurred by certain public schools in connection with the construction, rehabilitation or repair of a public school facility or for the acquisition of land where a school will be built. Investors receive Federal income tax credits at prescribed tax credit rates in lieu of interest, which essentially allows state and local governments to borrow without incurring interest costs. While Qualified School Construction Bonds (QSCBs) are intended to be interest free to a borrower, the ARRA legislation allows a lender to charge supplemental interest, and such supplemental interest is the responsibility of the school district.

While the stated interest rate on the QSCB results in interest payments that exceed the supplemental interest payments discussed in the preceding paragraph, the school district may apply for a direct cash subsidy payment from the U.S. Treasury which is intended to reduce the stated interest rate to a nominal percentage. These subsidy payments do not include the amount of any supplemental interest paid on a QSCB.

The school district makes equal annual payments into a sinking fund which is used to pay off the bonds at termination. The current maturity limit of tax credit bonds is 17 years, per the U. S. Treasury Department. Under this program, ten percent of the proceeds must be subject to a binding commitment to be spent within six months of issuance and 100% must be spent within three years. Up to two percent of bond proceeds can be used to pay costs of issuance. The amount on deposit at June 30, 2025, was \$2,845,227, which includes cash with fiscal agents of \$697,647, investments of \$2,140,900, and interest of \$6,680. The amount accumulated in the sinking fund at the end of the seventeen-year period is expected to be sufficient to retire the debt. The following schedule reports the minimum annual deposits to be made to the sinking fund by the school district.

Year Ending June 30	2010 Series
2026	\$ 200,000
Total	\$ 200,000

**Note 17 – Effect of Deferred Amounts on Net Position**

The unrestricted net position amount of (\$57,120,224) includes the effect of deferring the recognition of expenses resulting from a deferred outflow from pensions. A portion of the deferred outflow of resources related to pension in the amount of \$5,206,952 resulting from the school district contribution subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. The \$16,264,015 balance of deferred outflow of resources related to pensions, at June 30, 2025 will be recognized as an expense and will decrease the unrestricted net position over the next 3 years.

The unrestricted net position amount of (\$57,120,224) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from pensions. The \$2,471,237 balance of deferred inflow of resources related to pensions, at June 30, 2025 will be recognized as revenue and will increase the unrestricted net position over the next 4 years.

The unrestricted net position amount of (\$57,120,224) includes the effect of deferring the recognition of expenses resulting from a deferred outflow from OPEB. A portion of the deferred outflow of resources related to OPEB in the amount of \$118,749 resulting from the school district contribution subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2026. The \$762,132 balance of deferred outflow of resources related to OPEB, at June 30, 2025 will be recognized as an expense and will decrease the unrestricted net position over the next 6 years.

The unrestricted net position amount of (\$57,120,224) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from OPEB. The \$770,641 balance of deferred inflow of resources related to OPEB, at June 30, 2025 will be recognized as revenue and will increase the unrestricted net

Hattiesburg Public School District  
Notes to the Financial Statements  
For the Year Ended June 30, 2025

position over the next 6 years.

The unrestricted net position amount of (\$57,120,224) includes the effect of deferring the recognition of revenue resulting from a deferred inflow from leases. The \$1,783,129 balance of deferred inflow of resources related to leases, at June 30, 2025 will be recognized as revenue and will increase the unrestricted net position over the next 39 years.

**Note 18 - Subsequent Events**

Events that occur after the Statement of Net Position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the Statement of Net Position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the Statement of Net Position date require disclosure in the accompanying notes. Management of the Hattiesburg Public School District evaluated the activity of the district through the date the financial statements were available to be issued and determined that the following subsequent event occurred requiring disclosure in the notes to the financial statements.

The school district issued a \$12,400,000 limited tax promissory note on August 13, 2025. The note was issued for the purpose of making improvements in the district and paying the costs of the borrowing. The note was issued at a rate of 4.06% and matures on June 1, 2040.

Budgetary Comparison Schedule

(1) Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget, and variances between the final budget and the actual data.

(2) Budget Amendments and Revisions

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15. A budgetary comparison is presented for the General Fund and each major Special Revenue Fund consistent with accounting principles generally accepted in the United States of America.

Pension Schedules

(1) *Changes of assumptions*

2015:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015.

The expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

The price inflation and investment rate of return assumptions were changed from 3.50% to 3.00% and 8.00% to 7.75%, respectively.

2016:

The assumed rate of interest credited to employee contributions was changed from 3.50% to 2.00%.

2017:

The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives.

The wage inflation assumption was reduced from 3.75% to 3.25%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

Hattiesburg Public School District  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2025

2019:

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: for males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119; for females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119; and projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments: for males, 137% of male rates at all ages; for females, 115% of female rates at all ages; and projection scale MP-2018 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 3.00% to 2.75%.

The wage inflation assumption was reduced from 3.25% to 3.00%.

Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.

The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

2021:

The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments: for males, 95% of male rates up to age 60, 110% for ages 61 to 75, and 101% for ages above 77; for females, 84% of female rates up to age 72, 100% for ages above 76; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of disabled mortality was changed to PubG.H-2010 Disabled Table for disabled retirees with the following adjustments: for males, 134% of male rates at all ages; for females, 121% of female rates at all ages; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The expectation of contingent annuitant mortality was based on the PubS.H-2010(B) Contingent Annuitant Table with the following adjustments: for males, 97% of male rates at all ages; for females, 110% of female rates at all ages; and projection scale MP-2020 will be used to project future improvements in life expectancy generationally.

The price inflation assumption was reduced from 2.75% to 2.40%.

The wage inflation assumption was reduced from 3.00% to 2.65%.

The investment rate of return assumption was changed from 7.75% to 7.55%.

The assumed load for administrative expenses was increased from 0.25% to 0.28%.

Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to reflect actual experience more closely.

The percentage of active member disabilities assumed to be in the line of duty was increased from 9% to 12%.

The percentage of active member deaths assumed to be in the line of duty was decreased from 6% to 4%.

Hattiesburg Public School District  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2025

2023:

The investment rate of return assumption was changed from 7.55% to 7.00%.

The assumed load for administrative expenses was decreased from 0.28% to 0.26% of payroll.

Withdrawal rates, disability rates and service retirement rates were adjusted to reflect actual experience more closely.

The percentage of participants assumed to receive a deferred benefit upon attaining the eligibility requirements for retirement was increased from 60% to 65%.

For married members, the number of years that a male is assumed to be older than his spouse was changed from 3 years to 2 years.

The assumed amount of unused sick leave at retirement was increased from 0.50 years to 0.55 years.

The assumed average number of years of military service that participants will have at retirement was decreased from 0.25 years to 0.20 years.

(2) *Changes in benefit provisions*

2016:

Effective July 1, 2016, the interest rate on employee contributions shall be calculated based on the money market rate as published by the Wall Street Journal on December 31 of each preceding year with a minimum rate of one percent and a maximum rate of five percent.

(3) *Method and assumptions used in calculations of actuarially determined contributions.*

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported (June 30, 2022 valuation for the June 30, 2024 fiscal year end). The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, open
Remaining amortization period	25.6 years
Asset valuation method	5-year smoothed market
Price Inflation	2.40 percent
Salary increase	2.65 percent to 17.90 percent, including inflation
Investment rate of return	7.55 percent, net of pension plan investment expense, including inflation

OPEB Schedules

(1) *Changes of assumptions*

2017: The discount rate was changed from 3.01% for the prior Measurement Date to 3.56% for the current Measurement Date.

2018: The discount rate was changed from 3.56% for the prior Measurement Date to 3.89% for the current Measurement Date.

2019: The discount rate was changed from 3.89% for the prior Measurement Date to 3.50% for the current Measurement Date.

Hattiesburg Public School District  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2025

2020: The discount rate was changed from 3.50% for the prior Measurement Date to 2.19% for the current Measurement Date.

2021: The discount rate was changed from 2.19% for the prior Measurement Date to 2.13% for the current Measurement Date.

2022: The discount rate was changed from 2.13% for the prior Measurement Date to 3.37% for the current Measurement Date.

2023: The discount rate was changed from 3.37% for the prior Measurement Date to 3.66% for the current Measurement Date. Withdrawal rates, disability rates, service retirement rates and salary merit rates were adjusted to reflect actual experience more closely.

2024: The discount rate was changed from 3.66% for the prior Measurement Date to 3.94% for the current Measurement Date. Withdrawal rates, disability rates, service retirement rates and salary merit rates were adjusted to reflect actual experience more closely.

(2) *Changes in benefit provisions*

2017: None

2018: None

2019: None

2020: The schedule of monthly retiree contributions was increased as of January 1, 2021. In addition, the deductibles and coinsurance maximums were increased for the Select coverage and the coinsurance maximums were increased for the Base Coverage beginning January 1, 2021.

2021: The schedule of monthly retiree contributions was increased as of January 1, 2022. In addition, the in-network medical deductible was increased for the Select coverage beginning January 1, 2022.

2022: The schedule of monthly retiree contributions was increased as of January 1, 2023. In addition, the in-network medical deductible was increased for the Select coverage beginning January 1, 2023.

2023: The schedule of monthly retiree contributions was increased as of January 1, 2024. In addition, the in-network medical deductible was increased for the Base Family coverage beginning January 1, 2024.

2024: The schedule of monthly retiree contributions was increased as of January 1, 2025. In addition, the medical deductible was increased for the Base Family coverage beginning January 1, 2025.

(3) *Methods and assumptions used in calculations of Actuarially Determined Contributions.* The Actuarially Determined Contributions rates, as a percentage of payroll, used to determine the Actuarially Determined Contribution amounts in the Schedule of Employer Contributions are calculated as of the most recent Valuation Date. The following actuarial methods and assumptions (from the June 30, 2023 actuarial valuation) were used to determine contribution rates reported in that schedule for the year ending June 30, 2024:

Hattiesburg Public School District  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2025

Actuarial cost method	Entry age
Amortization method	Level dollar
Amortization period	30 years, open
Asset valuation method	Market Value of Assets
Price inflation	2.40%
Salary increases, including wage inflation	2.65% to 17.90%
Initial health care cost trend rates	
Medicare Supplement Claims	6.50%
Pre-Medicare	
Ultimate health care cost trend rates	
Medicare Supplement Claims	4.50%
Pre-Medicare	
Year of ultimate trend rates	
Medicare Supplement Claims	2029
Pre-Medicare	
Long-term investment rate of return, net of OPEB plan investment expense, including price inflation	3.66%

Hattiesburg Public School District  
Notes to the Supplementary Information  
For the Year Ended June 30, 2025

Schedule of Expenditures of Federal Awards

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Hattiesburg Public School District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Hattiesburg Public School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Hattiesburg Public School District.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the same basis of accounting and the same significant accounting policies, as applicable, as those used for the financial statements; however, the expenditures include transfers out. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Indirect Cost Rate

The Hattiesburg Public School District has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

(4) Other Items

Donated commodities are included in the National School Lunch Program.

E-rate funds have not been included on this schedule due to the fact the FCC considers the support to be in the form of providing a discount to the schools and libraries and does not consider the assistance to be direct financial support.

Schedule of Instructional, Administrative and Other Expenditures – Governmental Funds

(1) Basis of Accounting

This schedule is presented on the same basis of accounting and the same significant accounting policies, as applicable, as those used for the financial statements.

**HATTIESBURG PUBLIC SCHOOL DISTRICT**

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Superintendent and School Board  
Hattiesburg Public School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Hattiesburg Public School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Hattiesburg Public School District's basic financial statements, and have issued our report thereon dated March 20, 2026.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Hattiesburg Public School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hattiesburg Public School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hattiesburg Public School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Hattiesburg Public School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report  
on Compliance For Each Major Federal Program and Report on Internal Control  
Over Compliance Required by the Uniform Guidance**

Superintendent and School Board  
Hattiesburg Public School District

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Hattiesburg Public School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Hattiesburg Public School District's major federal programs for the year ended June 30, 2025. The Hattiesburg Public School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Hattiesburg Public School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of the Hattiesburg Public School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Hattiesburg Public School District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Hattiesburg Public School District's federal programs.

***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Hattiesburg Public School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the

Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Hattiesburg Public School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Hattiesburg Public School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Hattiesburg Public School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Hattiesburg Public School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board  
Hattiesburg Public School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hattiesburg Public School District as of and for the year ended June 30, 2025, which collectively comprise Hattiesburg Public School District's basic financial statements and have issued our report thereon dated March 20, 2026. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to ensure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds." As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the auditor shall test to ensure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of our procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements did not disclose any instances of noncompliance with other state laws and regulations.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies, the Office of the State Auditor and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.
